THE INDIAN LAW REPORTS

Published in FOUR SERIES, vis.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor Genoral in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad,

Perts, which are insued, acach month, at Calcutta. Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court. The cases heard by the Pr.sy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

respectively.

Persons desiring to subscribe for o purchase the Reports

the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

the Superintendent, Government Press, Madras, or the Superintendent, Government Central Press, Bombay, or the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

THE terms of subscription and the terms on which current sue and back numbers are sold, are as follows:-

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on onday, the 26th June 1911, corresponding with 12th Ashar 1318 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the collector at the time of sale. The purchaser of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reakoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Jharia Branch of the East Indian Railway, in the district of Manbhum, will be put up to sale at 8 o'clock on Monday, the 19th June 1911, at Dhanbaid Inspection Bungalow:--

The purchasers of the several plots of land will be subject to the following conditions:-

Ist.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited.

If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

INDIAN LAW REPORTS

Published in FOUR SERIES, vis.

CALCUT'A, MADRAS, BOMRAY AND ALLAHARAD

THE indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Sombay and Allahabad.

esch month, at Calcutta, Madras, Sombay and Allahabad, rest sctively.

The keports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Pr.sy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad.

otively. ould suply to -the Officer in charge. Bengal Secretariat Book Depot, Calcutta,

the Superintendent, Government Press, Madras, or the Superintendent, Government Central Press, Bombay, or the Carator of Government Books, United Provinces of Ages and Oudh, Allahabad.

NOTICE.

[Under rule 20, order 5 of Act V of 1908.]

In the Court of the Second Munsif of Barasat, district 24-Parganas.

MORTGAGE SUIT No. 560 or 1911.

Raj Kristo Ghose, plsintiff, versus Khoda Bux Meah, of Kankinarah, thana Jagaddal, district 24-Parganas,

of Kankinarah, thana Jagaddai, district 24 Targanas, defendant.

NOTICE is hereby given that the plaintiff has instituted the above suit against you for the sum of rupees six hundred on a registered mortgage bond, dated the 26th Kartik 1314 (B.S.), and that 15th June 1911 has been fixed for the final disposal of the case. In case you do not appear before this Court on or before the said date fixed an ex parte judgment against you will follow.

KHAGENDRA NATH DUTT, Munsif, 2nd Court, Barasat.

Barasat, the 9th June 1911. (728--1-710)

Notification of Sale.

TO be peremptorily sold by the Registrar of the Calcutta High Court, Original Side, inchis sale room in the Court-house on Saturday, the 8th day of July 1911, at the hour of 12 o'clock noon, pursuant to preliminary and final decrees made in suit No. 891 of 1908 (wherein Chattu Lall Misser is the plaintiff and Sreemutty Krishna Kamini Dasi and others are defendants), dated, respectively, the 3rd day of February 1809 and the 5th day of December 1910, the undermentioned property: mentioned property:-

Mentioned property:—
All that piece or parcel of tenanted land situate, iying at and being No. 37, Nilmoney Mitter's Street, in Sut:matty, in the North Division of the town of Calcutta, containing by admeasurement 18 cottahs 4 chitaks and 2 square feet, be the same a little more or less, and butted and bounded in manner following, that ato say, on the north by the tenanted land belonging to the late Dewan Kristo Kanto Sen, on the east partly by the tenanted land belonging to Dewan Kristo Kanto Sen and partly by the tenanted land of Nundo Lall Ray and others, on the south by Nilmoney Mitter's Street, and on the west partly by the tenanted land of Dewan Kristo Kanto Sen and partly by a bustee passage.

passage.

It appears from the evidence of the bustee Surveyor,
Babu Gakul Chandra Chatterjee, taken before me on
the 25th April 1911, that the Corporation proposes to
widen the passage forming the western boundary of the
said land, and will in so doing acquire, at its own cost,
2 cottahs 3 chitaks and 21 square feet of land from the

said premises. It further appears from his evidence that the Corporation have ordered a new road to be opened out running from east to west through the said premises and cutting off a small portion of about 9 chitaks 9 square feet, which will be to the north of the said new road, the area of the said premises to be taken up by the said road being about 1 cottah 7 chitaks and 8 square feet, more or less, as will appear from the plan filed with me.

filed with me.

The cost of making the said road has to be borne by the owners of the lands adjoining the road in proportion to the respective amounts of land taken up.

The abstract of title, the conditions of sale and the abovementioned plan may be seen at the office of the said Registrar, or at No. 3, Hastings Street, Calcutts, at the office of Messrs. Manuel and Agarwalla. Attorneys for the plaintiffs, on any day before the sale and will be produced at the sale.

J. H. HECHTE Registrar. Manuel and Agarwalla, Attorneys for the plaintiffs High Court, Original Side, Calcutta. (750-1-700)

LAW REPORTS THE INDIAN

Published in FOUR SERIES, vis.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta. Madras, Bombay and Allahabad,

each month, at Calcutta. Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Pr.yy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad,

respectively.

Persons destring to subscribe for a purchase the Reports

onld apply to— onld officer in charge. Bengal Secretariat Book Depot, Calcutta.

the Superintendent, Government Press, Madras, or the Superintendent, Government Central Press, Bombay, or the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated on the Grand Trunk Road and adjacent to the Konnagore Police station, in the district of Hooghly, will be put up to sale at 1 o'clock on Monday, the 31st July 1911, corresponding with the 15th Sraban 1818 B.S., Fusli, at Chinsurah Land Acquisition office:—

The purchasers of the several plots of land will be subject to the following conditions:-

- 1st .- If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 2nd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first, succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 3rd .- The plots of land will be sold revenue-free to the highest bidders.
- 4th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

KUMUD NATH MUKHABJI, for Collector.

APPENDIX XXIII.

Advertisement of Sale.

Colors is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, in the district of Murshidabad, will be put up to sale at 1 o'clock on the 9th August 1911, corresponding with the 24th Sraban 1318 B.S., at the Subdivisional Office of Jangipur.

The purchasers of the several plots of land will be subject to the following conditions:—

The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

Raghunathganj, the 12th June 1911.

JATINDRA MOHAN SINHA, Subdivisional Officer, Jangipur.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 12 o'clock on Wednesday, the 2nd August 1911, corresponding with the 17th Sraban 1318 Fusli, at the Mohuda Railway Station.

The purchasers of the several plots of land will be subject to the following conditions:-

- 1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than three feet from the same.
- 2nd .- If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 4th.-The plots of land will be sold revenue-free to the highest bidders.
- 5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

INDIAN LAW REPORTS

Published in FOUR SERIES, vis.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad,

each month, at Calcutta, Madras, Bombay and Allahabad,
The Reports comprise four Beries—one for the Calcutta High
Court, a second for the Madras High Court, a third for the
Bombay High Court, and a fourth for the Allahabad High Court.
The cases heard by the Pr.yy Council on appeal from each
High Court are reported in the Series for that High Court. Cases
heard by the Privy Council on appeal from Provinces in India
not subject to any High Court are reported in the Calcutta
series.

The Calcutte Series is distributed.

series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Raghunathganj, the 12th June 1911.

JATINDRA MOHAN SINHA, Subdivisional Officer, Jangipur.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Manbhum, will be put up to sale at 12 o'clock on Wednesday, the 2nd August 1911, corresponding with the 17th Sraban 1318 Fusli, at the Mohuda Railway Station.

The purchasers of the several plots of land will be subject to the following conditions:-

- 1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than three feet from the same.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 4th.-The plots of land will be sold revenue-free to the highest bidders.
- 5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

P. N. MUKHARJI, Land Acquisition Deputy Collector, Manbhum.

Purulia, the 12th June 1911.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates, situated in the Magura subdivision in the district of Jessore, will be put up to sale at the Magura Subdivisional Office on the 8th August 1911, corresponding with the 23rd Sravan 1318 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate is to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.
- 2nd. The sale is to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd .- If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

BENGAL ACT No. II of 1911.

An Act further to amend the Bengal Vaccination Act, 1880. Ben. Act V

Whereas it is expedient further to amend the Bengal Vaccination Act, 1880, in manner hereinafter appearing; It is hereby enacted as follows:—

- Short title and local 1. (I) This Act may be called the Bengal Vaccination extent. (Amendment) Act, 1911; and
 - (2) It applies in the first instance only to—
 - (a) Calcutta, as defined in clause (7) of section 3 Ben. Act of the Calcutta Municipal Act, 1899,
 - (b) the port of Calcutta, and
 - (c) the Cossipore-Chitpur, Garden Reach, Howrah, Maniktola, South Suburban and Tollygunge Municipalities.
- Power to extend 2. (1) The Local Government may, by notification published in the Calcutta Gazette, declare its intention to extend this Act or any portion thereof to any town or selected area not mentioned in section 1, sub-section (2).
 - (2) Any inhabitant of any such town or area who objects to such extension may, within a period of six weeks from such publication, send his objection in writing to a Secretary to the Government of Bengal; and the Local Government shall consider all objections so sent.
 - (3) After the expiration of the said period, the Local Government, if no objections have been so sent, or if it considers that the objections so sent are insufficient, may, by a like notification, effect the proposed extension.
 - (4) The substance of every notification under sub-section (1) or sub-section (3) shall be proclaimed and notified in the vernacular, within the town or area affected, by such means and in such manner as the Local Government may direct.
- Power to suspend 3. The Local Government may, by notification in the Calcutta Gazette, suspend the operation of this Act in any place.
- Amendment of 4. After the definition of "public vaccinator" in section Ben. Act V section 2 of Bengal 2 of the Bengal Vaccination Act, 1880, the following shall be of 1880.

 inserted, namely:—
 - "'Inspector' means a person authorized by the Superintendent of Vaccination to exercise all or any of the functions of an Inspector under this Act."
- Repeal of portions 5. The following words in section 2 of the said Act are hereby repealed, namely:—
 - (1) the words "or specially licensed by the Lieutenant-Governor to practise vaccination and grant certificates under the provisions of this Act", in the definition of "medical practitioner", and
 - (2) the word "either" and the words "or by inoculation", in the definitions of "unprotected child" and "unprotected person".
- Amendment of sec- 6. In section 3 of the said Act .-
 - (1) for the words "one year", in the first place in which they occur, the words "six months" shall be substituted, and

(2) the following words shall be repealed, namely :-

"or, if the child be at the time of its arrival less than one year old, within one year and three months after its birth; and the parent or guardian of every unprotected child living in such place at the date of this Act coming into force therein, and whose age at such date exceeds one year, but does not exceed fourteen years, shall, within six months from the said date."

Amendment of sec-

7. In section 4 of the said Act,-

- (1) for the words "the same day in the following week" the following shall be substituted, namely:—
 - "a day not less than seven or more than ten days";
- (2) for the words "by the operator or by any person deputed for that purpose by the Superintendent of Vaccination" the following shall be substituted, namely:—
 - "by the operator (if a medical practitioner) or by an Inspector";
- (3) for the words "and it shall be the duty of any public vaccinator who has vaccinated a child elsewhere than at a public vaccine-station to visit the child at the time and for the purpose above mentioned, whether he is requested to do so or not, unless the Superintendent of Vaccination has deputed some other person to act for such public vaccinator in this behalf" the following shall be substituted, namely:—
 - "and, when any public vaccinator has vaccinated a child elsewhere than at a public vaccine-station, an Inspector shall visit the child at the time and for the purpose above mentioned, whether he is requested to do so or not";
- (4) for the words "the public vaccinator" the words "the Inspector" shall be substituted; and
- (5) for the words "a public vaccinator" the words "an Inspector" shall be substituted.

Amendment

8. In section 5 of the said Act,-

- (1) for the words "public vacginator," in both places in which they occur, the word "Inspector" shall be substituted, and
- (2) for the words "three months," in both places in which they occur, the words "one month" shall be substituted.

Amendment

- 9. For section 6 of the said Act the following shall be substituted, namely:—
 - "6. (1) If any Inspector or medical practitioner finds-

Procedure where child is found to have had small-pox or to be insusceptible of successful vaccination,

- (a) that a child brought for vaccination has already had small-pox, or
- (b) that a child who has been three times unsuccessfully vaccinated is insusceptible of successful vaccination,

he shall deliver to the parent or guardian of such child a certificate under his hand, according to the form in Schedule B hereto annexed or to the like effect.

- (2) If the Superintendent is satisfied that such child has already had small-pox, or is insusceptible of successful vaccination, he shall endorse such certificate.
- (3) Such endorsement shall operate as an exemption from liability to vaccination,—
 - (i) in case (a) in sub-section (1) absolutely, and
 - (ii) in case (b) in that sub-section—for a period of twelve months.
- (4) Upon the expiration of the said period, the parent or guardian of such child shall forthwith cause the child to be vaccinated again;

and, if an Inspector or a medical practitioner finds after two further unsuccessful vaccinations that the child is insusceptible of successful vaccination, he shall deliver to the parent or guardian a further certificate under his hand, according to the form of Schedule B hereto annexed, or to the like effect;

and, if the Superintendent of Vaccination be again satisfied that the child is insusceptible of successful vaccination, he shall endorse such certificate, and such endorsement shall operate as an absolute exemption from liability to further vaccination."

Amendment section 7.

- 10. In section 7 of the said Act, for the words "Every public vaccinator or medical practitioner who shall have performed the operation of vaccination upon any child and shall have ascertained that the same has been successful," the following shall be substituted, namely:—
- "When a public vaccinator or medical practitioner has performed the operation of vaccination upon any child, and an Inspector or such practitioner has ascertained that the same has been successful, such Inspector or practitioner, as the case may be."

Amendment section 8.

- of 11. In section 8 of the same Act,-
 - (1) for the words "public vaccinator," where they first occur, the word "Inspector" shall be substituted, and
 - (2) after the word "nor" the words "by any public vaccinator" shall be inserted.
- Amendment of 12. In section 10 of the said Act, after the word "assistants" the words "or any Inspector" shall be inserted.
- Amendment of 13. In sections 13A, 29A and 29B of the said Act, after the sections 13A, 29A and words "public vaccinator" the words "or Inspector" shall be inserted.
- Amendment of 14. In sections 15, 16 and 33 of the said Act, after the words sections 15, 16 and 33. "public vaccinators," wherever they occur, the words "and Inspectors" shall be inserted.
- Amendment of 15. In section 19 of the said Act, for the words "public vaccinator" the word "Inspector" shall be substituted.
- Amendment section 28.

 16. In clause (a) of section 28 of the said Act, before the words "after vaccination" the words "to the operator (if a medical practitioner) or to an Inspector" shall be inserted.
- Amendment of 17. In Schedule A to the said Act,-
 - (1) for the words "three months" the words "one month" shall be substituted, and
 - (2) for the words "Public Vaccinator" the word "In-

Amendment schedule B. 18. For Schedule B to the said Act the following shall be substituted, namely:—

"SCHEDULE B.

(see section 6.)

I, the undersigned, hereby certify

that

, the child of

, residing at

, has already had small-pox

(or, as the case may be)

that I have (or a public vaccinator has) three times (or twice, as the case may be) unsuccessfully vaccinated , the child of . residing at

and I am of opinion that the said child is insusceptible of successful vaccination.

Dated this day of 19 .

(Signature of Medical Practitioner or Inspector.)

(Endorsement by Superintendent of Vaccination.)"

Amendment Schedule C.

- 19. In Schedule C to the said Act,-
 - (1) after the words "by me" the words "(or by a public vaccinator)" shall be inserted, and
 - (2) for the words "Public Vaccinator" the word "Inspector" shall be substituted.

Amendment Schedule E.

- 20. In Schedule E to the said Act,-
 - (1) for the words "one year" the words "six months" shall be substituted, and
 - (2) for the words "the public vaccinator," in the fourth place in which they occur, and for the words "a public vaccinator," the words "an 7nspector" shall be substituted.

BILL

TO AMEND THE ESTATES PARTITION ACT, 1897.

[Note.—Proposed amendments in the existing law are, as far as possible, printed in antique type.]

WHEREAS it is expedient to amend the Estates Partition Act, 1897, in the manner hereinafter appearing;

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 55 & Vict., c. 14.

It is hereby enacted as follows:-

Short title.

1. This Act may be called the Bengal Estates Partition (Amendment) Act, 1910.

Amendment of section 12 of Bengal Act V of 1897. (1) In sub-section (1) of section 12 of the Estates Partition Act, 1897,-

(a) for the words and figures "section 265 of the Code of Civil Procedure" the words and figures "section 54 of the Code of Civil Procedure, 1908," shall be substituted; and

- (b) for the words and figures "section 396 of that Code" the following shall be substituted, namely:—
 - "rules 13 and 14 in Order XXVI in the first Schedule to that Code, as amended for the time being by rules made by the High Court under section 122 of that Code".
- (2) In sub-section (2) of section 12 of the said Estates Partition Act, 1897, for the figures "265" the figures "54" shall be substituted.
- Amendment of secondary of the Collector of the Commissioner, as the case may be, with the previous sanction of the Board," the following shall be substituted, namely:—

"the Collector (with the previous sanction of the Commissioner) or the Commissioner, as the case may be."

- Amendment of sec. 4. In section 41 of the said Act, for the words "Lieutenant Governor," wherever they occur, the word "Commissioner" shall be substituted.
- Amendment of sec. 5. In section 52 of the said Act, for the words and figures tion 52. "sections 506 to 522 (both inclusive) of the Code of Civil Procedure" the following shall be substituted, namely:—

"rules 1 to 16 in the second Schedule to the Code of Civil Procedure, 1908 (as amended for the time being by rules made by the High Court under section 122 of that Code)."

- Amendment of sec- 6. In sub-section (2) of section 54 of the said Estates tion 54 (2).

 Partition Act, 1897, 'for the word "Commissioner" the word "Collector" shall be substituted.
- Amendment of section 55.

 7. In section 55 of the said Act, for the words "the approval
 of the Collector and the confirmation of the Commissioner" the
 words "the confirmation of the Collector" shall be substituted.
- Amendment of 8. In the heading to Chapter VIII of the said Act, after heading to Chapter the word "Approval" the words "and Confirmation" shall be inserted.
- Amendment of sec- 9. (1) In sub-section (1) of section 58 of the said Act, for the word "sanction" the word "approval" shall be substituted.
 - (2) To sub-section (3) of the said section the following shall be added, namely:—

"and not less than one month from the date of any order of the Deputy Collector which is appealable to the Collector under section III."

- (3) In sub-section (4) of the said section 58, before the word "objection" the words "appeal or" shall be inserted.
- New section 61. 10. For section 61 of the said Act the following shall be substituted, namely:—
 - "61. When a partition has been approved by the Collector Notice of day for or when he has made a new partition, and confirming partition. after the tender of extracts and the publication of a notification as provided in section 59,

the Collector shall cause a notice to be served on each of the recorded proprietors, stating that he will, on or after a day specified in the notice, consider whether the partition should be confirmed, and that objections (if any) must be presented to him within thirty days from the date of the service of the said notice."

New sections 61A to 11. After the said section 61 the following shall be inserted, namely:-

- "61A. (1) If any objection is presented within the time [Cf. Ben. Act
 Procedure if objection allowed under section 61, the Collector 90.]
 presented. shall, by order, fix a day (not being less
 than thirty days from the date of such order) for hearing and disposing of the case, and shall cause notice of such day to be served on all the parties.
 - (2) On the day so fixed, or on any subsequent day to which the hearing of the case may extend or is postponed by a notice posted up in his own office, the Collector shall, after hearing and disposing of all objections and calling for any further information which he may consider necessary, either confirm the partition, with or without amendments, or return the papers of the partition to the Deputy Collector for any amendments which the Collector may think proper to be made.
 - (3) If the papers are returned to the Deputy Collector for amendment, he shall proceed to make the required amendments, and shall thereafter return the papers to the Collector, who may then confirm the partition.

"61B If it does not appear to the Collector that the [cf. Ben. Act
Procedure in other proceedings require amendment, or if no V of 1897, a.
objection is presented within the time cases. objection is presented within the time allowed under section 61, the Collector may proceed to consider the case without issuing any notice, and may confirm the partition.

"61C. The Collector may, before confirming a partition, V. of 1897, a. return the papers for amendment or inquiry 92.] Collector may return the papers for amendas often as he thinks fit, and as often as he ment or inquiry as often as he thinks fit.

sections 61 A and 61 B shall be applicable."

t of 12. For the heading to Chapter X of the said Act the Chapter following shall be substituted, namely:—

"PROCEDURE after confirmation of a Partition, UP TO THE COMPLETION OF the proceedings."

Repeal of sections 13. Sections 90, 91 and 92 of the said Act are hereby repealed.

- New section 98, 14. For section 93 of the said Act the following shall be substituted, namely:--
 - Procedure by Collector after confirmation or maintaining of partition.

 The expiration of not less than thirty days from the date of the order of the Collector confirming a partition,

or, if an appeal has been preferred to the Commissioner or the Board, or if any proceedings in respect of the partition be pending before the Commissioner or the Board, then on receipt of the final order of the Commissioner or the Board, if such order does not set aside but maintains, with or without amendments, the partition as confirmed by the Collector,

the Collector shall cause to be published at his office, and at some conspicuous place in each of the estates separately constituted by the order of the Collector, the Commissioner or the Board, as the case may be a notice that the partition has been confirmed or maintained, with or without amendments, by the Collector, the Commissioner or the Board, as the case may be.

(2) If the partition, as so confirmed or maintained, involves any alterations which may conveniently be made on any extracts of the partition paper or on any maps which have been prepared and delivered to recorded proprietors under section 59, the Collector shall cause a notice to be served on every recorded proprietor whose estate is affected by such alterations, requiring him to produce such extracts and maps in order that such alterations may be noted on them;

and, if the alterations be such as to make it desirable to prepare fresh extracts or maps as aforesaid, the Collector shall cause a notice to be served on each proprietor, declaring the extract and map which was delivered under section 59 to be cancelled, and requiring him to take out of the Collector's office the fresh extract or map which has been prepared,"no should be

Amendment of sec. 15. In section 97 of the said Act, for the words and figures on 97. "the powers conferred by Chapters X and XIV of the Code of Civil Procedure" the following shall be substituted, namely:—

"the powers conferred-

- (1) by sections 30 to 32 of the Code of Civil Proce- V of 1908-dure, 1908, and daldw ,tolk stiff
- (2) by Orders XI, XII, XIII and XVI in the first Schedule to that Code, as amended for the time being by rules made by the High Court under section 122 of that Code."
- 16 In section 101 of the said Act, for the words "confirm-Amendment of sec. ation or sanction of the partition" the words "confirmation of the partition by the Collector or of its amendment" shall be substituted.

Avendment of sec. 17. In section 102 of the said Act .-

- (a) for the words "Lieutenant Governor," wherever they occur, the word "Commissioner" shall be substituted, and
- (b) for the words "confirmation or sanction of a partition" the words "confirmation of a partition by the Collector or of its maintenance" shall be substituted.
- Amendment of sec. 18. In section 103 of the said Act, for the words "Lieuton 103. tenant Governor," wherever they occur, the word "Commissioner" shall be substituted.
- Amendment of sec19. In section 109 of the said Act, for the words "sanction" and "sanctioned" the words "approval" and "approved," respectively, shall be substituted.
- Amendment of sec- 20. In sub-section (1) of section 110 of the said Act, for the words "Lieutenant Governor" the word "Commissioner" , shall be substituted.
- New section 110A. 21. After section 110 of the said Act the following shall be inserted, namely:—
 - "110A. Any Collector or Deputy Collector may, by Power to suthorize written order, authorize any ministerial officers to sign, on behalf of the Collector or Deputy Collector, as the case may be, any copy, issued by the Collector or Deputy Collector under this Act, of any document referred to herein."
- 22. In sub-section (2) of section 111 of the said Act, for the words "if made when he proceeds to consider a partition under section 58" the following shall be substituted, namely:— Amendment of section 111 (2).

"if maintained when he proceeds to consider a partition under section 58, section 61A, section 61B or section 61C."

- (1) For clause (e) of section 112 of the said Act the ndment of secfollowing shall be substituted, namely:-
 - "(e) confirming or amending a partition, or." (2) Sub-section (2) of the said section 112 is hereby repealed.

New section 113.

24. For section 113 of the said Act the following shall be substituted, namely:-

"113. (1) An appeal against any order made by the Com-second appeal to the missioner under this Act shall lie to the Board. Board on one or more of the following Board on one or more of the following grounds only :-

- (a) that the order is contrary to law or to some usage [Cf. Act V of 1908, ss. 100, having the force of law;

 (b) that the order has failed to determine some 113, 114 (1), material issue of law or usage having the force (\$\frac{2}{5}\$). of law;
 - (c) that there has been a substantial error or defect in the procedure prescribed by this Act, which may possibly have produced error or defect in the decision of the case upon the merits.
- (2) Every such appeal must be presented to the Board, or to the Commissioner for transmission to the Board, within six weeks from the date of the order appealed against."

New section 118A.

25. After the said section 113 the following shall be inserted, namely:-

"118A. Subject to such conditions and limitations as may be prescribed by rule made under section 121, any person considering himself aggrieved-

- (a) by an order from which an appeal is allowed by 1908, s. 114.] this Act, but from which no appeal has been preferred, or
 - (b) by an order from which no appeal is allowed by this Act,

may apply for a review of the order to the authority who made the order; and that authority may make such order on the application as it thinks fit."

New section 114. 26. For section 114 of the said Act the following shall be substituted, namely :-

"114. The Board may call for the record of any case or [Cf Act V of proceeding which has been decided under 1908, s. 115; this Act by any authority subordinate Ben Act V of to it, and in which no appeal lies to the Board; and if such (1).]

authority appears—

(a) to have exercised a jurisdiction not vested in it by law, or

(b) to have failed to exercise a jurisdiction so vested, or

(e) to have acted in the exercise of its jurisdiction illegally or with material irregularity, the Board may make such order as it thinks fit."

New section 116.

27. For section 115 of the said Act the following shall be substituted, namely: --

"115. When an appeal is presented under section 111
section 112 or section 113, against an crder made by any officer, or when the Stay of proce pending appeal revision, Board calls upon any officer, or when the Board calls upon any officer, under section 114, for the record of any case or proceeding, such officer may, in his discretion, subject to any direction given by the Board, stay all further proceedings pending the appeal or revision."

28. In section 118 of the said Act, for the figures "1882" the figures "1898" shall be substituted.

29. After clause (k) of section 121 of the said Act the following shall be inserted, namely :-

(kk) prescribing conditions and limitations upon the exercise of the right conferred by section 113A; and."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to make various amendments in the Estates Partition Act, 1897 (Ben. Act V of 1897), in order to reduce the delays which commonly take place in batwara proceedings.

II. The principal changes proposed are-

- (1) the transfer from the Commissioner to the Collector of the duty of confirming partitions, and the transfer from the Board of Revenue to the Commissioner of the duty of hearing appeals against orders confirming partitions [clauses 7, 10, 11, 14 and 23 of the Bill];
- (2) the transfer from the Commissioner to the Collector of the power to approve arbitrators' fees [clause 6];
- (5) the transfer from the Board to Commissioners of the power to sanction the appointment of special establishments for partition work [olause 3];
- (4) the transfer of certain powers from the Lieutenant Governor to the Commissioner [clauses 4, 17 (a), 18 and 20];
- (5) the reduction of the period allowed for notices of confirmation of partitions [clause 14];
- (6) the restriction of second appeals to the Board to the ground of legal defect or substantial error or defect in legal procedure (clause 24), coupled with the grant of authority to apply for a review of orders from which an appeal has not been preferred or is barred (clause 25);
- (7) the amplification of the Board's power of revision (clause 26); and
- (8) the extension of the power to stay proceedings pending appeal or revision (clause 27).
- III. The provisions of the Bill are explained in detail in the subjoined notes.

NOTES ON CLAUSES.

- 1. Clauses 2, 5 and 15 of the Bill substitute references to the new Code of Civil Procedure (Act V of 1908) for the references contained in the Estates Partition Act, 1897, to the Code of 1882 (Act XIV of 1882); while clause 28 substitutes a reference to the new Code of Criminal Procedure (Act V of 1898) for the reference contained in that Act to the Code of 1882 (Act X of 1882).
- 2. Clause 3 amends section 36 so as to withdraw the provision requiring the sanction of the Board of Revenue to the appointment of special establishments in the Commissioner's office for partition work, and to require the sanction of the Commissioner, instead of the Board, to the appointment of such establishments in the Collector's office.
- 3. Clause 4 transfers from the Lieutenant Governor to the Commissioner the power to direct that the salary of Deputy Collectors and the cost of special establishments shall be recovered as part of the costs of partitions.
 - 4. Clause 5 .- See paragraph 1, ante.
- 5. Clause 6 transfers from the Commissioner to the Collector the power to approve arbitrators' fees.
- 6. Clause 7 amends section 55 by dispensing with the "approval" of the Collector to partitions made by arbitrators and transferring to him the Commissioner's power to confirm such partitions.
- 7. Clause 8 inserts the words "and Confirmation" in the heading to Chapter VIII, because it is proposed, in clause 11, to transfer sections 90 to 93 (with amendments) from Chapter X to Chapter VIII.
- 8. Clause 9 (1).—The word "approval" is substituted for the word "sanction," in sub-section (1) of section 58, in order to bring the sub-section into harmony with clause (a) of the section.
- 9. Clause 9 (2) adds words to section 58 (3) with the object of getting in all appeals against orders of the Deputy Collector before the Collector proceeds to approve a partition.
- 10. Clause 9 (3) amends section 58 (4) so as to require the Collector to hear and dispose of appeals before he approves a partition.

- 11. Clause 10 amends section 61 so as to transfer from the Commissioner to the Collector the duty of confirming partitions. The reference in section 61 to appeals is struck out, as appeals will, under the amendments proposed by clause 9, all be disposed of before the stage of confirmation is reached. At that stage only objections will be heard, and not appeals.
- 12. Clause 11 re-enacts, as part of Chapter VIII, sections 90 to 92 of the Act, with amen lments of the same character as those mentioned in paragraph 11, ante.
- 13. Clause 12 amends the heading to Chapter X, and clause 13 repeals sections 90 to 92, in consequence of the proposed transfer of those sections to Chapter VIII.
 - 14. Clause 14 re-ensets section 93, with the following amendments:-
 - (a) the maximum period for the publication of notice that a partition has been confirmed, or has been maintained on reference to the Commissioner or the Board, has been reduced from sixty to thirty days after the order of confirmation of maintenance,
 - (b) the Collector is mentioned as the confirming authority, instead of the Commissioner, and the Commissioner is mentioned as one of the appellate authorities, and
 - (c) in sub-section (2), the words "maintained" and "alterations" are, for greater clearness, substituted for the words "sanctioned" and "amendments" respectively.

vores keitmesedna ve

- 15. Clause 15 .- See paragraph. 1, antc.
- 16. Clause 16 and clause 17 (b) make amendments in sections 101 and 102 in consequence of—
 - (a) the transfer from the Commissioner to the Collector of the duty of confirming partitions, and
 - (b) the proposed substitution of "maintained" for "sanctioned" in section 93 (2).
- 17. Clause 17 (a) transfers from the Lieutenant Governor to the Commissioner the power to order a new altotment of the land-revenue under section 102.
 - 18. Clause 17 (b) -See paragraph 16, unte,
- 19. Clause 18 transfers from the Lieutenant Governor to the Commissioner the power to require proprietors of under-assessed estates to make refunds to proprietors of over-assessed estates, when an order for the re-allotment of land-revenue has been made under section 102.
- 20. Clause 19 substitutes "approval" and "approved" for "sanction" and "sanctioned," in section 104, so as to follow section 58, clause (a).
- 21. Clause 20 transfers from the Lieutenant Governor to the Commissioner the power to vest Collectors or Deputy Collectors with settlement powers.
- 22 Clause 21 inserts in the Act a new section, numbered 110A, to enable Collectors and Deputy Collectors to delegate to ministerial officers the duty of signing copies of documents issued under the Act, namely, under section 21, 48, 59 (2) or 105 (d). It is desirable to relieve Collectors and Deputy Collectors of ministerial work of this kind.
- 23. Clause 22 amends section 111 (2) in consequence of the transfer from the Commissioner to the Collector of the duty of confirming partitions.
- 24. Clause 23 (1) introduces a revised clause (e) into section 112. The existing clause (s) will not be required, because it is proposed to amend section 55 by dispensing with the "approval" of the Collector to partitions made by arbitrators. The new clause (e) is inserted in order to give a right of appeal to the Commissioner from orders of the Collector confirming partitions, since it is proposed to transfer the duty of confirming partitions to the latter officer.
- 25. Clause 23 (2) repeals section 112 (2) in consequence of the transfer from the Commissioner to the Collector of the duty of confirming partitions.
- 26. Clause 24 introduces a new section to regulate second appeals to the Board of Revenue, in place of section 113 and parts of section 114 of the Act of 1897. The new section is based on sectious 100 and 101 of the Code of Civil Procedure, 1908 (Act V of 1908). It will materially reduce appeals to the Board, by prohibiting them altogether except on the ground of some legal defect or some substantial error or defect in legal procedure. It is considered unnecessary to continue to allow a second appeal against orders of the Commissioner on questions of fact.
- 27. Clause 25 introduces a new section authorizing applications for a review of any order made under the Act, when an appeal has not been preferred or is barred. The section is based on section 114 of the Code of Civil Procedure, 1908 (Act V of 1908).
- 28. Power is taken, in clause 29 of the Bill, to prescribe conditions and limitations upon the exercise of the right to apply for a review; and rules on the basis of those contained

in Order XLVII in Schedule I to the Code of Civil Procedure, 1908, will be framed when the Bill becomes law. Such rules will also prescribe a period of limitation for applications for

- 29. Clause 26 introduces a new section to regulate revision by the Board of Revenue in place of part of section 114 (1) of the Act of 1897. The new section is based on section 115 of the Code of Civil Procedure, 1908.
- 30. Clause 27 amends section 115 so as to empower officers, subject to any direction given by the Board, to stay proceedings when an appeal is presented or when the Board calls for records. The section, as it at present stands in the Act, unduly limits the discretion of officers in this matter.
 - 31. Clause 28 .- See paragraph 1, ante.
 - 32. Clause 29 .- See paragraph 28, ante.

W. C. MACPHERSON.

The 30th January, 1911.

F. G. WIGLEY, Secretary to the Bengal Legislative Council.

The Calcutta Gazette.

·WEDNESDAY, MARCH 8, 1911.

PART IV

Bills introduced in the Bengal Tegislative Council, Reports of Select Committees presented to that Council, and Bills published under Rule 34.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

The following preliminary report of the Select Committee on the Calcutta Improvement Bill, 1911, together with the Bill as amended by the Committee, and a reprint of the Land Acquisition Act, 1894 (I of 1894), with proposed modifications embodied in loco, is, by order of the President, published for general information:—

THE CALCUTTA IMPROVEMENT BILL, 1911.

PRELIMINARY REPORT OF THE SELECT COMMITTEE.

WE, the undersigned, members of the Select Committee to which the Bill

Paper No. 1. -Letter No. 708, dated the 8th September, 1910, from the Secretary to the Central National Muhammadan Association.

Paper No. 2.—Letter from the Secretary to the Calcutta Trades Association.

Paper No. 3.—Letter No. 346, dated the 4th November, 1910, from the Honorary Secretary, Angle-Indian Association.

Paper No. 4.—Letter No. 162D., dated the 5th November, 1910, from the Acting Secretary, Indian Jute Mills Association.

Papers No. 5.—Letter No. 1334, dated the 2nd November, 1910, from the Honorary Secretary, European and Angle-Indian Defence Association, and enclosure.

Paper No. 6,-Letter dated the 11th November, 1910, from Rai Radha Churn Pal Bahadur,

Paper No. 7.—Letter No. 99C., dated the 14th November, 1910, from the Honorary Secretary, Indian Christian Association, Bengal.

Papers No. 8.—Letter No. S. 3638, dated the 15th November, 1910, from the Chairman of the Corporation of Calcutta, and enclosures.

Paper No. 9.—Letter No. 890, dated the 15th November, 1910, from the Honorary Secretary to the Muhammadan Literary Society of Calcutta.

Paper No 10.—Letter dated the 14th November, 1910, from the Honorary Secretary, Bengal National Chamber of Commerce.

Paper No. 11.—Letter No. 1041-O., dated the 23rd November, 1910, from the Secretary, Indian Tea Association.

Paper No. 12.—Letter No. 45t. dated the 1st December, 1910, from the

Paper No. 13.—Letter No. 45t, dated the 1st December, 1910, from the Henorary Scoretary, British Indian Association.

Paper No. 13.—Letter dated the 5th December, 1910, from the Secretary, Suburban Rate-payers' Association.

Papers No. 14.—Letter No. 1940-1910, dated the 13th December, 1910, from the Secretary, Bengal Chamber of Commerce, and enclosure.

Paper No. 15.—Latter dated the 15th December, 1910, from the Honorary Secretary, Indian Association.

Paper No. 16.—Letter dated the 15th December, 1910, from Babu Ram Lal Dutt, Offg. District Judge, Murshidabad.

Paper No. 17.—Letter dated the 17th December, 1910, from the Honorary Secretary, Rate-payers' Association, Wara No. XX.

Paper No. 18.—Letter dated the 6th January, 1911, from the Secretary, Vakils Association, High Court, Calcutta.

Paper No. 19.—Letter No. 70, dated the 21st January, 1911, with Appendix, from the Honorary Secretaries, Bengal Land-holders' Association.

Pager No. 20.-Letter No. 630, dated the 23rd February, 1911, from the Registrar of the High Court.

to provide for the improvement and expansion of Calcutta was referred, have considered the Bill and the papers noted in the margin, and have the honour to submit this preliminary report, with the Bill, as amended us, annexed hereto. The amendments which we have made in the Bill are, as far as possible, printed in antique type, and the more important amendments are mentioned in the following paragraphs.

2. We have dealt with all clauses of the Bill except clauses 73 to 91, relating to the proposed customs duty and excise duty on jute. We have not examined these clauses because we understand that modifications of them are under consideration by the Government.

Clauses 4, 5 and 7.

3. The number of the members of the Board has been raised from 7 to 11, as there was a preponderance of feeling in favour of a larger body than that proposed in the Bill as introduced in Council. Of the four additional members, one will be elected by the Corporation as a whole, and one by the Bengal National Chamber of Commerce, and two will be appointed by the Local Government. The proportion of appointed members therefore remains practically the same as that originally proposed.

Clause 9.

4. A provision has been inserted, disqualifying for appointment or election as a Trustee, a Director or salaried officer of any company contracting with the Board.

Clause 11.

- 5. Provision has been made for increasing the salary of the President, if he undertakes to remain in office for two years after the expiry of his three years' appointment. This will tend to secure continuity of tenure.
- 6. In sub-clause (3), the designation of the additional allowance has been changed so as to make it clear that in fixing the allowance consideration may be given to the fact that the President will incur expenditure on conveyance charges in the performance of his duties.

Clauses 14 and 15.

7. Provision has been made to allow of the temporary deputation of the President to other duties and of the appointment of a person to act in his place. The purpose is to avoid a legal difficulty which has arisen in the case of the Chairman of the Calcutta Corporation.

Clause 15A.

8. Clause 15A has been inserted to make it clear that the Board may grant leave of absence to any Trustee for a period not exceeding six months.

Clause 15B.

.9. Clause 15B has been modified so as to distinguish the cases in which it is compulsory and those in which it is optional to notify that the term of office of a Trustee has come to an end owing to various forms of disqualification.

Clause 16 A.

10. The term of office of Trustees has been extended to three years; and when any Trustee is appointed to fill a permanent vacancy he will, as the Bill is now amended, hold office for that period, and not merely for the residue of the term of office of his predecessor. These amendments will secure greater continuity of policy.

Clause 17.

11. Owing to the increase in the number of the Trustees, the quorum has been raised from three to half the number of Trustees existing at any time.

Clause 17A.

12. Clause 17A reproduces, with modifications, clause 20 of the Bill as introduced in Council. It gives a general power of adding advisory members, and makes it clear that although such members cannot vote at a meeting of the Board they will have the right to vote in Committees.

Clause 21.

13. The aggregate amount of fees receivable by any person in one month has been left to be determined by rule, and power is given to pay the fee even though a member of the Board or Committee did not attend from the beginning to the end of a meeting. The clause, as amended, also permits of the payment of fees for a meeting at which only adjourned business is transacted.

Clause 21A.

14. Sub-clause (2) has been inserted so as to define the part which a Trustee may take in the proceedings of the Board in regard to any area in which he owns land or buildings.

Clause 23.

15. The power of the President to make contracts without reference to the Board has been reduced from contracts of ten thousand rupees to contracts of one thousand rupees.

Clause 24A.

16. Clause 24A has been inserted so as to make it compulsory to call for tenders in the case of contracts exceeding one thousand rupees in value.

Clause 27.

17. Clause 27 has been modified by removing from it all reference to the officers and servants of the Land Acquisition Tribunal. Under clause 64, as amended, the President of the Tribunal will be the sole authority in relation to the officers and servants thereof.

Clause 28.

18. Reference to the Tribunal has similarly been omitted from this clause.

Clause 30.

19. A proviso has been inserted giving a right of appeal to the Board when an officer drawing a monthly salary exceeding one hundred rupees is dismissed by the President.

Clause 31.

20. This clause has been modified so as to dispense with the previous sanction of the Local Government to orders granting leave to, or suspending, any officer.

Clause 33.

21. This clause has been modified in consequence of alterations made in the Schedule to the Bill.

Clause 35.

22. The wording of this clause has been modified so as to bring the procedure more definitely into accord with that prescribed in the corresponding sections of the English Acts.

Clause 36.

- 23. The number of residents who may present a complaint to the Corporation has been raised from 12 to 25.
- 24. Sub-clause (2) has been added, to require the Corporation to forward to the Board any complaint which they may reject. This provision is particularly intended to meet the case of complaints by the Health Officer of the Corporation. It is undesirable that, as was contemplated in the Bill as introduced in Council, the Health Officer should appeal from the Corporation to the Board.

Clause 37.

25. Clause 37 has been modified so as to impose more clearly on the Board the duty of informing the Corporation of the manner in which an official representation is dealt with.

Clause 38.

26. The wording of this clause has been somewhat amplified on the lines of the corresponding section of the City of Bombay Improvement Act, 1898.

Clause 40.

27. The wording of sub-clause (c) has been modified so as to make it clear that the Board have no power to order the demolition of buildings other than those which they have acquired.

Clause 41.

- 28. Sub-clause (a1).—This sub-clause introduces the distinction which is found in the City of Bombay Improvement Act between land required for the execution of a scheme and land which will be affected by the execution of the scheme.
- 29. Sub-clause (b), providing for the making of surveys, has been omitted, as surveys will usually be made before any scheme is framed, and are provided for in clause 167A.

Clause 42.

30. It has been made clear that objections to any scheme which has been notified will be received from any member of the public. Provision has also been made for the case of schemes lying within the area of a mufassil municipality.

Clause 44.

31. Provision has been made for service of notice, though not necessarily by name, on the occupier of any premises which it is proposed to acquire as well as on the owner of the premises.

Clause 46.

32. Sub-clause (f).—This sub-clause has been revised because, in the opinion of the Committee, it will be more convenient to prepare re-housing schemes separately from improvement schemes.

Clause 48.

- 33. Clause 48, as now revised, provides for notification by the Local Government of the fact that an improvement scheme has been duly sanctioned.
- 34. The rest of clause 48 of the Bill as introduced in Council has been omitted, it being proposed that the declaration as to land being needed for the Board should be issued in the usual way under section 6 of the Land Acquisition Act.

Clause 50A.

- 35. Clause 50A has been revised so as to enable the Board to arrange for the erection of dwellings for the re-housing of persons likely to be displaced by the execution of improvement schemes, as a matter entirely separate from the execution of such schemes. In the opinion of the Committee, such work may often be most usefully proceeded with while the details of the improvement scheme are under discussion.
- 36. Sub-clause (4) of this clause empowers the Board to control not only the construction but also the maintenance and management of such dwellings by private individuals.

Clause 51.

37. Clause 51 has been modified, as, in the opinion of the Committee, it is inadvisable to attempt to lay down the proper width of main thoroughfares. As it now stands, the clause merely provides that streets intended for carriage traffic shall be at least 40 feet wide, and that streets intended for foot traffic only shall be at least 20 feet wide, and, in this respect, it follows the corresponding section of the City of Bombay Improvement Act.

Clause 52

38. Clause 52 of the Bill as introduced in Council has been omitted. This clause proposed certain restrictions on the formation of open spaces. In the opinion of the Committee, it is best to give the Board a free hand in the formation of open spaces in connection with improvement schemes, and all that it is necessary to enact is the provision contained in clause 41, sub-clause (c).

Clause 53.

- 39. Clause 53 has been slightly modified to provide for the case of this portion of the Act being extended to a Suburban Municipality.
- 40. A sub-clause has also been inserted, empowering the Local Government to decide disputes between the Trust and any Municipality.

Clause 54.

41. In clause 54 an additional provision has been inserted for the payment of money compensation if the provision of alternative means of access does not sufficiently compensate the persons affected.

Clause 56.

42. Clause 56 of the Bill as introduced in Council has been replaced by clauses 56A to 56H of the Bill as now amended. The Committee find on examination that great inconvenience would arise if the rights and powers of municipal authorities under Chapter XXIII of the Calcutta Municipal Act were exercised by the Board. The general effect of the amendments is to leave to the existing

municipal authorities their existing powers, but to provide that, when the Board allow any street vested in them to be used by the public, they shall have the same rights and duties as a municipal authority would have in regard to the street.

Clause 56H.

43. Clause 56H empowers the Board to align streets outside the Calcutta Municipality. This will enable the Board to keep clear of buildings the lines of road which it is proposed should hereafter be main arteries of communication, but which the Board may not for the time being be prepared to develop.

Clause 57.

44. Clause 57 has been slightly modified, and imposes on the Corporation, instead of the General Committee, the duty of declaring a street constructed by the Board to be a public street.

Clause 57 A.

45. Clause 57A has been inserted to meet the case of streets constructed by the Board being taken over by a Suburban Municipality.

Clause 61A.

46. Clause 61A replaces clause 59 of the Bill as introduced in Council. It has been widened so as to allow of land being acquired for any of the purposes of the Act: it may be necessary to acquire land for offices, godowns, etc.

Clause 61 C.

- 47. This clause has been separated from clause 62(1), and the wording closely follows the wording of the corresponding section of the City of Bombay Improvement Act. That section has been judicially interpreted, and it is desirable to avoid differences in the wording of the two Acts, since they might raise doubts as to the exact position of the Tribunal to be established under the present Bill.
- 48. Sub-clause (c) has been modelled on section 14 of the Land Acquisition Act, 1894, and makes it clear that the Tribunal will have power to enforce the attendance of witnesses.

Clause 62.

49. In sub-clause (a) the words "of the first grade" have been omitted. Any Subordinate Judge of three years' standing will therefore be eligible to serve as President of the Tribunal. Subordinate Judges of the 1st grade of three years' standing are few in number and are on the eve of retirement.

Clause 67.

- 50. The earlier sub-clauses have been recast, and now define more clearly the matters which the President of the Tribunal is empowered to decide alone.
- 51. Sub-clauses (4), (5) and (6) have been omitted, because in the case Hari Pandurang v. the Secretary of State (I. L. R., 27 Bom., 424) it was held by the High Court of Bombay that a Provincial Legislature could not confer a right of appeal to the High Court. The Committee understand that the Government of India will be asked to undertake the legislation necessary to confer such a right of appeal as may be considered advisable.
- 52. By sub-clause (7) it is provided that all orders for the recovery of money shall be enforced through the Court of Small Causes of Calcutta.

Clause 67 A.

53. Clause 67A reproduces, in a modified form, clause 93 of the Bill as introduced in Council. Although the object sought to be attained by this clause is apparently simple, it appeared to the Committee, on discussion, that many practical difficulties would arise in actual working, and an attempt has been made to meet such difficulties.

Clause 68.

54. Sub-clause (2) has been inserted to give the former owners of land acquired by the Board a right of pre-emption when the Board come to dispose of such land.

Clause 71.

- 55. Clause 71 has been modified so as to impose the extra duty, in the case of usufructuary mortgages, on the amount secured by the mortgage, and not on the value of the property mortgaged.
- 56. Sub clauses (1a) and (1b) have been inserted in order to penalise attempted frauds.

Clause 72.

- 57. The Committee would impose the terminal tax on passengers arriving at or leaving any station in the Calcutta Municipality or the Howrah Municipality, and not merely on passengers arriving at or leaving the terminal stations of Howrah and Sealdah. Many passengers for Calcutta alight at such stations as Kalighat, Ballygunge and Majerhat, and there is no reason why they should escape the tax.
- 58. On the other hand, as regards passengers by river, the limits laid down in the Bill as introduced in Council have been narrowed. The Port of Calcutta extends down to Budge-Budge, and it is not reasonable that passengers landing at Budge-Budge should be taxed for the benefit of Calcutta. The Committee therefore propose that the tax should only be imposed on persons arriving at or leaving any landing place in the port within five miles from Government House.
- 59. In proviso (a), the limit of exemption has been reduced from a radius of thirty miles to a radius of ten miles, on the ground that people residing between ten and thirty miles from Calcutta are those who probably visit Calcutta most frequently, and should therefore be made to contribute towards the cost of the amenities which they enjoy.
- 60. In sub-clause (2) provision has been made for payment of the cost of collection to the administration which collects the tax.
- 61. In sub-clause (3) provision has been made for the submission of quarterly, instead of annual, returns by the owners of steam-vessels.

Clause 92.

62. The Committee recommend that the rateable valuation of the property of the Port Commissioners should be taken to mean the valuation on which the municipal taxes are actually paid, which is nine-tenths of the full valuation. The ten per cent. reduction from the normal valuation, which the Port Commissioners receive, does not, in the opinion of the Committee, represent collection charges, but is allowed in consideration of the fact that the Port Commissioners do not manage their property on a purely commercial basis. It is not open to the Corporation to make another arrangement and collect the municipal taxes on the full valuation. In this respect the Committee follow the precedent afforded by section 72 (2) of the City of Bombay Improvement Act, 1898.

Clause 96.

63. This clause has been substituted for clauses 96 and 97 of the Bill as introduced in Council. It expresses more clearly the power of control by the Government of India over the method of raising loans, which was to some extent left to implication; and it makes it clear that money may be borrowed to pay off an existing loan.

Clause 100.

- 64. It is considered unnecessary to prescribe any standard form of debenture in the Bill, seeing that the fullest power is given to depart from the form. The Board may be left to adopt their own forms, with the sanction of the Government of India, as occasion arises.
- 65. Words have been inserted to require the signature of the President and one trustee to each debenture.

Clause 104.

66. The second paragraph of this clause as introduced in Council has been omitted as being superfluous.

Clauses 105 and 105A.

67. Clause 105 of the Bill as introduced in Council has been recast, and appears as clauses 105 and 105A in the Bill as now amended. The former of these specifies the manner in which loans may be repaid, and the latter renders obligatory the establishment and maintenance of a sinking fund where this method is prescribed for the repayment of the debt.

Clause 106.

- 68. As recommended by the Bengal Chamber of Commerce, Calcutta Port Trust Debentures have been added to the securities in which sinking fund moneys may be invested.
- 69. Sub-clause (3) has been omitted, as on examination it appears to be superfluous.

Clause 119(2).

70. The proposed closing balance has been raised from fifty thousand rupees to one lakh. This is considered to be a safer limit, in view of the large financial operations of the Board.

Clause 122.

71. Clause 122 has been simplified, and, as it now stands, gives the Board power to deposit their surplus moneys either with the Bank of Bengal or with any other bank in Calcutta.

Clause 122B.

72. Clause 122B reproduces parts of clauses 121 and 122 of the Bill as introduced in Council, and provides for the signature of cheques by the President and the Secretary to the Board, instead of by the Secretary and a Trustee authorised by the Board in that behalf. Provision is also made for the signing of cheques in the temporary absence of the President or the Secretary.

Ulause 122C.

73. Clause 122C is new, and is taken from section 116 of the Calcutta Municipal Act. The clause renders it incumbent on persons signing cheques to satisfy themselves of the propriety of the payment.

Clause 123.

74. Sub-clause (f) has been inserted. It provides for the inclusion of office expenses under the head "cost of management."

Clauses 125 (g) and 127 (e1).

75. It is an arguable point whether premia on leases should be credited to capital or to revenue account. The Committee have adopted as a solution the proposal that premia received in connection with leases for any term exceeding forty years should be credited to capital account, while those in connection with shorter leases, which resemble advance payment of rept, should be credited to revenue account.

Clause 128 A.

76. Clause 128A has been inserted to give the Local Government power to withdraw money from the fund created by the investment of surplus revenue funds, if that fund becomes greater than is necessary for the proper service of loans.

Clauses 131 and 131A.

77. Clause 131 of the Bill as introduced in Council has been sub-divided into clauses 131 and 131A, which respectively provide for the half-yearly submission of an abstract account to the Local Government and for an annual and the submission of t

Clause 134.

78. Clause 134 has been amplified on the lines of the corresponding section in the Calcutta Municipal Act, and lays down the duties of the auditor more fully than did the clause as introduced in Council.

Clauses 134A and 134B.

79. Clauses 134A and 134B have similarly been taken from the Calcutta Municipal Act, and prescribe the manner in which the audit report is to be dealt with.

Clause 137.

80. Sub-clause (f) has been omitted, as penal rules for regulating the conduct of members of the Board, or of their Committees, are out of place, and any violation of confidence on the part of officers of the Board can be dealt with departmentally.

Clause 144.

81. The wording of this clause, as introduced in Council, is found to be too wide. Under the clause as now modified, only the members, officers and servants of the Board will be deemed to be public servants.

Clause 146(2).

82. A non-resident rate-payer has been given the power to submit objections.

Clause 147.

83. Clauses 147 and 148 of the Bill as introduced in Council have been amalgamated in the present clause 147, which gives the Board power not only to subsidise, but also to construct and work, tramways and other means of locomotion. Such a power might conceivably be useful, though it is not probable that it will be exercised.

Clause 155.

84. Clause 155 has been modified on the lines of the corresponding section of the Code of Civil Procedure, 1908, and the last four sub-clauses of the clause, as introduced in Council, have been omitted.

Control (Springer of w tien on or

. Turniment

Clause 156.

85. Sub clause (b) has been omitted, as the Board will have no power to demolish buildings other than those actually vested in them.

Clause 159.

86. The wording of sub-clause (d) has been modified because it scarcely seemed to attain the object with which it was framed, viz., that the validity of proceedings should not be called in question on account of small technical defects which had caused no injustice.

Clause 160.

87. The Board, and not the President with the approval of the Board, are authorized to pay compensation to persons who have suffered damage.

Clause 164.

88. It appeared to the Committee that clause 164 of the Bill as introduced in Council was too wide. Debentures require the actual signature of Trustees, and there are numerous other documents, such as cheques, which are in the same position. The clause, as now amended, authorizes the signature in facsimile of notices and bills only. The company depths . Alt I have been a manual print

Clause 165.

89. Clause 165 (relating to the service of notices, etc.) has been omitted, as being superfluous. And the angular directs require to the superfluous to the superfluous and the superfluous to the superflu Clause 166.

90. Sub-clause (d) has been modified, and now provides for the affixing on the land of a copy of the document to be served, instead of a paper setting forth the substance of the document.

Clause 167.

91. Clause 167 (service of summonses) has been omitted, as being Euperfluous, vi 50. Sub sleme (f) kas onen emittad avagonal raise dar

constant to the standard of the Clause 167 A. Collabor residence to toubece

92. Clause 167A has been inserted in order to give the Board fuller power to make surveys.

Clause 168.

93. Clause 163 has been modified so as to give the President the powers which a Collector possesses under section 4 of the Land Acquisition Act when conducting preliminary investigations.

94. Sub clause (2) has been inserted to require the payment of compensation for any damage done when the President enters on land.

Clauses 169 to 189.

95. Clauses 169 to 189 of the Bill as introduced in C uncil have been omitted. They invested the President with certain powers vested in the Municipal authorities under the Calcutta Municipal Act, and regulated proceedings before Courts of Small Causes. As clause 56 of that Bill has been modified, and as the Board will not, under the Bill as now amended, exercise powers under Chapter XXIII of the Calcutta Municipal Act, these clauses are found to be unnecessary.

Clauses 190A, 190B and 190C.

96. These are penal clauses, referring to the new clauses 56 (D), 56 (E) and 56 (H).

delice or near will be conserved.

Clause 194.

97. The words "purposes of this Act," in sub-clause (2), have been inserted in place of the words "payment of loans raised or to be raised under this Act", as the wider wording appears safer.

Clause 195.

98. Sub-clause (bb) has been inserted so that there may be no doubt as to the power of the Corporation to complete any scheme which may be unfinished when they assume the assets and liabilities of the Board.

The Schedule.

99. Schedule A to the Bill as introduced in Council has been somewhat shortened in consequence of the decision referred to in paragraph 34, ante, that land acquisition proceedings should be conducted by the officers of Government in the usual manner. On this view it is no longer necessary to throw the Land Acquisition Act into a new form suited only for the acquisition of land for the purposes of the Board. The Committee have merely retained such of the proposed additions to the Act as appear to them to be necessary.

Clause 10B.

H. WHEELER.

100. A provision is introduced into section 11 of the Land Acquisition Act, authorising the award of costs legitimately incurred by parties in putting their cases before the Collector. Such costs are usually held to be covered by the 15 per cent. additional compensation, which, under the present Bill [clause 14 (2a) of the Schedule], is in most cases withheld.

Clause 12(2).

101. In the proposed sub-section (4) to section 17 of the Land Acquisition Act, the power to grant a certificate has been confined to a salaried Presidency Magistrate or a Magistrate with first class powers.

Clause 14.

- 102. Clause 14 (2) of Schedule A to the Bill as introduced in Council, which proposed to insert a paragraph ("seventhly") in section 23(1) of the Land Acquisition Act, has been omitted, as being likely to work inequitably.
- 103. Clause 14 (2a) of the Schedule to the Bill.—Sub-section (2) of section 23 of the Land Acquisition Act has not been repealed, but merely modified; the result is that the 15 per cent. additional compensation will be paid except when the land acquired is situated in the Calcutta Municipality and within the area of an improvement scheme.
- 104. Clause 14(3) of the Schedule to the Bill.—In the proposed section 23(3) a clause has been inserted on the lines of proviso (i) to section 557 of the Calcutta Municipal Act.
- 105. In the proposed section 23 (3) (b) the period has been reduced from three years to two years.
- 106. The proposed section 23 (3) (c) has been omitted, as it appeared to be superfluous in view of the provisions of the proposed section 24 A in clause 16 of the Schedule to the Bill.
- 107. Clause 14 (4) of Schedule A to the Bill as introduced in Council, which proposed to insert a sub-section (4) in section 23 of the Land Acquisition Act, has been omitted, as a person whose business is stopped may have an equitable claim to compensation, even though the business be an offensive one carried on under license.

The Schedule-concld.

Clause 16B.

108. It is proposed to add two new sections, 48A and 48B, to the Land Acquisition Act, dealing with the award of compensation where loss is occasioned by land acquisition proceedings being unduly protracted.

of an target and a macro in the Clause 160.

109. In section 49 of the Land Acquisition Act a sub-section has been inserted, which renders the section applicable to the case of a private garden attached to a dwelling-house being under acquisition.

110. We recommend that the Bill, as now smended, be published.

NOTES OF DISSENT.

Clause 72 of the Bill.

Ws, the undersigned, dissent from the modification of proviso (a) to clause 72 of the Bill, whereby the limit of exemption from payment of the terminal tax has been reduced from 30 miles to 10 miles. The tax is one which will fall mainly on the poorer classes, and it is desirable that the individual incidence should be very light; but, if it is imposed on the suburban traveller, the aggregate payments by many individuals will be considerable, while the incidence will be at the same time capricious. The radius of 30 miles was selected because the traffic from outside such a radius was calculated to yield a revenue of two lakhs a year: it is not, in our opinion, necessary at this stage to increase the revenue derived from this source.

Educates of State and Comment of State and the

and the second course of the second Clause 14 (2a) of the Schedule to the Bill.

I dissent from the proposal, with reference to sub-section (2) of section 23 of the Land Acquisition Act, to confine an enhancement of 15 per cent. cn market value to property located outside the Calcutta Municipality only. I am of opinion that this section should stand as in the old Act, and that 15 per cent. should be paid to owners wherever the property is situated, save and excepting where the property acquired is so acquired to improve an insanitary area.

- 2. Compulsory acquisition for improvement schemes, irrespective of persons or condition of property, is a necessity. But where a man is honest in his unwillingness to part with his property, either because of its bearing family associations or because he believes it will, apart from any Trust operations, eventually increase in value, it is only fair that such a man should receive some solatium for such compulsory acquisition by the Trust. Throughout India—with the exception of the Bombay Trust—this principle has been recognised by law, and such solutium has found expression in an addition of 15 per cent. over and above the so-called market value. Such being the custom in India, I think this rule should continue to apply in Calcutta to any property acquired by the Trust, subject to the aforesaid proviso.
- 3. I am further constrained to make this note of dissent, because in my opinion an enhancement of 15 per cent. upon such an unknown quantity as the "market value" of property is a paper and not an actual enhancement, for in practice an assessor cannot avoid taking into consideration the fact that there will be such an increase made upon his award of "market value," and in dealing with the evidence of experts, who in their opinions of the "market value" of property in Calcutta will vary to a greater extent than 15 per cent., he cannot help being guided in his final award as to the actual market value by the fact that it carries this increment. I submit it will be impossible to prove or claim in the course of years that the retention of this 15 per cent. has cost the Trust more than its omission would have done, and, as a matter of fairness, combined with expediency, I desire to record that in my opinion the section should stand as it does in the Land Acquisition Act of 1894, subject to the aforesaid proviso.

J. C. SHORROCK.

THE Report is signed by me subject to my dissent in respect of the provisions of the following clauses.

Clause 61A of the Bill.

2. I regret I cannot accept clause 61A as it stands, without some reservation, as it would be giving a carte blanche to the Board to acquire land to an unlimited extent. As a rule the quantity of land to be acquired must not be too disproportionate to the purpose for which it is intended. Even making due allowance for recoupment, there must be some limitation to the power granted by this clause to the Board, in order to check any tendency that it may develop towards land speculation, or to interfere with the just rights of the people by taking much more land than what would be required for the recoupment of the cost of the main scheme. With this end in view, I moved certain amendments, which were not accepted. This principle of restriction has been recognised so late as 1909 by the enactment of section 5 of the Development and Road Improvement Funds Act. [1] If that restriction has been considered necessary and expedient for an advanced country like England, with its democratic instinct, it is much more necessary in a country like India where the people are so very backward. It may be urged that the aforesaid Act applies to muffassil towns and not to big cities, but the principle acted upon is just the same. It is well known that the people of this country are very much attached to their homes. It would therefore create great dissatisfaction if their feelings in this direction were not properly respected by the Legislature and their properties not duly protected from an arbitrary operation of the Land Acquisition Act. Many cases may be cited to illustrate that such abuse of power has, as a matter of fact, taken place under the Calcutta Municipal Act, a few of which I mention below:—

For a Dhobikhana at Ballygunge

an itself

Acquired 47 bighas of land, required 11 bighas—surplus 36 bighas.

For the Canal Area Drainage Scheme-

Premises Nos. 27 and 27-1, Haldar Bagan Lane—Acquired 6 kottahs 8 chattaks 35 sq. ft., with a masonry building and huts standing thereon; required only 5 chattaks 15 sq. ft.—surplus 6 kottahs 3 chattaks 20 sq. ft.

Premises Nos. 8 and part of 8-1, Ultadinga Road—Acquired 9 kottahs 10 chattaks 25 sq. ft., required 13 chattaks 10 sq. ft.—surplus 8 kottahs 13 chittaks 15 sq. ft.

For Roads-

Premises No. 89, Gorpar Road—Acquired 2 bighas 19 kottahs 5 chattaks 32 sq. ft., required 9 kottahs 4 chattaks 25 sq. ft — surplus 2 bighas 10 kottahs 1 chattak 7 sq. ft.

Premises No. 10-1, Pitambar Bhattacharjee's Lane—Acquired 8 kottahs 2 chattaks 20 sq. ft. with structures thereon, required only 38 sq. ft.—surplus 8 kottahs 1 chattak 22 sq. ft.

Clause 67 of the Bill.

3. This Bill in its general features is nothing more than the Land Acquisition Act as applied to a particular locality, though that locality may have all the importance attached to it as the capital of the Imperial and Provincial Governments. Hence the main principle of the Bill ought not to be different from that of the Land Acquisition Act, which has not been found fault with, though it has been in force for so many years. The Land Acquisition Act recognises in full, in section 54, the right of the parties to appeal to the High Court, subject, of course, to the provisions of the Code of Civil Procedure. No satisfactory reason has been assigned why this section of the Land Acquisition Act should be omitted from the body of the Bill. It has been stated in the Statement of C bjects and Reasons that section 54 has been

galleri valle 2022.

omitted, as clause 67 of the Bill provides for appeals. But sub-sections (4), (5) and (6) of clause 67 have now been omitted; so the result is, there is no section in the Bill which provides for appeals. In the first place, the omission in the Bill with regard to appeals is obviously an anomaly; one rule for the muffassil and another for Calcutta cannot at all be justified when the object is the same in both the Acts, namely, compulsory acquisition of land, and especially when the value of properties in Calcutta is much greater than that of similar properties elsewhere. In the second place, perhaps considerations of delay and trouble resulting from appeals might have something to do with the omission of section 54 of the Land Acquisition Act; but such considerations ought not to influence a legislative body to interfere with the obvious rights of the parties. Section 54 of the Land Acquisition Act should therefore stand.

Clauses 67 and 56J of the Bill. And of the course

- 4. If for any reason section 54 of the Land Acquisition Act cannot be restored, a new section providing for appeals should be inserted in the Bill. Restriction upon appeals may be made only in regard to the money-value of the property, say, to the extent of Rs. 5,000. But where a money-value is not at all possible, as, for instance, in cases coming under sub-clause (b) of clause 56J, then also an appeal should lie to the High Court. Appeals should also be allowed on the grounds mentioned in sections 100 and 115 of the Code of Civil Procedure, 1908. Hence the words "and the determination of the Tribunal shall be final," at the end of sub-clause (1) of clause 56J, should be omitted. In other words, provision should be made for appeals in the following cases:—
 - (1) when the money-value of the property exceeds Rs. 5,000,
 - (2) where the right does not admit of any money-value,
 - (3) cases under sections 100 and 115 of the Code of Civil Procedure, 1908.

If the Provincial Government have got no power to make such provisions in respect of appeals in the Bill, they may move the Imperial Government to grant sanction for making such provisions.

estile the good one want to Clause 67A of the Bill.

5. Clause 67A I regret also. I cannot accept sub-clause (1) of clause 67A as it at present stands. On principle I moved an amendment by proposing to substitute the words "one-half of the increase in value" for the words "a sum to be fixed by the Board in that behalf", which was, however, lost. My reason for moving the amendment was obvious. There are two contracting parties—the Board and the landowner, the former having all the advantages conferred upon them by law; but as there is every likelihood of their abusing their power by fixing a sum which may be considered very arbitrary by the other party, it is absolutely necessary that a restrictive clause should be introduced. In moving the above amendment, I did not give expression to any new idea of mine, but I followed the principle of English law with a view to restrict the arbitrary power of the Board regarding the fixing of an increase between the estimated cost of acquisition and the probable sale-value, by limiting the sum to one-half of the increase in value. This is laid down in sub-section (3) of section 58 of the Housing, Town-planning, etc., Act, 1909,[1] by which one half of the amount of such increase is to be recovered by the responsible authority. It is based upon justice and equity. The original owner stands on quite a different footing from that of a third party who has no interest in the property, and the associations of the original owner with his home are of such a character that he is entitled to very liberal treatment. The Calcutta Corporation accept two-thirds of the increase, which in my opinion is a little too high. Hence half the amount of the increase would, I think, be a proper sum to fix.

Clause 14 (2a) of the Schedule to the Bill.

6. It has been urged that as the Calcutta Improvement Bill has been based on the lines of the City of Bombay Improvement Act, section 23 (2) of the Land

Acquisition Act should be omitted. His Excellency the Governor of Bombay, while moving the first reading of the Bill, referred to this point as follows:—

- "The 15 per cent. at present allowed for compulsory acquisition under section 23, sub-section (2), of the Land Acquisition Act, will, however, no longer be granted, because it puts a premium on a refusal to come to terms."
- 7. But this reason does not appear to be satisfactory. Very probably the people of Bombay did not raise any objection, as they thought any sacrifice would not be too great for the purpose of escaping from the ravages of plague, which was then raging in a virulent form. The conditions prevailing here are fortunately very different, and there is no necessity for the inhabitants to make such sacrifices on that account.
- 8. Let me, however, analyse this statutory allowance of 15 per cent., which is supposed to benefit so much the property-owners. Whatever may be the case in the muffassil, in Calcutta this extra allowance will barely suffice to pay for the valuers' and lawyers' fees and other contingent expenses, not to mention the 3 per cent. stamp duty on conveyance, the brokerage, and the higher rate the dislodged house-owner will have to pay, in order to obtain a new dwelling-house in another place. This allowance will be more than swallowed up by the above expenses, and he will be a poorer man when he comes to live in a new dwelling-house. It thus appears that it confers no real advantage upon house-owners, but it goes at least some way to cover their loss.
- 9. It has been further urged that property-owners are not entitled to any indulgence, as they have not discharged properly their obligation which, though not legal, is a moral one, and they were bound to suffer for it. It is sufficient answer to say, on the authority of Mr. J. S. Nettlefold, who is an expert on the subject, that "it is the fashion nowadays with a certain class of social reformers to ascribe the present unsatisfactory state of affairs to the selfishness of land-owners and property-owners. I venture to suggest that the real cause lies much deeper. Our unhealthy, unlovely, cheerless and expensive towns are in my opinion due more to the faults of our system than to the shortcomings of any class or of individuals. I do not suggest that the individuals concerned are faultless: they are human, like the rest of us, and naturally look to the main chance; but those engaged in town-development and house-building are no worse than the rest of us". The plain fact is that the authorities understood so little and cared so little for town-planning that they allowed the town to grow in a haphazard fashion, each individual house-owner doing his best to develop his own property in the way best suited to his own interest, taste or fancy, and now the sins of past neglect have been visited on the devoted heads of owners who are not in any way to blame.
- 10. There cannot be any difference of principle in the acquisition under the Bill and the acquisition under the Land Acquisition Act. It would be anomalous if the statutory allowance of 15 per cent., which is as a rule allowed in the muffassil, where the property offers very little prospect of a gradual increase in value, were to be withheld in Calcutta, where it increases by leaps and bounds. Are the house-owners in Calcutta alone to be treated on a different footing? If this and cognate sections were passed in their present shape, the Trust would no doubt have a splendid opportunity of acquiring property at low prices, but it would neither be just nor equitable. It would force the conviction on the minds of the public that possession of property is a veritable misfortune. The fact also becomes apparent that the whole burden of the contribution towards the fulfilment of the Improvement Scheme is laid on property-holders alone, which, in common fairness, should be borne by others as well. Moreover, when the Land Acquisition Act was passed, it was made applicable to the whole of British India, including of course Calcutta, and sub-section (2) of section 23 provides for the payment of an additional compensation in consideration only of compulsory acquisition. This provision was made in 1894. No circumstances have since transpired and no proper

reason has yet been shown why this principle of granting the statutory allowance should be departed from in 1911, and so long as no cogent reason is forthcoming the principle should be strictly adhered to.

Clause 14 (3) of the Schedule to the Bill-Clause (b) of the proposed section 23 (3) of the Land Acquisition Act.

11. This clause will act very harshly upon the owners of properties. It assumes as if the owner or his predecessors knew two years before that his land would be acquired by the Board, and, with a view to extract a higher price from the Trust, had made improvements which were not really necessary. How is it possible for any owner to know that his land would be acquired two years hence so that he should not lay out any money with a view to improve his own property? There can be no question about the bond fides of the owners, and, if any mala fides has to be proved, the onus lies upon the Board. Mala fides should not be assumed, and in consequence the value of a property should not be assessed at a rate lower than its actual market value. It is not unlikely that the owner may not be able to prove a negative, as is required by the latter part of the clause. The provision contained in this clause is not at all fair.

Clause 14 (3) of the Schedule to the Bill-Clause (d) of the proposed section 23 (3) of the Land Acquisition Act.

12. In common fairness, it cannot be either just or proper that over crowding should be made a ground for reducing the rental and thereby the market value of a property, when the Calcutta Municipality not only tolerated such overcrowding but made it a ground for obtaining an increased tax.

Clause 16 of the Schedule to the Bill-Proposed section 24A (1) for the Land Acquisition Act.

13. I cannot understand why the return filed by the owner two years ago should be taken as the basis, and not the estimate of the Assessor of the Corporation on which the rates have been levied. For the purpose of ascertaining the valuation of land or a building, both the return of the owner and the estimate of the assessor are unreliable. The former tries to pay as little as possible, while the latter tries to exact as much as possible. The market value of Calcutta property cannot be safely assessed upon the return submitted by the owner, as it is increasing yearly, as assessed upon the return submitted by the owner, as it is increasing yearly, as evidenced by the enhanced rateable valuation of the city every year. It would, therefore, be just and proper if the valuation were made by inquiring into the prices at which properties have been sold in recent years in the neighbourhood of the property which is proposed to be acquired. This will disarm all opposition, and the valuation will be considered fair and reasonable. Moreover, this subsection is open to the charge of one-sidedness, which should be removed. A different procedure is no doubt followed in the matter of assessing the value of land or buildings in England and Ireland, but it is not at all open to this charge, and every facility is given to the claimant to prove his own case. Fair market value is not at all dependent there upon the return filed by the owner in any municipality, and, so far as I can make out, it is not taken as evidence against him,

8. Co caration with the portion lively to be safested by improved other echomes, as the key-mose of the newlood of the local natherities in the and I think that at least the right of whichings smooth the investigation of the polaries of the Heart may charte objection to offer to stay solome of the Beart.

The 27th February, 1911.

Clauses 4 and 7 of the Bill.

I ADRERE to my view that the Corporation should be represented by four members, and that the Ward Commissioners should elect not less than two; the number of Trustees being increased to 12 members.

2. I shall be prepared to support an amendment giving to the Muhammadan community the right to be represented on the Board by a member selected by themselves; one of the four places referred to in clause 4(e) being reserved for that purpose. They have an electorate ready made, in that which now elects a delegate for Calcutta in connection with the election for the Bengal

Clause 14.

3. I think that the President of the Board should give his whole time to the duties of his office during his tenure of the appointment, and I am opposed

to legislative authority sanctioning his deputation to other duties.

4. Clause 35 is one of the most important in the Bill, and I think it gives cause for anxiety. It confers on the Board wider powers than are given even to local authorities in England; and it is unsatisfactory, in that there is

no other remedy permitted than an improvement scheme.

5. Under this clause, if "any" buildings in "any" area appear to the Board to be insanitary, the Board can proceed to declare it to be an unhealthy area, with the consequence that land and buildings, in or near the area, can be acquired under the terms of compulsory purchase, for the rearrangement and construction of houses and streets. All the old houses, good and bad together, will come down, entailing heavy cost and delay. Under the English Acts an alternative is provided. Individual houses, when found to be unfit for human habitation, can be condemned, and the owners of these houses called upon to put them in order, failing which the offending houses can be demolished. The latter procedure will place the burden of repairing insanitary dwelling houses on owners who are responsible for their condition, and, among other effects, will minimize the displacement of population and will avoid the forcible emigration of working classes from localities where they are employed; while improvement schemes will put the cost on public funds, and cause possibly avoidable wastage and hardship. I do not wish to suggest that improvement schemes should not be adopted. I only urge that proper opportunity should be afforded to examine what, in truth, will be the most satisfactory method of dealing with the evils connected with such buildings, as is required under the clause. I submit that an alternative policy should not altogether be precluded from consideration, particularly as, under the clause as now presented, even if a single house, or perhaps two houses, in the opinion of the Board, are unfit for human habitation, an area of unlimited extent (possibly the whole of Calcutta) can be declared to be an unhealthy area, and the whole machinery of the law set in motion, and all the powers to be conferred by the Act, exercised over such an area. all the powers, to be conferred by the Act, exercised over such an area.

6. I think that it would be advisable to insert a provision for a minimum number of houses, and no improvement scheme authorised on account of houses below that number, found to be unfit for habitation; and also, in order to bring this clause (and clause 36) into accord with the corresponding sections of the English Act, that "a certain" area be substituted for "any area," to permit of an interpretation that the area to be dealt with must be of only

reasonable extent.

- 7. I submit that it is illogical to impose the restrictions on the public (with the principle of which I agree) embodied in clause 36(c) (which follows, in principle, the English Act, in this behalf) to put the Calcutta Corporation into motion; that is to say "in respect of any area comprised in a municipal wardon a written complaint signed by 25 or more residents of such ward who are liable to pay either the owner's share or the occupier's share of the consolidated rate leviable under the Calcutta Municipal Act, 1899"; while the Board may take action under clause 35 on any verbal report of a man in the street or a visitor to Calcutta.
- 8. Co-operation with the parties likely to be affected by improvement or other schemes, is the key-note of the action of the local authorities in England, and I think that at least the right of audience should be given to those who may have objection to offer to any scheme of the Board.

Clause 35.

Clause 50A.

9. I think also that rehousing should be extended only to the poorer classes, who should be defined to be persons whose income, on an average, does not exceed Rs. 100 a month.

10. It is highly important that endeavour should be made to avoid overcrowding, and where, say, 15 or more dwellings occupied by persons belonging to such classes can be acquired or purchased, I think that the Board should make provision for such number of persons to be displaced as the Local Government

may deem necessary.

11. In England, where Municipal Corporations develop schemes of local improvement and carry them into effect, the Local Government Board, a Department of Government responsible to the British Parliament through a Cabinet Minister, is the sanctioning authority, and makes a local inquiry before sanction is given to a scheme. I submit that such an inquiry is very much more necessary here, where the powers exercised by popularly elected Municipal bodies will be exercised by a Board that is so little responsible to the public and requires effective control by superior authority.

12. Where land is not required for the execution of a scheme, and may be retained under clause 67A, it seems to be wrong to constitute the Board judex in sua causa, to fix the sum to be paid for such land. I think that the Collector should value the land, and the valuation be subject to appeal. It will be observed that no principle for the valuation has been provided. I think

that this omission should be made good.

13. I now must close my observations, as I have come to the limit of the time which I have been allowed. I have left untouched points which, I think, require attention, and I must be permitted to reserve to myself full liberty to move such amendments as I think may be required. But I cannot close my observations without a plea for the suspension of the contribution of the Calcutta Corporation for a period, to give time for its income to have increased sufficiently to enable the payment of the 2 per cent. charge to be imposed, without raising their rates. This concession is sought as a boon for the poorer classes. It is immaterial to the house-owner who helds houses as investments, as the rates for such property are paid, in the result, not by the landlord but by the tenant. J. G. APCAR.

Clause 92.

Clause 67 A.

I had hoped to sign an unanimous report, but, that pleasure having been denied, I am for more reasons than one, forced, in the public interest, to record a minute of dissent, which I do with extreme regret.

2. I admit that a few concessions, some of them of an important character, have been made. But on the whole I regret to have to observe that the Bill, as amended by the Select Committee, has lost nothing in

3. The Bill, though apparently shaped and moulded after the City of Bombay Improvement Act, has, I regret to observe, made large departures from some of the important principles of the latter, which, I fear, will prejudi-

cially affect important interests.

4. I cannot conceive why our Board should be less comprehensive and be narrower than that of Bombay. It is no doubt true that the change made by the Committee in the constitution of the Board is in some respects an improvement on the original Bill, for which the Committee deserve our best thanks; but I regret that the number of Trustees has not been raised to the extent we had desired, and important interests have yet been left unrepresented. It would be a matter of comment if the first fruit of an expanded Council, the majority of which are elected and non-official members, be a retrograde measure and the creation of a body, not sufficiently representative, and with a standing official majority. Under all these circumstances it is earnestly to be hoped that His Honour and the Council would be pleased to accept our recommendation of raising the number of Trustees to fourteen, but, candidly speaking, there is no charm in any particular figure, it is in one sense immaterial whether the number should be eleven or fourteen, so long as a preponderance of the non-official element is not allowed. In a matter of such importance it would be advantageous to all parties, it would promote smooth working if all interests were properly represented, if the Board were to utilise the local experience of the representatives of the people, who know their requirements, and if the Board were to act with their concurrence and co-operation, rather than act against their wishes.

5. I now proceed to discuss a question involving an important principle whether and how far the funds of the Board should be utilised in providing residential accommodation for any class other than the working and poorer classes of people displaced by the Improvement operations.

6. Clause 40 of the original Bill, that is, the Bill referred to the Select Committee, declared, in sub-clause (1) (f), that every improvement scheme should provide for "the construction of dwellings for persons displaced by the execution of the scheme, and of shops for the use of such persons." This Bill having been drafted on the lines of the Bombay Improvement Act, which (vide section 25) specifically provides that the construction of dwellings should be undertaken for the accommodation of the working and poorer classes alone, we thought that the section in question should be amended so as to provide that such dwellings could only be made for the use and benefit of the poorer classes. Independently of the above, all shades of public opinion, both European and Indian, had unanimously recommended that the construction of dwellings should only be undertaken for persons of the poorer and working classes. In the opinions of the Corporation and the Bengal Chamber of Commerce, there was absolutely no necessity to make similar provision in the case of the wealthier classes, who are quite able to take care of themselves.

7. However, as the clause was not free from ambiguity, with a view to remove all ambiguity and to clear doubts, when the question came up for discussion before the Select Committee I moved an amendment, that in clause 40, sub-clause (f) line one (of the original Bill) after "persons" should be added "of the poorer and working classes." The amendment, however otherwise reasonable and though once accepted, was, I regret to observe, at a much later stage of the discussion, thrown out under a misconceived apprehension that it would go to defeat the whole scope of the Improvement Act if the Board were tied or restricted to the construction of dwellings for the poorer classes alone, the majority of the Committee being of opinion that it should be one of the primary duties of the Board to construct buildings for all classes, including the wealthier classes.

Clause 4

Clause 50A.

8. Whatever might have been the case in the past, it is well known that within the last fifteen years hundreds upon hundreds of buildings, large and small, most of them being five to two stories high and suited to all tastes and conditions of life, have sprung up especially in the southern parts of Calcutta and the suburbs. All the bustee lands and even jungles have been cleared and instead of dirty hovels and mosquito-breeding jungles we find there beautiful buildings with charming lawns and parks. The general impression is that already too many buildings have sprung up, and that the supply is greater than the demand. In proof of my allegation I beg to point to the numerous buildings and flats that lie vacant from April to October

every year.

9. However desirable may be the construction of sanitary dwellings for the poorer and working classes, it would be intolerable to authorise the Board, with its unlimited resources, with its capital of eight and one-quarter crores of rupees, to enter into speculative transactions and undertake the construction of large and middle-sized residential houses and shops for the wealthier classes and the highly placed. The propriety of allowing a public trust to compete with private enterprise is questionable, as it would go to depreciate private property and prejudicially affect private interests. It is well known that in England State interference with private enterprises is not tolerated. The attempts of the Government of India as well as Local Governments, in the past, to initiate industrial enterprises have, from time to time, elicited strong protests from the European commercial and trading communities as they were viewed in the light of State competition with private enterprise. If the Improvement Trust, the Calcutta Port Trust and the Calcutta Corporation were given a free hand to set up, at their sweet will, buildings, godowns and markets, all kinds of Calcutta property would considerably deteriorate, to the serious prejudice of their proprietors. It may be said, and it is said, that here is no sufficient justification for such an apprehension; but I say that there is sufficient scope for such apprehension, and that this is evident from the action of the Port Trust and the Calcutta Corporation and from the

wording of clause 50A of the Bill.

Another very objectionable clause in the Bill is clause 41, which authorises the Board to acquire any quantity of land irrespective of their necessary requirements for the execution of any scheme. All amendments moved by some of us, to neutralise or minimise its effects, having been rejected, the result is that the Board will now have the power to acquire any quantity of extra land though it may lie beyond the zone of the improvement scheme. The amendments proposed were that there should be a limit to acquisition and that no land beyond a contained on the scheme. limit to acquisition, and that no land beyond a certain depth on either side of a proposed street should be acquired. The clause in question reproduces the provisions of section 357, sub-section. (2) of the Calcutta Municipal Act. It is no doubt in the public interest desirable, that the Board, like the Corporation, should have the power of acquiring extra land outside the main scheme, so that by disposing of the same they may recoup the costs of the main scheme; but surely it cannot be desirable, and I may say that it would be extremely detrimental to private interests, if the Board, with their unlimited resources, were to indulge in land speculations. I have seen in the Calcutta Municipality that often times proposals are submitted for laying out new streets, on the main ground that in the name of new streets by acquiring extra lands beyond the street alignment not only the streets could be made free of cost altogether, but such schemes would at the same time bring much profit to the municipality. I have known instances, and that very recently, in which, whether in making new streets in the fringe area or in formulating the Dhobikhana scheme on Hazra Road, instead of acquiring the actual quantity of land required, it was seriously proposed and unhesitatingly accepted by the Corporation that much larger areas should be acquired, so that the Corporation could make a large profit out of the bargain. While we condemn land-grabbing in private individuals, should the Legislature legalise land-grabbing in a corporate body? Should land acquisition be permitted, to the serious sacrifice of private interests? That there should be a limit to land speculation is the view of the Calcutta Trades' Association and several other bodies. By all means let the Board, according to the modern

Clause 41.

principle of betterment, take so much as may be necessary to recoup the costs of a particular scheme; but why should they, over and above that, try to make money out of it, as if land-grabbing were a legitimate business of a

corporate body?

The Schedule to

11. Now, as regards the land acquisition clauses. My first submission is, there is no emergency to justify the supercession of the old and familiar provisions of the Land Acquisition Act, and in their place to substitute unusual and extraordinary provisions and procedure. In case of urgency the Collector has ample power under the existing Land Acquisition Act to take immediate possession of the land required, there is therefore hardly any necessity for the enactment of new provisions and procedure. I cannot comprehend why it is that for the improvement of Calcutta and the suburbs, which will conduce to the benefit of the general body of ratepayers, comprising all classes and creeds, a particular class owning property in and about Calcutta, and the poor owners of residential houses, should be compelled to submit to heavy pecuniary sacrifices. The whole tenor of the procedure laid down here seems to favour the idea that land and dwellings are to be acquired for the benefit of the Trust on payment of as little as possible to the property holders.

Clauses 14 and 16 of the Schedule to the Bill.

12. It seems that in the proposed additions to sections 23 and 24 of the Land Acquisition Act all possible means and excuses have been utilized for reducing the market value of property to be acquired, and for paying a nominal amount for the same. Here also, as in other cases, all attempts for the elimination of the several additions made to sections 23 and 24 of the Land Acquisition Act, proved abortive, and all amendments proposed for minimising the injurious effects of these additions were one and all thrown out. Without expatiating on all the evils of the proposed additions, I cannot but refer to some of these additions, simply for showing what their collective effect would be on the determination of the market value of property to be acquired. Take, for instance, section 23, sub-section 3 (a), (b), (c), (d), and section 24A, sub-sections (1), (2), (3) and (4). If the propositions of law enunciated here are adopted, they would have the effect of reducing the amount of compensation to about one-third of what would otherwise be payable under the provisions of the Land Acquisition Act.

Clause 14 (3) of 13. With reference to the innovations proposed in sub-clause (4) scored the Schedule to 23, I beg to observe that under section 445 of the Calcutta Municipal Act the Bill. the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Chairman of the Corporation has full power to abate overcrowding in the Chairman of the Chairman of the Corporation has full power to abate overcrowding in the Chairman of t power vested in him by law, but on the contrary having allowed the Assessor of the Corporation to assess all the alleged overcrowded buildings and huts at their full valuation due to such overcrowding, and having reaped the benefit of such overcrowding by realising much larger amounts in the shape of rates than what would have been ordinarily payable if there were no such overcrowding, it would not be fair to the owners of such buildings and huts to turn round and say that the market value of such buildings should be determined by the rents which would have been derivable from such buildings if they were occupied by such number of persons as could be accommodated in them without risk from overcrowding.

14. It is well known that buildings on Harrison Road and other parts of Burrabazar fetch very high rents, amounting to sums varying from Rs. 300 to Rs. 8,000 a month. Suppose it becomes necessary to acquire a building on Harrison Road, the annual rental of which is Rs. 12,000, under the Land Acquisition Act, the amount of compensation payable would be, say, about three lakks of rupees, plus the statutory allowance of 15 per cent; but under section 23, sub-section (3) (d) in this Bill, it might be said that if the house had not been overcrowded, the average yearly rental would have been about Rs. 5,000 or Rs. 6,000 a year, and as such the amount of compensation should be, say, about half of what would otherwise be payable under the Land Acqui-

sition Act.

15. I beg to submit that the additions proposed to be made to section 23 would have the effect of considerably reducing the amount of compensation which would otherwise be payable under the Land Acquisition Act. It would be inexpedient and unfair to treat the Calcutta people differently from the people in other parts of India.

Clause 16 of the hedule to

16. Section 24A(1),-True it is that owners of buildings and lands the are very often called upon by the Calcutta Municipality to submit returns of rents and annual values of such buildings and lands, but this is a meaningless formality, for those returns are never relied upon or acted upon, and the Assessor fixes the assessment in every case according to his own valuation which is always much higher than that shown in the return. Now, the Corporation having rejected the returns, and having realised the rates according to the valuation made by the Assessor, it would not be fair for the Board or the Tribunal to fix the price on a return which was pronounced unreliable and which was therefore rejected and never acted upon.

17. Next I beg to cite a concrete case to illustrate that the prevailing market value of a property can never be ascertained by reference to its rents, and that rent is no criterion for ascertaining the intrinsic market value of bustees and garden lands in Calcutta and the suburbs. There are lands in Cossipur, the monthly rental of which is six to eight annas per cottah, that is Rs. 6 a year. Now, according to the provisions laid down in section 557 of the Calcutta Municipal Act and the provisions made in section 24A(1) in clause 16 of the Schedule to this Bill, the Land Acquisition Collector would be quite justified in awarding Rs. 150 as compensation for a cottah of land in the aforesaid area, but by local enquiries it can easily be ascertained that the prevailing market value of a cottah of land there is about Rs. 500 (five hundred). The above concrete case, in my judgment, furnishes quite sufficient evidence of the startling difference between the market value as ascertained by reference to rental basis and that offered by a willing purchaser

to a willing seller. Here the difference is in the ratio of 4 to 1.

18. After all that has been said by the Select Committee, I have not yet Clause 61 C, 62 18. After all that has been said by the Select Committee, I have no judic? of the Bill. been convinced of the justification, the necessity for the creation of a special Tribunal for the adjudication of civil rights. All the amendments moved regarding the special Tribunal and its constitution having been brushed aside on the plea that it was working well in Bombay, it only now remains for me to point out and to draw the attention of the Council to the fact that the constitution of the proposed Tribunal is extremely faulty and one-sided. I do not know where is the necessity for associating two assessors with the President of the Tribunal, unless it be to give it the appearance of a trial by Jury and to make the decision of the Tribunal final and unappealable. If we are to have assessors, which, in my opinion, is quite unnecessary, then they must not be dependent on the favour of Government for their appointment. In my opinion one of the assessors should be appointed by the Corporation and the other by the British Indian Association or an Association of Landholders. Otherwise the public can have no faith or confidence in such a Tribunal. It is rightly apprehended that the decision of the Tribunal will, in a majority of cases, be shaped, moulded and coloured by the views of the President, whose decision

will be the decision of the majority of the Tribunal. 19. Under all these circumstances, instead of giving us the show or appearance of trial with the aid of assessors, I earnestly appeal to His Honour and to the Council to provide in the Bill for the appointment of two Land Acquisition Judges for the speedy trial of the very numerous Land Acquisition cases that would naturally crop up in executing the Improvement scheme, and give the parties aggrieved the usual right of appeal to the High Court. This is indeed a novel proposal, that an appeal should depend on the certificate of the Judge whose decision is questioned, condemned, and is to be appealed

against.

The provision made here is an indirect, but none the less an effective, method of shutting out appeals. I beg to submit that the provision made here is against the fundamental principle of the British Law. It is against the known traditions of the British Courts of Law to deprive an aggrieved party of his right of appeal to higher tribunals and thereby deny justice to him. I beg to point out whether it would be just and fair to shut out appeals in cases valued at some lakhs of rupees. From personal experience I can say that invariably the awards of the Collector are confirmed, on reference, by Land Acquisition Judges, and it is only by appeals to the Hon'ble High Court that occasionally something is added to the Collector's awards.

21. At the present moment a big Land Acquisition case valued at one and a half crores of rupees is pending before the Alipore Land Acquisition Judge. Whatever be his decision, can anyone reasonably expect that, in case it does not come up to the expectation of the claimants, they should rest content with the decision of the Land Acquisition Judge and should have no right of

Clause 14(2a) of the Schedule to the Bill.

appealing to the High Court and the Privy Council, respectively.

22. In conclusion, I beg to say a few words about the proposed discontinuance of the statutory allowance of 15 per cent. which has hitherto been paid to owners of property whenever any property has been acquired for public purposes. The reason for the payment of the extra allowance of 15 per cent. is that it is something in the nature of solatium for the compulsory acquisition of a man's property. This extra allowance is often more than swallowed up by the heavy costs which the proprietor has to incur in getting the amount of compensation payable decided. In the case of a residential house, the owner has to incur additional costs in different forms for purchasing a new house. It would be a great wrong, and the distinction would be invidious, if the owners of property in the Calcutta Municipality are refused payment of the 15 per cent. allowance when land is acquired for the Improvement Trust, while it will, as heretofore, be continued to be paid when land is to be acquired by the Calcutta Corporation or the Port Trust. The analogy of Bombay cannot hold good, for it was in a great emergency, in a serious crisis, when hundreds and hundreds of people were daily dropping down dead from plague and the whole town was panic-stricken, and there was a general exodus of all classes of people from the city, and when trade and commerce were nearly paralysed, that the citizens of Bombay cheerfully agreed to submit to any sacrifice, rather than live in dirt and filth and die of plague.

23. In spite of what has been stated in the report of the Select Committee, I beg to say that sub-section (2) of section 23 has been virtually repealed, and not merely modified. The Indian Members of the Select Committee refused to receive it as any concession whatsoever when it was proposed that the 15 per cent. allowance under the above-mentioned sub-section should be paid when land is acquired outside of the limit of the Calcutta Municipality while nothing would be paid when land is acquired in the Calcutta Municipality. The real nature of this so-called concession would be apparent from the fact that large acquisitions of valuable landed properties, the price of which may range from Rs. 4,000 (four thousand) to Rs. 80,000 (eighty thousand) a cottah, would be made in the Calcutta Municipality, whereas small acquisitions of waste lands and paddy fields for the construction of model dwellings for the poorer classes may be made outside of the Calcutta Municipality and the price

of such lands may vary from Rs. 50 (fifty) upwards per cottah.

24. We are quite prepared to accept the amendment proposed by the Hon'ble Mr. J. C. Shorrock, which seems to us a reasonable solution of this

knotty question.

25. In conclusion, I earnestly pray that the Bill may not be passed in a form which will go to displease a class of people, I mean owners of property in Calcutta, who have always been loyal and firmly attached to, and have always stood by, the Government. esero ni na quio vilerates Maria di

SITA NATH RAY.

The 2nd March, 1911.

THE last meeting of the Select Committee, which held altogether 34 sittings, was on the 28th of February, and those of the members who desired to annex to the report of the Select Committee any minute of dissent were asked to submit their notes of dissent on the morning of the 2nd March, thus giving the dissentient members practically a day's time, which, owing to an important meeting of the Supreme Legislative Council, I have not been able to utilise. I have, however, obtained an additional day, through the courtesy of the Secretary, Legislative Department. I have made this preliminary observation in order to explain the discursive and scrappy nature of my notes, and not by way of complaint. There are many points of difference between the opinion of the majority of the Select Committee and myself, but for want of time I shall indicate only the more important among them.

2. In the presmble I should confine the acquisition of land for re-housing of persons displaced by the execution of the improvement schemes only to the

poorer classes, whom I should define as having an income of not more than Rs. 1,200 a year.

3. The Board consist of 11 persons, of whom 2 are Government servants and 4 are Government nominees. Then again, of the three Corporation members, one is to be elected by the 25 Commissioners, composed of 15 Government nominees and 10 representatives of the Bengal Chamber of Commerce, the Calcutta Trades Association and the Port Commissioners of Calcutta, so that, in the election of this member of the Board, the Municipal Commissioners nominated by Government will have a predominant voice. We shall thus have, in a body of 11, seven members, two of whom are Government servants

and the other five directly or indirectly nominees of Government.

The Calcutta rate-paying public will have one member to be elected by the 25 Ward Commissioners, and they will have some voice in the election of the third, men.ber by the Corporation, where their proportion is only onehalf. The rate-paying public of Calcutta consists of owners of landed property, among whom must be included the large class of persons in the Indian portions of the city who live in their own houses, and of occupiers. The Municipal Commissioners are returned by both classes of rate-payers; and it comes to this, that the owners of landed property in Calcutta or the residential owners, whose interests will be very largely affected by the operations of the Board, will have practically no representation on the Board. I think some adequate provision should be made for the representation of this large and important interest, as otherwise the land-owning public of Calcutta will not have any confidence in a Board, where they can have hardly any representative, especially as the Board will have very largely to decide questions as to the amount which house-owners will have to pay who desire to retain land which is not required for the purposes of any improvement scheme and for which they will have to pay a lump sum to be fixed by the Board for a prospective increase in value. I should therefore suggest that there should be at least two representatives on the Board of the landed interest in Calcutta, for whom a constituency based on the qualification of paying the owner's share of the consolidated rate may easily be framed: the addition of these 2 members will raise the number of the Board to 13, of whom 6 members will hold their seats under Government directly and 1 will be a Government nominee indirectly. The Bombay Improvement Board consist of 14 members, and 13 members for Calcutta, or even 14, would not by any means be a large or unworkable number.

5. If this addition of two members is not accepted, the Government, which originally under the Bill as introduced wanted to reserve to itself two nominees, may very well give up the two additional nominations conferred on it by the Select Committee, who thought that as two additions were made to the Board as representatives of other interests, Government should also have two additional members given to it. If the Government is unwilling to do so, I would strongly urge that, out of the four persons to be directly nominated by Government, two should be, by statutory provision, representatives of the landholding classes of Calcutta. I have not said anything particularly of the "occupiers" of Calcutta, to borrow a well-known expression from the Municial Act, as they will at least have 3 representatives out of 11, namely, the President, the Chairman of the Corporation, and the member for the Bengal

Chamber of Commerce.

reamble

he Bill.

Cause 67A.

Clause 7 (b).

6. I strongly object to one of the three members given to the Corporation being elected by the 25 Commissioners appointed under sub-section (2) of section 8 of the Calcutta Municipal Act, who are known as the nominated Ben. Act Commissioners. These nominated Commissioners consist of 15 Government III of 1899. nominees, 4 representatives of the Chamber of Commerce, 4 of the Calcutta Trades Association and 2 Port Commissioners. Of the 15 Government nominees, I believe 12 at the present time are Government officials, and it comes to this that out of three members which the Government proposes to give to the Corporation, it practically takes away one. There seems to be no reason why the Government nominees on the Calcutta Municipal Board should have the choice of one representative to the Improvement Trust, seeing that the Government has got in it six members already. European commerce and trade have got a direct representative on the Improvement Trust given to them, and it is not clear why their representatives on the Corporation should have the indirect choice of another member in conjunction with the Government nominees. I think the more equitable method by which the three members of the Corporation should be returned is as follows:—two by the elected Commissioners who represent both the householding and "occupying" public of Calcutta, and one by the Corporation in whose election the Government nominees and other nominated Commissioners will take part.

7. Fees payable to Trustees.—Members of Committees who are engaged as experts for a specific remuneration should not be paid any fee for attendance

at meetings.

The aggregate amount of fees payable to any trustees for all meetings held during a month should be fixed at Rs. 200, as in the Bombay Act, and IV of 1898. not left for future determination.

Clause 26. Clause 30.

Clause 21.

Chapter III.

8. Papers should be sent to the Corporation also.

9. The President's sole power of appointment should be limited to offices not carrying a salary of over Rs. 200 a month.

10. Chapter III deals with three classes of schemes-

1st, improvements of insanitary areas, which are called general improvement schemes,

2nd, street-improvement schemes, 3rd, re-housing schemes.

The clauses in this Chapter, however, have been so arranged that they create a confusion in the mind as to the proper understanding of the meaning thereof; for example, the question of dealing with an area arises under the general improvement scheme (vide clause 35). Street-improvement schemes deal primarily with opening up of new streets and providing building sites. Clause 40, however, makes provisions for acquiring lands in the improvement area, laying out or relaying of lands in such area, etc. It is by no means clear in the Bill as to which class of improvement schemes this clause applies to. Much useful purpose does not seem to be gained by the compulsory and optional provisions of clauses 40 and 41.

11. The scheme of the Calcutta Bill varies considerably from the principle of the City of Bombay Improvement Act. There the Board can take action IV of 1898. in improving an insanitary area only upon an official representation made by the Municipal authorities: here power is given to the Board to act irrespective of any official representation. This procedure, if followed, is likely to lead to friction between the Corporation and the Board, and may also result in the over-lapping of schemes. The Board, moreover, in the absence of local representatives and a health department, will not possess the requisite knowledge to deal on its own initiative with insanitary areas in Calcutta.

This clause lays down under what circumstances street schemes may be undertaken. One of these is (a) "providing building-sites." Does this mean that the Board are to open streets, to acquire building-sites, and, if so, building-sites for what class of people? Is it in contemplation to acquire large plots of land from private owners and then resell them as building-sites to all classes of persons? If so, it is objectionable in principle, for the Board then will, for no purposes of State, acquire lands from one class of owners and transfer them to another class, who even under the current doctrines of

Clause 85.

Clause 38.

Socialism are not entitled to this benefit. Sites should only be acquired for public purposes, or the purpose of housing poorer and working classes displaced by the operation of the scheme. The Bombay Act does not contain any such Bom. Act general provision as is contained in clause 38 a), and, so far as I have been able to ascertain, none of the English Acts has the provision.

13. The re-housing scheme, as contained in the Bill, is unsound. The

Clause 50A.

Bombay Act only provides for the accommodation of the poorer and working classes, including the whole or part of such classes who may be displaced in the execution of the scheme. Why should the re-housing scheme of Calcutta extend beyond classes who are recognised as the only classes entitled to relief at the expense of the general tax-payer? Moreover, I cannot imagine what machinery the Board will have for the construction of buildings and their maintenance, as contemplated in clause 56A, sub-clause (4), and what will be the nature of the rights of parties who will undertake to build at their own expense, their powers of sale or letting, and the final adjustment of their rights when the Board cease to be.

Clause 46.

14. I now go back to clause 46, which provides for the consideration of objections by parties who will be affected by the execution of the schemes and who are invited, under clauses 42, 43 and 44, to send in their objections. There is no procedure provided as to how these objections are to be dealt with: they are merely to be considered by the Board, who are not called upon to give and 407) parties objecting are given a hearing. In England, where we have a III of 1899. class of persons much better able to safeguard their interests, and where having regard to the non-official nature of the administration and the the objectors even a hearing. Under the Calcutta Municipal Act (sections 401 of the persons affected and the bodies charged with carrying out the improvements, a greatly elaborate system for the protection of private interests may not seem necessary, we have got scrupulous provisions made for the safeguarding of the interests of private owners. In the Housing of the Working Classes Act, 1890 (53 & 54 Vict., Cap. 70), where provision is made for improvement of unhealthy areas, the Local Government Board appoints a special officer to hold a local inquiry and to ascertain local objections. Upon his report, the Local Government Board makes a provisional order, which is published and served upon all persons affected. This provisional order is followed by an Act of Parliament, and then the scheme is put into operation. In the amending Act, 1903, [1] power is taken to give effect to the provisional order of the Local Government Board if no land is being taken compulsorily or if there is no objection to such compulsory taking. And in the latest Statute 9 Edw. VII, Cap. 44, First Schedule, rule (6), it is provided as follows: - "The Local Government Board shall forthwith cause a public inquiry to be held in the locality in which the land is proposed to be acquired, and the local authority and all persons interested in the land, and such other persons as the person holding the inquiry in his discretion thinks fit to allow, shall be permitted to appear and be heard at the inquiry."[3] This statute further provides expressly that regulations should be framed "for securing co-operation on the part of the local authority with the owners and other persons interested in the land at every stage of the proceedings by means of conferences."[3] If these elaborate precautions have been found necessary in England, they are much more necessary here. If the institution of an independent local inquiry like what they have in England is not possible, some opportunity ought to be given to the objectors in any particular area to appear either collectively or singly before the Board, and place their objections personally before them. objectors would otherwise have to rely upon a summary made in the office, where the strongest points may be overlooked.

Clause 56 J.

15. Clause 56 J does not provide as to how and by whom the reference is to be made.

16. Clause 61B and the clauses bearing upon the constitution and powers of the Tribunal-I do not object to the Tribunal if a right of appeal is given. There seems to be some apprehension that this right of appeal may be abused. I do not share in this apprehension. Upon a mere question of value, when there will be two experts to assist in the valuation, there will be hardly any appeal, except when there has been a clear misapplication of some well-established principle of valuation. Take, for instance, the Original Side of the

^[1] The Housing of the Working Classes Act, 1901 (3 Edw. VII, Cap. 39).
[2] The Housing, Town Planning, etc., Act, 1909. First Schedule, rule (6),
[3] Vide section 56 (2) (a) of 9 Edw. VII, Cap. 44.

High Court, from where there is an unrestricted right of appeal. Taking the last three years, in 1908 there were 1,117 cases instituted and 66 appeals; in 1909 number of cases 1,185, appeals 62; in 1910 number of cases 1,185 and appeals 76. People do not rush to an expensive Appellate Court from a mere desire to appeal, and I hardly think there will be any appreciable number of appeals from awards upon valuations made by a tribunal of experts: at the same time, the provision of an appeal keeps the subordinate tribunal in order

and ensures the regularity of proceedings.

tion 24A(I)].

Clause 67A.

17. This is one of the most important provisions of the Bill: it enables an owner under certain circumstances to save his property which is not wanted for the carrying out of an improvement scheme by compounding with the Board by a lump-sum payment or submitting to a charge on his property and paying interest. The object of the clause seems to be this: the Board do not want the land for the improvement, but they will hold out a threat for its acquisition in order to get what money it can from the owner; the owner will Schedule, clauses be at the mercy of the Board, because the Bill makes no provision for payment 4 (2a) and 16 [sec- of any compensation except the value of the land, which, again, under the amendments proposed as regards the mode of valuation in the Land Acquisition Act, namely, that such valuation shall be based upon the return made by the owner to the Municipality for purposes of assessment, will be in many instances much below the market value. We have, moreover, to bear in mind the fact that the improvement schemes under the Bill will affect many ancestral residential houses which our people are very anxious to retain under any circumstances. All these combined will place the owner seeking to retain the land in a position of great disadvantage.

18. The only justification for such an extraordinary procedure is that there is a similar provision in the present Calcutta Municipal Act and that III of 1859. people in Calcutta have become accustomed to it. That this provision in the Calcutta Municipal Act has been very seldom put into operation is evident from the fact that very few people in Calcutta know about it, and moreover the only safeguard that at present exists against any tyrannical proceedings on the part of the Corporation, apart from its being a popular body, viz, that, if the Corporation and the owner do not agree as to the valuation, the land has to be acquired under the present Land Acquisition Act, which prevides for compensation and for payment of the actual market value, is going to be removed

from the present Act.

19. The English system follows a different practice altogether. The ewner of the laud not required for carrying out an improvement scheme, but benefiting by the improvements in his area pays a rate of 3 per cent. on half the increased value due to the improvement. The increased value is assessed, subject to a right of appeal by the owner. The principles embodied in the English practice, if not the practice itself, should be adopted, namely, that the value to be fixed for lands exempted should be half of the prospective increase in value, and, in case of difference between the Board and the owner, it should be referred to the Tribunal for determination. All questions of damage and compensation arising from the operations of the Board are referable to the Tribunal, and I fail to see why, when the Board decide to allow a person to retain his land upon payment to the Board of what is presumed to be the equivalent of the prospective increase, the only expert body which the Bill provides should not be consulted.

20. Clause 71 provides for a 2 per cent, duty in addition to the stamp duty on all sales, gifts, etc., of property within the limits of the Calcutta Municipality. Property below Rs. 5,000 in value should be exempted, and all sales effected in pursuance of agreements entered into before the passing of the

Act should be exempted.

21. The municipal contribution of 2 per cent. per annum on the rateable valuation of Calcutta should not be payable at once. The Board will not be in a position to carry out any improvement scheme on a large scale until after some time has elapsed; the operations of the first few years, when houses will be pulled down in large numbers and land acquired in considerable quantity, will have the effect of reducing the rateable value of Calcutta. It is not fair to tax the present generation for a benefit which will only accrue to future generations. The Corporation, in their note, have very conclusively shown

that their contribution will not be required for at least six years if not ten, and that, even if the municipal contribution is postponed, there will be a considerable surplus left after the operations of the Board have ceased.

Clause 100 (1a).

22. I should prefer debentures being signed by the President and two other trustees, as in the case of Calcutta Municipal debentures and the

Bombay City Improvement debentures.

Schedule cla use 14 (2a).

23. Clause 14 (2a) in the Schedule disallows the compensation of 15 per cent. now payable under the Land Acquisition Act, in respect of land to be acquired under the Improvement Act in Calcutta only. In England the usual practice in assessing the value of land is to add a certain percentage, usually 10 per cent., for what is termed compulsory purchase. The innovation in the Bill is sought to be justified by English precedents in the recent Statutes for Town Improvements, and by the principle adopted in the Bombay Act. The English Statutes deal principally, if not exclusively, with tenanted houses, when the owner who gets the price may easily find a fresh investment for

24. Even in England this provision does not find place in all the Improvement Acts, and certainly not in the earlier Acts. The first application of this principle was to lands in unhealthy areas, and it is still more or less confined to such areas. Nearly 20 years have elapsed between the earlier and later Acts before the urban public of England have accepted this innovation, which, as I have said, hardly affects the case, having regard to the mode of valuation adopted in England. In Calcutta the first Improvement Act begins with the latest innovation adopted in England after 20 years. Then, again, the circumstances under which the Bombay Act of 1898 was passed do Bom. not happily exist at the present time in Calcutta. Lord Sandhurst, in IV of 1898. introducing the Bill, observed that Bombay was face to face with a great and grave emergency—the prevalence of plague in Bombay, which all measures taken by Government seemed unable to check, and the financial position very gloomy: in fact, as is well known, the Bombay Improvement Trust has been seriously handicapped for want of funds, and the Supreme Government have only just now made a gift to it of Rs. 50 lakhs.

25. The financial scheme of the Calcutta Improvement Bill is much sounder, and it has been shown by experts that there will be a considerable surplus left after the operations have closed : the emergency which existed in Bombay, and which would justify any sacrifice, happily does not exist in Calcutta. The Chawt system, which aggravated the congestion of Bombay, is absent from Calcutta. The great mills and factories are all outside Calcutta, and do not conduce to the congestion of Calcutta to anything like the same extent to which they do in Bombay. And in Calcutta this rule will affect not owners of properties enjoying their rents, but many poor and middle class residential owners inhabiting ancestral homes. Apart from all this, the owner whose property will be acquired will be put to heavy expenses in obtaining professional and expert advice as to valuation and producing his evidence before the Collector. He will have to pay a stamp duty of 3 per cent. to buy a new house for himself, and he gets no compensation for removal, except mere expenses. All these factors are totally ignored. Moreover, whatever justification there may be for lands which are actually required for an improvement, or when unhealthy sites or buildings are acquired, there hardly seems any justification for the application of this principle when land is being acquired to provide building sites for others or threatened to be acquired to reduce the cost of executing a scheme. In this connection I may refer to the finding of the Calcutta Building Commission :- "We have carefully considered the question of statutory allowance, and are not inclined to recommend any alteration of the present law," and this was said at a time when Calcutta was threatened with plague, which people feared would be as severe as in Bombay, if not worse.

26. I strongly deprecate the introduction of this principle in the valuation of a holding in Calcutta, namely, that the return of annual value or rent, made by the owner for purposes of municipal assessment, shall be taken as the basis of valuation unless the Tribunal otherwise directs. None of the English Statutes have got this provision: the Bombay Act has, but the system of Bom. Ac municipal rating in Bombay and Calcutta is not the same. In Bombay all IV of 1898.

Schedule

houses are assessed on the basis of actual or presumptive rental; in Calcutta, as is well known, in cases of residential houses a most fanciful system of valuation is in vogue, namely, one has to take the selling value of land, add to it the present cost of construction of the building, deduct therefrom the depreciation, and take 5 per cent. on the remainder as the annual value of the property. Apart from the injustice of taking a valuation which is submitted for purposes of assessment as the price in case of a sale, it is not possible to compare the Bombay system with the Calcutta system of assessment. Then we have no knowledge as to the relative numbers of residential houses in Calcutta and Bombay which are likely to be affected by the improvement schemes. The provision can only be meant either as a punishment for a low return or as indicative of a desire to acquire land without paying a fair price. The latter supposition is untenable: then the only object would seem to be to punish people. They are punishable under the Municipal Act, and are also punishable under the Indian Penal Code: to introduce a new punishment, for a different latter to the Indian Penal Code: to introduce a new punishment for a different latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as a punishment for a latter as under the Indian Penal Code: to introduce a new punishment for a different III of 1899. purpose seems to be manifestly unjust. And what is more, the amendment provides that the basis of valuation shall be the return made by the party, though the Corporation may not have accepted it and may have assessed the property at a much higher figure.

27. These are some of the observations I intended to make on the provisions of the Bill. Having regard to the shortness of time, I have been unable to elaborate them or go into details, and I have been obliged to omit the consideration of various other provisions of the Bill which are not so prominent

as those I have noticed.

BHUPENDRA NATH BASU.

THE CALCUTTA IMPROVEMENT BILL, 1911

(AS AMENDED BY THE SELECT COMMITTEE).

. [Notes-1. Explanation of notes in square brackets in margin :-

- "1898" means the City of Bombay Improvement Act, 1898 (Bom. Act IV of 1898), i.e., the edition of the Act, as modified up to the 1st October, 1903, published by the Government of Bombay. The words "proposed amendment," "proposed section" and "proposed clause", in these notes, mean amendments and new sections or clauses proposed in a Bill of the year 1906.
- "1899" means the Calcutta Municipal Act, 1899 (Ben. Act III of 1899).
- "C.B.C." means the Report of the Calcutta Building Commission, dated the 23rd December, 1897.
- "Analysis" means the analysis, appended to Government of India's letter No. 93, dated the 18th July, 1905, of the proposals for legislation.
- "26th September, 1907" means the Government of India's Despatch No. 380 of that date.
- "14th February, 1908" means the Secretary of State's Despatch No. 14 of that date.
- "2nd May, 1908" means the Government of India's letter No. 88 of that date.
- Amendments made by the Select Committee are, as far as possible, printed in antique type.
- 3. Some of the amendments made by the Select Committee necessitate a re-numbering of clauses and sub-clauses. The old numbers have been retained for the present, for convenience of reference, and the necessary alterations will be made, under a motion in Council, when the Bill is brought forward for passing.]

A Bill to provide for the Improvement and Expansion of Calcutta,

[1890, title.]

Whereas it is expedient to make provision for the improvement and expansion of Calcutta by opening up congested areas, laying out or altering streets, providing open spaces for purposes of ventilation or recreation, demolishing or constructing buildings, acquiring land for the said purposes and for the re-housing of persons displaced by the execution of improvement schemes, and otherwise as hereinafter appearing;

[1898, preamble - Analysis, pare, 2]

And whereas it is expedient that a Board of Trustees should be constituted and invested with special powers for earrying out the objects of this Act;

And whereas the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the provisions of this Act which affect Acts passed by the Governor General of India in Council;

85 & 56 Vict., o. 74,

And whereas the sanction of the Governor General has also been obtained, under section 43 of the Indian Councils Act, 1861, to the enactment of the provisions of Chapter V of this Act, relating to taxation;

24 & 25 Viet. c. 67.

It is hereby enacted as follows :-

CHAPTER I .- PRELIMINARY.

Short state, 1. (2) This Act may be called the Calcutta Improvement Act, proposed unerdments; and extent, 1911.

(Chapter I .- Preliminary .- Chapter II .- The Board of Trustees .-Constitution of the Board .- Clauses 2-4.)

- (2) It shall come into force on such day as the Local Gov- Ben. Act III of ernment may, by notification, direct, not being more than three months after the day on which it is published in the Calcutta Gazette after having received the assent of the Governor General.
- (3) Except as otherwise hereinafter provided, this Act shall extend only to the Calcutta Municipality; but any provision which extends only to the Calcutta Municipality may be extended by the Local Government, entirely or in part, by notification, under the procedure prescribed by section 146, to any specified area in the neighbourhood of that Municipality in the neighbourhood of that Municipality.

Definitions.

- 2. In this Act, unless there is anything repugnant in the subject or context,-
 - (a) "the Board" means the Board of Trustees for the Improvement of Calcutta, constituted under this Act;
 (b) "the Calcutta Municipality" means "Calcutta" as defined
 - in clause (7) of section 3 of the Calcutta Municipal Act, 1899;

(e) "the Corporation" means the Corporation of Calcutta constituted under the said Calcutta Municipal Act, 1899;

(i) the "Tribunal means two Installations section 62; (i) "Trustee" means a Member of the Board; and (k) the expressions "building line," "drain," "public street" and "street alignment" have the same meaning as in clauses (3), (16), (37) and (47), respectively, of section 3 of the Calcutta Municipal

Ben. Act III of 1899.

Ben, Act III of 1899.

Ben. Act III of 1899,

CHAPTER II .- THE BOARD OF TRUSTEES.

Constitution of the Board.

3. The duty of carrying out the provisions of this Act shall, [1898, s. e.] subject to the conditions and limitations hereinafter contained, be vested in a Board, to be called "The Trustees for the Improvement of Calcutta"; and such Board shall be a body corporate and have perpetual succession and a common seal, and may by the said name sue and be sued.

Constitution of the Board.

- 4. The Board shall consist of eleven Trustees, namely,-
 - (a) a President,
 - (b) the Chairman of the Corporation,
- (c) three other members of the Corporation, (d) a member of the Bengal Chamber of Commerce,
- (d1) a member of the Bengal National Chamber of Commerce, and
- (e) four other persons.

6.] 1908,

(Chapter II .- The Board of Trustees .- Constitution of the Board .- Clauses 5-9.)

5. The President and the four persons referred to in clause (e) [Analysis, para, 2; of section 4 shall be appointed by the Local Government by para, 6.] notification.

The Chairman of the Corporation shall be a Trustee 20th September, 1907, para. 8, 20th September, 1907, para. 6.1 ex officio.

7. (1) The three members of the Corporation referred to in paras. 5, 6; clause (c) of section 4 shall be elected as follows, namely,—

[14th February, 1908 7 clause (c) of section 4 shall be elected as follows, namely,—

(a1) one by the Corporation,

(a) one by the Ward Commissioners, and

(b) one by the Commissioners appointed under sub-section (2) of section 8 of the Calcutta Municipal Act, 1899.

Ben. Act III of 1893,

- (2) The member of the Bengal Chamber of Commerce referred to in clause (d) of section 4 shall be elected by that Chamber.
- (2a) The member of the Bengal National Chamber of Commerce referred to in clause (dd) of section 4 shall be elected by that Chamber.
- (3) The Secretary to the Corporation, the Secretary to the Bengal Chamber of Commerce and the Secretary to the Bengal National Chamber of Commerce shall respectively make a return in duplicate to the President, setting forth the name in full of every person elected under this section; and the said return shall be published by notification under the signature of the President.

8. If any of the bodies of electors referred to in section 7 [1899, s. 58; 1896, s. 8.] does not, by such date as may be prescribed by rule made in that behalf under section 136, elect a person to be a Trustee, the Local Government shall, by notification, appoint a person belonging to such body to be a Trustee; and any person so appointed shall be deemed to be a Trustee as if he had been duly elected by such

9. (1) A person shall be disqualified for being appointed or 1899, s. 39.] to being elected a Trustee if he— Disqualifica-ns for being pointed or oted a Trus-

- (a) has been sentenced by any Court for any non-bailable offence, such sentence not having been subsequently reversed or quashed, and such person's disqualification on account of such sentence not having been removed by an order which the Local Government is hereby empowered to make, if it thinks fit, in this behalf; or
- (b) is an undischarged insolvent; or
- (c) holds any office or place of profit under the Board; or
- (d) has, directly or indirectly, by himself or by any partner, employer or employe, any share or interest in any contract or employment with, by, or on behalf of, the Board, or
- (e) is a director, or a secretary, manager or other salaried officer, of any incorporated company which contracts with, or is employed by, the President on behalf of the Board.
- (2) But a person shall not be disqualified as aforesaid, or be deemed to have any share or interest in such a contract or employment as aforesaid, by reason only of his having a share or
 - (i) any sale, purchase, lease or exchange of land, or any agreement for the same; or

(Chapter II.—The Board of Trustees.—Constitution of the Board.—Clauses 10—15.)

- (ii) any agreement for the loan of money, or any security for the payment of money only; or
- (iii) any newspaper in which any advertisement relating to the affairs of the Board is inserted; or
- (iv) (Reproduced at the end of this clause.)
- (v) the occasional sale to the Board, to a value not exceeding two thousand rupees in any one financial year, of any article in which he trades;

or by reason only of his having a share or interest, otherwise than as director, or secretary, manager or other salaried officer, in any incorporated company which contracts with, or is employed by, the President on behalf of the Board.

Proviso (Reproduced in clause 21A).

The President 10. While any person is holding the office of President he [1898, g. 16 (1); to be a whole shall not hold any other salaried office, and, subject to any exceptions permitted by the Local Government, shall devote his whole time and attention to his duties under this Act.

Remuneration of President. 11. (1) The President shall receive such monthly salary, proposed amendment; not exceeding three thousand rupees, as may be fixed by the 1899, s. 12.]

Local Government:

Provided that, if the President, after having held his office for three years, is re-appointed for a further term of not less than than two years, the Local Government may direct that his monthly salary be increased to any sum not exceeding three thousand five hundred rupees.

- (2) The word "salary," as used in this section, excludes allowances to which the President may be entitled and any contribution payable on his account under any general or special orders of the Government for regulating the transfer of Government servants to foreign service.
- (3) The Local Government may, if it thinks fit, direct the payment to the President of a house-rent and conveyance allowance, not exceeding five hundred rupees per mensem, in addition to his salary.
 - 12. (Reproduced in clause 16A.)
 - 13. (Reproduced in clause 15B.)

Leave of the local Government may, after consultation [1898, s. 22, with proportion of the with the Board, grant leave of absence to the President, or posed amendment, president, depute him to other duties, for such period as it thinks fit.

(2) The allowance (if any) to be paid to the President while absent on leave or deputation shall be such amount, not exceeding his salary, as may be fixed by the Local Government:

Provided that, if the President is a Government officer, the amount of such allowance shall be such as he may be entitled to under any general or special orders of the Government for regulating the transfer of Government servants to foreign service.

(3) (Reproduced in clause 144A.)

Appointment. 15. (1) Whenever the President is granted leave of absence considers. 15. (2) Whenever the President is granted leave of absence considers. 15. (2) Whenever the President is granted leave of absence considers.

(2) The salary and house-rent and conveyance allowance (if any) of any person appointed to act as President shall be fixed by the Local Government, subject to the provisions of section II.

(Chapter II .- The Board of Trustees .- Constitution of the Board .-Clauses 15 A-16 A.)

(3) Any person appointed to act as President shall exercise the powers and perform the duties conferred and imposed by and under this Act on the President, and shall, so far as may be, be subject to the same liabilities, restrictions and conditions as the President.

15A. The Board may permit any Trustee, other than the [Cf. clause 13 (c) and President or the Chairman of the Corporation, to absent duced in Council.] himself from meetings of the Board for any period not exceeding six months.

15B. (1) The Local Government may, by notification, introduced in Co. (1898, s. 16, 1898, s. 16, 1899, s. 18, 1899, s. 18, declare that any Trustee shall cease to be a Trustee—

Ben. Act III of 1884, s, 20; (a) if he has acted in contravention of section 21A, or

- (b) if he has been absent from, or is unable to attend, the Ben. Act III of 1884, meetings of the Board for any period exceeding six s. 18.] consecutive months, or
- (7) if he has, without the permission of the Board, been absent from the meetings of the Board for any period exceeding three consecutive months, or
- (d) if he is a salaried servant of the Government, and if his continuance in office as a Trustee is, in the opinion of the Local Government, undesirable.
- (2) The Local Government shall, by notification, declare that a Trustee shall cease to be a Trustee—
 - (i) if he has become disqualified for appointment or election as a Trustee for any of the reasons mentioned in section 9; or
 - (ii) if he was elected or appointed as being a member of the Corporation, the Bengal Chamber of Commerce or the Bengal National Chamber of Commerce, and if he is, at the date of such notification, no longer a member of the Corporation or such Chamber, as the case may be.
- (3) If at any time it appears to the Local Government that the President has shown himself to be unsuitable for his office, or has been guilty of any misconduct or neglect which renders his removal expedient, it may, by notification, declare that the President shall cease to hold office as such.

16. (1) If any Trustee be permitted by the Board to [1808, 0, 12 (2),] absent himself from meetings of the Board for any period exceeding three months,

or if any Trustee, other than the Chairman of the Corporation, [1898, s. 13.] dies, or resigns the office of Trustee, or ceases to hold the office of Trustee in pursuance of a notification published under section 15B,

the vacancy shall be filled, within one month, by a fresh appointment or election under section 5, section 7 or section 8, as the case may be.

(2), (31, (4). (Omitted).

16A. (1) The term of office of the first Trustees appointed or Clause 12 of Bill as elected under section 5, section 7 or section 8, other than the introduced in Council, 1808, so. 10, 12 (1). President, shall commence on such day, not being less than (2), (3).] thirty days from the commencement of this Act. as may be appointed by the Local Government.

[1899, ss. 79, 81.]

The Calcutta Improvement Bill, 1911.

(Chapter II .- The Board of Trustees .- Conduct of Business .-Clauses 17-18.)

- (2) Subject to the provisions of section 153, the term of office of Trustees (other than the Chairman of the Corporation) shall be as follows :-
 - (a) the President—such period, not less than three years, as may be fixed by the Local Government;
 - (b) a Trustee appointed or elected in pursuance of section 16 in the place of a Trustee who has been permitted to absent himself from meetings of the Board-the period of the absence of the latter Trustee;
 - (c) other Trustees-three years.
- (3) Any Trustee shall, if not disqualified for any of the reasons mentioned in section 9, be eligible for re-appointment or re-election at the end of his term of office.

Conduct of Business.

17. The Board shall meet, and shall from time to time make such arrangements with respect to the place, day, hour, notice, management and adjournment of their meetings, as they may think fit, subject to the following provisions, namely:— Meetings

- (a) an ordinary meeting shall be held once at least in every [1899, s. 77 (n.) month;
- (b) the President may, whenever he thinks fit, and shall, upon the written request of not less than two [1899, s. 77 (2).1
- other Trustees, call a special meeting;
 (c) the President shall attend every meeting of the Board 1839, a. so. 1 unless absent on leave or prevented by sickness or other reasonable cause;
- (d) no business shall be transacted at any meeting unless at least half of the existing number of the Trustees are present from the beginning to the end of the meeting:
- [1890, s. S1.] (e) the person to preside at a meeting shall be the President, or, in his absence from any meeting, one of the Trustees present who is chosen by the others who are present;
- (f) all questions shall be decided by a majority of votes of
- the Trustees present, the person presiding having a second or casting vote in all cases of equality of votes;

 (g) if a poll be demanded, the names of the Trustees voting, and the nature of their votes, shall be recorded by the
- and the nature of their votes, shall be recorded by the person presiding;

 (h) minutes of the names of the Trustees present, and of the proceedings, at each meeting shall be kept in a book to be provided for the purpose, which shall be signed at the next ensuing meeting by the person presiding at such meeting and shall be open to inspection by any Trustee during office hours.

orary 17A. (1) The Board may add to their number, in such [Clause 20 of Bill as to the manner and for such period as may be prescribed by rules made Council.]

For part under section 137, any persons whose assistance or advice they [28th September, 1907, may desire in carrying out any of the provisions of this Act. Act VIII of 1904,

(2) A person added to the Board under sub-section (1) s. 14 (b), (s).]

for any purpose shall have a right to take part in the discussions of the Board relative to that purpose, but shall not have a right to vote at a meeting of the Board and

not have a right to vote at a meeting of the Board and shall not be a member of the Board for any other purpose.

18. (1) The Board may from time to time appoint Commit-1899, sa. 9, 95 (18). tees, consisting of such persons of any of the following classes as it may think fit, namely:— Constitution i functions Committees.

- (i) Trustees,
- (ii) persons added to the Board under section 17A,
 (iii) other persons whose assistance or advice the
 Board may desire as members of Committees:

(Chapter II .- The Board of Trustees .- Conduct of Business .-Clauses 19-21A.)

Provided that no Committee shall consist of less than three persons.

(2) The Board may-

(a) refer to such Committees, for inquiry and report, any matter relating to any of the purposes of this Act, and

(b) delegate to such Committees, by specific resolution, and subject to any rules made under section 137, any of the powers or duties of the Board.

(3) The Board may at any time dissolve, or, subject to the provisions of sub-section (1), alter the constitution of, any such Committee.

(4) Every such Committee shall conform to any instructions

from time to time given to them by the Board.

(5) All proceedings of any such Committee shall be subject to confirmation by the Board.

Proviso (Omitted).

Meetings ommittees.

19. (1) Committees appointed under section 18 may meet and [1898, a. 18 (4), (1), adjourn as they think proper; but the President may, whenever 6).] he thinks fit, call a special meeting of any Committee, and shall call a special meeting of any Committee upon the written request of not less than two members thereof.

(2) The person to preside at a meeting of a Committee shall be the President, if he is a member of the Committee, or, if he is not a member, then one of the members present who is chosen by the others who are present.

(3) No business shall be transacted at any meeting of a Committee unless at least half the number of the members

of the Committee are present from the beginning to the end of the meeting.

- (4) All questions at any meeting of a Committee shall be decided by a majority of votes of the members present, the person presiding having a second or casting vote in all cases of equality of votes.
 - 20. (Reproduced in clause 17 A.)

21. Every Trustee (other than the President and the Chair 1890, s. 100, 1596 man of the Corporation), and every person added to the Board 17, proviso.}

under section 17A, shall be entitled to receive a fee of twenty rupees, and every member of a Committee shall be entitled to receive a fee of ten rupees, for each meeting of the Board or the Committee-

(i) at which a quorum is present and business is transacted, and

(ii) which he attends from the beginning to the end thereof or for such period as the person presiding at the meeting may consider sufficient to justify the payment of the fee:

Provided that the aggregate amount of fees payable to any person in respect of meetings of any kind held during any menth shall not exceed such sum as may be prescribed by any rule made under section 136 in this behalf.

21A. (1) A Trustee who-

(a) has, directly or indirectly, by himself or by any du partner, employer or employé, a share or interest in any matter or thing described in sub-section (2) of section 9, or

(b) has acted professionally, in relation to any such matter or thing, on behalf of any person having such a

share or interest, shall not vote or take any other part in any proceeding of the Board or any Committee relating to such matter or thing.

(Proviso to o'ause 9 %) of Bill as ntro duced in Council, j

(Chapter II .- The Board of Trustees .- Conduct of Business -. Clauses 22-24.)

- (2) If any Trustee, or any person added to the Board [53 & 54 under section 17A, or any other member of a Committee c. 70, s. 88 (1).] appointed under this Act, has, directly or indirectly, any beneficial interest in any land situated in an area commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any improvement scheme (many under this commissed in any under this commiss prised in any improvement scheme framed under this or in an area in which it is proposed to acquire land for any of the purposes of this Act,—
 - (i) he shall, before taking part in any proceeding at a meeting of the Board or any Committee relating to such area, inform the person presiding at the meeting of the nature of such interest,

(ii) he shall not vote at any meeting of the Board or any Committee upon any resolution or question relating to such land, and

(iii) he shall not take any other part in any proceeding at a meeting of the Board or any Committee relating to such area if the person presiding at the meeting considers it inexpedient that he should do so.

make and

as they may consider necessary or expedient for carrying out (1).] any of the purposes of this Act.

and the Board by the President:

Provided that-

(a) [Reproduced in sub-clause (1),]

(b) (Omitted).

- (c) a contract involving an expenditure exceeding one thousand rupees and not exceeding one lakh of rupees shall not be made by the President without the previous sanction of the Board; and
- (d) a contract involving an expenditure exceeding one lakh of rupees shall not be made by the President without the previous sanction of the Board and the Local Government.
- (1a) Every estimate for the expenditure of any sum for carrying out any of the purposes of this Act shall be subject to the approval of the authority who is empowered by sub-section (1) to make or sanction the making of a contract involving the expenditure of a like sum.
- (2) Sub-sections (1) and (1a) shall apply to every variation [1890, s. 86 (8), or abandonment of a contract or estimate, as well as to sin original contract or estimate.

(1) Every contract made by the President on behalf of to the Board shall be entered into in such manner and form as would bind the President if such contract were made on his own behalf, except that the common seal of the Board shall be used (where necessary); and every such contract may in the like manner and form be varied or discharged.

(2) Every contract for the execution of any work or the supply of any materials or goods which will involve an expenditure exceeding one thousand rupees shall be in writing, and shall be sealed.

(3) The common seal of the Board shall remain in the custody of the Secretary to the Board, and shall not be affixed to any contract or other instrument except in the presence of a Trustee (other than the President), who shall attach his signature to the contract or instrument in token that the same was sealed in his presence.

(4) The signature of the said Trustee shall be distinct from the signature of any witness to the execution of such contract or instrument.

(5) A contract not executed as provided in this section shall not be binding on the Board.

(Chapter II .- The Board of Trustees .- Conduct of Business .-Officers and servants .- Clauses 24A-27.)

24A. (1) At least seven days before the President enters into any contract for the execution of any work or the supply of any materials or goods which will involve an expenditure exceeding one thousand rupees, he shall give notice by advertisement in local newspapers inviting tenders for such contract.

[1899, s, 88,]

- (2) In every such case the President shall place before the Board the specifications, conditions and estimates and all the tenders received, specifying the particular tender (if any) which he proposes to accept.
- (3) In every case in which the acceptance of a tender would involve an expenditure exceeding one lakh of rupees, the Board shall submit to the Local Government the specifications, conditions and estimates, and all the tenders received, specifying the particular tender (if any) the acceptance of which they propose to sanction.
- (4) Neither the Board nor the Local Government shall be bound to sanction the acceptance of any tender which has been made; but the Board, within the pecuniary limits of their powers, as prescribed in section 23, sub-section (I), or the Local Government, may sanction the acceptance of any of such tenders which appears to them, upon a view of all the circumstances, to be the most advantageous, or may direct the rejection of all the tenders submitted to them.

Security for

25. The President shall take sufficient security for the due [1899, s. 89.1 performance of every contract involving an expenditure exceeding one thousand rupees.

- Supply of 26. (1) The President shall forward to the Local Govern- [1898, s. 21 (3) the formation to ment a copy of the minutes of the proceedings of each meeting of 1899, ss. 90, 21.] the Board, within ten days from the date on which the minutes ment. of the proceedings of such meeting were signed as prescribed in section 17, clause (h).
 - (2) If the Local Government so directs in any case, the President shall forward to it a copy of all papers which were laid before the Board for consideration at any meeting.
 - (3) (Omitted.)
 - (4) The Local Government may require the President to furnish it with-
 - (a) any return, statement, estimate, statistics or other information regarding any matter under the control of the Board, or
 - (b) a report on any such matter, or
 - (c) a copy of any document in the charge of the President.

Officers and Servants.

27. The Board shall prepare and maintain a statement 1890 s. 65. Statement of strength and remuneration of staff. showing-

- (a) the number, designations and grades of the officers and servants (other than employés who are paid by the day or whose pay is charged to temporary work) whom they consider it necessary and proper to employ for the purposes of this Act,
- (b) the amount and nature of the salaries, fees and allowances to be paid to each such officer and servant, and
- (r) the contributions payable under section 144A in respect of each officer or servant of the Board.

(Chapter II .- The Board of Trustees .- Officers and Servants .-Clauses 28-32.)

28. The Board shall from time to time make rules-

s. 73 Act III of 1881

- (a) fixing the amount and nature of the security to be Ben.
 furnished by any officer or servant of the Board s. 47.]
 from whom it may be deemed expedient to require security:
- (b) for regulating the grant of leave of absence, leave-allow-ances and acting-allowances to the officers and servants of the Board; and
- (c) for establishing and maintaining a provident or annuity fund, for compelling all or any of the officers or servants of the Board (other than any servant of the Government in respect of whom a contribution is paid under section 144A) to contribute to such fund, at such rates and subject to such conditions as may be prescribed by such rules, and for supplementing such contributions out of the funds of the Board:

Provided that a Government servant employed as an officer or servant of the Board shall not be entitled to leave or leaveallowances otherwise than as may be prescribed in any general or special orders of the Government for regulating the transfer of Government servants to foreign service.

29. (Reproduced in clause 144A.)

owers of apowers and reducing, suspending or dismissing them for misconduct, and dispensing with their services for any reason other than misconduct, shall be vested—

- (a) in the case of officers and servants whose monthly salary does not exceed three hundred rupees -in the President, and
- (b) in other cases—in the Board:

Provided that any officer or servant in receipt of [1889, s. 70.] a monthly salary exceeding one hundred rupees who is dismissed by the President may appeal to the Board, whose decision shall be final.

(a) All statements prepared under section 27, so far as they relate to offices earrying a salary of more than one thousand s. 74, prov. (a).] state-rupees per mensem,

section 28, and

- (b) all rules made under clause (b) or clause (c) of
- (c) all orders passed by the Board under section 30, and relating to any officer appointed to hold an office carrying a salary of more than one thousand rupees per mensem, except orders granting leave to, or suspending, any such officer,

shall be subject to the previous sanction of the Local Government.

The President shall exercise supervision and control 32. over the acts and proceedings of all officers and servants of the Board in matters of executive administration, and in matters concerning the accounts and records of the Board; and, subject to the foregoing sections, shall dispose of all questions relating to the service of the said officers and servants, and their pay, privi-leges and allowances.

(Chapter II.—The Board of Trustees.—Officers and Servants.— Chapter III.—Improvement Schemes and Re-housing Schemes.—Clauses 33, 35.)

Delegation of 33. (1) The President may, by general or special order in certain of Tresident's func. writing, delegate to any officer of the Board any of the President's powers, duties or functions under this Act or any rule made hereunder, except those conferred or imposed upon or vested in him by sections 17, 19, 26, 54, 113, 117, 122, 122B, 153 and 157:

[1839, 4, 13,]

Provided as follows:-

- (a) the President shall not delegate his power under section 23 to make on behalf of the Board any contract involving an expenditure exceeding one thousand rupees;
- (b) the President shall not delegate his power under section 30 to make appointments to offices carrying a salary of more than one hundred rupees per mensem;
- (c) the President shall not delegate to any officer his power under section 30 to grant leave to, or to reduce, suspend, dismiss, or dispense with the services of, any employé, unless such employé was appointed by such officer by virtue of a delegation of the President's powers of appointment conferred by that section.
- (d) (Omitted.)
- (2) The exercise or discharge by any officer of any powers, duties or functions delegated to him under sub-section (1) shall be subject to such conditions and limitations (if any) as may be prescribed in the said order, and also to control and revision by the President.
 - 34. (Reproduced in clause 144A).

CHAPTER III.—IMPROVEMENT SCHEMES AND RE-HOUSING

When gen- 35. Whenever it appears to the Board, whether upon an asse, s. a cral improve official representation made under section 36 or without such may be framed. a representation,—

- (a) that any buildings in any area which are used, or are intended or are likely to be used, as dwelling-places, are unfit for human habitation, or
- (b) that danger to the health of the inhabitants of buildings in any area, or in any neighbouring buildings, is caused by—
 - (i) the narrowness, closeness and bad arrangement, or the insanitary condition, of streets or buildings or groups of buildings in such area, or
 - (ii) the want of light, air, ventilation or proper conveniences in such area, or
 - (iii) any other sanitary defects in such area,

and that the most satisfactory method of dealing with [Cf. 9 Edw. 7, the evils connected with such buildings or the sanitary defects c. 44, s. 22,] in such area is a general improvement scheme for the re-arrangement and re-construction of the streets and buildings, or [Cf. 55 & 54 Viot. 50m of them, within such area,

the Board may pass a resolution to the effect that such area is an unhealthy area, and that a general improvement scheme ought to be framed in respect of such area.

and may then proceed to frame such a scheme.

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 36-38.)

- 36. (1) An official representation referred to in section 35 [1808, s. 24.] may be made by the Corporation-
 - (a) of their own motion, or
 - (b) on a written complaint by the Health Officer of the Corporation; or
 - (c) in respect of any area comprised in a municipal ward,—
 on a written complaint signed by twenty-five or more residents of such ward who are liable to pay either the owner's share or the occupier's share of the consolidated rate leviable under the Calcutta Municipal Act, 1899.
 - (2) If the Corporation decide not to make an official Ben. Act III of 1899. representation on any complaint made to them under clause (b) or clause (c), they shall cause a copy of such complaint to be sent to the President, with a statement of the reasons for their decision.

onsideration official repre-

- 37. (1) The Board shall consider every official represent- [Clause 16 in Board ation made under section 36, and shall decide whether a general improvement scheme to carry such representation into effect should be framed forthwith or not, and shall forthwith intimate their decision to the Corpora-
- (2) If the Board decide that it is not necessary or expedient to frame a general improvement scheme forthwith, they shall inform the Corporation of the reasons for their decision.
- (3) If the Board fail, for a period of twelve months after the receipt of any official representation made under section 36, to intimate their decision thereon to the Corporation,

or if the Board intimate to the Corporation their decision that it is not necessary or expedient to frame a general improvement scheme forthwith,

the Corporation may, if they think fit, refer the matter to the Local Government.

- (4) The Local Government shall consider every reference made to it under sub-section (3), and-
- (a) [Reproduced in sub-clause (b1).]
- (b) if it considers that the Board ought, under all the circumstances, to have passed a decision within the period mentioned in sub-section (3), shall direct the Board to pass a decision within such further period as the Local Government may think reasonable, or
 - (b1) if it considers that it is, under all the circumstances, expedient that a scheme should forthwith be framed, shall direct the Board to proceed forthwith to frame a scheme.
- (5) The Board shall comply with every direction given by the Local Government under sub-section (4).

38. Whenever the Board are of opinion that, for the purpose of-

[1899, s. 30; Analyis, pars, 5(1),]

- (a) providing building-sites, or
- (b) remedying defective ventilation, or
- (c) creating new, or improving existing, means of communication and facilities for traffic, or
- (d) affording better facilities for conservancy,

it is expedient to lay out new streets or to alter existing streets (including bridges, causeways and culverts), the Board may pass a resolution to that effect, and shall then proceed to frame a street scheme for such area as they may think

(Chapter III. - Improvement Schemes and Re-housing Schemes. Clauses 39-42.)

- 39. When framing an improvement scheme in respect of any [1898, s. 26,] rea, regard shall be had to-
 - (a) the nature and the conditions of neighbouring areas and of Calcutta as a whole;
 - (b) the direction in which the expansion of Calcutta appears likely to take place; and
 - (c) the likelihood of improvement schemes being required for other parts of Calcutta.

40. (1) Every improvement scheme shall provide for-

[1898, ss. 25(1), 31(1) (with proposed amendaments).]

- (a) the acquisition by the Board of any land, in the area comprised in the scheme, which will, in their opinion, be required for the execution of the scheme;
- (b) the laying out or re-laying out of the land in the said
- (c) such demolition, alteration or reconstruction of build- [Analysis, para. 4(2).] ings, situated on land which it is proposed to acquire in the said area, and the construction of such buildings, as the Board may think necessary;
- (d) the laying out or alteration of streets (including bridges, [Analysis, para, 6 (9) causeways and culverts), if required; and
- (e) the levelling, paving, metalling, flagging, channelling, [1898, 8. 25 (1) (e) sewering and draining of the said streets, and the (with proposed ament), s. 31 (7) (e) provision therein of water, lighting and other sanitary (with proposed amendment), s. 31 (9), proposed clause (e):

- (f) (Reproduced in clause 50A.)
- (2) (Omitted.)

- 41. Any improvement scheme may provide for-
- (a1) the acquisition by the Board of any land, in the area comprised in the scheme, which will, in their opinion, be affected by the execution of the scheme;
- (a) raising, lowering or levelling any land in the area comprised in the scheme;

- (b) (Replaced by clause 167 A.)
- (c) the formation or retention of open spaces; and
- (d) any other matters which the Board may think fit.

[1898, ss. 27 (1), 32,]

- 42. (1) When any improvement scheme has been framed, he Board shall prepare a notice, stating-
 - (a) the fact that the scheme has been framed,
 - (b) the boundaries of the area comprised in the scheme, and
 - (c) the place at which particulars of the scheme, a map of the area comprised in the scheme and a statement of the land which it is proposed to acquire may be seen at reasonable hours.
- (2) The Board shall-
 - (i) cause the said notice to be published weekly for three consecutive weeks in the Calcutta Gazette and in local newspapers, with a statement of the period within which objections will be received,
 - (ii) send a copy of the notice to the Chairman of the Corporation and to the Chairman of any Municipality constituted under the Bengal Municipal Act, 1884, in which any portion of the Ben. Act III of 1884, area comprised in the scheme is situated.

(Chapter III.—Improvement Schemes and Re-housing Schemes,—Clauses 43—46.)

(3) The President shall cause copies of all documents referred to in clause (c) of sub-section (1) to be delivered to any applicant on payment of such fee as may be prescribed by rule made under section 137.

Transmission to Board of representation by Corporation or Municipality as to improvement scheme. 43. The Chairman of the Corporation, and the Chairman (1898, ss. 27 (1) to) of any Municipality to whom a copy of a notice has ment, ss. 1 been sent under clause (ii) of section 42, shall, within a period of sixty days from the receipt of the said copy, forward to the Board any representation which the Corporation or Municipality may think fit to make with regard to the scheme.

Service of notice as to proposed acquisition of land,

- 44. (1) During the thirty days next following the first day [1898, ss. 27 (9)(3), on which any notice is published under section 42 in respect of any improvement scheme, the Board shall serve a notice on—
 - (i) every person whose name appears in the municipal assessment-book as being primarily liable to pay the owner's share of the consolidated rate, or the rate on the annual value of holdings, as the case may be, in respect of any land which the Board propose to acquire in executing the scheme, and
- (ii) the occupier (who need not be named) of each premises or holding, entered in the municipal assessment-book, which the Board propose to acquire in executing the scheme.
- (2) Such notice shall-

in the crea

- (a) state that the Board propose to acquire such land for the purpose of carrying out a general improvement scheme or a street scheme, as the case may be and
- (b) require such person, if he dissents from such acquisition, to state his reasons in writing within a period of sixty days from the service of the notice.
- (3) Every such notice shall be signed by, or by the order of,

Furnishing of copy of, or extracts from, the municipal assessment-book. 45. The Chairman of the Corporation, and the Chairman of any Municipality constituted under the Bengal Municipal Act, 1884, in any part of which this section is for the time being in force, shall, respectively, furnish the President, at his request, with a copy of, or extracts from, the municipal assessment-book, at such charge as may be fixed by rule made under section 136.

Ben. Act III of 18843

Abandonment of improvement scheme, or application to Local Government to sanction it.

- 46. (1) After the expiry of the periods respectively prescribed under section 42, clause (i), and by section 43 and section 44, clause (b), in respect of any improvement scheme, the Board shall consider any objection, representation and statement of dissent received thereunder, and may either abandon the scheme or apply to the Local Government for sanction to the scheme, with such modifications (if any) as the Board may consider necessary.
- (2) Every application submitted under sub-section (1) shall be accompanied by—
 - (a) a description of, and full particulars relating to, the scheme, and complete plans and estimates of the cost of executing the scheme:
- (b) a statement of the reasons for any modifications made in the scheme as originally framed;

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 47-51.)

- (b1) a statement of objections (if any) received under section 42:
- (c) any representation received under section 43;
- (d) a list of the names of all persons (if any) who have dissented, under section 44, clause (b), from the proposed acquisition of their land, and a statement of the reasons given for such dissent; and
- (e) (Omitted.)
- (f) a statement of the arrangements made or proposed by the Board for the re-housing of persons (and particularly of persons of the poorer classes) who are likely to be displaced by the execution of the scheme.
- (g) [Reproduced in sub-clause (a).]

47. The Local Government may sanction, either with or [analysis, para. 6 (4).] without modification, or may refuse to sanction, any improvement scheme submitted to it under section 46.

- Notification 48. (1) Whenever the Local Government sanctions an [1898, sa. 29 (1), 32.] represent to improvement scheme, it shall announce the fact by notification, sheme. and the Board shall forthwith proceed to execute the scheme.
 - (2) The publication of a notification under sub-section (1) in respect of any scheme shall be conclusive evidence that the scheme has been duly framed and sanctioned.

Alteration of

- 49. At any time after any improvement scheme has been [1898, ss. 29 (9) (with after sanctioned by the Local Government, and before it has been action carried into execution, the Board may alter it:
 - . Provided as follows :-
 - (a) if any alteration is estimated to increase the estimated net cost of executing a scheme by more than five per cent. of such cost, such alteration shall not be made without the previous sanction of the Local Government;
 - (b) if any alteration involves the acquisition, otherwise than by agreement, of any land the acquisition of which has not been sanctioned by the Local Government, the procedure prescribed in the foregoing sections of this Chapter shall, so far as applicable, be followed as if the alteration were a separate scheme. the Cont-

to all broom areal. Combination

50. Any number of areas in respect of which improvement [1898, s. 23, first prov.] schemes have been, or are proposed to be, framed may at any time be included in one combined scheme.

- 50A. (1) The Board may frame schemes (herein called [Clauses 40 (7) and re-housing schemes) for the construction, maintenance and duced in Council.] 50A. (1) The Board may frame schemes (herein called management of such and so many dwellings and shops as they st (3). may consider ought to be provided for persons who-
 - (a) are displaced by the execution of any improvement scheme sanctioned under this Act, or
- (b) are likely to be displaced by the execution of any improvement scheme which it is intended to frame, or to submit to the Local Government for sanction, under this Act.
- (2) In framing a re-housing scheme, the Board shall have special regard to the needs of persons of the poorer classes.
- (3) Every re-housing scheme shall be submitted to the Local Government, who may either sanction it, with or without modification, or refuse to sanction it.
- (4) The Board shall not themselves construct dwellings or as introduced in snops under a re-housing scheme unless they are satisfied, after Council.]

Width

- less width than-
- s width than—

 (a) forty feet, if the street be intended for carriage (a).]

 (b) The street be intended for carriage (a).]

 (b) Traffic; or

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 53, 54.)

- (b) twenty feet, if the street be intended for foot traffic only;
- (c) (Omitted):

Provided as follows:-

- (i) the width of an existing street need not be increased to the minimum required by this section if the Board consider it impracticable to do so;
- (ii) nothing in this section shall be deemed to prevent the Board from laying out service passages for sanitary purposes of any width less than twenty feet.

52. (Omitted.)

53. (1) Whenever any building, or any street, square or fisse other land, or any part thereof, which—

(a) is situated in the Calcutta Municipality and is vested in the Corporation, or

(b) is situated in any part of any Municipality constituted under the Bengal Municipal Act, 1884, in which Ben, Act III of 1886, this section is for the time being in force, and is vested in the Commissioners of that Municipality,

is required for executing any improvement scheme, the Board shall give notice accordingly to the Chairman of the Corporation or the Chairman of such Municipality, as the case may be;

and such building, street, square, land or part shall there-upon vest in the Board, subject, in the case of any building or any land (not being a street or square), to the payment to the Corporation, or to such Commissioners, as the case may be, of such sum as may be required to compensate them for actual loss resulting from the transfer thereof to the Board.

(2) If any question or dispute arises as to the sufficiency of the compensation paid or proposed to be paid under sub-section (1), the matter shall be referred to the Local Government, whose decision shall be final.

- (1) Whenever any street or square or part thereof which section 41B(t). is not vested in the Board or in the Corporation or in the Commissioners of any Municipality constituted under the Bengal Municipal Act, 1884, is required for executing any improvement scheme, the Board shall cause to be affixed in a constitution of the constitution conspicuous place in or near such street, square or part a notice, signed by the President, and
 - (a) stating the purpose for which the street, square or part is required, and
 - (b) declaring that the Board will, on or after a date to be specified in the notice, take over charge of such street, square or part from the owner thereof.
- (2) After considering and deciding all objections (if any) received in writing before the date so specified, the Board may take over charge of such street, square or part from the owner thereof, and the same shall thereupon vest in the Board.
- (3) When the Board alter or close any street or square or part thereof which has vested in them under sub-section (2), they shall pay reasonable compensation to the previous owner for the loss of his rights therein.
- (4) If the alteration or closing of any such street, square or part causes damage or substantial inconvenience to owners of property adjacent thereto or to residents in the neighbourhood,
 - (i) shall forthwith provide some other reasonable means of access for the use of persons who were entitled to use such street, square or part as a means of access to any property or place, and,
 - (ii) if the provision of such means of access does not sufficiently compensate any such owner or resident for such damage or inconvenience, shall also pay him reasonable compensation in money.

Act III of 1884

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 56A-56E.)

55. (Reproduced in clause 56J.)

56. (1) (Replaced by clause 56 A.)

(2) (Replaced by clauses 56B to 56H.)

of 56A. (1) When any building, or any street, square or 10, clause 56 (1) of the other land, or any part thereof, has vested in the Board under Council.] section 53 or section 54, no municipal drain or waterwater work therein shall vest in the Board until another drain or Board under water-work (as the case may be), if required, has been cition 53 or water-work (as the case may be), if required, has been provided by the Board, to the satisfaction of the General Committee or of the Commissioners of the Municipality constituted under the Bengal Municipal Act, 1884, as the Ben, Act III of 1884. - case may be, in place of the former drain or work.

(2) If any question or dispute arises as to whether another drain or water-work is required, or as to the sufficiency of any drain or water-work provided by the Board, under sub-section (7), the matter shall be referred to the Local Government, whose decision shall be final.

Bar to 56B. (1) Sections 337, 338 and 355, and clause (c) of [of. clause 58 (2) of application of section 354, of the Calcutta Municipal Act, 1899, shall not be apply to any street which is vested in the Board.

Galcutta Municipal Act, 1899, shall not Bill as introduced in the Board.

Ben. Act III of 1899.

(2) Sections 345 and 346 of the surface referred to in apply when any drain, pavement or surface referred to in apply when any drain, pavement or by the Board, or when section 345 is opened or broken up by the Board, or when any public street is under construction by the Board.

Repair and 56C. Whenever the Board allow any street vested tering of in them to be used for public traffic,—

[Cf. clause 58 (2) of Bill as introduced in Council.] [1899, se. 337, 338.]

- (a) they shall, as far as practicable, keep the street in good repair and do all things necessary for the safety and convenience of persons using it, and
- (b) they shall cause the street to be watered, if they consider it necessary to do so for the public convenience.

lighting surface of, any street vested in the Board is opened or broken Bin as introduced in street works. [1899, s. 346.] the up by the Board for the purpose of carrying on any work,

up, or or whenever the Board allow any street which they the Board shall cause the place to be fenced and

guarded and to be sufficiently lighted during the night, and shall take proper precautions for guarding against accident by shoring up and protecting adjoining buildings,

and shall, with all convenient speed, complete the said work, fill in the ground, and repair the said drain, pavement or surface, and carry away the rubbish occasioned thereby, or complete the construction of the said street, as the case may be.

- Prevention or setriction of being executed by the Board in any public street vested in Council.]

 The Board, them, or when any other work which may lawfully be [1899, s. 346.]

 The Board in any street vested in them, or when any other work which may lawfully be [1899, s. 346.]

 The Board in any street vested in them, the Board may direct that such street shall, during the progress of such work, be either wholly or partially closed to traffic generally or to traffic of any specified description. specified description.
 - (2) When any such direction has been given, the Board shall set up in a conspicuous position in or near the street an order prohibiting traffic to the extent so directed, and

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 56 F, 56G.)

shall fix such bars, chains or posts across or in the street as they may think proper for preventing or restricting traffic

on of 56F. (1) When any work is being executed by the [0f. clause 56(2) of of Board in any public street vested in them, the Board shall, Bill as introduced in atten, so far as may reasonably be practicable, make adequate [1889, s. 347.] rd in putilic provision for-

- (a) the passage or diversion of traffic;
- (b) securing access to all premises approached from such street; and
- (c) any drainage, water-supply or means of lighting which is interrupted by reason of the execution of the work.
- (2) The Board shall pay reasonable compensation to any person who sustains special damage by reason of the execution of any such work.

56G. (1) The Board may-

[Cf. clause 58(9) of Bill as introduced in Council 1

- (a) turn, divert, discontinue the public use of, or per- 355. manently close, any public street vested in them, or any part thereof, or
- (b) discontinue the public use of, or permanently close, any public square vested in them, or any part thereof.
- (2) Whenever the Board discontinue the public use of, or permanently close, any public street vested in them, or any part thereof, they shall pay reasonable compensation to every person who was entitled, otherwise than as a mere licensee, to use such street or part as a means of access and has suffered damage from such discontinuance or closing.
- (3) Whenever the Board discontinue the public use of, or permanently close, any public square vested in them, or any part thereof, they shall pay reasonable compensation to every person-
 - (a) who was entitled, otherwise than as a mere licensee, to use such square or part as a means of access, or
 - (b) whose immovable property was ventilated by such square or part,

and who has suffered damage,-

- (i) in case (a), from such discontinuance closing, or
- (ii) in case (b), from the use to which the Board have put such square or part.
- (4) In determining the compensation payable under sub-section (2) or sub-section (3), the Board shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction, provisi nor improvement of any other public street or square at or about the same time that the public street or square or part thereof, on account of which the compensation is paid, is discontinued or closed. or closed.
- (5) When any public street vested in the Board, or any part thereof, is permanently closed under subsection (1), the Board may sell or lease the site of so much of the roadway and footpath as is no longer required.

(Chapter III. - Improvement Schemes and Re-housing Schemes -Clauses 56H, 56J.)

Projected public streets.

- 56H. (1) In any area in the neighbourhood of the Bill as introduced in Calcutta Municipality, the Board may, from time to Council. [1899, ss. 356, 352 time, prepare schemes and plans of proposed public streets, showing the direction of such streets, the street alignment and building line on each side of them, their intended width and such other details as may appear desirable.
- (2) Before finally adopting any scheme or plan prepared under sub-section (1), the Board shall send the same to the local authority by which such area is administered, and shall consider any representation made to them by that authority before a date to be appointed by the Board in this behalf.
- (3) When any plan prepared under sub-section (1) has been finally adopted by the Board, the street to which it refers shall be deemed to be a projected public street.
- (4) If any person desires to erect, re-erect, add to or alter any building or wall so as to make the same fall within the street alignment or building line shown in any plan so adopted, he shall apply to the Board for permission to do so.
- (5) If the Board refuse to grant permission to any person to erect on his land any building or wall to project as aforesaid, and if they do not proceed to acquire such land within two years from the date of such refusal, they shall pay reasonable compensation to such person for any damage sustained by him in consequence of such refusal.
- (6) When any building, wall or part thereof projecting across the street alignment or building line shown in any plan adopted as aforesaid has fallen down or been burnt down or taken down, the President may, by written notice, require the same to be set back to or towards such street alignment or building line.
- (7) When any building or wall is set back in pursuance of a requisition made under sub-section (6), the Board shall forthwith make full compensation to the owner of the building or wall for any damage that he may sustain thereby.

56J. (1) If any question or dispute arises-

bourhood, or

[Clause 55 of Bill as introduced in Council') [1898, proposed sections 41B (#), (3)

• (a) between the Board and the previous owner of any street sections or square or part thereof which has vested in 106(1). I the Board under section 54 and has been altered or closed by them, as to the sufficiency of the compensation paid or proposed to be paid under subsection (3) of that section, or

(b) between the Board and any person who was entitled, otherwise than as a mere licensee, to use as a means of access any street or square or part thereof which

- has vested in the Board under section 54,

 (i) as to whether the alteration or closing of such street, square or part causes damage or substantial inconvenience to owners of property
 - (ii) as to whether the other means of access provided or proposed to be provided under subsection (4) of the said section 54 are reasonably sufficient, or

adjacent thereto or to residents in the neigh-

- (iii) as to the sufficiency of any compensation paid or proposed to be paid under the said sub-section (4), or
- (c) between the Board and any person, as to the sufficiency of any compensation paid or proposed to be paid to him under section 56F, section 56G or section 56H,

Reference of disputes to

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 57-58.)

the matter shall be determined by the Tribunal, if referred to it within a period of three months from-

in case (a) or case (b)—the date on which the street or square or part thereof was altered or closed by the Board, or

in case (c)—the date on which the said person was informed of the decision of the Board fixing the amount of compensation to be paid to him;

and the determination of the Tribunal shall be final.

- (2) If a reference to the Tribunal be not made within the period prescribed by sub-section (1), the decision of the Board shall be final.
- (3) For the purpose of determining any matter referred to it under sub-section (1), the Tribunal shall have all the powers with regard to witnesses, documents and costs which it would have if the Land Acquisition Act, 1894, as modified by section 61C of 1 of 1896. this Act, were applicable to the case.

57. (1) Whenever the General Committee are satisfied—

[1898, s. 45 (8), with

- (a) that any street laid out or altered by the Board has been duly levelled, paved, metalled, flagged, channelled, sewered and drained in the manner provided in the plans sanctioned by the Local Government under section 47, and
- (b) that such lamps, lamp-posts and other apparatus as
 the General Committee consider necessary for the
 lighting of such street and as ought to be provided
 by the Board have been so provided, and
- (c) that water and other sanitary conveniences ordinarily provided in a Municipality have been duly provided in such street,

the General Committee shall make a report to the Corporation, and the Corporation shall thereupon, after informing the Board of their intention to do so, by written notice affixed in some conspicuous position in such street, declare the street to be a public street; and the street shall thereupon vest in the Corporation, and shall thenceforth be maintained, kept in repair, lighted and cleansed by the Corporation.

(2) When any open space for purposes of ventilation or [1898, s. 45 (3), we recreation has been provided by the Board in executing any improvement scheme, it shall, on completion, be transferred to the Corporation by resolution of the Board, and shall there-upon vest in, and be maintained at the expense of, the

Corporation: Provided that the General Committee may require the Board before any such open space is so transferred, to enclose, level, turf, drain and lay out such space and provide footpaths therein, and, if necessary, to provide lamps and other apparatus for lighting it.

(5) If any difference of opinion arises between the Board and [1808. 2. 45 49.1] the General Committee in respect of any matter referred to in the foregoing provisions of this section, the matter shall be referred to the Local Government, whose decision shall be final.

If section 57 be extended, by notification under section 1, sub-section (3), to any Municipality in the neighbourhood of the Calcutta Municipality, it shall be construed as if the references therein to the General Committee and the Corporation were references to the Commissioners of the former Municipality.

Notwithstanding anything contained in section 57 or section 57A, the Board may retain any service passage which tien & A).]
they have laid out for sanitary purposes, and may enter into an agreement with the General Committee or any other person for the supervision, repair, lighting and converted the supervision, repair, lighting and general management of any passage so retained.

(Chapter IV .- Acquisition and Disposal of Land .- Acquisition by Agreement. - Compulsory Acquisition. - Clauses 60-62.)

CHAPTER IV .- Acquisition and Disposal of Land.

59. [Replaced by clause 61A.]

Acquisition by agreement.

to 60. The Board may enter into an agreement with any [1898, s. 46; 1899, s. 556 (1).] or person for the purchase or leasing by the Board from such person of any land which the Board are authorized to acquire, or any interest in such land.

Compulsory acquisition.

61. [Reproduced in clause 61C (b).]

Power to 61A. The Board may, with the previous sanction of the [Clause 59 of Bill acquire land Local Government, acquire land under the provisions of Council.]

Land Acquisite the Land Acquisition Act, 1894, for carrying out any of the Land Acquisition Act, 1894, purposes of this Act.

[1898/s. 63, opening [1890, a. 357 (I), (3), 556 (I);
Analysis, para. 4 (3).]
I of 1894.

Tribunal to 61B. A Tribunal shall be constituted, as provided in [Of. clause 62 (1) of Bill as introduced in Court in reference to the acquisition of land for the Board [1898, s. 48 (1).] under the Land Acquisition Act, 1894.

Modification the Land Act for the Board,—

(a) the Tribunal shall (except for the purposes of section [1898, s. 48 (1); 1894, s. 557.]

- 54 of that Act) be deemed to be the Court, and the President of the Tribunal shall be deemed to be the Judge, under the said Act;
- (b) the said Act shall be subject to the further modifications indicated in the Schedule;
- (c) the President of the Tribunal shall have power to [Act I of 1894, s. 14.] summon and enforce the attendance of witnesses, and to compel the production of documents, by the same means, and (so far as may be) in the same manner, as is provided in the case of a Civil Court under the Code of Civil Procedure, Vol 1908. 1908; and

(d) the award of the Tribunal shall be deemed to be the award of the Court under the said Land Acquisition Act, 1894, and shall be final.

I of 1894.

Constituti on of Tribunal 62. (1) The said Tribunal shall consist of a President and two assessors.

- (2) The President of the Tribunal shall be either-
 - (a) a member of the Judicial Branch of the Imperial or Provincial Civil Service, of not less then ten years' standing in such Service, who has, for at least three years, served as District Judge or held judicial office not inferior to that of a Subordinate Judge; or
 - (b) a barrister, advocate or pleader of not less than ten years' standing, who has practised as an advocate or pleader in the Calcutta High Court.

(3) The President of the Tribunal and one of the assessors [1393, s. 45 (3).] shall be appointed by the Local Government, and the other assessor shall be appointed by the Corporation, or, in default of the Corporation, by the Local Government:

(Chapter IV .- Acquisition and Disposal of Land .- Compulsory Acquisition .- Clauses 63, 64.)

Provided that no person shall be eligible for appointment as [1808, s. 48 (5),] a member of the Tribunal if he is a Trustee or is, for any of the reasons mentioned in section 9, disqualified for appointment as a Trustee.

(4) The term of office of each member of the Tribunal shall be [1898, s. 48 (5).] two years; but any member shall, subject to the proviso to subsection (3), be eligible for reappointment at the end of that term.

(5) The Local Government may, on the ground of incapacity or misbehaviour, or for any other good and sufficient reason, cancel the appointment of any person as a member of the Tribunal.

(6) When any person ceases for any reason to be a member of [1898. s. 48-(7).] the Tribunal, or when any member is temporarily absent in consequence of illness or any other unavoidable cause, the Local Government or (if the person whose place is to be filled was appointed by the Corporation) the Corporation, or, in default of the Corporation, the Local Government, shall forthwith appoint a fit person to be a member in his place.

(7) All appointments made under this section shall be published [1898, s. 48 (3).] by notification.

63. Each member of the Tribunal shall be entitled to receive [1898, s. 48 (8).] such remuneration, either by way of monthly salary or by way of fees, or partly in one of those ways and partly in the other, as the ... Local Government may prescribe.

- 64. (1) The President of the Tribunal shall, from time to [1898, s. 48 (15).] of time, prepare a statement showing-
 - (a) the number and grades of the clerks and other officers and servants whom he considers should be maintained for carrying on the business of the Tribunal,
 - (b) the amount of the salaries to be paid to each such person,
 - (c) the contributions payable under section 144A in the Bill as introduced in Council.] respect of each officer and servant of Tribunal.
 - time, make rules-

- (1a) The President of the Tribunal shall, from time to [Cf. clause 28 of Bill as introduced in Council.]

 (i) for regulating the grant of leave of absence, leave-proposed amendment; allowances and acting-allowances to the officers and 1899, s. 73; Ben. Act III of 1884, s. 47.]
- (ii) for establishing and maintaining a provident or annuity fund, for compelling all or any of the officers or servants of the Tribunal (other than any servant of the Government in respect of whom a contribution is paid under section 144A) to contribute to such fund, at such rates and subject to such conditions as may be prescribed by such rules, and, with the sanction of the Board, for supplementing such contributions out of the funds of the Board:

Provided that a Government servant employed as an officer or servant of the Tribunal shall not be entitled to leave or leaveallowances otherwise than as may be prescribed in any general or special orders of the Government for regulating the transfer of Government servants to foreign service.

- (2) All statements prepared under sub-section (1), and all [Cf. clause 31 of Bill rules made under sub-section (1a), shall be subject to the previous as introduced in Council.] sanction of the Local Government.
- (3) Subject to any directions contained in any statement prepared under sub-section (1) and any rules made under subsection (1a), and for the time being in force, the power of

(Chapter IV -Acquisition and Disposal of Land .- Compulsory Acquisition .- Abandonment of Acquisition - Clauses 65-67 A.

appointing, promoting and granting leave to officers and servants of the Tribunal, and the power of reducing, suspending or dismissing them, shall vest in the President of the Tribunal.

Payments ty 65. (1) The remuneration prescribed under section 63 for [1898, s. 48 (9), (12)] Board on account of Tri-members of the Tribunal, and the salaries, leave-allowances and (a).] bunal. acting-allowances prescribed under section 64 for officers and acting-allowances prescribed under section 64 for officers and servants of the Tribunal, shall be paid by the Board to the President of the Tribunal for distribution.

(2) (Reproduced in clause 144A.)

Power to make 66. (1) The President of the Tribunal may, from time to rules for Tribunal time, with the previous sanction of the Local Government, make rules, not repugnant to the Code of Civil Procedure, 1908, for v of 1908. the conduct of business by the Tribunal.

(2) All such rules shall be published by notification.

Award of 67. (1) For the purpose of determining the award to [1898, s. 48 (1), (?) Tribunal how to be determined. be made by the Tribunal under the Land Acquisition Act, ments.] I of 1894. 1894.

> (a) if there is any disagreement as to the measurement of land, or the amount of compensation or costs to be allowed, the opinion of the majority of the members of the Tribunal shall prevail;

- (b) questions relating to the determination of the persons to whom compensation is payable, or the apportionment of compensation, may be tried and decided in the absence of the assessors if the President of the Tribunal considers their presence unnecessary; and, when so tried and decided, the decision of the President shall be deemed to be the decision of the Tribunal; and
- (e) notwithstanding anything contained in the foregoing clauses, the decision on all questions of and procedure shall rest solely with the President of the Tribunal.

(2), (3) [Replaced by clause 67 (1), as amended.]

(4) to (6) (Omitted).

(7) Every award of the Tribunal, and every order made by [Bom., s. 48 (10).] ent the Tribunal for the payment of money, shall be enforced by ion the Court of Small Causes of Calcutta as if it were a decree pecial of that Court.

Abandonment of Acquisition.

- 67A. (1) In any case in which the Local Government has introduced in Council, sanctioned the acquisition of land, in any area comprised in [1899, s. 307 (2)] an improvement scheme, which is not required for the execution of the scheme, the owner of the land, or any person having an interest therein, may make an application to the Board, requesting that the acquisition of the land should be abandoned in consideration of the payment by him of a sum to be fixed by the Board in that behalf,
- (2) The Board shall not be bound to admit any such application unless it-
 - (a) reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land, and
 - (b) is made by all persons who have interests in the land greater than a lease for years having seven years to run.
- (3) If the Board decide to admit any such application they shall forthwith inform the Collector; and the Collector shall thereupon stay for a period of three months all further proceedings for the acquisition of the land, and the

I of 1894.

(Chapter IV .- Acquisition and Disposal of Land .- Abandonment of Acquisition .- Clause 67B.)

Board shall proceed to fix the sum in consideration of which the acquisition of the land may be abandoned.

(4) Within the said period of three months, or, with the permission of the Board, at any time before the Collector has taken possession of the land under section 16 of the Land Acquisition Act, 1894, the person from whom the Board have arranged to accept the sum so fixed may, if the Board are satisfied that the security offered by him is sufficient, execute an agreement with the Board, either-

I of 1894.

- (a) to pay the said sum three years after the date of the agreement, or
- (b) to leave the said sum outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at such rate, not less than four per cent. per annum, as may be fixed by the Board, and to make the first annual payment of such interest four years after the date of the agreement:

Provided that the Board may, at any time before the Collector has taken possession of the land under section 16 of the Land Acquisition Act, 1894, accept immediate payment of the said sum instead of an agreement as aforesaid.

T of 1894

- (5) When any agreement has been executed in pursuance of sub-section (4), or when any payment has been accepted in pursuance of the proviso to that sub-section, in respect of any land, the proceedings for the acquisition of the land shall be abandoned.
- (6) Every payment due from any person under any agreement executed under sub-section (4) shall be a charge on the interest of that person.
- (7) If any instalment of interest payable under an agreement executed in pursuance of clause (b) of sub-section (4) be not paid on the date on which it is due, the sum fixed by the Board under sub-section (3) shall be payable on that date, in addition to the said instalment.
- (8) At any time after an agreement has been executed in pursuance of clause (b) of sub-section (4), any person may pay off the charge created thereby, with interest, at the rate specified in the agreement, up to the date of such payment.
- (9) When an agreement in respect of any land has been executed by any person in pursuance of sub-section (4), no suit with respect to such agreement shall be brought against the Board by any other person (except an heir, executor or administrator of the person first aforesaid) claiming to have an interest in the land.

67B. When an agreement has been executed by any covery of 67B. When an agreement has been executed by any (Clause 91 of Bi person in pursuance of section 67A, sub-section (4), in respect council, of section of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the Board (together with interest, up to the date of realization, at the rate of four percent. per annum), from the said person or his successor in interest, in the manner provided by the Calcutta Municipal Act, 1899, for the recovery of the consolidated rate;

Ben. Act III of 1899

and, if not so recovered, the President may, after giving public notice of his intention to do so, sell the interest of the said person or successor by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

67C. If any land in respect of which an agreement has been executed, or a payment has been accepted, in puracyulation suance of section 67A, sub-section (4), be subsequently required for any of the purposes of this Act, the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Aquisition Act, 1894.

I of 1894.

Disposal of land.

- 68. (1) The Board may retain, or may let on hire, lease, sell, [1898, sc. 55, 1899, sc. 557 (5), 556 exchange or otherwise dispose of, any land vested in or acquired [49]; [Analysis, para. 4(3).] by them under this Act.
- (2) Whenever the Board decide to lease or sell any land acquired by them under this Act from any person, they-
 - (a) shall give notice by advertisement in local newspapers, and
- (b) shall offer to the said person, or his heirs, executors or administrators, a prior right to take on lease or to purchase such land, at a rate to be fixed by the Board, if the Board consider that such a right can be given without detri-ment to the carrying out of the purposes of this Act.
- (3) If in any case two or more persons claim to exercise a right offered under clause (b) to take on lease or to purchase any land, the right shall be exerciseable by the person who agrees to pay the highest sum for the land, not being less than the rate fixed by the Board under that clause, to the exclusion of the others.
 - 69. (Omitted.)
- 70. (1), (2). (Reproduced in clause 50.4.)
- (3). (Omitted.)

daswansvozi lacc CHAPTER V.-Taxation.

Part I.—Duty on Transfers of Property.

- Duty on certain transfers of immovable on instruments of sale, gift and usufructuary mortgage, respectively, of immovable property shall, in the case of instruments affecting immovable property situated in the Calcutta Municipality and executed on or after the commencement of this Act, be increased by two per centum on the value of the property so situated, or (in the case of an usufructuary mortgage) on the amount secured by the instrument, as set forth in the amount secured by the instrument, as set forth in the instrument.
 - (1a) For the purposes of this section, section 27 of the said Act shall be read as if it specifically required the parti-culars referred to therein to be set forth separately in respect of-
 - (a) property situated in the Calcutta Municipality,
 - (b) property situated outside the Calcutta Municipality,

respectively.

(Chapter V .- Tazation .- Part II .- Terminal Tax on Passengers .-Clause 72).

(1b) For the purposes of this section, section 64 of the said Act shall be read as if it referred to the Board as well as the Government.

(2) All collections resulting from the said increase after deducting incidental expenses (if any), be paid to the Board at such time as may be prescribed by rule made under section 87.

Part II .- Terminal Tax on Passengers.

72. (1) Every passenger brought to or taken from any [C. B. C., para. 184 station in the Calcutta Municipality or the Howrah Municipality by railway, and

every passenger brought to or taken from any landing-place in the Port of Calcutta within five miles from Government House by inland steam-vessel,

shall pay a tax of half an anna in respect of each journey so made by him:

Provided as follows :-

- (a) the said tax shall not be payable by any passenger brought from, or taken to, any place situated within a radius of ten miles from Government House;
- (b) the Local Government may, by notification, either-
 - (i) with the previous sanction of the Government of India, reduce the said radius to any distance less than ten miles, in its application either to passengers generally or to passengers of any specified class, or

(ii) with the previous sanction of the Government of

India, cancel proviso (a), or
(iii) reduce the said tax to any lower rate, either in respect of passengers generally or in respect of

- passengers making frequent journeys;

 (c) the said tax may, in the case of passengers taking suburban season tickets, be calculated at the rate of six annas per mensem for each such ticket, or at such lower rate as the Local Government may prescribe by notification.
- (2) The said tax shall be collected, by means of a surcharge on fares, by the administration of the railway, or the owner of the vessel, by which the passengers are carried, and shall be paid to the Board at such time as may be prescribed by rule made under section 87, after making such deduction as the Local Government may approve to meet any expenses incurred in connection with the collection of the tax.
- (3) The owner of every inland steam-vessel referred to in sub-section (1) shall prepare and deliver, or cause to be prepared and delivered, to the President, each quarter, a return, in the form prescribed by rule made under section 87, of all passengers, carried by such vessel, by whom the tax imposed by that sub-section is payable; and shall subscribe, at the foot of such return, a declaration of the truth thereof.
- (4) Every such return shall be delivered to the President or pested to his address within fifteen working days, or at most within thirty days, after the end of the quarter to which it

Explanation.—The expression "working day," as used in this sub-section, means every day except a public holiday as defined in section 25 of the Negotiable Instruments Act, 1881.

- (4a) If this Act is directed to come into force during a quarter, the first of the said returns shall be made for the unexpired portion of that quarter.
- (5) The expression "administration" and the expressions "owner" and "inland steam-vessel," as used in this section, have the same meanings as in the Indian Railways Act, 1890, and the Inland Steam-vessels Act, 1884, respectively.

(Chapter V .- Taxation .- Part III .- Customs Duty on Jute .-Part IV .- Excise Duty on Jute .- Clauses 73-76.)

Part III .- Customs Duty on Jute.

73. (1) A customs duty shall be levied and collected on all [C.B.C., para.154 (a) raw jute and jute cuttings and rejections exported by sea from Analysis, para. 15 the Port of Calcutta to any port out of British India or to Aden, 26th September, 1907, at such rate, not exceeding two annas per bale of four hundred planations, clause (fe). pounds, as the Local Government may prescribe by notification.

14th February, 1903, para. 4; Act VIII of 1894, 88. 2 (4), 8; Act IX of 1903, s. 8.]

(2) At the close of each financial year, or as soon thereafter as may be convenient, the duty collected under sub-section (1) shall, after deducting the expenses of collection (if any', be peid by the Customs-Collector to the Board.

Act VIII of 49,

Part IV .- Excise Duty on Jute.

Definitions. 74. In this Part, and in Part V, unless there is anything Act II of 1896, s. .] repugnant in the subject or context,-

(1) "Collector"-

cana sili da irvi

- (a) means, in the Port of Calcutta, the Collector of Customs, and, in any other place, the Collector or Deputy Commissioner of the district, or such other officer as the Local Government may appoint by notification in this behalf; and
- (b) includes every officer for the time being duly authorized by the Local Government, by notification, to perform all or any of the duties of a Collector under this Part or Part V; and
- (2) "mill" means any building or place where jute goods or jute yarn, twist or thread, are or is woven, spun, knitted or otherwise manufactured by machinery moved otherwise than by manual labour; and includes every part of such building or place.

75. There shall be levied and collected at every mill in [Analysis, para. 5; 26th September, 1907, sumed in such mill, a duty at the rate for the time being para. 4; perseribed under section 73 for the levy of duty on jute exported Act II of 1896, s. 6.] by sea from the Port of Calcutta.

- 76. (1) The owner of every mill shall prepare and deliver, [Act II of 1896, s. 8.] or cause to be prepared and delivered, to the Collector, each quarter, a return of all the raw jute and jute cuttings and rejections consumed in his mill during the preceding quarter; and shall subscribe, at the foot of such return, a declaration of the truth thereof.
- (2) Every such return shall be delivered to the Collector, or posted to his address, within ten working days, and at most within fifteen days, of the period to which it relates; and the first of such returns shall be made for the quarter ending on the——19, and shall include all raw jute and jute cuttings and rejections consumed since the commencement of this Act.

(Chapter V .- Taxation .- Part IV .- Excise Duty on Jute .-Clauses 77-82.)

Explanation.—"Working day" in this sub-section means every day except a public holiday as defined in section 25 of the Negotiable Instruments Act, 1881.

XXVI of 1881.

Assessment of Mark 177. (1) The Collector shall assess the duty payable in [Act II of 1806, c. 2.] of the requiring respect of the period to which the return relates; and, unless the amount thereof is immediately tendered, shall cause a notice, to be served on the owner of the mill, requiring him to make payment of the amount assessed within ten days of the date of service of the said notice.

- (2) A notice under sub-section (1) may be served on the owner of a mill by delivering or tendering to him or his agent at his ordinary place of business a copy of the notice, or, if this cannot conveniently be done, by fixing a copy of the notice, or one of the outer does of the mill notice on one of the outer doors of the mill.
- able 78. The rate of duty imposed by section 75 which is [Act II of 1896, s. 18, has applicable to any jute shall be the rate in force at the time when provided in the section of the sec the jute was consumed.
- Monthly 79. (1) The Collector may, if he thinks fit, instead of requir- [Act II of 1896, s. 10; accounts of, and ing payment of duty from any mercantile firm or public body act VIII of 1878, s. 41.] ment of duty. at the time prescribed by section 77, keep with such firm or body an account current of duty accruing due.
 - (2) Such account shall be settled at intervals not exceeding one quarter; and such firm or body shall make a deposit or furnish security sufficient in the opinion of the Collector to cover the amount which may at any time be due from them in respect of duty.

of 80. When any duty imposed by section 75 has been short-last II of 1806, a. 10. or levied through inadvertence, error, collusion or misconstruction act VIII of 1878, a. 30. j quantity on the part of the owner of a mill,

> or when any such duty, after having been levied, has been, owing to any such cause, erroneously refunded,

the person chargeable with the duty so short-levied, or to whom such refund has erroneously been made, shall pay the deficiency or repay the amount paid to him in excess, on demand being made within three months from the date of the first assessment or making of the refund.

81. No such duty which has been paid, and of which repay- Act II of 1896, s. 10; ment, wholly or in part, is claimed in consequence of the same having been paid through inadvertence, error or misconstruction, shall be returned, unless such claim is made within three months from the date of such payment.

1. 82. (1) The Collector, or any officer duly appointed by the Lagricon lagrange of Local Government by notification in that behalf, shall have free access at all reasonable times during working hours to any mill, and, subject to any order of the Local Government in this behalf, to any part of any mill.

(2) Any such officer may at any time, with or without notice to the owner, examine the working-records of any mill, and take copies of, or extracts from, all or any of the said records, for the purpose of testing the accuracy of any return, or of informing himself as to any particulars regarding which information is required for the purposes of this Part or of any rule made under section 87.

(Chapter V.—Taxation.—Part IV.—Excise Duty on Jute.— Part V.—Supplemental provisions.—Clauses 83—87.)

(3) Any mill-owner may object to submitting to any officer under the rank of a Collector - any record containing the description or formulæ of any trade process;

but, if he objects to the inspection of any record by such an officer on the ground of its containing such description or formulæ, he must submit his objection in writing to the officer for transmission to the Collector, and the officer may then and there seal up the record pending the orders of the Collector.

Information acquired to be deemed official secrets.

- 83. (1) All such copies and extracts, and all other informa- [Act Hot 1896, s. 17.]
 it ion acquired by any such officer on the inspection of any mill or
 warehouse, shall be regarded as strictly confidential, and shall
 be deemed to be official secrets.
- (2) If any such officer discloses to any person other than a superior officer any such official secret as aforesaid, without the previous written consent of the Board of Revenue, he shall be guilty of a breach of official trust, and shall, upon conviction thereof, be punishable in the manner provided by section 4 of the Indian Official Secrets Act, 1889.

XV of 1889.

(3) The restriction imposed by section 7, sub-section (2), of the said Act shall not apply to a prosecution for any such breach of official trust.

Records to be 84. The owner of every mill shall keep such records [Act II of 1896, 16.] as may be prescribed by any rules made under section 87.

Part V .- Supplemental provisions.

Recovery of sertain taxes.

- 85. (1) If any tax imposed by section 72 or any [Act II of 1896 s.11.] duty imposed by section 75 is not paid when due, the Collector may, in lieu thereof, recover any sum not exceeding double the amount of tax or duty so unpaid which he may, in his discretion, think it reasonable to require.
- (2) All sums recoverable under sub-section (1) shall be recovered in the manner provided in the Indian Income-tax Act, 1886, section 30, sub-sections (1), (2) and (3), with respect to the sums therein referred to.

II of 1896.

Payment of duty to Board.

- 86. At the close of each financial year, or as soon thereafter as may be convenient, the duty collected in pursuance of section 75, and all sums recovered under section 85, shall, after deducting the expenses of collection, be paid by the Collector to the Board.
- Power to 87. (1) The Local Government may make rules for carrying ment to make out the purposes of this Chapter.
 - (2) In particular, and without prejudice to the foregoing power, the Local Government may make rules—
 - (a) for regulating the collection of taxes imposed by this Chapter, and the payment thereof to the Board;
 - (b) for prescribing the form of any return required by or under this Chapter, and the particulars to be contained therein, respectively, and the manner in which the same is to be verified, and all such other conditions in respect thereof as the Local Government may consider necessary;
 - (c) for prescribing the form of the notice to be issued by the Collector under section 77;
 - (d) for regulating the inspection of mills, and for prescribing the powers and duties of Collectors and other officers in respect thereof; and
 - (e) for prescribing the records to be kept by owners of mills under Part IV.
 - (3) The application of any such rule may be confined to any place specified therein.

(Chapter V .- Taxation .- Part V .- Supplemental provisions .-Clause 88.)

(1) B from time to time determine.

(1a) All debentures shall be signed by the President and one other Trustee.

- (2) The holder of any debenture in any form prescribed under sub-section (1) may obtain in exchange therefor, upon such terms as the Board may from time to time determine, a debenture in any other form so prescribed.
- (3) Every debenture issued by the Board shall be transferable by endorsement, unless some other mode of transfer be prescribed therein.
- (4) The right to sue in respect of moneys secured by de-bentures issued by the Board shall vest in the respective holders of the debentures for the time being, without any preference by reason of some of such debentures being prior in date to others.

101. All coupons attached to debentures issued under the [Ben. Act III of 1900] authority of this Act shall bear the signature of the President, Ben. Act I of 1903).] and such signature may be engraved, lithographed or impressed by any mechanical process.

102. When any debenture or security issued under this Act [1898, proposed second is payable to two or more persons jointly, and either or O'. Bom. Act VI of any of them dies, then, notwithstanding anything in section [878, s. 42A.]

45 of the Indian Contract Act, 1872, the debenture or IX of 1872, security shall be payable to the survivor or survivors of such

Provided that nothing in this section shall affect any claim by the representative of a deceased person against such survivor or survivors.

(Chapter VI.-Finance.-Loans.-Clauses 103-105B.)

by 103. Where two or more persons are joint holders of any [1898, proposed sective debenture or security issued under this Act, any one of such tion 58B; Of. Bom. Act VI of persons may give an effectual receipt for any interest or dividend 1879, s. 42B.] payable in respect of such debenture or security, unless notice to the contrary has been given to the Board by any other of such

104. All payments due from the Board for interest on, or [1899, s. 140.] of 104. All payments due from the board for the repayment of, loans shall be made in priority to all other payments for the repayment of, round interest and repayments of payments due from the Board.

ayment of 105. Every loan taken by the Board under section 96 [1898, s. 55 (1), who taken shall be repaid within the period approved by the Government of India under that section, and by such of the following methods as may be so approved, namely:—

- (a) from a sinking fund established under section 105A in respect of the loan, or
- (b) by paying equal yearly or half-yearly instalments of principal, or of principal and interest, throughout the said period, or
- (c) if the Board have, before borrowing money on debentures, reserved, by public notice, a power to pay off the loan by periodical instalments and to select by lot the particular debentures to be discharged at particular periods—then by paying such instalments at such periods, or
- (d) from money borrowed for the purpose under section 96, clause (b), or
- (e) partly from the sinking fund established under section 105A in respect of the loan, and partly from money borrowed for the purpose under section 96, clause (b).
- (2) [Reproduced in clause 105A (2).]

Retablishment approved the repayment of a loan from a sinking fund, as introduced in interest, in every year, until the loan is repaid, a sum so calculated that, if regularly paid throughout the period approved by the Government of India under section 96, it would, with accumulations in the way of compound interest, be sufficient, after payment of all expenses, to pay off the loan at the end of that period.

(2) The rate of interest on the basis of which the sum referred to in sub-section (1) shall be calculated shall be such as may be prescribed by the Government of India.

105B. Notwithstanding anything contained in section 105A, if at any time the sum standing at credit of the sinking fund established for the repayment of any loan is of such amount that, if allowed to accumulate at the rate of interest prescribed under sub-section (2) of that section, it will be sufficient to repay the loan at the end of the period approved by the Government of India under section 96, then, with the permission of the Local Government, further annual payments into such fund may be discentified. annual payments into such fund may be discontinued.

(Chapter VI .- Finance. - Loans. - Clauses 106-109.)

106. (1) All money paid into any sinking fund shall as soon [1899, s. 135; Of, 1898, s. 5] as possible be invested, under the orders of the Board, in-

- (a) Government securities, or
- (b) securities guaranteed by the Government, or
- (c) Calcutta Municipal debentures, or
- (c1) debentures issued by the Commissioners for the Port of Calcutta, or
- (d) debentures issued by the Board,

in the joint names of the Secretary to the Government of Bengal in the Financial Department and the Accountant-General of Bengal, to be held by them as trustees for the purpose of repaying from time to time the debentures issued by the Board.

- (2) All dividends and other sums received in respect of any such investment shall, as soon as possible after receipt, be paid into the appropriate sinking fund and invested in the manner prescribed by sub-section (1).
 - (3) (Omitted.)
- (4) Any investment made under this section may from time to time, subject to the provisions of sub-section (1), be varied or transposed.

107. The aforesaid trustees may from time to time apply any sinking fund, or any part thereof, in or towards the discharge of the loan or part of a loan for which such fund was created; and until such loan or part is wholly discharged shall not apply the same for any other purpose.

108. (1) The aforesaid trustees shall, at the end of every [1899, s. 187,] Annual state 108. (1) The arressitu trustees share, tents by trus financial year, transmit to the President a statement showing—

- (a) the amount which has been invested during the year under section 106,
 - (b) the date of the last investment made previous to the transmission of the statement,
 - (c) the aggregate amount of the securities held by them,
 - (d) the aggregate amount which has up to the date of the statement been applied under section 107 in or towards repaying loans.
 - (2) Every such statement shall be laid before the Board and published by notification.
- 109. (1) The said sinking funds shall be subject to annual seamination by the Accountant-General, Bengal, who shall ascertain whether the cash and the current value of the securities at credit of such funds are actually equal to the amount which would have accumulated had investments been regularly made and had the rate of interest as originally estimated been obtained therefrom
 - (2) The Board shall forthwith pay into any sinking fund any amount which the Accountant-General may certify to be deficient, unless the Government of India specially sanction a gradual readjustment.

(Chapter VI.—Finance.—Enforcement of Liabilities.—Budget Estimates .- Clauses 110-113.)

Enforcement of Liabilities.

110. (1) If the Board fail-

- (a) to pay any interest due in respect of any loan taken 26th September, 1997, in pursuance of section 96, or
- (b) to make any payment prescribed by section 105 or sub-section (2) of section 109, or
- (c) to make any investment prescribed by section 106,

the Accountant-General of Bengal shall make such payment, or set aside and invest such sum as ought to have been invested under the said section 106, as the case may be;

and the Chairman of the Corporation shall forthwith pay from the Municipal Funds to the said Accountant-General a sum equivalent to the sum so paid or invested by him;

and the Local Government may attach the rents and other income of the Board; and thereupon the provisions of sub-section (2) of section 141 of the Calcutta Municipal Act, 1899, shall, with all necessary modifications, be deemed to apply.

Ben. Act III of 1899.

(2) Whenever the Chairman of the Corporation has made any payment to the Accountant-General under sub-section (1), the Local Government shall reimburse the Corporation out of the rents and income attached under that sub-section, and if such rents and income prove insufficient for that purpose the Corpora-tion may, with the previous sanction of the Local Government, increase the maximum authorized by clause (a) of section 147 of the Calcutta Municipal Act, 1899, to such extent as may be Ben. Act III of 1891. necessary for the purpose of making up the deficiency.

payment as required by section 92 or section 110, the Local ask Government may attach the Municipal Funds or any of them;

[1898, s. 81 (1).]

and thereupon the provisions of sub-section (2) of section 141 of the Calcutta Municipal Act, 1899, shall, with all necessary modifications, be deemed to apply, and the Local Government may further require the Corporation to increase the maximum authorized by clause (a) of section 147 of that Act, to such extent as may be necessary for the purpose of making such payment.

Ben. Act III of 1899,

Payments 112. All moneys paid by the Chairman of the Corporation [1898, s. 81 (8).] under section 110 to be a under sub-section (1) of section 110 and not reimbursed by the charge on the Local Government under sub-section (2) of that section, and all moneys payable under sub-section (1) of section 110 and levied under section 111, shall constitute a charge upon the property of the Board.

Budget Estimates.

Estimates of 113. (1) The President shall, at a special meeting to be held [1898, s. s1.] penditure to be in the month of February in each year, lay before the Board an laid annually the estimate of the income and expenditure of the Board for the next ensuing financial year.

- (2) Every such estimate shall make provision for the due fulfilment of all the liabilities of the Board and for the efficient administration of this Act.
- (3) Every such estimate shall differentiate capital and revenue funds, and shall be prepared in such form, and shall contain such details, as the Local Government or the Board may from time to time direct.

(Chapter VI.—Finance.—Budget Estimates. - Clauses 114-119.)

(4) Every such estimate shall be completed and printed, and a copy thereof sent, by post or otherwise, to each Trustee, at least ten clear days before the date of the meeting at which the estimate is to be laid before the Board.

Sanction of 114. The Board shall consider every estimate so laid before [1868, s. 44.]
over them, and shall sanction the same, either without alteration or
with such alterations as they may think fit.

Approval of 115. (1) Every such estimate, as sanctioned by the Board, [1898, s, 85.]
Local Government, who may, at any time within two months after receipt of the same,-

- (c) approve the estimate, or
- (b) disallow the estimate or any portion thereof, and return the estimate to the Board for amendment.
- (2) If any estimate is so returned to the Board, they shall forthwith proceed to amend it, and shall re-submit the estimate, as amended, to the Local Government, who may then approve it.

Transmission 116. A copy of every such estimate shall, when approved by [1898, s. 85.] mate to Chair the Local Government, be sent by the Board to the Chairman man of Corpora- of the Corporation.

Special provisions as to the section (1) A special meeting of the Board shall be held as soon [1808. s. 86.] first estimate as may be expedient after the day appointed under section 16A, after the constitution of the sub-section (1), and the President shall at such special meeting lay before the Board an estimate of the income and expenditure of the Board for the portion of the financial year which on the said day had not expired. day had not expired.

> (2) The provisions of section 113, sub-sections (2) to (4), and sections 114 to 116 shall apply to the said estimate.

118. (1) The Board may, at any time during the year for [1898, s. 87.] which any estimate has been sanctioned, cause a supplementary estimate to be prepared and laid before them at a special meeting.

(2) The provisions of section 113, sub-sections (3) and (4), and sections 114 to 116 shall apply to every supplementary estimate.

Adherence stimate, a nainterance

119. (1) No sum shall be expended by or on behalf of the Board unless the expenditure of the same is covered by a current budget grant or can be met by re-appropriation or by drawing on the closing balance.

- (2) The closing balance shall not be reduced below one lakh of rupees without the previous sanction of the Local Government.
- (3) The following items shall be excepted from the provisions of sub-sections (1) and (2), namely,-
 - (a) re-payments of moneys belonging to contractors or other persons and held in deposit, and of moneys collected by, or credited to, the Board by mistake;
 - (b) (Omitted.)
 - (c) payments due under a decree or order of a Court passed against the Board or against the President ex officio, or under an award of the Tribunal;
 - (d) sums payable under a compromise of any suit or other legal proceeding or claim effected under section 153;
 - (e) sums payable under this Act by way of compensation;
 - (f) payments required to meet some pressing emergency.

(Chapter VI - Finance. - Banking and Investments. - Clauses 120-1220.)

(4) Whenever any sum exceeding five thousand rupees is expended under clause (f) of sub-section (3), the President shall forthwith report the circumstances to the Local Government, and shall at the same time explain how the Board propose to cover the expenditure.

Banking and Investments.

Beceipt of 120. All moneys payable to the Board shall be received by moneys, and the President, and shall forthwith be paid into the Bank of [1899, s. 111; deposit in Bank of Bengal to the credit of an account which shall be styled "The section 80A.]

Account of the Trustees for the Improvement of Calcutta."

121. (Reproduced in clause 122 A.)

Investment of 122. (1) Surplus moneys at the credit of the said account [1899, s. 119; 1898, proposed surplus money. may from time to time be—

- (a) deposited at interest in the Bank of Bengal or in any other Bank in Calcutta approved by the Board in this behalf, or
- (b) invested in any of the securities or debentures men- 11 of 1882. tioned in section 106, sub-section (1), of this Act or in section 20 of the Indian Trusts Act, 1882.
- (2) (Omitted.)
- (3) All such deposits and investments shall be made by the President on behalf of, and with the sanction of, the Board; and, with the like sanction, the President may at any time withdraw any deposit so made, or dispose of any securities, and re-deposit or re-invest the money so withdrawn or the proceeds of the disposal of such securities.

Payments by cheque.

- 122A. (1) Subject to the provisions of section 110, no [Clause 12] of Bill a payment shall be made by the Bank of Bengal out of the introduced in Council, said account, except upon a cheque.
- (2) Payment of any sum due by the Board exceeding one hundred rupees in amount shall be made by means of a cheque, and not in any other way.
 - (3) (Omitted.)

Signature of orders under section 122, and cheques,

- 122B. All orders for making any deposit, investment, with- [Cf. clauses 121, drawal or disposal under section 122, and all cheques referred to 122 (3) of Bill avin section 122A, must be signed—

 [1899, s. 112 (1)].
 - (a) by the President and the Secretary to the Board, or
 - (b) in the event of the illness or occasional absence from Calcutta of the President or the Secretary, then by the Secretary or the President, as the case may be, and by a Trustee other than the President.

Duty of President and others before signing keque,

122C. Before the President or any other Trustee or the Secretary to the Board signs a cheque under section 122B, the must satisfy himself that the sum for which such cheque is drawn either is required for a purpose or work specifically sanctioned by the Board or is an item of one of the excepted descriptions specified in section 119, sub-section (3).

(b) all moneys received on account of loans taken by the

- Board which was purchased out of any loan taken in pursuance of section 96 or section 99; (d) where land was purchased out of an advance from the
- revenue account, the portion of the proceeds of the sale of such land which remains after crediting to the revenue account the amount of such advance;
- (e) the proceeds of the sale of any movable property (including securities for money invested from the capital account) belonging to the Board;
- (f) all lump sams received from the Government in aid of the capital account;
- (g) all premia received by the Board in connection with leases for any term exceeding forty years;
- (h) all sums (if any) which the Local Government directs, under section 128, sub-section (2), to be credited to the capital account; and
- (i) all moneys resulting from the sale of securities by direction of the Local Government under section

(Chapter VI.-Accounts .- Clauses 126-128.)

application account shall be applied to the capital account shall be applied to—

[1898, s. 76.]

- (a) meeting all costs of framing and executing improvement schemes and re-housing schemes;
- (a1) meeting the cost of acquiring land for carrying out any of the purposes of this Act;
- (a2) meeting the cost of constructing buildings required for carrying out any of the purposes of this Act;
- (α3) the repayment of loans from money borrowed in pursuance of section 96, clause (b);
- (a4) making payments in pursuance of section 147, otherwise than for interest or for expenses of maintenance or working;
- (a5) making, or contributing towards the cost of making, surveys, in pursuance of section 167A;
- (b) meeting such proportion of the cost of management as the Board may, with the sanction of the Local Government, prescribe in this behalf; and
- (c) temporarily making good the deficit (if any) in the revenue account at the end of any financial year.

Oredits to revenue ac-

- 127. There shall be credited to the revenue account-
- (a) all interest received in pursuance of section 67A or [1898, proposed section 67B;

 Section 67B;

 (a) all interest received in pursuance of section 67A or [1898, proposed section 67B, proposed se
- (b) all proceeds received by the Board of taxes imposed paras, 4, 7.]

 by Chapter V;
- (c) all sums contributed from Municipal Funds which are received by the Board under section 92;
- (d) all fines, damages and proceeds of confiscations received by the Board under section 193;
- (e) all annually recurring sums received from the Government in aid of the funds of the Board;
- (e1) all premia received by the Board in connection with leases for any term not exceeding forty years;
- (f) all rents of land vested in the Board; and
- (g) all other receipts by the Board which are not required by section 125 to be credited to the capital account.

Application 128. (1) The moneys credited to the revenue account shall be with proposed amendment revenue held by the Board in trust, and shall be applied to—

[1898, 88, 75 (1), 7 (1)

with proposed amendment revenue account shall be with proposed amendment revenue account.]

- (a) meeting all charges for interest and sinking fund due on account of any loan taken in pursuance of section 96, clause (a), or section 99, and all other charges incurred in connection with such loans;
- (b) paying all sums due from the Board in respect of rates and taxes imposed under the Calcutta Municipal Act, 1899, upon land vested in the Board;
- (c) paying the cost (if any) of maintaining a separate establishment for the collection of the rents and other proceeds of land vested in the Board;
- (c1) paying all sums which the Local Government may direct to be paid to any auditor under section 133;
- (c2) making payments in pursuance of section 147, for interest or for expenses of maintenance or working;
- (d) paying the cost of management, excluding such proportion thereof as may be debited to the capital account under clause (b) of section 126; and
- (e) [Reproduced in sub-clause (c1).]
- (f) paying all other sums due from the Board, other than those which are required by section 126 to be disbursed from the capital account.

Ben. Act III of 1890

(Chapter VI.-Finance.- Accounts. - Chapter VII. - Rules. -Clauses 128A-134A.)

(2) The surplus (if any) remaining after making the payments referred to in sub-section (1) shall, subject to the maintenance of a closing balance of one lakh of rupees, and

except as provided in section 129, and unless the Local Government otherwise directs,

be invested, in the manner prescribed in section 106, towards the service of any loans outstanding after the expiry of sixty years from the commencement of this Act.

Power to direct sale of 128A. If, at any time after any surplus referred to insecurities in section 128, sub-section (2), has been invested, the Local which any surplus of the Government is satisfied that the investment is not needed seventhe account. for the service of any loan referred to in that sub-section, it may direct the sale of the securities held under the invest-

Advances 129. (1) Notwithstanding anything contained in section [1898, s. 77 (2).] count to 128, the Board may advance any sum standing at the credit unital ac of the revenue account for the purpose of meeting capital expenditure.

(2) Every such advance shall be refunded to the revenue account as soon as may be practicable.

nces 130. (1) Any deficit in the revenue account at the end of to any financial year may be made good by an advance from ac- the capital account.

[1898, s. 79; 1899, s. 121 (c).]

(2) Every such advance shall be refunded; to the capital account in the following financial year.

Submission of 131. The Board shall submit to the Local Government, at abstracts of ac the end of each half of every financial year, an abstract of Government. the accounts of their receipts and expenditure.

[1898, s. 89 (1).]

131A. The accounts of the Board shall, once in every financial [Of. clause 131 of year, be examined and audited by such auditor as the Local as introduced in cit.]
Government may appoint in this behalf.

132. The auditor so appointed may,-

[1898, s. 89 (2); 1899, s. 143 (2),

- (a) by written summons, require the production before him of any document which he may consider necessary for the proper conduct of the audit;
- (b) by written summons, require any person having the custody or control of, or being accountable for, any such document to appear in person before him; and
- (c) require any person so appearing before him to make and sign a declaration with respect to any such document, to answer any question, or to prepare and submit any statement.

Renuneration of auditor. 133. The Board shall pay to the said auditor such remunera- [1898, s. 89 (8).] tion as the Local Government may direct.

134. The said auditor shall-

[1899, s. 144; 1898, s. 89(3).]

- (a) report to the Board any material impropriety or irregularity which he may observe in the expenditure, or in the recovery of moneys due to the Board, or in the accounts,
- (b) furnish to the Board such information as they may from time to time require concerning the progress of his audit, and
- (c) within fourteen days after the completion of his audit, forward his report upon the accounts to the

134A. It shall be the duty of the Board forthwith to [1800, s. 184.] remedy any defects or irregularities that may be pointed out by the auditor.

(Chapter VI.-Finance.-Accounts.-Chapter VII.-Rules.-Clauses 1843-187.)

134B. The President shall cause the report mentioned [1899, s. 145.] in section 134, clause (c), to be printed, and shall forward a printed copy thereof to each Trustee, and shall bring such report before the Board for consideration at their next meeting.

135. As soon as practicable after the receipt of the [1898, a. 89 (3).] said report, the Board shall prepare an abstract of the accounts to which it relates, and shall publish such abstract by notification, and shall send a copy of the abstract to the Chairman of the Corporation and to the Local Government.

CHAPTER VII .- RULES.

136. In addition to the power conferred by section 87, the Local Government may make rules-

> (1) for regulating elections under sub-sections (1), (2) and (2a) of section 7;

- (2) for prescribing the maximum sum which may be paid to any person by way of fees under section 21;
- (3) for fixing the charge to be made for a copy of, or extracts from, the municipal assessment-book furnished to the President under section 45; and
- (4) for prescribing the form of the abstracts of accounts referred to in sections 131 and 135.

137. (1) In addition to the power conferred by section 28, [1898, s. 94.] to the Board may from time to time make rules (not inconsistent with any rules made by the Local Government under this Act) for carrying out the purposes of this Act.

- (%) In particular, and without prejudice to the generality of the foregoing power, the Board may make rules-
 - (a) [Reproduced in sub-clause (b2).]
 - (b) for adding members to the Board under section 17A;

[26th September 1907,

- (b1) for appointing persons (other than Trustees and persons added to the Board under section 17A) to be members of Committees under section 18;
 - (b2) for regulating the delegation of powers or duties of the Board to Committees under section 18;
 - (c) for the guidance of persons employed by them under this Act;
 - (c1) for prescribing the fees payable for copies of documents delivered under section 42, subsection (3);
 - (d) for facilitating the taking of a census and securing accu- [1898, a. 550 (49).] rate returns thereof;
 - (e) for the maintenance and management of dwellings and shops constructed under re-housing schemes.
- (f) (Omitted.)
- (3) In making any rule under sub-section (1) or sub-section the Board may provide that a breach of it shall be

- (i) with fine which may extend to five hundred rupees, or
- (ii) in case of a continuing breach, with fine which may extend to fifty rupees for every day during which the breach continues after receipt of written notice from the President to discontinue the breach.

(Chapter VII.—Rules.—Chapter VIII.—Supplemental Provisions.—Status of Trustees and their officers and servants.—Contributions towards leave-allowances and pensions of Government servants .- Clauses 138-144A.)

Conditions 138. The power to make rules under section 87, section [1899, a. 565.]

the making of 136 or section 137 is subject to the condition of the rules being rules under made after provided and the rules being rules. der made after previous publication, and to the following further conditions, namely,-

- (a) a draft of the rules shall be published by notification and in local newspapers;
- (b) such draft shall not be further proceeded with until after the expiration of a period of one month from such publication, or such longer period as the Local Government or (in the case of rules made under section 137) the Board may appoint;
- (c) for one month at least during such period, a printed copy of such draft shall be kept at the Board's office for public inspection, and every person shall be permitted at any reasonable time to peruse the same, free of charge;
- (d) printed copies of such draft shall be delivered to any person requiring the same, on payment of a fee of two annas for each copy.

sanction of 139. No rule made under section 10, shall be lead foverness and until it is sanctioned, with or without modification, rules made by the Local Government. 139. No rule made under section 137 shall have any validity

[1809, s. 569; Cf. 1898, s. 95 (1).]

Publication of

When any rule has been made under section 87 or section 136, and when any rule has been made under section 137 and duly sanctioned, it shall be published by the Local Government by notification, and such publication shall be conclusive proof that the rule has been duly made.

Printing and sale of copies of rules.

141. (1) The President shall cause all rules made under section 87, section 136 or section 137 and for the time being in force to be printed, and shall cause printed copies thereof to be delivered to any applicant on payment of a fee of two annas for each copy.

(8) Notice of the fact of copies of rules being obtainable at the said price, and of the place where and the person from whom the same are obtainable, shall be given by the President by advertisement in local newspapers.

Boards, with the rules made under section 136 and (1898, s. 572 (1); Exhibition of 142. Boards, with the rules made copies of the said section 137 printed thereon, or with printed copies of the said rules affixed thereto, in English and Bengali, shall be hung or rules affixed thereto, in English and Bengali, shall be hung or affixed in some conspicuous part of the Board's office and in such places of public resort affected by the rules as the President may think fit.

(Chapter VIII .- Supplemental Provisions .- Extension of Acts to areas in the neighbourhood of the Calculta Municipality .-Facilities for movement of the population .- Clauses 145-147.)

Extension of Acts to areas in the neighbourhood of the Calcutta Municipality.

145. (1) When this Act or any part thereof has been extended to any area under section 1, sub-section (3), the Local Government may, by notification published in the Calcutta Gazette and in such other manner (if any) as it may consider necessary, extend to such area the Calcutta Municipal Act, 1899, or any portion thereof, subject to such restrictions and modifications

(if any) as may be specified in such notification.

(2) When the said Calcutta Municipal Act, 1899, or any portion thereof, is extended under sub-section (1) to any area,

then-

(a) the Bengal Municipal Act, 1884, or the Bengal Local Ben. Act III of 1884.

Self-Government Act of 1885, as the case may be, or the corresponding portion of such Act, as the case may be, if in force in such area, shall be deemed to

may be, if in force in such as a, be repealed therein, and,

(b) except as the Local Government may otherwise, by notification, direct, all rules, by-laws, regulations, orders, directions and powers made, issued or conferred under the portions of the said Calcutta Municipated and the portions of the said Calcutta Municipated and the said that 1800 which have been so extended, and in pal Act, 1899, which have been so extended, and in force at the date of such extension, shall apply to the said area, in supersession of all corresponding rules, by-laws, regulations, orders, directions and powers (if

any) made, issued or conferred under the said Bengal
Municipal Act, 1884, or the said Bengal Local SelfBen. Act. III of 1884 Government Act of 1885, as the case may be.

146. (1) Before finally publishing any notification under [1899, ss. 636, 637, 640, section 1, sub-section (3), or section 145, sub-section (1), the Local Government shall publish a draft of the same in the Calcutta Gazette.

(2) Any ratepayer or inhabitant of the area affected by such draft may, if he objects to the draft, submit his objection in writing to the Local Government within six weeks from its publication, and the Local Government shall take such objection into consideration.

Facilities for movement of the population.

147. With a view to facilitating the movement of the [Cf. Ben. Act III of population in and around the Calcutta Municipality, the Board may from time to time,—

(1) subject to any conditions they may think fit to impose,

(a) guarantee the payment, from the funds at their disposal of such sums as they may think fit, by way of interest on capital expended on the construction, maintenance or working of means of locomotion, or

(6) make such payments as they may think fit from the said funds, by way of subsidy to persons undertaking to provide, maintain and work means of locomotion; or 1886, s. 80]

(2) either singly or in combination with any other person, construct, maintain and work any means of locomotion, under the provisions of any law applicable thereto, or

(3) construct, or widen, strengthen or otherwise improve, bridges:

Provided that no guarantee or subsidy shall be made under clause (1), and no means of locomotion shall be constructed, maintained or worked under clause (2), without the sanction of the Local Government.

148. [Reproduced in clause 147 (8).]

(Chapter VIII .- Supplemental Provisions, - Telegraph and Raileays Acts. - Legal Proceedings. - Clauses 148-154.)

Telegraph and Railways Acts.

149. Nothing in this Act shall be deemed to affect the [1898, s. 1 (9).] provisions of the Indian Telegraph Act, 1885, or the Indian Railways Act, 1890.

Legal Proceedings.

150. Notwithstanding anything contained in the Code of v or 1898. Criminal Procedure, 1898,

all offences against Chapter V or any rule made thereunder [Act II of 1806, s. 36.]
may be tried summarily by a District Magistrate, a Presidency
Magistrate, or a Magistrate of the first class, and

all offences against any other provisions of this Act or any rule made thereunder shall, wherever committed, be cognizable [1899, s. 629; Cy. 1898, s. 101.] by a Presidency Magistrate;

and no such Magistrate shall be deemed to be incapable of taking cognizance of any such offence by reason only of being liable to pay any tax imposed by this Act or of his being benefited by the funds to the credit of which any fine imposed by him will

be payable. on of 151. No person shall be liable to punishment for any [1899, s. 631 (1).] pro- offence against this Act or any rule made hereunder unless complaint of such offence is made before a Magistrate within three

152. If any person, who has been summoned to appear before a Magistrate to answer a charge of an offence against this Act or any rule made hereunder, fails to appear at the time and place mentioned in the summons, the Magistrate may, if service of the summons is proved to his satisfaction, and if no sufficient cause is shown for the non-appearance of such person, hear and determine

the case in his absence.

months next after the commission of such offence.

153. The President may, subject to the control of the Board,-

- (a) institute, defend or withdraw from, legal proceedings under this Act or any rule made hereunder;
- (b) compound any offence against this Act or any rule made hereunder which, under any law for the time being in force, may lawfully be compounded;
- (c) admit, compromise or withdraw any claim made under this Act or any rule made hereunder; and
- (d) obtain such legal advice and assistance as he may from time to time think it necessary or expedient to obtain, or as he may be desired by the Board to obtain, for any of the purposes referred to in the foregoing clauses of this section, or for securing the lawful exercise or discharge of any power or duty vested in or imposed upon the Board or any officer or servant of the Board.

154. No suit shall be maintainable against the Board, or any officer or servant of the Board, or any person acting under the direction of the Board or of any officer or servant of the Board, in respect of anything lawfully and in good faith and with due care and attention done under this Act or any rule made here.

(Chapter VIII. - Supplemental Provisions. - Legal Proceedings. -Police. - Evidence. - Clauses 155-158.)

155. (1) No suit shall be instituted against the Board or any Trustee, or any officer or servant of the Board, or any person acting under the direction of the Board or any of their officers or servants, in respect of any act purporting to be done under this Act or any rule made hereunder,

until the expiration of one month next after written notice has been delivered or left at the Board's office or the place of abode of such officer, servant or person, stating the cause of action, the name and place of abode of the intending plaintiff and the relief which he claims;

and the plaint must contain a statement that such notice has been so delivered or left.

(2) to (5). (Omitted.)

Police.

156. (1) The Commissioner of Police and his subordinates [1899, s. 643.] shall be bound to co-operate with the President for carrying into effect and enforcing the provisions of this Act.

- (b) (Omitted.)
- (2) It shall be the duty of every police-officer who is subordinate to the Commissioner of Police-
 - (i) to communicate without delay to the proper officer or servant of the Board any information which he receives of a design to commit or of the commission of any offence against this Act or any rule made hereunder, and
 - (ii) to assist the President or any officer or servant of the Board reasonably demanding his aid for the lawful exercise of any power vesting in the President or in such officer or servant under this Act or any such rule.

157. (1) Every police-officer shall arrest any person who commits, in his view, any offence against this Act or any rule made hereunder, if the name and address of such person be unknown to him, and if such person, on demand, declines to give his name and address, or gives a name or address which such officer has reason to believe to be false.

- (2) No person so arrested shall be detained in custody after his true name and address are ascertained, or, without the order of a Magistrate, for any longer time, not exceeding at the most twenty-four hours from the arrest, than is necessary for bringing him before a Magistrate.
- (3) On the written application of the President, police-officer above the rank of constable shall arrest any person who obstructs any officer or servant of the Board in the exercise of any of the powers conferred by this Act or any rule made hereunder.

Evidence.

158. Whenever, under this Act or any rule made here-under, the doing or the omitting to do anything or the validity of anything depends upon the approval, sanction, consent, concurrence, declaration, opinion or satisfaction of—

- (a) the Board or the President, or
- (b) any officer or servant of the Board,

a written document, signed in case (a) by the President, and in case (b) by the said officer or servant, purporting to convey or

(Chapter VIII .- Supplemental Provisions .- Validation .-Compensation.—Public Notices and Advertisements.— Clauses 159—162.)

set forth such approval, sanction, consent, concurrence, declara-tion, opinion or satisfaction, shall be sufficient evidence of such approval, sanction, consent, concurrence, declaration, opinion or satisfaction.

Validation.

Validation of

159. (1) No act done or proceeding taken under this Act shall be questioned on the ground merely of-

[1899, s. 142; Hen. Act III of 1684, s. 20 (2); Of. 1898, s. 18 (4)

- (a) the existence of any vacancy in, or any defect in the constitution of, the Board or any Committee; or
- (b) any person having ceased to be a Trustee; or
- (c) any Trustee, or any person added to the Board under section 17A, or any other member of a Committee appointed under this Act, having voted or taken any other part in any proceeding in contravention of section 21A; or
- (d) the failure to serve a notice under section 44 on any person, where no substantial injustice has resulted from such failure; or
- (e) any omission, defect or irregularity not affecting the merits of the case.
- (2) Every meeting of the Board, the minutes of the proceedings of which have been duly signed as prescribed in rection 17, clause (h), shall be taken to have been duly convened and to be free from all defect and irregularity.

Compensation.

In any case not otherwise expressly provided for in this Ast, the Board may pay reasonable compensation to any person who sustains damage by reason of the exercise of any of the powers vested, by this Act or any rule made or scheme sanctioned hereunder, in the Board or the President or any officer or servant of the Board.

- 161. (1) If, on account of any act or omission, any person has been convicted of an offence against this Act or any rule made hereunder, and, by reason of the same act or omission of the said person, damage has occurred to any property of the Board, compensation shall be paid by the said person for the said damage, notwithstanding any punishment to which he may have been sentenced for the said offence.
- (2) In the event of dispute, the amount of compensation payable by the said person shall be determined by the Magistrate before whom he was convicted of the said offence.
- (3) If the amount of any compensation due under this section be not paid, the same shall be recovered under a warrant from the said Magistrate, as if it were a fine inflicted by him on the person liable therefor.

Public Notices and Advertisements.

Public notice 162. Every public notice given under the signature of the 162. Every public notice given under this Act or any rule President.

and shall be widely made known in the locality to be affected [1899.a.5°8.] thereby, by affixing copies thereof in conspicuous public places

(Chapter VIII.—Supplemental Provisions.—Signature and Service of Notices, etc .- Surveys .- Clauses 163-167 A.)

within the said locality, or by publishing the same by beat of drum or by advertisement in local newspapers, or by any two or more of these means, and by any other means that the President may think fit.

163. Whenever it is provided by this Act or any rule [1890, s. 858.] made hereunder that notice shall be given by advertisement in local newspapers, or that a notification or any information shall be published in local newspapers, such notice, notification or informa-tion shall be inserted, if practicable, in at least two English newspapers and two vernacular newspapers.

Signature and Service of Notices, etc.

164. Every notice or bill, which is required by this Act [1890, s. 590.] or by any rule made hereunder to bear the signature of the President or of any other Trustee or of any officer or servant of the Board, shall be deemed to be properly signed if it bears a facsimile of the signature of the President or of such other Trustee or of such officer or servant, as the case may be, stamped thereupon.

165. (Omitted.)

166. When any notice, bill or other document is required by any provision of this Act other than section 77, or by any rule made under this Act, to be served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person and according to the served upon or issued or presented to any person or issued or presented to any person and according to the served upon or issued or presented to any person presented to any person, such service, issue or presentation shall be effected-

- (a) by giving or tendering such document to such person;
- (b) if such person is not found, by leaving such document at his last known place of abode in Calcutta, or by giving or tendering the same to some adult male member or servant of his family ; or
- (c) if such person does not reside in Calcutta, and his address elsewhere is known to the President, by forwarding such document to him by registered post under cover bearing the said address; or
- (d) if none of the means aforesaid be available, by causing a copy of such document to be affixed on some conspicuous part of the land (if any) to which the document relates.

167. (Omitted.)

Surveys.

167A. The Board may-

(a) cause a survey of any land to be made, whenever [1898, s. 23, recont they consider that a survey is necessary or Ben. Act III of 1953, expedient for carrying out any of the purposes of this Act, or

(b) contribute towards the cost of any such survey made by any other local authority.

(Chapter VIII.—Supplemental Provisions.—Power of Entry.— Penalties .- Clauses 168-190A.)

Power of Entry.

entry.

- 168. (1) The President may, with or without assistants or [1899, s 595] workmen, enter into or upon any land, in order—
 - (a) to make any inspection, survey, measurement, valuation or inquiry,
- (b) to take levels,
 - (c) to dig or bore into the subsoil,
 - (d) to set out boundaries and intended lines of work, or
 - (e) to mark such levels, boundaries and lines by placing marks and cutting trenches,

whenever it is necessary to do so for any of the purposes of this Act or any rule made or scheme sanctioned hereunder or any scheme which the Board intend to frame hereunder:

Provided as follows:-

- (a) no such entry shall be made between sunset and sunrise;
- (b) no dwelling-house, and no public building or hut which is used as a dwelling-place, shall be so entered, unless with the consent of the occupier thereof, without giving the said occupier at least twenty-four hours' previous written notice of the intention to make such entry;
- (c) sufficient notice shall in every instance be given, even when any premises may otherwise be entered without notice, to enable the inmates of any apartment appropriated to females to remove to some part of the premises where their privacy need not be disturbed;
- (d) due regard shall always be had, so far as may be compatible with the exigencies of the purpose for which the entry is made, to the social and religious usages of the occupants of the premises entered.
- (2) Whenever the President enters into or upon any land in pursuance of sub-section (1), he shall at the time of such s. 5.] entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the Board, whose decision shall be final.

169 to 189. (Omitted.)

Penalties.

190. If any Trustee, or any officer or servant of the Board, [1809, s. 577; knowingly acquires, directly or indirectly, by himself or by any partner, employer or employé, otherwise than as such Trustee, officer or servant, any share of the Board of the ment with, by, or on behalf of, the Board,

not being a share or interest such as, under sub-section (2) of section 9, it is permissible for a Trustee to have without being thereby disqualified for being appointed a Trustee,

he shall be deemed to have committed the offence made punishable by section 168 of the Indian Penal Code.

XLV of 1800.

190A. If any person, without lawful authority,-

[1899, s, 5/4 (345, (a) removes any fence or shoring-timber, or removes or extinguishes any light, set up under section 56D, sub-section (1), or

(b) infringes any order given, or removes any bar, chain or post fixed, under section 56E, subsection (2),

he shall be punishable with fine which may extend to fifty rupees.

(Chapter VIII.—Supplemental Provisions.—Penalties.—.

Disposal of fines and damages.—Clauses 190B-193.)

Penalty for 190B. If any person, without the permission of the [1899, sa, 361, 579 building within Board, erects, re-erects, adds to, or alters any building or (o).]

street align. Board, or wall so as to make the same fall within the street alignment by or building line shown in any plan finally adopted by the Board under section 56H, he shall be punishable—

- (a) with fine which may extend, in the case of a masonry building or a wall, to five hundred rupees, and, in the case of a hut, to fifty rupees, and
- (b) with further fine which may extend, in the case of a masonry building or a wall, to one hundred rupees, and, in the case of a hut, to ten rupees, for each day after the first during which the projection continues.

Penalty for 190C. If any person fails to set back any building, wall [1899. ss. 574 failure to set back building or part thereof when so required by notice issued by or wall on re- the President under section 56H, sub-section (5), he shall be punishable—

- (a) with fine which may extend to one hundred rupees,
- (b) in case of a continuing failure, with fine which may extend to twenty rupees for each day after the first during which the failure continues.

Penalty for 191. If any per person fails to comply with any requisition [1892, s. 574 (143) (9), failure to comply with requisition made under section 132, he shall be punishable—

stion made by

- (a) with fine which may extend to one hundred rupees; or
- (b) in case of a continuing failure, with fine which may extend to fifty rupees for each day after the first during which the failure continues.

Penalty for

192. If any person-

[1899, ss. 585, 647,

- (a) obstructs or molests any person with whom the President has entered into a contract on behalf of the Board, in the performance or execution by such person of his duty or of anything which he is empowered or required to do by virtue or in consequence of this Act or any rule made hereunder, or
- (b) removes any mark set up for the purpose of indicating any level or direction necessary to the execution of works authorised by this Act or any rule made or scheme sanctioned hereunder,

he shall be punishable with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to two months.

Disposal of Fines and Damages.

Fines, dama.

193. All fines and damages realized, and the proceeds of all each and proceedings of confiscations, in cases in which prosecutions are instituted under eations to be this Act or any rule made hereunder shall be paid to the Board.

1808, s. 10 1899, s. 10 (6).1

(Chapter VIII. - Supplemental Provisions. - Suspension or abolition, and re-imposition, of taxation or Municipal contributions .-Dissolution of Board .- Clauses 194, 195.)

Suspension or abolition, and re-imposition, of taxation or Municipal contributions.

- 194. (1) Whenever the Local Government considers that any duty or tax imposed by Chapter V, or any payment required by section 92, or any portion of any such duty, tax or payment, as the case may be, is not required for the purposes of this Act, it may, by notification, with the previous sanction of the Government of India,
 - (a) suspend, for any specified period, the levy of such duty or tax or any specified portion thereof, or the making of such payment or any specified portion thereof, or
 - (b) abolish such duty, tax or payment, or any specified portion thereof, from a date to be specified in the notification.
- (2) If at any time the Local Government considers that any duty, tax or payment, or any portion thereof, which has been suspended or abolished under sub-section (1) is required for the purposes of this Act, it may, by notification, with the previous sanction of the Government of India, cancel such suspension or abolition, wholly or in part, as it may think fit, from a date to be specified in the notification.

Dissolution of Board.

- 195. (1) When all schemes sanctioned under this Act have been executed, or have been so far executed as to render the (A); Analysis, paras. 5.6 continued existence of the Board, in the opinion of the Local 2011 Sept. 1907, paras. Government, unnecessary, the Local Government may, by notification, with the previous sanction of the Government of India, declare that the Board shall be dissolved from such date as may be specified in this behalf in such notification; and the Board shall be deemed to be dissolved accordingly.
 - (2) From the said date,-
 - (a) all properties, funds and dues which are vested in or realizable by the Board and the President, respectively, shall vest in and be realizable by the Corporation and the Chairman of the Corporation, respectively; and
 - (b) all liabilities which are enforceable against the Board shall be enforceable only against the Corporation;
 - (b1) for the purpose of completing the execution of any scheme, sanctioned under this Act, which has not been fully executed by the Board, and of realizing properties, funds and dues referred to in clause (a), the functions of the Board and the President under this Act shall be discharged by the Corporation and the Chairman of the Corporation, respectively; and
 - (c) the Corporation shall keep separate accounts of all moneys respectively received and expended by them under this Act, until all loans raised hereunder have been repaid, and until all other liabilities referred to in clause (b) have been duly met.

(The Schedule - Clauses 10A-13.)

THE SCHEDULE.

[referred to in section 61C(b)].

[Schedule A to Bill as atroduced in Council]. [1898, s. 47 and schedule A 1899, s. 557.]

FURT HER MODIFICATIONS IN THE LAND ACQUISITION ACT, 1894.

of 1894.

1 to 3 (Omitted.)

4, 5. [Reproduced in clause 61C (a).]

6 to 10 (Omitted.)

Amendment of section 8.

10A. After clause (e) of section 3 the following shall be deemed to be inserted, namely—

"(el) the expression 'local authority' includes the Board of Trustees constituted under the Calcutta Improvement Act, 1911."

Amendment 10B. To section 11 the following shall be deemed to be added, namely:—

"and

"(iv) the costs which, in his opinion, should be allowed,

to any person who is found to be entitled to compensation, and who is not entitled to receive the additional sum of fifteen per centum mentioned in section 23, subsection (2),

as having been actually and reasonably incurred by such person in preparing his claim and putting his case before the Collector.

"The Collector may disallow, wholly or in part, costs incurred by any person if he considers that the claim made by such person for compensation is extravagant."

Amendment of section 15. 11. In section 15, for the word and figures "and 24" the figures, word and letter "24 and 24A" shall be deemed to be substituted.

Amendment of section 17.

- 12. (1) In section 17, sub-section (3), after the figures "24" the words, figures and letter "or section 24A" shall be deemed to be inserted.
- (2) To the said section 17 the following shall be deemed to be added, namely:
- "(4) Sub-sections (1) and (3) shall apply also in the case of any area which is stated in a certificate granted by a salaried Presidency Magistrate or a Magistrate of the first class to be unhealthy.

"(5) Before granting any such certificate the Magistrate shall cause notice to be served as promptly as may be on the persons referred to in sub-section (3) of section 9, and shall hear without any avoidable delay any objections which may be urged by them.

"(6) When proceedings have been taken under this section for the acquisition of any land, and any person sustains damage in consequence of being suddenly dispossessed of such land, compensation shall be paid to such person for such dispossession."

New section

13. After section 17 the following shall be deemed to be resonant inserted, namely:—

"17A. In every case referred to in section 16 or section 17,
the Collector shall, upon payment
of the cost of acquisition, make
over charge of the land to the Board; and the land shall thereupon
vest in the Board, subject to the liability of the Board to pay
any further costs which may be incurred on account of its
acquisition."

(The Schedule-Clauses 13A-14.)

13A. At the end of section 18, sub-section (1), the words "or the amount of the costs allowed" shall be deemed to be inserted.

After the words "amount of compensation," in clause (e) of section 19, the words " and of costs (if any)" shall be deemed to be inserted.

13C. After the words "amount of the compensation," Amendment 13C. After the words amount of the costs" shall be deemed to be inserted.

(2a) In sub-section (2) of section 23, after the words "in every case" the following shall be deemed to be inserted, namely :-

> "except where the land acquired is situated in the Calcutta Municipality and within the area comprised in an improvement scheme sanctioned under the Calcutta Improvement Act, 1911."

- (3) At the end of section 23 the following shall be deemed to be added, namely:-
 - "(3) For the purposes of clause first of sub-section (1) of this section.
 - (a) the market-value of the land shall be deemed [1890. s. 557 (e).] to be the market-value according to the disposition of the land at the date of the publication of the declaration relating thereto under section 6;

(a1) if it be shown that, before such decla- [1899. s. 557 pro-ration was published, the owner of viso (i).] the land had taken active steps and incurred expenditure to secure a more profitable disposition of the same, further compensation, based on his actual loss, may be paid to him;

(b) if the market-value has been increased by means of any improvement made by the owner or his predecessor in interest within two years before the aforesaid declaration was published, such increase shall be disregarded, unless it be proved that the infprovement was made bona fide and not in contemplation of proceedings for the acquisition of the land being taken under this Act;

(c) if the market-value is specially high in consequence of the land being put to a use which tion 478 (6); is unlawful or contrary to public policy, that use shall be disregarded, and the market-value shall be deemed to be the market-value of the land if put to ordinary uses; and

(d) if the market-value of any building is specially [1808, prophing high in consequence of the building being so tion 47.8 (c).] overcrowded as to be dangerous to the health of the inmates, such overcrowding shall be disregarded, and the market-value shall be deemed to be the market-value of the building if occupied by such number of persons only as could be accommodated in it without risk of danger from overcrowding."

(e) (Omitted.)

(4) (Omitted.)

(The Schedule-Clauses 15-16 A.)

Amendment f section 24.

15. (1) (Omitted).

(2) For clause seventhly of section 24 the following shall be tion 47 B (9).] deemed to be substituted, namely:-

"seventhly, any outlay on additions or improvements to land acquired, which was incurred after the date of the publication of the declaration under section 6, unless such additions or improvements were necessary for the maintenance of any building in a proper state of repair.".

16. After section 24 the following shall be deemed to be inserted, namely:-

> "24A. In determining the amount of compensation to be Further provisions for awarded for any land acquired for the determining compensation. Board under this Act, the Tribunal shall also have regard to the following provisions, namely,-

(1) if the owner of any land acquired under this Act has, tion 47B (4). 1911, and within two years preceding the date of the publication of the declaration under section 6, furnished any return, under section 156 of the Calcutta Municipal Act, 1899, of the rent or annual value of such land, then the rent or annual value of such land, then the rent or annual value of such land, then the rent or annual value of such land, unless the Tribunal otherwise directs, be deemed to be greater than the amount so returned:

Provided that, if any addition or improvement to such land has been made after the date of such return and before the date of the publication of the declaration under section 6, the Tribunal may take into consideration any increase in the letting-value of the land which is due to such addition or improvement;

- (2) when any interest in any land acquired under this Act [1898, proud has been acquired after the date of the publication of the declara-tion 47B (2).] tion under section 6, no separate estimate of the value of such interest shall be made so as to increase the amount of compensation to be paid for such land;
- (3) if, in the opinion of the Tribunal, any building is in a [1898, propodefective state, from a sanitary point of view, or is not in a tion 47B (6). I reasonably good state of repair, the amount of compensation shall not exceed the sum which the Tribunal considers the building would be worth if it were put into a sanitary condition or into a reasonably good state of repair, as the case may be, minus the estimated cost of putting it into such condition or state;
- (4) if, in the opinion of the Tribunal, any building which is used or is intended or is likely to be used for human habitation, is not reasonably capable of being made fit for human habitation, the amount of compensation shall not exceed the value of the materials of the building, minus the cost of demolishing the building."

- Amendment 16A. (1) After the words "the compensation" in sub-section (1) of section 31, and after the words "the amount of the compensation" in sub-section (2) of that section, the words "and costs (if any)" shall be deemed to be inserted.
 - (2) After the words "any compensation", in the concluding proviso to sub-section (1) of section 31, the words "or costs" shall be deemed to be inserted.

(The Schedule .- Clause 16B, 16C.)

16B. After section 48 the following shall be deemed Lact 1 of 1894, sec. to be inserted, namely :-

> "48A. (1) If, within a period of two years from the date of the publication of the declaration under section 6, in respect of any land, the Collector has not made an award under section 11 with respect to such land, the owner of the land shall be entitled to receive compensation for the damage suffered by him in consequence of the delay.

> (2) The provisions of Part III of this Act shall apply, so far as may be, to the determination of the compensation payable under this section.

> "48B. No compensation shall be payable in pursuance Sections 48 and 48A of section 48 or section 48A when not to apply in certain proceedings for the acquisition of land have been abandoned on the execution of an agreement, or the acceptance of a payment, in pursuance of sub-section (4) of section 67A of the Calcutta Improvement Act, 1911."

ISC. After sub-section (1) of section 49 the following shall be deemed to be inserted, namely:—

"(1a) For the purposes of sub-section (1), land which is held with and attached to a house and is reasonably required for the enjoyment and use of the house shall be deemed to be part of the house."

The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

ACT No. I of 1894.

[2nd February, 1894.]

An Act to amend the law for the acquisition of land for public purposes [and for Companies].

WHEREAS it is expedient to amend the law for the acquisition of land needed for public purposes [and for Gompanies], and for Bill, Schedule, determining the amount of compensation to be made on account of such acquisition; It is hereby enacted as follows:-

PART I.

PRELIMINARY.

- 1. (1) This Act may be called the Land Acquisition Act, 1894.
 - (2) It extends to the whole of British India; and
 - (3) It shall come into force on the first day of March, 1894.

- 2. (1) The Land Acquisition Act, 1870, and section 74 of x of 1870. the Punjab Courts Act, 1884, are hereby repealed.
- (2) But all proceedings commenced, officers appointed or authorized, agreements published and rules made under the said Land Acquisition Act shall, as far as may be, be deemed to have been respectively commenced, appointed or authorized, published and made under this Act.
- (3) Any enactment or document referring to the said Land Acquisition Act or to any enactment thereby repealed shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

- 3. In this Act, unless there is something repugnant in the subject or context,
 - (a) the expression "land" includes benefits to arise out of land, and things attached to the earth or permanently fastened to anything attached to the earth;
 - (b) the expression "person interested" includes all persons claiming an interest in compensation to be made on account of the acquisition of land under this Act; and a person shall be deemed to be interested in land if he is interested in an easement affecting the land;
 - (c) the expression "Collector" means the Collector of a district, and includes a Deputy Commissioner and any officer specially appointed by the Local Government to perform the functions of a Collector under this Act;
 - (d) the expression "Court" means a principal Civil Court of original jurisdiction, unless the Local Government has appointed (as it is hereby empowered to do) a special judicial officer within any specified local limits to perform the functions of the Court under this Act;
 - (e) the expression "Company" means a Company registered under the Indian Companies Act, 1882, or under the VI of 883. (English) Companies Acts, 1862 to 1890, or incorporated by an Act of Parliament or of the Governor General in Council, or by Royal Charter or Letters Patent;

As to the modification of Act I of 1894 in its application to the Calcutta Municipality see Bou, Act III of 1899, s. 537.

Section 57 (2) of the Indian Electricity Act, 1910 (IX of 1910), declares as follows:

"The Local Government may, if it thinks fit, on the application of any personal peling a company, desirous of obtaining any land for the purposes of his taking, direct that he may acquire such land under the provisions of the Acquisition Act, 1994, in the same manner and on the same conditions as it be acquired if the person were a company."

The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part II-Acquisition .- Sec. 4.)

- (e1) the expression "local authority" includes the Bill, St. Board of Trustees constituted under the clause Calcutta Improvement Act, 1911;
- (f) the expression "public purpose" includes the provision of village-sites in districts in which the Local Government shall have declared, by notification in the official Gazette, that it is ensured for the Government to make such assistance and ment to make such provision; and
- (g) the following persons shall be deemed persons "entitled to act," as and to the extent hereinafter provided (that is to say),
 - trustees for other persons beneficially interested shall be deemed the persons entitled to act with reference to any such case, and that to the same extent as the persons beneficially interested could have acted if free from disability:
 - a married woman, in cases to which the English law is applicable, shall be deemed the person so entitled to act, and, whether of full age or not, to the same extent as if she were unmarried
 - and of full age; and
 the guardians of minors and the committees or
 managers of lunatics or idiots shall be deemed respectively the persons so entitled to act, to the same extent as the minors, lunatics or idiots themselves, if free from disability, could have acted:

Provided that-

(i) no person shall be deemed "entitled to act" whose interest in the subject-matter shall be shown to the satisfaction of the Collector or Bill, clause 61 C(a). [Court] TRIBUNAL to be adverse to the interest of the person interested for whom he would otherwise be entitled to act;

- (ii) in every such case the person interested may appear by a next friend, or, in default of his appearance by a next friend, the Collector or [Court] Bill, clause 51C(a).

 Tribunal as the case may be, shall appoint a guardian for the case to act on his behalf in the conduct thereof: the conduct thereof;
- (iii) the provisions of Chapter XXXI of the Code of Civil Procedure shall, mutatis mutandis, apply xiv of 1882. in the case of persons interested appearing before a Collector or [Court] THE TRIBUNAL by a next friend, or by a guardian for the case, in proceedings under this Act; and
- (iv) no person "entitled to act" shall be competent to receive the compensation-money payable to the person for whom he is entitled to act, unless he would have been competent to alienate the land and receive and give a good discharge for the purchase money on a voluntary sale.

PARTAII.

ACQUISITION.

Preliminary Investigation.

4. (1) Whenever it appears to the Local Government that land in any locality is likely to be needed for any public purpose, a notification to that effect shall be published in the official Gazette, and the Collector shall cause public notice of the

of 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part II.—Acquisition.—Secs. 5-8.)

substance of notification to be given at convenient places in the said locality.

(2) Thereupon it shall be lawful for any officer either generally or specially authorized by such Government in this behalf, and for his servants and workmen,

to enter upon and survey and take levels of any land in such locality;

to dig or bore into the subsoil;

to do all other acts necessary to ascertain whether the land is adapted for such purpose;

to set out the boundaries of the land proposed to be taken and the intended line of the work (if any) proposed to be made thereon:

to mark such levels, boundaries and line by placing marks and outting trenches; and,

where otherwise the survey cannot be completed and the levels taken and the boundaries and line marked, to cut down and clear away any part of any standing crop, fence or jungle:

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

5. The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector or other chief revenue-officer of the district, and such decision shall be final.

Declaration of intended Acquisition.

Declaration that land is required for a public purpos 6. (1) Subject to the provision of Part VII of this Act, whenever it appears to the Local Government that any particular land is needed for a public purpose, or for a Company, a declaration shall be made to that effect under the signature of a Secretary to such Government or of some officer duly authorized to certify its orders:

Provided that no such declaration shall be made unless the compensation to be awarded for such property is to paid by a Company, or wholly or partly out of public revenues or some fund controlled or managed by a local authority.

- (2) The declaration shall be published in the official Gazette, and shall state the district or other territorial division in which the land is situate, the purpose for which it is needed, its approximate area, and, where a plan shall have been made of the land, the place where such plan may be inspected.
- (3) The said declaration shall be conclusive evidence that the land is needed for a public purpose or for a Company, as the case may be; and, after making such declaration, the Local Government may acquire the land in manner hereinafter appearing.

After declaration Collector to take order for acquisition.

7. Whenever any land shall have been so declared to be needed for a public purpose or for a Company, the Local Government, or some officer authorized by the Local Government in this behalf, shall direct the Collector to take order for the acquisition of the land.

Land to be marked out, measured and planned. 8. The Collector shall thereupon cause the land (unless it has been already marked out under section 4) to be marked out. He shall also cause it to be measured, and (if no plan has been made thereof) a plan to be made of the same.

The Land Acquisition Act, 1894, with proposed [Acr I modifications embodied in loco.

(Part II.—Acquisition.—Secs. 9-11.)

Notice to persons inter-

- 9. (1) The Collector shall then cause public notice to be given at convenient places on or near the land to be taken, stating that the Government intends to take possession of the land, and that claims to compensation for all interests in such land may be made to him.
- (2) Such notice shall state the particulars of the land so needed, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of publication of the notice), and to state the nature of their respective interests in the land and the amount and particulars of their claims to compensation for such interests, and their objections (if any) to the measurements made under section 8. The Collector may in any case require such statement to be made in writing and signed by the party or his agent.
- (3) The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue-district in which the land is situate.
- (4) In case any person so interested resides elsewhere, and has no such agent, the notice shall be sent to him by post in a letter addressed to him at his last known residence, address or place of business and registered under Part III of the Indian Post Office XIV of 1866. Act, 1866. [13]

Power to require and enforce the making of statements as to names and

- 10. (1) The Collector may also require any such person to make or deliver to him, at a time and place mentioned (such time not being earlier than fifteen days after the date of requisition), a statement containing, so far as may be practicable, the name of every other person possessing any interest in the land or any part thereof as co-proprietor, sub-proprietor, mortgagee, tenant or otherwise, and of the nature of such interest, and of the rents and profits (if any) received or receivable on account thereof for three years next preceding the date of the statement.
- (2) Every person required to make or deliver a statement under this section or section 9 shall be deemed to be legally bound to do so within the meaning of sections 175 and 176 of the XLV of 1897. Indian Penal Code.

Inquiry into Measurements, Value and Claims, and Award by the Collector.

Inquiry and award by Co lector.

- 11. On the day so fixed, or on any other day to which the inquiry has been adjourned, the Collector shall proceed to inquire into the objections (if any) which any person interested has stated, pursuant to a actice given under section 9, to the measurements made under section 8, and into the value of the land, and into the respective interests of the persons claiming the compensation, and shall make an award, under his hand, of—
 - (i) the true area of the land;
 - (ii) the compensation which in his opinion should be allowed for the land; and
 - (iii) the apportionment of the said compensation among all the persons known or believed to be interested in the land, of whom, or of whose claims, he has information, whether or not they have respectively appeared before him; and
 - (iv) the costs which, in his opinion, should be Bill, Scholule, clause allowed,

to any person who is found to be entitled to compensation, and who is not entitled to

^[1] See now the Indian Post Office Act, 1898 (VI of 1898).

or 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part 11 .- Acquisition .- Secs. 12-17.)

receive the additional sum of fifteen per centum mentioned in section 23, subsection (2),

as having been actually and reasonably incurred by such person in preparing his claim and putting his case before the Collector.

The Collector may disallow, wholly or in part, costs incurred by any person if he considers that the claim made by such person for compensation is extravagant.

Award of Collector when to

- 12. (1) Such award shall be filed in the Collector's office, and shall, except as hereinafter provided, be final and conclusive evidence, as between the Collector and the persons interested, whether they have respectively appeared before the Collector or not, of the true area and value of the land and the apportionment of the compensation among the persons interested.
- (2) The Collector shall give immediate notice of his award to such of the persons interested as are not present personally or by their repesentatives when the award is made.

Adjournment 13. The Collector may, for any cause he thinks fit, from of inquiry. time to time adjourn the inquiry to a day to be fixed by him.

Power to summon and enforce attendance of witnesses and production of documents. 14. For the purpose of inquiries under this Act, the Collector shall have power to summon and enforce the attendance of witnesses, including the parties interested or any of them, and to compel the production of documents, by the same means, and (so far as may be) in the same manner, as is provided in the case of a Civil Court under the Code of Civil Procedure.

XIV of 1882,

Matters to be considered and neglected.

15. In determining the amount of compensation, the Collector shall be guided by the provisions contained in sections 23 Bill. Schedule, clause [and 24], 24 and 24A.

Taking possession.

Power to take

16. When the Collector has made an award under section 11, he may take possession of the land, which shall thereupon vest absolutely in the Government, free from all encumbrances.

Special powers in cases of urgency.

- 17. (1) In cases of urgency, whenever the Local Government so directs, the Collector, though no such award has been made, may, on the expiration of fifteen days from the publication of the notice mentioned in section 9, sub-section (1), take possession of any waste or arable land needed for public purposes or for a Company. Such land shall thereupon vest absolutely in the Government, free from all encumbrances.
- (2) Whenever, owing to any sudden change in the channel of any navigable river or other unforeseen emergency, it becomes necessary for any Railway Administration to acquire the immediate possession of any land for the maintenance of their traffic or for the purpose of making thereon a river-side or ghât station, or of providing convenient connection with or access to any such station, the Collector may, immediately after the publication of the notice mentioned in sub-section (1), and with the previous sanction of the Local Government, enter upon and take possession of such land, which shall thereupon vest absolutely in the Government free from all encumbrances:

Provided that the Collector shall not take possession of any building or part of a building under this sub-section without giving to the occupier thereof at least forty-eight hours' notice of his intention so to do, or such longer notice as may be reasonably sufficient to enable such occupier to remove his moveable property from such building without unnecessary inconvenience. The Land Acquisition Act, 1894, with proposed [ACT I modifications embodied in loco.

(Part II. - Acquisition .- Part III. - Reference to [Court] THE TRIBUNAL, and Procedure thereon. - Secs. 17 A.

(3) In every case under either of the preceding sub-sections, the Collector shall at the time of taking possession offer to the persons interested compensation for the standing crops and trees (if any) on such land and for any other damage sustained by them caused by such sudden dispossession and not excepted in section 24 or section 24A; and, in case such offer Bill, Schedule, clause is not accepted, the value of such crops and trees and the 12 (1). amount of such other damage shall be allowed for in awarding compensation for the land under the provisions herein contained.

- (4) SUB-SECTIONS (1) AND (3) SHALL APPLY ALSO IN THE Bill, Schedule, clause 12 (2). CASE OF ANY AREA WHICH IS STATED IN A CERTIFICATE GRANTED BY A Salaried Presidency MAGISTRATE OF a Magistrate of the first class to BE UNHEALTHY.
- (5) Before granting any such certificate the Magistrate shall cause notice to be served as promptly as MAY BE ON THE PERSONS REFERRED TO IN SUB-SECTION (3) OF SECTION 9, AND SHALL HEAR WITHOUT ANY AVOIDABLE DELAY ANY OBJECTIONS WHICH MAY BE URGED BY THEM.
- (6) WHEN PROCEEDINGS HAVE BEEN TAKEN UNDER THIS SECTION FOR THE ACQUISITION OF ANY LAND, AND ANY PERSON SUSTAINS DAMAGE IN CONSEQUENCE OF BEING SUDDENLY DIS-POSSESSED OF SUCH LAND, COMPENSATION SHALL BE PAID TO SUCH PERSON FOR SUCH DISPOSSESSION.

17A. In every case referred to in section 16 or Bill, Schedule, clause section 17, the Collector shall, upon payment of the COST OF ACQUISITION, MAKE OVER CHARGE OF THE LAND TO THE BOARD; AND THE LAND SHALL THEREUPON VEST IN THE BOARD, SUBJECT TO THE LIABILITY OF THE BOARD TO PAY ANY FURTHER COSTS WHICH MAY BE INCURRED ON ACCOUNT OF ITS ACQUISITION.

PART III.

marks and references

REFERENCE TO [Court] THE TRIBUNAL, AND PROCEDURE THEREON.

- 18. (1) Any person interested who has not accepted the award may, by written application to the Collector, require that the matter be referred by the Collector for the determination of the [Court] TRIBUNAL, whether his objection be to the measure-Bill, chause 51 C(a). ment of the land, the amount of the compensation, the persons to whom it is payable, or the apportionment of the compensation among the persons interested, or the amount of the costs Bill, Schedule, clause allowed.
- (2) The application shall state the grounds on which objection to the award is taken:

Provided that every such application shall be made,-

- (a) if the person making it was present or represented before the Collector at the time when he made his award, within six weeks from the date of the Collector's
- (b) in other cases, within six weeks of the receipt of the notice from the Collector under section 12, sub-section (2); or within six months from the date of the Collector's award, whichever period shall first expire.

or 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loce.

(Part III .- Reference to [Court] THE TRIBUNAL, and Procedure therenn .- Secs. 19-23.)

- 19. (1) In making the reference, the Collector shall state, Still, clause of C(a). for the information of the [Court] TRIBUNAL, in writing under his hand,-
 - (a) the situation and extent of the land, with particulars of any trees, buildings or standing crops thereon;
 - (b) the names of the persons whom he has reason to think interested in such land;
 - (c) the amount awarded for damages and paid or tendered under sections 5 and 17, or either of them, and the amount of compensation and of costs (if any) all, Schedule, clause awarded under section 11; and

- (d) if the objection be to the amount of the compensation, the grounds on which the amount of compensation was determined.
- (2) To the said statement shall be attached a schedule giving the particulars of the notices served upon, and of the statements in writing made or delivered by, the parties interested, respectively.

- 20. The [Court] TRIBUNAL shall thereupon cause a notice, Bill, clause 61 C(a).

 specifying the day on which the [Court] TRIBUNAL will proceed to determine the objection, and directing their appearance before the [Court] TRIBUNAL on that day, to be served on the following persons, namely:-
 - (a) the applicant;
 - (b) all persons interested in the objection, except such (if any) of them as have consented without protest to receive payment of the compensation awarded; and,
 - (c) if the objection is in regard to the area of the land or to the amount of the compensation or costs, the Bill, Schedule, Collector.
- 21. The scope of the inquiry in every such proceeding shall be restricted to a consideration of the interests of the persons affected by the objection.
- 22. Every such proceeding shall take place in open Court; and all persons entitled to practise in any Civil Court in the Province shall be entitled to appear, plead and act (as the case may be) in such proceeding.
- (1) In determining the amount of compensation to be awarded for land acquired under this Act, the [Court] TRIBUNAL BIII, clause 610 (a). shall take into consideration
 - first, the market-value of the land at the date of the publication of the declaration relating thereto under section 6;
 - secondly, the damage sustained by the person interested, by reason of the taking of any standing crops or trees which may be on the land at the time of the Collector's taking possession thereof;
 - thirdly, the damage (if any) sustained by the person in-terested, at the time of the Collector's taking pos-session of the land, by reason of severing such land from his other land;
 - fourthly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of the acquisition injuriously affecting his other property, moveable or immoveable, in any other manner, or his earnings;

The Land Acquisition Act, 1894, with proposed [Act I modifications embodied in loco.

(Part III. - Reference to [Court] THE TRIBUNAL, and Procedure thereon .- Sec. 24.)

- fifthly, if, in consequence of the acquisition of the land by the Collector, the person interested is compelled to change his residence or place of business, the reasonable expenses (if any) incidental to such change; and
 - sixthly, the damage (if any) bond fide resulting from diminu-tion of the profits of the land between the time of the publication of the declaration under section 6, and the time of the Collector's taking possession of the land.
- (2) In addition to the market-value of the land, as above provided, the Court shall in every case, except where the land Bill, Schedule, clause acquired is situated in the Calcutta Municipality and within the area comprised in an improvement scheme sanctioned under the Calcutta Improvement Act, 1911, award a sum of fifteen per centum on such market-value, in consideration of the compulsory nature of the acquisition.
- (3) FOR THE PURPOSES OF CLAUSE first OF SUB-SECTION (1) OF Bill, Schedule, clause THIS SECTION,-
 - (a) THE MARKET-VALUE OF THE LAND SHALL BE DEEMED TO BE THE MARKET-VALUE ACCORDING TO THE DISPOSITION OF THE LAND AT THE DATE OF THE PUBLICATION OF THE DECLARATION RELATING THERETO UNDER SECTION
 - (a1) if it be shown that, before such declaration was published, the owner of the land had taken active steps and incurred expenditure to secure a more profitable disposition of the same, further compensation, based on his actual loss, may be paid to him;
 - (b) IF THE MARKET-VALUE HAS BEEN INCREASED BY MEANS OF ANY IMPROVEMENT MADE BY THE OWNER OR HIS PREDECESSOR IN INTEREST WITHIN TWO YEARS BEFORE THE AFORESAID DECLARATION WAS PUBLISHED, SUCH INCREASE SHALL BE DISREGARDED, UNLESS IT BE PROVED THAT THE IMPROVEMENT WAS MADE bond fide AND NOT IN CONTEMPLATION OF PROCEEDINGS FOR THE ACQUISITION OF THE LAND BEING TAKEN UNDER THIS ACT;
- (c) IF THE MARKET-VALUE IS SPECIALLY HIGH IN CONSE-QUENCE OF THE LAND BEING PUT TO A USE WHICH IS UNLAWFUL OR CONTRARY TO PUBLIC POLICY, THAT USE SHALL BE DISREGARDED, AND THE MARKET-VALUE SHALL BE DEEMED TO BE THE MARKET-VALUE OF THE LAND IF PUT TO ORDINARY USES; and
 - (d) IF THE MARKET-VALUE OF ANY BUILDING IS SPECIALLY HIGH IN CONSEQUENCE OF THE BUILDING BEING SO OVERCROWDED AS TO BE DANGERO'S TO THE HEALTH OF THE INMATES, SUCH OVERCROWDING SHALL BE DISREGARDED, AND THE MARKET-VALUE SHALL BE DEEMED TO BE THE MARKET-VALUE OF THE BUILD-ING IF OCCUPIED BY SUCH NUMBER OF PERSONS ONLY AS COULD BE ACCOMMODATED IN IT WITHOUT BISK OF DANGER FROM OVERCROWDING.

24. But the [Court] TRIBUNAL shall not take into considera- Bill, clause 610 a).

first, the degree of urgency which has led to the acquisition;

OF 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part III.—Reference to [Court] THE TRIBUNAL, and Procedure thereon-Sec. 24A.)

secondly, any disinclination of the person interested to part with the land acquired;

thirdly, any damage sustained by him which, if caused by a private person, would not render such person liable to a suit :

fourthly, any damage which is likely to be caused to the land acquired, after the date of the publication of the declaration under section 6, by or in consequence of the use to which it will be put;

fifthly, any increase to the value of the land acquired likely to accrue from the use to which it will be put when acquired:

sixthly, any increase to the value of the other land of the person interested likely to accrue from the use to which the land acquired will be put; or,

[seventhly, any outlay or improvements on, or disposal of, the land acquired, commenced, made or effected without the sanction Bill, Schedule, class of the Collector after the date of the publication of the declaration under section 6;7

seventhly, ANY OUTLAY ON ADDITIONS OR IMPROVEMENTS TO Bill, Schedule, classes LAND ACQUIRED, WHICH WAS INCURRED AFTER THE 15 (2). DATE OF THE FUBLICATION OF THE DECLARATION UNDER SECTION 6, UNLESS SUCH ADDITIONS OR IMPROVEMENTS WERE NECESSARY FOR THE MAINTEN-ANCE OF ANY BUILDING IN A PROPER STATE OF REPAIR.

FURTHER PRO-

24A. IN PETERMINING THE AMOUNT OF COMPENSATION TO Bill, Schedule, cl. use DETERMINING BE AWARDED FOR ANY LAND ACQUIRED FOR THE BOARD UNDER THIS ACT, THE TRIBUNAL SHALL ALSO HAVE REGARD TO THE FOLLOWING PROVISIONS, NAMELY,-

> (I) IF THE OWNER OF ANY LAND ACQUIRED UNDER THIS Act has, after the commencement of the Calcutta Improvement Act, 1911, and within two years receding the date of the publication of the declaration UNDER SECTION 6, FURNISHED ANY RETURN, UNDER SECTION 156 OF THE CALCUTTA MUNICIPAL ACT, 1899, OF THE RENT OR ANNUAL VALUE OF BUCH LAND, THEN THE RENT OR ANNUAL Bed. Act II. of 1899. VALUE OF SUCH LAND SHALL NOT, UNLESS THE TRIBUNAL OTHERWISE DIRECTS, BE DEEMED TO BE GREATER THAN THE AMOUNT SO RETURNED:

PROVIDED THAT, IF ANY ADDITION OR IMPROVEMENT TO SUCH LAND HAS BEEN MADE AFTER THE DATE OF SUCH RETURN AND BEFORE THE DATE OF THE PUBLICATION OF THE DECLARATION UNDER SECTION 6, THE TRIBUNAL MAY TAKE INTO CONSIDERATION ANY INCREASE IN THE LETTING-VALUE OF THE LAND WHICH IS DUE TO SUCH ADDITION OR IMPROVEMENT;

- (2) WHEN ANY INTEREST IN ANY LAND ACQUIRED UNDER THIS ACT HAS BEEN ACQUIRED AFTER THE DATE OF THE PUBLICA-TION OF THE DECLARATION UNDER SECTION 6, NO SEPARATE ESTIMATE OF THE VALUE OF SUCH INTEREST SHALL BE MADE SO AS TO INCREASE THE AMOUNT OF COMPENSATION TO BE PAID FOR SUCH LAND;
- (3) IF, IN THE OPINION OF THE TRIBUNAL, ANY BUILDING IS IN A DEFECTIVE STATE, FROM A SANITARY POINT OF YIEW, OR 18 NOT IN A REASONABLY GOOD STATE OF REPAIR, THE AMOUNT OF COMPENSATION SHALL NOT EXCEED THE SUM WHICH THE TRIBUNAL CONSIDERS THE BUILDING WOULD BE WORTH IF IT WERE PUT INTO A SANITARY CONDITION OR INTO A REASONABLY GOOD STATE OF REPAIR, AS THE CASE MAY BE, minus THE ESTIMATED COST OF PUTTING IT INTO SUCH CONDITION OR STATE;

The Land Acquisition Act, 1894, with proposed [ACT I modifications embodied in loco.

(Part III.-Reference to [Court] THE TRIBUNAL, and Procedure thereon. Part IV. - Apportionment of Compensation. - Secs. 25-30.)

(4) 1F, IN THE OPINION OF THE TRIBUNAL, ANY BUILDING WHICH IS USED OR IS INTENDED OR IS LIKELY TO BE USED FOR HUMAN HABITATION, IS NOT REASONABLY CAPABLE OF BRING MADE FIT FOR HUMAN HABITATION, THE AMOUNT OF COMPEN-SATION SHALL NOT EXCEED THE VALUE OF THE MATERIALS OF THE BUILDING, minus THE COST OF DEMOLISHING THE BUILDING.

Rules as to

- 25. (1) When the applicant has made a claim to compensation, pursuant to any notice given under section 9, the amount awarded to him by the [Court] TRIBUNAL shall not exceed the Bill, clause 61C(a). amount so claimed or be less than the amount awarded by the Collector under section 11.
- (2) When the applicant has refused to make such claim or has omitted without sufficient reason (to be allowed by the [Judge] Bill, clause 61C (a). PRESIDENT OF THE TRIBUNAL) to make such claim, the amount awarded by the [Court] TRIBUNAL shall in no case exceed the amount awarded by the Collector.
- (3) When the applicant has omitted for a sufficient reason (to be allowed by the [Judge] PRESIDENT OF THE TRIBUNAL) to Bill, clause 610 (a). make such claim, the amount awarded to him by the [Court] Bill, clause 610 (a). TRIBUNAL shall not be less than, and may exceed, the amount awarded by the Collector.

26. Every award under this Part shall be in writing signed by the [Judge] President of the Tribunal, and shall specify Bill, clause 61C (a). the amount awarded under clause first of sub-section (1) of section 23, and also the amounts (if any) respectively awarded under each of the other clauses of the same sub-section, together with the grounds of awarding each of the said amounts.

- 27. (1) Every such award shall also state the amount of costs incurred in the proceedings under this Part, and by what persons and in what proportions they are to be paid.
- (2) When the award of the Collector is not upheld, the costs shall ordinarily be paid by the Collector, unless the [Court] Bill, clause 61C (a). TRIBUNAL shall be of opinion that the claim of the applicant was so extravagant or that he was so negligent in putting his case before the Collector that some deduction from his costs should be made or that he should pay a part of the Cellector's costs.

28. If the sum which, in the opinion of the [Court] TRI-BIII clause 620 (a). BUNAL, the Collector ought to have awarded as compensation is in excess of the sum which the Collector did award as compensation, the award of the [Court] TRIBUNAL may direct that the BIII, clause 610 (a). Collector shall pay interest on such excess at the rate of six per centum per annum from the date on which he took possession of the land to the date of payment of such excess into [Court] THE BILL, clause 610 (a). TRIBUNAL.

PART IV.

APPORTIONMENT OF COMPENSATION.

29. Where there are several persons interested, if such persons agree in the apportionment of the compensation, the particulars of such apportionment shall be specified in the award, and as between such persons the award shall be conclusive evidence of the correctness of the apportionment.

Dispute as to apportionment. under section 11, if any dispute arises as to the apportionment of the same or any part thereof, or as to the persons to whom the

OF 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

Part IV .- Apportionment of Compensation .- (Part V .-Payment.—Secs. 31, 32.)

same or any part thereof is payable, the Collector may refer such dispute to the decision of the [Court] TRIBUNAL.

Bill, clause 610 a).

PART V.

ame shall tender payment of the compensation and costs (if any) Bill, so awarded by him to the persons interested entitled thereto according to the award, and shall pay it to them unless prevented by some one or more of the contingencies mentioned in the next sub-section.

(2) If they shall not consent to receive it, or if there be no person competent to alienate the land, or if there be any dispute as to the title to receive the compensation or as to the apportionment of it, the Collector shall deposit the amount of the compensation and costs (if any) [in the Court to which a reference under Bill, Schedule, clause section 18 would be submitted] with the Tribunal:

Bill, clause 610(a).

Provided that any person admitted to be interested may receive such payment under protest as to the sufficiency of the amount:

Provided also that no person who has received the amount otherwise than under protest shall be entitled to make any application under section 18:

Provided also that nothing herein contained shall affect the liability of any person, who may receive the whole or any part of any compensation or costs awarded under this Act, to pay the Bill. 8 same to the person lawfully entitled thereto.

- (3) Notwithstanding anything in this section, the Collector may, with the sanction of the Local Government, instead of awarding a money compensation in respect of any land, make any arrangement with a person having a limited interest in such land, either by the grant of other lands in exchange, the remission of land-revenue on other lands held under the same title, or in such other way as may be equitable, having regard to the interests of the parties concerned.
- (4) Nothing in the last foregoing sub-section shall be con-strued to interfere with or limit the power of the Collector to enter into any arrangement with any person interested in the land and competent to contract in respect thereof.

32. (1) If any money shall be deposited [in Court] with Bill, clause 610(a). THE TRIBUNAL under sub-section (2) of the last preceding section, and it appears that the land in respect whereof the same was awarded belonged to any person who had no power to alienate the same, the [Court] TRIBUNAL shall-

Bill, clause 610(a)

- (a) order the money to be invested in the purchase of other lands to be held under the like title and conditions of ownership as the land in respect of which such money shall have been deposited was held, or
- (b) if such purchase cannot be effected forthwith, then in such Government or other approved securities as the [Court] TRIBUNAL shall think fit;

Bill, clause 610 (a).

and shall direct the payment of the interest or other proceeds arising from such investment to the person or persons who would for the time being have been entitled to the possession of the said land; and such moneys shall remain so deposited and invested until the same be applied-

- (i) in the purchase of such other lands as aforesaid; or
- (ii) in payment to any person or persons becoming absolutely entitled thereto.

The Land Acquisition Act, 1894, with proposed [ACT I modification; embodied in loco.

(Part V.—Payment.—Part VI.—Temporary Occupation of Land.—Secs. 33-36.)

- (2) In all cases of moneys deposited to which this section applies, the [Court] TRIBUNAL shall order the costs of the following Bill, clause \$10(a). matters, including therein all reasonable charges and expenses incident thereto, to be paid by the Collector, namely:—
 - (a) the costs of such investments as aforesaid;
 - (b) the costs of the orders for the payment of the interest or other proceeds of the securities upon which such moneys are for the time being invested, and for the payment [out of Court] BY THE TRIBUNAL of the princi-BIII, elause CIC(a), pal of such moneys, and of all proceedings relating thereto, except such as may be occasioned by litigation between adverse claimants.

Investment of money deposited in other cases.

33. When any money shall have been deposited [in Court] Bill, clause 610(a). WITH THE TRIBUNAL under this Act for any cause other than that mentioned in the last preceding section, the [Court] TRIBUNAL BILL, clause 610(a). may, on the application of any party interested or claiming an interest in such money, order the same to be invested in such Government or other approved securities as it may think proper, and may direct the interest or other proceeds of any such investment to be accumulated and paid in such manner as it may consider will give the parties interested therein the same benefit therefrom as they might have had from the land in respect whereof such money shall have been deposited, or as near thereto as may be.

Payment interest.

34. When the amount of such compensation is not paid or deposited on or before taking possession of the land, the Collector shall pay the amount awarded, with interest thereon at the rate of six per centum per annum from the time of so taking possession until it shall have been so paid or deposited.

PART VI.

TEMPORARY OCCUPATION OF LAND.

remporary secupation of waste or arable

- 35. (1) Subject to the provisions of Part VII of this Act, whenever it appears to the Local Government that the temporary occupation and use of any waste or arable land are needed for any public purpose, or for a Company, the Local Government may direct the Collector to procure the occupation and use of the same for such term as it shall think fit, not exceeding three years from the commencement of such occupation.
- (2) The Collector shall thereupon give notice in writing to the persons interested in such land of the purpose for which the same is needed, and shall, for the occupation and use thereof for such term as aforesaid, and for the materials (if any) to be taken therefrom, pay to them such compensation, either in a gross sum of money, or by monthly or other periodical payments, as shall be agreed upon in writing between him and such persons respectively.

Precedure
when
difference as to
compensation
orists.

(3) In case the Collector and the persons interested differ as to the sufficiency of the compensation or apportionment thereof, the Collector shall refer such difference to the decision of the Bill, element [Court] TRIBUNAL.

Power to enter and take possession, and sompensation

- 36. (1) On payment of such compensation, or on executing such agreement or on making a reference under section 35,
- the Collector may enter upon and take possession of the land, and use or permit the use thereof in accordance with the terms of the said notice.

OF 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

VI.—Temporary Occupation of Land .- Part (Part of Land for VII. - Acquisition Companies .-Secs. 37-41.)

(2) On the expiration of the term, the Collector shall make or tender to the persons interested compensation for the damage (if any) done to the land and not provided for by the agreement, and shall restore the land to the persons interested therein:

Provided that, if the land has become permanently unfit to be

used for the purpose for which it was used immediately before the commencement of such term, and if the persons interested shall so require, the Local Government shall proceed under this Act to acquire the land as if it was needed permanently for a public purpose or for a Company.

In case the Collector and persons interested differ as to the condition of the land at the expiration of the term, or as to any matter connected with the said agreement, the Collector shall refer such difference to the decision of the [Court] TRIBUNAL. BIII, clause 610 (a).

PART VII.

ACQUISITION OF LAND FOR COMPANIES,

38. (1) Subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, the Local Government may authorise any officer of any company desiring to acquire land for its purposes to exercise the powers conferred by section 4.

(2) In every such case section 4 shall be construed as if for the words "for such purpose" the words "for the purposes of the Company" were substituted; and section 5 shall be construed as if after the words "the officer" the words "of the Company" were inserted.

39. The provisions of sections 6 to 37 (both inclusive) shall not be put in force in order to acquire land for any Company unless with the previous consent of the Local Government, nor unless the Company shall have executed the agreement hereinafter mentioned.

- 40. (1) Such consent shall not be given unless the Local Government be satisfied, by an inquiry held as hereinafter provided,-
 - (a) that such acquisition is needed for the construction of some work, and
 - (b) that such work [1] is likely to prove useful to the public.

(2) Such inquiry shall be held by such officer and at such time and place as the Local Government shall appoint.

(3) Such officer may summon and enforce the attendance of witnesses and compel the production of documents by the same means and, as far as possible, in the same manner as is provided by the Code of Civil Procedure in the case of a Civil Court.

41. Such officer shall report to the Local Government the result of the inquiry, and, if the Local Government is satisfied that the proposed acquisition is needed for the construction of a work, and that such work is likely to prove useful to the public, it shell, subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, require the Company to enter into an agreement with the Secretary of State for India in Council, providing to the satisfaction of the Local Government for the following matters,

(1) the payment to Government of the cost of the acquisition;

[1] Section 57 (1) of the Indian Electricity Act, 1910 (IX of 1919), declares at follows: sub-section (1), clause (b), and section 41, sub-section (6) Acquisition Act, 1894, the term "work" shall be deemed electrical energy supplied, or to be supplied, by means of

The Land Acquisition Act, 1894, with proposed [ACT I modifications embodied in loco.

(Part VII. - Acquisition of Land for Companies .-Part VIII. - Miscellaneous. - Secs. 42-45.)

- (2) the transfer, on such payment, of the land to the Company;
- (3) the terms on which the land shall be held by the Company;
- (4) the time within which, and the conditions on which, the work shall be executed and maintained; and
- (5) the terms on which the public shall be entitled to use the work [1].

Publication of

42. Every such agreement shall, as soon as may be after its execution, be published in the Gazette of India, and also in the local official Gazette, and shall thereupon (so far as regards the terms on which the public shall be entitled to use the work) have the same effect as if it had formed part of this Act.

43. The provisions of sections 39 to 42, both inclusive, shall not apply, and the corresponding sections of the Land Acquisition Act, 1870. [2] shall be deemed never to have applied, to the acquisition of land for any Railway or other Company, for the X of 1870. purposes of which, under any agreement between such Company and the Secretary of State for India in Council, the Government is, or was, bound to provide land.

In the case of the acquisition of land for the purposes of a Railway Company, the existence of such an agreement as is mentioned in section 43 may be proved by the production of a printed copy thereof purporting to be printed by order of Government.

PART VIIL

(7). W. within a period of two years from the ex-

MISCELLANEOUS.

and Harta brist 45. (I) Service of any notice under this Act shall be made by delivering or tendering a copy thereof signed, in the case of a notice under section 4, by the officer therein mentioned, and, in the case of any other notice, by or by order of the Collector or the [Judge] President of the Tribunal. Bill, clause 610 (2).

the publication of

- (2) Whenever it may be practicable, the service of the notice shall be made on the person therein named.
- (3) When such person cannot be found, the service may be made on any adult male member of his family residing with him; and, if no such adult male member can be found, the notice may be served by fixing the copy on the outer door of the house in which the person therein named ordinarily dwells or carries on business, or by fixing a copy thereof in some conspicuous place in the office of the officer aforesaid or of the Collector or in the court-house, and also in some conspicuous part of the land to be acquired:

Provided that, if the Collector or [Judge] PRESIDENT OF THE BILL clause 610 (a).
TRIBUNAL shall so direct, a notice may be sent by post, in a letter
addressed to the person named therein at his last known residence, address or place of business and registered under Part III of the Indian Post Office Act, 1866, [3] and service of it may be XIV of 1866, proved by the production of the addressee's receipt.

^[2] Section 57 (1) of the Indian Electricity Act, 1910 (IX of 1910), declares as

[[]F] Act X of 1870 was repealed by this Act.

OF 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part VIII .-- Miscellaneous .- Secs. 46-49.)

Whoever wilfully obstructs any person in doing any of the acts authorized by section 4 or section 8, or wilfully fills up, destroys, damages or displaces any trench or mark made under section 4, shall, on conviction before a Magistrate, be liable to. imprisonment for any term not exceeding one month, or to fine not exceeding fifty rupees, or to both.

47. If the Collector is opposed or impeded in taking possession under this Act of any land, he shall, if a Magistrate, enforce the surrender of the land to himself, and, if not a Magistrate, he shall apply to a Magistrate or (within the town of Calcutta, Madras and Bombay) to the Commissioner of Police, and such Magistrate or Commissioner (as the case may be) shall enforce the surrender of the land to the Collector.

- (1) Except in the case provided for in section 36, the ry. Government shall be at liberty to withdraw from the acquisibe tion of any land of which possession has not been taken.
 - Whenever the Government withdraws from any such acquisition, the Collector shall determine the amount of compensa-tion due for the damage suffered by the owner in consequence of the notice or of any proceedings thereunder, and shall pay such amount to the person interested, together with all costs reasonably incurred by him in the prosecution of the proceedings under this Act relating to the said land.
 - (8) The provisions of Part III of this Act shall apply, so far as may be, to the determination of the compensation payable under this section.

- 48A. (1) If, within a period of two years from the date Bin, So of the publication of the declaration under section 6, in respect of any land, the Collector has not made an award under section 11 with respect to such land, the owner of the land shall be entitled to receive compensation for the damage suffered by him in consequence of the delay.
- (2) The provisions of Part III of this Act shall apply, so ar as may be, to the determination of the compensation payable under this section.

48B. No compensation shall be payable in pursuance bill, set of section 48 or section 48A when proceedings for the acquisition of land have been abandoned on the execution of an agreement, or the acceptance of a payment, in pursuance of sub-section (4) of section 67A of the Calcutta Improvement Act, 1911.

49. (1) The provisions of this Act shall not be put in force for the purpose of acquiring a part only of any house, manufactory or other building, if the owner desire that the whole of such house, manufactory or building shall be so acquired:

Provided that the owner may, at any time before the Collector has made his award under section 11, by notice in writing, withdraw or modify his expressed desire that the whole of such house, manufactory or building shall be so acquired:

Provided also that, if any question shall arise as to whether any land proposed to be taken under this Act does or does not form part of a house, manufactory or building within the meaning of this section, the Collector shall refer the determination of such Bill, clause et C (a) question to the [Court] TRIBUNAL, and shall not take possession of such land until after the question has been determined.

In deciding on such a reference the [Court] TRIBUNAL shall Bill, clause at 6 to have regard to the question whether the land proposed to be taken is reasonably required for the full and unimpaired use of the house, manufactory or building.

The Land Acquisition Act, 1894, with [Act I 1894.]

proposed modifications embodied in loco.

(Part VIII .- Miscellaneous .- Secs. 50-55.)

- (1a) For the purpose of sub-section (1), land which is $^{\rm Bill}$, $^{\rm Schedule}$, $^{\rm clause}$ held with and attached to a house and is reasonably required for the enjoyment and use of the house shall be deemed to be part of the house.
- (2) If, in the case of any claim under section 23, sub-section (1), thirdly, by a person interested, on account of the severing of the land to be acquired from his other land, the Local Government is of opinion that the claim is unreasonable or excessive, it may, at any time before the Collector has made his award, order the acquisition of the whole of the land of which the land first sought to be acquired forms a part.
- (3) In the case last hereinbefore provided for, no fresh declaration or other proceedings under sections 6 to 10, both inclusive, shall be necessary; but the Collector shall without delay furnish a copy of the order of the Local Government to the person interested, and shall thereafter proceed to make his award under section 11.

Acquisition of land at cost of a local authority or Company.

- 50. (1) Where the provisions of this Act are put in force for the purpose of acquiring land at the cost of any fund controlled or managed by a local authority or of any Company, the charges of and incidental to such acquisition shall be defrayed from or by such fund or Company.
- (2) In any proceeding held before a Collector or [Court] THE Bill, clause 61 O (a). TRIBUNAL in such cases, the local authority or Company concerned may appear and adduce evidence for the purpose of determining the amount of compensation:

Provided that no such local authority or Company shall be entitled to demand a reference under section 18.

Exemption from stampduty and fee 51. No award or agreement made under this Act shall be chargeable with stamp-duty, and no person claiming under any such award or agreement shall be liable to pay any fee for a copy of the same.

Notice in case of suits for anything done in pursuance of Act. 52. No suit or other proceeding shall be commenced or prosecuted against any person for anything done in pursuance of this Act, without giving to such person a month's previous notice in writing of the intended proceeding, and of the cause thereof, nor after tender of sufficient amends.

Code of Civil Procedure to apply to proceedings before Court. 53. Save in so far as they may be inconsistent with anything contained in this Act, the provisions of the Code of Civil Procedure Activ of 1908. shall apply to all proceedings before the [Court] TRIBUNAL under Bill, clause 61 C (4) this Act.

Appeals in proceedings before Court 54. Subject to the provisions of the Code of Civil Procedure Act V of 1908 applicable to appeals from original decrees, an appeal shall lie to the High Court from the award or any part of the award of the Court in any proceedings under this Act.

Pewer to make

- 55. (1) The Local Government shall have power to make rules, consistent with this Act, for the guidance of officers in all matters connected with its enforcement, and may from time to time alter and add to the rules so made.
- (2) The power to make, alter and add to rules under subsection (1) shall be subject to the condition of the rules being made, altered or added to after previous publication.
- (3) All such rules, alterations and additions shall, when sanctioned by the Governor General in Council, be published in the official Gazette, and shall thereupon have the force of law.

CALCUTTA; F. G. WIGLEY,
The 6th March, 1911 Secy. to the Bengal Legislative Council.

The Calcutta Gazette.

WEDNESDAY, MARCH 15, 1911.

PART IV

Bills introduced in the Bengal Tegislative Council, Reports of Select Committees presented to that Council, and Bills published under Bule 34.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following further report of the Select Committee on the Calcutta Improvement Bill, 1911, together with the Bill as further amended by the Committee and a reprint of the Land Acquisition Act, 1894 (I of 1894), with proposed modifications embodied in loco, is, by order of the President, published for general information:—

THE CALCUTTA IMPROVEMENT BILL, 1911.

FURTHER REPORT OF THE SELECT COMMITTEE.

WE, the undersigned, members of the Select Committee to which the Bill to provide for the improvement and expansion of Calcutta was referred, have the honour to submit this further report, supplementary to the report submitted

to the Conneil on the 4th March, 1911.

2. The Government of Bengal has consented to a modification in the method by which an income is to be derived from the taxation of jute. In the Bill as introduced in Council it was proposed to impose an excise duty on all raw jute consumed in any mill in Bengal and an export duty on all raw jute exported by sea from the port of Calcutta to any port outside British India or to Aden. It has been found that the collection of this excise duty would be unpopular and, in some respects, troublesome. The Committee are informed that by the substitution of an export duty on all jute, both raw and manufactured, exported by sea from the port of Calcutta, in place of the taxation originally proposed, the resulting loss of revenue would be not more than 5 per ceut. of the yield originally estimated. In the opinion of the Committee this small loss is more than compensated by the convenience resulting from the collection

of an indirect instead of a direct tax, and they have accordingly modified Parts III and IV of Chapter V of the Bill as introduced in Council.

Clause 73.

3. Clause 73, as now modified, imposes a customs duty on all jute, raw and manufactured, exported by sea from the port of Calcutta, whatever be its destination.

Clause 73A.

4. Clause 73A has been inserted to bar the operation of section 5 of the Indian Tariff Act, 1894, which would otherwise render it imperative to levy the duty on jute passing into foreign territory, such as Chandernagore.

Clauses 74 to 91.

5. Clauses 74 to 86, which dealt with the excise on jute, have been omitted, and there have been consequential omissions in clauses 87 and 88. Clauses 89 to 91 have also been omitted.

Clause 120.

6. In clause 150 any special reference to offences against Chapter V is no longer necessary, and the clause now renders all offences under the Act and rules triable by a Presidency Magistrate.

Clause 152.

7. Clause 152 has been modified so as to restrict its application to offences punishable only with fine.

Clause 166.

8. In clause 166 the reference to clause 77 has been necessarily omitted,

in consequence of the excision of that clause.

9. While preparing this supplementary report, the Committee have taken the opportunity of submitting the Bill to a further careful examination, and they have in consequence adopted some further amendments, mainly verbal, of an unimportant character. Some of these are mentioned below.

Clause 1 (2).

10. In clause 1 (2) it is proposed to leave unfettered the discretion of the Government in fixing the date from which the Act shall come into force.

Clause 107.

11. In clause 107 the words "or part" after "such loan" have been omitted, as being superfluous.

Clause 110.

12. In clause 110 (b) a necessary reference to clause 105A has been introduced.

Clauses 27, 64, 98, 145 and 190 C.

- 13. Purely verbal amendments have been made in clauses 27, 64, 98, 145 and 190C.
- 14. The Bill, as further amended by us, is annexed hereto. We recommend that the Bill, as now amended, be passed into law.

THE CALCUTTA IMPROVEMENT BILL, 1911

(AS FURTHER AMENDED BY THE SELECT COMMITTEE).

[Notes-1. Explanation of notes in square brackets in margin :-

- 3" means the City of Bombay Improvement Act, 1898 (Bom. Act IV of 1898), i.e., the edition of the Act, as modified up to the 1st October, 1903, published by the Government of Bombay. The words "proposed amendment," "proposed section" and "proposed clause", in these notes, mean amendments and new sections or clauses proposed in a Bill of the year 1906.
- " 1899 " means the Calcutta Municipal Act, 1899 (Ben. Act III of 1899).
- "C.B.C." means the Report of the Calcutta Building Commission, dated the 23rd December, 1897.
- "Analysis" means the analysis, appended to Government of India's letter No. 93, dated the 18th July, 1905, of the proposals for legislation.
- "26th September, 1907" means the Government of India's Despatch No. 380 of that date.
- "14th February, 1908" means the Secretary of State's Despatch No. 14 of that date.
- "2nd May, 1908" means the Government of India's letter No. 88 of that date.
- 2. Amendments made by the Select Committee are, as far as possible, printed in antique type.
- 3. Some of the amendments made by the Select Committee necessitate a re-numbering of clauses and sub-clauses. The old numbers have been retained for the present, for convenience of reference, and the necessary alterations will be made, under a motion in Council, when the Bill is brought forward for passing.]

A Bill to provide for the Improvement and Expansion of Calcutta.

[1898, title.]

Whereas it is expedient to make provision for the improvement and expansion of Calcutta by opening up congested areas, laying out or altering streets, providing open spaces for purposes of ventilation or recreation, demolishing or constructing buildings, acquiring land for the said purposes and for the re-housing of persons displaced by the execution of improvement schemes, and otherwise as hereinafter appearing;

And whereas it is expedient that a Board of Trustees should be constituted and invested with special powers for carrying out the objects of this Act;

And whereas the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the provisions of this Act which affect Acts passed by the Governor General of India in Council;

And whereas the sanction of the Governor General has also been obtained, under section 43 of the Indian Councils Act, 1861, to the enactment of the provisions of Chapter V of this Act, relating to taxation;

55 & 56 Vict., c. 14.

It is hereby enacted as follows :-

CHAPTER I .- PRELIMINARY.

(1) This Act may be called the Calcutta Improvement Act, [1888, s. 1 (!) with proposed amendments; 1899, s. 1 (!). title, nent 1911.

(Chapter I .- Preliminary .- Chapter II .- The Board of Trustees .-Constitution of the Board .- Clauses 2-4.)

- (2) It shall come into force on such day as the Local Gov- [Ben, Act III of ernment may, by notification, direct.
- (3) Except as otherwise hereinafter provided, this Act shall extend only to the Calcutta Municipality; but any provision which extends only to the Calcutta Municipality may be extended by the Local Government, entirely or in part, by notification, under the procedure prescribed by section 146, to any specified area in the neighbourhood of that Municipality. in the neighbourhood of that Municipality.

Definitions

In this Act, unless there is anything repugnant in the subject or context,-

(a) "the Board" means the Board of Trustees for the Improvement of Calcutta, constituted under this Act;
(b) "the Calcutta Municipality" means "Calcutta" as defined

in clause (7) of section 3 of the Calcutta Municipal Act, 1899;

(v) "the Corporation" means the Corporation of Calcutta constituted under the said Calcutta Municipal Act,

(d) "the General Committee" means the General Committee constituted under the said Calcutta Municipal Act,

(d1) "improvement scheme" means a general improve-

ment scheme or a street scheme, or both;

(e) "land" has the same meaning as in clause (a) of section 3 of the Land Acquisition Act, 1894;

(f) "municipal assessment-book" means the assessment-book kept under section 164 of the Calcutta Municipal Act, 1899, or the valuation and rating list pre-pared under section 103 of the Bengal Municipal

Act, 1884;
(g) "notification" means a notification published in the

Calcutta Gazette;

(h) "President" means the President of the Board;

(h1) "Secretary to the Board" means the person for the time being appointed by the Board to discharge the functions of Secretary to the

Board; (i) the "Tribunal" means the Tribunal constituted under

section 62;

(i) "Trustee" means a Member of the Board; and

(k) the expressions "building line," "drain," "public street" and "street alignment" have the same meaning as in clauses (3), (16), (37) and (47), respectively, of section 3 of the Calcutta Municipal Act, 1899.

CHAPTER II .- THE BOARD OF TRUSTEES.

Constitution of the Board.

3. The duty of carrying out the provisions of this Act shall, subject to the conditions and limitations hereinafter contained, be vested in a Board, to be called "The Trustees for the Improvement of Calcutta"; and such Board shall be a body corporate and have perpetual succession and a common seal, and may by the said name sue and be sued.

Constitution of the Board

- 4. The Board shall consist of eleven Trustees, namely,-
- (a) a President,
- (b) the Chairman of the Corporation,
- (a) three other members of the Corporation, (d) a member of the Bengal Chamber of Commerce,
- (d1) a member of the Bengal National Chamber of Commerce, and
- (e) four other persons.

14th February, 1908,

(Chapter II.—The Board of Trustees.—Constitution of the Board.—Clauses 5—9.)

- Appointment 5. The President and the four persons referred to in clause (e) [Analysis, para, 2] of Section 4 shall be appointed by the Local Government by para, 6.]
- Evafficio.

 6. The Chairman of the Corporation shall be a Trustee [Analysis, para, 8, 26th September, 1967, para, 6.]
- Election of 7. (1) The three members of the Corporation referred to in paras, 5, 6; and May, 1908, paras, 5, 6; and May, 1908, paras, 2.
 - (a1) one by the Corporation,
 - (a) one by the Ward Commissioners, and
 - (b) one by the Commissioners appointed under sub-section (2) of section 8 of the Calcutta Municipal Act, 1899.

Ben. Act III of 1898,

- (2) The member of the Bengal Chamber of Commerce referred to in clause (d) of section 4 shall be elected by that Chamber.
- (2a) The member of the Bengal National Chamber of Commerce referred to in clause (d1) of section 4 shall be elected by that Chamber.
- (3) The Secretary to the Corporation, the Secretary to the Bengal Chamber of Commerce and the Secretary to the Bengal National Chamber of Commerce shall respectively make a return in duplicate to the President, setting forth the name in full of every person elected under this section; and the said return shall be published by notification under the signature of the President.

[1898, s. 27; 1899, s. 58(2).]

Appointment 8. If any of the bodies of electors referred to in section 7 in default of does not, by such date as may be prescribed by rule made in that behalf under section 136, elect a person to be a Trustee, the Local Government shall, by notification, appoint a person belonging to such body to be a Trustee; and any person so appointed shall be deemed to be a Trustee as if he had been duly elected by such

[1899, s. 59; 1898, s. 8,]

Disqualifications for being elecappointed or elected a Trus-

alifica. 9. (1) A person shall be disqualified for being appointed or 1888, 85, 14,15 (2);
being elected a Trustee if he—

- (a) has been sentenced by any Court for any non-bailable offence, such sentence not having been subsequently reversed or quashed, and such person's disqualification on account of such sentence not having been removed by an order which the Local Government is hereby empowered to make, if, it thinks fit, in this behalf; or
- (b) is an undischarged insolvent; or
- (c) holds any office or place of profit under the Board; or
- (d) has, directly or indirectly, by himself or by any partner, employer or employe, any share or interest in any contract or employment with, by, or on behalf of, the Board, or
- (e) is a director, or a secretary, manager or other salaried officer, of any incorporated company which contracts with, or is employed by, the President on behalf of the Board.
- (2) But a person shall not be disqualified as aforesaid, or be deemed to have any share or interest in such a contract or employment as aforesaid, by reason only of his having a share or interest in—
 - (i) any sale, purchase, lease or exchange of land, or any agreement for the same; or

(Chapter II.—The Board of Trustees.—Constitution of the Board.—Clauses 10-15.)

- (ii) any agreement for the loan of money, or any security for the payment of money only; or
- (iii) any newspaper in which any advertisement relating to the affairs of the Board is inserted; or
- (iv) (Reproduced at the end of this clause.)
- (v) the occasional sale to the Board, to a value not exceeding two thousand rupees in any one financial year, of any article in which he trades;

or by reason only of his having a share or interest, otherwise than as director, or secretary, manager or other salaried officer, in any incorporated company which contracts with, or is employed by, the President on behalf of the Board.

Proviso (Reproduced in clause 21A).

The President 10. While any person is holding the office of President he [1898, s. 16 (1) to be a whole-shall not hold any other salaried office, and, subject to any state office. exceptions permitted by the Local Government, shall devote his whole time and attention to his duties under this Act.

Remuneration of President.

11. (1) The President shall receive such monthly salary, [1898, s. 16, with not exceeding three thousand rupees, as may be fixed by the 1899, s. 12.]

Local Government:

Provided that, if the President, after having held his office for three years, is re-appointed for a further term of not less than than two years, the Local Government may direct that his monthly salary be increased to any sum not exceeding three thousand five hundred rupees.

- (2) The word "salary," as used in this section, excludes allowances to which the President may be entitled and any contribution payable on his account under any general or special orders of the Government for regulating the transfer of Government servants to foreign service.
- (3) The Local Government may, if it thinks fit, direct the payment to the President of a house-rent and conveyance allowance, not exceeding five hundred rupees per mensem, in addition to his salary.
 - 12. (Reproduced in clause 16 A.)
 - 13. (Reproduced in clause 15B.)

Leave of 14. (1) The Local Government may, after consultation [1898, s. 22, with proputation of the with the Board, grant leave of absence to the President, or posed amendment, regident, depute him to other duties, for such period as it thinks fit.

(2) The allowance (if any) to be paid to the President while absent on leave or deputation shall be such amount, not exceeding his salary, as may be fixed by the Local Government:

Provided that, if the President is a Government officer, the amount of such allowance shall be such as he may be entitled to under any general or special orders of the Government for regulating the transfer of Government servants to foreign service.

(3) (Reproduced in clause 144A.)

Appointment, etc., of Acting President.

15. (1) Whenever the President is granted leave of absence or deputed to other duties, the Local Government may appoint a person to act as President.

(2) The salary and house-rent and conveyance allowance (if any) of any person appointed to act as President shall be fixed by the Local Government, subject to the provisions of section 11.

[1898, s. 22 (8) ; 1899, s. 35.]

(Chapter II.—The Board of Trustees.—Constitution of the Board.— Clauses 15A-16A.)

(3) Any person appointed to act as President shall exercise the powers and perform the duties conferred and imposed by and under this Act on the President, and shall, so far as may be, be subject to the same liabilities, restrictions and conditions as the President.

Leave of 15A. The Board may permit any Trustee, other than the [Cf. clause 13 (c) and sbeence other trus President or the Chairman of the Corporation, to absent duced in Council.]

himself from meetings of the Board for any period not exceeding six months.

Removal of 15B. (1) The Local Government may, by notification, introduced in Council.

Trustees. declare that any Trustee shall cease to be a Trustee—

[1898, s. 15, with proposed amendment,]

(a) if he has acted in contravention of section 21A, or

Ben. Act

Ben. Act III of 1884, s. 20;

- (b) if he has been absent from, or is unable to attend, the Ben. Act III of 1884, meetings of the Board for any period exceeding six s. 18.]
- (?) if he has, without the permission of the Board, been absent from the meetings of the Board for any period exceeding three consecutive months, or
- (d) if he is a salaried servant of the Government, and if his continuance in office as a Trustee is, in the opinion of the Local Government, undesirable.
- , (2) The Local Government shall, by notification, declare that a Trustee shall cease to be a Trustee—
 - (i) if he has become disqualified for appointment or election as a Trustee for any of the reasons mentioned in section 9; or
 - (ii) if he was elected or appointed as being a member of the Corporation, the Bengal Chamber of Commerce or the Bengal National Chamber of Commerce, and if he is, at the date of such notification, no longer a member of the Corporation or such Chamber, as the case may be.
- (3) If at any time it appears to the Local Government that the President has shown himself to be unsuitable for his office, or has been guilty of any misconduct or neglect which renders his removal expedient, it may, by notification, declare that the President shall cease to hold office as such.

rilling of 16. (1) If any Trustee be permitted by the Board to [1898, 0, 12 (1),] casual vacan absent himself from meetings of the Board for any period exceeding three months,

or if any Trustee, other than the Chairman of the Corporation, dies, or resigns the office of Trustee, or ceases to hold the office of Trustee in pursuance of a notification published under section 15B.

[1898, s. 13.]

the vacancy shall be filled, within one month, by a fresh appointment or election under section 5, section 7 or section 8, as the case may be.

(2), (3), (4). (Omitted).

rerm of office of the first Trustees appointed or Clause 12 of Bill releases.

16A. (1) The term of office of the first Trustees appointed or Council (1818, 83, 10, 12 (7)).

President, shall commence on such day, not being less than (9), (8). 3

thirty days from the commencement of this Act, as may be appointed by the Local Government.

(Chapter II .- The Board of Trustees .- Conduct of Business .-· Clauses 17-18.)

(2) Subject to the provisions of section 153, the term of office of Trustees (other than the Chairman of the Corporation) shall be as follows:—

(a) the President—such period, not less than three years, as may be fixed by the Local Government;

(b) a Trustee appointed or elected in pursuance of section 16 in the place of a Trustee who has been permitted to absent himself from meetings of the Board-the period of the absence of the latter Trustee;

(c) other Trustees-three years.

(3) Any Trustee shall, if not disqualified for any of the reasons [1800, s. 60 (3).] mentioned in section 9, be eligible for re-appointment or re-election at the end of his term of office.

Conduct of Business.

17. The Board shall meet, and shall from time to time [1898, s. 18 (2),] make such arrangements with respect to the place, day, hour, notice, management and adjournment of their meetings, as they may think fit, subject to the following previsions, namely:— Meetings of

(a) an ordinary meeting shall be held once at least in every [1899, s. 77 (n.] month;

(b) the President may, whenever he thinks fit, and shall, [1899, *. 77 (*).

upon the written request of not less than two
other Trustees, call a special meeting;

(c) the President shall attend every meeting of the Board [1898, s. 21 (1)]
unless absent on leave or prevented by sickness or

other reasonable cause;

(d) no business shall be transacted at any meeting unless at [1899, a. 824] least half of the existing number of the Trustees are present from the beginning to the end of the meeting;

(e) the person to preside at a meeting shall be the President, [1889, a. St.] or, in his absence from any meeting, one of the

Trustees present who is chosen by the others who are present; (f) all questions shall be decided by a majority of votes of [1890, ss. 79, 81.]

the Trustees present, the person presiding having a second or easting vote in all cases of equality of votes;
(g) if a pell be demanded, the names of the Trustees voting,

and the nature of their votes, shall be recorded by the person presiding;
(h) minutes of the names of the Trustees present, and of the [1890, s. 97.]

proceedings, at each meeting shall be kept in a book to be provided for the purpose, which shall be signed at the next ensuing meeting by the person presiding at such meeting and shall be open to inspection by any Trustee during office hours.

The porary 17A. (1) The Board may add to their number, in such [Clause 20 of Bill addition of manner and for such period as may be prescribed by rules made Council.]

Bend for par under section 137, any persons whose assistance or advice they [2sth September, 1897, may desire in carrying out any of the provisions of this Act. Act VIII of 1994, (2) A person added to the Board under sub-section (1)

for any purpose shall have a right to take part in the discussions of the Board relative to that purpose, but shall not have a right to vote at a meeting of the Board and

not have a right to vote at a meeting of the Board and shall not be a member of the Board for any other purpose.

mattention 18. (1) The Board may from time to time appoint Commit- [1898, s. 13 (5); functions tees, consisting of such persons of any of the following classes as they may think fit, namely:—

(i) Trustees,
(ii) persons added to the Board under section 17A,
(iii) other persons whose assistance or advice the Board may desire as members of Committees:

(Chapter II .- The Board of Trustees .- Conduct of Business -Clauses 19-21A.)

Provided that no Committee shall consist of less than three persons.

(2) The Board may-

- (a) refer to such Committees, for inquiry and report, any matter relating to any of the purposes of this Act, and
- (b) delegate to such Committees, by specific resolution, and subject to any rules made under section 137, any of the powers or duties of the Board.
- (3) The Board may at any time dissolve, or, subject to the provisions of sub-section (1), alter the constitution of, any such Committee.

(4) Every such Committee shall conform to any instructions from time to time given to them by the Board.

(5) All proceedings of any such Committee shall be subject to confirmation by the Board.

Proviso (Omitted).

- 19. (1) Committees appointed under section 18 may meet and [1898, s. 18 (4), 18), adjourn as they think proper; but the President may, whenever (6), d he thinks fit, call a special meeting of any Committee, and shall call a special meeting of any Committee upon the written request of not less than two members thereof.
- (2) The person to preside at a meeting of a Committee shall be the President, if he is a member of the Committee, or, if he is not a member, then one of the members present who is chosen by the others who are present.
- (3) No business shall be transacted at any meeting of a Committee unless at least half the number of the members of the Committee are present from the beginning to the end of the meeting.
- (4) All questions at any meeting of a Committee shall be decided by a majority of votes of the members present, the person presiding having a second or casting vote in all cases of equality of votes.

20. (Reproduced in clause 17 A.)

- 21. Every Trustee (other than the President and the Chair- 1809, s. 100.41 228, man of the Corporation), and every person added to the Board 17, provised, under section 17A, shall be entitled to receive a fee of twenty rupees, and every member of a Committee shall be entitled to receive a fee of ten rupees, for each meeting of the Board or the Committee-
 - (i) at which a quorum is present and business is transacted, and
 - (ii) which he attends from the beginning to the end thereof or for such period as the person presiding at the meeting may consider sufficient to justify the payment of the fee:

Provided that the aggregate amount of fees payable to any person in respect of meetings of any kind held during any month shall not exceed such sum as may be prescribed by any rule made under section 136 in this behalf.

21A. (1) A Trustee who-

(a) has, directly or indirectly, by himself or by any partner, employer or employé, a share or interest in any matter or thing described in sub-section (2) of section 9, or

(b) has acted professionally, in relation to any such matter or thing, on behalf of any person having such a

share or interest, shall not vote or take any other part in any proceeding of the Board or any Committee relating to such matter or thing.

(2) of Bill as inter-

(Chapter II .- The Board of Trustees .- Conduct of Business -Clauses 22-24.)

- (2) If any Trustee, or any person added to the Board [53 & 54 under section 17A, or any other member of a Committee c. 70, s. 88 (2.] appointed under this Act, has, directly or indirectly, any beneficial interest in any land situated in an area comprised in any improvement scheme framed under this Act, or in an area in which it is proposed to acquire land for any of the numbers of this Act. any of the purposes of this Act,-
 - (i) he shall, before taking part in any proceeding at a meeting of the Board or any Committee relating to such area, inform the person presiding

at the meeting of the nature of such interest,

(ii) he shall not vote at any meeting of the Board or
any Committee upon any resolution or question relating to such land, and

(iii) he shall not take any other part in any proceeding at a meeting of the Board or any Committee relating to such area if the person presiding at the meeting considers it inexpedient that he should do so.

as they may consider necessary or expedient for carrying out (2).1 any of the purposes of this Act. 22. The Board may enter into and perform all such contracts

23. (1) Every such contract shall be made on behalf of [1899, s. 86 (7); 1898, s. 19 (1), (5),]

Provided that-

(a) [Reproduced in sub-clause (1).](b) (Omitted).

- (c) a contract involving an expenditure exceeding one thousand rupees and not exceeding one lakh of rupees shall not be made by the President without the previous sanction of the Board; and
- (d) a contract involving an expenditure exceeding one lakh of rupees shall not be made by the President without the previous sanction of the Board and the Local Government.
- (1a) Every estimate for the expenditure of any sum for carrying out any of the purposes of this Act shall be subject to the approval of the authority who is empowered by sub-section (1) to make or sanction the making of a contract involving the expenditure of a like sum.
- (2) Sub-sections (1) and (1a) shall apply to every variation or abandonment of a contract or estimate, as well as to an original contract or estimate.

pro. 24. (1) Every contract made by the President on behalf of the Board shall be entered into in such manner and form as and would bind the President if such contract were made on his own of behalf, except that the common seal of the Board shall be used (where necessary); and every such contract may in the like manner and form be varied or discharged.

- (2) Every contract for the execution of any work or the supply of any materials or goods which will involve an expenditure exceeding one thousand rupees shall be in writing, and shall be sealed.
- (3) The common seal of the Board shall remain in the custody of the Secretary to the Board and shall not be affixed to any contract or other instrument except in the presence of a Trustee (other than the President), who shall attach his signature to the contract or instrument in token that the same was sealed in his presence.

(4) The signature of the said Trustee shall be distinct from the signature of any witness to the execution of such contract or

instrument.

(5) A contract not executed as provided in this section shall not be binding on the Board.

(Chapter II .- The Board of Trustees .- Conduct of Business Officers and servants .- Clauses 24A-27.)

24A. (1) At least seven days before the President enters into any contract for the execution of any work or the supply of any materials or goods which will involve an expenditure exceeding one thousand rupees, he shall give notice by advertisement in local newspapers inviting tenders for such contract.

[1899, s. 88,

- (2) In every such case the President shall place before the Board the specifications, conditions and estimates and all the tenders received, specifying the particular tender (if any) which he proposes to accept.
- (3) In every case in which the acceptance of a tender would involve an expenditure exceeding one lakh of rupees, the Board shall submit to the Local Government the specifications, conditions and estimates, and all the tenders received, specifying the particular tender (if any) the acceptance of which they propose to sanction.
- (4) Neither the Board nor the Local Government shall be bound to sanction the acceptance of any tender which has been made; but the Board, within the pecuniary limits of their powers, as prescribed in section 23, sub-section (1), or the Local Government, may sanction the acceptance of any of such tenders which appears to them, upon a view of all the circumstances, to be the most advantageous, or may direct the rejection of all the tenders submitted to them. them.

25. The President shall take sufficient security for the due [1899, s. 89.1] performance of every contract involving an expenditure exceeding one thousand rupees.

26. (1) The President shall forward to the Local Government a copy of the minutes of the proceedings of each meeting of 1898, s. 21 (3) the Board, within ten days from the date on which the minutes of the proceedings of such meeting were signed as prescribed in section 17, clause (h).

- (2) If the Local Government so directs in any case, the President shall forward to it a copy of all papers which were laid before the Board for consideration at any meeting.
 - (3) (Omitted.)
- (4) The Local Government may require the President to furnish it with-
 - (a) any return, statement, estimate, statistics or other information regarding any matter under the control of the Board, or
 - (b) a report on any such matter, or
 - (c) a copy of any document in the charge of the President.

Officers and Servants.

27. The Board shall prepare and maintain a statement 1899, s. 05. showing-

- (a) the number, designations and grades of the officers and servants (other than employes who are paid by the day or whose pay is charged to temporary work) whom they consider it necessary and proper to employ for the purposes of this Act.
 - (b) the amount and nature of the salary, fees and allowances to be paid to each such officer and servant, and
 - (c) the contributions payable under section 144A in respect of each such officer and servant.

(Chapter II .- The Board of Trustees .- Officers and Servants .-Clauses 28-32.)

28. The Board shall from time to time make rules-

Act 111 of 1884

- (a) fixing the amount and nature of the security to be Ben. furnished by any officer or servant of the Board ** 47.] from whom it may be deemed expedient to require security;
- (b) for regulating the grant of leave of absence, leave-allowances and acting-allowances to the officers and servants of the Board; and
- (c) for establishing and maintaining a provident or annuity fund, for compelling all or any of the officers or servants of the Board (other than any servant of the Government in respect of whom a contribution is paid under section 144A) to contribute to such fund, at such rates and subject to such conditions as may be prescribed by such rules, and for supplementing such contributions out of the funds of the Board:

Provided that a Government servant employed as an officer or servant of the Board shall not be entitled to leave or leaveallowances otherwise than as may be prescribed in any general or special orders of the Government for regulating the transfer of Government servants to foreign service.

owers of ap- 30. Subject to any directions contained in any statement [1898, s. 92.]

show vested, prepared under section 27 and any rules made under section 28,
and for the time being in force, the power of appointing, promoting and granting leave to officers and servants of the Board, and reducing, suspending or dismissing them for misconduct, and dispensing with their services for any reason other than misconduct, shall be vested-

- (a) in the case of officers and servants whose monthly salary does not exceed three hundred rupees—in the President, and
- (b) in other cases—in the Board:

Provided that any officer or servant in receipt of a monthly salary exceeding one hundred rupees who is dismissed by the President may appeal to the Board, whose decision shall be final.

[1899, s. 70.]

(a) All statements prepared under section 27, so far as of 61. (a) An statements prepared under section 27, so far as [1898, 8. 93; 1899, 8. 63 (r) red they relate to offices earrying a salary of more than one thousand s. 74, prov. (a).] state-rupees per mensem,

- (b) all rules made under clause (b) or clause (c) of section 28, and
- (c) all orders passed by the Board under section 30, and relating to any officer appointed to hold an office carrying a salary of more than one thousand rupees per mensem, except orders granting leave to, or suspending, any such officer,

shall be subject to the previous sanction of the Local Covernment

32. The President shall exercise supervision and control over the acts and proceedings of all officers and servants of the Board in matters of executive administration, and in matters the foregoing sections, shall dispose of all questions relating to the service of the said officers and servants, and their pay, privi-leges and allowances. concerning the accounts and records of the Board; and, subject to

(Chapter II.—The Board of Trustees.—Officers and Servants.— Chapter III.—Improvement Schemes and Re-housing Schemes.—Clauses 33, 35.)

Delegation of 33. (1) The President may, by general or special order in train of President's functions. Writing, delegate to any officer of the Board any of the President's powers, duties or functions under this Act or any rule made hereunder, except those conferred or imposed upon or vested in him by sections 17, 19, 26, 54, 113, 117, 122, 122B, 153 and 157:

[1839, 1, 18, 3

Provided as follows:-

- (a) the President shall not delegate his power under section 23 to make on behalf of the Board any contract involving an expenditure exceeding one thousand rupees;
- (b) the President shall not delegate his power under section 30 to make appointments to offices carrying a salary of more than one hundred rupees per mensem;
- (c) the President shall not delegate to any officer his power under section 30 to grant leave to, or to reduce, suspend, dismiss, or dispense with the services of, any employé, unless such employé was appointed by such officer by virtue of a delegation of the President's powers of appointment conferred by that section.

(d) (Omitted.)

(2) The exercise or discharge by any officer of any powers, duties or functions delegated to him under sub-section (1) shall be subject to such conditions and limitations (if any) as may be prescribed in the said order, and also to control and revision by the President.

34. (Reproduced in clause 144A).

CHAPTER III.—IMPROVEMENT SCHEMES AND RE-HOUSING SCHEMES.

When general improve- official representation made under section 36 or without such
may be framed. a representation,—

[1898, s. 28₄]

- (a) that any buildings in any area which are used, or are intended or are likely to be used, as dwelling-places, are unfit for human habitation, or
- (b) that danger to the health of the inhabitants of buildings in any area, or in any neighbouring buildings. is caused by—
 - (i) the narrowness, closeness and bad arrangement, or the insanitary condition, of streets or buildings or groups of buildings in such area, or
 - (ii) the want of light, air, ventilation or proper conveniences in such area, or
 - (iii) any other sanitary defects in such area,

and that the most satisfactory method of dealing with the evils connected with such buildings or the sanitary defects of the such area is a general improvement scheme for the re-arrangement and re-construction of the streets and buildings, or consome of them, within such area,

[Cf. 53 & 54 Vict.

the Board may pass a resolution to the effect that such area is an unhealthy area, and that a general improvement scheme ought to be framed in respect of such area,

and may then proceed to frame such a scheme.

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 36-38.)

- 36. (1) An official representation referred to in section 35 [1898, s. 34.] may be made by the Corporation-
 - (a) of their own motion, or
 - (b) on a written complaint by the Health Officer of the Corporation; or
 - (c) in respect of any area comprised in a municipal ward,on a written complaint signed by twenty-five or more residents of such ward who are liable to pay either the owner's share or the occupier's share of the consolidated rate leviable under the Calcutta Municipal Act, 1899.

Ben. Act III of 1833.

(%) If the Corporation decide not to make an official representation on any complaint made to them under clause (b) or clause (c), they shall cause a copy of such complaint to be sent to the President, with a statement of the reasons for their decision,

37. (1) The Board shall consider every official represent- [Chause 10 in Bern lay ation made under section 36, and shall decide whether a Bill of 1997.] general improvement scheme to carry such representation into effect should be framed forthwith or not, and shall forthwith intimate their decision to the Corporation.

- (2) If the Board decide that it is not necessary or expedient to frame a general improvement scheme forthwith, they shall inform the Corporation of the reasons for their decision.
- (3) If the Board fail, for a period of twelve months after the receipt of any official representation made under section 36, to intimate their decision thereon to the Corporation,

or if the Board intimate to the Corporation their decision that it is not necessary or expedient to frame a general improvement scheme forthwith,

the Corporation may, if they think fit, refer the matter to the Local Government.

- (4) The Local Government shall consider every reference made to it under sub-section (3), and-
 - (a) [Reproduced in sub-clause (b1).]
 - (b) if it considers that the Board ought, under all the circumstances, to have passed a decision within the period mentioned in sub-section (3), shall direct the Board to pass a decision within such further period as the Local Government may think reasonable, or
 - (b1) if it considers that it is, under all the circumstances, expedient that a scheme should forthwith be framed, shall direct the Board to proceed forthwith to frame a scheme.
- (5) The Board shall comply with every direction given by the Local Government under sub-section (4).

38. Whenever the Board are of opinion that, for the street ac. may be purpose of—

[1898, 8, 30 ; Analyis, para 5(1),]

- (a) providing building-sites, or
- (b) remedying defective ventilation, or
- (c) creating new, or improving existing, means of communication and facilities for traffic, or
- (d) affording better facilities for conservancy,

it is expedient to lay out new streets or to alter existing streets (including bridges, causeways and culverts), the Board may pass a resolution to that effect, and shall then proceed to frame a street scheme for such area as they may think

(Chapter III.—Improvement Schemes and Re-housing Schemes. Clauses 39-42.)

39. When framing an improvement scheme in respect of any [1898, s. 26.] area, regard shall be had to—

- (a) the nature and the conditions of neighbouring areas and of Calcutta as a whole;
- (b) the direction in which the expansion of Calcutta appears likely to take place; and
 - (c) the likelihood of improvement schemes being required for other parts of Calcutta.

40. (1) Every improvement scheme shall provide for-

[1808, se. 25(1), 31(1) (with proposed amend-ments).]

- (a) the acquisition by the Board of any land, in the area comprised in the scheme, which will, in their opinion, be required for the execution of the scheme;
- (b) the laying out or re-laying out of the land in the said
- (c) such demolition, alteration or reconstruction of build- [Analysis, para. 4 (3).
 ings, situated on land which it is proposed to
 acquire in the said area, and the construction of
 such buildings, as the Board may think necessary;
- (d) the laying out or alteration of streets (including bridges, [Analysis, para. 6 (3)] causeways and culverts), if required; and
 - (e) the levelling, paving, metalling, flagging, channelling, [1808, s. 28 kf) (e) sewering and draining of the said streets, and the (with proposed amend-ment), s. 31 (7) (e) provision therein of water, lighting and other sanitary (with proposed amendment), s. 31 (9), proceed clause (e):

 1809, a. 303;
 Analysis, para. 4 (1).

- (f) (Reproduced in clause 50A.)
- (2) (Omitted.)

- 41. Any improvement scheme may provide for-
- (a1) the acquisition by the Board of any land, in the area comprised in the scheme, which will, in their opinion, be affected by the execution of the scheme;
- (a) raising, lowering or levelling any land in the area comprised in the scheme;

[1898, se. 25 (2) 31 (2) (a), with

- (b) (Replaced by clause 167 A.)
- (e) the formation or retention of open spaces; and
- (d) any other matters which the Board may think fit.

(1) When any improvement scheme has been framed, [1898, ss. 27 (1), 22,] Board shall prepare a notice, stating-

- (a) the fact that the scheme has been framed,
- (b) the boundaries of the area comprised in the scheme, and
- (c) the place at which particulars of the scheme, a map of the area comprised in the scheme and a statement of the land which it is proposed to acquire may be seen at reasonable hours.

(2) The Board shall-

- (i) cause the said notice to be published weekly for three consecutive weeks in the Calcutta Gazette and in local newspapers, with a statement of the period within which objections will be received,
- (ii) send a copy of the notice to the Chairman of the Corporation and to the Chairman of any Municipality constituted under the Bengal Municipal Act, 1884, in which any portion of the sen, Act III area comprised in the scheme is situated.

(Chapter III.—Improvement Schemes and Re-housing Schemes.—Glauses 43—46.)

(3) The President shall cause copies of all documents [1899, s. 571(0.)] referred to in clause (c) of sub-section (7) to be delivered to any applicant on payment of such fee as may be prescribed by rule made under section 137.

Transmission Board of re. 48. The Chairman of the Corporation, and the Chairman [1898, as. (with propose resentation by of any Municipality to whom a copy of a notice has ment), 32.] tunicipality as been sent under clause (ii) of section 42, shall, within a propose ment scheme. Period of sixty days from the receipt of the said copy, forward to the Board any representation which the Corporation or Municipality may think fit to make with regard to the scheme.

as to 44. (1) During the thirty days next following the first day [1898, 180 87 (9) (3) acquai on which any notice is published under section 42 in respect of any improvement scheme, the Board shall serve a notice on—

- (i) every person whose name appears in the municipal assessment-book as being primarily liable to pay the owner's share of the consolidated rate, or the rate on the annual value of holdings, as the ease may be, in respect of any land which the Board propose to acquire in executing the scheme, and
- (ii) the occupier (who need not be named) of each premises or holding, entered in the municipal assessment-book, which the Board propose to acquire in executing the scheme.

(3) Every such notice shall be signed by, or by the order of, the President. at the formalism or releasing of our reases.

45. The Chairman of the Corporation, and the Chairman of any Municipality constituted under the Bengal Municipal Act, 1884, in any part of which this section is for the time being in force, shall, respectively, furnish the President, at his request, with a copy of, or extracts from, the municipal assessment-book, at such charge as may be fixed by rule made under section 136.

46. (1) After the expiry of the periods respectively [1898, 88, 28, 32.] prescribed under section 42, clause (i), and by section 43 and section 44, clause (b), in respect of any improvement scheme, the Board shall consider any objection, representation and statement of dissent received thereunder, and may either abandon the scheme or apply to the Local Government for sanction to the scheme, with such modifications (if any) as the Board may consider necessary.

- (2) Every application submitted under sub-section (1) shall be accompanied by—
- (a) a description of, and full particulars relating to, the scheme, and complete plans and estimates of the cost of executing the scheme:
- (b) a statement of the reasons for any modifications made in the scheme as originally framed;

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Qlauses 47-51.)

- (b1) a statement of objections (if any) received under section 42;
- (c) any representation received under section 43;
- (d) a list of the names of all persons (if any) who have dissented, under section 44, clause (b), from the proposed acquisition of their land, and a statement of the reasons given for such dissent; and
- (e) (Omitted.)
- (f) a statement of the arrangements made or proposed by the Board for the re-housing of persons (and particularly of persons of the poorer classes) who are likely to be displaced by the execution of the scheme.
 - (g) [Reproduced in sub-clause (a).]

47. The Local Government may sanction, either with or [analysis, para. 6 (4)] ment scheme submitted to it under section 46.

- Notification 48. (1) Whenever the Local Government sanctions an [1898, sa. 29 (1), 32,] anction to improvement scheme, it shall announce the fact by notification, and the Board shall forthwith proceed to execute the scheme.
 - (2) The publication of a notification under sub-section (1) in respect of any scheme shall be conclusive evidence that the scheme has been duly framed and sanctioned.

49. At any time after any improvement scheme has been [1898, ss. 29 (2) (with sanctioned by the Local Government, and before it has been \$2.]

carried into execution, the Board may alter it:

Provided as follows :-

- (a) if any alteration is estimated to increase the estimated net cost of executing a scheme by more than five per cent. of such cost, such alteration shall not be made without the previous sanction of the Local Government;
- (b) if any alteration involves the acquisition, otherwise than by agreement, of any land the acquisition of which has not been sanctioned by the Local Government, the procedure prescribed in the foregoing sections of this Chapter shall, so far as applicable, be followed as if the alteration were a separate scheme.

Combination improve-ent schemes.

the

50. 'Any number of areas in respect of which improvement [1898, s. 23, first prov. schemes have been, or are proposed to be, framed may at any time be included in one combined scheme.

- Prevention or restriction of traffic line being executed by the Board in any public street vested in continuous line board, them, or when any other work which may lawfully be during product by the Board in any street vested in the board in the Board may direct that such street shall, during the progress of such work, be either wholly or partially closed to traffic generally or to traffic of any specified description. 56E. (1) When any work referred to in section 56D is [0]. clause 56(2) of Bill as introduced in any public street vested in Council.]
 - (2) When any such direction has been given, the Board shall set up in a conspicuous position in or near the street an order prohibiting traffic to the extent so directed, and

(Chapter III.—Improvement Schemes and Re-housing Schemes. Clauses 56F, 56G.)

shall fix such bars, chains or posts across or in the street as they may think proper for preventing or restricting traffic therein.

on of 56F. (1) When any work is being executed by the [cf. clause 56(2) of and Board in any public street vested in them, the Board shall, Bill as introduced in the street of the street street was preasonably be practicable, make adequate [1899, s. 347.] is so far as may reasonably be practicable, make adequate by provision for-

(a) the passage or diversion of traffic;

- (b) securing access to all premises approached from such street; and
- (c) any drainage, water-supply or means of lighting which is interrupted by reason of the execution of the work.
- (9) The Board shall pay reasonable compensation to any person who sustains special damage by reason of the execution of any such work.

56G. (1) The Board may-

[Cf. clause 56(2) of Bill as introduced in

- (a) turn, divert, discontinue the public use of, or per-355.]

 manently close, any public street vested in them, or any part thereof, or
- (b) discontinue the public use of, or permanently close, any public square vested in them, or any part
- (2) Whenever the Board discontinue the public use of, or permanently close, any public street vested in them, or any part thereof, they shall pay reasonable compensation to every person who was entitled, otherwise than as a mere licensee, to use such street or part as a means of access and has suffered damage from such discontinuance or closing.
- (3) Whenever the Board discontinue the public use of, or permanently close, any public square vested in them, or any part thereof, they shall pay reasonable compensation to every person-
 - (a) who was entitled, otherwise than as a mere licensee, to use such square or part as a means of
 - (b) whose immovable property was ventilated by such square or part,

and who has suffered damage,-

- (i) in case (a), from such discontinuance or closing, or
- (ii) in case (b), from the use to which the Board have put such square or part.
- (4) In determining the compensation payable under sub-section (2) or sub-section (3), the Board shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction, provision or improvement of any other public street or square at or about the same time that the public street or square or part thereof, on account of which the compensation is paid, is discontinued or closed.
- (5) When any public street vested in the Board, or any part thereof, is permanently closed under sub-section (1), the Board may sell or lease the site of so much of the roadway and footpath as is no longer required.

(Chapter III .- Improvement Schemes and Re-housing Schemes .-Clauses 56H, 56J.)

- 56H. (1) In any area in the neighbourhood of the Bill as introduced in Calcutta Municipality, the Board may, from time to Council.] time, prepare schemes and plans of proposed public [1899, ss., 356, 352.] streets, showing the direction of such streets, the street alignment and building line on each side of them, their intended width and such other details as may appear
- (2) Before finally adopting any scheme or plan prepared under sub-section (1), the Board shall send the same to the local authority by which such area is administered, and shall consider any representation made to them by that authority before a date to be appointed by the Board in this behalf.
- (3) When any plan prepared under sub-section (2) has been finally adopted by the Board, the street to which it refers shall be deemed to be a projected public street.
- (4) If any person desires to erect, re-erect, add to or alter any building or wall so as to make the same fall within the street alignment or building line shown in any plan so adopted, he shall apply to the Board for permission to do so.
- (5) If the Board refuse to grant permission to any person to erect on his land any building or wall to project as aforesaid, and if they do not proceed to acquire such land within two years from the date of such refusal, they shall pay reasonable compensation to such person for any damage sustained by him in consequence of such refusal.
- (6) When any building, wall or part thereof projecting across the street alignment or building line shown in any plan adopted as aforesaid has fallen down or been burnt down or taken down, the President may, by written notice, require the same to be set back to or towards such street alignment or building line.
- (7) When any building or wall is set back in pursuance of a requisition made under sub-section (6), the Board shall forthwith make full compensation to the owner of the building or wall for any damage that he may sustain thereby.

- (a) between the Board and the previous owner of any street sections 41B (2), (3), or square or part thereof which has vested in 105(1). 1 the Board under section 54 and has been altered or closed by them, as to the sufficiency of the compensation paid or previous arises. or closed by them, as to the sufficiency of the com-pensation paid or proposed to be paid under sub-section (3) of that section, or
- (b) between the Board and any person who was entitled, otherwise than as a mere licensee, to use as a means of access any street or square or part thereof which has vested in the Board under section 54,
 - (i) as to whether the alteration or closing of such street, square or part causes damage or sub-stantial inconvenience to owners of property adjacent thereto or to residents in the neighbourhood, or
 - (ii) as to whether the other means of access provided or proposed to be provided under subsection (4) of the said section 54 are reasonably sufficient, or
 - (iii) as to the sufficiency of any compensa-tion paid or proposed to be paid under the said sub-section (4), or

2012

(0) between the Board and any person, as to the sufficiency of any compensation paid or proposed to be paid to him under section 56F, section 56G or section 56H,

(Chapter III .- Improvement Schemes and Re-housing Schemes. Clauses 57-58.)

the matter shall be determined by the Tribunal, if referred to it within a period of three months from-

in case (a) or case (b)—the date on which the street or square or part thereof was altered or closed by the Board, or

in case (c)—the date on which the said person was informed of the decision of the Board fixing the amount of compensation to be paid to him;

and the determination of the Tribunal shall be final.

- (2) If a reference to the Tribunal be not made within the period prescribed by sub-section (1), the decision of the Board shall be final.
- (3) For the purpose of determining any matter referred to it under sub-section (1), the Tribunal shall have all the powers with regard to witnesses, documents and costs which it would have if the Land Acquisition Act, 1894, as modified by section 61C of 1 of 1894. this Act, were applicable to the case.

57. (1) Whenever the General Committee are satisfied-

Vesting in Corporation of said streets out or altered, and vided, by the

- (a) that any street laid out or altered by the Board has been duly levelled, paved, metalled, flagged, channelled, sewered and drained in the manner provided in the plans sanctioned by the Local Government under section 47, and
- (b) that such lamps, lamp-posts and other apparatus as the General Committee consider necessary for the lighting of such street and as ought to be provided by the Board have been so provided, and
- (c) that water and other sanitary conveniences ordinarily provided in a Municipality have been duly provided in such street,

the General Committee shall make a report to the Corporation, and the Corporation shall thereupon, after informing the Board of their intention to do so, by written notice affixed in some conspicuous position in such street, declare the street to be a public street; and the street shall thereupon vest in the Corporation, and shall thenceforth be maintained, kept in repair, lighted and cleansed by the Corporation.

(2) When any open space for purposes of ventilation or [1898, s. 45 (2), with recreation has been provided by the Board in executing any improvement scheme, it shall, on completion, be transferred to the Corporation by resolution of the Board, and shall there-upon vest in, and be maintained at the expense of, the Corporation:

Provided that the General Committee may require the Board, before any such open space is so transferred, to enclose, level, turf, drain and lay out such space and provide footpaths therein, and, if necessary, to provide lamps and other apparatus for lighting it.

(3) If any difference of opinion arises between the Board and [1898, s 45 (4).] the General Committee in respect of any matter referred to in the foregoing provisions of this section, the matter shall be referred to the Local Government, whose decision shall be final.

57A. If section 57 be extended, by notification under section 1, sub-section (3), to any Municipality in the neighbourhood of the Calcutta Municipality, it shall be construed as if the references therein to the General Committee and the Corporation were references to the Commissioners of the former Municipality.

58. Notwithstanding anything contained in section 57 or 1805, proposection 57A, the Board may retain any service passage which tion 45 (24).11 they have laid out for sanitary purposes, and may enter into an agreement with the General Committee or any other person for the supervision, repair, lighting and general management of any passage so retained.

(Chapter IV .- Acquisition and Disposal of Land .- Compulsory Acquisition .- Abandonment of Acquisition - Clauses 65-67 A.)

appointing, promoting and granting leave to officers and servants of the Tribunal, and the power of reducing, suspending or dismissing them, shall vest in the President of the Tribunal.

Payments by 65. (1) The remuneration prescribed under section 63 for [1898, s. 48 (9), (12)]

Board on account of Tricount of Triacting allowances prescribed under section 64 for officers and
servants of the Tribunal, shall be paid by the Board to the
President of the Tribunal for distribution.

(2) (Reproduced in clause 144A)

66. (1) The President of the Tribunal may, from time to [1898, s. 48 (19) (6).] Power to make 66. (1) The President of the Tribunal May, from time of the Local Government, make rules, not repugnant to the Code of Civil Procedure, 1908, for the conduct of business by the Tribunal.

(2) All such rules shall be published by notification.

Award of 67. (1) For the purpose of determining the award to [1898, s. 48 (1), (2) Tribunal how to be determined. be made by the Tribunal under the Land Acquisition Act, ments.] I of 1894. 1894.-

- (a) if there is any disagreement as to the measurement of land, or the amount of compensation or costs to be allowed, the opinion of the majority of the members of the Tribunal shall prevail;
- (b) questions relating to the determination of the persons to whom compensation is payable, or the apportionment of compensation, may be tried and decided in the absence of the assessors if the Fre-sident of the Tribunal considers their presence unnecessary; and, when so tried and decided, the decision of the President shall be deemed to be the decision of the Tribunal; and
 - (c) notwithstanding anything contained in the foregoing clauses, the decision on all questions of law and procedure shall rest solely with the President of the Tribunal.
 - (2), (3) [Replaced by clause 67 (1), as amended.]

(4) to (6) (Omitted).

(7) Every award of the Tribunal, and every order made by [Bom., s. 48 (10).] and the Tribunal for the payment of money, shall be enforced by on the Court of Small Causes of Calcutta as if it were a decree of special of that Court.

Abandonment of Acquisition.

67A. (I) In any case in which the Local Government has introduced in Council, sanctioned the acquisition of land, in any area comprised in [1889, a. 307 (8), an improvement scheme, which is not required for the execution of the scheme, the owner of the land, or any person having an interest therein, may make an application to the Board, requesting that the acquisition of the land should be abandoned in consideration of the payment by him of a sum to be fixed by the Board in that behalf,

- (2) The Board shall not be bound to admit any such application unless it-
 - (a) reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land, and

I of 1894.

- (b) is made by all persons who have interests in the land greater than a lease for years having seven years to run.
- (3) If the Board decide to admit any such application they shall forthwith inform the Collector; and the Collector shall thereupon stay for a period of three months all further proceedings for the acquisition of the land, and the

(Chapter IV .- Acquisition and Disposal of Land .- Abandonment of Acquisition .- Clause 67B.)

Board shall proceed to fix the sum in consideration of which the acquisition of the land may be abandoned,

(4) Within the said period of three months, or, with the permission of the Board, at any time before the Collector has taken possession of the land under section 16 of the Land Acquisition Act, 1894, the person from whom the Board have arranged to accept the sum so fixed may, if the Eoard are satisfied that the security offered by him is sufficient execute an agreement with the Board either. sufficient, execute an agreement with the Board, either-

I of 1894.

- (a) to pay the said sum three years after the date of the agreement, or
- (b) to leave the said sum outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at such rate, not less than four per cent. per annum, as may be fixed by the Board, and to make the first annual payment of such interest four years after the date of the agreement:

Provided that the Board may, at any time before the Collector has taken possession of the land under section 16 of the Land Acquisition Act, 1894, accept immediate payment of the said sum instead of an agreement as

I of 1894.

- (5) When any agreement has been executed in pursuance of sub-section (4), or when any payment has been accepted in pursuance of the proviso to that sub-section, in respect of any land, the proceedings for the acquisition of the land shall be abandoned.
- (6) Every payment due from any person under any agreement executed under sub-section (4) shall be a charge on the interest of that person.
- (7) If any instalment of interest payable under an agreement executed in pursuance of clause (b) of sub-section (4) be not paid on the date on which it is due, the sum fixed by the Board under sub-section (8) shall be payable on that date, in addition to the said instalment.
- (8) At any time after an agreement has been executed in pursuance of clause (b) of sub-section (4), any person may pay off the charge created thereby, with interest, at the rate specified in the agreement, up to the date of such payment.
- (9) When an agreement in respect of any land has been executed by any person in pursuance of sub-section (4), no suit with respect to such agreement shall be brought against the Board by any other person (except an heir, executor or administrator of the person first aforesaid) claiming to have an interest in the land.

67B. When an agreement has been executed by any [Clause 94 of Bill person in pursuance of section 67A, sub-section (4), in respect as introduced in of any land, and any money payable in pursuance of that section [1899, a 257 (5)] is not duly paid, the same shall be recoverable by the Board (together with interest, up to the date of realization, at the rate of four percent, per annum), from the said person or his successor in interest in the manner provided by the Calcutta successor in interest, in the manner provided by the Calcutta Municipal Act, 1899 for the recovery of the consolidated rate;

(Chapter IV .- Acquisition and Disposal of Land .- Acquisition by Agreement .- Compulsory Acquisition .- Clauses 60-62.)

(Chapter V .- Taxa'ion .- Terminal Tax on Passengers .- Clause 72).

(1b) For the purposes of this section, section 64 of the said Indian Stamp Act, 1899, shall be read as if it referred to the Board as well as the Government.

(2) All collections resulting from the said increase after deducting incidental expenses (if any), be paid to the Board at such time as may be prescribed by rule made under section 87.

Part II .- Terminal Tax on Passengers.

tax 72. (1) Every passenger brought to or taken from any [C. B. C., rers or station in the Calcutta Municipality or the Howrah Muni-

cipality by railway, and
every passenger brought to or taken from any landing-place
in the Port of Calcutta within five miles from Government House by inland steam-vessel,

shall pay a tax of half an anna in respect of each journey so made by him:

Provided as follows :-

- (a) the said tax shall not be payable by any passenger brought from, or taken to, any place situated within a radius of ten miles from Government House;
- (b) the Local Government may, by notification, either-
 - (i) with the previous sanction of the Government of India, reduce the said radius to any distance less than ten miles, in its application either to passengers generally or to passengers of any specified class, or

(ii) with the previous sanction of the Government of

India, cancel proviso (a), or
(iii) reduce the said tax to any lower rate, either in respect of passengers generally or in respect of

- passengers making frequent journeys;
 (c) the said tax may, in the case of passengers taking suburban season tickets, be calculated at the rate of six annas per mensem for each such ticket, or at such lower rate as the Local Government may prescribe by notification.
- (2) The said tax shall be collected, by means of a surcharge on fares, by the administration of the railway, or the owner of the vessel, by which the passengers are carried, and shall be paid to the Board at such time as may be prescribed by rule made under section 87, after making such deduction as the Local Government may approve to meet any expenses incurred in connection with the collection of the tax.
- (3) The owner of every inland steam-vessel referred to in sub-section (1) shall prepare and deliver, or cause to be prepared and delivered, to the President, each quarter, a return, in the form prescribed by rule made under section 87, of all passengers, carried by such vessel, by whom the tax imposed by that sub-section is payable; and shall subscribe, at the foot of such return, a declaration of the truth thereof.
- (4) Every such return shall be delivered to the President or posted to his address within fifteen working days, or at most within thirty days, after the end of the quarter to which it

Explanation .- The expression "working day," as used in this sub-section, means every day except a public holiday as defined in section 25 of the Negotiable Instruments Act, 1881.

- (4a) If this Act is directed to come into force during a quarter, the first of the said returns shall be made for the unexpired portion of that quarter.
- (5) The expression "administration" and the expressions "owner" and "inland steam-vessel," as used in this section, have the same meanings as in the Indian Railways Act, 1890, and the ınland Steam-vessels Act, 1884, respectively.

(4) Any investment made under this section may from time to time, subject to the provisions of sub-section (1), be varied or transposed.

Application of stuking funds.

107. The aforesaid trustees may from time to time apply any sinking fund, or any part thereof, in or towards the discharge of the loan or any part of the loan for which such fund was established; and until such loan is wholly discharged shall not apply the same for any other purpose.

Annual state

108. (1) The aforesaid trustees shall, at the end of every [1000 a. 137.] financial year, transmit to the President a statement showing-

- (a) the amount which has been invested during the year under section 106,
- (b) the date of the last investment made previous to the transmission of the statement,
- (c) the aggregate amount of the securities held by them, and
- (d) the aggregate amount which has up to the date of the statement been applied under section 107 in or towards repaying loans.
- (2) Every such statement shall be laid before the Board and published by notification.
- 109. (1) The said sinking funds shall be subject to annual [Ben. Act. II of 1307, examination by the Accountant-General, Bengal, who shall ". S.) ascertain whether the cash and the current value of the securities at credit of such funds are actually equal to the amount which would have accumulated had investments been regularly made and had the rate of interest as originally estimated been obtained
 - (2) The Board shall forthwith pay into any sinking fund any amount which the Accountant-General may certify to be deficient, unless the Government of India specially sanction a gradual readjustment.

(Chapter VI .- Finance .- Enforcement of Liabilities .- Budget Estimates .- Clauses 110-113.)

Enforcement of Liabilities.

110. (1) If the Board fail - dryd be user sometime deb

(a) to pay any interest due in respect of any loan taken 22th September, 1997, in pursuance of section 96, or

scrimodal (b)

- (b) to make any payment prescribed by section 105, section 105A or sub-section (2) of section 109, or
 - (c) to make any investment prescribed by section 106,

the Accountant-General of Bengal shall make such payment, or set aside and invest such sum as ought to have been invested under the said section 106, as the case may be;

and the Chairman of the Corporation shall forthwith pay from the Municipal Funds to the said Accountant-General a sum equivalent to the sum so paid or invested by him;

and the Local Government may attach the rents and other income of the Board; and thereupon the provisions of sub-section (2) of section 141 of the Calcutta Municipal Act, 1899, shall, with all necessary modifications, be deemed to apply.

Ben. Act III of 1890,

(2) Whenever the Chairman of the Corporation has made any payment to the Accountent-General under sub-section (I), the Local Government shall reimburse the Corporation out of the rents and income attached under that sub-section, and if such rents and income prove insufficient for that purpose the Corporation may, with the previous sanction of the Local Government, increase the maximum authorized by cleans (a) increase the maximum authorized by clause (a) of section 147 of the Calcutta Municipal Act, 1899, to such extent as may be necessary for the purpose of making up the deficiency.

Ben, Act III of 1809.

recedure if 111. If the Chairman of the Corporation fails to make any payment as required by section 92 or section 110, the Local to make Government may attach the Municipal Funds or any of them; to Board or

[1808, s. 81 (1).]

and thereupon the provisions of sub-section (2) of section 141 of the Calcutta Municipal Act, 1899, shall, with all necessary modifications, be deemed to apply, and the Local Government may further require the Corporation to increase the maximum authorized by clause (a) of section 147 of that Act, to such extent as may be necessary for the purpose of making such payment.

Payments 112. All moneys paid by the Chairman of the Corporation section 110 to be a under sub-section (I) of section 110 and not reimbursed by the charge on the Local Government under sub-section (2) of that section, and all moneys payable under sub-section (I) of section 110 and levied under section 111, shall constitute a charge upon the property of the Board.

Budget Estimates.

Estimates of the come and expenditure to be in the month of February in each year, lay before the Board an initial annually estimate of the income and expenditure of the Board for the next sensuing financial year. ensuing financial year.

- (2) Every such estimate shall make provision for the due fulfilment of all the liabilities of the Board and for the efficient administration of this Act.
- (8) Every such estimate shall differentiate capital and revenue funds, and shall be prepared in such form, and shall contain such details, as the Local Government or the Board may from time to time direct.

(Chapter VI.—Finance.—Budget Estimates.—Clauses 114—119.)

(4) Every such estimate shall be completed and printed, and a copy thereof sent, by post or otherwise, to each Trustee, at least ten clear days before the date of the meeting at which the estimate is to be laid before the Board.

114. The Board shall consider every estimate so laid before [1868, a. sa.] them, and shall sanction the same, either without alteration or with such alterations as they may think fit.

Govern shall be submitted to the Local Government, who may, at any time within two months after receipt of the same,-

- (c) approve the estimate, or
- (b) disallow the estimate or any portion thereof, and return the estimate to the Board for amendment.
- (2) If any estimate is so returned to the Board, they shall forthwith proceed to amend it, and shall re-submit the estimate, as amended, to the Local Government, who may then approve it.

Transmission 116. A copy of every such estimate shall, when approved by [1898, s. s.] mate to Chair the Local Government, be sent by the Board to the Chairman man of Corpora- of the Corporation.

Special pro-visions as to the first estimate after the consti-tution of the 117. (1) A special meeting of the Board shall be held as soon [1898, s. 86.] mate as may be expedient after the day appointed under section 16A, the sub-section (1), and the President shall at such special meeting lay before the Board an estimate of the income and expenditure of the Board for the portion of the financial year which on the said day had not expired.

(2) The provisions of section 113, sub-sections (2) to (4), and sections 114 to 116 shall apply to the said estimate.

- 118. (1) The Board may, at any time during the year for [1898, s. 87.] which any estimate has been sanctioned, cause a supplementary estimate to be prepared and laid before them at a special meeting.
- (2) The provisions of section 113, sub-sections (3) and (4), and sections 114 to 116 shall apply to every supplementary estimate.

119. (1) No sum shall be expended by or on behalf of the [1899, s. 115] Board unless the expenditure of the same is covered by a current budget-grant or can be met by re-appropriation or by drawing on the closing balance.

- (2) The closing balance shall not be reduced below one lakh of rupees without the previous sanction of the Local Government.
- (3) The following items shall be excepted from the provisions of sub-sections (1) and (2), namely,-
 - (a) re-payments of moneys belonging to contractors or other p rsons and held in deposit, and of moneys collected by, or credited to, the Board by mistake;
 - (b) (Omitted.)
 - (c) payments due under a decree or order of a Court passed against the Board or against the President ex-officio, or under an award of the Tribunal;
 - (d) sums payable under a compromise of any suit or other legal proceeding or claim effected under section 153;
 - (e) sums payable under this Act by way of compensation; and
 - (f) payments required to meet some pressing emergency.

(Chapter VI - Finance. - Banking and Investments. -Clauses 120-1220.)

(4) Whenever any sum exceeding five thousand rupees is expended under clause (f) of sub-section (3), the President shall forthwith report the circumstances to the Local Government, and shall at the same time explain how the Board propose to cover the expenditure.

Banking and Investments.

All moneys payable to the Board shall be received by oneys, and the President, and shall forthwith be paid into the Bank of [1896, o. 111; 1896]. Bengal to the credit of an account which shall be styled "The section 80A.]

Account of the Trustees for the Improvement of Calcutta."

121. (Reproduced in clause 122A.)

122. (1) Surplus moneys at the credit of the said account [1896, a. 119; 1896, propose tion 894.] ey. may from time to time be-

- (a) deposited at interest in the Bank of Bengal or in any other Bank in Calcutta approved by the Board in this behalf, or
 - (b) invested in any of the securities or debentures men-tioned in section 106, sub-section (1), of this Act or in section 20 of the Indian Trusts Act, 1882.

- (2) (Omitted.)
- (3) All such deposits and investments shall be made by the President on behalf of, and with the sanction of, the Board; and, with the like sanction, the President may at any time withdraw any deposit so made, or dispose of any securities, and re-deposit or re-invest the money so withdrawn or the proceeds of the disposal of such securities.

- 122A. (1) Subject to the provisions of section 110, no [Clause 121 of Bill as payment shall be made by the Bank of Bengal out of the introduced in Council.] said account, except upon a cheque.
- (2) Payment of any sum due by the Board exceeding one hundred rupees in amount shall be made by means of a cheque, and not in any other way.

(3) (Omitted.)

- 122B. All orders for making any deposit, investment, with- 122 (3) of Bill and drawal or disposal under section 122, and all cheques referred to introduced in Country rders under drawal or disposal under section 122, and cheques. in section 122A, must be signed eil.] [1899, * 112(2).]
 - (a) by the President and the Secretary to the Board, or
 - (b) in the event of the illness or occasional absence from Calcutta of the President or the Secretary, then by the Secretary or the President, as the case may be, and by a Trustee other than the President.

122C. Before the President or any other Trustee or the [1899, e. 116.] Secretary to the Board signs a cheque under section 122B, he must satisfy himself that the sum for which such cheque is drawn either is required for a purpose or work specifi-cally sanctioned by the Board or is an item of one of the excepted descriptions specified in section 119, sub-section

(Chapter VI.-Finance.-Accounts.-Clauses 123-125.)

Accounts.

- 123. (1) The expression "cost of management," as used in [1908, s. 78(1).1 Definition cost of the following sections in this Chapter, meansmanagement.
 - (a) the salary and house-rent and conveyance allowance (if any) of the President or Acting President, and the allowances and contributions referred to in section 11, sub-section (2);
 - (b) all fees paid under section 21, for attendance at meetings ;
 - (c) the salaries, fees and allowances of, and the contributions paid under section 144 A in respect of, officers and servants of the Board who are included in statements prepared under section 27;

Application 128. (1) The moneys credited to applied to-(1) The moneys credited to the revenue account shall be

- [1898, ss. 75 (1), 77 (1) with proposed amend-
- (a) meeting all charges for interest and sinking fund due 26th September 1967.] on account of any loan taken in pursuance of section 96, clause (a), or section 99, and all other charges incurred in connection with such loans;
- (b) paying all sums due from the Board in respect of rates and taxes imposed under the Calcutta Municipal Act, 1899, upon land vested in the Board;
- (c) paying the cost (if any) of maintaining a separate establishment for the collection of the rents and other proceeds of land vested in the Board;
- (c1) paying all sums which the Local Government may direct to be paid to any auditor under section 133;
- (e2) making payments in pursuance of section 147, for interest or for expenses of maintenance or working;
- (d) paying the cost of management, excluding such proportion thereof as may be debited to the capital account under clause (b) of section 126; and
- (e) [Reproduced in sub-clause (cI).]
- (f) paying all other sums due from the Board, other than those which are required by section 126 to be disbursed from the capital account.

Ben. Act III of 1899

(Chapter VI.-Finance. - Accounts. - Chapter VII. - Rules. -Clauses 128A-134A.)

(2) The surplus (if any) remaining after making the payments referred to in sub-section (1) shall, subject to the maintenance of a closing balance of one lakh of rupees, and

except as provided in section 129, and unless the Local Government otherwise directs,

be invested, in the manner prescribed in section 106, towards the service of any loans outstanding after the expiry of sixty years from the commencement of this Act.

Power to 128A. If, at any time after any surplus referred to in securities in section 128, sub-section (2), has been invested, the Local which any sur- Government is satisfied that the investment is not needed unt for the service of any loan referred to in that sub-section, it may direct the sale of the securities held under the investment.

129. (1) Notwithstanding anything contained in section revenue 128, the Board may advance any sum standing at the credit of the revenue account for the purpose of meeting capital expenditure.

(2) Every such advance shall be refunded to the revenue account as soon as may be practicable.

130. (1) Any deficit in the revenue account at the end of capital any financial year may be made good by an advance from [1898, s. 79 in to the capital account. Advances

. (2) Every such advance shall be refunded to the capital account in the following financial year.

131. The Board shall submit to the Local Government, at submission of the end of each half of every financial year, an abstract of monts to Local the accounts of their receipts and expenditure.

[1898, s. 89 (1).]

Annual audit year, be examined and audited by such auditor as the Local Government may appoint in this behalf.

[Of. clause 131 of Bill introduced in Counas introd... cil.] [1898, s, 89(1),]

132. The auditor so appointed may,-

[1898, s. 89 (9); 1899, s. 143 (9),

- (a) by written summons, require the production before him of any document which he may consider necessary for the proper conduct of the audit;
- (b) by written summons, require any person having the castody or control of, or being accountable for, any such document to appear in person before him; and
- (c) require any person so appearing before him to make and sign a declaration with respect to any such document, to answer any question, or to prepare and submit any statement.

133. The Board shall pay to the said auditor such remuneration as the Local Government may direct.

| 1898, s. 89 (3),]

[1899, s. 144 : 1898, s. 80(3).]

134. The said auditor shall-

(a) report to the Board any material impropriety or irregularity which he may observe in the expenditure, or in the recovery of moneys due to the Board, or in the accounts,

- (b) furnish to the Board such information as they may from time to time require concerning the progress of his audit, and
- (c) within fourteen days after the completion of his audit, forward his report upon the accounts to the

134A. It shall be the duty of the Board forthwith to remedy any defects or irregularities that may be pointed out by the auditor.

(Chapter VI.—Finance.—Accounts.—Chapter VII.—Rules.— Clauses 134B—137.)

Auditor's report to be sent to each Trustee and considered by Board.

Publication and transmission of an abstract of the accounts.

135. As soon as practicable after the receipt of the [1898, a. 59 (7).] said report, the Board shall prepare an abstract of the accounts to which it relates, and shall publish such abstract by notification, and shall send a copy of the abstract to the Chairman of the Corporation and to the Local Government.

CHAPTER VII.—Rules.

Further 136. In addition to the power conferred by section 87, government for the Local Government may make rules—

(1) for regulating elections under sub-sections (1), (2) and [1899, a. 5 (3,)] (2a) of section 7;

(2) for prescribing the maximum sum which may be paid to any person by way of fees under section 21;

- (3) for fixing the charge to be made for a copy of, or extracts from, the municipal assessment-book furnished to the President under section 45; and
- (4) for prescribing the form of the abstracts of accounts referred to in sections 131 and 135.

Purther 137. (1) In addition to the power conferred by section 28, powers to the Board may from time to time make rules (not inconsistent making rules.

Act) for earrying out the purposes of this Act.

[1898, s. 94.]

- (2) In particular, and without prejudice to the generality of the foregoing power, the Board may make rules—
 - (a) [Reproduced in sub-clause (b2).]
 - (b) for adding members to the Board under section 17A;

[26th September 1907, para. 7 Act VIII of 1904, s. 14(b).

- (b1) for appointing persons (other than Trustees and persons added to the Board under section 17A) to be members of Committees under section 18;
- (62) for regulating the delegation of powers or duties of the Board to Committees under section 18;
- (c) for the guidance of persons employed by them under this Act;
- (c1) for prescribing the fees payable for copies of documents delivered under section 42, subsection (3);
- (d) for facilitating the taking of a census and securing accur-
- (e) for the maintenance and management of dwellings and shops constructed under re-housing schemes.
- (f) (Omitted.)
- (3) In making any rule under sub-section (1) or sub-section (2), the Board may provide that a breach of it shall be punishable—

[1898, s. 96; 1899, s. 361.]

- (i) with fine which may extend to five hundred rupees, or
- (ii) in case of a continuing breach, with fine which may extend to fifty rupees for every day during which the breach continues after receipt of written notice from the President to discontinue the breach.

(Chapter VII.—Rules.—Chapter VIII.—Supplemental Provisions.—Status of Trustees and their officers and servants.— Contributions towards leave-allowances and pensions of Government servants .- Clauses 138-144A.)

138. The power to make rules under section 87, section [1899 a. 565] the making of 136 or section 137 is subject to the condition of the rules being der made after previous publication, and to the following further conditions, namely,-

- (a) a draft of the rules shall be published by notification and in local newspapers;
- (b) such draft shall not be further proceeded with until after the expiration of a period of one month from such publication, or such longer period as the Local Government or (in the case of rules made under section 137) the Board may appoint;
- (c) for one month at least during such period, a printed copy of such draft shall be kept at the Board's office for public inspection, and every person shall be permitted at any reasonable time to peruse the same, free of charge;
- (d) printed copies of such draft shall be delivered to any person requiring the same, on payment of a fee of two annas for each copy.

139. No rule made under section 137 shall have any validity Govern-required unless and until it is sanctioned, with or without modification, less made by the Local Government.

[1809, s. 569; Cf. 1898, s. 95 (1).]

140. When any rule has been made under section 87 or section 136, and when any rule has been made under section 137 and duly sanctioned, it shall be published by the Local Government by notification, and such publication shall be conclusive proof that the rule has been duly made.

[1899, 8. 570; Cf. 1898, s. 95 (1).]

141. (1) The President shall cause all rules made under section 87, section 136 or section 137 and for the time being in force to be printed, and shall cause printed copies thereof to be delivered to approach to approach to the section of the sec delivered to any applicant on payment of a fee of two annas for each copy.

(2) Notice of the fact of copies of rules being obtainable at the said price, and of the place where and the person from whom the same are obtainable, shall be given by the President by advertisement in local newspapers.

142. Boards, with the rules made under section 136 and of 1898, s. 572 (1) section 137 printed thereon, or with printed copies of the said rules affixed thereto, in English and Bengali, shall be hung or affixed in some conspicuous part of the Board's office and in such places of public resort affected by the rules as the President may think fit.

The Local Government may at any time, by notifica- [1898, s. 95 (2).] 143. tion, cancel any rule made by the Board under section 137.

CHAPTER VIII .- SUPPLEMENTAL PROVISIONS.

Status of Trustees and their officers and servants.

officers Board, shall be deemed to be a public servant within the public meaning of section 21 of the Indian Penal Code.

XLV of 1861.

Contributions towards leave-allowances and pensions of Government servants.

Contributi by Board to-wards leave-

144A. The Board shall be liable to pay such contributions [Cf. clauses 14 (5), 29, for the leave-allowances and pension of any Government servant Bill as introduced in Council.] employed as President or as an officer or servant of the Board, or as a member or officer or servant of the Tribunal, as may be prescribed in any general or special orders of the Government for regulating the transfer of Government servants to foreign

(Chapter VIII.-Supplemental Provisions,-Extension of Acts to areas in the neighbourhood of the Calcutta Municipality .-Facilities for movement of the population .- Clauses 145-147.)

Extension of Acts to areas in the neighbourhood of the Calcutta Municipality.

145. (1) When any provision of this Act has been extended to any area under section 1, sub-section (3), the Local Government may, by notification published in the Calcutta Gazette and in such other manner (if any) as it may consider necessary, extend to such area the Calcutta Municipal Act, 1899, or any portion thereof, subject to such restrictions and modifications

(if any) as may be specified in such notification.

(2) When the said Calcutta Municipal Act, 1899, or any portion thereof, is extended under sub-section (1) to any area,

then-

(a) the Bengal Municipal Act, 1884, or the Bengal Local Ben. Act III of 1884. Self-Government Act of 1885, as the case may be, Ben. Act III of 1888. or the corresponding portion of such Act, as the case may be, if in force in such area, shall be deemed to

be repealed therein, and,

(b) except as the Local Government may otherwise, by notification, direct, all rules, by-laws, regulations, orders, directions and powers made, issued or conferred under the portions of the said Calcutta Municipal Act, 1899, which have been so extended, and in Ben. Act III of 1899. force at the date of such extension, shall apply to the said area, in supersession of all corresponding rules, by-laws, regulations, orders, directions and powers (if any) made, issued or conferred under the said Bengal Municipal Act, 1884, or the said Bengal Local Self-Ben. Act III of 1884. Government Act of 1885, as the case may be.

Ben. Act. III of 1884.

Ben. Act. III of 1835,

Ben. Act III of 1899,

blication of

146. (1) Before finally publishing any notification under [1896, as. 636, 637, 64 a section I, sub-section (3), or section 145, sub-section (1), the Local Government shall publish a draft of the same in the Calcutta Gazette.

(2) Any ratepayer or inhabitant of the area affected by such draft may, if he objects to the draft, submit his objection in writing to the Local Government within six weeks from its publication, and the Local Government shall take such objection into consideration.

Facilities for movement of the population.

Powers of the oard for acilitating novement of

- 147. With a view to facilitating the movement of the [Cf. Ben. Act III of population in and around the Calcutta Municipality, the Board may from time to time,-
 - (1) subject to any conditions they may think fit to impose,-
 - (a) guarantee the payment, from the funds at their disposal of such sums as they may think fit, by way of interest on capital expended on the construction, maintenance or working of means of locomotion, or

(b) make such payments as they may think fit from the said funds, by way of subsidy to persons undertaking to provide, maintain and work means of locomotion; or

(2) either singly or in combination with any other person, [CF. Ben Act III of construct, maintain and work any means of loco-1885, s. 80] motion, under the provisions of any law applicable thereto, or

(3) construct, or widen, strengthen or otherwise improve, bridges:

Provided that no guarantee or subsidy shall be made under cisuse (1), and no means of locomotion shall be constructed, maintained or worked under clause (2), without the sanction of the Local Government.

148. [Reproduced in clause 147 (3).]

(Chapter VIII .- Supplemental Provisions .- Telegraph and Railways Acts. - Legal Proceedings. - Clauset 149-154.)

Telegraph und Railways Acts.

149. Nothing in this Act shall be deemed to affect the (1898, a.1 (9).) provisions of the Indian Telegraph Act, 1885, or the Indian Railways Act, 1890.

Legal Proceedings.

Notwithstanding anything contained in the Code of v of 1898. Criminal Procedure, 1898,

> all offences against this Act or any rule made hereunder shall, wherever committed, be cognizable by a Presidency Magistrate;

and no such Magistrate shall be deemed to be incapable of taking cognizance of any such offence by reason only of being liable to pay any tax imposed by this Act or of his being benefited by the funds to the credit of which any fine imposed by him will be payable.

of 151. No person shall be liable to punishment for any offence against this Act or any rule made hereunder unless complaint of such offence is made before a Presidency Magistrate within three months next after the commission of such offence.

[1899, a. 631 (1).]

152. If any person, who has been summoned to appear before a Presidency Magistrate to answer a charge of an offence against this Act or any rule made hereunder which is punishable with fine only, fails to appear at the time and place mentioned in the summons, the Magistrate may, if service of the summons is proved to his satisfaction, and if no sufficient cause is shown for the non-appearance of such person, hear and determine the case in his absence.

153. The President may, subject to the control of the Board,-

- (a) institute, defend or withdraw from, legal proceedings under this Act or any rule made hereunder;
- (b) compound any offence against this Act or any rule made hereunder which, under any law for the time being in force, may lawfully be compounded;
- (c) admit, compromise or withdraw any claim made under this Act or any rule made hereunder; and
- (d) obtain such legal advice and assistance as he may from time to time think it necessary or expedient to obtain, or as he may be desired by the Board to obtain, for any of the purposes referred to in the foregoing clauses of this section, or for securing the lawful exercise or discharge of any power or duty vested in or imposed upon the Board or any officer or servant of the Board.

154. No suit shall be maintainable against the Board, or any officer or servant of the Board, or any person acting under the direction of the Board or of any officer or servant of the Board, in respect of anything lawfully and in good faith and with due care and attention done under this Act or any rule made here-

(Chapter VIII.—Supplemental Provisions.—Legal Proceedings.— Police. - Evidence. - Clauses 155-158.)

Notice

155. (1) No suit shall be instituted against the Board or any Trustee, or any officer or servant of the Board, or any person acting under the direction of the Board or any of their officers or servants, in respect of any act purporting to be done under this Act or any rule made hereunder,

until the expiration of one month next after written notice has been delivered or left at the Board's office or the place of abode of such officer, servant or person, stating the cause of action, the name and place of abode of the intending plaintiff and the relief which he claims;

and the plaint must contain a statement that such notice has been so delivered or left.

(2) to (5). (Omitted.)

Police.

156. (1) The Commissioner of Police and his subordinates shall be bound to co-operate with the President for carrying into effect and enforcing the provisions of this Act.

- (b) (Omitted.)
- (2) It shall be the duty of every police-officer who is subordinate to the Commissioner of Police-
 - (i) to communicate without delay to the proper officer or servant of the Board any information which he receives of a design to commit or of the commission of any offence against this Act or any rule made hereunder, and
- (ii) to assist the President or any officer or servant of the Board reasonably demanding his aid for the lawful exercise of any power vesting in the President or in such officer or servant under this Act or any such rule.

- 157. (1) Every police-officer shall arrest any person who [1892, :.646.] commits, in his view, any offence against this Act or any rule made hereunder, if the name and address of such person be unknown to him, and if such person, on demand, declines to give his name and address, or gives a name or address which such officer has reason to believe to be false.
- (2) No person so arrested shall be detained in custody after his true name and address are ascertained, or, without the order of a Magistrate, for any longer time, not exceeding at the most twenty-four hours from the arrest, than is necessary for bringing him before a Magistrate.
- (3) On the written application of the President, any police-officer above the rank of constable shall arrest any person who obstructs any officer or servant of the Board in the exercise of any of the powers conferred by this Act or any rule made hereunder.

Evidence.

158. Whenever, under this Act or any rule made here-under, the doing or the omitting to do anything or the validity of anything depends upon the approval, sanction, consent, concurrence, declaration, opinion or satisfaction of—

- (a) the Board or the President, or
- (b) any officer or servant of the Board,

a written document, signed in case (a) by the President, and in case (b) by the said officer or servant, purporting to convey or

(Chapter VIII .- Supplemental Provisions .- Validation .-Compensation.—Public Notices and Advertisements.— Clauses 159—162.)

set forth such approval, sanction, consent, concurrence, declaration, opinion or satisfaction, shall be sufficient evidence of such approval, sanction, consent, concurrence, declaration, opinion or satisfaction.

Validation.

159. (1) No act done or proceeding taken under this Act shall be questioned on the ground merely of-

- (a) the existence of any vacancy in, or any defect in the constitution of, the Board or any Committee; or
- (b) any person having ceased to be a Trustee; or
- (e) any Trustee, or any person added to the Board under section 17A, or any other member of a Committee appointed under this Act, having voted or taken any other part in any proceeding in contravention of section 21A; or
- (d) the failure to serve a notice under section 44 on any person, where no substantial injustice has resulted from such failure; or
- (e) any omission, defect or irregularity not affecting the merits of the case.
- (2) Every meeting of the Board, the minutes of the proceedings of which have been duly signed as prescribed in section 17, clause (h), shall be taken to have been duly convened and to be free from all defect and irregularity.

Compensation.

160. In any case not otherwise expressly provided for in this [1890, s. 614.] Act, the Board may pay reasonable compensation to any person who sustains damage by reason of the exercise of any of the powers vested, by this Act or any rule made or scheme sanctioned hereunder, in the Board or the President or any officer or servant of the Board.

[1899, s. 615.]

- 161. (1) If, on account of any act or omission, any person has been convicted of an offence against this Act or any rule made hereunder, and, by reason of the same act or omission of the said person, damage has occurred to any property of the Board, compensation shall be paid by the said person for the said damage, not withstanding any punishment to which he may have been sentenced for the said offence.
- (2) In the event of dispute, the amount of compensation payable by the said person shall be determined by the Magistrate before whom he was convicted of the said offence.
- (3) If the amount of any compensation due under this section be not paid, the same shall be recovered under a warrant from the said Magistrate, as if it were a fine inflicted by him on the person liable therefor.

Public Notices and Advertisements.

162. Every public notice given under this Act or any rule made hereunder shall be in writing over the signature of the President.

and shall be widely made known in the locality to be affected [1899, s. 530.] thereby, by affixing copies thereof in conspicuous public places

(Chapter VIII.-Supplemental Provisions .- Signature and Service of Notices, etc. - Surveys. - Clauses 163-167 A.)

within the said locality, or by publishing the same by beat of drum or by advertisement in local newspapers, or by any two or more of these means, and by any other means that the President may think fit.

163. Whenever it is provided by this Act or any rule [1899, s. 898.] made hereunder that notice shall be given by advertisement in local newspapers, or that a notification or any information shall be published in local newspapers, such notice, notification or information shall be inserted, if practicable, in at least two English newspapers and two vernacular newspapers.

Signature and Service of Notices, etc.

ping sigor bill, which is required by this Act [1896, a. 590.]
or bills. or by any rule made hereunder to bear the signature of the President or of any other Trustee or of any officer or servant of the Board, shall be deemed to be properly signed if it bears a facsimile of the signature of the President or of such other Trustee or of such officer or servant, as the case may be, stamped thereupon.

165. (Omitted.)

166. When any notice, bill or other document is required [1869, a.592.] by this Act or any rule made hereunder to be served upon or issued or presented to any person, such service, issue or presenta-tion shall be effected—

- (a) by giving or tendering such document to such person;
- (b) if such person is not found, by leaving such document at his last known place of abode in Calcutta, or by giving or tendering the same to some adult male member or servant of his family; or
- (c) if such person dees not reside in Calcutta, and his address elsewhere is known to the President, by forwarding such document to him by registered post under cover bearing the said address; or
- (d) if none of the means aforesaid be available, by causing a copy of such document to be affixed on some con-spicuous part of the land (if any) to which the document relates.

167. (Omitted.)

Surveys.

167A. The Board may-

(a) cause a survey of any land to be made, whenever protection they consider that a survey is necessary or a expedient for carrying out any of the purposes of this Act, or

(b) contribute towards the cost of any such survey made by any other local authority.

(Chapter VIII.—Supplemental Provisions.—Power of Entry.— Penalties.—Clauses 168—190A.)

Power of Entry.

Power of 168. (1) The President may, with or without assistants or [1899, s. 595; entry. workmen, enter into or upon any land, in order—

- (a) to make any inspection, survey, measurement, valuation or inquiry,
- (b) to take levels,
 - (e) to dig or bore into the subsoil,
 - (d) to set out boundaries and intended lines of work, or
 - (e) to mark such levels, boundaries and lines by placing marks and cutting trenches,

whenever it is necessary to do so for any of the purposes of this Act or any rule made or scheme sanctioned hereunder or any scheme which the Board intend to frame hereunder:

Provided as follows :-

- (a) no such entry shall be made between sunset and sunrise;
- (b) no dwelling-house, and no public building or hut which is used as a dwelling-place, shall be so entered, unless with the consent of the occupier thereof, without giving the said occupier at least twenty-four hours' previous written notice of the intention to make such entry;
- (c) sufficient notice shall in every instance be given, even when any premises may otherwise be entered without notice, to enable the inmates of any apartment appropriated to females to remove to some part of the premises where their privacy need not be disturbed;
- (d) due regard shall always be had, so far as may be compatible with the exigencies of the purpose for which the entry is made, to the social and religious usages of the occupants of the premises entered.
- (2) Whenever the President enters into or upon any land in pursuance of sub-section (1), he shall at the time of such a section (1), he shall at the time of such a section (1), he shall at the time of such a section (2), he shall at the time of such a section (3), he shall at once as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the Board, whose decision shall be final.

169 to 189. (Omitted.)

Amendment of section 23.

14. (1), (2) (Omitted.)

(2a) In sub-section (2) of section 23, after the words "in every case" the following shall be deemed to be inserted, namely :-

"except where the land acquired is situated in the Calcutta Municipality and within the area comprised in an improvement scheme sanctioned under the Calcutta Improvement Act, 1911."

- (3) At the end of section 23 the following shall be deemed to be added, namely :-
 - "(3) For the purposes of clause first of sub-section (1) of this section,
 - (a) the market-value of the land shall be deemed [1809. s. 557 (e).] to be the market-value according to the disposition of the land at the date of the publication of the declaration relating thereto under section 6;

- (a1) if it be shown that, before such declaration was published, the owner of viso (i).]
 the land had taken active steps and
 incurred expenditure to serve incurred expenditure to secure a more profitable disposition of the same, further compensation, based on his actual loss, may be paid to him;
- (b) if the market-value has been increased by [1899, s. 557(646),] means of any improvement made by the owner or his predecessor in interest within two years before the aforesaid declaration was published, such increase shall be disregarded, unless it be proved that the improvement was made bona fide and not in contemplation of proceedings for the acquisition of the land being taken under this Act;
- (c) if the market-value is specially high in consequence of the land being put to a use which tion 47 B (c); is unlawful or contrary to public policy, that use shall be disregarded, and the market-value shall be deemed to be the market-value of the land if put to ordinary uses; and

(d) if the market-value of any building is specially [1808, proposed sea high in consequence of the building being so tion 478 (5).] overcrowded as to be dangerous to the health of the inmates, such overcrowding shall be disregarded, and the market-value shall be deemed to be the market-value of the building if occupied by such number of persons only as could be accommodated in it without risk of danger from overcrowding."

(e) (Omitted.)

(4) (Omitted.)

(The Schedule-Clauses 15-16 A.)

15. (1) (Omitted).

(2) For clause seventhly of section 24 the following shall be tion 478 (2). deemed to be substituted, namely :-

"seventhly, any outlay on additions or improvements to land acquired, which was incurred after the date of the publication of the declaration under section 6, unless such additions or improvements were necessary for the maintenance of any building in a proper state of repair."

16. After section 24 the following shall be deemed to be inserted, namely:— .

"24A. In determining the amount of compensation to be Further provisions for awarded for any land acquired for the determining compensation. Board under this Act, the Tribunal shall also have regard to the following provisions, namely,-

(1) if the owner of any land acquired under this Act has, [1808, proposed after the commencement of the Calcutta Improvement Act, 1911, and within two years preceding the date of the publication of the declaration under section 6 of this Act, furnished any return, under section 156 of the Calcutta Municipal Act, 1899, Ben. Act III of 1899 of the rent or annual value of such land, then the rent or annual value of such land shall not, unless the Tribunal otherwise directs, be deemed to be greater than the amount so returned:

Provided that, if any addition or improvement to such land has been made after the date of such return and before the date of the publication of the declaration under section letting-value of the land which is due to such addition or improvement; 6, the Tribunal may take into consideration any increase in the

- (2) when any interest in any land acquired under this Act [1898, proposition acquired after the date of the publication of the declara-tion 47B (2).] tion under section 6, no separate estimate of the value of such interest shall be made so as to increase the amount of compensation to be paid for such land;
- (3) if, in the opinion of the Tribunal, any building is in a [1808, propodefective state, from a sanitary point of view, or is not in a tion 47B (9.1) reasonably good state of repair, the amount of compensation shall not exceed the sum which the Tribunal considers the building would be worth if it were put into a sanitary condition or into a reasonably good state of repair, as the case may be, minus the estimated cost of putting it into such condition or other. estimated cost of putting it into such condition or state;
- (4) if, in the opinion of the Tribunal, any building which is used or is intended or is likely to be used for human habitation, to treasonably capable of being made fit for human habitation, the amount of compensation shall not exceed the value of the materials of the building, minus the cost of demolishing the building."

- (1) After the words "the compensation" in subof the compensation "in sub-section (2) of that section, the words "and costs (if any)" shall be deemed to be inserted.
 - (2) After the words "any compensation", in the concluding proviso to sub-section (1) of section 31, the words "or costs" shall be deemed to be inserted.

(The Schedule .- Clause 16B, 16C.)

New sections 163. After section 48 the following shall be deemed [Act 1 of 1894, section 48] to be inserted, namely:—

"48A. (1) If, within a period of two years from the date of the publication of the declaracompensation to be date of the publication of the declaration under section 6, in respect of any land, the Collector has not made an award under section 11 with respect to such land, the owner of the land shall be entitled to receive compensation for the damage suffered by him in consequence of the delay.

(2) The provisions of Part III of this Act shall apply, so far as may be, to the determination of the compensation payable under this section.

"48B. No compensation shall be payable in pursuance

Sections 48 and 48A of section 48 or section 48A when proceedings for the acquisition of land have been abandoned on the execution of an agreement, or the acceptance of a payment, in pursuance of sub-section (4) of section 67A of the Calcutta Improvement Act, 1911."

Amendment of section 48 I6C. After sub-section (1) of section 49 the following shall be deemed to be inserted, namely:—

"(Ia) For the purposes of sub-section (I), land which is held with and attached to a house and is reasonably required for the enjoyment and use of the house shall be deemed to be part of the house."

The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

ACT No. I of 1894.

[2nd February, 1894.]

An Act to amend the law for the acquisition of land for public purposes and for Companies.

WHEREAS it is expedient to amend the law for the acquisition of land needed for public purposes and for Companies, and for determining the amount of compensation to be made on account of such acquisition; It is hereby enacted as follows:-

PART I.

PRELIMINARY.

- 1. (1) This Act may be called the Land Acquisition Act,
 - (2) It extends to the whole of British India; and
 - (3) It shall come into force on the first day of March, 1894.

R peal.

- 2. (1) The Land Acquisition Act, 1870, and section 74 of x of 1870. the Punjab Courts Act, 1884, are hereby repealed.
- (2) But all proceedings commenced, officers appointed or authorized, agreements published and rules made under the said Land Acquisition Act shall, as far as may be, be deemed to have been respectively commenced, appointed or authorized, published and made under this Act.
- (5) Any enactment or document referring to the said Land Acquisition Act or to any enactment thereby repealed shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

- 3. In this Act, unless there is something repugnant in the subject or context,-
 - (a) the expression "land" includes benefits to arise out of land, and things attached to the earth or permanently
 - fastened to anything attached to the earth;

 (b) the expression "person interested" includes all persons claiming an interest in compensation to be made on account of the acquisition of land under this Act; and a person shall be deemed to be interested in land
 - if he is interested in an easement affecting the land;

 (c) the expression "Collector" means the Collector of a district, and includes a Deputy Commissioner and any officer specially appointed by the Local Government to perform the functions of a Collector under this Act;
 - (d) the expression "Court" means a principal Civil Court of original jurisdiction, unless the Local Government has appointed (as it is hereby empowered to do) a special judicial officer within any specified local limits to perform the functions of the Court under this Act

perform the functions of the Court under this Act [and, except for the purposes of section 54, Bill, clause 61 (a). includes the Tribunal];

(e) the expression "Company" means a Company registered under the Indian Companies Act, 1882, or under the vi of 1882. (English) Companies Acts, 1862 to 1890, or incorporated by an Act of Parliament or of the Governor General in Council, or by Royal Charter or Letters Patent;

As to the modification of Act I of 1894 in its application to the Calcutta Municipality, see Bon. Act III of 1899, s. 557.

Section 57 (2) of the Indian Electricity Act, 1910 (IX of 1910), declares as follows:-*The Local Government may, if it thinks fit, on the application of any personal company, desirous of obtaining any land for the purposes of his taking, direct that he may acquire such land under the provisions of the Acquisition Act, 1894, in the same manner and on the same conditions at the acquired if the person were a company.*

The Land Acquisition Act, 1894, with proposed [Act I modifications embodied in loco.

(Part II-Acquisition .- Sec. 4.)

- (e1) the expression "local authority" includes
 Board of Trustees constituted under
 Calcutta Improvement Act, 1911; the Bill, Schedule, the clause lua.
 - (f) the expression "public purpose" includes the provision of village-sites in districts in which the Local Government shall have declared, by notification in the official Gazettte, that it is customary for the Government to make such provision; and
 - (g) the following persons shall be deemed persons "entitled to act," as and to the extent hereinafter provided (that is to say),
 - trustees for other persons beneficially interested shall be deemed the persons entitled to act with reference to any such case, and that to the same extent as the persons beneficially interested could have acted if free from disability:
 - a married woman, in cases to which the English law is applicable, shall be deemed the person so entitled to act, and, whether of full age or not, to the same extent as if she were unmarried and of full age; and
- the guardians of minors and the committees or managers of lunatics or idiots shall be deemed respectively the persons so entitled to act, to the same extent as the minors, lunatics or idiots themselves, if free from disability, could have Provided that

- (i) no person shall be deemed "entitled to act" whose interest in the subject-matter shall be shown to the satisfaction of the Collector or [Court] Tribunal to be adverse to the interest Bill, clause 51C(1). of the person interested for whom he would otherwise be entitled to act;
 - (ii) in every such case the person interested may appear by a next friend, or, in default of his appearance by a next friend, the Collector or [Court] Bill, clause 61 C(a).

 Tribunal, as the case may be, shall appoint a guardian for the case to act on his behalf in abana no ni the conduct thereof;
 - the conduct thereof;

 (iii) the provisions of Chapter XXXI of the Code of
 Civil Procedure [1] shall, mutatis mutandis, apply XIV of 1882.

 in the case of persons interested appearing
 before a Collector or [Court] THE TRIBUNAL Bill, clause 61C(a).

 by a next friend, or by a guardian for the
 case, in proceedings under this Act; and
- (iv) no person "entitled to act" shall be competent to receive the compensation-money payable to the person for whom he is entitled to act, unless he would have been competent to alienate the land and receive and give a good discharge for TO KIND the purchase money on a voluntary sale.

PART II.

ACQUISITION.

Preliminary Investigation.

4. (1) Whenever it appears to the Local Government that land in any locality is likely to be needed for any public purpose, a notification to that effect shall be published in the official Gazette, and the Collector shall cause public notice of the of 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part II. - Acquisition .- Secs. 5-8.)

substance of notification to be given at convenient places in the said locality.

(2) Thereupon it shall be lawful for any officer either generally or specially authorized by such Government in this behalf, and for his servants and workmen,

to enter upon and survey and take levels of any land in such locality;

to dig or bore into the subsoil;

to do all other acts necessary to ascertain whether the land is adapted for such purpose;

to set out the boundaries of the land proposed to be taken and the intended line of the work (if any) proposed to be made thereon;

to mark such levels, boundaries and line by placing marks and outting trenches; and,

where otherwise the survey cannot be completed and the levels taken and the boundaries and line marked, to cut down and clear away any part of any standing crop, fence or jungle:

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for

5. The officer sc authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector or other chief revenue-officer of the district, and such decision shall be final.

Declaration of intended Acquisition.

Declaration that land is required for a public purpos 6. (1) Subject to the provisions of Part VII of this Act, whenever it appears to the Local Government that any particular land is needed for a public purpose, or for a Company, a declaration shall be made to that effect under the signature of a Secretary to such Government or of some officer duly authorized to certify its orders:

Provided that no such declaration shall be made unless the compensation to be awarded for such property is to paid by a Company, or wholly or partly out of public revenues or some fund controlled or managed by a local authority.

- (2) The declaration shall be published in the official Gazette, and shall state the district or other territorial division in which the land is situate, the purpose for which it is needed, its approximate area, and, where a plan shall have been made of the land, the place where such plan may be inspected.
- (3) The said declaration shall be conclusive evidence that the land is needed for a public purpose or for a Company, as the case may be; and, after making such declaration, the Local Government may acquire the land in manner hereinafter appearing.

After declaration Collector to take order

7. Whenever any land shall have been so declared to be needed for a public purpose or for a Company, the Local Government, or some officer authorized by the Local Government in this behalf, shall direct the Collector to take order for the acquisition of the land.

Land to bel marked out, measured and planned.

8. The Collector shall thereupon cause the land (unless it has been already marked out under section 4) to be marked out. He shall also cause it to be measured, and (if no plan has been made thereof) a plan to be made of the same.

The Land Acquisition Act, 1894, with proposed [ACT I modifications embodied in loco.

(Part II. - Acquisition .- Secs. 9-11.)

Notice to persons interested.

- 9. (1) The Collector shall then cause public notice to be given at convenient places on or near the land to be taken, stating that the Government intends to take possession of the land, and that claims to compensation for all interests in such land may be made to him.
- (2) Such notice shall state the particulars of the land so needed, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of publication of the notice), and to state the nature of their respective interests in the land and the amount and particulars of their claims to compensation for such interests, and their objections (if any) to the measurements made under section 8. The Collector may in any case require such statement to be made in writing and signed by the party or his agent.
- (3) The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue-district in which the land is situate.
- (4) In case any person so interested resides elsewhere, and has no such agent, the notice shall be sent to him by post in a letter addressed to him at his last known residence, address or place of business and registered under Part III of the Indian Post Office XIV of 1896.

 Act, 1866.[13]

Power to require and; enforce the making of statements as to names and interests.

- 10. (1) The Collector may also require any such person to make or deliver to him, at a time and place mentioned (such time not being earlier than fifteen days after the date of requisition), a statement containing, so far as may be practicable, the name of every other person possessing any interest in the land or any part thereof as co-proprietor, sub-proprietor, mortgagee, tenant or otherwise, and of the nature of such interest, and of the rents and profits (if any) received or receivable on account thereof for three years next preceding the date of the statement.
- (2) Every person required to make or deliver a statement under this section or section 9 shall be deemed to be legally bound to do so within the meaning of sections 175 and 176 of the XLV of 1800, Indian Penal Code.

Inquiry into Measurements, Value and Claims, and Award by the Collector.

Inquiry and award by Collector.

- 11. On the day so fixed, or on any other day to which the inquiry has been adjourned, the Collector shall proceed to inquire into the objections (if any) which any person interested has stated, pursuant to a notice given under section 9, to the measurements made under section 8, and into the value of the land, and into the respective interests of the persons claiming the compensation, and shall make an award, under his hand, of—
 - (i) the true area of the land;
 - (ii) the compensation which in his opinion should be allowed for the land; and
 - (iii) the apportionment of the said compensation among all the persons known or believed to be interested in the land, of whom, or of whose claims, he has information, whether or not they have respectively appeared before him; and
 - (iv) the costs which, in his opinion, should be Bill, Schedule, c.auso allowed

to any person who is found to be entitled to compensation, and who is not entitled to

of 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part II.—Acquisition.—Secs. 12-17.)

receive the additional sum of fifteen per centum mentioned in section 23, subsection (2),

as having been actually and reasonably incurred by such person in preparing his claim and putting his case before the Collector.

The Collector may disallow, wholly or in part, costs incurred by any person if he considers that the claim made by such person for compensation is extravagant.

Award of Collector when to be final.

- 12. (1) Such award shall be filed in the Collector's office, and shall, except as hereinafter provided, be final and conclusive evidence, as between the Collector and the persons interested, whether they have respectively appeared before the Collector or not, of the true area and value of the land and the apportionment of the compensation among the persons interested.
- (2) The Collector shall give immediate notice of his award to such of the persons interested as are not present personally or by their repesentatives when the award is made.

as journment 13. The Collector may, for any cause he thinks fit, from time to time adjourn the inquiry to a day to be fixed by him.

Fewer to summon and enforce attendance of witnesses and production of doorments. 14. For the purpose of inquiries under this Act, the Collector shall have power to summon and enforce the attendance of witnesses, including the parties interested or any of them, and to compel the production of documents, by the same means, and (so far as may be) in the same manner, as is provided in the case of a Civil Court under the Code of Civil Procedure.

Act V of 1908,

Matters to be considered and neglected. 15. In determining the amount of compensation, the Collector shall be guided by the provisions contained in sections 23 Bm. Schedule, clause [and 24], 24 AND 24A.

Taking possession.

Power to take pessession.

16. When the Collector has made an award under section 11, he may take possession of the land, which shall thereupon vest absolutely in the Government, free from all encumbrances.

Special powers in cases of sevency.

- 17. (1) In cases of urgency, whenever the Local Government so directs, the Collector, though no such award has been made, may, on the expiration of fifteen days from the publication of the notice mentioned in section 9, sub-section (1), take possession of any waste or arable land needed for public purposes or for a Company. Such land shall thereupon vest absolutely in the Government, free from all encumbrances.
- (2) Whenever, owing to any sudden change in the channel of any navigable river or other unforeseen emergency, it becomes necessary for any Railway Administration to acquire the immediate possession of any land for the maintenance of their traffic or for the purpose of making thereon a river-side or ghat station, or of providing convenient connection with or access to any such station, the Collector may, immediately after the publication of the notice mentioned in sub-section (1), and with the previous sanction of the Local Government, enter upon and take possession of such land, which shall thereupon vest absolutely in the Government free from all encumbrances:

Provided that the Collector shall not take possession of any building or part of a building under this sub-section without giving to the occupier thereof at least forty-eight hours' notice of his intention so to do, or such longer notice as may be reasonably sufficient to enable such occupier to remove his moveable property from such building without unnecessary inconvenience. The Land Acquisition Act, 1894, with proposed [ACT I modifications embedded in loco.

(Part II.—Acquisition.—Part III.—Reference to [Court]
THE TRIBUNAL, and Procedure thereon.—Secs. 17 A,
18.)

- (3) In every case under either of the preceding sub-sections, the Collector shall at the time of taking possession offer to the persons interested compensation for the standing crops and trees (if any) on such land and for any other damage sustained by them caused by such sudden dispossession and not excepted in section 24 or section 24A; and, in case such offer Bill, Schedule, clause is not accepted, the value of such crops and trees and the 12 (3). amount of such other damage shall be allowed for in awarding compensation for the land under the provisions herein contained.
- (4) Sub-sections (1) and (3) shall apply also in the bill, schedule, clause case of any area which is stated in a certificate granted 12 (2). By a salaried Presidency Magistrate or a Magistrate of the first class to be unhealthy.
- (5) Before granting any such certificate the Magistrate shall cause notice to be served as promptly as may be on the persons reperred to in sub-section (3) of section 9, and shall hear without any avoidable delay any objections which may be urged by them.
- (6) WHEN PROCEEDINGS HAVE BEEN TAKEN UNDER THIS SECTION FOR THE ACQUISITION OF ANY LAND, AND ANY PERSON SUSTAINS DAMAGE IN CONSEQUENCE OF BEING SUDDENLY DISPOSSESSED OF SUCH LAND, COMPENSATION SHALL BE PAID TO SUCH PERSON FOR SUCH DISPOSSESSION.

TRANSPRE OFFLAND TO BOARD. 17A. In every case referred to in section 16 or bill, schedule, clause section 17, the Collector shall, upon payment of the ¹⁸. cost of acquisition, make over charge of the land to the Board; and the land shall thereupon vest in the Board, subject to the liability of the Board to pay any further costs which may be incurred on account of its acquisition.

PART III.

Hay and provide them

REFERENCE TO [Court] THE TRIBUNAL,

Bill, clause 61 O(a).

Reference to

- 18. (1) Any person interested who has not accepted the award may, by written application to the Collector, require that the matter be referred by the Collector for the determination of the [Court] Tribunal, whether his objection be to the measure-bill, clause in C(a), ment of the land, the amount of the compensation, the persons to whom it is payable, or the apportionment of the compensation among the persons interested, or the amount of the costs bill, Schedule, clause allowed.
- (2) The application shall state the grounds on which objection to the award is taken:

Provided that every such application shall be made,-

- (a) if the person making it was present or represented before the Collector at the time when he made his award, within six weeks from the date of the Collector's award;
- (b) in other cases, within six weeks of the receipt of the notice from the Collector under section 12, sub-section (2); or within six months from the date of the Collector's award, whichever period shall first expire.

of 1894.] The Land Acquisition Act, 1894, with proposed modifications embedied in loco.

(Part III.—Reference to [Court] THE TRIBUNAL, and Procedure thereon.—Secs. 19-23.)

Collector's statement to the [Court]

- 19. (1) In making the reference, the Collector shall state, for the information of the [Court] TRIBUNAL, in writing under BIL clause 61 O(a). his hand,—
 - (a) the situation and extent of the land, with particulars of any trees, buildings or standing crops thereon;
 - (b) the names of the persons whom he has reason to think interested in such land;
 - (c) the amount awarded for damages and paid or tendered under sections 5 and 17, or either of them, and the amount of compensation and of costs (if any) Bill, Schedule, clause awarded under section 11; and
 - (d) if the objection be to the amount of the compensation, the grounds on which the amount of compensation was determined.
- (2) To the said statement shall be attached a schedule giving the particulars of the notices served upon, and of the statements in writing made or delivered by, the parties interested, respectively.

Service of

- 20. The [Court] TRIBUNAL shall thereupon cause a notice, Bill, clause 61 O(a). specifying the day on which the [Court] TRIBUNAL will proceed to Bill, clause 61 O(a). determine the objection, and directing their appearance before the [Court] TRIBUNAL on that day, to be served on the following Bill, clause 61 O(a), persons, namely:—
 - (a) the applicant;
 - (b) all persons interested in the objection, except such (if any) of them as have consented without protest to receive payment of the compensation awarded; and,
 - (c) if the objection is in regard to the area of the land or to the amount of the compensation or costs, the Bill, Schedule, clause Collector.
- Restriction e 21. The scope of the inquiry in every such proceeding shall be restricted to a consideration of the interests of the persons affected by the objection.
- receedings to be in open and all persons entitled to practise in any Civil Court in the Province shall be entitled to appear, plead and act (as the case may be) in such proceeding.
- Matters to be 23. (1) In determining the amount of compensation to be considered in awarded for land acquired under this Act, the [Court] TRIBUNAL BHI, clause 610 (a). compensation. shall take into consideration
 - first, the market-value of the land at the date of the publication of the declaration relating thereto under section 6;
 - secondly, the damage sustained by the person interested, by reason of the taking of any standing crops or trees which may be on the land at the time of the Cellector's taking possession thereof;
 - thirdly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of severing such land from his other land;
 - fourthly, the damage (if any) sustained by the person interested, at the time of the Collector's taking possession of the land, by reason of the acquisition injuriously affecting his other property, moveable or immoveable, in any other manner, or his earnings;

The Land Acquisition Act, 1894, with proposed [ACT I modifications embodied in loco.

(Part III.-Reference to [Court] THE TRIBUNAL, and Procedure thereon .- Sec. 24.)

- fifthly, if, in consequence of the acquisition of the land by the Collector, the person interested is compelled to change his residence or place of business, the reasonable expenses (if any) incidental to such change; and
- sixthly, the damage (if any) bona fide resulting from diminution of the profits of the land between the time of the publication of the declaration under section 6 and the time of the Collector's taking possession of the land.
- (2) In addition to the market-value of the land, as above provided, the [Court] TRIBUNAL shall in every case, except Bill, clause 610 (a). where the land acquired is situated in the Calcutta Municipality, Schedule, clause 14(2a). pality and within the area comprised in an improvement scheme sanctioned under the Calcutta Improvement Act, 1911, award a sum of fifteen per centum on such market-value, in consideration of the compulsory nature of the acquisition.

- (3) FOR THE PURPOSES OF CLAUSE first OF SUB-SECTION (I) OF Bill. Schedule, cla THIS SECTION,-
 - (a) THE MARKET-VALUE OF THE LAND SHALL BE DEEMED TO BE THE MARKET-VALUE ACCORDING TO THE DISPOSITION OF THE LAND AT THE DATE OF THE PUBLICATION OF THE DECLARATION RELATING THERETO UNDER SECTION
- (al) if it be shown that, before such declaration was published, the owner of the land had taken active steps and incurred expenditure to secure a more profitable disposition of the same, further compensation, based on his actual loss, may be paid to him;
- (b) IF THE MARKET-VALUE HAS BEEN INCREASED BY MEANS OF ANY IMPROVEMENT MADE BY THE OWNER OR HIS PREDECESSOR IN INTEREST WITHIN TWO YEARS BEFORE THE AFORESAID DECLARATION WAS PUBLISHED, SUCH INCREASE SHALL BE DISREGARDED, UNLESS IT BE PROVED THAT THE IMPROVEMENT WAS MADE bond fide AND NOT IN CONTEMPLATION OF PROCEEDINGS FOR THE ACQUISITION OF THE LAND BEING TAKEN UNDER THIS ACT;
- (c) IF THE MARKET-VALUE IS SPECIALLY HIGH IN COMBE-QUENCE OF THE LAND BEING PUT TO A USE WHICH IS UNLAWFUL OR CONTRARY TO PUBLIC POLICY, THAT USB SHALL BE DISREGARDED, AND THE MARKET-VALUE SHALL BE DEEMED TO BE THE MARKET-VALUE OF THE LAND IF PUT TO ORDINARY USES; and
- (d) IF THE MARKET-VALUE OF ANY BUILDING IS SPECIALLY HIGH IN CONSEQUENCE OF THE BUILDING BEING SO OVERCROWDED AS TO BE DANGEROUS TO THE HEALTH OF THE INMATES, SUCH OVERCROWDING SHALL BE DISREGARDED, AND THE MARKET-VALUE SHALL BE DERMED TO BE THE MARKET-VALUE OF THE BUILD-ING IF OCCUPIED BY SUCH NUMBER OF PERSONS ONLY AS COULD BE ACCOMMODATED IN IT WITHOUT BISK OF DANGER FROM OVERCROWDING.
- 24. But the [Court] TRIBUNAL shall not take into considera- Bill, clause sie (a).

first, the degree of urgency which has led to the acquisition;

OF 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part III.-Reference to [Court] THE TRIBUNAL, and Procedure thereon—Sec. 24A.)

secondly, any disinclination of the person interested to part with the land acquired;

thirdly, any damage sustained by him which, if caused by a private person, would not render such person liable to a suit;

fourthly, any damage which is likely to be caused to the land acquired, after the date of the publication of the declaration under section 6, by or in consequence of the use to which it will be put;

fifthly, any increase to the value of the land acquired likely to accrue from the use to which it will be put when acquired;

sixthly, any increase to the value of the other land of the person interested likely to accrue from the use to which the land acquired will be put; or,

[seventhly, any outlay or improvements on, or disposal of, the land acquired, commenced, made or effected without the sanction Bill, Schedule, clause 15 (8). of the Collector after the date of the publication of the declaration under section 6;7

seventhly, ANY OUTLAY ON ADDITIONS OR IMPROVEMENTS TO BIII, Schedule, clause LAND ACQUIRED, WHICH WAS INCURRED AFTER THE 15 (2).

DATE OF THE PUBLICATION OF THE DECLARATION UNDER SECTION 6, UNLESS SUCH ADDITIONS OR IMPROVEMENTS WERE NECESSARY FOR THE MAINTEN-ANCE OF ANY BUILDING IN A PROPER STATE OF REPAIR.

PURTHER PRO-

24A. In PETERMINING THE AMOUNT OF COMPENSATION TO Bill, Schedule, clause DETERMINING BE AWARDED FOR ANY LAND ACQUIRED FOR THE BOARD UNDER THIS ACT, THE TRIBUNAL SHALL ALSO HAVE REGARD TO THE POLLOWING PROVISIONS, NAMELY,-

> (1) IF THE OWNER OF ANY LAND ACQUIRED UNDER THIS ACT HAS, AFTER THE COMMENCEMENT OF THE CALCUTTA IMPROVEMENT ACT, 1911, AND WITHIN two years PRECEDING THE DATE OF THE PUBLICATION OF THE DECLARATION UNDER SECTION 6 of this Act, FURNISHED ANY RETURN, UNDER SECTION 156 OF THE CALCUTTA MUNICIPAL ACT, 1899, OF THE Ben. Act III of 1899. RENT OR ANNUAL VALUE OF SUCH LAND, THEN THE RENT OR ANNUAL VALUE OF SUCH LAND SHALL NOT, UNLESS THE TRIBUNAL OTHERWISE DIRECTS, BE DEEMED TO BE GREATER THAN THE AMOUNT SO RETURNED :

PROVIDED THAT, IF ANY ADDITION OR IMPROVEMENT TO SUCH LAND HAS BEEN MADE AFTER THE DATE OF SUCH RETURN AND BEFORE THE DATE OF THE PUBLICATION OF THE DECLARATION UNDER SECTION 6, THE TRIBUNAL MAY TAKE INTO CONSIDERATION ANY INCREASE IN THE LETTING-VALUE OF THE LAND WHICH IS DUE TO SUCH ADDITION OR IMPROVEMENT;

- (2) WHEN ANY INTEREST IN ANY LAND ACQUIRED UNDER THIS ACT HAS BEEN ACQUIRED AFTER THE DATE OF THE PUBLICA-TION OF THE DECLARATION UNDER SECTION 6, NO SEPARATE ESTIMATE OF THE VALUE OF SUCH INTEREST SHALL BE MADE SO AS TO INCREASE THE AMOUNT OF COMPENSATION TO BE PAID FOR SUCH LAND;
- (3) IF, IN THE OPINION OF THE TRIBUNAL, ANY BUILDING IS IN A DEFECTIVE STATE, FROM A SANITARY POINT OF VIEW, OR IS NOT IN A REASONABLY GOOD STATE OF REPAIR, THE AMOUNT OF COMPENSATION SHALL NOT EXCEED THE SUM WHICH THE TRIBUNAL CONSIDERS THE BUILDING WOULD BE WORTH IF IT WERE PUT INTO A SANITARY CONDITION OR INTO A REASONABLY GOOD STATE OF REPAIR, AS THE CASE MAY BE, minus THE ESTIMATED COST OF PUTTING IT INTO SUCH CONDITION OR STATE;

The Land Acquisition Act, 1894, with proposed [Acr I modifications embodied in loco.

(Part III.—Reference to [Court] THE TRIBUNAL, and Procedure thereon.—Part IV.—Apportionment of Compensation.—Secs. 25-30.)

(4) 1F, IN THE OPINION OF THE TRIBUNAL, ANY BUILDING WHICH IS USED OR IS INTENDED OR IS LIKELY TO BE USED FOR HUMAN HABITATION, IS NOT REASONABLY CAPABLE OF BRING MADE FIT FOR HUMAN HABITATION, THE AMOUNT OF COMPENSATION SHALL NOT EXCEED THE VALUE OF THE MATERIALS OF THE BUILDING, minus THE COST OF DEMOLISHING THE BUILDING.

Rules as to amount of compensation

- 25. (1) When the applicant has made a claim to compensation, pursuant to any notice given under section 9, the amount awarded to him by the [Court] TRIBUNAL shall not exceed the Bill, clause 610(4). amount so claimed or be less than the amount awarded by the Collector under section 11.
- (2) When the applicant has refused to make such claim or has omitted without sufficient reason (to be allowed by the [Judge] Bill, clause 610 (6). PRESIDENT OF THE TRIBUNAL) to make such claim, the amount awarded by the [Court] TRIBUNAL shall in no case exceed the Bill, clause 610 (6). amount awarded by the Collector.
- (3) When the applicant has omitted for a sufficient reason (to be allowed by the [Judge] PRESIDENT OF THE TRIBUNAL) to Bill, clause 610 (a). make such claim, the amount awarded to him by the [Court] Bill, clause 610 (a). TRIBUNAL shall not be less than, and may exceed, the amount awarded by the Collector.

Form of awards.

26. Every award under this Part shall be in writing signed by the [Judge] President of the Tribunal, and shall specify Bill, clause 610 (6). the amount awarded under clause first of sub-section (1) of section 23, and also the amounts (if any) respectively awarded under each of the other clauses of the same sub-section, together with the grounds of awarding each of the said amounts.

Ceuts

- 27. (1) Every such award shall also state the amount of costs incurred in the proceedings under this Part, and by what persons and in what proportions they are to be paid.
- (2) When the award of the Collector is not upheld, the costs shall ordinarily be paid by the Collector, unless the [Court] Bill, clause 610 (a). TRIBUNAL shall be of opinion that the claim of the applicant was so extravagant or that he was so negligent in putting his case before the Collector that some deduction from his costs should 'be made or that he should pay a part of the Collector's costs.

Collector may be directed to pay interest on excess compen-1 mtion,

28. If the sum which, in the opinion of the [Court] Tri-Bill clause 610 (a).

BUNAL, the Collector ought to have awarded as compensation

on is in excess of the sum which the Collector did award as compensation, the award of the [Court] Tribunal may direct that the Bill, clause 610 (a).

Collector shall pay interest on such excess at the rate of fix per

centum per annum from the date on which he took possession of

the land to the date of payment of such excess [into Court] to Bill, clause 610 (a).

The Tribunal.

PART IV.

APPORTIONMENT OF COMPENSATION.

Particulars of apportionment to be specified.

- 29. Where there are several persons interested, if such persons agree in the apportionment of the compensation, the particulars of such apportionment shall be specified in the award, and as between such persons the award shall be conclusive evidence of the correctness of the apportionment.
- Dispute as to provide a provided and

OF 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

Part IV .- Apportionment of Compensation .- (Part V .--Payment.—Secs. 31, 32.)

same or any part thereof is payable, the Collector may refer such dispute to the decision of the [Court] TRIBUNAL.

PART V.

PAYMENT,

31. (1) On making an award under section 11, the Collector shall tender payment of the compensation and costs (if any) Bill, Schedule, elaw awarded by him to the persons interested entitled thereto according to the award, and shall pay it to them unless prevented by some one or more of the contingencies mentioned in the next sub-section.

(2) If they shall not consent to receive it, or if there be no person competent to alienate the land, or if there be any dispute as to the title to receive the compensation or as to the apportionment of it, the Collector shall deposit the amount of the compensation and costs (if any) [in the Court to which a reference under Bill. Schedule, clause section 18 would be submitted] with the Tribunal:

Bill, clause and (a).

Provided that any person admitted to be interested may receive such payment under protest as to the sufficiency of the

Provided also that no person who has received the amount otherwise than under protest shall be entitled to make any application under section 18:

Provided also that nothing herein contained shall affect the liability of any person, who may receive the whole or any part of any compensation or costs awarded under this Act, to pay the Bill, Schedule, same to the person lawfully entitled thereto.

- (3) Notwithstanding anything in this section, the Collector may, with the sanction of the Local Government, instead of awarding a money compensation in respect of any land, make any arrangement with a person having a limited interest in such land, either by the grant of other lands in exchange, the remission of land-revenue on other lands held under the same title, or in such other way as may be equitable, having regard to the interests of the parties concerned.
- (4) Nothing in the last foregoing sub-section shall be construed to interfere with or limit the power of the Collector to enter into any arrangement with any person interested in the land and competent to contract in respect thereof.

(1) If any money shall be deposited [in Court] with Bill, clause 610(a). THE TRIBUNAL under sub-section (2) of the last preceding section, and it appears that the land in respect whereof the same was awarded belonged to any person who had no power to alienate the same, the [Court] TRIBUNAL shall-

Bill, clause 610(a).

- (a) order the money to be invested in the purchase of other lands to be held under the like title and conditions of ownership as the land in respect of which such money shall have been deposited was held, or
- (b) if such purchase cannot be effected forthwith, then in such Government or other approved securities as the [Court] TRIBUNAL shall think fit;

Bill, clause 610 (a).

and shall direct the payment of the interest or other proceeds arising from such investment to the person or persons who would for the time being have been entitled to the possession of the said land; and such moneys shall remain so deposited and invested until the same be applied—

- (i) in the purchase of such other lands as aforesaid; or
- (ii) in payment to any person or persons becoming absolutely entitled thereto.

The Land Acquisition Act, 1894, with proposed [ACT I modifications embodied in loco.

(Part V .- Payment .- Part VI .- Temporary Occupation of Land .- Secs. 33-36.)

- (2) In all cases of moneys deposited to which this section applies, the [Court] Tribunal shall order the costs of the following Bill, clause CIC(a). matters, including therein all reasonable charges and expenses incident thereto, to be paid by the Collector, namely:—
 - (a) the costs of such investments as aforesaid;
- (b) the costs of the orders for the payment of the interest or other proceeds of the securities upon which such moneys are for the time being invested, and for the payment [out of Court] BY THE TRIBUNAL of the princi-Bill, clause 61C(a), pal of such moneys, and of all proceedings relating thereto, except such as may be occasioned by litiyen live gation between adverse claimants.

33. When any money shall have been deposited [in Court] Bill, clause 610(a). depo with the Tribunal under this Act for any cause other than that mentioned in the last preceding section, the [Court] Tribunal bill, clause 610(a). may, on the application of any party interested or claiming an interest in such money, order the same to be invested in such Government or other approved securities as it may think proper, and may direct the interest or other proceeds of any such investment to be accumulated and paid in such manner as it may consider will give the parties interested therein the same benefit therefrom as they might have had from the land in respect whereof such money shall have been deposited, or as near thereto as may be.

Payment interest.

34. When the amount of such compensation is not paid or deposited on or before taking possession of the land, the Collecter shall pay the amount awarded, with interest thereon at the rate of six per centum per annum, from the time of so taking possession until it shall have been so paid or deposited.

PART VI.

TEMPORARY OCCUPATION OF LAND.

- 35. (1) Subject to the provisions of Part VII of this Act, whenever it appears to the Local Government that the temporary occupation and use of any waste or arable land are needed for any public purpose, or for a Company, the Local Government may direct the Collector to procure the occupation and use of the same for such term as it shall think fit, not exceeding three years from the commencement of such course. exceeding three years from the commencement of such occupation.
- (2) The Collector shall thereupon give notice in writing to the persons interested in such land of the purpose for which the same is needed, and shall, for the occupation and use thereof for such term as aforesaid, and for the materials (if any) to be taken therefrom, pay to them such compensation, either in a gross sum of money, or by monthly or other periodical payments, as shall be agreed upon in writing between him and such persons respec-tively. tively.

(3) In case the Collector and the persons interested differ as to the sufficiency of the compensation or apportionment thereof, the Collector shall refer such difference to the decision of the [Count] TRIBUNAL.

Bill, clause 610 (a).

ower to onter

36. (1) On payment of such compensation, or on executing ke sion, and such agreement or on making a reference under section 35,

the Collector may enter upon and take possession of the land, and use or permit the use thereof in accordance with the terms of the said notice.

of 1894.] The Land Acquisition Act, 1894, with proposed modifications embodied in loco.

(Part VI.—Temporary Occupation of Land.—Part VII.—Acquisition of Land for Companies.—Secs. 37-41.)

(2) On the expiration of the term, the Collector shall make or tender to the persons interested compensation for the damage (if any) done to the land and not provided for by the agreement, and shall restore the land to the persons interested therein:

Provided that, if the land has become permanently unfit to be used for the purpose for which it was used immediately before the commencement of such term, and if the persons interested shall so require, the Local Government shall proceed under this Act to acquire the land as if it was needed permanently for a public purpose or for a Company.

Difference as to condition of land.

37. In case the Collector and persons interested differ as to the condition of the land at the expiration of the term, or as to any matter connected with the said agreement, the Collector shall refer such difference to the decision of the [Court] TRIBUNAL. BIII, clause 61C (a).

PART VII.

ACQUISITION OF LAND FOR COMPANIES.

be authorised to enter and survey.

38. (1) Subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, the Local Government may authorise any officer of any company desiring to acquire land for its purposes to exercise the powers conferred by section 4.

(2) In every such case section 4 shall be construed as if for the words "for such purpose" the words "for the purposes of the Company" were substituted; and section 5 shall be construed as if after the words "the officer" the words "of the Company" were inserted.

Previous concent of Local Government and execution of agreement necessary.

39. The provisions of sections 6 to 37 (both inclusive) shall not be put in force in order to acquire land for any Company unless with the previous consent of the Local Government, nor unless the Company shall have executed the agreement hereinafter mentioned

Previous inquiry.

- 40. (1) Such consent shall not be given unless the Local Government be satisfied, by an inquiry held as hereinafter provided,—
 - (a) that such acquisition is needed for the construction of some work, and
 - (b) that such work [1] is likely to prove useful to the public.

(2) Such inquiry shall be held by such officer and at such time and place as the Local Government shall appoint.

(3) Such officer may summon and enforce the attendance of witnesses and compel the production of documents by the same means and, as far as possible, in the same manner as is provided by the Code of Civil Procedure in the case of a Civil Court.

Act V of 1908.

Agreement with Secretar of State in

- 41. Such officer shall report to the Local Government the result of the inquiry, and, if the Local Government is satisfied that the proposed acquisition is needed for the construction of a work, and that such work is likely to prove useful to the public, it shall, subject to such rules as the Governor General of India in Council may from time to time prescribe in this behalf, require the Company to enter into an agreement with the Secretary of State for India in Council, providing to the satisfaction of the Local Government for the following matters, namely:—
 - (1) the payment to Government of the cost of the acquisition;

[1] Section 57 (1) of the Indian Electricity Act, 1910 (IX [of 1910), declares as follows:—
"In section 40, sub-section (1), clause (b), and section 41, sub-section (5), of the Land Acquisition Act, 1894, the term "work" shall be deemed to include electrical currey supplied, or to be supplied, by means of the work to be constructed."

The Land Acquisition Act, 1894, with proposed [ACT] modifications embodied in loco.

(Part VII. - Acquisition of Land for Companies .-Part VIII .- Miscellaneous .- Secs. 42-45.)

- (2) the transfer, on such payment, of the land to the Company;
- (3) the terms on which the land shall be held by the Company;
- (4) the time within which, and the conditions on which, the work shall be executed and maintained; and
- (5) the terms on which the public shall be entitled to use the work [1].

Publication of

42. Every such agreement shall, as soon as may be after its execution, be published in the Gazette of India, and also in the local official Gazette, and shall thereupon (so far as regards the terms on which the public shall be entitled to use the work) have the same effect as if it had formed part of this Act.

49. (1) The provisions of this Act shall not be put in force for the purpose of acquiring a part only of any house, manufactory or other building, if the owner desire that the whole of such house, manufactory or building shall be so acquired:

Provided that the owner may, at any time before the Collector has made his award under section 11, by notice in writing, withdraw or modify his expressed desire that the whole of such house, manufactory or building shall be so acquired:

Provided also that, if any question shall arise as to whether any land proposed to be taken under this Act does or does not form part of a house, manufactory or building within the meaning of this section, the Collector shall refer the determination of such question to the [Court] TRIBUNAL, and shall not take possession Bill, clause GIIO(4), of such land until after the question has been determined.

In deciding on such a reference the [Court] TRIBUNAL shall Bill, clause at G (2), have regard to the question whether the land proposed to be taken is reasonably required for the full and unimpaired use of the house, manufactory or building. ATTUON VO

The 10th Month, 2011.

The Land Acquisition Act, 1894, with [Act I 1894.] proposed modifications embodied in loco.

(Part VIII.-Miscellaneous.- Secs. 50-55.)

- (1a) For the purposes of sub-section (1), land which is Bill, Schedule, clause held with and attached to a house and is reasonably required for the enjoyment and use of the house shall be deemed to be part of the house.
- (2) If, in the case of any claim under section 23, sub-section (1), thirdly, by a person interested, on account of the severing of the land to be acquired from his other land, the Local Government is of opinion that the claim is unreasonable or excessive, it may, at any time before the Collector has made his award, order the acquisition of the whole of the land of which the land first sought to be acquired forms a part.
- (3) In the case last hereinbefore provided for, no fresh declaration or other proceedings under sections 6 to 10, both inclusive, shall be necessary; but the Collector shall without delay furnish a copy of the order of the Local Government to the person interested, and shall thereafter proceed to make his award under section 11.

Acquisition of land at cost of a local authority or Company.

- 50. (1) Where the provisions of this Act are put in force for the purpose of acquiring land at the cost of any fund controlled or managed by a local authority or of any Company, the charges of and incidental to such acquisition shall be defrayed from or by such fund or Company.
- (2) In any proceeding held before a Collector or [Court] THE Bill, clause 61 O(a). TRIBUNAL in such cases, the local authority or Company concerned may appear and adduce evidence for the purpose of determining the amount of compensation:

Provided that no such local authority or Company shall be entitled to demand a reference under section 18.

Exemption from stamp-

51. No award or agreement made under this Act shall be chargeable with stamp-duty, and no person claiming under any such award or agreement shall be liable to pay any fee for a copy of the same.

Notice in case of suits for anything done in pursuance of Act. 52. No suit or other proceeding shall be commenced or prosecuted against any person for anything done in pursuance of this Act, without giving to such person a month's previous notice in writing of the intended proceeding, and of the cause thereof, nor after tender of sufficient amends.

Code of Civil Procedure to apply to proceedings before Court, 53. Save in so far as they may be inconsistent with anything contained in this Act, the provisions of the Code of Civil Procedure Activ of 1908, shall apply to all proceedings before the [Court] TRIBUNAL under Bill, clause 61 C (4). this Act.

Appeals in proceedings before Court,

54. Subject to the provisions of the Code of Civil Procedure Act v of 1908, applicable to appeals from original decrees, an appeal shall lie to the High Court from the award or any part of the award of the Court in any proceedings under this Act.

Power to make rules.

- 55. (1) The Local Government shall have power to make rules, consistent with this Act, for the guidance of officers in all matters connected with its enforcement, and may from time to time alter and add to the rules so made.
- (2) The power to make, alter and add to rules under subsection (1) shall be subject to the condition of the rules being made, altered or added to after previous publication.
- (3) All such rules, alterations and additions shall, when sanctioned by the Governor General in Council, be published in the official Gazette, and shall thereupon have the force of law.

CALCUTTA,

F. G. WIGLEY.

The 10th March, 1911,

Secretary to the Bengal Legislative Council.

The Calcutta Gazette.

WEDNESDAY, APRIL 5, 1911.

PART IV

Bills introduced in the Bengal Tegislative Council, Reports of Select Committees presented to that Council, and Bills published under Rule 34.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Bill was introduced in the Bengal Legislative Council on the 1st April, 1911, and is hereby published, together with a Statement of Objects and Reasons:—

THE CHOTA NAGPUR ENCUMBERED ESTATES (AMENDMENT)
BILL, 1911.

A

BILL

further to amend the Chota Nagpur Encumbered Estates

Act, 1876.

VI of 1876.

Whereas it is expedient further to amend the Chota Nagpur Encumbered Estates Act, 1876;

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act;

55 & 56 Viet., c. 14.

It is hereby enacted as follows: -

Short title.

- 1. This Act may be called the Chota Nagpur Encumbered Estates (Amendment) Act, 1911.
- Insertion of new sec. 2. After section 2A of the Chota Nagpur Encumbered VI of 1876. toon 2B in Act VI of Estates Act, 1876, the following shall be inserted, namely:—
 - "2B. At any time after the receipt of an application under section 2 from or in the case of any holder, the Commissioner may, by order, prohibit movable property. the sale of the immovable property of such holder, or any portion thereof, in execution of any decree or order of any Civil or Revenue Court, until the passing of final orders on such application, either rejecting it or vesting the property in a manager."

Amendment

3. In the concluding paragraph of section 12 of the said Act, after the words "the publication of the order mentioned in section 2" the words "or the making of the order (if any) mentioned in section 2B" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to empower the Commissioner of the Chota Nagpur Division to prohibit the sale of immovable property, in execution of any decree or order of a Civil or Revenue Court, when an application has been made for an order vesting the property in a Manager under the Chota Nagpur Encumbered Estates Act, 1876 (VI of 1876). Section 3 of that Act prevents sales when such a vesting order has been published; and it is desirable that similar protection should be given during the period between the filing of an application and its final disposal.

- 2. The Commissioner already has, under section 208 of the Chota Nagpur Tenancy Act, 1908 (Bengal Act VI of 1908), power to prohibit the sale of tenures in execution of decrees for rent; and, until the new Code of Civil Procedure (Act V of 1908) came into force, he had power, under a notification dated the 13th June, 1882 [issued under clause 2 of section 327 of the former Code of Civil Procedure (Act XIV of 1882), and published at page 501 of Part I of the Calcutta Gazette of the 14th June, 1882], to forbid the sale of any estate or part thereof in execution of a decree of a Civil Court. Clause 2 of the Bill, therefore, in so far as it relates to decrees or orders of Revenue Courts, merely gives the Commissioner a power under the Chota Nagpur Encumbered Estates Act which he already has under the Chota Nagpur Tenancy Act, and, in so far as it relates to decrees or orders of Civil Courts, merely restores the law which was in force in Chota Nagpur up to the end of the year 1908.
- 3. Clause 3 of the Bill introduces an amendment in section 12 of the Chota Nagpur Encumbered Estates Act, 1876, which is consequential upon the amendment proposed in clause 2.

Proceedings of the Bengal Tegislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Bengal Legislative Council, assembled under the provisions of the Indian Councils Acts, 1861, 1892 and 1909.

THE Council met in the Durbar Hall in Belvedere on Saturday, the 18th February, 1911, at 11 A.M.

present:

The Hon'ble SIR EDWARD NORMAN BAKER, K.C.S.I., Lieutenant-Governor of Bengal, presiding.

The Hon'ble Mr. F. A. SLACKE, C.S.I., Vice-President.

The Hon'ble Mr. F. W. Duke, c.s.i.

The Hon'ble RAI KISORI LAL GOSWAMI BAHADUR.

The Hon'ble Mr. W. C. MACPHERSON, C.S.I.

The Hon'ble Mr. D. J. Macpherson, c.i.e.

The Hon'ble Mr. E. W. Collin.

The Hon'ble C. J. STEVENSON-MOORE.

The Hon'ble Mr. T. BUTLER.

The Hon'ble Mr. E. P. CHAPMAN.

The Hon'ble Mr. J. G. CUMMING.

The Hon'ble Mr. H. WHEELER, C.I.E.

THE Hon'ble MR. B. K. FINNIMORE.

The Hon'ble Mr. S. L. Maddox.

The Hon'ble B. C. MITRA.

The Hon'ble Mr. G. W. KUCHLER.

The Hon'ble Mr. L. F. MORSHEAD.

The Hon'ble Ma. C. H. BOMPAS.

The Hon'ble Mr. C. E. A. W. OLDHAM.

The Hon'ble Nawab Saivid Muhammad, Khan Bahadur.

The Hon'ble MR. W. R. GOURLAY.

The Hon'ble Mr. C. F. PAYNE.

The Hon'ble Maharaja Sir Prodyot Kumar Tagore, Kr.

THE Hon'ble SIR FREDERICK DUMAYNE, KT.

The Hon'ble Kumar Shiba Nandan Prasad Singh.

The Hon'ble BABU BHUPENDRA NATH BASU.

The Hon'ble Rai Sita Nath Ray Bahadur.

The Hon'ble Sir Bijay Chand Mahtab, K.C.I.E., Maharajadhiraja Bahadur of Burdwan.

The Hon'ble Maharaja Manindra Chandra Nandi.

The Hon'ble Maharaj-Kumar Gopal Saran Narayan Singh.

The Hon'ble BABU KIRTANAND SINHA.

The Hon'ble Raja Rajendra Narayan Bhanja Deo.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI.

The Hon'ble Mr. K. B. DUTT.

The Hon'ble MAULVI SAIYID ZAHIR-UD-DIN.

The Hon'ble Mr. T. R. FILGATE.

The Hon'ble RAI SHIBA SHANKAR SAHAY BAHADUR.

The Hon'ble Mr. MADHU SUDAN DAS, C.I.E.

The Hon'ble Rai Baikuntha Nath Sen, Bahadur.

The Hon'ble BABU MAHENDRA NATH ROY.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN.

The Hon'ble BABU BRAJA KISHOR PRASAD.

The Hon'ble Mr. DIP NARAYAN SINGH.

The Hon'ble BABU BAL KRISHNA SAHAY.

OATH OR AFFIRMATION OF ALLEGIANCE.

1. The Hon'ble Mr. Collin, the Hon'ble Mr. Finnimore and the Hon'ble Babu Mahendra Nath Ray made the prescribed oath or affirmation of their allegiance to the Crown.

QUESTIONS AND ANSWERS.

The Hon'ble Babu Braja Kishor Prasad withdrew the following question of which he had given notice—

- I.—(a) Is the Government aware that the promotions and confirmations of several members of the Provincial Judicial Service have not been published in the Gazette for about a year?
 - (b) Is there any special reason for this delay?
 - (c) If so, what is the reason?

TRANSFER OF SUBORDINATE JUDGES AND MUNSIFS FROM EASTERN BENGAL AND ASSAM TO BENGAL.

The Hon'ble BABU BRAJA KISHOR PRASAD asked:-

- II.—(a) Will the Government be pleased to state whether it has any intention of taking Subordinate Judges and senior Munsifs from the Province of Eastern Bengal and Assam to fill up some of the present vacancies in this Province?
- (b) If so, does the Government intend to place the services of a corresponding number of officers of corresponding grades of this Province at the disposal of the Government of Eastern Bengal and Assam?

The Hon'ble Mr. CHAPMAN replied :-

- (a) "Two Subordinate Judges have been transferred from Eastern Bengal and Assam to fill vacancies in this Province.
- (b) The Government does not intend to place a corresponding number of officers of this Province at the disposal of the Government of Eastern Bengal and Assam."

The Hon'ble BABU BRAJA KISHOR PRASAD asked:-

III.—Having regard to the fact that a special grade of Rs. 500 has been created in the Judicial Service of the new Province, will the Government be pleased to consider that the transfer of Subordinate Judges and senior Munsifs from that Province would delay the promotion of the members of the Judicial Service in this Province and would cause great hardship to them?

The Hon'ble Mr. CHAPMAN replied:-

"Before consenting to the transfer of Subordinate Judges from Eastern Bengal and Assam, the Government carefully considered the interests of the members of the Judicial Service of this Province."

PENSIONS OF JUDICIAL OFFICERS IN THE PROVINCIAL SERVICE.

The Hon'ble BABU BRAJA KISHOR PRASAD asked:-

- IV.—(a) Will the Government be pleased to state whether a superannuation or an invalid pension, granted to a Judicial officer in the Provincial Service in Bengal, is liable to reduction if his substantive and permanent appointment begins after he has attained the age of 30 years?
- (b) Will the Government be pleased to state whether persons appointed to a Judicial office in the Provincial Service in Madras are exempted from any such rule?
- (c) Will the Government be pleased to state whether it is not a fact that Judicial officers in Bengal who are recruited from the Bar are mostly made permanent after they have attained the age of 30 years, like the same class of officers in Madras?

- (d) Will the Government be pleased to state whether it intends to take steps to exempt the Subordinate Judicial officers of Bengal from the operation of the said rule?
 - (e) If not, will the Government be pleased to state its reasons?

The Hon'ble Mr. CHAPMAN replied:-

- (a) "The answer is in the affirmative.
- (b) This Government has no information at present, but will inquire.
- (c) Somewhat over fifty per cent. of the Judicial Officers in Bengal recruited from the Bar attain the age of 30 years before they obtain permanent appointments. This Government has no information to enable a reply to be given to the portion of the question relating to the Presidency of Madras.
- (d) & (e) This Government will consider whether the Government of India should be moved to make the exemption proposed."

APPOINTMENT OF MUSSALMAN SUB-INSPECTORS OF POLICE.

The Hon'ble Dr. Abdullah-al-Mamun Suhrawardy asked:—

V.—Will the Government be pleased to state—

- (i) the number of duly qualified Mussalman candidates for appointment as Sub-Inspector of Police who have been recommended, during the last five years, by the various District Committees in the Burdwan, Presidency and Orissa Divisions;
 - (ii) the number of appointments actually given to such Mussalman candidates by the Inspector-General of Police at the final selection during that period; and
- (iii) the proportion which these appointments bear to the total number of appointments? TO T

The Hon'ble Mr. Stevenson-Moore replied :-

"The figures for the year 1906 are not available, the records having been destroyed in accordance with the rules. The information required by the Hon'ble Member for the years 1907, 1908, 1909 and 1910 is as follows:—

- (i) The number of duly qualified Mussalman candidates for appointment as Sub-Inspector of Police who have been recommended, during the last four years, by the various District Committees in the Burdwan, Presidency and Orissa Divisions is 71.
 - (ii) The number of appointments actually given to such Mussalman candidates by the Inspector-General of Police at the final selection during that period is 47.
 - (iii) The proportion of appointments of Mussalmans to the total number of appointments is 23.5 per cent."

The Hon'ble Dr. Abdullah-al-Mamun Suhrawardy asked:-

VI.--Will the Government be pleased to state the number of Mussalman candidates recommended by the District Committee of Howrah during the last seven years for appointment as Sub-Inspector of Police and the number of candidates actually appointed by the Inspector-General of Police during that period?

The Hon'ble Mr. Stevenson-Moore replied:-

"The number of Mussalman candidates recommended by the District Committee of Howrah in the years 1904, 1905, 1906 is not known, the papers having been destroyed according to rule. In the four years 1907-1910 the number of Mussalman candidates recommended by the District Committee was 4 (of whom 2 were not qualified under the rules).

In the seven years 1904 to 1910 the number of such candidates actually appointed was 3, 1 in 1906 and 2 in 1907."

SUB-DEPUTY COLLECTORS.

The Hon'ble Dr. Abdullah-al-Mamun Suhrawardy asked :- old no is odd

- VII.—(a) Has the attention of the Government been drawn to a paragraph which appeared in the editorial columns of the Bengales of 15th October, 1910, headed "Sub-Deputy Collectors"?
- (b) Will the Government be pleased to state why Sub-Deputy Collectors, on promotion to the rank of Deputy Collectors, are styled Probationary Deputy Collectors?
- (c) Is it not the fact that Sub-Deputy Collectors, on first appointment as Probationers, have to undergo a course of training and to pass departmental examinations which are the same as for Probationary Deputy Collectors?
- (d) Are these Probationary Deputy Collectors (as promoted Sub-Deputy Collectors are now called) again subjected to a training which they had already undergone?
 - (e) If not, what is the object of calling them Probationers?
- (f) Is the Government aware that, in the province of Eastern Bengal and Assam, Sub-Deputy Collectors on promotion are given sub. pro tem. appointments as Deputy Collectors of the last grade?
- (g) Is it not the case that up till 1906 Sub-Deputy Collectors on promotion were appointed sub. pro tem. to the last grade of Deputy Collectors?
- (h) What has been the average duration of the probationary period for promoted Sub-Deputy Collectors for the last three years?

December, to the effect that Book Jogesdan Putt Bose, Superdieure Judge,

The Hon'ble Mr. Stevenson-Moore replied:—

- (a) "The answer is in the affirmative.
- (b) The Provincial Civil Service is a distinct service from the Subordinate Civil Service, and is used to fill posts which require higher abilities and higher qualifications. Sub-Deputy Collectors, on promotion to the Provincial Civil Service, are required by the rules to undergo a period of probation. Since probationers, recruited direct, must necessarily be subjected to this test and since all probationers previously enrolled must be furnished with appointments before provision is made for any newly appointed, it follows that the only alternatives open to Government are to appoint Sub-Deputy Collectors on probation, as now, or to refrain from promoting them until vacancies occur. Government recognises that the probationary period has, in some occasions, been unduly prolonged, and it is hoped that when the rules of appointment come under revision in 1912, some remedy will be found for this defect.
- (c) The answer is in the affirmative.
 - (d) The answer is in the negative.
 - (c) The Hon'ble Member is referred to the answer to question (b) above.

out to normathi and first (a)

ar continents in the letters, and,

S and guidant in

- (f) Government has no official information on the subject.
- (g) Prior to 1905 Sub-Deputy Collectors on promotion were appointed sub. pro tem. to fhe last grade of Deputy Collectors. The present system was introduced in 1905, and has been in force ever since, except in 1906, when for exceptional reasons a departure was made from it. The appointment rules will be liable to revision in 1912, and the question, whether promoted Sub-Deputy Collectors should still undergo a period of probation, will then be considered.
- (h) None of the officers appointed in 1909 have yet been provided with sub. pro tem. appointments. The average duration of the period of probation of those appointed in 1907 and 1908 was one year and five months."

RE-SURVEY OF ESTATES IN BIHAR.

The Hon'ble Maharaj-Kumar Gopal Saran Narayan Singh asked :-

- VIII.—(a) Will the Government be pleased to state whether there is any truth in the rumour that it is proposed to re-survey the estates in Bihar that have already been surveyed?
- (b) If so, what arrangement is to be made for the cost of the second survey, and will such arrangement allow for the cost paid by the proprietors of the estates at the time of the first survey?

The Hon'ble Mr. Cumming replied:-

- (a) "It is in contemplation to bring the record of rights in the Bihar districts up to date on the expiry of fifteen years from the final publication of the original record, and to commence operations, by October 1912, in areas in respect of which fifteen years or more have elapsed since the existing records were framed.
- (b) It is not at present possible to anticipate what orders will finally be passed on the subject of the recovery of the costs of the operations."
- TRANSFER OF SUBORDINATE JUDGES FROM EASTERN BENGAL AND ASSAM TO BENGAL, AND IMPROVEMENT OF THE STATUS AND PROSPECTS OF THE SUBORDINATE JUDICIAL SERVICE.

The Hon'ble Babu Deba Prasad Sarbadhikari asked :-

- IX.—(a) Has the attention of the Government been called to the statement in the Bengalee, dated the 4th January, 1911 (page 6, column 6, under heading "Noakhali Notes—From our own correspondent, Noakhali," dated 29th December), to the effect that Babu Jogendra Nath Bose, Subordinate Judge, has been transferred to Midnapore?
- (b) Will the Government be pleased to state whether that statement is correct or not?
- (c) If the statement is correct, would it please the Government to state the circumstances under which, and the reason for which, a member of the Eastern Bengal and Assam Subordinate Judicial Service came to be appointed as a member of the Bengal Service?
- (d) Would it also please the Government to state whether, since the separation of the Eastern Bengal and Assam cadre of the Subordinate Judicial Service from that of Bengal, any other members of the former have been appointed members of the latter service; and, if so, would the Government please state the number of such appointments, the time when they were made, and the circumstances under which, and reasons for which, such appointments were made?
- (e) Is it the intention of the Government to continue to make such appointments in the future, and, if not, what steps are proposed to be taken for preventing them?
- (f) Would it please the Government to state what steps are being taken for improving the status and prospects of the members of the Subordinate Judicial Service on the lines raised in the Council, in the Press, and generally?
- "He said—The qustions need not be answered except in so far as they had not already been answered in replying to questions II and III put by the Hon'ble Babu Braja Kishor Prasad.

The Hon'ble Mr. CHAPMAN replied as follows:-

(c) The Subordinate Judicial Service was divided in January, 1909, into two cadres—one for Eastern Bengal and the other for this province. The two cadres were not, however, prepared with strict regard to the relative

seniority of the officers in each and a considerable excess of senior officers remained in this province. It was decided that, after the separation, officers should be transferred from one province to the other only in exceptional cases, in order to remedy serious inequality in the rate of promotion to the grade of Subordinate Judge. The proportion of officers in that grade in Eastern Bengal is considerably smaller than the proportion in this province, and, both owing to this cause and to the higher average seniority of the officers in this province, vacancies here have been more numerous, and the flow of promotion has been more rapid. In August, 1910, there were six vacancies in the grade of Subordinate Judge in this province, as compared with two only in Eastern Bengal and Assam. The High Coart accordingly recommended the transfer of three senior officers to Bengal. This Government, after careful consideration of the interests of the Subordinate Judges (one of them is Babu Jogendra Nath Bose) from Eastern Bengal and Assam, subject to the condition that replacement should be made if inequality in the rate of promotion adverse to Bengal occurred in the future.

- (d) Since the separation of the Eastern Bengal and Assam cadre of the Subordinate Judicial Service, one other Subordinate Judge has, on the recommendation of the High Court, been transferred to Bengal. This was in May, 1910. The reasons for this transfer were similar to those stated in reply to question (c). In the result the officers of this province are not in any worse position than they would have been if no separation of the cadre had been effected.
- (e) The Government has no intention at present to continue to make such appointments, but can give no undertaking other than that the interests of the members of the Provincial Judicial Service in this province will be very carefully considered before further transfers of Subordinate Judges from Eastern Bengal and Assam are consented to.
- (f) The Hon'ble Member is referred to the statement made by the Hon'ble Mr. Gourlay in Council on the 30th August, 1910, in reply to the resolution which he moved on the subject. No further steps are being taken at present."

bus how for study-Leave for assistant surgeons.

The Hon'ble Babu Deba Prasad Sarbadhikari asked:--

- X.—(a) Has the attention of the Government been called to an editorial paragraph in the Bengales of the 31st January, 1911 (page 5, column 3), to the effect that Dr. Joti Lal Sen, M. B., late Demonstrator of Biology, Calcutta Medical College, who has recently passed the I. M.S. examination in England, had applied to Government for Study Leave for studying in England and was refused such leave, whereupon he resigned his appointment and had to pay a penalty of Rs. 500?
- (b) Would it please the Government to state whether the facts are substantially correct, and, if so, would it also please the Government to state when Dr. Joti Lal Sen applied for and was refused such leave, and when he resigned his appointment?
- (c) Would it please the Government to make known the reasons for such refusal, and whether there were no circumstances under which the penalty could have been remitted or the leave granted?
- (d) Would it please the Government to state whether there was any difficulty or delay in granting Dr. Joti Lal Sen the departmental certificate necessary to be produced before he could be admitted to the I. M. S. examination, and, if so, what the causes of such delay were?
- (e) Would it please the Government to state whether any other applications have been made by Assistant Surgeons for such Study Leave, and how they have been dealt with?

- (f) Is it intended to reconsider the question of Study Leave and of leave in general to officers desiring to proceed to England for study, and is it in contemplation to revise the rules regarding the same?
- (g) Do the Government intend to consider whether the penalty in cases of bond fide applications for Study Leave may not be remitted, when the Government does not see its way to granting such leave and the applicants are obliged to resign their appointments in consequence?

The Hon'ble Mr. Wheeler replied: - on and a light order good and

- (a) "The Local Government has seen the paragraph in the Bengalee newspaper referred to.
- (b) The facts stated are substantially correct, with the exception that it is inaccurate to speak of Study Leave as a form of leave which is recognised in the case of officers of the class of Civil Assistant Surgeons. Babu Joti Lall Sen, after a service under Government of two years and one month, applied on the 22nd August, 1910, for two years' leave with effect from the 1st September or any subsequent date. The leave was refused on the 5th September, and he resigned on the 22nd September with effect from the 1st October.
- (e) The leave was refused for the reason that Babu Joti Lall Sen was admitted to Government service with the intention that he should be employed as a Civil Assistant Surgeon. As such he had only worked for two years, and it is unusual, and unfair to others in any Government service, to give long leave after so short a period of duty. Moreover, during these two years Babu Joti Lall Sen had worked as Demonstrator in the Biological Department of the Medical College, Calcutta, which incidentally constitutes a valuable training at the public expense. Upon entering the service, Civil Assistant Surgeons execute an agreement binding themselves to serve Government as such for five years, under a penalty of Rs. 500 in default. Since Babu Joti Lall Sen failed to comply with the conditions of this bond the penalty was rightly exacted, and there were no special circumstances justifying its remission.
- (d) Babu Joti Lall Sen applied for the departmental certificate required by a candidate for the I. M. S., together with his request for leave. As his leave was refused, it was understood that the certificate was not required, and he did not repeat his application when tendering his resignation. His father asked for the certificate on his behalf on the 19th December, 1910, and the application was forwarded to the Director-General on the 20th December.
- (c) Within the last six years there have been nine cases in which leave has been asked for by Civil Assistant Surgeons, apparently with the intention of studying in England. In one instance, the officer concerned had over 11 years' service at the time of application, in another, nearly four years, in four, between two and three years, and in three cases, less than two years. Leave was granted in five instances and refused in four.
- (f) As already stated, Study Leave is not at present recognised in the case of Civil Assistant Surgeons, and there is no present intention of considering its introduction, or the revision of the leave rules generally. It has been decided that applications for long leave, without pay, will not ordinarily be granted in the case of Civil Assistant Surgeons of less than five years' service. Other cases will be judged upon their merits.
 - (g) Government has no such intention."

IMPROVEMENT OF THE PROSPECTS OF ASSISTANT SURGRONS.

The Hon'ble BABU DEBA PRASAD SARBADHIKABI asked:-

XI.—(a) Would it please the Government to state what has been done regarding the improvement of the prospects of Assistant Surgeons since the recent sanction towards such improvement, and when the sanctioned proposals for improvement will be given effect to?

- (b) Is it in contemplation to fully exempt Demonstrators and Assistant Professors in the Medical College and Medical Schools, Assistant Surgeons in the Chemical Examiner's Department, and such other Medical Officers as are in touch with educational work, from the Septennial examination; and is it intended to revise the rules about compelling officers to submit to such examination?
- (c) Has the question of allowances to Assistant Surgeons in the Chemical Examiner's Department been disposed of, and, if so, how?
- (d) Would it please the Government to state how many Assistant Surgeons have been promoted to Civil Surgeoncies, and how many more are proposed to be so promoted?

The Hon'ble Mr. WHEELER replied:-

- (a) "The question of the improvement of the prospects of the service of Civil Assistant Surgeons is awaiting the orders of the Government of India and the Secretary of State.
- (b) No case has as yet been made out for a general revision of the rules governing the septennial examinations of Civil Assistant Surgeons. It has been decided that Demonstrators need not ordinarily be exempted from the liability to appear at these examinations, but no case of the exemption of an Assistant Professor has as yet been submitted to Government for orders. The case of Assistant Surgeons in the Chemical Examiner's Department is governed by Government of India Resolution No. 3—10, dated the 6th January, 1904, and it has not so far been shown that any modification of these orders is required.
- (c) The Government of India has sanctioned a scale of allowances for Assistant Surgeons in the Chemical Examiner's Department of Rs. 50 rising by biennial increments of Rs. 10 to Rs. 150, subject to the condition that these officers are debarred from private practice and the medical charge of hostels. It has been left optional with the present Assistant Surgeons to accept these terms or not. Three Assistant Surgeons have agreed to these conditions, and orders have issued admitting them to the benefits of the scheme.
- (d) On the 1st February, 1911, two Assistant Surgeons held permanent appointments as Civil Surgeons, and two were officiating in such posts. It is contemplated that seven Civil Surgeoncies will eventually be given to Civil Assistant Surgeons, but as such promotion depends partly upon the retirement of officers of the Uncovenanted Medical Service, no statement can be made as to when these posts will be thus allotted."

The Hon'ble Maulvi Saivid Muhammad Fake-ud-din withdrew the following question of which he had given notice:—

- XII.—(a) Will the Government be pleased to state whether it is likely that the provision in the current year's Budget for the improvement of the prospects of Civil Assistant Surgeons will be utilized for that purpose?
- (b) Out of four Civil Surgeoncies allotted to the Civil Assistant Surgeons in Bengal, only one has so far been given to them. Will the Government be pleased to state when the remaining three Civil Surgeoncies will be given to them?

PROVINCIAL EDUCATIONAL SERVICE.

The Hon'ble Babu Deba Prasad Sarbadhikari asked:-

- XIII.—(a) Would the Government be pleased to state (i) how many posts are vacant in the different grades of the Provincial Educational Service, (ii) how long they have been vacant, (iii) for what reasons, and (iv) when it is intended to fill them, up?
- (b) Would it please the Government to make a similar statement regarding the Lower or Subordinate Educational Service?

(c) Would the Government be pleased to state whether they have under consideration any proposal to give suitable acting allowances to such members of the Provincial and Subordinate Services as are intended to be promoted to the higher services or to higher appointments in the same service?

The Hon'ble Mr. Cumming replied:-

- (a) (i) "There are twelve vacancies in the Provincial Educational Service.
- (a) (ii) and (iii) Seven of these vacancies have come into existence since 6th October, 1910; the remaining five vacancies are held in reserve for members of the superior inspecting agency, and have never yet been filled. The seven vacancies referred to above are awaiting departmental proposals for promotions in the service. The remainder cannot be filled until after the new officers of the inspecting staff have completed five years' service with effect from the dates of their appointment in 1907.
- (a) (iv) Proposals for promotions to the seven vacancies in the Provincial Educational Service are expected this month. No proposals in respect of the five remaining vacancies are anticipated before 1912.
- b) There are 47 vacancies in the Subordinate Educational Service to be filled by ordinary grade promotions. They have come into existence since December, 1909, the delay being due to the preparation of detailed proposals for the inclusion within the grades of the Subordinate Educational Service, of the Sub-Inspectors who were transferred on 1st January, 1906, to service under Government. Effect was given last month to these proposals, and it is hoped that the ordinary grade promotions will shortly be made. There are also 80 vacancies to be filled by the promotion of Deputy and Sub-Inspectors who were appointed in connection with the scheme for strengthening the inspecting staff of Bengal. These vacancies cannot be filled until the officers in question have completed four years' service.
- (c) Under the provisions of Article 140 of the Civil Service Regulations, members of the Provincial Educational Service and Subordinate Educational Service are not entitled to officiating promotion in higher grades of their respective services.

Promotions from the Subordinate to the Provincial Educational Service have already been made."

SUBORDINATE EDUCATIONAL SERVICE.

The Ho'nble Babu Deba Prasad Sarbadhikari asked:-

XIV .- Would it please the Government to state-

- (a) how many of the posts in the Subordinate Educational Service are reserved for strengthening the Inspecting Agency?
- (b) how many of such appointments have been filled? garago uda a...
 - (c) how many remain to be filled?
 - (d) when Sub-Inspectors of Schools under District Boards were transferred to Government service?
- (e) when their Provincialisation was sanctioned?
 - (f) whether their names have been entered in the service rolls, and, if so, what places have been assigned to them in the service?
 - (g) if they have not been so entered, when is it proposed to enter them, and what will be their place in the cadre, or, is it intended to have a separate cadre for them?
 - (h) whether their services under the District Boards be taken into consideration in judging their claims regarding their places in the service rolls and regarding promotion?
 - (i) whether these Sub-Inspectors have suffered any loss owing to delay in entering their names as members of the Subordinate Educational Service, and is it proposed to compensate them in any way?

The Hon'ble Mr. Cumming replied:-

- (a) "135 posts were added to the Subordinate Educational Service in connection with the scheme for strengthening the inspecting staff of Bengal.
 - (b) All these posts have been filled.
 - (c) None.
 - (d) On 1st January, 1906.
 - (e) In January, 1909.
- (f) Their names have not yet been entered in the Service Rolls, but the fact of their admission to the Subordinate Educational Service was notified on the 17th January, 1911.
- (g) It is impossible to state definitely at present what their places in the Subordinate Educational Service cadre will be, or whether they will be placed in a separate cadre of Inspecting officers.
- (h) The salary drawn by these officers under the District Boards has been taken into account in determining their relative seniority in Government service. The list published in the Notification dated 17th January, 1911, shows the relative positions of these officers in the service.
- (i) The Sub-Inspectors have suffered no greater loss than that sustained by officers in any other branch of Government service in which promotions have necessarily been delayed—a fact which is always taken into consideration in fixing the dates from which such promotions are to take effect."

, FLOODS IN THE BEGUA HANA TRACTS.

The Hon'ble Babu Deba Prasad Sarbadhikari asked:-

- XV.—(a) Will the Government be pleased to state what has been done for the prevention of floods in the Begua Hana tracts since the last Budget debate regarding the matter?
- (b) If any scheme has been prepared for relieving the area, will the Government be pleased to lay the same on the table?
- (c) If no scheme has been yet prepared, would the Government be pleased to state when it is likely to be prepared, and what lines it is intended that the scheme should take?

to the or the section food the food west that sorthward in the section

The Hon'ble Ma. Butler replied:

- (a) "Certain preliminary schemes have been prepared and inquiries regarding them are being carried out.
- (b) & (c) A preliminary scheme for diverting the low floods of the Damodar has been prepared, whereby it is estimated that the cost will be about 2 lakhs, with a subsequent eventual cost of 1½ to 2 lakhs more. To attempt to divert the high floods from the Begua Channel would result in the embankments lower down, on both sides of the Damodar river, being breached. This scheme is now with the Commissioner of the Division, with a view to consider the utility of the project and to ascertain whether the parties to be benefited should meet the whole or any part of the expenditure. To facilitate the escape of the high floods into the Rupnarain river, a scheme estimated to cost Rs. 65,000, provided that no compensation is necessary, has been prepared for retiring the embankments on both sides of the Buxi Khal. The question relating to the need, or otherwise, of compensation is being considered by the Divisional Commissioner. At this stage it is not considered to be likely to serve any useful purpose to lay these schemes on the table."

STATUTORY CIVILIANS.

The Hon'ble Maulvi Saivid Muhammad Fakk-ud-din asked :-

- XVI.—(a) Will the Government be pleased to state why Statutory Civilians do not get promotion to Divisional Commissionerships and High Court Judgeships?
- (b) Is there anything in the Statute debarring them from such promotion?
- (c) Is it or is it not a fact that juniors in service have got promotion, temporary or permanent, to Divisional Commissionerships or High Court Judgeships to the entire exclusion of Statutory Civilians?

The Hon'ble Mr. Stevenson-Moore replied: -

- (a) "Promotion to the high offices named is regulated by selection in the case of members of the Indian Civil Service and Statutory Civilians alike. Moreover, the promotions of Statutory Civilians are governed by special rules. A Statutory Civilian does not belong to any organised service. Each step that he may gain is treated as a fresh appointment under the rules framed under the Statute. His claims to advancement depend entirely on the merit and ability that he may display. Under the application of these principles it has not as yet been possible to select any Statutory Civilian to fill the high offices named.
- (b) There is no legal bar to the appointment of Statutory Civilians to the offices named.
- (c) It is a fact that Statutory Civilians have been passed over for promotion to Divisional Commissionerships in favour of juniors in service. Members of the Indian Civil Service have similarly been passed over. It is not a fact that any Statutory Civilian has been passed over for High Court Judgeships in favour of a member of the Indian Civil Service of lower standing."

JUNIOR FECRETARYSHIP TO THE BOARD OF REVENUE.

The Hon'ble Maulyi Saiyid Muhammad Fakk-ud-din asked:-

- XVII.—(a) Will the Government be pleased to state why the Junior Secretaryship to the Board of Revenue has been filled by a Covenanted Civilian instead of by a member of the Provincial Executive Service?
- (b) Is it or is it not a fact that this post has been reserved for members of the Provincial Executive Service?

The Hon'ble Mr. Stevenson-Moore replied:-

- (a) "The Junior Secretaryship to the Board of Revenue has been filled by a Covenanted Civilian instead of by a member of the Provincial Executive Service because no officer of the latter Service was available possessing the exceptional qualifications which are requisite for the proper discharge of the duties of this post, and because such a selection was necessary in the interests of the public service.
- (b) It is not the fact that this post has been reserved for members of the Previncial Executive Service. The effect of the rules governing appointment to it is that members of the Provincial Executive Service are eligible, provided that they possess the special qualifications required. Now that the Board of Revenue consists of one Member only, it is particularly necessary that both the Secretaries to the Board should be officers possessing, in a marked degree, the special aptitude and ability required for the efficient discharge of their duties."

UNDER-SECRETARYSHIP TO THE GOVERNMENT OF BENGAL.

The Hon'ble Maulyi Saiyid Muhammad Fake-ud-din asked :-

XVIII. - (a) Will the Government be pleased to state whether any Under-Secretaryship to the Government of Bengal is held by any member of the Provincial Executive Service?

- (b) If not, will the Government be pleased to state the reasons?
- (c) Is it a fact that one of these posts has been reserved for the members of that service?

The Hon'ble Mr. Stevenson-Moore replied:-

One Under-Secretaryship to Government has been declared open to members of the Provincial Civil Service on the same conditions as the Junior Secretaryship to the Board."

ASSISTANT SUPERINTENDENTS AND DEPUTY SUPERINTENDENTS OF POLICE.

The Hon'ble MAULYI SAIYID MUHAMMAD FARR-UD-DIN asked:-

XIX.—(a) Will the Government be pleased to state why the grading of pay, and the number of appointments, of Assistant Superintendents of Police differ from those of the Deputy Superintendents of Police?

(b) Is it a fact that they rank equally in position and work?

- (c) Is it a fact that the nature of the work of Assistant Superintendent of Police and Deputy Superintendent of Police is identical?
- (d) If so, will the Government be pleased to state why Deputy Superintendents of Police draw second class travelling allowance and why Assistant Superintendents of Police draw first class travelling allowance?

The Hon'ble Mr. Stevenson-Moore replied:

(1) "It is not the fact that Assistant Superintendents of Police and Deputy Superintendents of Police rank equally in position and work. The position and functions of Assistant Superintendents and Deputy Superintendents respectively are set out in Home Department Resolution Nos. 248-59, dated the 21st March, 1905, which was published in the Gazette of India for general information and widely republished in the Press. A copy of paragraph 33 of the above-cited Resolution dealing with the constitution of the service of Deputy Superintendents is laid on the table for information. It will be observed that while the Resolution describes the functions and departmental status of the two classes of officers as similar, it indicates at the same time the essential distinction between them, vis., that Deputy Superintendents are members of a Provincial Service, whereas Assistant Superintendents belong to an Imperial Service. It is this fundamental distinction which differentiates the status and the functions, and regulates the pay and the number of appointments of the two classes of officers. The primary object in recruiting Assistant Superintendents, as members of the Imperial Service, is to secure fully qualified officers for the post of District Superintendent and the higher offices in the Police Department which the Commission held it was essential should be filled for the most part by Imperial officers. The number of assistants is accordingly limited to what is necessary to supply fully trained men to these higher offices. The number of Assistant Superintendents of the Imperial Service, however, is not sufficient for the requirements of police work. The Superintendent in the majority of districts requires one or more assistants to help him in the discharge of his duties of control and supervision, and to relieve him of the routine of office work, so that he may be free to tour and become personally acquainted with his officers and their work, and with the people and their interests. Accordingly the additional number of

follows that while the work of Assistant Superintendents and Deputy Superintendents is to a large extent identical, the functions of the Assistant Superintendent are primarily determined by the fact that he is regarded as under training to fill the post of Superintendent. The Deputy Superintendent is not primarily recruited to fill the post of Superintendent, and consequently his work, in the words of the Resolution above cited, is "to help the Superintendent in the discharge of his duties of control and supervision and to relieve him of the routine of office work so that he may be free to tour about his district." In other words, the distinction between the functions and status of Assistant and Deputy Superintendent is the same as that which exists between officers of the Imperial and Provincial Services in the general administration or in any other department. The functions of an Assistant Magistrate, so far as magisterial work goes, are identical with those of a Deputy Magistrate, those of a Covenanted Deputy Collector with those of a Deputy Collector of the Provincial Service. The status of the Junior Civilian, however, is superior, as he is recruited with a view to filling higher offices, and his functions as a whole are coloured by the same consideration.

- (2) The pay of Deputy Superintendents is fixed on the analogy of the other Provincial Services and is regulated by the same considerations, viz., that it is just, that when Europeans have to be brought to India to Ifill dertain appointments, their pay should be fixed at the higher rate necessary to enable them to meet their expenses both in India and in England, that Indians of the best class will be attracted by the lower scale of pay, and that the economy resulting from its adoption, while desirable in itself, also serves as an inducement to Government to employ them wherever possible without injury to the Is it a fact that the nature of the work of Assistant Supesivres bilduq
- (3) For the same reasons, i.e., on the analogy of the other Provincial Services, Deputy Superintendents of Police draw second class travelling tendents of Police draw second class travelling allowance and wir.sonawollar Superintendents of Police drawning allowance?

The Hon'ble Maulvi Saivid Muhammad Fakk-ud-din asked

XX.—Will the Government be pleased to state what action has been taken on the representations made by the Bihar Guardian Association of Patna in paragraphs 3 and 11 of their memorial, dated 12th August, 1908, forwarded by the Divisional Commissioner of Patna under letter No. G.—593-3, dated 22nd August, 1908, and on the suggestions made by the Committee, consisting of the Director of Public Instruction and others, formed for the purpose of inquiry into the grievances relating to the education imparted in Bihar? on end do 18 Horryman

The Hon'ble Mr. Comming ceplied: - a standarding of the Hon'ble Mr. Comming ceplied: - a standard the Hon'ble Mr.

The following resolutions of the Committee were forwarded by Government to the Calcutta University :- noisembal loitness and onit ones ent

- (a) that candidates should be required to give their roll-numbers only lastration and not their names on their answer papers; and
- (b) that examiners should be instructed not to demand too high a standard in respect of the Matriculation Examination during the first two in respect of the Matriculation Examination during the first two years of the new system.

In January, 1909, the Syndicate replied that they were unable to accept the recommendations contained in the first resolution; but stated with regard to the second resolution that care would be taken that no unreasonably high standard should be set up for the first examinations under the new reconstitutes." regulations." above some to the requirements of passes work.

RESTRICTIONS IMPOSED UPON STUDENTS OF THE PATNA LAW COLLEGE.

The Hon'ble MAULVI SAIVID MUHAMMAD, FARR-UD-DIN asked :-

XXI.—(a) Is it or is it not a fact that there is a restriction imposed upon the students of the Patna Law College so that they cannot accept any remunerative appointments during the course of their study of law?

- (b) Does such a restriction exist in other law colleges of Bengal?
- (c) If not, will the Government be pleased to state the reasons for introducing such a restriction in the case of students of the Patna Law College?

- The Hon'ble Mr. Cumming replied:—

 (a) "It is a fact that students of the Patna Law College are prohibited from accepting remunerative work during the course of their study of law.
- (b) It is believed that the prohibition is not in force in other law colleges.
- (c) The restriction was imposed on the recommendation of the local authorities at the time the college was established. The object presumably was to ensure that the student's attention during the short period of his study should be devoted to the subject of his profession. The question of the continuance of the rule, as a condition of study at Patna College, is at present engaging the consideration of the local authorities."

MOHARRAM HOLIDAYS. BARW MAN O'S BEH ON'T

I mit The Hon'ble Maulyi Saiyid Muhammad Fake-ud-din asked:-

- XXII.—(a) Is the Government aware that the officers of the Provincial Civil Service, as well as the public having connection with Law Courts, are very desirous of having the 11th day of Moharram included as a Gazetted holiday, in the annually sanctioned List of Holidays issued in the beginning of each year by the Local Government, and by the Hon'ble High Court of Calcutta, respectively, and that a memorial to this effect was submitted, as I understand, to the Government, through some of the Bihar District officers, on behalf of the members of the Provincial Service generally, of the Bar, and of suitors and others?
- (b) Will the Government be pleased to state what orders were passed upon the memorial in question?

The Hon'ble Mr. WHEELER replied:

- (a) "At present the 6 to 10 days of the Muharram inclusive are granted as holidays to the Muhammadan employees of Government. In January, 1910, two memorials were presented by certain members of the Bhagalpur and Bankipur Bars, asking that the 11th day also should be observed as a holiday, in order that officers might have that day available for return from their homes after performance of their religious duties on the preceding five days. declarate of loanelq of themserved rait fliv then
- (b) "After careful consideration of the matter the Local Government did not consider it desirable to accede to the request of the memorialists."

MUHAMMADAN HOLIDAYS IN THE EDUCATIONAL DEPARTMENT.

The Hon'ble Maulvi Saivid Muhammad Fake-ud-din asked:-

XXIII.—Is the Government aware that in the Educational Department the Muhammadan students and teachers have grievances as to there being no holidays on some Muhammadan festivals and a shortening of the number of holidays on other Muhammadan festivals? res when read and street and

The Hon'ble Mr. Cumming replied: -- answirm edit dest any work,

"It has been brought to the notice of Government that there are certain Muhammadan festivals and sacred days other than those which are recognised as public holidays. A reply has already been given to the effect that as a general rule Muhammadan teachers and students are, with the permission of the head of the institution to which they belong, allowed to absent themselves on all days on which a due regard to the ceremonies and observances of their religion prevents their attendance. It is not practicable to close all public educational institutions on the occasion of Muhammadan festivals and sacred days which are not at present recognised as public holidays."

being of the month

DISPOSAL OF THE INCOME FROM THE FERRY SERVICE BETWEEN THE SERAM.
PUR MUNICIPALITY AND THE SOUTH BARRACKPORE MUNICIPALITY.

The Hon'ble Rat Bankuntha Nath Sen Banadur asked :--- and the parions

- XXIV.—(a) Will the Government be pleased to state whether it has any intention to divide equally the income from the Ferry service now existing between Khardah (Rashkhola), Rishra, Barrackpar (Bowbazar) and Bullubhpur, between the Serampur Municipality on the right bank of the river, now solely enjoying the income, and the South Barrackpore Municipality, on the opposite bank, which gets no share?
- (b) Has it come to the notice of the Government that the South Barrackpore Municipality has to maintain the ferry ghat reads on the east bank of the river at considerable expense?

present engaging the consideration of the Leal authorities.

The Hon'ble Mr. WHEELER replied:-

(a) "Half the income from the Mohesh, Rishra and Konnaggar ferries (to which it is understood that the Hon'ble Member refers) has been enjoyed by the Serampore Municipality since 1866. The statement regarding the Bullubhpur ferry is not understood, since the request of the Municipality, made in 1896, for a share of its income was refused. No reason has been shown for depriving the Serampore Municipality, in favour of that of South Barrackpore, of an item of revenue of such long standing.

Barrackpore, of an item of revenue of such long standing.

(b) In 1886 the South Barrackpore Municipality asked for a share in certain ferry revenues on the ground that they were put to expense in the upkeep of

the approach roads. The application was then refused."

THE PIG-NUISANCE IN CERTAIN MUNICIPALITIES IN THE PRESIDENCY DIVISION.

The Hon'ble RAI BAIRUNTHA NATH SEN BAHADUR asked:

XXV.—(a) Has it come to the notice of the Government that the pignuisance is growing day by day in several Municipalities in the Presidency Division, especially in the Naihati Municipality, to the great annoyance of, and loss to, the Hindus and Muhammadans alike?

- (b) If it has, will the Government be pleased to state whether it intends to take any immediate steps for the prevention of the nuisance?
- (c) If it has not, will the Government be pleased to state whether it will cause an inquiry to be made as regards the existence of the nuisance?

The Hon'ble Mr. WHEELER replied :-

- (a) "It has been ascertained that in 1905 the Chairman of the Naihati Municipality addressed the Divisional Commissioner regarding the inadequacy of the provisions in the existing Municipal Act for the proper control of the naisance caused by pigs being kept within municipal limits. The question has recently been raised again by the same Municipality, and it appears that similar complaints have been made in several other localities. There is no evidence, however, that the nuisance is increasing.
- (b) Section 265 of the Bengal Municipal Act, 1884, requires pigs to be kept in properly fenced stys and prescribes a limit of ten animals as the maximum to be kept in any place without the written permission of the Municipal Commissioners. The ordinary provisions of the Cattle Trespass Act are also applicable. Government is not of opinion that any further immediate action is called for, although the point might be considered when the Municipal Act next comes under amendment.
 - (c) It is not considered that there is a case for a special inquiry."

SUB-INSPECTORS OF SCHOOLS.

The Hon'ble Rai Baikuntha Nath Sen Bahadur asked:-

XXVI.—Will the Government be pleased to state what has been decided as regards the posting of the Sub-Inspectors of Schools who were formerly employed under District Boards and were transferred to Government service with effect from 1st January, 1906?

The Hon'ble Mr. Cumming replied:—

"This question has already been dealt with in the answers given to the questions of the Hon'ble Babu Deba Prasad Sarbadhikari."

PROMOTIONS OF THE SUBORDINATE EDUCATIONAL SERVICE.

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR asked:-

XXVII.—Will the Government be pleased to state the reasons for which the promotions of all the officers in the Subordinate Educational Service, during the last two years, have been withheld?

The Hon'ble Mr. Cumming replied :-

"The Hon'ble Member is misinformed with regard to the period during which promotions have been withheld in the Subordinate Educational Service. Promotions have been made to ordinary grade vacancies up to December, 1909. The reasons for withholding promotions since that date have been given in the answers to the questions asked by the Hon'ble Babu Deba Prasad Sarbadhikari."

FILLING OF VACANCIES IN THE SUBORDINATE EDUCATIONAL SERVICE.

The Hon'ble Rai Baikuntha Nath Sen Bahadur asked :-

XXVIII.—Will the Government be pleased to state—

- (a) how and when the vacancies in the different grades of the Subordinate Educational Service will be filled?
 - (b) whether there will be two different cadres for the members of the teaching and the inspecting staff?
 - (c) whether all the inspecting officers will be allowed an opportunity of being trained? and
 - (d) whether the Sub-Inspectors of Schools, transferred from District Boards to Government service, will be allowed to participate in the arrangements to be made to fill the vacancies that have occurred since the date of the Secretary of State's despatch sanctioning the scheme of provincialisation of Board Sub-Inspectors?

- (a) & (b) "These questions have already been dealt with in the answers given to the questions of the Hon'ble Babu Deba Prasad Sarbadhikari.
 - (c) No scheme for training such officers has as yet been prepared.
- (d) This question has already been dealt with in the answers given to the questions of the Hon'ble Babu Deba Prasad Sarbadhikari."

THE BENGAL SECKETARIAT PRESS.

The Hon'ble Mr. K. B. DJTT asked the following questions:-

XXIX.—Will the Government be pleased to state how many printing presses there were under the Bengal Government in 1900-01, and how many in 1909-10?

XXX .- Will the Government be pleased to state-

- (a) what amounts in stock, plant, machinery and materials have been transferred from the Bengal Secretariat Press, the Tour Press and the Presidency Jail Press to the Printing Department of the Government of Eastern Bengal and Assam owing to the Partition of Bengal? and
- (b) what amount has been spent in stock, plant, machinery and materials for the Bengal Secretariat Press, the Tour Press, the Private Secretary's Press and the Presidency Jail Press, respectively, since the Partition down to the year 1909-10?
- XXXI.—(a) What have been the new labour-saving machines obtained for the Bengal Secretariat Press from Europe since 1908-09, and at what cost?
 - (b) Since when are they being worked?
- (c) What reduction in establishment has since been made in the particular departments in which they have been installed?
- XXXII.—(a) Is it a fact that, owing to the separation of the Presidency Jail Press from the control of the Bengal Secretariat Press, it has been found necessary to establish a new type-foundry and a workshop in the Bengal Secretariat Press?
- (b) What has been the initial cost for plant, tools, machinery and buildings?
- (c) When were the type metals first purchased locally, and at what cost, and when were they brought into use?
- (d) What amount of types, leads, spaces, etc., bave been cast since its establishment, and what has been the cost for establishment and type metals during that period?
- XXXIII.—Will the Government be pleased to state what were the annual establishment charges of the Bengal Secretariat Press from the year 1900-01 to 1909-10, and what was the amount of outturn of work during that period?
- XXXIV.—(a) Will the Government be pleased to state what amount of printing and book-binding work was done by private firms annually from the year 1900-01 to 1909-10?
 - (b) Does the figure of outturn include the work done by private Presses?
- XXXV.—(a) Will the Government be pleased to state up to which year, prior to the retirement of Abdul Aziz, a stationery-keeper of the Bengal Secretariat Press, were the stationery and store accounts of that office last adjusted?
- (b) Were certain discrepancies in the stock accounts reported by the auditing officer prior to May, 1904?
 - (c) If so, to what extent?
- (d) Is it a fact that a written explanation regarding certain heavy discrepancies in paper stock was submitted by Abdul Aziz on the 6th December, 1904, or thereabouts, and that no action was taken on the explanation submitted by him?
- . (e) What was the total amount of discrepancy for which explanation was obtained from Abdul Aziz?
- (f) What was the amount of discrepancies disclosed in the above audit report, and during which period did they occur?
- (g) Will the Government please lay on the table a statement showing the annual results of the stock verification in comparison with the ledger balances in: he stationery accounts of Abdul Aziz from the year 1899-1900 to the year 1903-04.

- (h) Is it a fact that Abdul Aziz, when he left work, was working at the period of a third extension of service granted to him in the interests of the public service?
- (i) What was his age at retirement?
- (1) Was it incumbent on Abdul Aziz or anybody else on his behalf, to make a second application for pension when he had already applied for pension in July, 1904?
- (k) If so, under what rules?
- XXXVI.—Will the Government please state the total number of dismissals in the Bengal Secretariat Press since February, 1907, up to January, 1911, in both the paid and the piece establishments, pensionable and non-pensionable services?
- XXXVII.—(a) How many section-holders and assistant section-holders are there now in charge of composing and distributing sections?
- (b) What were their pay and position in November, 1907, and what were they in November, 1910?
- (c) How many of them took the protection of the Insolvency Court, and how many of them are on the Committee of the Lewis Provident Fund?
 - (d) Is there any insolvent on the Committee of that Fund?

The Hon'ble Mr. Wheeler replied:-

- XXIX.—"In 1900-01 there were three printing presses under the Bengal Government, and in 1909-10 four."
- XXX.—(a) "Three hand-presses, valued at Rs. 725, were transferred to the Printing Department in Eastern Bengal and Assam after the partition.
 - (b) A statement is laid on the table giving the required information."
- XXXI.—(a) "A statement is laid on the table, showing all the machines bought since 1908-09 and their cost.
- (b) From various dates in 1910, with the exception of Items 15, 16, 17 and 20, which have not yet been brought into use.
 - (c) No reduction of establishment has been made."
- XXXII.—(a) "The answer is in the negative. The type foundry was established at the Bengal Secretariat Press primarily to meet the requirements of that Press. Moreover, the plant at the Presidency Jail Press required thorough renewal and no accommodation for a type-casting department has been provided at the new Alipur Jail, to which the Jail Press will eventually be removed.
- (b) The plant, tools and machinery cost Rs. 27,410: the buildings cost Rs. 7,246.
- (c) The first purchase of metal locally was made in December, 1908, when some tin ingots were bought at a cost of Rs. 1,847. They were brought into use in February, 1910.
- (d) 115,162 lbs. cf types, leads, spaces, etc., have been cast up to the 31st January, 1911. The cost of establishment up to the 31st January, 1911, was Rs. 4,800. The cost of type metals up to the end of 1910 amounted to Rs. 33,030."
- XXXIII.—"A statement furnishing the necessary information is laid on the table."

XXXIV.—(a) "A statement of the figures is laid on the table. viole to endeading the

- (b) The answer is in the affirmative."
- XXXV.—(a) "Abdul Aziz left the Press in May, 1904. The usual audit and inspection of accounts of the Secretariat Press for the year 1903-04 was made in connection with the triennial audit conducted in 1907.
- (b) The report of the audit of the accounts of the Secretariat Press for the years 1901-02 and 1902-03 was received in April, 1904. Certain discrepancies were then brought to notice.
- (c) The discrepancies were not numerous and were of minor importance.
 - (d) No such explanation is traceable.
 - (e) The information desired is not now available.
- (f) As already stated, the accounts of which the audit report was received in April, 1904, were those of 1901-02 and 1902-03. The discrepancies disclosed were of a variety of kinds which cannot be tabulated so as to show any aggregate amount.
 - (g) The information asked for is not available.
- (h) Abdul Aziz was 59 when he died, which presumably means that he was on his fourth extension, but no papers are now traceable.
 - (i) Reference may be made to the answer to the preceding question.
 - (1) The answer is in the negative.
 - (k) In view of the preceding answer this does not arise."

XXXVI .- " A statement is laid on the table."

XXXVII.-(a) "The numbers are as follows:-

Composing Section -				
Section-holders	***	-1 1 71	***	8
Assistant Section-holders				7
Distributing Section-		- Indeed		
Section-holder				1
Assistant Section-holders		1111		2.

- (b) A statement is laid on the table.
- (c) None of the employés named are reported to have passed through the Insolvency Court. Three of them are on the Committee of the Lewis Provident Fund.
 - (d) The answer is in the negative."

EXTENSION OF BENGAL ACT I or 1876.

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan asked :-

XXXVIII.—Will the Government be pleased to give the names of the districts, in the province subject to the Lieutenant-Governor of Bengal, to which Bengal Act No. I of 1876 (an Act to provide for the Voluntary Registration of Muhammadan marriages and divorces) has been extended?

The Hon'ble Mr. Cumming replied:-

"Bengal Act I of 1876 has been extended to Calcutta, to all the districts in the Burdwan and Presidency Divisions, and to the districts of Monghyr, Bhagalpur, Purnea, Cuttack, Balasore and Ranchi."

SYEDPORE TRUST ESTATE AND HOOGHLY IMAMBARAH.

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan asked:—
XXXIX.—Will the Government be pleased to lay on the table a
statement showing—

- (a) the annual gross income of the Syedpore Trust estate and its annual collection and administration charges,
- (b) the annual expenses of the Hooghly Imambarah, and
- (c) the names of the colleges and schools in which scholarships from the Trust Fund have been given during the last three years?

The Hon'ble Mr. Cumming replied:

- (a) "A statement is laid on the table showing the gross income of the Syedpur Trust Estate, together with the administration charges for the last three years.
- (b) Government keeps no accounts of the annual expenses of the Hooghly Imambarah. That is a matter for the Mutawalli and Committee of Management. One-third of the net income of the Syedpur Trust Estate is placed at the disposal of the Committee of Management of the Imambarah. A copy of the budget of the Mohsin Endowment Fund for the year 1909-1910, giving details of the expenditure from the Fund, was laid on the table at the meeting of this Council held on the 26th March, 1910.
- (c) In this Province scholarships paid out of the Mohsin Endowment Fund were drawn in the following colleges and schools during the three years 1907-1908 to 1909-1910:—
 - 1907-1908.—The Presidency College; the St. Xavier's College; the M.A. O. College, Aligarh; the Burdwan Raj College; Calcutta Madrasah, Arabic Department and Anglo-Persian Department; and the Balasore Zilla School.
 - 1908-1909.—The Presidency College; the St. Xavier's College; the Hooghly College; the B. N. College, Bankipore; the Calcutta Madrasah, Arabic Department and Anglo-Persian Department; and the Balasore Zilla School.
- 1909-1910.—The Presidency College; the Patna College; the City College; the Calcutta Madrasah, Arabic Department and Anglo-Persian Department; and the Balasore Zilla School.

A sum of Rs. 30,000 is annually paid out of the Fund to the Eastern Bengal and Assam Government for educational purposes.

Statement referred to in the answer to Question No. XXXIX showing the gross income of the Syedpur Trust Estate, together with the Collection and Administration Charges.

AMENDMENT OF THE BENGAL SETTLED ESTATES ACT, 1904.

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan asked :-

XL.—Will the Government be pleased to state if the Bengal Settled Estates Act, 1904, is likely to be amended during the present Legislative Session?

The Hon'ble Mr. Cumming replied: - ilens and old molf of T

"The answer is in the negative. But the working of the Act has been referred for consideration by a strong representative Committee, whose report is awaited."

VIATOR II and to CONSTITUTION OF THE GAYA DISTRICT BOARD, MITOYO (1)

The Hon'ble Mr. DIP NARAYAN SINGH asked:-

- XLI.—(a) Has the attention of the Government been drawn to the letter addressed by Babu Nand Kishore Lall, M.A., B.L., Vakil and Zamindar, Gaya, to the District Magistrate of Gaya, on the subject of the constitution of the Gaya District Board, and published in the Behares of the 6th January, 1911?
- (b) Is the Government aware that the state of affairs disclosed in that letter exists in many of the districts of Bihar?
- (c) Do the Government propose to take any steps in the matter, and, if so, on what lines?

The Hon'ble Mr. WHEELER replied :- To got side A . Comball

- (a) "The attention of Government has been drawn to the letter referred to by the Hon'ble Member.
- (b) The question raised therein is as regards the eligibility of Subdivisional Officers to sit upon District Boards as the elected representatives of the Local Boards of which they are members. It is the case that in some other Bihar districts, besides Gaya, Subdivisional Officers have been elected to the District Board by the respective Local Boards to which they belong.
- (c) The legal question is not free from doubt, but Government is willing to direct that Subdivisional Officers shall not in future stand for election by Local Boards as members of the District Boards."

 HERETERS IN TORS AND THE PROPERTY OF THE PROPERTY O

CONSTITUTION OF THE DISTRICT BOARDS IN BIHAR. A DAR LEAGUE

The Hon'ble Mr. DIP NARAYAN SINGH asked: -

XLII.—Will the Government be pleased to state the numbers of the Hindu, Muhammadan and European members of the District Boards in Bihar, and the proportion they bear to the population of the different communities in the respective districts?

The Hon'ble Mr. WHEELER replied :-

"A statement giving the information asked for is laid upon the table."

Statement referred to in the answer to Question No. XLII showing the percentage of different communities to the total population and the percentage of the same communities to the total membership of the District Boards in the Patna and Tirhut Divisions.

SUBSIDY TO A NEWSPAPER.

The Hon'ble Mr. DIP NARAYAN SINGH asked :-

XLIII.—(a) Has the attention of the Government been drawn to the following paragraph, which appeared in a recent issue of the Englishman:—

"Newspaper subsidised by Government.—Correspondence is in progress between Rai Norendra Nath Sen Bahadur and the Government of Bengal in connection with the publication of a vernacular weekly which, it is proposed, will be healthy in tone and polished in style. It seems that the idea of such a paper, to be subsidised by Government, first occurred to Sir Andrew Fraser, but, for some reason or other, he could not see the project through. It has apparently been left for Sir Edward Baker to work up Sir Andrew's project, with this difference that Sir Andrew wanted the Government to have proprietary right over the contemplated paper, whereas, according to Sir Edward Baker's project, Government is to play the role of a patron, so to speak, in connection with the administration of the paper. In Rai Norendra Nath Sen Bahadur, the veteran journalist, Sir Edward found one whom he could trust with the editorship of the proposed paper. Some time in July last, it appears, His Honour granted an interview to Mr. Sen, in the course of which the desirability of such a paper was discussed. In the result, the veteran journalist has formulated a scheme for issuing a vernacular weekly, to be named Sulov Samachar, and to be conducted on the lines of the Indian Mirror, his own organ. Under the present scheme, Government is to subscribe for 25,000 copies of each issue of the paper, which will be distributed among the schools, and as the annual subscription is proposed to be Rs. 2-8-0, the contribution to be made by the Local Government will work out at Rs. 62,500 a year. Of this sum, Rs. 15,625 are said to have already been made over to Mr. Sen. The proposed Sulov Samachar will be somewhat larger than the size of the Indian Mirror, with nine columns to each page, and will be issued from March next. It may be mentioned that the Sulov Samachar proposes to be a new continuation of the vernacular weekly with the same title which was started some years ago by the late great Brahmo leader, Keshub Chunder Sen, and was, after a brief span of e

(b) Will the Government be pleased to state whether any of the statements made in the above paragraph are true, and, if so, which?

The Hon'ble Mr. Stevenson-Moone replied :-

- (a) "The answer is in the affirmative.
- (b) The Government of Bengal has entered into an agreement with Rai Norendra Nath Sen Bahadur, Editor of the Indian Mirror, to subscribe for 25,000 copies of a weekly vernacular paper, on the lines of the Indian Mirror, which he has undertaken to publish. This agreement has been made with Rai Norendra Nath Sen Bahadur for three years, provided that the paper remains under his direction during that period. The cost to Government is limited to an annual sum of Rs. 62,500, of which a sum of Rs. 15,625 has been paid in advance. It is proposed that the copies for which Government subscribe should be distributed widely in the districts among panchayats, educational institutions and Government offices. Rai Norendra Nath Sen Bahadur is not yet in a position to announce the date on which the first number will appear."

brams bus langue of the RULE 810 OF THE JAIL CODE.

The Hon'ble Babu Kirtanand Sinha asked:

XLIV.—(a) Will the Government be pleased to state whether the provisions of Rule 810 of the Jail Code (under which all juveniles who are undergoing sentences of a year or more shall be brought under instruction in reading, writing and arithmetic) are given effect to in all the jails of the Province?

(b) If not, will the Government be pleased to name the jails in which the

said provisions have been given effect to?

(c) Will the Government be pleased to state whether it intends to order the enforcement of the provisions of the said rule in all the jails of the Province, or in all jails in which there are such prisoners?

The Hon'ble Mr. Stevenson-Moore replied :--

"Juvenile prisoners who are undergoing sentences of a year or more are confined in the Alipore Juvenile Jail or in certain selected Central Jails. In all these jails the provisions of rule 810, Jail Code, are enforced."

THE BENGAL VACCINATION (AMENDMENT) BILL, 1911.

3. The Hon'ble Mr. Slacke presented the Report of the Select Committee on the Bill further to amend the Bengal Vaccination Act, 1880.

The Hon'ble Mr. Slacke moved that the Report be taken into consideration.

The motion was put and agreed to.

5. The Hon'ble Mr. Slacke also moved that the clauses of the Bill be considered in the form recommended by the Select Committee.

The motion was put and agreed to.

The Hon'ble Sir Bijay Chand Mahtab, Maharajadhiraja Bahadur of Burdwan, withdrew, with the permission of the President, the following motions of which he had given notice:—

- (6) that clause 6 of the Bill be omitted,
- (7) if Motion No. (6) be carried, to move that sub-clause (1) of clause 21 of the Bill be omitted.

He said :-

- "Your Honour,—In view of the fact that from the statistics which I have seen, the mortality of unprotected infants between the ages of six months and one year is high; also that as dentition of infants in this country begins soon after six months, and also as some of the non-official Members, who were on the Select Committee, view with favour the reduction of this period from one year to six months, I beg to withdraw my amendment."
- 8. The Hon'ble Mr. Slacke moved that the Secretary be directed to re-number the clauses and sub-clauses of the Bill in consecutive order.

The motion was put and agreed to.

The Hon'ble Mr. Slacke also moved that the Bill be passed.

The motion was put and agreed to.

THE SAMBALPUR REPEALING AND AMENDING (RATES AND CESSES) BILL, 1911.

The Hon'ble Mr. Cumming moved that the figures "1911" be substituted for the figures "1910" in clause 1 of the Bill to repeal and amend in the district of Sambalpur certain enactments, relating to abolished rates and cesses.

of Rule #10 of the Jail Godo (abdar which will javeniles who are made

He said: __ or manageri under the said of lines arous to usay a to seem ince

"Sir, at the last meeting of the Council, I explained that the Sambalpur Repealing and Amending (Rates and Cesses) Bill was purely formal. The Bill was to be taken into consideration at the present meeting. I now beg to move that in clause 1 of the Bill, the figures '1911' be substituted for the figures '1910'."

The motion was put and agreed to.

The Hon'ble Mr. Cumming also moved that the Bill, as amended in Council, be passed.

The motion was put and agreed to.

THE ESTATES PARTITION (AMENDMENT) BILL, 1911.

The Hon'ble Mr. W. C. Macpherson moved for leave to introduce a Bill to amend the Estates Partition Act, 1897.

He said—"I ask for leave to introduce a Bill to amend the Bengal Estates Partition Act of 1897. The object of the Bill is to reduce the delays which commonly occur in the proceedings for partition of estates by Revenue-officers, which are generally known as butwara proceedings. The dilatoriness of these proceedings has frequently and indeed almost continuously engaged the attention of the Revenue authorities and of the Government. Sir Steuart Bayley and Sir Charles Elliott in succession, considered the subject during their Lieutenart-Governorships, and in the Statement of Objects and Reasons which was attached to the Bill introduced in Council by a distinguished Revenue Officer, the late Mr. Finucane, which was afterwards passed into law as the Act of 1897, it was stated that the chief and primary object of the legislation proposed was to shorten and simplify and cheapen these proceedings. A perusal of the debates of the Council and of the records of the Select Committee of the time, however, will show that the energy of the Council and of the Government was in great part diverted, first, to the issue, which was raised, as to limiting the partibility of estates and, secondly, to safeguarding the interests of tenants, with the result, as I would submit, that not enough was done in advancing what was declared to be the primary and chief object of the Bill.

of 1876 as that of 'general arrangement,' was abolished; and the stages of proceedings at which objections and appeals may be made were defined and limited. Nevertheless the proceedings for partition of estates have continued to be protracted and harassing to parties. In recent years Deputy Collectors and Sub-Deputy Collectors have been specially trained for this work, the pay of the establishments has been raised, and part of the establishment has been put upon a permanent footing. Various checks have been prescribed for the prevention of delays; and the Commissioners of Divisions recently reported that the progress made in the disposal of partitions had improved as compared with former years. The returns for last year, however, show that in the Patna and Tirhut Divisions, where most of these cases are filed, proceedings in the case of 382 estates were of more than two years' standing; and I have ascertained that in nine districts the average duration of cases recently disposed of has varied from three years in Darbhanga to seven years in Saran and over seven years in Jessore. Cases which come before the Board on appeal are frequently of many years' standing. Since I came into this room this morning, an Hon'ble Member has told me that a case has just been decided in the Monghyr district which was 22 years on the file. A Sub-Deputy Collector has told me that he had brought to an end proceedings that had been instituted before he was born.

"I should like to call forth the special interest of the Council in these proceedings, which are of special importance to proprietors of land in Bihar. In Bengal proper, except the Dacca Division, with which this Council is not concerned, partition of estates by Revenue-officers is infrequent. Proprietors of estates in Bengal ordinarily prefer to obtain such separation of their responsibilities as they think necessary by taking out what are known as 'separate accounts' under the provisions of the Revenue Sale Law and the Land Registration Act. I shall not go into the technicalities of those laws or explain in what respect 'separate accounts' differ from partition of estates.

"What I desire especially to emphasize is that to the small peasant proprietor of Bihar it is frequently of vital importance that they should be able promptly to obtain complete and undivided enjoyment of their fields and separate liabilities for the land-revenue.

"If the Council will bear with me for a few moments, I should like to explain how minute is the division of proprietary rights in some of the districts of this province. I once found in a village of Muzaffarpur of 442 acres that

there were 373 names of proprietors on the record of proprietary rights known as the khewat. After allowing for repetition of names, it is quite certain that in that village proprietors on an average owned not more than 3 or 4 acres each—certainly not more than a very small number of acres. There were eight estates in that village; the first estate was divided into 61 parcels or pattis and the second estate into 51 pattis, and so it went on through the eight estates; and there were 47 parcels of land common to two or more pattis or to two or more estates, or to all the estates. I am speaking purely of proprietary rights, not of tenant rights. Such is the intricacy of proprietary right, and such is the subdivision that exists in many districts of the province. Of the district of Saran, perhaps one-fourth or one-fifth belongs to the great estate of Hathwa; nevertheless the revenue of the Saran district is paid annually in over 100,000 small payments.

"Just half a million names of proprietors were recorded in the cadastral survey of four of the districts of North Bihar, that is, in Muzaffarpur, Darbhanga, Saran and North Monghyr, and it is stated in one of the reports that the position of the mass of the proprietors is little more than that of cultivators. To such persons the yoke of joint possession of fields and joint liability for the land-revenue frequently becomes intolerable. A family may cultivate and enjoy jointly, but when the father dies the sons desire to have separation of fields and separate liability for the revenue and cesses; and patriarchal arrangements disappear as the desire for individual status develops.

"In carrying out partition under such circumstances, it is essential that the procedure of our Revenue-officers should be simple and cheap and expeditious, because, if it is not so, we practically deny to peasant proprietors a relief which existing conditions undoubtedly require.

"It has been ascertained that in the United Provinces, where similar conditions of intricacy of proprietary right obtain, partitions are carried out much more expeditiously; and one cause of more prompt disposal in those provinces appears to be that whereas in Bengal the partition paper is submitted to the Commissioner of the Division for confirmation, in the United Provinces the partition is confirmed by the Collector. With the progress of the field survey and record-of-rights in Bengal and with the introduction of the provision made in the Act of 1897, requiring that a partition shall be made on the basis of a trustworthy survey and record of assets, the objections to confirmation by the Collector disappear. A change of this nature, with consequential provisions, is the first amendment of procedure which is proposed in the Bill. If everyone is content with the Collector's partition, it will not be necessary that the papers should go to the Commissioner of the Division at all, and it is believed that loss of time and expense to the proprietor will be saved. The origin of this proposal, Sir, is not in any wish to increase the powers of the Collector, or to reduce the work of the Commissioners, but it is to be found solely in the wish to help proprietors, and especially the small proprietors, to get their business done more expeditiously and cheaply.

"Not to take up more of the time of the Council, I shall refrain from entering into the details of this Bill, except to point out that there is a proposed restriction of second appeals to the Board of Revenue. At present the time of the Member of the Board is often taken up in determining not only whether the main features of a partition are equitable and reasonable, but in deciding whether particular plots of the cultivation, or of the village site, have been rightly assigned to this proprietor or to that proprietor, and that though there may have been concurrence of three subordinate Revenue Courts, viz., the Deputy Collector, Collector and the Commissioner, as to the reasonableness of the arrangement proposed. It will be noticed that it is proposed to restrict second appeals to the Board in the same manner as second appeals under the Code of Civil Procedure are restricted. The clause will require careful consideration because it may be difficult to say what should be regarded as questions of fact and what as questions of law in Butwara proceedings.

"I shall only add that this Bill is directed merely to the single object of shortening and simplifying and cheapening procedure. Difficulties have been

felt as to the interpretation of various important provisions of the law, and the rulings given have not always been uniform. It is not proposed, however, to deal with those difficulties in the present Bill, and they are reserved to be dealt with in a separate measure, when the action required shall have been carefully ascertained.

"The Bill, Sir, has been published for general information, and it is not proposed to do more at present than to ask for leave to introduce it and read it in Council. Opinions will then be collected on the Bill, and the next stage will be to ask for the appointment of a Select Committee. I move, Sir, that leave be given to introduce this Bill."

to make policy burner All

The Hon'ble Mr. M. S. Das said: -

"Your Honour,—The Hon'ble Mr. Macpherson, in introducing the Bill, has referred, in his remarks, to the troubles which the parties are subjected to in Tirhut, Bihar, and even in the districts of Bengal as Jessore. I should only ask him to bear in mind that there is another part of the country under Your Honour's rule, that is, Orissa, where I knew a certain case was pending for partition for over 20 years. Cases of dilatoriness of proceedings are very numerous. The fact is that in Bihar and in Orissa inheritance is governed by the mitakhara law, and in these days, when individual rights and individualism are being developed, the motives for partition of family estates are increasing. Consequently, there are frequent instances of application for partition. Nothing would be more welcome to persons interested in the revenue-paying estates than a simplification of the procedure for partition. But the Hon'ble Member, in introducing the Bill, disappointed me a bit when he said that these difficulties are not to be dealt with in the present instance. I should only request that if it be possible within the scope of the Bill—when this Bill is in the hands of the Select Committee for consideration—an attempt should be made to simplify it in such a way as to reduce the dilatoriness of proceedings. This would certainly be a great boon to many people. I hope, when considering the Bill, the difficulties which arise in Orissa, on account of the peculiar legal incidents of the tenures, and the law of inheritance will also be taken into consideration. I thought it proper to mention it to the Hon'ble Mr. Macpherson, for evidently his attention has not been drawn to the difficulties in Orissa."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said:-

"I should like, with Your Honour's permission, to make a few observations and suggestions on the Bill introduced by the Hon'ble Mr. Macpherson, at this stage. He is certainly to be congratulated in connection with the Bengal Estates Partition (Amendment) Bill. The main object of the Bill is to expedite the proceedings, curtail items of expenses and give satisfaction to parties concerned. I find, however, that no amendments are suggested with regard to one important matter, viz., Chapter II of the existing law, [1] which contains five sections which provide for right to claim partition. Section 4 provides for proprietors' right to claim partition, and section 8 provides that notwithstanding anything hereinbefore contained, no person having a proprietary interest in an estate for the term of his life only shall be entitled to claim partition under this Act.' 'Proprietor' has been defined in section 3, clause (v), as including every person who is in possession of any estate under partition, or any portion of such an estate, of any interest in any such estate or in any part of such an estate, as owner thereof. This definition excludes trustees, including shebaits of properties dedicated to Hindu deities and mutwalies of waqf properties. Now it is not desirable that this class of people—the trustees, shebaits, and mutvalies—should be excluded from claiming the rights of partitioning properties when the property is joint. There is also another class of property, which is called State property and which is held by the Secretary of State for India in Council on behalf of certain noblemen for upholding their dignity, and it would be a difficult question to decide as to who would be entitled to ask for partition in such a case if the property happens to be a joint one.

"Then, as regards widows, whose case would be covered by section 8, I do not see why widows should be deprived of the right of partition. Instances are known when one of three or four brothers dying and his share devolving upon the widow, the surviving brothers try to deprive her of her share of the property, and she is finally coerced, as it were, to agree to the terms of her brothers-in-law. The widow's interest may be in one sense called a life interest, but she has an absolute interest also under certain conditions. And there is no reason whatever why she should be deprived of the right to claim partition. I make the suggestion that while the Bill passes through different stages, these matters may be taken into consideration, and when the Act is intended for amending the existing law amendment should also be effected with regard to the question of right of partition."

The Hon'ble RAI SITA NATH RAY BAHADUR said :-

"Your Honour,-I join issue with my hon'ble friend, Rai Baikuntha Nath Sen Bahadur, with regard to what has fallen from him that a Hindu widow should have the right, under the Butwara Act, to claim partition of her husband's estate, though she has only a limited interest in it. I have no hesitation in saying that it would be disastrous to the interests of Hindu families if Hindu widows were allowed the privilege of asking for partition. If that were conceded, they would be made tools of by interested and designing persons for disturbing or breaking the joint family system, and thereby causing ruination to joint Hindu families.
"Whatever may be the right of shebaits and trustees to claim partition,

which, I must say, is of a doubtful character, it would surely be detrimental to

the interests of joint families to concede such a right to Hindu widows."

The Hon'ble Mr. MACPHERSON said: -

"In reply to what has fallen from the Hon'ble Members, I would only wish to say that the difficulties that underlie the working of the Bu'wara Act in respect of its substantive provisions have not escaped notice. In Orissa the Commissioner of the Division, Mr. Levinge, has given special attention to these difficulties. I believe that it will not be long before it will be necessary for Government and probably for this Council to consider more fundamental proposals for dealing with what I would call the difficulties of the substantive provisions of the Butwara law. To-day, Sir, however, we are concerned only with what I would call the adjective procedure, that is, the ancillary procedure of the various revenue tribunals who carry out partitions. We are not dealing with the difficult question of the conflict between the land registers and actual possession as found on the ground, or with questions of right to apply for a partition. Those difficulties, Sir, are far greater and more important than the matters of procedure which I have brought before the Council in the Bill to-day introduced. While I believe that these more important matters must come before Your Honour's Government, and perhaps at no long distance of time, before this Council, I would deprecate weighting the present Bill with anything except what relates to what I have called the adjective procedure of the Revenue Courts."

The Hon'ble Mr. W. C. Macpherson introduced the Bill, and moved that it be read in Council.

The motion was put and agreed to, and the Secretary thereupon read the title of the Bill.

RESOLUTIONS ON MATTERS OF GENERAL PUBLIC INTEREST.

The President said:-"I understand that the Hon'ble Member has" circulated his speech and that it is his intention not to read out or to deliver the whole of it. What he desires to give is a summary of it on the present occasion. If I am correct, I will call upon the Hon'ble Member to move the resolution,"

The Hon'ble Babu Braja Kishor Prasad moved the following Resolution:—
That this Council recommends to the Lieutenant-Governor in Council that
the Government should take immediate steps to increase, materially, the existing representation of the non-official Indian community on the District and
Local Boards in the Tirhut Division.

The following speech by the Hon'ble Babu Braja Kishor Prasad having been printed in advance and circulated to all Members of Council, was, by permission of the President, taken as read.

"Your Honour,-

It is with much confidence in the sympathies of the Government with the legitimate aspirations of its Indian subjects towards securing at least some share in the administration of their local affairs that I beg to move the resolution which stands in my name. The resolution refers to those principles of Local Self-Government which were introduced into this country by that noble and generous stateman, the late Lord Ripon, whose memory will ever be cherished with fondness and gratitude by the people of this country. The main object of the introduction of Local Self-Government was to interest the people in the administration of local affairs and to afford them opportunities of receiving civic training by allowing them, through their District, Local and Municipal Boards, a share in the management of their own affairs. But, Sir, it is with much regret that I have to tell you that that noble object and those high principles, instead of being realized in any appreciable degree in most of the District and Local Boards of the Tirhut Division, are, to say the least, being every day frustrated. This matter has been, many a time, brought to the notice of the Government by the people of Bihar, and the Government has always held out hopes to them. But had the Government been mindful of its promises, it would not have been necessary for me to-day to bring up this matter before this Council in the form of a resolution. Long, long have we waited and sore has been our disappointment.

"The District and Local Boards of the Tirhut Division are practically manned and absolutely controlled by the European Community, and the Indians have little or no voice on them. The people, to train whom in the methods of Local Self-Government these Boards were primarily formed, have derived no benefit whatsoever from them in that direction. Such is the condition of these Boards in Tirhut, and it requires a careful consideration at the hands of the Government. Nowhere in this Province do we find such a deplorable state of affairs as we see here. Though the mainstay of the funds available for expenditure by these Boards is the Road Cess, almost the whole of which is contributed by the Indian Community, yet we find that it is the Indians who are nowhere on these Boards of the Tirhut Division. No doubt the European Planting Community of this Division is a very important community, and it is but just and proper that it should be fairly and adequately represented on these Boards. But, Sir, it is the excessive or overrepresentation of one community at the cost of the other that we respectfully but strongly protest against. I must not here be understood as saying anything regarding the Planting Community of the Tirhut Division in any but a friendly spirit. We recognise their importance and know how advantageous it has been to have some of them on our District Boards; and we have always urged before the Government their just claims.

"You will remember, Sir, how in August, 1908, a deputation of Biharees, of which I had the honour to be one of the members, organised by the three leading associations of Bihar, viz, the Bihar Landholders' Association, the Bihar Provincial Association, the Bihar Provincial Moslem League, presented an address to Sir Andrew Fraser, the late Lieutenant-Governor of this Province, in which his attention was drawn to the representation of this community on the Provincial Council. We there said:—

This community is a strong and compact body in the Tirhut Commissionership, and it has its own efficient organization—the Bihar Planters' Association, with its head-quarters at Muzaffarpore. It is but right and proper that this important community should be directly and permanently represented in the Provincial Council. Hitherto it has been impossible for them to be represented in Council

by reason of the fact that though they swamp the District Boards of the Tirhut Division, they could not obtain the votes of the southern districts of the Patna Division. If matters therefore in the Tirhut Division are allowed to remain as at present, the chances are that the Biharee Community there may find themselves ousted from representation in Council by the District Boards which may lead to heart-burning and result in bitterness of feeling. We therefore respectfully suggest that the best course would be to give a direct representation in the Council to the Planting Community, while at the same time directing the district officers to materially reduce their number on the District Boards. This will have to our mind another great advantage. It will enable a much larger number of Biharees to receive civic training, which was the primary object of the scheme of Local Self-Government enunciated by the Government of Lord Ripon, and it was distinctly stated to be so in the resolution of the Government of India. Nor can it be urged that the reduction of the number on the District Boards of the Planting Community will result in any inefficiency, for the District Boards of the southern districts of the Patna Division are no less efficient than those of the northern districts, although they are manned wholly by the members of the Biharee Community.'

"Now, Sir, all of us know how the Government, acting on the suggestion made by us, has allotted a seat to the Planting Community (which practically means the Planting Community of the Tirhut Division, for in no other division of Bengal there is such an influential Planting Community) on the Provincial Council. But the pity of it is that though the Government readily gave effect to one part of the suggestion it never thought of bestowing even a care on the other part of it, which concerned us, the Biharees; and this in spite of the promises of the late Lieutenant-Governor made in this direction. Sir Andrew Fraser in his reply to the said address on this subject said:—

'You refer to the representation of the European Planting Community on the District Boards in the Tirhut Division......I have obtained the figures, and I certainly agree with you that the matter requires consideration......It is certainly desirable that the interests with which the work of the District Boards is concerned should be represented on the Boards with some degree of reasonable proportion.'

"We now see how true it has turned out what we said then about the return of a Biharee from the District Boards of Tirhut to this Council. No Biharee could dare even stand as a candidate for election to this Council from the District Boards of the Tirhut Division at the last elections. And the reason of it is not far to seek; but the less said of it the better.

"I shall now proceed to demonstrate to you, Sir, to-day, the truth, rather the painful truth, of what I have said above by quoting facts and figures regarding the constitution of these Boards.

DARBHANGA.

Darbhanga Dis-

"Let us take up Darbhanga first. The District Board of Darbhanga comprises an area of 3,331 square miles with a population of 2,811,180, out of which not even 100 are members of the European Community. It has an income of about six lacs a year (being the richest District Board in Bengal), but hardly even a fiftieth part of this income is contributed by the European Community of the district. But what do we find when we turn to its constitution and try to see in what proportions these two communities—the one contributing nearly the whole of the income enjoyed by the District Board, forming nearly the whole of the population under it, and representing almost all the interests of the district, and the other, numerically a negligible quantity of its population, contributing very little towards its income and representing but one industry, viz., the indigo Industry, are represented on this Board.

"The Darbhanga District Board consists of 26 members—5 ex officio, 9 appointed by the Government, and 12 elected by the two Local Boards of Samastipore and Madhubani. Out of this total of 26 members, only 8 are Indians and as many as 18 are members of the European Community. Of the 8 Indians, only 5 are non-official. If we leave off the ex officio members, yet we find that out of a total of 21 members, 15 are Europeans and only 6 are Indians.

"Of the 9 appointed members, 6 belong to the European Community and 3 are Indians; and of these 3 again, one is the Government Pleader,

so that we have only 2 non-official Indians. Of the 6 appointed European members, 1 is the Manager of the Darbhanga Raj, who is very rightly there, and the remaining 5 belong to the European Planting Community.

"Of the 12 elected members, 9 are Europeans and only 3 are Indians. It may be asked by persons not acquainted with the real state of affairs as to how the Government is responsible for the result of the elections by which the majority of the members returned to the District Board are Europeans. To this our answer is the Government is solely responsible for this, and the blame lies entirely at its door. To explain the matters clearly, we have to see the constitution of the two Local Boards of Samastipore and Madhubani, which elect these 12 members.

"All the members of the Local Boards in the Tirhut Division are appointed by the Government. Some Local Boards in some of the districts of Bengal have the right to elect two-thirds of their members, but that privilege has not been extented, for reasons best known to the Government, to any Local Board in the Tirhut Division, to which I shall refer later on.

"Till a few months back the Samastipore Local Board, which elects six Samastipo members to the District Board, consisted of nine members only, three of whom were Indians and six were Europeans—five members of the Planting Community and one the Subdivisional Officer. With such a constitution of a Local Board is it at all surprising to find that out of the six members elected by it to the District Board, five belong to the European Community and only one is an Indian? Out of the five European members, one is the Subdivisional Officer and the remaining four are members of the Planting Community. It appears that since November or December last, the number of the members of the Samastipore Local Board has been increased from 9 to 11, and the two additional members appointed are Indians. But this has not improved the matter much; for yet out of the 11 members, including the Subdivisional Officer, 6 are Europeans and 5 are Indians. On no principle whatever should the number of the non-official Indians be less than at least three-fourths of the total number.

Madhubani

"Madhubani Local Board presents a somewhat similar spectacle. It has Madhu elected six members to the District Board, out of which five till lately were Europeans and one was an Indian. But now four are Europeans and two are Indians. The constitution of this Local Board is somewhat better than that of Samastipore, and I understand that the places of two members are vacant, and we hope these will be offered to non-official Indians.

"I may here bring to Your Honour's notice that only lately two places on the District Board of Darbhanga had fallen vacant by the resignations of Messrs. B. Coventry and F. Coventry, and in view of what we were given to understand in this Council by the answer to my questions Nos. (c) and (d) of the 26th February, 1910, and also by the reply given on this subject by Sir Andrew Fraser to our address of August, 1908, which has been quoted above, we all expected that those two places would be filled up by the appointment of non-official Indians; but, contrary to that, we find in the Calcutta Gazette of December, 1910, that two members of the Planting Community, viz., Messrs. Miller and Crowdy, have been appointed by the Commissioner of the Division to fill up these places.

"As regards the elections of Sub-divisional Officers to the District Boards, Election a serious question has been raised and there seems to be much force in it. divisional Officer It has become the practice in some of the districts of Bihar for Subdivisional Officers to offer themselves for election to the District Board and they are invariably elected.

Elections of Sub-

"Section 7 of the Bengal Local Self-Government Act of 1885 makes it clear that no person shall be elected a member of the District Board unless he is qualified for election as a member of some Local Board in the district under the provisions of section 13 of that Act. The Sub-divisional Officers are taken to be qualified under clause (2) of section 13, which lays down that every male person of the full age of 21 years, if he has during the

year immediately preceding such election had his fixed place of abode within the area under the authority of such Local Board, shall be deemed to be qualified for election as a member of such Local Board. It has been observed by competent authorities that there does not seem to be any distinction between "a fixed place of abode" and "a residence" in law. It has also been held in many cases by the High Courts in India that the words "dwelling" or "residence" are synonymous with "domicile" or "home" and mean "that place where a person has his fixed permanent home to which whenever he is absent he has the intention of returning." Judged in this light, the Subdivisional Officers of Samastipore or Madhubani cannot be said to have their "fixed place of abode" within the area under the authority of either Samastipore or Madhubani Local Board. Their elections, therefore, by the Local Boards are illegal and void. If this practice is put a stop to, as it ought to be, it may well afford chances for Biharees to be elected from the Local Boards. I would like in this connection to draw Your Honour's attention to a letter, dated the 9th of December, 1910, addressed by Babu Nand Kishore Lall of Gaya to Mr. Whitty, the Collector of that district, in which the subject has been fully discussed.

"Moreover, from another point of view also, the election of the Subdivisional Officers to the District Board is undesirable. It seems to be against the very spirit of the new Council Reforms scheme so graciously introduced into this country. That scheme allows each division of this Province to elect two members to the Council—one from the Municipal and the other from the District Board. And the rules framed for election under these Reform regulations seem to make it a point to exclude all official element from the elections; for we find that rule No. 4 of the rules for the election of a member or members by the District Boards runs thus:—

'On such date and at such time as may be appointed by the Local Government in this behalf, the members of each such District Board other than (a) the Chairman, if an official, and (b) the members appointed ex-officia, shall meet for the purpose of selecting a delegate.'

"Now, Sir, if the Subdivisional Officer happens to be not an ex officio, but an elected member, as is the case in some of the District Boards of Bihar, e.g., Darbhanga, Muzaffarpur, Gaya and others, he cannot be excluded from taking part in the selection of a delegate. And we can well imagine how much the other members would be influenced by such an influential member as the Subdivisional Officer in the selection of a delegate. If it is at all necessary to have the Subdivisional Officers on the District Board, they can be appointed ex-officio members.

CHAMPARAN.

Champaras District Board. "We have thus seen the constitutions of the District and Local Boards of the district of Darbhanga. We may now take up Champaran. This District Board comprises an area of 3,515 square miles with a population of 1,752,600, out of which hardly even 150 would be members of the European community. It has an income of about 2 lacs a year, the major portion of which is contributed by the Indian Community. But what do we find as regards the representation of this community on this Board? This District Board consists of only ex officio and appointed members, as there is no Local Board in its sub-division of Bettiah which could elect members to it. Till a few months back, this Board consisted of 17 members—14 Europeans, 2 Indian officials and only 1 non-official Indian. Of the 14 European members, 5 were officials, 8 members of the Planting community, and 1 Manager of the Bettiah Court of Wards, who, of course, has every right to be there. Since the 28th of December, 1910, 4 members have been added and they are all non-official Indians; so that now we have in all 21 members. If we leave off the 5 ex officio members, there remain 16. Of these, 5 are non-official Indians and 11 Europeans, i.s., 8 members of the Planting Community, 1 the Manager of the Bettiah Raj, and 2 officials, viz., the Sub-Deputy Opium Agent and the Superintendet of Police.

"May I ask Sir, if this is a desirable state of affairs? Does this constitution afford any opportunity to the Indians to realize the object with which

the Act was introduced? Does this constitution make even a show of giving the Indian a share or any hand in the administration of his local affairs? We, on our part, fail to understand the principle on which this constitution practically excluding all Indian element is based. Taking even a very mild view of the situation, in no District or Local Board should the number of the non-official Indian members be less than at least three-fourths of the total number.

MUZAFFARPUR.

"The Muzaffarpur District Board comprises an area of 2,982 square Muzaffarpur miles with a population of 2,706,618, out of which 100 or 125 may be members District Board. of the European Community. It has an annual income of a little over 4 lacs. The utmost that the European Community of the district contribute to it would not be more than Rs. 15,000 or Rs. 20,000. Now let us see its constitution. Till about the close of the last year it consisted of 19 members—13 Europeans, 2 Indian officials and 4 non-official Indians. Now it consists of 26 members—7 members of the European Planting Community, 2 Subdivisional Officers (Europeans) elected by the two Local Boards of Sitamarhi and Hajipore, 3 European officials, 2 Indian officials and 12 non-official Indians.

"The Sitamarhi Local Board consisted till lately of 9 members—5 Sitamarhi Local Europeans and 4 Indians. But now it consists of 11 members—4 Board.

members of the European Planting Community, 1 the Subdivisional Officer,
1 Indian official and 5 non-official Indians.

"This is certainly not satisfactory. The proportion of the non-official Indian members on both the District and the Local Boards to the total number of the members on them is not as it ought to be.

"There is not much to be complained against the present constitution of the Hajipore Local Board.

SARAN.

"The Saran District Board comprises an area of 2,642 square miles with a Saran population of 2,338,087, out of which not more than 100 may be members of Board. The European Community. It has an annual income of about three lacs, ten or twelve thousand out of which may be the contributions of the European Community. But what do we find as regards the representation of these two communities on this District Board? It consists of 26 members—14 Europeans and only 12 Indians. Of the 12 Indian members, 3 are officials and have been appointed exofficio; so that only 9 are non-official Indians. Of the 14 European members, 6 are officials and 8 members of the European Planting Community.

SEWAN.

"Leaving the official members, who are 3 in number, the Sewan Local Sewan Board consists of 8 members—5 Indians and 3 Europeans,—members of Board. the Planting Community.

GOPALGANJ.

"Similarly, if we leave off the official members, we find that the Gopalganj Gopalganj Local Local Board consists of 8 members—4 Indians and 4 Europeans, members of Board. the Planting Community.

CONCLUSION.

"We have thus seen the conditions of the District Boards of Darbhanga, Muzaffarpur, Saran and Champaran. These four District Boards of the Tirhut Division comprise an area of 12,470 square miles, with a total population of 9,608,435, out of which 1,000 at the utmost may be the number of the members of the European Community. These Boards have an income of about Rs. 15,10,561 a year, out of which Rs. 50,000, or Rs. 75,000, or say, Rs. 1,00,000 at the utmost, may be the contribution of the European Community. The indigo industry is

Conclusion.

District

the only important industry, the interest of which is represented by the European Planting Community, while almost all the other interests of the Division are and can be better represented by non-official Indians. But, Sir, look at the constitution of these Boards. In these four District Boards there are in all 99 members, out of which 58 are Europeans and 42 Indians, and if Indian officials be left off, there remain only 33 non-official Indians.

"Is this justice and equity? Will the Government be pleased to enlighten us as to the principle or reason on which this constitution is based? Are we incorrect, Sir, when we tell you that these District Boards are absolutely controlled by the European Community? Can it be said with any show of reason that the non-official Indians are adequately represented on these Boards? We want neither more nor less than our just dues. We take our stand on the principles of the law which the British people have introduced into this country. We ask of you, Sir, justice and no favour. We appeal to you as a strong and just ruler to protect the weak against the strong, and to discharge your duty without any fear of treading on the corns of powerful interests; and time will vindicate your reputation.

"We have learnt with much satisfaction, Sir, that the Secretary of State has recognized that the Local Self-Government scheme of 1882 has not had a fair trial, and has pressed on the Government of India the necessity of an effectual advance in the direction of making local, urban and rural areas really selfgoverning. We would, therefore, most humbly suggest to you to make all the Local Boards of the Tirbut Division elective by extending to them the privilege of election under section 15 of the Bengal Local Self-Government Act. The Government would not lose anything by taking such a step—rather in view of III of 1886. what I have said above, I believe the time has arrived when this privilege should no longer be withheld from these Boards. The people have begun taking good interest in the matter of elections and will appreciate this privilege very much. The District Boards have now assumed a special importance, owing to the suffrage extended to them under the new regulations for election to the Imperial and Provincial Legislative Councils, and, in the words of Dr. Gour, "being the nurseries of future legislators and administrators," they should be made real popular bodies in which and through which the people might realize the real intentions of the illustrious originators of the scheme of Local Self-Government in this country."

The Hon'ble Babu Braja Kishor Phasad, with the permission of the President, said :-

"The resolution which I propose to move runs thus:-

'That this Council recommends to the Lieutenant-Governor in Council that the Government should take immediate steps to increase materially the existing representation of the non-official Indian community on the District and Local Boards in the Tirhut Division.'

"My speech on the resolution has been printed and circulated amongst the members who, I believe, have read it, and as I have been given to understand that Your Honour wishes that, owing to the shortness of time, it may be taken as read, I gladly agree to it. I have only this much to add for the information of the Hon'ble Members, that the figures which I have quoted in my speech include everything which has been done up to date by the Government; so that it would be no answer for the Government to say that they are doing something and that a few seats have only lately, say in November or December last, been allotted to non-official Indians. I have taken account of all these things, and I think that I have been able to show how absurd the constitution of the Local Boards is. The request contained in my resolution is very modest and fair, and I can challenge any Member present here, official or non-official, elected or nominated, to point out anything against its being accepted by this Council. I would like to be told plainly, Sir, if it is not the fact that non-official Indians are not fairly represented on the District and Local Boards of the Tirbut Division. If they are not, what hesitation can the Government have in not a ccepting my resolution ?

"I have given at length the figures, but I will only read something which I have taken for easy reference. Your Honour will find that the district of Darbhanga has a population of 2,811,180, out of which not even 100 are members of the European community. It has an income of about six lacs a year (being the richest District Board in Bengal), but hardly even a fiftieth part of this income is contributed by the European community. Now, Sir, when we look to the constitution of this District Board, we find that there are 26 members, out of which 18 are Europeans, 3 official Indians and 5 non-official Indians.

"Looking at Champaran we find that it has a population of 1,752,600, out of which hardly even 150 are members of the European community. The income is about two lacs a year, the major portion of which is contributed by the Indian community. The total number of members since 28th December, 1910, is 21, out of which 11 are Europeans, five ex-officio members and 5 non-official Indians.

"In Saran, we find the population is 2,338,087, out of which 85 or 87 are members of the European community. The income is about three lacs, ten or twelve thousand of which may be contributions of the European community. Now, Sir, if we look at its constitution we find that there are 26 members, out of which 14 are Europeans and only 12 are Indians. Out of the 12 Indian members, 9 are non-officials.

"Muzaffarpur, we find, has a population of 2,706,618, out of which about 120 are members of the European community. The income is about four lacs, out of which 15 or 20 thousand may, at the utmost, be the contribution of the European community. As regards its constitution, we find that there are 26 members, of which 12 are Europeans, two official Indians and 12 non-official Indians. So we find that Tirhut has a population of 9,608,435, out of which 1,000, at the utmost, may be the number of the European community. The annual income is about fifteen lacs, out of which one lac, at the utmost, may be the contribution of the European community. The total number of members is 99, out of which 31 are non-official Indians and 58 are members of the European community and 10 are official Indians. With these few words, I leave the resolution in the hands of the Hon'ble Members of the Council whose sympathetic support I expect to get."

The Hon'ble Mr. Filgate moved the following amendment of which he had given notice:—

That this Council recommends to the Lieutenant-Governor in Council that the consideration of the question of further extending the representation of the Bihari community is premature, and should be deferred until some experience has been gained regarding the practical effect of the measure on the working of the District and Local Boards and on the general welfare of the Division.

The Hon'ble Mr. Dip Narayan Singh said :-

"Sir, I beg to rise to a point of order. Under the rules, the amendment is not in order as it negatives the Resolution."

The President said :-

"The question is not free from doubt; but our conclusion is that the amendment amounts to something more than a negative to the Resolution, and I have decided to admit it.

The Hon'ble Mr. Filgare said:—"Your Honour, even experts allow that figures and statistics can be made to support or disprove any case but with the very short time I have had to peruse and digest the case so ably set forth by the Hon'ble Babu Braja Kishor Prasad in his printed speech, which only reached me just before leaving for Calcutta, I cannot see what grounds he can possibly have for saying 'but had the Government been mindful of its promises it would not have been necessary for me to-day to bring up this matter before this Council in the form of a resolution. Long, long have we waited, and sore has been our disappointment.' As the Hon'ble Member has been so careful to tabulate the figures for the various Boards, why could he not have expressed the thanks and gratitude of the Bihari Road Cess payers for

sends or emmit to another sens built ov

what His Honour has done for them in the last few months. Twelve additional seats have been created on the District Boards, and every one of these have been given to a non-official member of the Indian community. Ten additional seats have been created on Local Boards, eight of which have gone to Indians, i.e., out of 22 additional seats 20 have been given to members of the non-official Indian community. I will not tresspass on the patience or time of this Council by criticising his figures for each District or Local Board, nor will I trouble you with tables of figures showing official and non-official members. The Hon'ble Member has just been talking in lakhs of the population of those districts. Is it the whole population who should be represented, or is it those who pay the cess? The Hon'ble Members have heard his figures. I can give you figures for the actual numbers who pay cess. The figures are as follows:—

Muzaffarpur	District	and the second	91 J	107,689	THE
Darbhanga	99	OTO 5		87,841

"I presume that an Hon'ble Member of this Council should take more than a parochial view of Bengal, and should acquaint himself with the wants and requirements of every community in the Province. The Hon'ble Member, however, apparently ignores the existence of quite as influential a body as the Tirhut Indigo Planters, namely their brother Planters, the Darjeeling Tea Planters. Nor again can I understand his remark 'No Bihari could dare ever stand as a candidate for election to this Council from the District Boards of the Tirhut Division at the last election'. Why not? Is it fear of a defeat? I would recommend him to carefully study the history and figures of elections in countries all over the world, where candidates come forward even in the face of a far more overwhelming majority than existed in Bihar, and very often have turned the majority into a minority. I am here, not as the representative of the Bihar Planter but as the representative of the District Boards of the Tirhut Division, and I know that I have the confidence of the majority of the Indian members of those Boards, and to give an instance, although there was a majority of non-official Indians on one Board I had their full support. Again, the Hon'ble Member in conclusion quotes numbers but he does not mention that previous to the slump in Indigo, the capital sunk in European estates was estimated at something like 3 millions sterling, nor does he make any reference to the very large sums that have been sunk in the past 10 years in erecting Sugar Factories. He talks about justice and equity. The Tirhut Planter asks for nothing more. He asks for no favour, he and his forefathers have now been connected with Bihar for more than a century. His interests are bound up with the zemindar and raiyat and he is just as much a Bihari, and his love for the land of his adoption is just as strong as that of the majority of its inhabitants. When I first received a copy of the Hon'ble Member's resolution, I thought he must have been ignorant of the large addition of Indian members that have lately been made to the Boards, but I have now come to the conclusion that with him it is another case of 'Oliver Twist,' and the Hon'ble Member should bear in mind that no reasonable human being would ever think of starting down a steep hill on a bicycle unless he had a good break on it, and that break in order.

"Does he now propose that the Boards should be further enlarged or does he propose that the present Planter representation should be reduced? If the Boards are to be further enlarged they will become unwieldy, as occasions even now arise where there is sometimes a difficulty in getting a quorum with the presents Boards. The Hon'ble Member remarks there is not much to be complained against the present constitution of the Hajipur Local Board. Is

he aware that, as in the previous year, the minimum number of meetings, namely one a month, was not secured by this Board. It only met eight times during the year, three meetings failing for want of a quorum. If reduction of the Planter representatives is to be made, then the present efficiency of the Boards will be seriously interfered with, and the Planters, it must be borne in mind, who pay a very considerable amount of Road Cess, would, I fancy, have a good deal to say to any interference with their rights, considering the stake they hold in the Districts. I can speak with more than 34 years' experience of North Bihar, and I have had the honour to have served on the old Road Cess Boards, and the Local and District Boards in the Districts of Monghyr, Muzaffarpur and Saran, and I have invariably found that the most active members of the various Boards have been the Planters and Zemindari Managers-men who think nothing of riding or driving 30 or 50 miles in the hottest weather or during the rains in order to attend Board meetings,—and what better advice can the Boards have than that of men who are daily using the roads and communications throughout the 4 Districts, are in touch with the people, and can keep an eye on, and superintend, the Boards' schools and dispensaries that may be situated on or in the vicinity of their estates? And the fact should not be lost sight of that a large number of the roads were originally constructed and maintained by the Tirhut Indigo Planters, more than eighty or ninety years ago, ages before any Ferry-fund, Road Cess, District or Local Boards took charge of them.

"Is there a general demand by the rate-payers of the District and Local Boards for greater representation than they have at present? I emphatically say there is not. I am proud of the fact that I number many personal friends amongst the Zemindars and rate-payers in North Bihar, and not in one single instance has any one of them ever mentioned the subject to me, and surely it is but natural that their representative on this Council would have heard something of the matter if they are dissatisfied with the present constitution of the Boards.

"How is it, if the non-official Indian community in North Bihar is so very anxious to serve on District and Local Boards, that up-to-date in the 4 districts there is only one Union Committe (and the President of that is a Planter). I believe I am correct in saying that when Lord Ripon introduced the Local Self-Government Act the Union Committees were supposed to be the starting point and were to be a stepping stone to the Local and District Boards. Communities, just the same as individuals, have to learn to walk, before they can run.

"From what classes are more members to be appointed? Undoubtedly, if many more of our leading Zemindars and landed proprietors would take an active interest and serve on our Boards, it would be of considerable advantage. The advice of those who do now serve is very valuable. One great difficulty in North Bihar is to find qualified non-official Indians away from head-quarters. The principal source would be members of the legal profession, and the present percentage on our Boards is 14 per cent. Although I have the greatest respect and admiration for the ability and cleverness of the profession, I am of opinion that gentlemen while following their daily vocation seated in a cool well ventilated Court, or Bar Library or beneath the shade of the spreading Peepal tree in the Court compound, cannot be any better representatives of the payers of Road Cess than the Planter or Zemindar, who is daily using the Roads, Bridges and Ferries of the Districts. I am old fashioned enough to still believe in the old saw 'The cobbler should stick to his last.' We are justly proud of our Roads and Bridges in the Tirhut Division and the efficiency of our communications is due to the competent Chairmen land Engineers who have served the Boards and who accepted the practical, sound, common sense advice of the members of the Boards as they have existed up to date.

"Sir, and Gentlemen of the Council, I hope that not one single word of what I have said would lead you to suppose that I am not in full sympathy with the wisdom of Government in desiring that the Bihari community should be trained in the principles of Self-Government in order that as soon as they are so trained they can take their full share in the administration of the country. I heartly approve of the action lately taken to carry this into effect, but I view

with the gravest disapproval any policy which would have the effect of forcing into a position of serious responsibility, men who do not possess the necessary experience, and knowledge, and on these grounds I would impress the importance of allowing time for the necessary training.

"I have now to ask you, Sir, to allow the amendment standing in my name to be put, and I earnestly appeal to the Members of this Council, official and non-official, to support it. Our District Boards in Bihar have done good work in the past. Considerable additions of Indian members have been made in the last year. In the interest of the Boards I ask that ample time be given to prove if the additions lately made work for the general welfare of the districts."

The Hon'ble Rai Kisori Lal Goswami Bahadur said:—"Your Honour, we have listened to what the Hon'ble Babu Braja Kishor Prasad has said in justification of a demand for a larger representation of the Biharis on the Local and District Boards of the Tirhut Division. Since 1908, the question has been pressed upon Government off and on with becoming moderation and firmness which indubitably proves that there has sprung up an earnest desire on the part of capable Biharis to participate in the work of advancing the rural wealth and welfare of the Tirhut Division, so far as can be achieved through the agency of the Local and District Boards. But I regret I miss in the Hon'ble Member's speech a recognition of what the Government has done since 1908, in pursuance of the policy enunciated by the late Lieutenant-Governor Sir Andrew Fraser in reply to the address which was presented to him by the three leading Associations of Bihar-a policy which has so far as possible been scrupulously followed by the present Government as a comparison of the personal composition of the new and old Boards will testify. My Hon'ble colleague has marshalled facts and figures in such a way as to create an impression on those unconnected with the Tirhut Division that the claims of the Biharis have been absolutely ignored by the Government in the formation of local bodies in that Division and that European planters have been introduced into such bodies to an extent which, if judged merely by the test of population statistics, cannot but be condemned. I do not propose to strictly scrutinize the figures which he has introduced in his speech, but I shall rest contented by referring to certain salient facts which I trust will facilitate a clear understanding of the real situation by the Council. I shall also place certain tabular statements before the Council which will convey a clear idea of the composition of the Boards at the present time.

"The Government is in sympathy with the aspirations of non-official Biharis for representation on the Boards, and has only recently given a practical demonstration thereof by the appointment of 12 additional non-official Indians to three District Boards and 8 additional non-official Indians to four Local Boards. This is a material advance in this direction, and the results of the experiment may well be seen before anything further is done. It was only yesterday that unofficially I came to know that in the case of the Gopalganj Local Board the two additional seats have been given to Europeans which, according to instructions from Government, should have been filled by Bihari gentlemen. We shall make inquiries about this.

"The circumstances of Tirhut are peculiar by reason of the presence of the European Planting community which, with the decline of the indigo industry, has been relegated to the position of lessee-zamindars holding extensive lands under the zamindars, and they contribute substantially to the receipts under road cess, if not directly to the Collectorate but through the zamindars. As illustrating the extent of the interest of the planting community in North Bihar the following figures are remarkable. I take the figures from the Darbhanga Final Settlement Report, paragraph 502. The percentage of the total district area held by the planters as landlords was as follows:—

Darbhanga ... 6 | Muzaffarpur ... 17 | Saran ... 17 | Champaran ... 46

"If the Darbhanga figures are analysed by subdivisions, the percentage are as follows:—

Madhubani ... 06 | Sadar ... 5.7
Samastipur ... 20.1

"It is on the Samastipur Local Board that planters are strongest, and in that subdivision their interests are considerable. The subdivisional figures in Muzaffarpur are as follows:—

Sitamarhi 6.8 | Sadar ... 29.9 Hajipur ... 12.3

The Champaran figures are more striking:-

Bettiah ... 34.9 | Sadar ... 58.5

in two (Dhaka and Gobindganj) it is as high as 63. These figures are taken from the Final Settlement Reports of the different districts, which were compiled between the years 1900 and 1904, but I presume in spite of the decline of the indigo industry, there has not been a considerable decline in the area of land held by the planting community at the present moment. As illustrating the minute subdivision of the proprietary interests in Tirhut (other than Champaran), the following figures taken from the settlement reports are instructive:—

ich va en		Total number of proprietors.	Average area in acres under each proprietor.		
Darbhanga		135,178	16		
Saran	•••	116,090	14		
Muzaffarpur		163,933	12		

"The planters are well acquainted with the needs of the districts, in all portions of which they reside, and they are interested in the efficient discharge of the various duties with which the Boards are concerned. They are excellently fitted by training and activity to voice the needs of the different localities both as speaking for themselves and for their Indian neighbours and they can in no sense be regarded as interlopers dissociated from the real interests of the districts and ignorant of their conditions. Past experience has amply demonstrated their usefulness as members of the Boards. So far as the works of the Boards go, the interest of the European planters and the permanent Bihari residents are absolutely identical.

"On the other hand, the Bihari community is backward, and there are various circumstances which render it difficult, in spite of the earnest endeavours of the local officers in that Division, to find numerous; suitable representatives among them. Bihar is largely parcelled up into large zamindaris—those of Darbhanga, Bettiah, Hutwah, Narhen, Sheohan, Madhubani, Ramnuggur, etc.—the owners of which would not in some cases be willing to accept seats on the Boards, and in others are ineligible (at the present moment) by reason of sex or age. Below them is a multitude of tenure-holders who are essentially small men fitted neither by education nor status to take a place on the Boards. There remains the educated community at head-quarters, but they are not as a rule well acquainted with the wants of the interior of the district, and it is not desirable that they should preponderate on the Boards, the members of which should, as far as possible, represent the landed interest of different parts of the districts.

"In some instances the European non-official members of the Boards represent the interests of the large zamindars on whose estates they are employed. Thus in May 1910, the Commissioner of the Tirhut Division reported that of the European element on the District Board of Darbhanga four were employes of the Raj Estate.

"I shall now place before you a tabular statement showing the respective proportions of the non-official members of the two communities at the present moment, That statement will go to show that the remark of the Hon'ble Mover of the resolution that the District and Local Boards of the Tirhut Division are practically manned and absolutely controlled by the European community is not correct. Excluding the Chairman, the figures show that in Local Boards the numbers of the European and Indian communities respectively are equal in Samastipur, and that elsewhere, with the exception of Gopalganj, the Indian community is in the majority. In the District Boards the European community preponderates in Champaran and Darbhanga, but both in Saran and Muzaffarpur the Indian community is in the majority. I must observe that my Hon'ble colleague is not fair in excluding Government pleaders on the Boards in counting the Indian representatives.

DISTRICT BOARD.		Total membership exclusive of Chairman.	EUROPEAN MEMBERS.		Indian members.		
			Official.	Non- official.	Official.	Non- official.	
Saran Champaran Muzaffarpur Darbhanga			25 20 25 25	5 5 4 5	6 8 7 13	2 2 3 2	12 5 11 5

LOCAL BOARD.		Total membership exclusive of the Chairman.	EUROPEAN MEMBERS.		Indian members.		
			Official.	Non- official.	Official.	Non- official.	
Sewan Gopalganj	·		10	1	3	1	5
Hajipur			10	ï	2		7
Sitamarhi			10		4	1	5
Madhubani		***	10	1	3	1	.5
Samastipur			10	1	4		5

"The Hon'ble Mover of the resolution has incidentally raised the question as regards the eligiblity of subdivisional officers to sit upon the District Boards as representatives elected by the Local Boards which at best has a remote bearing on the resolution. However, the answers given to-day to the questions of the Hon'ble Mr. Dip Narayan Singh will be accepted as a satisfactory solution of the question.

"I shall now submit before the Council another tabular statement showing the respective proportions of the non-official members of the two communities. The figures in that statement show that in all the Local Boards, with the exception of Gopalganj, the percentage of non-official Indian members is higher than that of the corresponding European members, while it is only in the Champaran and Darbhanga District Boards that the European non-officials outnumber the Indian. In Saran and Muzaffarpur it is much the reverse. If we deduct the four European Raj members from the non-official European members in Darbhanga, we reduce the percentage from 52 to 36, while the case of Champaran, which is a very backward district, is essentially special. Seventy-four per cent. of the land revenue of the district is contributed by the three big estates—Bettiah Raj, Madhubani and Ramnuggur. The Bettiah Raj is represented on the Board by its Manager, but the proprietors of Madhubani and Ramnuggur estates do not themselves care to be members of the Board. The vast majority of the remaining zamindars of the district are little better than ordinary cultivators. Under the present

circumstances, it will unduly reduce the efficiency of this Board if the European planters are largely replaced by local Bihari gentlemen—

District Boards.

"The last point raised by the Hon'ble Mover of the resolution is the question of the desirability of introducing the elective system in the formation of the Local Boards of the Tirhut Division. This is but indirectly connected with the resolution. I shall not certainly ignore it on that ground. I can assure my Hon'ble colleague and others interested in advancing the political aspirations of the people of the Tirhut Division that Government will make a careful inquiry through the local officials to ascertain what localities have attained the condition which will permit of the introduction of the elective principle in the formation of Local Boards with advantage to the localities and the residents therein. I shall now conclude, repeating the assurance that the Government will not be remiss to constitute local bodies on strictly representative lines when the existence of capability and genuine public spirit in the people of any locality will be realized. Bihar is coming forward in rapid strides. The representation of Bihar in this Council abundantly testify to that fact. I beg to point out that nine elected Bihari gentlemen and one nominated Bihari gentleman have seats in this Council. This is exclusive of the Hon'ble Babu Bal Krishna Sahay who is a Bihari domiciled in Chota Nagpur. Though I am not in a position at the present moment to state definitely on behalf of Government what further advances will be made to ensure a larger introduction of the Bihari element into the Local and District Boards of the Tirhut Division, still I feel confident that after what I have said my Hon'ble colleague has been convinced of the earnest desire on the part of Government to recognize the just claims of the Biharis, and I trust he will not press his resolution and call for votes on it."

The Hon'ble Babu Braja Kishor Prasad said:—"Though I do not at all agree with what has fallen from the Hon'ble Mr. Filgate or what has been said by the official member in charge of the administration of Local Self-Government, and though I doubt the correctness of the figures which have been given by him, because, Sir, I can assure you that the figures which I have got as regards the number of members of the District Boards have been taken very carefully and directly from the District Boards, still in view of the assurance given by the Government, I think it would be proper for me to withdraw the resolution. But of course I shall not be deprived of the right of bringing it again before the Council next year and shall see if anything is done in the meantime."

The Hon'ble the President said:—"Before the resolution is withdrawn, unless the amendment which has been proposed to it is withdrawn also, it will be necessary to obtain the concurrence of the Hon'ble Mover of the amendment. That is a course which was adopted on a similar occasion in the past. Does the Hon'ble Member consent to the withdrawal of the amendment? If so, both the resolution and the amendment can be taken as withdrawn."

The Hon'ble Mr. Filgate said :- "Certainly Your Honour. I presume and understand that time will be allowed to see how the considerable concessions that have now been made work."

The President said:—"In that case I think that there is no question that the resolution should be withdrawn and I desire to say that in my judgment the Hon'ble Babu Braja Kishor Prasad has acted wisely in accepting that the Hon'ble Babu Braja Kishor Prasad has acted wisely in accepting that suggestion, for it seems to me that he has selected (whatever may be the merits of the resolution) a somewhat unfortunate time for raising this question. It is only within the last three or four months that steps which he himself has described as concessions have been taken by Government with the active object of giving effect to the requests that were made to Sir Andrew Fraser two and a-half years ago. Surely, gentlemen, it is premature to seek to force the pace and to demand further steps in the same direction until experience has been gained in the working of the new system. The Hon'ble Mr. Filgate has in a temperately-worded amendment expressed the opinion that the consideration of the question of further extending Bihari representation is premature. That is entirely the view which I myself had formed. Time should be given to understand the actual operation of the system which has been introduced so lately as November of last year. When experience has been gained, when we have got the opinion of the local officers and of the Bihar representatives themselves, and also of the planters, then I think the time will come to consider what further advance should be made in the same direction.

"I think, gentlemen, that the resolution and the amendment may be taken

The resolution and amendment were accordingly withdrawn.

The Hon'ble BABU BAL KRISHNA SAHAY,

QUESTIONS AND ANSWERS.

PROMOTION OF DEPUTY SUPERINTENDENTS AN ASSISTANT SUPERINTENDENTS OF POLICE.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked :-

- (a) Has the attention of the Government been drawn to the leading article headed "the Police and Educated Indians" in the Bengales of the 7th February, 1911?
- (b) Is it a fact that all the Deputy Superintendents of Police who were appointed direct have been superseded by non-graduate Deputies who were promoted from Inspectorships, though the latter were promoted to the Provincial Service after the appointment of the former?
- (c) Is such accelerated promotion and supersession usual in other branches of the public service?
 - (d) If so, to what extent, and what is the reason for such differentiation?
- (e) Did Indian Assistant Superintendents who were promoted from the rank of Inspector and Sub-Inspector under the old scheme in any case supersede European Assistant Superintendents (Provincial Service) appointed direct?
- (f) If not, is there any reason for such differentiation of treatment in the same service?
- (g) Is it a fact that almost all the Deputies promoted from Inspectorships have officiated, at some time or other, as Superintendents, and that not more than one Deputy appointed direct has had a similar chance?
 - (h) If so, what is the cause?
- The Hon'ble Mr. Wheeler, in the absence of the Hon'ble Mr. Stevenson-Moore, replied:—
 - (a) "The answer is in the affirmative.
- (b) The answer is in the affirmative, though it may be added that one of the promoted Inspectors who have passed over the heads of officers appointed direct is a graduate.
- (c) & (d) The Hon'ble Member is referred to rule 8 of the 'Rules for Admission to the post of Deputy Superintendent of Police' which prescribes that 'promotion' will be awarded strictly by selection according to merit.' In the exercise of that principle, it has necessarily been found that the merits of the promoted officers, who have rendered long and good service in the department, have outweighed those of the young officers appointed direct. It must be remembered that the service of Deputy Superintendent of Police is a service of less than five years' standing, and that the officers appointed direct have not yet acquired sufficient experience to prove their merit; in course of time it may confidently be expected that they will win their due share of promotion, and as they are at the beginning of their service and have been superseded by officers who are approaching the time for retirement, the advancement of those who show themselves worthy of it will not be seriously impeded. On the other hand, if these young officers were to fill up all the places in the higher grades, officers promoted from the rank of Inspector would be completely blocked and could never rise above the lowest grade of Deputy Superintendent. In the other Provincial Services, such as the Provincial Judicial and Executive Civil Services, all officers are of the same class and the rules assign greater weight to seniority in making promotions; their conditions consequently are not comparable with those of the Police Service.
- (e) If by the term 'European Assistant Superintendents of the Provincial Service', the Hon'ble Member refers to European Assistant Superintendents attached to the Bengal Police before the Police became an Imperial Service, the answer is in the affirmative.
 - (f) The Hon'ble Member is referred to the answer to Question (e) above.

- (g) The answer to the first question is in the affirmative; that to the second in the negative; six Deputy Superintendents of Police who received direct appointments have officiated as Superintendents.
- (h) The Hon'ble Member is referred to the answer to Question (g) above."

AMENDMENT OF THE BENGAL MUNICIPAL ACT, 1884.

The Hon'ble Maulvi Saiyid Zahir-ud-din, in the absence of the Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan, asked:—

Will the Government be pleased to state whether the Bengal Municipal Act, 1884, is likely to be amended during the present Legislative Session?

The Hon'ble Mr. WHEELER replied :-

"There is no intention of proceeding with the amendment of the Bengal Municipal Act during the current Legislative Session."

FLOODS AND WATERWAYS.

The Hon'ble BABU BRAJA KISHOR PRASAD asked:-

- (a) Has the Government received the report of Mr. Perrott, District Magistrate of Darbhanga, dated the 12th December, 1910, on the result of the joint inquiry held at Lahiriasarai on the 17th December, 1910, in pursuance of the Government of Bengal's letter No. 774T.—R., dated the 25th October, 1910, and the Railway Board's letter No. 3162R.C., dated the 17th October, 1910?
- (b) Will the Government be pleased to state what the scope of the said joint inquiry was?
- (c) Has the attention of the Government been drawn to the recommendations of Mr. Perrott contained in paragraph 10, clauses (1), (2), (3), (5) and (7) of the said Report?
- (d) Does the Government intend to take any action on the said recommendations, and, if so, what?
- (e) Does the Government intend to move the Railway Board or the Railway Company concerned to provide sufficient waterways between Lahiriasarai and Kishunpore and in the line (Tirhut Section) generally?

The Hon'ble Mr. Finnimore, in the absence of the Hon'ble Mr. Butler, replied:—

- (a) "The reply is in the affirmative. The date of Mr. Perrott's report should be 21st December, 1910, and not 12th December, as stated.
- (b) The inquiry was into the alleged causes of the excessive floods of 1910, which included the obstructions to the Chota Bagmatti river in the town of Darbhanga and the obstructions of the drainage between Darbhanga and Samastipur by landowners' embankments, and was made with a view to the results being reported and remedies suggested.
 - (c) Government have seen these recommendations.
- (d) A further report which the Commissioner has promised is awaited before deciding what action, if any, should be taken by Government.
- (e) The action to be taken by Government must wait till the whole question of the disposal of the flood spill from the Bagmatti has been settled."

FLOODS IN DARBHANGA.

The Hon'ble BABU BRAJA KISHOR PRASAD asked:-

- (a) Will the Government be pleased to state whether it has received the report of the Commissioner of Tirhut about the last floods in the district of Darbhanga?
- (b) If so, does the Government intend to make a thorough inquiry into the causes of these floods and to take the necessary steps to save the district from these floods?

The Hon'ble Mr. FINNIMORE, in the absence of the Hon'ble Mr BUTLER, replied :-

- (a) "The reply is in the affirmative.
- (b) The Commissioner of Tirhut, after obtaining the opinions of the District Boards of Champaran, Muzaffarpur and Darbhanga, intends to refer the whole question to a Divisional Conference. The opinion of the Conference is awaited."

THE CALCUTTA IMPROVEMENT BILL, 1911.

The Hon'ble Mr. Bompas presented a preliminary report by the Select Committee on the Bill to provide for the Improvement and Expansion of Calcutta.

He said :-

- "Sir,—I beg to present the preliminary report submitted by the Select Committee on the Calcutta Improvement Bill, and in doing so, I may briefly explain why we have adopted the somewhat unusual course of submitting a preliminary report.
- "The Members of this Council will remember that one of the features of the Bill was the provision for the imposition of a tax on jute, an excise on raw jute consumed at the Mills, and an export duty on raw jute exported from the port of Calcutta. Most of the important Associations consulted criticised these proposals, and after consideration of these criticisms, the Government of Bengal made a reference to the Government of India on the subject. No answer has yet been received to that reference, and, pending the disposal of that matter, it was impossible for the Select Committee to proceed with the consideration of those clauses [1] in Chapter V which dealt with the jute tax.
- "The Select Committee has held 34 sittings and has dealt with considerable thoroughness with the rest of the Bill, and has introduced several important changes. Whatever decision may be come to with reference to the tax on jute, the recommendations of the Select Committee with regard to all the remaining clauses of the Bill will be unchanged, and it was therefore thought that as the results of the labours of the Select Committee were lying ready to hand, it was better that they should be submitted to the Council and the public be given an opportunity of studying and criticising them.
- "Under these circumstances, I beg to present the preliminary report of the Select Committee."

The Council was then adjourned to Monday, the 15th March, 1911, at 10-30 A.M.

QUESTIONS AND ANSWERS.

SYEDPUR TRUST ESTATE.

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan asked:-

- I.—(a) Will the Government be pleased to state whether the Rs. 2,08,092, shown as total receipts of the gross income of the Syedpur Trust Estate in the statement laid on the table at the meeting of the Legislative Council held on the 18th February, 1911, represents only the gross income of the zamindari, or whether it also includes the interest of the Trust Fund, called the Muhammadan Mohsin Fund Education Endowment Fund?
 - (b) Will the Government be pleased to lay on the table -
 - (1) the last year's consolidated account of all shares of the above Trust Fund, as maintained in the office of the Accountant-General, Bengal, and
 - (2) the last year's estimate of the Trust Fund, framed by-
 - (i) the Local Agents, Hooghly, as regards the Hooghly charges,
 - (ii) the Director of Public Instruction, as regards the Educational charges incurred in connection with Muhammadan education in Bengal, and
 - (iii) the Public Works Department of Government, as regards the construction and repairs of buildings, such as Mosques, Madrassas, etc?

The Hon'ble Mr. CUMMING replied:-

- "(a) The amount represents only the gross income of the zamindari known as the Syedpur Trust Estate.
 - (b) (1) A statement is laid on the table.
- (b) (2) Column 8 of the budget estimates of the Mohsin Endowment Fund for the year 1909-10, which have already been placed on the table of this Council, furnishes the information required by the Hon'ble Member."

Statement referred to in the answer to Question No. I.

Owing to the increased expenditure on account of short-fee payments by Muhammadan students in the past two years, 1908-09 and 1909-10, amounting to Rs. 17,815 and Rs. 24,125, respectively, the accounts closed with a deficit balance of Rs. 3,698-9-7, and if no contribution were given from the Provincial Revenues, the accounts for the year,1910-11 would close with a deficit balance of Rs. 9,000. In order to make good this deficit a special contribution of Rs. 9,000 has been made to the fund during 1910-11 on the understanding that the amount will be recovered durin the year 1911-12.

The Hon'ble Khan Bahadur Maulvi Sarfaraz Hosain Khan asked :-

- II.—(a) Will the Government be pleased to state whether the annual reports of the administration of the Syedpur Trust Estate and the Trust Fund are published?
- (b) If so, will the Government be pleased to lay on the table the last year's annual report?

The Hon'ble Mr. CUMMING replied:-

- "(a) Particulars regarding the administration of the Syedpur Trust Estate are included in the report on the Wards and Attached Estates which is annually submitted to Government by the Board of Revenue, L. P., and is available to the public. It has recently been decided that an abstract of the accounts of the Mohsin Endowment Fund as maintained in the office of the Accountant-General, Bengal, will be annually published in the Calcutta Gazette.
- (b) For an account of the Mohsin Endowment Fund for the year 1909-10 the Hon'ble Member is referred to the answer to his question I (b) (1) above."

PATNA COLLEGIATE SCHOOL.

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan asked:-

- III.—(a) Does the Government intend to remove the Patna Collegiate School from the hired house in which it is located?
- (b) If so, will the Government be pleased to state what site, if any, has been selected for the purpose?

The Hon'ble Mr. Cumming replied :-

- (a) "It is the intention of Government, when funds permit, to remove the Patna Collegiate School from the rented premises in which it is at present housed.
 - (b) No site has yet been definitely selected."

EXTENSION OF BENGAL ACT I OF 18-6 (THE BENGAL MUHAMMADAN MARRIAGES AND DIVORCES REGISTRATION ACT, 1876.)

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan asked:-

- IV.—(a) Does the Government see any objection to extending Bengal Act I of 1876 to the districts of Patna and Muzaffarpur?
 - (b) If so, will the Government be pleased to state the objection?

The Hon'ble Mr. Cumming replied: - OMTHE ATTUDATED SHIT

"The Government have no objection to the extension of the Act to the districts of Patna and Muzaffarpur provided that a genuine desire exists amongst the Muhammadans of these districts to avail themselves of the provisions of the Act; but the experience in the other western districts of Purnea, Bhagalpur and Monghyr tends to show that this is very doubtful."

PROTECTION OF MUZAFFARPUR FROM FLOODS.

The Hon'ble Khan Bahadur Maulyi Sarfaraz Husain Khan asked :-

V.—Will the Government be pleased to state whether any scheme for the protection of Muzaffarpur from flood is under the consideration of the Government?

The Hon'ble Mr. BUTLER replied :-

"There is no scheme at present under consideration for the protection of Muzaffarpur from floods. A communication has very recently been received from the Commissioner of the Division on the subject, and it is under consideration."

Transferration in the market

tornes, laber calque and disagrays

CONSTRUCTION OF A RESIDENCE FOR THE COMMISSIONER OF THE TIRHUT DIVISION.

The Hon'ble Khan Bahadur Mallvi Sarfaraz Husain Khan asked :-

VI.—Will the Government be pleased to state whether plans and estimates have been prepared for the construction of a residence for the Commissioner of the Tirhut Division?

The Hon'ble Mr. FINNIMORE replied :-

"Final plans and estimates have not yet been prepared."

PATNA MUNICIPALITY FLUSHING SCHEME.

The Hon'ble Khau Bahadur Maulvi Sarfaraz Husain Khan asked :-

VII.—Will the Government be pleased to state the time by which work on the Patna Municipality Flushing Scheme will be taken up?

The Hon'ble Mr. WHEELER replied:

"No definite time can at present be specified. The Sanitary Engineer has drawn up a rough project for a combined water supply and flushing scheme, at an estimated cost of Rs. 2,61,000, and the local Municipality is about to be addressed on the subject of his proposals."

ADMISSION OF MUHAMMADAN STUDENTS INTO THE MEDICAL COLLEGE.

The Hon'ble Khan Bahadur Maulyi Sarfaraz Husain Khan asked:-

VIII.—Is it a fact that there has been no admission of Muhammadan students into the Calcutta Medical College during the last two years?

The Hon'ble Mr. WHEELER replied :-

"Admissions to the Medical College are made in June each year. The numbers of Muhammadan students admitted during 1909-10 and 1910-11 were nil and one, respectively."

THE CALCUTTA IMPROVEMENT BILL, 1911.

The Hon'ble Mr. Bompas presented a further Report by the Select Committee on the Bill to provide for the Improvement and Expansion of Calcutta.

He said :-

"Sir, I beg to present a further Report prepared by the Select Committee on the Bill for the Improvement and Expansion of Calcutta. I explained at the last meeting of this Council why the Select Committee had deemed it advisable to submit an ad interim report covering the whole of the Bill with the exception of the provisions relating to the levy of a tax on jute. The sanction of Government was subsequently received to the modification of the proposals relating to the levy of that tax. In place of an excise duty on raw jute consumed at the mills, it is non proposed to levy an export tax on manufactured jute exported from the port of Calcutta. The Select Committee have thereupon introduced the necessary modifications in Chapter V of the Bill and have embodied a few consequential amendments, and now submit a further and final report."

THE REVISED FINANCIAL STATEMENT, BENGAL, 1911-12.

The Hon'ble Mr. Duke presented the Revised Financial Statement, Bengal, for 1911-12.

REVISED FINANCIAL STATEMENT, BENGAL, 1911-12.

and provision has been made accordingly.

43-Irrigation Minor Works and Navigation (Provincial share) ...

+11,000 This is on account of the Bagjola Drainage Scheme which is in progress. The Public Works Department surrendered Rs. 22,000 on this account during the current year, to be regranted during 1911-12. CHARGES—concld.

45-Civil Works in charge of Public Works Department ...

+1,70,000 The provision of Rs. 2 lakhs on account of the Monghyr Central Jail has been raised to Rs. 3,70,000 as the early com-pletion of the work is desirable, and it is anticipated that progress can be made during the year to

this extent.

Closing balance for 1911-12 ... -1,59,000

In other words the closing balance for 1911-12 will now stand at Rs. 85,77,000.

3. The Finance Committee of Council met on the 6th instant, and considered the proposed expenditure of Rs. 5,96,600 upon new Civil Works in charge of the Public Works Department as detailed on pages 20-22 of the notes accompanying the Revised Financial Statement, and in accordance with their recommendations the following changes have been made: -

good of Rs. somman graweller and

Lines for new Military Police in the

ines for new Military Police in the neighbourhood of Calcutta ... —25,000 It was considered that the provision of Rs. 1,75,000 might safely be reduced to this extent, as it is not probable that greater progress could be made with the work manson finitel to your all 600,60%14 during the ensuing year.

Construction of quarters for Munsifs

+20,000 There was already a provision of Rs. 6,000 on this account in the Public Works Department Budget. This has been raised and compared to a material and not sold to a first loaded) reference of the first state and the flow ourse bestimen need in order that more rapid progress may be made.

Contribution towards the construction of quarters for the Medical Officer at the Fraser Hospital, Burdwan... confided families of and

number of patry alterations organisms ander maker maker Inspection bungalow, Danton +5,000 The total cost of the work is estimated at Rs. 15,000. Of this it is contemplated that Government will contribute Rs. 5,000.

... -6,700 This has been omitted as the need 000,00,24 ... for it did not appear to be urgent.

Construction of quarters for a Sub-Deputy Collector, Asansol

... +6,700 This work has been represented to be urgently required.

4. Since the circulation of the amended draft Financial Statement it has been found necessary to make a provision of Rs. 1 lakh for the construction of the new Civil Engineering College at Ranchi. It had been intended that this should be met from the special assignment of Rs. 12 lakhs from the Government of India on account of non-recurring expenditure in the Education Department of the construction of the construction of the construction of the construction of Rs. 12 lakhs from the Government of India on account of non-recurring expenditure in the Education Department of the construction of Rs. 1 lakh for the construction of the new Civil Engineering College at Ranchi. It had been intended that this should be met from the special assignment of Rs. 12 lakhs from the Government of India on account of non-recurring expenditure in the Education of Rs. 12 lakhs from the construction of Rs. 12 lakhs from the Government of India on account of non-recurring expenditure in the Education of Rs. 12 lakhs from the construction of Rs. 12 lakhs from the Government of India on account of non-recurring expenditure in the Education of Rs. 12 lakhs from the construction of Rs. 12 lakhs from the Covernment of India on account of non-recurring expenditure in the Education of Rs. 12 lakhs from the Covernment of Rs. 12 lak tion Department, but it is understood that the conditions imposed by the Imperial Government will preclude this course. Consequently it has been necessary to substitute this project for others which it had been the intention previously to undertake from the grant to the Public Works Department for Civil Works, and it is proposed that the following should be omitted:—

englished was religion				Rs.

REVISED FINANCIAL STATEMENT, BENGAL, 1911-12.

Part I.-General Review.

(1) ACCOUNTS FOR 1909-10.

When the revised estimate for 1909-10 was laid before the Council on the 26th March 1910, the receipts of the year were estimated to amount to Rs. 5,77,43,000, and the charges to Rs. 5,48,49,000, while the anticipated closing balance was Rs. 87,37,000. The accounts of the year, which have now been finally closed, show that the actual receipts amounted to Rs. 5,81,81,969, and the charges to Rs. 5,49,07,904, while the closing balance was Rs. 91,17,653. The receipts were thus better by Rs. 4,38,969, this improvement having occurred chiefly under Interest (Rs. 82,808) owing to larger collections under loans in class I, Jails (Rs. 46,113), Scientific and other Minor Departments (Rs. 63,717) owing to the increased sales of quinine, and Miscellaneous (Rs. 3,49,099) mainly under unclaimed deposits.

(2) REVISED ESTIMATE FOR 1910-11.

2. The revised estimate for 1910-11, as now passed on the basis of the actuals of the first ten, and in some cases eleven, months of the current year is compared below with the sanctioned estimate for the year:—

endorer di dina	ne Lo so st	Sanctioned estimate.	Revised estimate.	Better (+) or worse (-).
Opening balance		Rs. 87,37,000	Rs. 91,18,000	Rs. +3,81,000

mere but her tablests the good all to sucress to	at and join.	1874

The principal fluctuations under the Revenue heads are noticed briefly The improvements aggregated Rs. 8,61,000, chiefly under the followbelow. ing heads :-

Land Revenue - (Rs. 61,000) due to better collections of ordinary and miscellaneous revenue.

Excise—(Rs. 3,74,000) due to better settlements and the increased consumption of country spirits.

Provincial Rates—(Rs. 95,000) due to an increase in the collection of Public Works

Forests—(Rs. 50,000) due to larger collections in Palamau, Singhbhum, Chaibassa, Sambalpur, Angul and Puri. In Singhbhum the Bengal Timber Trading Courts of Law—(Rs. 51,000) on account of special receipts under process-servers' fees in Midnapore, Khulna and Shahabad, and larger receipts from Magisterial

-(Rs. 18,000) due to larger recoveries on account of punitive police in Khulna and Jessore.

Ports and Pilotage—(Rs. 65,000) chiefly under pilotage receipts.

Education-(Rs. 46,000) under fees from Government Colleges-General, and High Schools for boys.

Medical—(Rs. 47,000) partly due to a special receipt of Rs. 17,498 from the Port Commissioners on account of the Clayton Fumigating apparatus, and partly to larger receipts from paying patients and as fees in the Medical College.

Civil Works in charge of the Public Works Department—(Rs. 45,000) due to the inclusion of the Government share of the annual profits of the Darjeeling—Theorem Politics of the Contract Himalayan Railway for two years, no payment having been made in 1909-10.

Under the following heads, on the other hand, the revenue fell off appreciably, the total decrease being Rs. 13,22,000 :-

Stamps-(Rs. 4,43,000) chiefly in respect of the sale of general stamps, the new legislation having failed to yield the enhancement anticipated.

Assessed Taxes—(Rs. 2,65,000) due to smaller collections in Calcutta, Burdwan and

Manbhum owing to trade depression during 1909-10.

Registration—(Rs. 2,12,000) owing to a decrease in the number of registrations effected.

Interest—(Rs. 1,16,000) chiefly under loans to cultivators owing to a reduction in the outstanding balances of the Provincial Loan Account.

Jails—(Rs. 40,000) owing to a falling off in the sale of manufactured articles.

Miscellaneous—(Rs. 52,000) under unclaimed deposits and the sale of lands and houses.

In particular, a smaller amount was realized by the sale of the Jorabagan thans

than was originally estimated.

Irrigation—Major Works—(Rs. 67,000) due chiefly to a fall in the receipts from water rates on the Sone canals owing to a contraction in the area irrigated

during the hot weather of 1910.

Irrigation—Minor Works and Navigation—(Rs. 1,00,000) due principally to a falling off in the Navigation receipts on the Calcutta and Eastern Canals, in consequence of the closure of the Bhangore khal and Chitpur look.

On the expenditure side the revised estimate shows a total decrease of Rs. 25,97,000 which is mainly accounted for under the following heads:-

Land Revenue-(Rs. 1,26,000) partly under salaries of officers, and savings in the grant for contingencies and process-serving establishments, and partly in the expenditure upon the experimental maintenance of the record-of-rights in Orissa.

Stamps-(Rs. 36,000) chiefly under the cost of stamp paper supplied from Central Stores.

Registration—(Rs. 36,000) by savings under the provision for grain allowance and in the pay of Sub-Registrars and the rent of offices of Sub-Registrars.

General Administration—(Rs. 86,000) due to the delay in the formation of the

Executive Council.

(Rs. 4,13,000) due to savings in the grant for dietary charges owing to the fall in the price of food-grains, and to smaller outlay on the purchase of raw materials.

Police-(Rs. 2,49,000) owing to savings in the grant for grain allowance and contingencies

Education-(Rs. 3,64,000) due to savings under the salaries and allowances of Inspectors, and in the Sibpur Engineering College; to smaller expenditure on the Industrial Chemistry class and the Physical and Chemical Laboratory charges, Government schools—General, and Training schools for masters.

Medical—(Rs. 1,42,000) due chiefly to savings under District Medical establishment, supplies and services of the Campbell Hospital and the expenditure on

plague preventive measures.

Scientific and other Minor Departments—(Rs. 53,000) chiefly in respect of the Veterinary and Agricultural Departments, but also under Botanic Gardens and Miscellaneous. The expenditure of the Fisheries Department was also reduced.

Stationery and Printing—(Rs. 1,33,000) partly due to savings under Establishment in the Government Presses, and partly under Stationery supplied from

the Central Stores. the Central Stores.

Miscellaneous—(Rs. 1,54,000) due to the adjustment to the appropriate heads of expenditure sauctioned by His Honour out of the allotment for petty grants, and to the reappropriation of the reserve provision of Rs. 1,07,000 to meet expenditure under other heads.

Irrigation Minor Works and Navigation—(Rs. 1,72,000) chiefly on account of transfers to Major Works (working expenses).

Civil Works in charge of the Public Works Department—(Rs. 2,09,000) owing to the non-utilization of the full grant for the Press block in the new Presidency Jail and the provision for the Monghyr Central Jail.

Civil Works in charge of Civil officers—(Rs. 3,25,000) on account of transfers to other heads.

On the other hand, there was a total increase in expenditure of Rs. 7,35,000, of which the most noticeable instances were as follows:-

Courts of Law-(Rs. 5,65,000) mainly under Law charges in connection with political cases.

Irrigation Major Works—(Rs. 1,41,000) due to an adjustment of the total provision for establishment under heads 42 and 43, and to expenditure upon silt clearing, the repairs of locks on the Hijili Tidal Canal, and special repairs on the Sone and Orissa Canals.

6. The net result of these changes is that the closing balance for 1910-11, including the sum of 50 lakhs held in trust for the Calcutta Improvement Scheme, which was estimated in March last at Rs. 70,00,000, is now expected to amount to Rs. 1,23,08,000.

(3) FINANCIAL SETTLEMENT.

7. The effect of the modifications which have been approved by the Government of India in the terms of the Financial Settlement with the Province, with effect from the 1st April 1911, are shown below:-

Property of the state of the st	Andreas and the second		Rs.	Rs.
(a) Additions to growing revenu	es of the Province-	Less peyo-	1000000	TO WHILE THE

Irrigation Departmen	it total charges (i lio Works Departn	neluding nents) ½	28,61,000	
Net redu	ction in expenditur	е	and appear	11,86,000
(c) Total gain to Patransactions und		by the		54,68,000

Rs. Net reduction made in the fixed assignments ... 47,22,000 (d) Net gain to Province over the whole transaction to be given in the form of a special recurring grant ... 7,46,000

It is to be remembered that under the terms of the Financial Statement receipts and charges under different heads (other than Land Revenue) are shared in the same proportion. Therefore the Province, when given larger shares than previously under Excise and Forests, had to accept a correspondingly larger share of the expenditure under these heads, but on the balance of the transaction it gained Rs. 42,53,000. Similarly the division of certain receipts in the Irrigation Department carried with it the corresponding division of the charges, but since the charges exceeded the receipts, the Province gained Rs. 11,86,000 under this arrangement, as well as Rs. 29,000 owing to the division of the deductions of income-tax from salaries in the Public Works Department. The aggregate Provincial gain was accordingly 18s. 54,68,000, and had the Government of India decided to have left to the Province no immediate profit over the modification of the settlement, a corresponding reduction would merely have been made from the fixed assignment. While making that deduction, however, a fixed recurring grant has been given of Rs. 7,45,000, and the net gain to the Province, therefore, is of that

(4) BUDGET ESTIMATE, 1911-12.

8. The opening balance of 1911-12 is the closing balance of 1910-11,

and is therefore Rs. 1,23,08,000.

9. The estimates for the year, as approved by the Government of India, show receipts aggregating Rs. 5,48,40,000, an expenditure of Rs. 5,85,71,000, and a closing balance of Rs. 85,77,000. Out of the special grant of 50 lakhs for the Calcutta Improvement Scheme, which has appeared in the accounts since 1903-04, ten lakhs will be paid to the Improvement Trust when that body is constituted during the ensuing year, and effect is given in full to the scheme of finance which has been approved by the Secretary of State.

10. The estimate of receipts includes the following assignments from Imperial Revenues, from which Rs. 54,68,000 has been deducted, as explained above, under the terms of the new financial settlement. The calculations

are shown below :-

11. On the expenditure side, the total estimated charges for 1911-12 amount to Rs. 5,85,71,000, which is in excess of the income by Rs. 37,31,000, owing mainly to the provision of Rs. 11,50,000 for payment to the Calcutta

Improvement Trust, and the expenditure of 17 lakhs on non-recurring charges of the Education and Sanitation Departments for which a special assignment was given by the Government of India in 1910-11.

12. A schedule is attached showing the new schemes, costing individually more than Rs. 5,000 in any one year, which have been included in the Budget. The non-recurring charges on account of these schemes amount to Rs. 2,54,450, and the recurring charges to Rs. 8,30,738. The Budget includes, in addition, the following new schemes of a more or less petty nature, which are individually estimated to cost Rs. 5,000 or less:—

(a) Non-Recurring Charges.

(a) NON-ILECURING CHARGES.		4
	Rs.	Rs.
Land Revenue—		9.00

PART II.—Detailed remarks on the Budget for 1911-12.

estation as the district of

RECEIPTS.

13. Land Revenue.—The total collections in 1909-10 amounted to Rs. 3,04,85,296, and the estimate for 1911-12, as provisionally passed by the Government of India, is Rs. 3,04,13,000, in comparison with Rs. 3,04,00,000, the revised estimate for 1910-11. The estimate includes Rs. 10,97,000 for recoveries of Survey and Settlement charges, against Rs. 11,00,000 provided on the same account in the revised estimate for 1910-11.

14. The estimated Provincial share of Land Revenue is calculated as

follows: -

Estimate, 1910-11.	Revised estimate, 1910-11.	Estimate, 1911-12.
Rs.	Rs.	Rs.
3,02,92,000	3,04,00,000	3,04,13,000
34,67,000	34,26,000	35,82,000
11 55 000	11,00,000	10,97,000
46,22,000	45,26,000	46,29,000
O MO MO DOO	2,58,74,000	2,57,84,000
1,28,35,000	1,29,37,000	1,28,92,000
34,67,000	34,26,000	35,32,000
1,63,02,000 33,64,000	1,63,63,000 68,87,000	1,64,24,000 -12,34,000
1,96,66,000	2,32,50,000	1,51,90,000
	1910-11. Rs. 3,02,92,000 34,67,000 46,22,000 1,28,35,000 34,67,000 1,63,02,000 33,64,000	Betimate, 1910-11. Rs. Rs. 3,02,92,000 3,04,00,000 34,67,000 34,26,000 11,55,000 11,00,000 46,22,000 45,26,000 2,56,70,000 2,58,74,000 1,28,35,000 1,29,37,000 34,67,000 34,26,000 1,63,02,000 1,63,63,000

15. Stamps.—The Eudget estimate of the total revenue from Stamps for 1910-11 was passed by the Government of India for Rs. 1,67,86,000, including Rs. 6,86,000, being the expected proceeds of the new scheme of taxation sanctioned by the Government of India in connection with the Imperial Budget for 1910-11. The actuals in 1909-10 amounted to Rs. 1,56,17,389, while those of the first ten months of 1910-11 exceeded the figures of the corresponding

period of the preceding year by Rs. 1,91,000 only. These figures show that the increase expected by the Government of India from the new taxation has not been realized. In view of this fact, and allowing for the adjustment of receipts from the sale of unified stamps between the Postal and the Stamp Departments, the revised estimate for 1910-11 has been passed for Rs. 1,59,00,000. Allowing for a progressive increase of 3 lakhs the estimate for 1911-12 has been placed at Rs. 1,62,00,000. The Provincial share is one-half, and amounts to Rs. 79,50,000 for 1910-11 and Rs. 81,00,000 for 1911-12.

16. Excise.—The revenue from Excise for 1910-11 was estimated at Rs. 1,70,52,000, and included Rs. 52,000, being the expected proceeds of the new scheme of taxation by which the tariff rates on beer and spirits were raised. The actuals in 1909-10 amounted to Rs. 1,67,92,558, while the figures for the first eleven months of 1910-11 show an increase of Rs. 9,93,000 over the actuals of the corresponding period of the preceding year. The revised estimate for 1910-11 has therefore been passed for Rs. 1,78,00,000, and allowing for a progressive increase of three lakks, the estimate for 1911-12 has been placed at Rs. 1,81,00,000. The Provincial share (one-half in 1910-11) amounts to Rs. 89,00,000 and (three-fourths in 1911-12) amounts to Rs. 1,35,75,000.

17. Provincial Rates.—The actual collections of the Public Works Cess in 1909-10 amounted to Rs. 38,05,619, while the estimate for 1910-11 was Rs. 37,90,006. The receipts in the first ten months of the current year, however, show an increase of Rs. 91,000 over those of the corresponding period of 1909-10. The revised estimate for 1910-11 has accordingly been placed at Rs. 39,20,000, and the estimate for 1911-12 at Rs. 38,20,000, allowing for an anticipated decrease in the receipts from the cess on mines. The cess on mines is assessed annually on the average net profits of the preceding three years of which the accounts have been made up. The assessment for 1911-12, therefore, will be made upon the basis of the average profits of the mines during the years 1908, 1909 and 1910, but since 1908 the price of coal has fallen considerably and has not yet recovered. Under "General Rates for the Management of Private Estates" the estimate of receipts is Rs. 1,80,000, in comparison with Rs. 1,50,000, the revised estimate for 1910-11. The total estimate for 1911-12 is therefore Rs. (38,20,000+1,80,000=) 40,00,000.

estimate for 1911-12 is therefore Rs. (38,20,000+1,80,000=) 40,00,000.

18. Assessed Taxes.—The receipts from Income tex for 1910-11 were estimated at Rs. 59,00,000. The actual collections of 1909-10 amounted to Rs. 55,86,037, but those during the first ten months of 1910-11 show a decrease of Rs. 1,80,000 as compared with the actuals of the corresponding period of the preceding year, and the revised estimate for 1910-11 has therefore been placed at Rs. 53,70,000. To this amount Rs. 1,30,000 has been added as the normal anticipated increase of revenue, plus Rs. 57,000 being the estimated amount of deductions on account of Incorre-tax from salaries in the Public Works Department which are at present wholly Imperial, but which will be divided with effect from 1911-12 in equal proportions between Imperial and Provincial Revenues. The estimate for 1911-12 has accordingly been passed for Rs. 55,57,000. The Provincial share (one-half) amounts to Rs. 27,78,000.

19. Forests.—The total receipts under this head for 1911-12 are estimated at Rs. 12.50,000 against Rs. 12.00,000, the revised estimate for 1910-11 and Rs. 10,80,610, the actuals of 1909-10. It is expected that the Bengal Timber Trading Company will work the forests in the Singbhum Division to a greater extent than previously, and that the sale of timber and firewood in the Sunderbans Division will increase. The receipts and charges of this depart-

ment will be wholly Provincial with effect from the 1st April 1911.

20. Registratim.—The receipts under this head for 1910-11 were estimated at Rs. 14,87,000. The actuals in 1909-10 amounted to Rs. 13,52,720, while the collections in the first nine months of 1910-11 show a decrease of Rs. 90 010 as compared with those of the corresponding period of the previous year. The decrease is attributed to the falling off in the number of registrations owing to the good harvests of the preceding year. The revised estimate for 1910-11 has been placed at Rs. 12,75,000, and, allowing for an increase of Rs. 51,000 over the revised estimate, the estimate for 1911-12 has been passed for Rs. 13,26,000. The receipts of this department are wholly Provincial.

21. Interest.—The estimate of loans, as submitted to the Government of India, provides for a return in the way of interest during 1911 12 of Rs. 5,85,000, as shown below -

nterest on advar	ces to cultivator	rs, etc.	370	1000 E	Rs.
	age and embank		008	P.	25,000
,, ,, loans	to land-holders to Municipaliti		iet Boards,	etc	1,60,000 1,85,000
liscellaneous	red Sente part	***	100	510 577	39,000
ENGLISH Y ARTHUR			Total	E wil	5,85,000

Law and Justice - Courts of Law .- The actuals in 1909-10 amounted to Rs. 6,00,716, while the receipts in the first nine months of 1910-11 show an increase of Rs. 58,990 over those of the corresponding period of the previous year, but these included special receipts of Rs. 18,000 on account of process servers' fees collected in cash in the districts of Midnapore, Khulna and Shahabad, and unusually large receipts from Magisterial fines. In view of these circumstances, the revised estimate for 1910-11 has been placed at Rs. 6,75,000, and the estimate for 1911-12 at Rs. 6,15,000.

23. Jails.—The actuals in 1909-10 amounted to Rs. 8,59,113, while the receipts in the first nine months of 1910-11 amounted to Rs. 4,78,228, as compared with Rs. 4,83,561 in the corresponding period of the previous year. An improvement in the receipts is anticipated as the result of special efforts which are being made to push the sales of manufactured goods, while the sales of quinine, of which one-fifth is credited to the Jail Department, are also expected to increase. The revised estimate for 1910-11 has been placed at

Rs. 9,24,000 and the estimate for 1911-12 at Rs. 9,14,000.

24. Police.—The actuals in 1909-10 amounted to Rs. 1,89,940, and the receipts in the first nine months of 1910-11 show a decrease of Rs. 4,467 as compared with those of the corresponding period of the previous year. In view of these figures the revised estimate for 1910-11 has been placed at Rs. 1,85,000, against Rs. 1,67,000 originally passed. This increase as compared with the original estimate is due to recoveries on account of punitive police in Khulna and Jessore, which are not expected to continue during 1911-12, and the estimate for that year has accordingly been passed for Rs. 1,74,000.

25. Ports and Pilotage. The actuals in 1909-10 amounted to Rs. 15,22,485, while the Budget estimate for 1910-11 was Rs. 15,48,000. This has been raised to Rs. 16,13,000 in the revised estimate, with reference to the actuals of the first nine months of the current year. The estimate for 1911-12 has been passed for Rs. 15,85,000. The decrease is chiefly due to the fact that the Government of Eastern Bengal and Assam is making its own arrangements for the examination of masters, serangs, etc., and for the survey of inland steam vessels at Goalundo.

26. Education.—The Budget estimate for 1910-11 was Rs. 6,00,000. This has been raised to Rs. 6,46,000 in the revised estimate, with reference to the actuals of the first nine months of the current year, the improvement having mainly occurred under fees from Government Colleges-General, and from High Schools for boys (including collegiate schools). The estimate for 1911-12

is Rs. 6,50,000.

27. Mcdical.—The estimate for 1910-11 was Rs. 2,98,000 against Rs. 2,90,056, the actuals of 1909-10. The receipts during the first nine months of 1910-11 show an increase of Rs. 28,148 over those of the corresponding period of the previous year, this result being partly due to larger receipts from paying patients, and partly under Miscellaneous, since Rs. 17,498 were received on account of charges for the Clayton fumigating apparatus from the Port Commissioners. The revised estimate for 1910-11 has accordingly been placed at Rs. 3,45,000, and the estimate for 1911-12 at Rs. 3,29,000.

28. Scientific and other Minor Departments.—The estimate under this head for 1911-12 is Rs. 3,70,000, which is also the revised estimate for 1910-11, as compared with Rs. 3,46,717, the actuals of 1909-10. The increase is chiefly under the receipts from the experimental farms of the

Agricultural Department.

29. Receipts in aid of Superannuation.—As in the revised estimate for 1910-11, the total receipts for 1911-12 are estimated at Rs. 64,000, as compared with Rs. 66,558, the actuals of 1909-10.

30. Stationery and Printing.—The estimate under this head for 1911-12 is s. 1,42,000 in comparison with Rs. 1,41,000, the revised estimate for

1910-11, and Rs. 1,38,569, the actuals of 1909-10.

31. Miscellaneous.—The receipts for 1910-11 were estimated to amount to Rs. 7,42,000, which included Rs. 1,40,000 being part of the sale proceeds of the Jorabagan Thana, and Rs. 40,000 being the sale proceeds of the Garden Reach Thana. The Jorabagan Thana buildings were eventually sold for Rs. 1,83,000, of which Rs. 91,501 were paid in 1909-10, and the balance, Rs. 91,499, in 1910-11. It is not expected that the Garden Reach Thana building will be sold during the current year. The buildings and machinery, etc., now in Fraserganj have been sold for Rs. 60,830, which has been included in the revised estimate for 1910-11. In view of these figures and the actuals of the first nine months of 1910-11, the revised estimate for the year has been placed at Rs. 6,90,000. The estimate for 1911-12 is passed for Rs. 6,82,000, which includes a larger provision for lapsed unclaimed deposits and for the sale proceeds of elephants captured in the Khedda operations in Angul.

32. Irrigation—Major Works (Direct Receipts).—The Budget estimate for 1910-11 was Rs. 25,92,000, which has been reduced to Rs. 25,25,000 in the revised estimate, as compared with Rs. 27,02,520, the actuals of 1909-10, owing to a decrease in the area irrigated in the Sone Canals and a consequent decrease of Rs. 1,97,464 in the collections of the first eight months. The estimate for 1911-12 has been passed for Rs. 25,50,000, which for the first time includes receipts from the Tribeni Canal. The Provincial share (one-half in 1911-12)

is Rs. 12,75,000.

33. Irrigation—Minor Works and Navigation in charge of the Public Works Department.—The Budget estimate for 1910-11 was Rs. 6,50,000; but in view of the collections during the first eight months of 1910-11, amounting to Rs. 3,46,021, as compared with Rs. 3,49,426 in the corresponding period of the previous year, the revised estimate has been reduced to Rs. 5,50,000, against Rs. 5,63,620, the actuals of 1909-10. The decrease is chiefly under Navigation receipts from the Calcutta and Eastern Canals in consequence of the closure of the Bhangor khal and Chitpur lock. The estimate for 1911-12 amounts to Rs. 6,00,000, since an increase is expected in the Navigation receipts from the Calcutta and Eastern Canals. The Provincial share (one-half in 1911-12) is Rs. 3,00,000.

34. Civil Works in charge of the Public Works Department.—The Budget estimate for 1910-11 was Rs. 3,55,000, against Rs. 2,55,110, the actuals of 1909-10. The Government share of the profits from the Darjeeling-Himalayan Railway and the second instalment of rent from the Strand Banks, realizable from the Port Commissioners, were not credited to Government in 1909-10, and it is expected that they will be received during 1910-11, the revised estimate for which has accordingly been raised to Rs. 4,00,000. The estimate for 1911-12 is Rs. 7,14,000, and includes Rs. 3,63,742 on account of the first instalment of the sale proceeds of the land and buildings of the Sibpur Engineering College, which is to be sold to the Port Commissioners for Rs. 13,63,742, payable on the 1st March 1912, plus two instalments of Rs. 5,00,000, each, recoverable on the

1st March 1913 and the 1st March 1914, respectively.

EXPENDITURE.

35. Refunds and Drawbacks.—The expenditure in 1911-12 is estimated at Rs. 1,46,000 against Rs. 1,35,000, the Budget estimate for 1910-11, and Rs. 1,43,505, the actuals of 1909-10. The estimates under this head are based, as usual, on the average actuals of the previous three years, excluding special payments. The increase in 1911-12 is due to the increase in the Provincial share under the head of Excise from $\frac{1}{2}$ to $\frac{3}{4}$, and that under the head of Forests from $\frac{1}{2}$ to one. The revised estimate for 1910-11 has been raised from Rs. 1,35,000 to Rs. 1,50,000 with reference to the actuals of the 12 months ending the 31st December 1910.

36. Assignments and Compensations.—The estimate for 1910-11 was Rs. 70,000. The revised estimate has, however, been placed at Rs. 69,000

against Rs. 65,362, the actuals of 1909-10; the estimate for 1911-12 is Rs. 67,000.

37. Land Revenue.—The total Provincial expenditure for 1911-12 is estimated at Rs. 40,70,000, against Rs. 38,60,000, the revised, and Rs. 39,86,000, the budget estimate, for 1910-11, as shown below:—

AND THE LEGISLE THE PROPERTY OF THE PARTY OF	the Other Eve	1910-11.

Total	39,86,000	38,60,000	40,70,000
THE RESERVE OF THE PARTY OF THE	_		2000

The estimate under head (1) provides for the full cadre of establishment, and for travelling allowance, supplies and services and contingencies of Collectors' and Magistrates' offices, two-fifths of which has been transferred to 19A—Law and Justice—Criminal Courts. It includes a lump provision of Rs. 1,35,000, for the increase of the pay of ministerial officers, including arrears for 1909-10 and 1910-11, and Rs. 61,850 for additional Deputy Magistrates and Sub-Deputy Collectors, as shown below, in order to meet the demands of the Settlement Department:—

off to all to all the meritary off roll	Mar Laber	141 de	Rs.

Louis 11 1104 to the first of the control of the co	Total	dette 32 miestri la	61,850

Under head (3) a special provision of Rs. 40,000 has been made, as in 1910-11, in order that certain urgent works of improvement may be executed in Government estates which cannot be financed from the improvement grant as ordinarily calculated. Rupees 5,000 has also been provided on account of the payment of Public Works Cess and Road Cess in Government estates, since the primary liability rests with Government, and full recoveries from its raiyats are improbable. Provisions of Rs. 17,000 and Rs. 850 have also been made for the management and improvement of the Hiranpur and Sahibgunj markets respectively. Under head (5) Rs. 3,27,000 has been provided for the initial expenditure in bringing the survey and settlement records in Orissa up to date, and Rs. 59,000 for the experimental maintenance of the record-of-rights in Orissa.

38. Stamps.—The estimate for 1910-11 was Rs. 5,04,000, which has been reduced in the revised estimate to Rs. 4,32,000. The Budget for 1911-12 is Rs. 4,38,000, as against Rs. 4,31,964, the actuals in 1909-10, and allows for increased charges for the sale of stamps of different natures.

39. Excise.—The estimate for 1911-12 is Rs. 9,50,000, as compared with Rs. 9,00,000, the revised estimate for 1910-11. The increase is due to (a) a special provision of Rs. 50,000 towards the reorganization of the Excise Department with which it is contemplated to amalgamate the Salt Department, (b) an additional grant for rewards (secret service) which has placed at the disposal of the Excise Commissioner, and (c) an additional grant under travelling allowance, as the result of the increase in establishment. The Provincial share (three-fourths in 1911-12) is Rs. 7,13,000.

40. Provincial Rates.—The estimate for 1911-12 is Rs. 79,000 against Rs. 64,000, the Budget estimate for 1910-11, and Rs. 42,379, the actuals of 1909-10. The increase is mainly due to the valuation and revaluation charges

A STATE

1007

in the districts of Midnapore, 24-Parganas, Nadia, Jessore, South Monghyr,

Purnea, Ranchi and Hazaribagh.

41. Assessed Taxes.—The Budget grant for 1911-12 is Rs. 1,63,000 against Rs. 1,56,000, the revised estimate for 1910-11, and Rs. 1,55,715, the actuals of 1909-10. The Budget for 1911-12 includes a lump provision of Rs. 5,302 on account of the reorganization of the office establishment of the Collector of Income-tax, Calcutta. The Provincial share (one-half) is Rs. 81,000.

42. Forests.—The total expenditure for 1911-12 is estimated at Rs. 7,34,000, against Rs. 6,65,000, the sanctioned grant for 1910-11, and Rs. 5,91,099, the actuals of 1909-10. The Budget includes the following items:—

١	State I - I - I was proved the same of the	Rs.
	Construction of two new cutters and ranger boats for the Sundar- bans Forest Division	34,500
	Establishment, etc., for ditto ditto	2,720
	Departmental working of timber operations in Angul	6,000
	Reorganization of the establishment in Forest offices	5,128
	Initial cost of the Agency Forest Officer in the Orissa Feudatory	
	States—Buildings	9,000
	Salary, establishment and travelling allowances of ditto	9,960
	Introduction of the time-scale of pay for the Provincial Forest	
	Service	19,908
	Payment to the Raja of Porahat of the net profits from the	
	Porahat forests which are under the management of the	
	Forest Department	25,000
	Reorganization of the Subordinate Forest Service	5,000

The charges of this Department will be wholly Provincial with effect from 1911-12.

43. Registration.—The estimate for 1911-12 is Rs. 7,94,000, against Rs. 7,77,000, the revised estimate for 1910-11, and Rs. 7,78,634, the actuals of 1909-10. The Budget includes (a) Rs. 6,000 for the revision of the office of the Inspector-General, (b) Rs. 1,050 for the revision of the office of the Joint Sub-Registrar at Calcutta, and (c) larger provision for the allotments made to Sub-Registrars for contingencies, etc.

44. General Administration .- The estimate for 1911-12 amounts to

Rs. 24,24,000 and includes the following items:-

	Rs.
Delhi Coronation Durbar	3,00,000
Additional grant on account of the travelling allowance of	
non-official Members of Council	19,000
Additional establishment in the Secretariat record-room	3,200
Temporary establishment in the Secretariat record-room	23,000
Salary of the Personal Assistant to the Judicial Secretary to	
Government	7,800
Salaries, establishment, allowances and contingencies of the	
Members of the Executive Council	2,00,000
Salary of the Lady Adviser to the Court of Wards, together	markette nor more
with her establishment, contingencies, etc. (shown under	
Courts of Law in 1910-11)	16,000

The estimate for 1910-11 was Rs. 21,02,000, but the revised estimate was reduced to Rs. 20,16,000 owing to the delay in the formation of the Executive

Council, which was not constituted until the 19th November 1910.

45. Law and Justice—Courts of Law.—The Budget estimate for 1910-11 was Rs. 82,43,000, but the revised estimate has been raised to Rs. 88,08,000 with reference to the actual charges of the first ten months of the year, which were enhanced by the expenditure on law charges and fees to Counsel in connection with the trial of political cases. The estimate for 1911-12 is Rs. 87,34,000. It includes provision for (a) the reorganization of the ministerial establishment on the Original Side of the High Court, Rs. 23,797; (b) payment of fees to the Clerk of the Crown for attendance at the Special Tribunal, Rs. 3,000; (c) increase in the retaining fees of Government Pleaders and Public Prosecutors, Rs. 50,000; (d) larger grant for fees to pleaders and Counsel in criminal cases; (e) the permanent appointment of the Fifth Presidency Magistrate, Calcutta, Rs. 7,200; and (f) an additional grant under the charges for mujassal witnesses attending the High Court, Rs. 4,000.

46. Jails.—The estimate for 1910-11 is Rs. 28,71,000. The actuals in 1909-10 amounted to Rs. 25,29,720, while the actuals of the first nine months of 1910-11 show a decrease of Rs. 70,293 as compared with the figures of the corresponding period of the previous year, chiefly on account of the fall in the price of food-grains, smaller purchases of clothing and bedding and the non-payment of grain compensation allowance. The estimate for 1911-12 is Rs. 27,09,000, which includes provision for additional warder establishments; for the revision of the office of the Inspector General of Prisons; for the establishment and other charges of the new Central Jail at Kalighat; for new lights in the new Presidency Jail at Kalighat, and Rs. 9,000 for a new mill engine at Buxar.

47. Police.—The following table compares the figures under this head:—

Maria en estantament (1807) (hara	Actuals,	1910	1910-11.

48. Ports and Pilotage.—The estimate for 1910-11 was Rs. 12,93,000, but in the revised estimate this has been reduced to Rs. 12,65,000 chiefly owing to the discontinuance of the subsidies to steam boat companies. The estimate for 1911-12 amounts to Rs. 11,89,000, and includes smaller provision for the purchase of marine stores, and for coal, repairs and outfit of ships; also under Marine establishment, since it is expected that the working of the office of the Agent for Government Consignments will yield a larger net profit.

49. Education.—The total Provincial expenditure in 1910-11 was originally estimated at 18. 59,17,000, but in the revised estimate this has been reduced to Rs. 55,53,000 with reference to the actual charges in the first nine months of the current year. The decrease is distributed (a) under Inspection, due to savings under the salaries and allowances of inspectors and sub-inspectors, etc.; (b) under Government Colleges—Professional, on account of savings under salaries in connection with the classes in Industrial Chemistry and the Physical and Chemical Laboratories of the Sibpur Civil Engineering College; (c) under Government schools—General, due to savings under salaries in high schools and the non-utilization of the full provision for subsidies to model primary schools for girls; (d) under Government schools—Special, due to savings under Training schools for masters and for females at Calcutta, construction of guru training school buildings, allowances for school-masters' wives, female teachers' house-to-house visitation, miscellaneous schools, agricultural classes and gardens, technical, industrial and commercial schools; and (f) under Scholarships by reason of savings in scholarships in Arts Colleges and secondary schools. The following table shows the Educational charges since 1906-07:—

		ACCOUNTS.			1910-11.		1911-12.

Purchase of copies of Sir. Herbert Risley's work on Castes and	
Tribes of Eastern India	2,600
ment Colleges	17,800 4,000 4,402 2,600

The lump provision of twelve lakhs for non recurring expenditure will be distributed on receipt of detailed orders from the Government of India.

50. Medical.—The estimate for 1910-11 was Rs. 25,16,000, but this has been reduced to Rs. 23,74,000 in the revised estimate with reference to the actuals of the first nine months of the year. The saving occurred chiefly under the salaries of medical establishment, by reason of the non-utilization of the lump provision for the improvement of the pay and prospects of Assistant Surgeons and changes in the personnel, while economies were also effected under Reserve medical officers and in the grant for Supplies and Services of the Campbell Hospital, Medical College and medical schools, and under salaries in the Medical College. The estimate for 1911-12 has been passed for Rs. 25,13,000, which includes (i) the full sanctioned scale of pay of medical efficers, (ii) a lump provision of Rs. 41,000 for the improvement of the pay and position of Assistant Surgeons, (iii) Rs. 5,000 for commission to clerks in the offices of Civil Surgeons for the sale of quinine packets, (iv) increased provision for the maintenance of the electric plant in the Medical College Hospital, (v) a larger grant for the diet of patients in the General Hospital, (vi) a lump provision of Rs. 14,400 for officers employed in connection with malarial work, (vii) larger grants for the travelling allowances of the Vaccination inspecting staff and for antimalarial measures and for chemicals, (viii) contingencies for the laboratory which has been opened, for the examination of samples of water in Bengal (ix) the special allowances to Assistant Chemical Examiners and to the Assistant teacher of Chemistry at the Medical College and (x) Rs. 12,500 as a grant to the Lowis Jubilee Sanitarium in Darjeeling.

The grants for the Presidency Hospitals are shown below:-

100,01,	Salaries.	Estab- lishment.	Allow- ances.	Clothing and bedding.	Diet.	Other supplies.	Contin- gencies.	Total.
	Rs.	Rs.	Rs.	ks.	Rs.	Rs.	Rs.	Rs.

Albert Victor Asylum for Lepers.	4,980	5,448		1,500	16,000	900	6,172	35,000

^{51.} Political.—The estimate for 1910-11 was Rs. 59,000, but in the revised this has been raised to Rs. 63,000 owing to larger expenditure under Durbar presents. The Budget grant for 1911-12 is Rs. 64,000, which includes a provision of Rs. 3,000 for the purchase of an elephant for the Political Agent, Orissa Feudatory States, and for the repair of elephants' sheds, and also a larger provision for Durbar presents in view of the Coronation.

52 Scientific and other Minor Departments.—The estimate for 1911-12 is Rs. 14,69,000 in comparison with Rs. 14,32,000, the Budget grant for 1910-11. Provision has been made in the Budget for the following charges:—

	Rs.
Reorganization of the Veterinary Service	20,370
Employment of additional professors, etc., in the Agricultural College, Sabour	16,860
Buildings and fittings at the Agricultural College	20,000
Temporary establishment at the cinchona plantation, for replanting operations at Mungpoo and for the extension of the new divisions of Kashyan and Burmiak in Munsong	14,000
Purchase of a new launch for the Inspector of Factories and	11,000
its maintenance	10,256

- 53. Superannuation.—The estimate for 1911-12 is Rs. 28,53,000 as compared with Rs. 27,86,000, the revised estimate for 1910-11, and Rs. 27,12,983, the actuals of 1909-10.
- 54. Stationery and Printing.—The estimate for 1911-12 is Rs. 13,39,000 against Rs. 14,16,000 and Rs. 12,83,000, the Budget and revised estimates for 1910-11, respectively, and Rs. 13,17,476, the actuals of 1909-10. The following table compares the figures:—

HEADS.	Actuals, 1909-10.	Budget estimate, 1910-11.	Revised estimate, 1910-11.	Budget estimate, 1911-12.
Stationery Office at the Presidency Stationery purchased in this country Government presses Printing at private presses Stationery supplied from Central Stores Refunds	33,181 5,86,547 17,234 6,24,354	Rs. 59,000 34,000 6,47,500 21,000 6,54,000 500	Rs. 53,000 34,000 5,49,500 21,000 6,25,000 500	Rs. 55,000 33,500 6,18,000 21,000 6,11,000 500
Total	13,17,476	14,16,000	12,83,000	13,39,000

The details of the expenditure in Government Presses are as follows:-

		1910-11.		1911-12.
e and a solution of the	Sanctioned estimate.	Revised estimate.		Budget estimate.
	Rs.	Rs.		Rs.
Bengal Secretariat Press Darjeeling Branch Press Private Secretary's Press Presidency Jail Press Government publications	4,81,624 23,000 8,376 1,12,000 22,500	3,88,500 22,500 8,000 1,07,500 23,000		4,36,000 25,000 8,000 1,26,500 22,500
Total	6,47,500	5,49,500	la:	6,18,000

The decrease in the revised estimate for 1910-11 is chiefly due to savings under Establishment in the Secretariat Press. The estimate of the Presidency Jail Press for 1911-12 includes Rs. 9,664 for the reorganization of the establishment.

ment on the lines adopted in the Secretariat Press.

55. Miscellaneous.—The Budget estimate for 1910-11 was Rs. 4,98,000, but in the revised estimate this has been reduced to Rs. 3,44,000 owing to the adjustment under appropriate heads of the expenditure sanctioned by His Honour from the provision for petty grants, and to the reappropriation of the reserve provision of Rs. 1,07,000 in order to meet expenditure under other heads. The Budget for 1911-12 amounts to Rs. 6,03,000 and, as in

1910-11, includes a special provision of one lakh to be placed at the disposal of His Honour for petty grants and one lakh as a general reserve for unforeseen requirements. Provisions of Rs. 62,500 have been made on account of the subscription payable to a new vernacular paper, of Rs. 75,000, in place of Rs. 53,600, on account of the annual grant to the Calcutta Hospital Nurses' Institution, and of Rs. 5,500 as a grant to the Bengal branch of the Lady Minto

Indian Nursing Association.

56. Irrigation—Major Works (Working Expenses).—The actual charges in 1909-10 were Rs. 14,62,472. The Budget for 1910-11 was Rs. 13,50,000, but in the revised estimate this has been raised to Rs. 14,91,000. The increase is due to an adjustment of establishment charges, and to expenditure on silt-clearing and repairs to locks on the Hijili Tidal Canal and special repairs on the Sone and Orissa Canals. The estimate for 1911-12 is Rs. 14,50,000. It includes a new charge of Rs. 13,000 for the Tribeni Canal, which will be entered under this head for the first time with effect from the 1st April 1911. The Provincial share, which is one-half with effect from the 1st April 1911, is Rs. 7,25,000.

57. Irrigation—Minor Works and Navigation.—The Budget estimate for 1910-11 was Rs. 22,72,000, but in the revised this has been reduced to Rs. 21,00,000, chiefly on account of transfers from this head to 42—Irrigation—Major Works. The estimate for 1911-12 is Rs. 21,62,000, and includes the

following items :-

and the state of t	Rs.
Construction of sluices and escapes in embankments in Orissa Construction of bungalows at Diamond Harbour, etc., in the	33,000
Northern Drainage and Embankment Division	20,000
Madaripur Bhil scheme	3,25,000

Midnapore	25,000
Ditto ditto for maintenance	21,000
Government share of the contribution for the improvement of	
the Kausiki channel	16,500
Bagjola drainage scheme	22,000

The Provincial share, which is one-half with effect from the 1st April 1911,

is Rs. 10,81,000.

58. Civil Works.—The estimate of expenditure for 1911-12 has been placed at Rs. 50,93,000 against Rs. 50,50,000, the revised estimate for 1910-11, and Rs. 49,51,061, the actuals of 1909-10. The following figures show the distribution of the allotment as compared with the two preceding years:—

Several documents	Actuals, 1809-10.	Revised estimate, 1910-11.	Estimate, 1911-12.
	Rs.	Rs.	Rs.
Original Works Repairs Establishment Tools and Plant Stock and Suspense	 22,29,166 16,10,469 10,64,471 29,146 17,812	22,10,494 16,89,577 11,01,196 48,738	23,18,300 17,25,000 9,89,700 60,000
Total	 49,51,064	50,50,000	50,98,000

The decrease under establishment in due to the transfer of the charges of the office of the Examiner of Public Works Accounts from Provincial to Imperial. The statement below shows the actual expenditure during 1909-10, and the estimated expenditure during 1910-11, on the principal original works in progress during those two years, as also the estimated expenditure upon

the new works or continuation of works in progress, the undertaking of which is in contemplation during 1911-12:--

Budget includes provision for three Probationary Superintendents for four months.	Larger deduction made for probable savings in 1911-12 with reference to actuals.		Budget includes provision of Rs. 12,000 for the revision of beat establishment.		The decrease in both the revised and the Budget is due chiefly to the omission of provision for grain compensation allowance and to the transfer of the provision for house rent to contingencies.	Smaller provision has been made for the purchase of ordnance stores and boats and under petty construction.	Budget includes Rs. 40,000 for the house rent of sub-inspectors provided for under allowances in 1910-11, and larger grants on account of the rent of than buildings and the pay of sweepers, etc., transferred from establishment. 		Kemabes.	9 September 19 Sep	The state of the s	Smaller provision has been made for rewards to headmen in the Sonthal Parganas. The increase in the revised is due to the appointment of special	officers and to larger payments of special and local allowances and rewards. Budget includes Rs. 4,180 for the establishment of the Criminal Intelligence Bureau and Rs. 8,860 for local allow-	ances for the omeers of the ringer trutt bureau. Frozistou has also been made for an officer on special duty, and for establishment and house-rent transferred from Superintendence.							Budget includes provision for the completion of the cadre as propo-	sed by the Police Commission.	Budget includes provision for a larger number of chankidars for	watch and ward duty.

22.- Education -

	REMARKS.			Budget represents the grant from the Government of India-	As. 30,000-fror Administration and inspection and As. 20,000 for the Law College. The increase in the revised is due to a special grant to meet the deficit in the rents from hostels and messes	and for buildings. This is the grant from Provincial revenues.	The decrease in the revised is due to savings under salaries and	allowances. Budget includes provision of its. 68,960 for the regrading of sub-inspectors transferred from District Boards to Government service.	Provision included under grants-in-aid,	Budget includes Rs. 13,200 for salary and Rs. 6,800 for travelling	allowance, contingencies and establishment.		The increase in the revised is under salaries due to the strengthening of the instructing staff. Budget includes provision for	her additions to the staff.	increase in the number of boarders,		Budget includes Rs. 7,800 for the confirmation of five temporary	appointments already sanctioned.	The increase is due to charges for the new hostel for Muham-	madan suddents in Calcutta.

Medical Establishment— Superintendence District Medical establishment	71,002	69,416	68,793	75,101	75,000	71,000,	78,000	The degrees in the revised is doe to sevince and a selection of
								Assistant Surgeons. Budget includes a lump sum of Rs. 41,000 on this latter account, Rs. 5,000 for commission to clerks in Civil Surgeons' offices for the sale of quinine, and provision for the full sanctioned scale of Medical Officers.

	A CONTROL OF THE PROPERTY OF T		Budget includes larger provisions for the maintenance of electric plant and for rates and taxes; while no provision has been made for the equipment of the Surgical block, for which Rs. 50,675 was included in 1910.	Was incomed in	The decrease both in the revised and the Budget is due to smaller expenditure under Supplies and Services.	The increase is due to the increase of the pay of Sub-Assistant Surgeons sanctioned by the Government of India.	The Budget for 1910-11 included Rs. 12,000 for the construction of dispensary buildings at Asansol and Rajmahal, and hence the increase in that year. Revised includes special grants to the Burdwan and other hospitals. Budget for 1911-12 includes Rs. 12,500 for grant to Lowis Jubilee Sanitarium, Darjeeling.			The increase in the revised is due to charges for relief in malaria stricken areas. Budget includes Rs. 14,400 for officers in connection with anti-malarial measures, Rs. 3,600 for analysts for the analysis of water in the Sanitary Commissioner's laboratory, provision for the revision of the establishment of the Sanitary Commissioner's office, a larger grant for travelling		Budget based on actuals.

A proposal has been submitted to the Government of India for the reorganization of the Excise Department and its amalgamation with the Salt Department. The cost of the proposed amalgamated establishment will be Rs. 10,14,264 showing an increase over the present sanctioned scale of Rs. 2,16,276 per annum. A provision of Rs. 50,000 has been made towards the introduction of the new scheme in the event of its being sanctioned during the year.		A proposal to reorganize the Calcutta Income-tax Office has been approved by the Local Government.		At present the officers in charge of coupes in the Sunderbans Forest Division live in house boats and proceed to various distant places for inspection in small country boats. Much time is thus wasted; with a view to the economy of which it has been decided to provide steam cutters and boats. Rs. 10,000 has been provided for the construction of one cutter in 1910-11.

He said :-

Sir-"I beg to present the revised Financial Statement for 1911-12.

"The amended draft Financial Statement was circulated to members on the 2nd instant, which is three days earlier than was found possible last year, and to that extent we have been able to meet the request for more time for consideration of figures in framing resolutions. Attention has been drawn to the more important points of the estimates in the detailed notes which accompanied the statement and in my covering memorandum. It is only necessary to read with them the subsequent memorandum issued on the 11th March.

"The most important feature in the estimates of the year is the change which has been made by the Government of India in connection with the provincial settlement. The effect of this has been explained in paragraph 6 of my memorandum. Upon the figures taken as the basis of the arrangement the province stands to gain Rs. 7,46,000. Should the revenue heads of which we now receive a larger share continue to grow in the future we shall of course gain more largely, and this fact constitutes the advantage to the province from the substitution of a larger share of progressive revenues for a portion of the fixed assignment. On the other hand, we have to reckon with the fact that the Government of India declare that this is a final settlement and it is essential that all future proposals for increasing the expenditure of the province, more especially the recurring part of it, should be framed in view of this fact.

"Our closing balance for 1911-12 is shown to be lakhs 85.77. So large a figure may arouse some criticisms considering how severely necessary and even urgent expenditure has had to be restricted, and I will therefore give some explanation of it.

"Forty lakhs is the balance of the Imperial grant-in-aid to the Calcutta

Improvement Trust.

"Seventeen-and-a-half lakhs is the unexpended balance of the special grant from the opium surplus of $34\frac{1}{2}$ lakhs made to us in the revised estimate for non-recurring expenditure on education and sanitation. It is anticipated that

the total grant will be expended in the course of two years.

"Twenty lakes is our prescribed minimum closing balance. In other words, the balance in hand over what is considered the minimum of safety will be 8.27 lakes. Even as regards this I may remind the Council that we are embarking on one great project, the Monghyr Jail, for which 22 lakes more will have to be found in the course of the next three years."

The Hon'ble Mr. Slacke introduced the following heads :-

Revenue-

I-Land-revenue.

Expenditure-

- 3. Land-revenue.
- 8. Provincial Rates.
- 18. General Administration.

He said :-

"I beg leave to introduce, Sir, the consideration of the following heads:— 'I—Revenue—Land-revenue—Expenditure'; '3, Land-revenue'; '9,

Provincial Rates'; '18, General Administration.'

"In the revised estimate of the Budget it will be seen that there was an improvement in the receipts of Rs. 61,000. This is due to better collections of ordinary miscellaneous revenue owing to good crops. As compared with the original estimate of Rs. 1,26,000, there has been a decrease partly in the Orissa maintenance operations, partly in the grant for contingencies and process-serving establishments, and partly under salaries of officers. This last saving was due partly to the sanction of the Secretary of State not having been received to the proposal for increasing the cadres of Deputy Magistrates and Sub-Deputy Collectors to meet requirements of the Settlement Department, partly to the deputation of officers on special duty to other departments from

whose funds their salaries were met, and partly to smaller leave allowances

received by officers who have taken leave.

"In the Budget for 1911-12, we shall receive an assignment of Rs. 26,000 from Imperial Revenues in return for the abolition of the Patwari Cess in Sambalpur, and another assignment of Rs. 1,47,000 for the continuous maintenance of the record-of-rights in Orissa. We anticipate a small increase of Rs. 13,000 in receipts on account of gross land-revenue in addition to a revised estimate of Rs. 3,04,000 for the present year. The collections from Government estates, which, according to the revised estimate for the current year, will be $34\frac{1}{4}$ lakhs, are expected to reach $35\frac{1}{3}$ lakhs in the next year. After all the adjustments the gross provincial share of land-revenue is expected to be Rs. 1,51,90,000, as against the revised estimate of Rs. 2,32,50,000 for the current year. This decrease is due to the special adjustment described in paragraph 14 of the Amended Financial Statement.

"On the expenditure side the charges for District Administration show a small increase. The estimate for the next year is Rs. 30,10,000, which includes a lump provision of Rs. 1,35,000 for the increase of the pay of ministerial officers. Under the head of Management of Government Estates, a small provision of Rs. 40,000 has been continued since last year to meet certain urgent works of improvement which cannot be financed from the

ordinary grant.

"A sum of three lakhs of rupees has been provided for the Delhi Coronation Durbar and a sum of Rs. 19,000 for the travelling allowances of non-official Members of the Legislative Council. The balance of the increase is almost entirely due to the fact that the cost of the Executive Council will have to be met for the whole of the coming year."

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution :-

This Council recommends to the Lieutenant-Governor in Council-

- (a) that a sum of Rs. 30,000, or such other sum as the Government think fit, be provided for improving the Provincial Executive Service;
- (b) that the grant at the disposal of Divisional Commissioners for petty local works of improvement (page 22 of the Financial Statement, paragraph 59) be reduced by Rs. 20,000; and
- (c) that the charge for purchase of a new launch for the Inspector of Factories and its maintenance (Rs. 10,256, at page 18 of the Financial Statement, paragraph 52) be omitted from the Eudget.

The PRESIDENT said :- "The Hon'ble Member has circulated his speech to all Members of Council, and I think, therefore, with his permission, that it will be convenient to take it as read. Does the Hon'ble Member wish that this should be so?"

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :--

"I shall move the Resolution as it stands on the Agenda.

"With regard to what has fallen from Your Honour, a foreword by way of explanation is necessary, and I would, with Your Honour's permission, make a few remarks, for my notes, already in the Hon'ble Member's hands, cover larger ground than the Resolution in the Agenda. In compliance with the invitation of the Secretary to the Council, Members, who can and care to, send in notes of their proposed. their proposed remarks by way of assisting official Members in their replies. Not more than four or five days can possibly be at the disposal of Members, for which reasons these notes as well as the Resolutions which they support have to be rushed as fast as possible. Complicated facts and figures extending over scores of closely printed pages and taking weeks and possibly months to prepare, must require detailed and careful consideration and observations with regard to them must be deliberate in order to be apposite. As all this preparatory care and attention is involved, non-official Members do not mind accommodating official Members, or all Members for the matter of that, with their notes, if, that is to say, they have not much of a reputation to lose for high class oratory, impromptu dialectical skill or off-hand ability to Sacharate dry-as-dust figures. Such accommodation may help in boiling down the issues before the Council and in saving time; but reciprocity and sufficient time are essential to ensure its continuity. The strain of such rush and procedure in the case of busy professional people, without resources and assistance open to official Members, and possibly to leisured non-official Members, is apt to tinge the resolutions and the observations in their support, and it would be a great help and kindness to them to allow them some more time. The question was pointedly raised last year in Council, and Your Honour, while admitting that there was room for improvement, could not hold out prospects of much relief, having regard to the dates of the different stages of the Budget proceedings. This year, however, owing to exceptional circumstances, the Financial Statement was presented to the Council without being considered by the Financial Committee, and not much evil would result if Members in future years had access to the statement in its still earlier and cruder stage, with due notice and warning of course that the statement is open to change, as has been the case this year.

The PRESIDENT said :-

"I am afraid I must ask the Hon'ble Member to confine himself to the Resolution which he is about to move. I understand that what the Hon'ble Member wished was to offer an explanation. I do not see that the remarks which have so far fallen from the Hon'ble Member can be described as explanatory. Do I understand that these remarks are preparatory to your speech?"

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :-

"That is so ".

The PRESIDENT said :-

"I really do not think it necessary for the Hon'ble Member to enter into any discussion of the circumstances under which his note was prepared. His note is very full and comprehensive."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said : -

"The Resolution being now confined to the improvement of the Executive Service alone, the remarks in the notes that have been circulated so far as the details of the Judicial Service itself are concerned are no longer applicable under the circumstances that I have mentioned.

The following speech by the Hon'ble Babu Deba Prasad Sarbadhikari in support of this Resolution having been circulated to all Members of the Council before the meeting, it was, by order of the President under rule 34 (2, taken as read:—

"Speaking about the prospects of the Provincial Judicial Service during the August session of this Council, the Hon'ble Mr. Gourlay, then in charge of the department, said that 'the decision as to the time when the improvement of any particular service should be taken up must be left in the hands of the Government, because the Government alone could know the relative importance of the claims of the different services and of the different new projects and schemes'. On this ground he invited the Council to vote against the resolution for the improvement of the service which I was then moving. The Hon'ble Member asked the Council to leave the matter of improvement of any particular service entirely in the hands of Government. The Hon'ble the Maharajadhiraja Bahadur of Burdwan warmly seconded these sentiments, and though he was pleased to say that I had made out a very strong case for improvement of the Provincial Judicial Service, he expressed himself opposed to the principle of fettering the hands of Government regarding any particular

service. The Hon'ble Member, however, was good enough to admit that our duty as counsellors was to bring to the notice of the Government such grievances as existed in the different services. Although the two sentiments may be capable of being reconciled to one another in some remote manner, acting up to both simultaneously in practice is apt to be difficult for those who desire to have the requirements of particular services brought to the notice of Government in public interest. In view of sentiments like these, those who feel it their duty to press their demands must also feel embarrassed, though nothing can be further from their intention than to fetter or embarrass Government. questions of fettering the judgment of Government could arise in connection with general administrative questions, they would arise in a more pronounced emphatic, acute and possibly objectionable manner in connection with the Budget as a whole or with regard to particular items, for the Budget practically controls the year's work of the Government and lays down rules with regard to it. No Budget debate under impressions like these can or can be intended to be a reality. I cannot, however, persuade myself that when the Government in its wisdom has not only allowed general consideration of the Budget and administrative questions at large arising out of it, but has sanctioned the moving of individual resolutions in connection with the Revised Financial Statement with regard to particular administrative questions, the idea of fettering or embarrassing the Government enters into its mind at all as a possibility. I am confirmed in this belief by the partial effect that Government has been pleased to accord to the suggestions of Members made in Council from time to time, chiefly in connection with the Budget, including suggestions that were made at a time when resolutions were not permissible to be moved. I shall not at the present moment attempt the not wholly unprofitable study of the fly-on-the-wheel order and try to count up how many turns of the mighty Government wheel may be attributable to the tiny but strenuous efforts of non-official would-be Budget reformers in Council. One of the rules of the Budget discussion says in effect that if in connection with the Revised Financial Statement any resolutions be adopted and the Government does not see fit to act up to them, the Government will state the reasons for such inability and make it manifest that the refusal was due to reasons either financial or administrative. Such an occasion for the Government entering upon an explanation like this has not yet arisen and is not likely to arise soon. But the mere provision of this rule contemplates such a possibility.

"In connection with the resolution about the improvement of the Judicial Service last August, the Hon'ble Mr. Gourlay incidentally informed us that proposals had already been placed before the Government of India for the improvement of the Provincial Educational Service. In this regard he was good enough to acknowledge the very slight and inconsiderable support that he thought, in his own goodness, he had received from me. He added that these proposals had gone up to the Government of India, and that your Honour's Government were in hopes that they would be favourably received by the higher authorities. If approved, the Hon'ble Member went on to say, they would take up a large share of the sum which would be available for the new recurring expenditure in the near future, and he invited me to agree that the Government was justified in taking up the case of the Educational Service before any other. To my mind, however, it is not altogether a case of preferential treatment, so far as the different services are concerned. All require attention and care, and no one for a moment doubts the soundness of the position that, having regard to all the interests and requirements, Government is and always must be the best judge of the situation and must have uncontrolled discretion as to which service should be improved, in what way, when and on what terms. I was and am glad and thankful that the Hon'ble Mr. Gourlay, who was then in charge of the Judicial as well as the Educational Departments, was good enough to make this important pronouncement in favour of the Educational Service in which I am more especially and directly interested than any other. And there is ample indication in the Revised Financial Statement that, apart from the munificent benefaction of the Government of India, the Provincial Government, out of its own resources, would be prepared to make such improvements on the lines that have been suggested in the Council from time to time,

to a greater extent than has been attempted before. We are highly thankful for all that has been done and is promised in the near future, but we cannot shut our eyes to the fact that the improvement of the status of the Judicial and Executive Services is no less an educational question than it is administrative, for the prospects of our educated men are intimately bound up with the prospects of these services. I therefore feel impelled to bring up this question once more in connection with the Financial Statement.

"It is rarely edifying or profitable to have constantly to play the part of the importunate widow, particularly after re-assurances given to the effect that in due time all defects and requirements would be attended to, funds permitting. If, however, small instalments of reform be possible at a comparatively small cost such as it is the object of my present resolution to indicate, we may reasonably press them upon Government. During the debate in August and previously, the requirements of both the services were reiterated at such length that there is neither call nor justification for travelling over the same ground again. Nor is there occasion for so doing, because my resolution is limited to a small measure of improvement with regard to which Government may not have the same objection and difficulty as regarding the larger measures enumerated by such of my friends in this Council as specially voiced the claims of the Executive Service on the occasion, in the unjust and unfounded apprehension that I was opposed to such claims.

"The reason why I ask for this provision of Rs. 30,000 is fairly pressing. "The maximum pay of the Sub-Deputy grades is Rs. 250, while the minimum pay of the Deputy grades is Rs. 200, which is a serious and inconvenient anomaly. When a Sub-Deputy happens to be promoted to the Deputy grade, oftener than not he would be drawing the highest salary of his grade, and unless he is allowed to supersede the junior-most man in the Deputy grade his promotion would come in a questionable shape indeed. The most obvious and the most reasonable course would be so to co-ordinate the two services as to make the highest pay of the lower service the same as the lowest pay of the higher, so that the flow of promotion and preferment would be smooth and even. This necessary measure of reform would be accomplished by an expenditure of about Rs. 30,000; and if the removal of a serious defect with regard to one of the most important services in Your Honour's Government could be ensured by this small expenditure, it would be a sound and profitable investment indeed."

The Hon'ble MR. Duke said :-

"Sir, the portion of the resolution with which I am concerned is the first part requesting that a sum of Rs. 30,000 or such other sum as the Government think fit, be provided for improvement of the Provincial Executive Service.

"The Resolution in itself does not indicate what steps should be taken to improve the Provincial Executive Service, but in his speech or that portion of his speech which the Hon'ble Member desires should be retained, the Hon'ble Member has explained that he would propose to raise the minimum pay of the lowest grade of Deputies from Rs. 200 to Rs. 250 in order to remove the anomaly which, he considers, exists, inasmuch as the present pay is less than the pay of the highest grade of Sub-Deputies, which is Rs. 250. I may say at once that Government is in sympathy with the proposal contained in the Resolution, and had already some time ago decided to move the Government of India in the matter. I am at the same time to remind the Hon'ble Member that the rates of pay of the services are not within the competence of this Government to alter. Its function is limited to making recommendations to the Government of India who must decide upon the case. There are, however, one or two matters which I must mention to show that while we are in sympathy with the objects of the Hon'ble Member, it is not entirely for the reasons which he gives. His principal ground for increasing the pay of the lowest grade of Deputy Collectors is the anomaly as between them and the Sub-Deputy Collectors. This anomaly has not yet begun to cause inconvenience, since it is not the case, as the Hon'ble Member assumes, that promovenience, in the case is the case of tions to the Provincial Services are ordinarily made from the highest grade of the Subordinate Executive Service. On the contrary, this grade has usually

been retained as a shelf for deserving officers who were too old or had not the attainments which rendered them suitable for promotion, while promotions have ordinarily taken place from the second, or occasionally from the third grade. Since, however, owing to the very rapid promotions which have been granted in recent years, the average age of the Sub-Deputy Collector is becoming younger, it is possible, in the near future, that there may not be sufficient officers who, though deserving, are unfit for promotion to the Provincial Service to fill up the first grade of Sub-Deputies, and that the anomaly may actually arise. Again, Government does not admit that the surbor linate service should be the only or main recruiting ground for the Provincial service. Promotions from the one service to the other are to be regarded as a reward of exceptional merit, and upon the whole it is desired that the Provincial service should be regarded as of a superior status, and be recruited from men of better position and of higher attainments than in the other case. The principal ground which has moved Government to press for the change, which the Hon'ble Member desires to see made, is that the minimum pay Deputy Collectors in Bengal is lower than in most Provinces in India, and has been held on the high authority of the Public Services Commission to be insufficient pay for officers of that status. I may add that although the change is eminently desirable, it cannot be regarded as of extreme urgency, since there has never been any lack of candidates of the highest class for the Provincial Civil Service, nor has any exceptional difficulty, in the way of officers being able to live respectably upon their pay, been brought prominently to the notice of Government.

"The Hon'ble Mr. Slacke will have something to say as to the resolution in which the means of providing this expenditure are proposed, and I shall

not discuss them."

The Hon'ble MR. SLACKE said :-

"The Hon'ble Member has proposed that the grant at the disposal of Divisional Commissioners for petty local works of improvement should be reduced by the sum of Rs. 20,000. The system in accordance with which a grant of this nature is yearly placed in the Budget commenced from 1905. It was then considered that Commissioners of Divisions should be in a position to make grants to local bodies in order that small defects and needs that may be brought to their notice at the time of inspection or otherwise could be remedied at once and thereby save much needless correspondence. The sum of Rs. 90,000 was then distributed between the different divisions of the unpartitioned province. In the succeeding year an allotment of Rs. 60,500 was made to the six divisions remaining after the partition, and the same provision was repeated in 1907 and 1908. In 1909, owing to the great use that had been made of this allotment, the total grant was raised to \frac{3}{2} lakhs, and in 1910 it was further increased to 1 lakh. It will thus be seen that this grant has in recent years been gradually increased, experience having shown that by this method much good could be promptly done locally. From the experience which I have gained in my tours throughout the province during the last six years, I am convinced that a great deal of hardship will result by any diminution of this grant, and I would, therefore, strongly advise the rejection of this proposal."

The Hon'ble Mr. CUMMING said :-

"I am afraid, Sir, that the sum of Rs. 10,256 which is entered in the Budget for the Scientific and other Minor Departments, for the purchase and maintenance of a steam-launch for the use of the Special Inspector of Factories, will not be available for transfer to any other head. The cost of the launch is Rs. 16,000, of which half is being paid by the Boiler Commission and half will be paid by Government. The launch will be used by the Special Inspector of Factories, the Inspectors under the Boiler Commission and the Certifying Surgeon of Factories. I may point out that no fewer than 129 out of 187 factories in the Presidency and Burdwan Divisions are situated on or near the banks of the Hooghly. The launch has already been ordered; it will shortly be delivered by the builders, and it has to be paid for."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said: -

"Sir, I am very glad that I did move the resolution, for we have a reassuring reply from the Hon'ble Mr. Duke that the Government realises the necessity of this reform, and is already in communication with the Government of India with a view of taking the necessary steps. When we bring forward resolutions by way of amending the Budget generally, we do not expect that effect will possibly be given in the same year; and if the way is thereby to a certain extent prepared for future action, the object of the resolutions, even if they be not carried, are to a certain extent mot. The reasons adduced in support of the reform that I have moved for have been fully supplemented by the Hon'ble Mr. Duke. But the fact that there is no lack of candidates on the existing pay would hardly be a reason for withholding a reform if it was felt that it was a necessary and desirable one. The state of the country is such that even by reducing the pay of some of our services it would not be wholly impossible to have a semblance of the class of candidates that the Government has been accustomed to get, though in the long run the effect for the worse on the public service is bound to be more and more appreciable. The possibility of getting nearly equally good men might be urged in connection with the educational service and other services, but it is one which we have always found it difficult to accept. To try to avail of the necessities of a community is hardly the right way of improveing a service with regard to which there seems to be clear need for improvement. The principle that the Provincial Service ought not wholly or even largely be recruited from the Subor linate service is one with which we all agree, but as recruitment from that service is permissible to a certain extent, it is desirable that the reform that I advocate should be introduced. The status of the Provincial Service which the Hon'ble Mr. Dake is rightly anxious to maintain would be further maintained if the initial pay of the service be raised to the level of the other provinces. That is one reason why reform should be effected as soon as funds permit. Those of my hon'ble friends who on the previous occasion found fault with me for not voicing the needs of the Executive Service have not taken part in the debate to-day. I do not know what interpretation to put on that silence. If they think that the reform that I am urging is not one that they can consistently support, of course my position would be to a certain extent weakened. If, however, having regard to the reply given by the Hon'ble Mr. Duke, they think that it is not necessary at this stage to press the matter further (as I take it to be the realing of the situation), I would myself not press the point."

The Hon'ble Mr. Saryid Wasi Ahmad said :- "I wish to say a few words,

Sir."

The President-Is it by way of personal explanation?

The Hon'ble Mr. Satyld Wasi Ahmad said:—"Yes. I did not speak in support of my hon'ble friend's resolution, not because I was not in sympathy with him, but that I was waiting for a reply from the Hon'ble Mr. Duke. Having heard that reply, I do not think it at all necessary that my hon'ble friend, Babu Deba Prasad Sarbadhikari's Resolution needs any support, though I am in full accord with his Resolution, and I only wish the allotment could have been made more."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Slacke introduced the following heads :-

Revenue-

IX-Forests. '

Expenditure—

11. Forests.

He said :-

"I beg leave to introduce, Sir, the consideration of the following heads:-

Revenue ... IX-Forest. Expenditure ... 11-Forest. "The receipts and charges of this department will be wholly provincial from 1911-12. The receipts are estimated to be Rs. 12,50,000 as against Rs. 12,00,000 in the revised estimate for the current year, and Rs. 10,88,640, the actuals of 1909-10. Up to the present year the provincial share of expenditure has been half. From 1911-12 the whole expenditure (Rs. 7,34,000) will be provincial, and this may be compared with the total expenditure of nearly 6 lakhs in 1909-10 and $6\frac{1}{2}$ lakhs in 1910-11. The chief item of new expenditure is the provision of two new cutters and ranger-boats for the Sundarbans Forest Division at a cost of Rs. 34,500."

The Hon'ble Mr. Cumming introduced the following heads:-

Revenue-

XXI-Scientific and other Minor Departments.

Expenditure-

26. Scientific and other Minor Departments.

He said :-

"Sir,-I beg to introduce the consideration of the head 'Scientific and other Minor Departments'.

"The revised estimates for 1910-11 under this head show a small decrease in receipts and savings in expenditure to the extent of Rs. 53,000, distributed over all the departments. There was a smaller expenditure under the head of Contributions to Veterinary Hospitals and Dispensaries, on the Agricultural College and Experimental Stations, the purchase of cinchona bark and under the head of Fisheries.

"In the Budget for 1911-12, the gross receipts are expected to be Rs. 3,70,000, which is the same as the revised estimate for 1910-11. It is anticipated, however, that there will be an increase of receipts under the head of Experimental Cultivation owing to the opening of new farms and to the receipts from college fees at the Bengal Agricultural College.

"On the expenditure side the subjects of Emigration, Factories and Agriculture may be considered. In the case of Emigration, the salaries of the staff of the Protector's office have been improved. Under the head of Factories the chief item is a sum of Rs. 8,000, being half the cost of a steam-launch for the Inspector of Factories, to which allusion has already been made.

"There are four departments under the control of the Director of Agriculture, viz., (1) the Veterinary Department, (2) Agricultural Department, (3) Fishery Department, and (4) the Department dealing with Cooperative Credit Societies. During the present year, in the Veterinary Department steps have been taken to bring the veterinary assistants under the reorganization scheme sanctioned some time ago; and the present budget is drawn up so as to provide for this arrangement. Formerly, the Provincial Government made grants to local bodies towards the salaries of veterinary assistants, but in future there will be a Subordinate Veterinary Service paid for by the Government, while certain recoveries will be made from those local bodies who employ the veterinary officers. This new arrangement will be introduced from the 1st of April next.

"In the Agricultural Department proper there is an estimated expenditure of Rs. 4,03,500, compared with the revised estimate of Rs. 3,52,000 for 1910-11. The total increase is about half a lakh. The Bengal Agricultural College was opened last November, and there is in consequence some increase of expenditure under that head. There is accommodation for 120 students; and as the course is a three year one, 40 students per year will be taken. In the first year, however, as the staff had much to learn, the Director thought it advisable not to fill up the full number of vacancies. There are at present 21 students in the College, 7 of whom were nominated by the Government of Eastern Bengal and Assam, which, under the agreement made some years ago, will bear one-third of the recurring cost. The students were carefully chosen by the Director and the Principal out of a large number of applicants, and both they and their teachers have settled down to solid work. The increase in the cost of the upkeep of the farms is small, and is partly due to a project

for establishing a demonstration farm in the district of Angul, and partly to a scheme for popularising the growing of eri or castor silk amongst the people of South Bihar. The possibilities of the cultivation of castor silk-worms have already been demonstrated in North Bihar, and it is now proposed to spread a knowledge of it in South Bihar. There is a slight increase in the expenditure on Agricultural Associations. These bodies, and the agricultural exhibitions which are organized by them, are important links between the department and the cultivators. The members are gradually becoming better acquainted with the Inspectors attached to each Association; and they are making greater demands on their services. This is a welcome development. The new division of Tirhut has recently put forward its claim to have an independent association, and provision has been made for an extra Inspector and for a grant to the Association.

"Last year a provision of Rs. 40,000 was made for fisheries, but only a very small portion of this sum was utilized. The Department of Fishery was placed under the Director in January 1910. The two students who had been sent to learn something of western methods of fish culture, were placed under him. The Director has submitted a scheme to Government asking for the assistance of a western expert, for two or four years, to act as a Deputy Director on terms similar to those on which the Deputy Director of Agriculture is employed. Provision has been made for this officer in the budget, and it is hoped that his services will be obtained at an early date. Meanwhile, the two assistants are employed, the one in carrying out some experiments in connection with carp culture, and the other in searching for the spawning grounds of hiles. The estimated expenditure of this Department during the year is Rs. 37,300.

"The budget of the Registrar of Co-operative Credit Societies amounts to Rs. 43,000. This sum is only slightly higher than the estimate of last year. It is perhaps unnecessary to give any special account of the work of this Department. The excellent progress which has been made has been narrated by the Hon'ble Mr. Carlyle, in his speech in the Imperial Council on the 1st March

1911."

The Hon'ble Mr. W. C. Macpherson introduced the following heads:-

Revenue— V—Excise— Expenditure— 7. Excise.

He said :-

"I have the honour, Sir, to present the figures relating to the receipts and charges of the Excise Administration. The figures for receipts are to be found

on pages 29 30 of the Revised Financial Statement.

would be Rs. 1,70,52,000. The revenue under this head had increased steadily for 16 years until the year 1908-09 when there was a check; and the revenue was less by \$\frac{2}{3}\$ths of a lakh than in the preceding year, and in the next year fell two lakhs more. This falling off was due principally to poor harvests and the high price of food-grains; it was also due to the failure of the mohwa crop, which is largely used for the purpose of distillation, and it was also due to the contraction of employment in the coal, mica and lac districts, which decreased wages and resulted in decreased consumption of country spirit. It was also due to the substitution of the contract distillery system in the districts of Bihar for the old system of outstills which resulted in large decreases of license fees.

"In the current year there has been a remarkable recovery of excise revenue due, as I think, principally to the better harvests and cheaper prices of food-grains. The receipts in the first 11 months of this year are 10 lakhs

better than in the corresponding months of the previous year.

"I shall offer a few remarks to the Council with regard to the consumption of drink and drugs during the current year in explanation of some of the figures.

"Under the head of 'country spirits', the figures of consumption can only be compared in the case of those areas which are under the same system this year as last year. We must therefore exclude from the comparison the districts of the Patna and Tirhut Divisions in which the contract distillery system was only introduced in the current year. With regard to other divisions, there was a decrease of consumption of country spirits in the districts of Orissa and Chota Nagpur and some of the districts of the Burdwan and Presidency Divisions, but there was a considerable increase in the Bhagalpur Division and in Calcutta and in the districts adjoining Calcutta. In Calcutta the increase was expected as the result of cheaper prices of foodgrains, and the large decrease in consumption, which occurred in Calcutta two years ago, has apparently not yet been made up, although it is reported that here country spirit has to some extent displaced the cheaper imported spirit, in consequence of the increase of the tariff. The whole revenue under country spirits is still two lakhs lower than it was four years ago, though duty has been very much raised in recent years.

"Under the head of tari there is an increase of about two lakks, which is probably due both to better administration and to the fact that many persons

in Bihar prefer iari to the new contract spirit.

"Under the head of ganja there has been a more important and somewhat disquieting increase, especially in the districts of Bihar, due, it is stated, to lower retail prices consequent on a better season and lower wholesale prices in the ganja-producing area. The increase in the consumption of ganja will receive special attention in the Excise Administration Report for the year. With regard to consumption of opium, I have to mention that the issues of excise opium during the current year are 10 per cent lower than they were three years ago when smugglers for Burma were specially busy in this Province.

"The revised estimate of excise receipts for the current year stands at 178 lakhs. A normal increase of about three lakhs may be expected next

year, and the estimate for next year is placed at 181 lakhs.

"The provincial share of the current year's revenue is one-half, or 89 lakhs. With effect from next year the provincial share of the excise revenue and expenditure is to be raised to three-fourths. So it is expected that next year the provincial finances will receive about 136 lakhs from this source. It has before been pointed out that, next to land-revenue, the excise-revenue is the most important item of the provincial resources. Next year it will be only 15 lakhs less than the net provincial receipts from land-revenue,

and in the future this item may come to stand first in our resources.

"I turn to the expenditure figures which are to be found on pages 43 and 44 of the Financial Statement. The revised estimate of expenditure for the current year stands at 9 lakhs, and the expenditure for next year at 9½ lakhs. I explained last year that the recent increase of expenditure on excise is chiefly due to the further introduction of the system of supply of contract spirit, which requires larger establishments and the construction of warehouses. The further increase proposed is due to provision made for the much needed reorganization of the Excise Department with which it is proposed to amalgamate the Salt Department. The provincial share of the expenditure is one-half in the current year and it will be three-quarters, or Rs. 7,13,000, in the next year."

The Hon'ble Mr. W. C. Macpherson also introduced the following head:—
Expenditure—

bin eds son senti-

6. Stamps.

He said :-

"I also present, Sir, the figures relating to expenditure under the head

Stamps .

"These are to be found on pages 42-43 of the Financial Statement. It is estimated that the expenditure next year will be Rs. 4 lakhs 38 thousand, against Rs. 4 lakhs 32 thousand, the revised estimate for the current year. Half of this expenditure is provincial. The figures do not require any special attention."

The Hon'ble Mr. W. C. Macpherson also introduced the following head:

Expenditure—

10. Assessed Taxes.

He said :-

"The figures relating to expenditure under the head 'Assessed taxes' that is to say, with regard to the establishment employed to collect the Income-tax, will be found on page 45. The charges are to be Rs. 163 thousand next year, against Rs. 156 thousand in the current year. The increase is chiefly due to the proposal to reorganize the Calcutta Income-tax office, which has been approved by the Local Government. Half of this expenditure is provincial."

The Hon'ble Mr. Duke introduced the following head:

Expenditure-

19A. Courts of Law.

He said:

"I beg to introduce, Sir, the figures relating to Courts of Law which appear on pages 49-50 of the Revised Financial Statement. The total figures under this head show a large increase—altogether from Rs. 82,43,000, the estimate for the current year, to Rs. 88,08,000 in the revised estimate and Rs. 87,34,000, or somewhat less than the estimate for 1911-12. The causes which have contributed to this are dealt with in the marginal notes, and to

one or two of them I would merely refer briefly.

"A considerable amount of the increase is due to the revision of magisterial establishment which has been going on during the past year and is going on still, and will go on for some time, and it is a matter of time to carry it through. One item of this, which appears in this year's statement, is Rs. 23,797 for the ministerial establishment of the Original Side of the High Court. A similar increase will appear in the process serving establishments in the mufassil and again in the subdivisional establishments also in the mufassil. Again, an increase which appears in this statement, which has long been under consideration, is that of the retaining fees of Government Pleaders. There have been long-standing complaints that the fees which Government pays to Government Pleaders are no longer commensurate, or even approximately commensurate, with those earned by men of the same standing in private practice, and accordingly a provision of Rs. 50,000 has been made for raising the scale of Government Pleaders' fees. An exceedingly great increase in the Budget this year is in the expenditure upon law charges, excluding permanent establishment. The expenditure under this head in the current year, it is estimated, will amount to Rs. 9,70,000 by the 31st March; and of this sum, Rs. 6,57,000 odd will have been spent on and with cases in the High Court, and of the remaining Rs. 3,13,000 which has been spent in connection with cases before Courts other than the High Court.

"So far as the first item is concerned, it must be borne in mind that there have been several cases of unusual duration and magnitude. The Special Tribunal will have sat for 122 days for the trial of five cases, three of which ended in conviction and one is still pending. The pending case, known as the Howrah Gang case, if not disposed of by the 31st March, will have been under trial before the Special Tribunal for 71 days. Simultaneously a civil suit of great political importance has been pending on the Original Side of the High Court, and will have reached the, one hundred and fourteenth day of hearing by the end of the year. The large expenditure involved in these cases covers not only the fees for actual appearance in court but also the cost of the heavy work of preparation for the trial, and there has in addition been the

normal expenditure which has to be met every year.

"The remaining item of Rs. 3,13,000 spent in connection with litigation before Courts other than the High Court includes a sum of about Rs. 1,75,000 due to normal expenditure. The remainder may be accounted for by

the cost of magisterial inquiries preparatory to commitment to the Special Tribunal. Thus the inquiry before the Magistrate into the Howrah Gang case occupied 86 days in Court. There have also been important Press prosecutions before the Presidency Magistrate and at Khulna, and a long trial at Alipore of a case arising out of the Alipore Bomb case.

"The Government have thought it their duty, having regard to the importance of the issues involved, to spare no effort in the rigorous prosecution of political offences. They have engaged the best professional aid available, and though this has been costly, the result has to some extent justified the cost, for for many months political crime has very much decreased

and now appears to have almost ceased.

"The fees paid have certainly been high, but leading Counsel consider that they are entitled to ask high fees for prosecuting in such cases, for besides their difficult and intricate character, there is the fact that Counsel engaged on them are exposed to considerable annoyance, if not to actual risk. There is also the loss of practice by their protracted withdrawal from their ordinary work, and at one time there was the probability that accepting briefs for the Crown in such cases would of itself prejudice their future. This fear has, I hope, almost ceased now.

"Protracted as the trials have been, Government are assured that Counsel

employed by them have never unnecessarily protracted the proceedings.
"The process might have been cheaper if resort had not been had to the Special Tribunal procedure. The advantages of resort to that procedure have been well worth the additional expenditure involved. In each case the venue has been removed from the centre of disturbance, the trial has been as speedy as possible consistently with adequate inquiry into the facts. The procedure at each trial and the decision has been above the reach of criticism. This has been worth paying for at a time when a swift and even-handed administration of justice has been of the first importance.

"The Government has not lost sight of the importance of economy. The system will be carefully revised, and if by change of system economy can be secured without loss of efficiency, the Council may rest assured that the change

will be made.

Rough account of details of expenditure.

						Rs.
Midnapore case		71.4				3,05,000

Party Burg History			Total	1000	100	9,70,000

The Hon'ble Rai Baikuntha Nath Sen Bahadur moved the following Resolution :-

This Council recommends to the Lieutenant-Governor in Council-

(a) that, in order to increase the pay of 23 third grade Subordinate Judges by Rs. 100 each per month, and to give an allowance of Rs. 100 each per mouth to 20 Munsifs who are authorised to take cognizance of suits valued up to Rs. 2,000, provision be made in the Budget for 1911-12 by adding Rs. 27,600 to the sub-head "Subordinate Judges" and Rs. 24,000 to the sub-head "Munsifs" under the major head "19A—Courts of Law"; and

^{*} This includes a normal expenditure of about Rs. 40,000.

(b, that, in order that the total expenditure of the Province may exceed the amount sanctioned by the Government of India by the proposed increase in expenditure, a reduction of the corresponding amount, viz., Rs. 51,600, be made in the estimates of sub-heads "Legal Remembrancer and High Court Pleaders" and "Mufassal Establishment" under the major head "19A-Courts of Law."

He said:—"In moving this resolution, Sir, I beg only to draw the attention of the Government once more to the case of the Judicial members of the Provincial Service. This has been done on many occasions by my humble self as well as, in more abler ways, by my hon'ble friends, Babu Deba Prasad Sarbadhikari and Babu Bhupendra Nath Basu, but with no success. I stand here again, and, notwithstanding the failures of the post, I entertain an optimistic view for the future. I feel confident that our just Government would show liberality and generosity to a class of officers who have been rendering valuable services to Government under higher pressure, and also to the satisfaction of the public as well as of the Government. These officers have to do certain works, and making a quantitative and qualitative estimate of their work, we find that they have been rendering valuable service to the Government. From the last Civil List I find that there are 23 Subordinate Judges in the third grade and ten in second grade, and of five in the first grade, there are only four remaining in service.

"It has been repeatedly urged before your Honour that a Subordinate Judge cannot be made permanent before he reaches the age of 52, and then he has only three years to carry him through the three different grades. In the first grade, therefore, very few live for more than a couple of years. A few no doubt serves in the second grade for some years, but the majority has to retire from the third grade. The remuneration they receive, I submit, is not adequate, especially in view of the fact that as high Government officials they have to incur · heavier and large expenses to maintain their social position as also the prestige of the Government. Being high Government servants, they cannot travel in the third class in railway, and in similar other ways also they have to incur heavy expenses, not to speak of marriages of daughters, which is also a very heavy item of expense indeed. So that what I propose is that Subordinates Judges, when they are made permanent, should get Rs. 700

"With regard to the Munsifs who are now in the first grade and who are practically doing Subordinate Judges' work by trying cases up to Rs. 2,000there are 20 such Munsifs on the new cadre-I would submit that if these Munsifs had not been entrusted with these extra duties, six more Subordinate Judges would have to be appointed. That has not been done, and it is not in the contemplation of the Government to do so. These gentlemen, who practically perform Subordinate Judges' work, get no remuneration for their extra works. Is it not fair and just that they should be remunerated in some way or other? I understand that under the orders of the Government of India, Rs. 500 grade Munsiffships cannot be created. It would have been well if that could be done, but as that cannot be done under the orders of the Government of India, I venture to suggest that a special allowance of Rs. 100 per month may be given to them. That would require an expenditure of Rs. 51,600, and for the counterbalancing reduction, I beg to suggest that a corresponding reduction may be made in the estimates of sub-heads 'Legal Remembrancer and High Court Pleaders' and 'Mufassal Establishment' under the major head '19A—Courts of Law.'

"The Hon'ble Mr. Duke has referred to the expenditure incurred in conducting political cases. It is to be hoped that there will be no further prosecutions of political cases. But still the pending cases will have to be carried through. The question is whether or not this reduction of Rs. 51,600 can be conveniently made. Belonging to the legal profession, as I do, it will not look well for me, and, I am afraid, my professional brethren will be displeased with me, if I try to curtail the expenditure on that head. But with Government economy should be the first consideration. If a Counsel is to get three lakhs or two lakhs or one lakh of rupees for conducting a few cases, the

amount may be considerably reduced by some sort of arrangement with him, and in this way the expenditure under this head may be curtailed, showing at least a saving of Rs. 51,600. There are still some cases pending, and there may also be appeals. And in appeals it may be so arranged by paying lump sums that the whole question might be solved. I do not think I should take up the time of the Council any longer. I merely make this suggestion for the acceptance of the Council. Your Honour has shown economy in all the departments where money was being rather freely spent, and I feel every confidence that Your Honour will find your way in curtailing this amount and to provide for a class of men who certainly deserve liberality and generosity at the hands of our just Government."

The Hon'ble Maulyi Saiyid Muhammad Fakr-ud-din said:-

"Sir,—"I give my whole-hearted support to this resolution. This matter has come before this Council more than once. In March last, at the time of the Budget discussion, the Hon'ble Babu Deba Prasad Sarbadhikari put forward a resolution on this subject, but afterwards it was thought advisable to withdraw it. At the time of the discussion of the Financial Statement last year, I had the honour of inviting the attention of Your Honour and of this Council to the same matter. I pointed out in my speech at the time that those Munsifs who are in the first grade and who do the work of Subordinate Judges in trying cases of the value of Rs. 2,000, were justly entitled to get one hundred rupees more. At the same time, having regard to the refusal of the Government of India to create a new grade of Rs. 500 for the Munsiffs, I made a suggestion that in case Your Honour's Government were unable to make an addition to the pay of these Munsifs, perhaps a personal allowance might be allowed to those who tried cases of the value of Rs. 2,000, just as members of the Provincial Executive Service received an allowance when they had to perform extra work. These Munsifs are really hard-worked, and I believe an allowance of Rs. 100 to those who perform Subordinate Judge's work will satisfy them.

"As regards the pay of the Subordinate Judges, I had also the honour to point out that some of the Subordinate Judges who were working in the third grade hardly found an opportunity of getting a lift to the second grade; and so far as the third grade Subordinate Judges were concerned, Rs. 100 more should have been added to their pay or that the service of all the Subordinate Judges were so graded that these third grade Subordinate Judges would have got a lift in the second grade in a very short time before they actually retired. This matter again came before this Council in the form of a resolution in August last, and my hon'ble friend, Babu Deba Prasad Sarbadhikari, very ably threshed out all the points concerning the improvement in the prospect and pay of the Judicial Service in his speech. I had the good fortune of supporting that resolution which was, however, withdrawn after the reply from the official Member. I do not know what would be the fate of to-day's resolution, moved by my hon'ble friend, Babu Baikuntha Nath Sen, because I am not confident that at this stage of the Budget discussion it would be possible for the Government to make any substantial change or alteration in the estimate; but even then I am sure that discussion of such matters before this Council will go at least to help us in future. We hope that Your Honour will try to extend Your Honour's literal bands to the case of these hardworked Judicial officers.

"As regards the curtailment of expenditure, I also stand on the same footing with my hon'ble friend the Mover of the Resolution, as I also belong to the same profession, and the same remarks might also apply to me. But still I fully agree with the Hon'ble Mover that there ought to be curtailment in the expenditure under the head proposed by him, and that if by doing that an improvement is effected in the pay and prospects of the members of the Subordinate Judicial Service, I have every reason to believe that everyone will be satisfied. Surely the cost budgeted for the expenses in political cases is too large a sum and the legal practitioners could be more ecconomically engaged and retained in those cases. With these few words, Sir, I beg to support the Resolution."

The Hon'ble Mr. DUKE said :-

"The proposal of the Hon'ble Member is that Subordinate Judges of the third grade should receive a salary of Rs. 700 a month, instead of Rs. 600, and that Munsifs who are selected for the exercise of special powers to try cases up to the value of Rs. 2,000 should receive Rs. 500, instead of Rs. 400. I am afraid that it is not possible to accord a very favourable reception to these proposals for a number of reasons. In the first place, in most other provinces, the lowest grade of Subordinate Judges do not receive more than Rs. 500 and there is no sufficient reason to justify granting officers of the same standing in this province as much as Rs. 700. Further, if the prospects of the Provincial Judicial Service be compared with the Provincial Executive Service, it is in the higher grades that the former service has the advantage. It will be seen already that the advantage is in the higher grades, and, therefore, any further concessions made would be to create a greater disparity between it and the Executive Service and necessitate raising the standard of that service, and in fact, before any change of this kind is made, Government would have to consider whether there were not other services whose claims to improvement were entitled to preference. Now, as to the position of Munsifs who have been empowered to try suits up to the value of Rs. 2,000, I think that the arguments used are fallacious. In the first place, it has been suggested that either an increase of pay or an allowance of Rs. 100 should be given to them as a remuneration for the extra work. It is not suggested how we are to do this. This is a somewhat important matter. Then, in the next place, the matter, as the Hon'ble Mover and his supporters have admitted, was disposed of comparatively recently in March 1904 by the Government of India who definitely negatived the proposal, and the suggestion to get round it by mere grading, is a mere device which would not be admitted. We would have to push for a change, not to get round it by a device of this kind.

"As to the manner by which the proposed expense has to be financed, I referred to this only a few minutes ago, and I can only say that under the head 'Legal Remembrancer and High Court Pleaders,' Rs. 1,74,000 which has been budgeted under this head includes a normal expenditure which will have to be met quite irrespective of the cost of political cases, and that the remainder will be absorbed by the cases which are actually pending or a waiting trial for which arrangements with Counsel have already been made. The other suggestion is that money should be deducted under the head 'Mufassal establishment.' The only place from which money could be taken is from the Government Pleaders whose position it is proposed to improve; this has been long asked for, it has been well considered, and we are now in a position to do it, and we should not be disposed to curtail the improvement which it is proposed to make, in order to take up another improvement as to which we are not so convinced. Taking the other item, the largest item of the estimate, I would merely point out that this is less by Rs. 90,000 of the amount which, it is estimated, has been spent under this head during the current year, and it cannot fairly be further curtailed. I cannot admit that economy is always the first object. Economy is not the first object in a matter which conduces to the peace and good order of the country. The first object is that cases should be successfully conducted, and I do not think that we should attain that object by curtailing 25 per cent. of the remuneration of the persons whom we have engaged for the purpose, nor could we induce them to accept that curtailment."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:

"My own little one having somewhere strayed, for the time it must come under the category of the missing. I would therefore be very glad to adopt my friend's pet child, that is to say, if he would let me do so after charging me with its desertion some months ago. The facilities for adoption in the country would have enabled my doing so, if I did not realise in time that the stripling had somewhat outgrown the proportions to which I had accustomed myself. While in full sympathy with my friend's desire to raise somehow the pay of the Munsifs who have to do what the Hon'ble Mr. Duke will not admit is extra work but certainly is more responsible work, I feel a difficulty in according my

support to the proposal that the pay of Subordinate Judges in the last grade for the present be raised from six to seven hundred rupees. The result of the adoption of the first portion of my friend's suggestion would be to create a much wider gulf between the pay of the 1st grade Munsifs and the 3rd grade Subordinate Judges—no less than Rs. 300—which would be no easy and acceptable a solution of the difficulties of the situation. Promotion in the Subordinate Judge's rank has therefore to be smoothed and made easier by some other means than the one suggested by my Hon'ble friend in this resolution.
"With regard to the 100-rupee allowance for Munsifs of the 1st grade,

however, I feel hesitation in accepting the dictum of the Hon'ble Mr. Duke that it would be a device to get round the opinion of the Government of India for the time being that the 500-rupee grade for Munsifs should not be introduced into this province. In answer to the Hon'ble Rai Baikuntha Nath Sen Bahadur, the Hon'ble Mr. Duke has referred to the scale of Subordinate Judge's minimum pay in other provinces where it is Rs. 500. If the case of Eastern Bengal was to be quoted and we were to urge again that because the 500-rupee grade for Munsifs obtains there, we ought to have it here for reasons previously urged. I am afraid it would not be allowed to tell in our favour. Therefore, the fact that Subordinate Judges elsewhere get Rs. 500, by itself, is no answer to my friend's proposition. But there are other practical difficulties which I realize and having regard to which I am unable

o give my support to that part of his resolution.
"Sir, the Hon'ble Mr. Duke has referred to the disinclination of the Government of India to allow the 500-rupee grade, and when discussing the resolution on the subject in August the Hon'ble Mr. Gourlay claimed to have given the quietus to the question for all time. Mr. Gourlay told us on the occasion that your Honour's Government would not be prepared to move further in the matter having regard to the attitude to the Government, unless the Hon'ble Judges of the High Court moved again. We do not know what the position of the Hon'ble Judges with regard to the question at the present moment is, nor have we any means of accelerating their action in any way. But is it to be always presumed that because for the time being the Government of India is opposed to the creation of the 500-rupee, grade questions with reference thereto are never more to be raised, because having regard to the peculiarly delicate nature of the situation the High Court does not see its way to move de novo? If, however, no permanent addition to the pay of the 1st grade Munsifs as a body is for the present possible having regard to that opinion, what objection can there be to the adoption of the temporary proposal of allowing an allowance of Ks. 100 to Munsifs who certainly do more responsible work than the ordinary 1st grade Munsifs—work that under the terms of service they could not be strictly expected to do? The Hon'ble Mr. Duke says that they do not do extra work, because they are not shown to have worked extra hours. If a time-keeper were attached to these Munsifs' Courts to note the hours during which they work in Court, such an officer would have no sinecure, for the Munsifs' hours even in Court are notoriously long. We do not quite know what the orthodox office hours for Munsifs are considered to be, but we know as a matter of personal experience that oftener than not they are to work in Court up to or even after nightfall, and if this is not working extra hours, a Secretariat schedule will probably show what regular and what extra hours are. But this is not all, and even if all work was recorded correctly, my imaginary time-keeper would not furnish an accurate record of the Munsif's work, for he has to take home considerable work of which the time-keeper is never likely to have any information. This work at home involves much more anxious care and deliberation than in Court, for their work is admittedly more responsible than normal work. We have been raising these questions for a long time in and out of Council, and this is the first time that it has been stated on behalf of Government that what Munsifs do in trying cases above 2,000 rupees, is not considered extra work. Successive Secretaries of the Judicial Department have borne willing testimony to the arduous nature of this work, and we always thought that adequate compensation was not provided merely because of want of funds. We, therefore, submit that if the Government of India's pronouncement stands in the way of permanent addition of their pay by the creation of a 500-rupee grade, those at least who

try suits up to Rs. 2,000 should have the temporary benefit advocated in my friend's resolution.

"As to the question of ways and means, reference has been made to the law charges which have in recent years gone beyond all proportion. Two of my legal friends who have spoken before me have spoken with hesitation lest they should go against the creed and the traditions of the profession, in asking for curtailment of charges that it may be their own good fortune some day to earn. I belong, Sir, to another branch of the profession where the daily struggle is to cut down Counsel's fee as much as possible. When I joined the profession one of the leaders of the Bar told me that the first thing I should cultivate assiduously was the ability to mark the back sheet of a brief correctly. He had a view of things of his own with regard to the proper marking of fees which I and friends have never shared, for we have our own points of view in the matter as well. The struggle for curtailment of Counsel's fees is a long-standing one, and the High Court taxing rules which are fairly rigid are going to be made still more rigid. Either these rules are right or they are not, and, if they are should to some extent be applicable even to the Government. I do not know whether the bills of cost which are now being paid will ever come before the taxing officer of the High Court, for if they do these high fees will never be allowed. I am not unamare that in spite of that scale Counsel do take and get larger fees, but fees never out of proportion to the necessities of the case or the situation. No one would desire that efficiency should be sacrificed for the sake of economy, but if efficiency can be secured on more economical terms than have been insisted on heretofore, there could be no legitimate grievance if such economy be not insisted on. Crime and disorder have unquestionably to be put down at any cost, but it must also be at a reasonable cost. I do not know whether among the fees referred to here to-day are included any paid to the Advocate-General in connection with cases in which the Government have an interest in the Original side of the High Court. If I am not mistaken the pay of the Advocate-General has recently been fixed on a much more liberal scale than before in view of increase of work, and the terms of the appointment do not contemplate the payment of extra fees for appearance on behalf or in the interest of Government in the Original side of the High Court, at all events. I may be easily put right if my information and view of things is incorrect; if, however, they are substantially correct, and if the Advocate-General is paid extra fees in the Original side, it is an unwarranted expenditure which at all events ought to go out of the law charges. With regard to the other fees it is difficult to indicate the possibility of reduction without impairing efficiency in the absence of details which makes one speak with natural hesitation. But there can conceivably be no circumstances under which such large fees, as the law charges indicate, should be necessary to be paid to a large number of Counsel engaged in the same interest, whatever may be said of the leaders. Closer scrutiny and stricter insistence on common-place business rules would be sure to effect considerable economy."

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN said :-

"Your Honour, with your permission I want to make a few observations on this question. The claims of the Subordinate Judges and Munsifs who steadily work hard throughout the year deserve special consideration, and I would most earnestly appeal to Government to find money for increasing the pay and improving the status of the members of the service; but as it has been suggested by the Hon'ble Mover of the Resolution that a corresponding reduction be made under the head 'Law Courts', I am unable to support the Resolution. Sir, I am a believer in the principle 'constant preparedness for war is the surest guarantee for peace,' and as lawlessness has not quite died out in the province, I would not advise Government to curtail expenditure under the head 'Law Courts'. With these few remarks I beg to resume my seat."

The Hon'ble Babu Bhupendra Nath Basu said :-

"I do not wish to detain the Council with any observations of mine, because this is a subject upon which it is known to Government that we nonofficial members are more or less agreed. I fully realise however the difficulty

that has been raised by the Hon'ble Mr. Duke when he says that it would be impossible to induce the Government of India to create a new grade for Subordinate Judges which does not exist in other provinces. All that we shall say is that the present scale of pay of our judicial officers, having regard to the very difficult and tiresome work they have to do, is a matter which we trust will attract the attention of Government. I do not know what is the state of litigation in other provinces, but we know that in Bengal the disposal of these cases necessitates very hard and heavy amount of work. If the Government were of its own motion to institute an inquiry and compare the conditions of service between our province and other provinces, where I am told promotions are much more rapid, I believe some good will be achieved. There is one branch of the motion about which I think I may say a few words. We, non-official members, share to the full extent the anxiety of Government that cases of a political nature, involving very large and serious issues as regards the well-being of the community, should be very fully dealt with and every weapon available to. Government should be brought to bear upon the disposal of these cases in the trial so that there may not be any miscarriage of justice. We fully admit that position. But, Sir, it may be permissible to us to point out that the methods that have been adopted in some recent cases have had a deleterious effect upon the public mind, and it may probably be that they have contributed in some measure at least to keep the agitation which the Government as well as ourselves are anxious to see should die out as quickly as possible. These expensive trials with their paraphernalia of cordons of police and military escort and long newspaper reports of three High Court Judges sitting in one bench to dispose of them and the most eminent lawyers available at the bar engaged in their trial, either one side or the other, naturally tend to excite public interest in these matters." any pull to the Athy

THE PRESIDENT said :-

"The remarks of the Hon'ble Member are wandering quite outside the resolution." project ment also thread to in room a no bark med at est attachment on the comment of the state

The Hon'ble BABU BHUPENDRA NATH BASU said :-

"I bow to your Honour's decision. What I was intending to say was this that in the best interests of the community the expenditure on these trials might be very well kept down by entrusting to the ordinary law officers of the Crown. I believe the Government realises just as we do that their own law officers are quite able to do justice to these cases, and that there would be much less commotion if these cases were conducted in the ordinary way that the Government carries on its law business and the expenditure would be much less and therefore, as my Hon'ble friend Rai Baikuntha. Nath Sen Bahadur says, we shall easily have a large surplus available for other useful purposes of administration."

The Hon'ble Mr. CHAPMAN said: -

"I think it is desirable, although I am not quite sure whether it is relevant to the question under discussion, that I should say something in regard to the cost involved in the political cases which the Government has recently had to undertake. I am not quite sure whether the Members who have spoken from the other side of the House have supported the first part of the resolution or not, but in any case some explanation should be made regarding the cost of these cases. In the first place, it is perfectly clear—at least in regard to the Standing Counsel—that the Government are not entitled to his services for prosecuting cases before the Special Tribunal or for defending Government officers in the Original side of the Civil Court without paying him fees, and this is also the case with the Advocate-General. The Government did not think itself justified in putting a very strict and hard interpretation upon the terms 'Advocate-General's engagement'. The suggestion made by the Hon'ble Babu Bhupendra Nath Basu that the cost of these cases would have been less if we had engaged the law officers of the Crown to prosecute has no validity or weight. If the Standing Counsel or the Advocate-General had been engaged in the Howrah case, their fees would have been higher than those of the very able Counsel whom we have engaged to conduct it. The fees of Counsel, as the Hon'ble Mr. Duke has explained, have been very high, but I will tell you that in negotiating with Counsel for these fees, I have approached them and asked them to take lower fees, and ultimately we have had to consent to the fees which are being generally paid. It is absolutely necessary in cases of such magnitude and difficulty that we should get the very best professional aid. The number of leading Counsel is very limited. They are in a position to put a high price on their services and Government has had to pay. I do not think that Counsel have asked higher fees from the Government than what is paid by the general public and by the leading solicitors of Calcutta. Government have only paid ordinary fees which the leading Counsel always get. Cases of such a character as the Howrah case have made it absolutely necessary for the Government to employ the very best Counsel whose services were available."

The Hon'ble RAI BAIKUNTHA NATH SEN BAHADUR said :-

"In reply I will only make a very few observations, especially when I find that, with regard to the Hon'ble Mr. Duke's objections, my Hon'ble friends, Babu Deba Prasad Sarbadhikari and Babu Bhupendra Nath Basu, came to my help. In the first place, I should further submit that differentiation in the minimum pay of the Subordinate Judges in the different provinces ought not to stand in the way of doing justice to a body who deserve justice. It is a fallacious argument to urge that because Madras or Bombay pay so much or a Bengali Subordinate Judge began with so much, therefore their pay ought not to be increased. When was this scale fixed? Isit 5 or 10 or 20 years ago? That ought to be borne in mind. A long time has passed since the creation of the scale, and that ought to be taken into consideration. I was once told somewhere that Bengal Subordinate Judges and Munsifs furnish a good amount of revenue in the shape of court-fees, but their pay is certainly not adequate to the revenue thus realized. Now, if these Bengal officers began their service on a certain scale at a certain time, I submit, Sir, it is no argument to say that their pay ought not to be increased. Then the case of the officers of the Executive Branch has been urged as a set-off. When a non-official Member takes up the case of the members of the Executive Branch of the service, he is told there is the other branch of the service and that their case should also be taken into consideration. Improvements should be made in any branch when justice demands it, irrespective of what its effect may be on the other branch. It has also been urged with regard to the work of the Munsifs who try cases up to 2,000 that they do not do any extra work. I do not think I need repeat the arguments urged by my Hon'ble colleagues that it is not the quantity of the work but the quality of the work that has to be considered, the strain upon the brain should be taken into consideration. As regards the expenses, the Hon'ble Mr. Duke has said—at least what I understood from his speech-that economy is a negligible matter in criminal prosecutions. No private gentleman would say so.'

The Hon'ble Mr. Duke:-" I did not say that."

THE PRESIDENT:-" What the Hon'ble Mr. Duke said was that economy was not always the first consideration."

The Hon'ble Rai BAIKUNTHA NATH SEN BAHADUR said :-

"That may be, but there are some other things also which should be taken into consideration. The Government should prosecute these cases vigorously, and that with as much strength and as many lawful weapons in their power as they can. I do not object to that. What I mean to say is that economy is not inconsistent with that state of things. I have just heard from the Hon'ble Mr. Chapman that arrangements were sought to be made for the reduction of the costs. I am glad of that, but I submit that economy can be exercised with regard to these charges. With regard to arrangements already made, I will say nothing, as the Government has already pledged themselves, but I believe that nothing has been made in anticipation, and that no forward contract has been made for appeals. With these remarks I submit and appeal to all Members of

Council, official or non-official, to take into consideration the case of those officers who are working hard, but who have not been remunerated in an adequate manner. I need not say anything more. But my Hon'ble friend, Babu Bhupendra Nath Basu, has just suggested to me whether I can take the first portion of my motion, i.e., the case of the Subordinate Judges, and put that for the acceptance of the Council. I should like to do it if Your Honour has no objection."

THE PRESIDENT:—"As the resolution has been drawn up, that course is not practicable."

A division was taken, with the following result :-

So the resolution was lost.

The Hou'ble BABU DEBA PRASAD SARBADHIKARI moved the following Resolution:

This Council recommends to the Lieutenant-Governor in Council-

- (a) that a sum of Rs. 10,000, or such other sum as the Government think fit, be provided for improving the Court-rooms of Honorary Presidency Magistrates of Calcutta; and
- (b) that the special provision of Rs. 50,000 towards reorganization of the Excise Department, in view of the amalgamation with it of the Salt Department (page 13, paragraph 39 of the Financial Statement), be reduced by the sum of Rs. 10,000.

He said :-

"This grant is necessary for strengthening the courts and improving the court-rooms of the Honorary Magistrates. The budget provides for the permanency of the fifth Presidency Magistrate, who was appointed some time ago as a temporary officer for the purpose of disposing of accruing arrears. Time there was, not very long ago, when two stipendiary Magistrates with the assistance of Honorary Magistrates used to dispose of the whole of the criminal work of Calcutta. There were complaints of delay and arrears which led to the appointment of a third officer who was recruited from the Subordinate Executive Service and was expected to keep down the arrears. A fourth officer came in time, first as a temporary measure and arrears. A fourth officer came in time, first as a temporary measure and then to stay. The fifth Magistrate also came as a temporary measure, and according to the budget provision he is also to stay. And that is not all. The Registrar of the Court has been invested with magisterial powers which could have been done, I understand, only by appointing him as an Honorary Magistrate, though he is himself a Sub-Deputy Magistrate. He also does a considerable portion of the magisterial work. In the list of stipendiary Magistrates must be included the Municipal Magistrate, as he is called nowadays, trates must be included the Municipal Magistrate, as he is called nowadays, who disposes of work which under the old law used to be done either by the two stipendiary Magistrates or by the Honorary Benches that used to assist them. Though we do not know under what circumstances the permanency of the fifth stipendiary officer has become necessary, as the Government has thought fit to provide for it, one must suppose there are good grounds for this increase of expenditure. We know, however, that full use has not recently been made of the machinery that used to be so useful not long ago in coping with the growing criminal work of the metropolis—I refer to the Honorary Magistrates. If it be considered undesirable to entrust such work to bonorary agency, the more intelligible course would be to abolish that agency altogether. For reasons that were attempted to be fathomed in this Council last year—though not with much success—in connection with the mufassal Honorary Magistracy, that agency in the mufassal does not seem to be much in favour, and if similar agency in the mufassal does not seem to be much in favour, and if similar reasons are believed to exist in the case of Honorary Magistrates in Calcutta as well, it would be businesslike to make short work of the system altogether, and to arrange for permanent increase of stipendiary magistracy on a sound basis. The facts, however, as far as they are known to the public, do not make out any case in favour of such abolition or substitution. Government resolutions throughout have warmly approbated the work of Honorary Magistrates, and individual Magistrates have been spoken of very highly indeed. Their work has stord the test of public entries. highly indeed. Their work has stood the test of public opinion—of the still more-hard-to-satisfy opinion of the profession and of the High Court. Since the abolition of the system of appointing practising lawyers as Magistrates, there may have been some weakening of the system. There are, however, still on the list, quite a number of capable, hardworking, honest, diligent and painstaking Honorary Magistrates, who do their duty well, and who of late have been given steadily less and less opportunity of rendering service to the State which they and their predecessors in office have ungrudgingly rendered. Latterly, there has been a tendency to turn some of them into inquiring officers for the purpose of enabling stipendiary Magistrates to pass orders. This of course has not been quite relished for obvious reasons, and probably accounts partially for the unpopularity of the Bench in quarters where they cannot make their voice heard.

"If their work has in some instances suffered in quality, of which we have not heard, it is not wholly their fault. They are at present obliged to work against odds of a diverse nature. Benches of two or three Magistrates have not at all been called of late, and only one Court—a single-sitting Magistrate—is ordinarily called. If I am wrong in my information, I shall be glad to have a correct statement with regard to this matter, if it should please the Government to furnish it. In the next place, there is not an adequate number of officers available for their benches, even when they are called, and if this little assistance was provided, there would be no difficulty in getting four honorary Courts

every day, which would do their work well and efficiently, and would help the stipendiary magistracy as they have readily and willingly done in the past. Their next and the greatest difficulty is with regard to the court-rooms, past. Their next and the greatest difficulty is with regard to the court-rooms, and a dark, dirty and ill-ventilated room is all that is at their disposal for managing what work they can put through. If I am not mistaken, the Hon'ble Babn Radha Charan Pal, himself a willing martyr, drew a dark and sombre picture of the Honorary Magistrates' lot in Calcutta in this Council some time ago with a view of having it bettered. But the practical response to the call has been less and less every day. An adequate number of suitable cases are not transferred to Honorary Magistrates, though willing and capable Magistrates are at the disposal of the authorities. It can be to nobody's advantage that full service should not be got out of a deserving nobody's advantage that full service should not be got out of a deserving body of public servants, many of whom the Government has delighted to honour, and whose work, as a whole, has found commendation and approval in successive Administration Reports and Resolutions of Government, and whose field of usefulness one would have thought would have readily and willingly been extended. The success of the Calcutta Honorary Magistrates stood so high at a time that it was seriously thought of employing honorary agencies in connection with the trial of small civil causes on similar lines. Speaking of the Calcutta Police work, only last year the Government Resolution on the subject observed that your Honour was gratified to note that an increasingly large share of the criminal work was undertaken by Honorary Magistrates. In 1907 the courts of Honorary Magistrates accounted for some 1,300 cases, or 4·10 per cent. of the total, and during the year 1909 the number rose to 4,300 cases, or 8 9 per cent. of the total. Even with these figures, high as they are, I venture to say that full work is not obtained out of Honorary Magistrates, and if it were obtained, there would be no need for depriving the Provincial Executive Service of capable officers who have had to be drafted on to the Presidency Courts. There can be no question of the nature of the work done by Honorary Magistrates, for the Resolution I refer to testifies to it. On behalf of the Government and of the public your Honour placed on record in that Resolution your Honour's appreciation of the public spirit of these gentlemen and of the efficiency with which they have discharged their voluntary duties. If the services of such a body of public servants be fully utilised, it would be possible to do without one at least of the Presidency Stipendiary Magistrates, for whom useful work could be found elsewhere.

The Hon'ble Mr. BHUPENDRA NATH BASU said:—

"May I inquire, if Your Honour does not think it impertinent, if there is any truth in the rumour that the present Police Court building is to be dismantled and a new building, erected where adequate provision would be made for Honorary Magistrates?"

The Hon'ble Mr. Duke replied:— The Hon'ble Mr. Duke replied:—

"There is a scheme before this Government, but it is not in an advanced stage."

The Hon'ble MR, DUKE said:

as to recommend the small provide the said series of the said series of the said to the sa "Sir, the Hon'ble Mover recommends that a sum of Rs. 10,000 should be provided for improving the court-rooms for Honorary Presidency Magistrates, and he proposes to provide it by reducing the allotment made to the Excise Department. With the object which he has in view, Government is entirely in sympathy, and if Rs. 10,000 would be a sufficient provision to accomplish the object, it would somehow or other have been found. But I regret that I must take exception to some of the arguments with which the Hon'ble Mover has supported his claim. He refers to the motion which was brought in by Babu Radha Charan Pal sometime ago and says that the practical response to the call has been growing less and less. I think that the argument which he has used in this connection was that the services of the Honorary Presidency Magistrates are not appreciated by Government

or by the Chief Presidency Magistrate. Towards the end of his speech the figures which he himself quotes of the percentage of cases tried in Calcutta show that this has arisen in the course of three years from 4.10 to 8.9 per cent., and as a matter of fact in the three years to which he refers, the number of cases has risen from 1,300 to 4,000, or more than three times. It seems hardly intelligible to quote these figures and then to say that their efforts are not appreciated. As a matter of fact the work which has been done is appreciated both by the Chief Presidency Magistrate who arranges the work and by Government. Anything that can reasonably be done, will be done to take further advantage of them, but it is impossible to accept the suggestion that Honorary Magistrates could be employed to a much greater extent than at present and replace stipendiary Magistrates, and replace one, not to say two, stipendiary Magistrates as the Hon'ble Member suggests. Reference has been made to the work which has been done by the Registrar since he was vested with magisterial powers. The Mover has not alluded to the use that is being made of the Registrar. He generally disposes of what are known as the night charges, those of drunkenness, disorderly behaviour, etc., and other petty charges ready for transfer before 10 o'clock. The great object is that these cases should be speedily disposed of, so that they should not delay the Chief Presidency Magistrate in proceeding with the more important work of the day, nor is it suggested that there is any Honorary Magistrate who is willing to come regularly to Court and dispose of these cases between that hour and 11. Then the other work of the Registrar is to take dying depositions which come in at all hours of the night and day. It is true that many Honorary Magistrates are very willing to give this kind of service, but the difficulty is it is necessary to know who they are, and it is a very troublesome matter for the police to keep up a list of them, and to go round in the middle of the night to find out whether the gentleman is at home and whether he is willing to do the particular work for which he is wanted. There are limits to the way in which Honorary Magistrates can be employed. The most important point, at any rate one that we hear so much of, is the necessity for providing adequate room for Honorary Magistrates. The Hon'ble Member says that the Courts of Honorary Magistrates do not seem to be in great favour. Long experience has shown that benches of several Magistrates cannot dispose satisfactorily of complicated cases, that is to say, protracted cases, because it inevitably happens between the convenience of the special bench and the necessities of the case that such cases are adjourned and protracted out of all reasonable proportion, from one Magistrate being unable to effect on one are accession and another being absent on the next; the orderattend on one occasion and another being absent on the next; the ordersheet of the case at length becomes a scandal and it becomes a subject for regret that it was ever made over to a bench. Therefore the cases which the Bench Magistrates deal with are limited, and the only alternative is to employ single-sitting Magistrates. That is the reason why single-sitting Magistrates are employed in Calcutta, but the number who can be employed is necessarily small, that is to say, the number of gentlemen who are able to give their time and have the capacity and learning and for whom room can be found. That is in fact the crux of the whole situation: to find adequate Court room. The condition of the Lal Bazar Police Court is very unsatisfactory and of course available space has become much less as the number of stipendiary Magistrates has been increased, and it is a matter of great importance that the whole establishment should be revised as early as possible and more and better accommodation should be provided, but such accommodation cannot possibly be provided with the sum of Rs. 10,000. When the matter is taken up, it is probable that even with the greatest economy, very considerable expense will be required. Rupees 10,000 would barely build a single additional room which would have again to be dismantled the moment that the building as a whole were repaired or extended. That being the case, it will be understood that the matter must wait till reasonable budget provision can be made. But I can assure the Council that the scheme will be considered, and that as soon as possible, it will be brought forward. That being so, perhaps I need say very little to the second part of the resolution, that Rs. 10,000 should be provided by reduction of the Excise establishment, that is to say, should be taken from the provision to be made for the reorganization of the Excise establishment. of the Excise establishment. With reference to this, it is only necessary to say that the existing preventive establishments are probably one of the more

directly profitable subjects on which Government spends its revenues. Our Excise establishments are very much below the strength which they ought to be and below what is provided in other provinces such as Madras and Bombay, and that our proposals to increase them are made directly in view of obtaining increased revenue by doing so, by preventing various illicit practices. Therefore, in my opinion, the reduction of the expenditure of any particular sum such as Rs. 10,000 on the establishment, simply means the forfeiture of a very much larger amount of revenue, and in the circumstances of this province, we cannot afford to let go any revenue that we can possible rake in, so that the particular suggestion for providing this expenditure is, I may say, singularly ill-chosen."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :-

"My friend's reference to the Lall Bazar Police Court buildings is a valuable commentary on the methods of the Public Works Department, for the building was not erected very many years ago, and was supposed to have been designed according to an up-to-date plan—Italian—, as they called it, I think, at the time. However, experience has shown the defects of the building which, as I understand, Government will take steps to correct at the proper time, but in the meantime the very small expenditure that I suggest would help in taking some partition down here and effecting an opening there, and building a room there, and from what I have been able to judge during my recent visit, this would improve the condition of the Honorary Magistrates' Courts. Further assistance have to be provided in the appointment of a few clerks as they have not the establishment enough to go on with their cases if a sufficient number of courts be sitting, which sometimes explains the delay to which Mr. Duke has referred. I am sorry that the Hon'ble Mr. Duke did not notice the correction made in my speech to the effect that one at least of the stipendiary Magistrates might be dispensed with, if Honorary Magistrates were fully availed of. I do not wish to minimise the amount of work done by the Registrar or the stipendiary Magistrates, nor do I suggest that stipendiary Magistrates should be replaced by Honorary Magistrates, but what I do suggest and press for is that Honorary Magistrates should not be replaced by stipendiary Magistrates unless there is clear reason or necessity for doing so. Such a reason I have not heard in the way suggested in the reply that the Hon'ble Mr. Duke has made with reference to my proposal. I should be worse than inconsistent if, with the figures which I myself had furnished and which Mr. Duke merely repeated, I for one moment should suggest that the Government did not appreciate the good work of Honorary Magistrates. What I complained of was that, though the Government appreciates very highly that work, fuller use is not made of the Government appreciates very highly that work, fuller use is not made of the Government appreciates very highly that work, fuller use is not made of that agency. The large number of cases that has been referred to in that resolution and by the Hon'ble Mr. Duke are chiefly petty cases such as take up very little time or exact very little of their energies and resources such as would be required in the disposal of more difficult cases. The disposal even of a larger number of petty cases by Honorary Benches would give no real relief to the stipendiary Courts; for aught one knows the stipendiary Magistrates may be able to dispose of the petty cases quicker than the Honorary Magistrates by reason of their training and traditions. Real relief to the stipendiary Courts can come by delegation of the more difficult cases. to the stipendiary Courts can come by delegation of the more difficult cases to the Honorary Courts, which used to be the feature of Police Court administration in years gone by and against which there was never any complaint or objection. Real appreciation of the work of Honorary Magistrates would be demonstrated by such delegation and not by augmentation of the number of petty cases disposed of by them, such as even the Registrar may without much difficulty be expected to put through."

THE PRESIDENT said :-

"Does the Hon'ble Member desire to press the resolution? I thought that after the remarks made by the Hon'ble Mr. Duke to the effect that we are considering a scheme for the improvement of the Court which will involve very much larger expenditure than this, and which when carried out would amply meet the requirements of the Hon'ble Mover, I thought probably the Hon'ble Member might not find it necessary to press the resolution."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :-

"The Hon'ble Mr. Duke's assurance, I think, relates to the improvement of the building, but my complaint is not limited to that alone, and I believe that even if the permanent improvement of the building be delayed, some temporary arrangement may be possible and work would be facilitated by providing suitable extra establishment for the Honorary Magistrates' Courts. If assurance to this effect is forthcoming, I am willing to withdraw the resolution."

THE PRESIDENT said :-

"I cannot say that there is any possibility of immediate relief, because it would have to take its turn with other projects."

The Hon'ble Mr. DUKE said:-

"I understand, Sir, that the suggestion here is that the Honorary Magistrates are not utilised not merely because of want of room, but because of want of clerical establishment. This is a matter which has been particularly gone into, and I think that I can give the assurance that the Hon'ble Member desires, and my own impression is that the limitation is only in respect of room, and if it is found that there is sufficient room available, the difficulty can be got over."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:-

"On that understanding I do not wish to press the resolution." The resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Duke introduced the following heads:-

REVENUE— XVII—Police.

EXPENDITURE—
20. Police.

The Hon'ble Mr. Duke said :-

"I beg to introduce the Police head of the budget, No. XVII on the Receipt side and XX on the expenditure side.

Referring to the receipt side, head XVII, at page 33, I have to say that the fluctuations, which are not of great importance, are principally due to the extent to which preventive police, the cost of which is levied on private parties, have to be employed. The provision made for 1911-12 is normal.

at page 52. In the grand total of the department which appears on page 55, there is a net increase of Rs. 1,22,000, and regarding this I may say that it still leaves the General Administration under a heavy obligation to the Police Department on account of reforms recommended by the Police Commission and accepted by this Government and the Government of India as imperative. The Government of India have made gradually increasing subventions to Provincial revenues in order to meet these reforms. These subventions, however, have now reached the maximum amount which will be given, but the reforms hitherto carried out still fall short of the standard which we have accepted, and it is estimated that we require Rs. 7,61,493 recurring and Rs. 14,31,932 non-recurring to complete the scheme. There is, therefore, a special obligation on the Government to proceed with the completion of the reforms without undue delay. As I will show, new schemes to the extent of Rs. 1,88,283 are budgeted for in prosecution of the scheme of reforms—

Calcutta Police.			Rs.
Creation of two Deputy Commissioners			16,650
Clerks in the offices of Deputy Commissioners		***	7,560
Bengal Police.		100	
Appointment of three Assistant Superintendents		***	3,600
Grade promotion of Sub-Inspectors	***	***	69,520
Cont of Do 1 increment to constables (01,040)			37,620
Increase to complete the cadre of ordinary police	No. of the last of		50,000
Force required to complete the cadre of the East Police—Government share	Indian Ra	ilway	3,338
	[Cotal]	,88,288

directly profitable subjects on which Government spends its revenues. Our Excise establishments are very much below the strength which they ought to be and below what is provided in other provinces such as Madras and Bombay, and that our proposals to increase them are made directly in view of obtaining increased revenue by doing so, by preventing various illicit practices. Descridencer Divisions	***		50,000
Force required to complete the cadre of the East	Indian l	Railway	200
Police-Government share			3,338
	Total	1	1,88,288
		The second secon	ACT AND ADDRESS OF THE PARTY.

"The creation of two Deputy Commissioners of the Calcutta Police replaces the posts of two Superintendents which have been abolished and completes that

part of the scheme.

"Regarding the items under the Bengal Police, I would observe that two Assistant Superintendents shown at page 6 of the Schedule of new schemes is a mistake for three. Three Assistant Superintendents are being added in pursuance of the scheme for gradually bringing up the cadre to the strength recommended by the Commission. The cadre is still a great deal short and it will be a considerable number of years before it, is brought up to the full strength. Two of the largest items, namely, the grade promotion of Sub-Inspectors in accordance with the scheme and the grant of a rupee increment to constables, have already been too long deferred.

"The third item of Rs. 50,000, to complete the cadre for the ordinary police in the Burdwan and Presidency Divisions, is much less than I should like to see, for it is almost equally necessary to make up the cadre throughout the province, but as we could only provide a portion of the expenditure, it was judged best to proceed with the more important divisions near the metropolis.

"In explaining the position as regards the introduction of the Police Commission reforms, I have gone into details and wandered from the general finance of the department to which I will now return. I have shown that the reforms aggregate Rs. 1,88,288, and it will be found that there are other new schemes which bring up the total shown at page 7 of the schedule to Rs. 4,87,064. Out of this, however, Rs. 1,50,000 for barracks for a company of military police appears in the Public Works budget, and the actual cost of new schemes in the Police budget is only Rs. 3,37,064. The reason why it has been found possible to introduce new schemes to this extent, while the net increase in the budget is only Rs. 1,22,000, is mainly due to the fact that there has been a great saving under grain compensation allowance and in the head 'Supplies and Services,' Rs. 82,000 having been saved under the former and Rs. 76,000 under the latter head. Indeed, in the Bengal Police, as apart from the Presidency Police, there is an actual decrease in the budget, for while the total increase is Rs. 1,22,000, the increase in the Presidency Police above is Rs. 1,31,000.

"It will now be convenient to discuss the fluctuations under the several heads shown in the budget in order. As the figures concerned are large, it is only necessary to refer to fluctuations of major importance. The new schemes

included in the schedule will be referred to under the several heads.

"Under the head 'Presidency Police' the only important variations occur under the first two heads, 'Police Commissioner (Superintendence)' and 'Calcutta Police.' Under both these heads there has been a considerable increase; under the former from Rs. 97,000 (Rs. 93,000 revised, to 1:41 lakts,

and under the second from 11.26 (10.91 revised) to 12.13.

"I have already referred to the increase on account of the appointment of two Deputy Commissioners in accordance with the Police Commission reforms. Another item of the same kind is the provision of Rs. 6,720 to substitute clerks for regular police officers in the offices of the Divisional Deputy Commissioners. Formerly, the clerical work was done by head-constables borne on the regular strength, and it was impossible to give proper effect to the reforms until these men were returned to their executive duties. The rest of the increase under the head "Police Commissioner (Superintendence)" is practically due to the temporary provision of an extra Deputy Commissioner in charge of the special branch of the Calcutta Police. Under the head "Calcutta Police," there is an increase of Rs. 87,000, or, as compared with the revised, of Rs. 1,23,000. The various new schemes undertaken will be found at page 5 of the schedule. The establishment for the special branch comes to Rs. 20,481. It has been found necessary to organise the machinery for special forms of crime in Calcutta and to take it out of the hands of the station police officers, and unify it under a single Deputy Commissioner as Superintendent. The expenditure does not represent the actual net increase, as most of the officers to be employed have already, for some time, been engaged in this work.

"The next large item (Rs. 22,920) for strengthening the High Court guards has been included at the instance of the High Court, who drew attention to the

insufficiency of the arrangements for guard shortly after the murder of Deputy

Superintendent Shamsul Alum.

"The main item of increase under Calcutta Police, is, however, the provision for additional military police in the neighbourhood of Calcutta. Originally, Rs. 2,00,000 was entered for non-recurring and Rs. 25,000 for recurring charges. The non-recurring figure has, however, been reduced to Rs. 1,75,000, of which one and-a half lakhs, as I have already explained, appears in the Public Works budget, and the remaining quarter of a lakh is to cover the cost of equipment. The Rs. 25,000 of recurring charges represents the cost for about four months of a company of military police, the full annual charge for which will be about Rs. 66,000. The necessity for strengthening the armed element in the Calcutta Police was strongly impressed on this Government by the the recent Bakrid disturbances. In the circumstances of the case, the calling in of the military was undoubtedly necessary, yet it led to a considerable amount of criticism of the police, on the lines that it was not much to their credit that the military should have to be called in for what was after all a local and not a specially violent disturbance, and it certainly appeared to Government that it should not be necessary to call in the military except upon really grave occasions, but to attain this result it was necessary that the police should possess a sufficient armed force. At present, the Calcutta Police possess only a single company armed, and this is continually dispersed on guard and escort duties. It has accordingly been decided to provide a company of military police of the same character as those already enrolled in the Bengal Police, which will be kept together and will at all times be available to suppress any disturbance.

"Proceeding now to the Bengal Police budget under the head "Superintendence" there is a decrease of Rs. 5,000. The principal factors contributing to the decrease are the transfer of charges amounting to Rs. 24,000, to the Special Department, and now included in the second item on page 54, with which I will deal later. On the other hand, there has been an increase of Rs. 20,000 provided for the reorganization of the offices of the Inspector-General and Deputy Inspectors-General, in accordance with the recommendations of the Ministerial Officers' Salaries Committee—see schedule, page 6.

"Under 'Salaries', that is, the salaries of superior officers, it will be observed that there is a saving of Rs. 14,000, as compared with the sanctioned figures for 1910-11. This is due to the transfer to the head 'Criminal Investigation Department' of the pay of one Additional Assistant Superintendent employed in the Special Department, and to the deputation of two Assistant Superintendents to the Calcutta Police as Deputy Commissioners. The decrease, in other words, is a paper one.

estimate and Rs. 10,000 over the revised. Rupees 12,000 of this is accounted for by reorganization of the petty establishments in river districts which has long been very necessary. The balance is due to the completion of the revision of the ministerial establishment in District Superintendents' offices, in accordance with the recommendations of the Ministerial Officers' Salaries Commission.

"Of the decrease in 'allowances' amounting in all to Rs. 1,46,000, Rs 82,000 is due to the omission of grain compensation allowances. Horse and conveyance allowance has been cut down by Rs. 16,000 in view of the actuals. There is a further decrease of Rs. 40,000 for house-rent which has now been transferred to contingencies. This, of course, is merly a transfer between heads and does not represent savings. In the main item 'Supplies and Services,' there is a decrease of Rs. 76,000 which is explained in the hemarks column. Of the items there noted, there are two in respect of which particularly heavy demands had to be met last year. Rupees 58,500 was required to provide the services of a steam-launch for the 24-Parganas, and Rs. 33,000 was set aside under this head out of the special grant of Rs. 3,17,000 for police reforms, to provide quarters for the 30 Sub-Inspectors added to complete the establishment. The increase in 'Contingencies' is, as explained above, principally formal and due to transfers from other heads. The lump provision for reorganization of Rs. 1,69,000 I have referred to, at any rate as regards the main items, in dealing with the Police Commission reforms.

"The method of budgeting for the Criminal Investigation Department has been revised, and that head now contains all the charges of the establishment for dealing with political crime, with the result that an increase of Rs. 49,000 is shown on the sanctioned estimate for 1910-11. A greater portion of this increase, however, is nominal, and is due to the transfer to the Special Department of charges from other heads. Thus, Rs. 17,000 is a paper transfer of clerks formerly shown under "Superintendence," while Rs. 7,000 on account of "rent, rates and taxes" have been transferred from the same head, and Rs. 6,000 from "District Police" on account of pay of an Additional Superintendent attached to the office. The real increase in connection with the Special Department is thus about Rs. 10,000 only. This is accounted for by the house allowance of the Deputy Inspector-General (Rs. 1,295) who has been admitted to the Calcutta House Allowance Scheme, Rs. 3,000 on account of the difference of pay due to the promotion of the Deputy Superintendent attached to the department, and Rs. 5,000 for temporary establishment. There are certain other minor items, some of which are paper transfers, which bring the total increase under the Special Department up to Rs. 40,000. The balance is attributable to the Criminal Investigation Department proper and is practically covered by the new schemes costing Rs. 8,000 which are explained in the Remarks column at page 54. The Criminal Intelligence Bureau is a new organization for collection and systematizing information regarding criminals which is already in the department and getting it into a form suitable for communication to districts. The local allowances amounting to Rs. 3,850 for the men in the Finger Print Bureau are merely the same allowances which are granted to all the officers of the Criminal Investigation Department, but which had not hitherto been granted to these men as they were not formally attached to it. I do not wish to minimize the drain upon the revenues of this province which is occasioned by the necessity of dealing with political crime, and I will, therefore, explain that altogether it has occasioned increases in the heads relating to it over the charges of the current year of Rs. 70,300. Of this, Rs. 33,006 is accounted for by a Deputy Commissioner and the Special Department in Calcutta, and Rs. 37,300 by increases in the Bengal Police. Out of this, however, Rs. 20,000 is due to paper transfer of establishment in Calcutta, and Rs. 30,000 to paper transfer of establishment and rent, rates and taxes in the Criminal Investigation Department, so that the actual net increase on special political work is thus about Rs. 20,000. If this were all there would be little to complain of, but unfortunately it is not only in police charges that political crime is expensive."

The Hon'ble Mr. Duke also introduced the following heads:—
REVENUE—

XVIB-Jails.

EXPENDITURE—
19B. Jails,

He said :-

"I beg to introduce the head XVIB-Jails, XVIB on the receipt side

and XIXB on the expenditure side.

"Jail manufactures.—It will be convenient to deal with the receipts and expenditure under this head together. The figures are closely connected, as the expenditure chiefly consists of the cost of purchasing raw material, and consequently its fluctuations correspond closely with those of the receipts, i.e., the outturn. The revised estimates for 1910-11 show some recovery on the figures for 1908-09 and 1909-10, but are still below normal. The reasons for this decrease were explained by the Hon'ble Mr. Gourlay in introducing the Budget last year as follows:—

'As the Council is aware, the Jails' principal customers are the several departments of Government, and owing to financial stringencies, these departments have curtailed their orders, with the result that there are at present large stocks in hand.'

"It is hoped that there will be a further recovery during 1911-12. In the first place, there will be a rise in the demand for our staple product—tents, and moreover special measures are under consideration for improving what

may be called the commercial side of jail industries by securing a more regular demand from other departments and by reorganizing the central depôt in Calcutta. It is necessary, however, to budget cautiously. The effect of these measures will not be fully felt during 1911-12, and even if they are put into force, the profits will not immediately respond to the change. The receipts have, therefore, been estimated at 9 lakes, practically reproducing the revised estimate for 1910-11 of Rs. 9,10,000 and showing a decrease of half a lake on the sanctioned estimate for the current year. A corresponding decrease has been budgeted for on the expenditure side, Rs. 6.7 lakes only having been provided for purchasing materials as against 7.18 lakes anctioned and 5 lakes revised for 1910-11. In other words, we are budgeting for a surplus of receipts over cost of 2.3 lakes, practically the same as for 1910-11—2.32. The surpluses for recent years may be referred to in this connection:—

YEAR.			Receipts.	Cost of raw materials.	Surplus.
			Rs.	Rs.	Rs.
1965-06			11,98,340	9,21,395	2,76,945
1906-07			11,93,515	8,72,666	3,20,849
1907-08		•••	11,42,480	8,32,050	3,10,330
1908-09	***	***	9,68,969	6,69,842	2,39,127
1909-10			8,44.174	5.89 277	2,54,897
1910-11	***	***	9,50,000	7,18,000	2,32,000
1911-12		***	9,00,000	6,70,000	2,30,000

"Expenditure. - Expenditure under "Manufactures" has been dealt with above.

"Under Administration proper the revised estimate shows a decline of 2.38 lakhs on the sanctioned. This is to be accounted for principally by the fall in the price of food-grains, which affects not only the head "Allowances" as in other departments (under this there has been a reduction of 18. 10,000, from Rs. 21 to 11,000), but also diet charges for prisoners, which forms the heaviest spending head of the Jail Department. Under this head there has been a saving of 1.51 lakhs. In budgeting for 1911-12 it has not been thought safe to reduce the provision for diet charges quite so far, and 6.47 lakhs has been provided. This, however, means a saving of 1.08 lakhs on the provision for 1910-11. This makes up the greater portion of the saving on administrative expenditure as a whole, viz., 1.17 lakhs.

on administrative expenditure as a whole, viz., 1.17 lakhs.

"A glance down the column 'Budget estimate for 1911-12' will show a considerable increase, distributed over a number of heads. These are for the most purely nominal, and represent the splitting of the lump provision of 1.39 lakhs which was made for the new Presidency Jail at Kalighat in 1910-11. The remaining fluctuations are for the most part of little importance. They are sufficiently explained in the Remarks column. There are no new schemes of over Rs. 5,000, and the minor new schemes to which it is proposed to give effect are sufficiently explained in the list on page 7.

"Turning to the civil works with which the Jail Department is concerned the revised figures for 1910-11 show an estimated expenditure of Rs. 1,67,900. For 1911-12 there is a rise to Rs. 4,99,800, which is accounted for by the provision of Rs. 3,70,000 for the new Central Jail at Monghyr. Rupees 2,00,000 was originally provided for this work in 1910-11, and the necessity for the scheme was explained in introducing the budget for that year. I may here mention that owing to the very great increase of the jail population in the provinces it was found that the provision of the Kalighat jail was not nearly sufficient to permit of the old Presidency Jail being removed, and that it would be safe or possible to abolish the Presidency Jail until another new jail of first class size was built, and as a matter of fact the abolition of the Presidency Jail, the construction of the Monghyr Jail, and of course the Victoria Memorial which awaits the removal of the Presidency Jail, the whole thing hangs together in one chain. The scheme has unfortunately been considerably delayed owing to difficulties which arose with the Government of India as to the financing of it. After a considerable correspondence the Secretary of State has now accorded his provisional sanction to the scheme, and detailed plans and estimates have been prepared and have been submitted to the Government of India for obtaining the final approval of the Secretary of State. At the same time the Secretary of State is being moved to accord sanction to proceed with the acquisition of the land and other preliminary arrangements in advance

VC

of final sanction to the plans. Orders on this point are expected shortly. Owing to this delay it has been found impossible to utilise any of the Rs. 2,00,000 originally provided, and the revised estimate for 1910-11 is blank. The amount originally provided for 1911-12 was Rs. 2,00,000. This was on the assumption that the Local Government would provide Rs. 2,00,000 yearly on account of the scheme until completion, and that the balance would be found from the Government of India by loan. The terms of the Provincial settlement having been revised, this method of financing the scheme has been dropped, and it has been decided that the whole cost of the building operations must be found by the Local Government, at any rate so long as the provincial balances permit. It will accordingly be necessary to provide as much as the Public Works Department can spend from year to year to bring the building to completion in as short a time as possible. The original rough estimate for the scheme was Rs. 32,57,000. Every effort has, however, been made to observe economy, and this has been reduced to Rs. 26,00,000, including Rs. 54,000 for the acquisition of the land.

"It is proposed to spread this over four years, the major portion of the work being finished in 1913-14, leaving certain subsidiary buildings to be finished in 1914-15. The Public Works Department estimate that they can spend during the year 1911-12 Rs. 3,70,000, including Rs. 54,000 for the acquisition of the land. This sum has accordingly been provided.

"The remaining civil works call for little comment, the greater portion of the expenditure being on works in progress, provision for which was made by the Council in 1910-11. It is hoped to finish the new Presidency Jail at Kalighat and the extension to the Khulna Jail. These are the two principal works in progress. Rupees 10,000 has also been provided for the completion of the jail hospital at Krishnagar. As was pointed out by Mr. Gourlay last year, the accommodation at sub-jails in the mufassal is very inadequate. Provision has been made to complete three projects of this nature, Banki, Banka and Magura—which were started in 1910-11.

"Unfortunately owing to the pressure of other schemes, it has been found impossible to take up any new sub-jails, though several await funds.

"There remain only three new projects-

"(1) Quarters for European warders, Alipore Central Jail ... Rs. 15,000

The existing staff of six European warders is at present accommodated in temporary quarters at the Kalighat Jail, there being no accommodation whatever available at Alipore. This arrangement obviously cannot continue.

"(2) Reconstruction of barracks, Chapra Jail ... Rs. 47,800

The condition of the old barracks in the Chapra Jail is unsafe and their reconstruction is an urgent necessity. The scheme will cost in all nearly Rs. 1,00,000 (Rs. 96,000), and half of this has been provided for 1911-12.

"(3) Reconstruction of wall, Bankipore Jail ... Rs. 13,000

"The existing surrounding wall is seriously unsafe.

"This has been taken up because it was reported that the existing wall was seriously unsafe and a determined rush of the prisoners might overthrow it."

The Hon'ble Mr. Küchler introduced the following heads: --

Revenue-

XIX-Education.

Expenditure-

22. Education.

"I have the honour to introduce the consideration of the Educational

Budget for 1911-12.

"Education being chiefly a matter of expenditure, the revenue side of the budget is as a rule of little interest, and the only point to which attention need be called is the considerable increase in the estimate of fee receipts for Government colleges and schools-general, on that of last year. This increase, which amounts to Rs. 57,000 and is based on the actuals for the last nine months, indicates of course a larger number of pupils reading in these institutions.

"Before proceeding, however, to the expenditure side of the budget, I may be permitted to refer at this stage to the Imperial grant of 241 lakhs for education which is shown at page 26 of the Financial Statement under the head of "Adjustments." Though naturally coming under the revised estimate of Bengal Provincial Receipts for 1910-11 it may practically be regarded as part of the educational income for the next two financial years, within which period it is stipulated that the amount shall be spent. The most convenient course is therefore to give a statement here of the specific purposes for which the grant has been earmarked by the Government of India and of the sums which it has allotted for these purposes, reserving further comment on the actual disposal of the grant within tiese limitations for the appropriate heads of educational expenditure. The statement of authorised distribution is as follows :--

(1)	Technical and Industrial-				Ma.	
(1)	Sibpur College equipment				50,000	
(2)	Primary Education-		and the			
	Primary school buildings an	d equipm	ents		2,00,000	
(3)	Hostels -					
	Calcutta Collegiate Hostels				6,00,000	
	Mufassal Codege Uostels		***		3,00,000	
	Do. School Hostels	***	***	***	3,50,000	
	Presidency College	•••	***		8,00,000	
(5)	European Schools	***		***	1,50,900	

"Passing now to the expenditure side of the budget I propose to explain briefly the more important educational developments which are represented by the new budget provisions for the year 1911-12. It will be noticed in the first place that apart from the proposed expenditure due to the Government of India grant, the total budget allotment for 1911-12 falls short of the corresponding estimate for 1910-11 by Rs. 91,000. This deficiency is more than accounted for by the absence of the provision of 1 lakh which was made in last year's budget for the construction of Guru Training Schools, and which it has been found inexpedient to include in the budget for 1911-12. Leaving this item out of account, there has been an increase of educational expenditure on other objects of Rs. 9,000, and in the present state of provincial finances this is perhaps all that could be expected. Education must therefore be more than grateful to the Government of India for its liberal grant which renders possible the execution of many educational projects of great importance, even though they will mainly find immediate expression in bricks and mortar.

"The chief features of the present budget under the various educational

heads are as follows:-

"(1) University .- A grant of Rs. 1,69,000 has again been made by the Imperial Government to the University of Calcutta, but the conditions attached to its distribution have been slightly altered. In previous years Rs. 80,000 was set aside for grants-in aid to affiliated colleges, Rs. 50,000 for administration, inspection and maintenance of the Law College, and Rs. 30,000 for the University Building Fund. With regard to the grant for 1911-12 it has been stipulated that only Rs. 50,000 shall be applied to direct University expenditure, the balance of Rs. 1,10,000 being distributed in grants-in-aid to the

affiliated colleges.

"(2) Collegiate Education.—A further step will be made in the year 1911-12 towards the realisation of the scheme initiated in the year 1907, for the strengthening of the staff of Government Colleges. Under this scheme, seven new appointments in the Indian Educational Service in connection with professorships of Government Colleges still remained to be filled at the commencement of the present calendar year, although temporary arrangements had in the meantime been made for the teaching of the subjects for which these professorships were created. It is expected that four of these posts will be filled in the course of the present year, and corresponding provision has

accordingly been made in the budget.

Service have under the same scheme been recently sanctioned, and although the new men appointed have, in accordance with the usual practice, been placed in the lowest grade of that service, the actual appointments had to be so distributed so as not to disturb the existing proportion of the numbers in the various grades. The cost of this part of the scheme, which has also incidentally benefited the present members of the service owing to the posts so created being filled by general promotion is given at page 8 of the schedule of the new scheme at the end of the Financial Statement. It amounts to Rs. 27,360. The other items under the same head, namely, Rs. 4,800, for two temporary lecturers and Rs. 2,400 for acting promotion of two appointments are due to the fact that three new posts in the Indian Educational Service are still unfilled. In the same place will be found the provision made for other professorships and lectureships which it has been found necessary to create over and above those contemplated in the original scheme. In all these latter cases, which include professorships and lectureships at the Presidency, Sanskrit and Ravenshaw Colleges, temporary posts were in the first place sanctioned by Government and the provision in the budget for 1911-12 indicates the necessary cost of substituting for these temporary posts permanent appointments either in the Provincial Educational Service or the Subordinate Educational Service. The latest additions were two lectureships in English at the Presidency College sanctioned in the latter half of last year for the purpose of improving the tutorial work done in that institution.

"As a matter appertaining to collegiate education may also be mentioned the grant of the Government of India towards the improvement of the Presidency College. Out of the total grant of $24\frac{1}{2}$ lakhs, 8 lakhs has been assigned by the Government of India for this purpose. It is not yet certain whether any conditions will be imposed by the Government of India as to the way in which this sum is to be applied but if not Rs. 4,02,963 will be utilised for the completion of the Physical laboratory, the construction of Physiological, Botanical and Geological laboratories and the acquisition of a small portion of the land which is required to complete the necessary ground area for this building. The assignment of the balance has not yet been finally determined.

(3) Technical and Industrial Education.—There is little variation from last year's figures in the budget provision for 1911-12 under this head.

"The term of five years for which the peripatetic mining classes had been originally sanctioned came to an end last November, and the whole question of their continuance and possible development was brought under revision. Though certain defects had emerged in the light of the experience gained during this period, notably their conflict with the permanent classes at Sibpur in providing a much easier avenue to the managers' certificate given under the Mining Act, there is no doubt that they have done good work. Supplying as they do an immediate want in training men actually employed in mines for positions of responsibility. They are in fact more popular with mine-owners than the permanent classes at Sibpur, and it has been decided to continue them though in a slightly different form for a further experimental period. After

consultation with the chief mining authorities it has been considered preferable to have, instead of a single full-time peripatetic lecturer, four part-time lecturers at definite mining centres, and certain mine managers specially qualified on account of their scientific training have been selected for this work. The allotment for these peripatetic classes was formally included in the Sibpur College budget. It is now shown separately, and as the altered system is of the nature of a fresh project it appears this year in the schedule of new schemes on page 10. The cost, namely, Rs. 8,786, shows a considerable reduction on the annual expenditure of Rs. 12,431, formerly incurred. When the experimental period comes to an end, the question of these classes and their relation to the mining instruction given at Sibpur will have to be carefully considered, but everything points at present to the likelihood of their continuance and further development. They have this undoubted advantage in comparison with other schemes of technical instruction, that the problem of the future employment of their passed students does not enter into consideration. The pupils who attend these classes are already in employment, and not only is their employment rendered more secure by the further knowledge they thus acquire, but they also become better fitted for more responsible work. In the case of an institution such as the Serampore Weaving Institute the position is different. A reference to this institution is perhaps out of place in the present statement as it has not been found necessary to increase the budget allotment for industrial and technical schools under which head it finds its place. At the same time it is not intended that its natural development should be suspended during the coming year, and in connection with that development there arises the important question of the prospects of employment of the passed students of the institution. The Weaving School at Serampore stands in this respect entirely by itself. It does not as the Sibpur College, the Bihar School of Engineering and the various technical schools undertaking the ordinary sub-overseer courses, provide an avenue to Government employment. contrary, it was established by Government to meet the alleged wants of a purely private industry for technically trained men, and its justification will rest largely on the extent to which those who have gone through its courses and satisfied its tests find subsequent employment. The present is therefore a critical period of its existence, inasmuch as the first batch of students has recently passed out from the institute, and it is to be sincerely hoped that private employers and capitalists will do everything in their power to give these young men a start in life. The experience which we shall gain in the present instance will undoubtedly be of value, inasmuch as it will bring into prominence some of the important factors determining the proper rate of progress in the matter of technical education. One of these factors is obviously the prospect of the development of the industries corresponding to the courses of technical instruction which it is proposed to provide, and the consequent chances of employment of those who make use of the facilities for education thus offered. Unemployment is even a more serious evil in the case of the technically trained than of those whose education has been purely literary, and in considering any scheme of technical instruction the possibility of a danger of this nature has to be carefully borne in mind. I should add that so far as the lower class at Serampore is concerned, viz., that for the instruction of actual weavers, this question does not arise. This class, in that it deals with men already in employment, stands on the same footing as the peripatetic mining classes, and has up to the present been attended with considerable measure of success.

"Before leaving the subject of technical and industrial education I must refer to the Imperial grant of Rs. 50,000 for the Sibpur College equipment. It has not yet been found possible to determine exactly how this money is to be spent, but a considerable portion will be devoted to the improvement of the equipment of the new classes for Industrial Chemistry.

"Hostels.—The great interest manifested of late in the question of the provision of hostels for college students and schoolboys finds a reflection in the present budget. Last year a scheme for the appointment of well-qualified and adequately paid hostel superintendents was sanctioned by the Government of India, and the scale of remuneration contemplated in this scheme

will be introduced in the coming financial year. The intention is to secure the services of some of the best men available on the staffs of Government schools and colleges for the work of supervision of the students living in the hostels connected with these institutions. The budget provision of Rs. 17,800 shown on page 10 of the schedule of the new scheme represents the cost to Government for the necessary extra allowance. It is of the nature of a happy coincidence that simultaneously with the provision of more satisfactory superintendence it will now be possible with the help of the liberal grant of the Government of India to meet the present crying want for suitable hostel accommodation for the students not only of Government but also of private institutions as well. Of the Government grant six lakhs are earmarked for college hostels in Calcutta, three lakhs for mufassal and three and a half lakhs for zilla and aided school hostels. With regard to the Calcutta grant, nothing has of course been settled as yet as to its distribution. Possibly the most satisfactory procedure will be to appoint a small committee to determine the principles on which the grant shall be given and to invite applications from institutions which are willing to subscribe to these conditions. It may, I think, be taken as practically certain that one of these conditions will be the appointment of well qualified superintendents. In the matter of the provision of zilla school hostels we are fortunately in the state of greater preparedness. The following list shows the projects for such hostels which have already been prepared and are ready for execution and which have either been approved by or are about to be submitted to Government:-

- (1) Hostel building for Hindu students of the Darjeeling High School. Hostel building for Bhutia students of the Darjeeling High School. One Hostel Superintendent's quarters for the two hostels.
- (2) Construction of a hostel for the Northbrook School at Darbhanga.
- (3) Barrackpore—Construction of hostel for the Hindu students of Barrackpore Government School.
- (4) Hazaribagh—Construction of a hostel for the Hindu students of the zilla school together with Superintendent's quarters.
- (5) Hostel building for Purulia Zilla School (Hostel buildings for Hindus and Muhammadans).
 - (6) Hostel buildings for Bhagalpur Zilla School.
 - (7) Improvement to hostel buildings of Birbhum Zilla School.
 - (8) Proposed new Muhammadan Hostel building for Barasat Government School.
 - (9) Hostel buildings for Monghyr Zilla School.
 - (10) Hostel accommodation for the Patna City School.
 - (11) Provision of hostel accommodation for the Gaya Zilla School.
- (12) Provision for hostel buildings for 24 Hindus and 6 Muhammadans for Palamau Zilla School.

One Hostel Superintendent's quarters.

- "The total cost of these projects amounts to Rs. 3,35,187.
- "The question of the provision of hostels for mufassal colleges requires further consideration.
- "I may refer here to a slight error which has crept into the schedule of new scheme. On page 90 Rs. 6,658 is given as excess of the cost of maintenance of the new Madrasa hostel over the fees paid by the students. The figure there given is however the total maintenance charge; the excess amounts only to Rs. 1,032.
- "Inspection.—It will be noticed that the provision under this head on page 56 of the budget has risen from Rs. 8,33,000 to Rs. 8,60,000, but I am glad to reassure those Hon'ble Members who regard with some disfavour this item of expenditure that the enhancement is not due to any increase in the number of Inspectors, but almost entirely to the betterment of the pay of the

Sub-Inspectors who were recently transferred from the District Boards to the Department. The charge on Provincial revenues for the year 1911-12 arising from the regrading of the Subordinate Educational Service, which is necessitated by the admission of these officers, accounts for the greater part of the sum of Rs. 68,860 for which provision is made on page 7 of the schedule of new schemes, the balance, i.e., Rs. 12,200, being required for the stipulated promotion after a certain number of years, of those inspecting officers who were appointed directly to the Department in 1907 in connection with the scheme for the strengthening of the inspecting agency. As has already been indicated in answer to a question put in Council, it is possible that the Sub-Inspectors may later on be placed in a separate cadre, but the cost of such a scheme will certainly not be less than that for which provision has now been made.

Finally it is necessary to make a brief reference to the subjects of primary education and European schools, as they are included in the application of the special grant from Imperial revenues. No detailed assignment of funds has as yet been made under these heads, but there are many demands under both, and there will be no difficulty in spending the money usefully within the allotted time.

The Hon'ble Babu Braja Kishor Prasad moved the following Resolution:-

This Council recommends to the Lieutenant-Governor in Council that provision be made in the Budget for the following additional grants under the heading "Education":—

- (1) Rs. 12,000 for assisting the Bhumihar Brahman College of Muzaffarpur towards meeting its current expenses,
- (2) Rs. 14,000 for strengthening the tutorial staff of the Government and Zilla High English schools in Bihar,
- (3) Rs. 24,000 for assisting the public High English schools at the head-quarters of the subdivisions in the district of Bihar,

by making, if necessary, a reduction of a sum of Rs. 50,000 under the heading "Inspection" of the major head of "Education."

He said :-

"Your Honour-

No.

The resolution which I propose to move runs thus:—That this Council recommends to the Lieutenant-Governor in Council that provision be made in the budget for the following grants under the heading 'Education':—

that the destructions are instructed that

- (a) Rupees 12,000 for assisting the Bhumihar Brahman College of Muzaffarpur towards meeting its current expenses;
- (b) Rupees 14,000 for strengthening the tutorial staff of the Government and Zilla High English schools in Bihar;
- (c) Rupees 24,000 for assisting the public High English schools at the head quarters of the subdivisions of the districts of Bihar by making, if necessary, a reduction of a sum of Rs. 50,000 under the heading 'Inspection' of the major head of 'Education'.

"This resolution concerns the secondary education in Bihar and the Bhumibar Brahman College of Tirhut. At the general discussion of the budget last year, I brought up these matters before this Council, and I am glad to note that the Hon'ble Mr. Küchler, on behalf of the Government, was pleased to observe in his speech that he was in full syampthy with me as to the necessity of improving secondary education, and that the matter was under the consideration of the Government. According to the rules, the final discussion

of the budget is limited only to the offering of any observations the Members may wish to make on it without being permitted to move any resolution, and as the entries in the budget cannot be altered or modified at that stage of the discussion, the Government could not possibly be expected to do anything in the matter, even if it had any mind to do. It is, therefore, Sir, that I bring forward my resolution this year at the proper time in the hope that the Government may be able to do something for us.

"It is admitted on all hands that Bihar is backward in education, and this backwardness is principally due, I may suggest, to the want of facilities of education. Educational institutions are very few in Bihar compared with those in her sister province of Bengal. The average number of High English schools in a Bengal district is 18, while that of a Bihar district is only 6. But for this the Government is not responsible. The people of Bihar have not shown the zeal and earnestness in this matter which we find in our Bengali brethren. However, it is not the number of institutions with which my resolution is concerned. It is rather with the deplorable conditions of the High English schools and of the Tirhut College of Bihar.

"I take up the schools first. There has been a gradual weakening of the teaching staff in our Zilla schools. Almost all the Zilla schools are more or less in the same prodicament, and this very materially affects us, the Biharis. I shall illustrate my point by taking up the case of one of these Zilla schools, viz., the Northbrook School of Darbhanga, for time would not permit of taking up all. This school is the only school in the southern part of the town where the civil station is situate. The Darbhanga Raj School is at a distance of no less than five miles from the civil station. The Northbrook School consists of 10 classes and 15 teachers, including 2 Maulvis, 2 Pundits and 1 clerk, who also works as a teacher. The 7th B class is the lowest class to which infants are admitted. It already consists of 29 or 30 students, so that now no more students can be admitted into it. The University regulations of 1906 lay down that 'no teacher should be allowed to teach—

- (a) in the Entrance class or second class or any section thereof more than 50 pupils at the same time;
- (b) in any of the classes from the third to the sixth or any section thereof, more than 40 pupils at the same time;
- (c) in either the 7th or the 8th class or any section thereof, not more than 30 pupils at the same time.'

"If a sufficient number of students want to take their admission, the only alternative the Headmaster has to adopt is to divide the class into two sections, so that each may accommodate the appointed number of students. But, for this, extra hands are required. You will be surprised to hear, Sir, that no less than 60 students have been refused admission in one class, viz., the 7th B class of the Northbrook School for want of room. The Headmaster is unable to divide classes into sections, for he is not given sufficient number of teachers. In the beginning of the last month, he reported the matter to the Inspector of Schools, saying there was a great rush of students; but, Sir, as yet no arrangement has been made. All classes of people in the civil station are in a peculiar predicament. They cannot send their boys to any other schools, for there is none near about. There is not even a Middle English school at Darbhanga. You can judge, Sir, their feelings. There was a time in Bihar when guardians did not care to educate their children, and now a time has come when we find that when they send their boys, the school authorities do not take them for want of room. How long, Sir, is this state of affairs to continue? Similar is the case with some of the other classes, and more or less the same state of affairs prevail in most of the Zilla schools of Bihar. I have been, Sir, earnestly pressed by the people to bring these matters to your notice, and I do it with all the force I can command. The teaching staff should be strengthened without any further delay, but for this sufficient money is required.

"Formerly, there used to be no less than four graduate teachers in a Zilla school in Bihar, when the teaching was very simple. But, now when it has been made more complex by the University Regulations, we find hardly two graduates in a Zilla school in Bihar. Only the other day the Hon'ble Mr. Gourlay replying on behalf of the Government to a question of mine on the subject, said: 'It is a fact that there are fewer graduates in the Zilla schools in Bihar at the present times than there were ten years ago.' And this is explained by him, I may say rather explained away, by saying that the supply of Bihari graduate teachers has been insufficient. This is no explanation whatever. If Bihari graduates are not available, I see no reason why Bengali or other graduates should not be appointed, and why for want of Bihari graduates, if it be a fact at all, the education of the Biharis should be allowed to suffer. There are many departments of the public service in Bihar, such as the medical and the engineering departments, which are filled up by outsiders, as competent Biharis are not available. The principle, Sir, should be that in Bihar qualified and competent Biharis should be preferred to equally qualified and competent non-Biharis, and not that where Biharis are not to be had the work should be allowed to suffer. Here I think it my duty to offer the grateful thanks of the people of Bihar to the Govenment, for its genuine efforts in appointing as many Bihari graduates as possible in the Education Department, on an initial pay of Rs. 50 a month. This has given a great encouragement to the Biharis to take to the educational line, and if this policy is continued, Bihar would certainly make much progress.

"Before April 1909, the English syllabus required English teaching in the lower classes of a Zilla school for 4 hours a week; but, Resolution No. 109, dated the 20th April 1909, the teaching of English in those classes has been extended from 4 hours to 8 hours, in other words, it has been doubled. But, Sir, has the Government made a corresponding arrangement for a sufficient number of English teachers to cope with the work. Are not the teachers already serving in these schools sufficiently overworked? Do we not find remarks to this effect by the Inspector of Schools as regards the teachers of

most of the Zilla schools of bihar?

"Again, we find that teachers from Zilla schools are constantly deputed for training to a training college, and generally two or three months elapse before their places are filled up. This has a very baneful effect on the teaching imparted in our schools. The continuity is broken up. This also can be remedied by having a sufficient number of teachers, and for it we require money. The Zilla schools should serve as models to other schools in the district. But my resolution does not aspire to that height. It only requires provision to be made for the bare necessities. It is along the made

"I purposely refrain here from saying anything about the pay and prospects of teachers, for it does not directly touch my resolution. I content myself with saying only this much, that our teachers are the most ill-paid officers of the Crown, but at the same time the most responsible officers. The Government should lose no time in taking up this matter in right earnest, and do all it can to improve the pay and prospect of our teachers.

"We urge, again, Sir, as we did last year, that the expenditure on education in Bihar should be commensurate with its contributions to the revenues raised in the Lower Provinces. We have a right to it, and we urge that right in this Council. If we add two teachers more to some of our Zilla schools in Bihar, I think we would require something like Rs. 14,000 for it, and the Government should not gradge giving this sum for such an important purpose.

"I now take up the case of the public or aided schools at the head-quarters of most of the subdivisions of the districts of Bihar. The conditions of these schools are very pitiable. They are financial wrecks. And most of them are only trying to keep their heads just above the water. Almost all of these schools are managed by committees, under the supervision of the subdivisional officers. There can be no doubt that one High English school in a subdivision of Bibar is but a bare necessity. The Government and the people should try to maintain these institutions in efficient conditions. It is very kind of the subdivisional officers to interest themselves in these institutions, and it is mainly

through their efforts that these schools are going. But unless the Government comes to their aid, I do not think they can continue to exist in any good condition. I can speak, Sir, from personal knowledge about 5 or 6 of these schools, viz., those at Siwan, Gopalgunj, Hajipur, Sitamarhi, Samastipur and Barh. In the beginning of the last year, the Hajipur School would have ceased to exist, as the funds were not sufficient to keep the school going even for a month, had not the subdivisional officer, Mr. J. S. Mackay, succeeded in collecting Rs. 1,800 for it. For the Samastipur School the subdivisional officer, Mr. Luby, has been ab'e raise Rs. 6,000, out of which about Rs. 1,300 have been realized. The poor middle classes of Bibaris are doing all they can to keep up these institutions, and I hope the Government will supplement their efforts. Unless these schools are equipped with good staffs of teachers, good libraries and good buildings, we cannot expect good results from them. The needs of these schools are the most pressing, and some provision should be made by the Government to relieve these needs. We would not have had to trouble the Government if our own men, I mean the richer class, would have given the least attention towards these things. Unfortunately, in Bihar, as compared with Bengal, the distribution of wealth is very unequal. A few are rich beyond measure, while the majority have got nothing. There is, properly speaking, no middle class in Bihar, as we have a clearly defined middle class in Bengal. The Hon'ble Mr. Küchler has expressed his full sympathy with the condition of secondary education in Bihar, and we entertain every hope that that sympathy will not prove itself to be a sympathy in mere words but in action also. I would most earnestly urge on the Government the necessity of allotting of Rs. 24,000 for helping these most useful institutions.

1 now come to the last, rather the first part of my resolution, viz., that which deals with the Bhumihar College. I pointed out last year, while discussing this subject, that, in the four years from 1907 to 1910, out of a total Government grant of Rs. 3,44,644 given to the individual colleges of this province, not a farthing went to the Tirhut College. I urged last year for a grant to the Tirhut College, but it was refused. I will now examine the grounds on which the claims of Bihar colleges, especially that of Tirhut College, are badly treated. The reasons are contained in the Budget speach of the Hon'ble Mr. Küchler. He concedes that it is perfectly true that 'if we compare the population of Bihar with that of Bengal, the amount of public money spent on education in the former appears to be inadequate,' but adds further that this is not a sound basis of calculation. He ascribes the backwardness of Bihar to the fact, or the theory, that the Biharis have hitherto shown no earnestness to make use of the few educational institutions in Bihar. He then proceeds to compare the number of University students reading in the two parts of the province and the fees paid by them, which he says should be the true basis of comparison. And thus by this method of calculation he tries to show that the grant made to the Bihar colleges, though apparently insignificant, is not largely disproportionate to the corresponding student population. But, Sir, even taking all that has been said by Mr. Küchler to be true and correct, does it meet the case of the Tirhut College? Has this college received anything from the Government, either by way of maintenance, building or hostel grants, during the eleven years of its existence? If it has not, can · any comparison on any basis be made? How is it, Sir, that many private colleges in this province are receiving ample support from the Government, while the claims of the Tirhut College are being ignored, even in face of the recommendations of the local officials who know the needs of the college well. The Hon'ble Mr. Küchler said that no evidence had been produced before him to show the necessity of the existence of a first grade college in Tirhut, and that, if he could be convinced of it, he would recommend to Government the application of the college authorities for a grant sufficient, for the working of a first grade college. But, unfortunately for the college, it appears to me, Sir, that the figures about it, relied upon by the Director of Public Instruction in support of his position, were not sufficient and strictly accurate. I here give you the figures and the opinions of the officers on the spot which would prove that the existence of the Bhumihar Brahman College, as a fully staffed

and fully equipped first grade college, is a necessity in Tirhut. This college has been in existence as a second grade college since 1899-1900. It was affiliated up to the B. A. degree in 1901. During the short period of its existence, it has turned out 110 undergraduates and 21 graduates. It has on its rolls 33 first year, 54 second year, 7 third year and 6 fourth year students. Now, Sir, do these figures compare unfavourably with the figures of the Dublin University Mission College of Hazaribagh which has received as much as Rs. 37,000 as Government grants in the four years from 1907 to 1910? This institution was affiliated as a second grade college in 1899 and as a first grade college only in 1907. I would like the Director of Public Instruction to tell this Council if the principle enunciated by him for the making of Government grants holds good everywhere, or only with respect to the Tirhut and the Bihar National College. Will the Director of Public Instruction be pleased to lay the figures of the Hazaribagh college before this Council, so that the Hon'ble Members may be able to judge for themselves? If we compare the number of students in, and the graduates turned out by, the two colleges, we shall find that the Hazaribagh College is much worse off than the Tirhut College and yet, according to the standard of the Director of Public Instruction, the one is getting nothing while the other is receiving grants lavishly. I do not, Sir, for a moment grudge the grants to the Hazaribagh College. It may be given more, if necessary. What I want is that the Tirhut

College should also have its own share.

"Last year Mr. Greer, Commissioner of Tirbut, at the time of the laying of the foundation stone of a building for the Bhumihar College by His Highness the Maharaja Bahadur of Benares, said-'I he object of the Government in creating this new division (Tirhut) is to improve more effectively the condition of the people of this part of Bihar Their foremost want is education, not only higher education, but also primary and female education . . . It is imperatively necessary for Biharis to take advantage of higher education to the fullest extent and, therefore, the maintenauce of this college is indispensable . . . I hope that any appeal to people and Government for the help of the college will be duly responded to." And, Sir, the people have duly responded. The Maharaja Bahadur of Benares and the Maharaja Bahadur of Darbhanga have each contributed a handsome amount, and the trustees of the college have collected a large sum from the people. We have now to see if the Government responds to the appeal. The people have done their part of the duty and let us see if the Government is prepared to do its own. A grant of Rs. 1,000 a

month to this college is not much.

"If we now examine the position taken up the Director of Public Instruction in his last budget speech, I think we shall be able to show its untenableness, and I hope the Hon'ble Mr. Küchler will pardon me, if I, as an old pupil of his, try to show the logical fallacy contained in his arguments. Mr. Küchler bases his opposition to the grant of the due shares of the Government aid to the Bihar colleges on the basis of the numerical strength of the students, particularly in the B. A. classes. He says there are very few students in the B. A. classes of the Tirhut and the Bihar National College, and so the Government would not like to make any grant to these colleges"

The Hon'ble Mr. Küchler said:--

"May I rise to a point of order, Sir? I do not think the resolution which the Hon'ble Member has brought before the Council is concerned with the Bihar colleges at all. It seems to me that the resolution deals entirely with the Bhumihar Brahman College. I doubt whether the Hon'ble Member is in order to speak about the Bihar colleges in general".

The President said:—"I do not think that the Hon'ble Member is in order

in referring to other Bihar colleges, except by way of illustrating his arguments."

The Hon'ble Babu Braja Kisor Prasad said:-

"I was simply referring to the Bihar colleges in order to give illustrations. However, Sir, I have very nearly finished my speech.

"First make them efficient and then the Government help will be forthcoming. But, Sir, is not this argument a very good sample, of what the

logicians would say, an argument in circle. How can you make a college efficient without sufficient funds? and how can you get a sufficient numbe of students in your college unless it is in an efficient condition? I, who war a college student only ten years ago, can tell you from personal experience how students avoid inefficient institutions. Undoubtedly, the bad condition of our Bhumihar college is due to a lack of adequate funds. We cannot adequately pay our professors; we have no hostel accomodations, and we have no good buildings. Remove these wants, and our college will become as efficient as any other college in this province, and you will find in it as many students as in any other college. A practical illustration of this principle is the Hazaribagh college. If we compare the figures, we shall find that before the Government grant the condition of this college was worse than ours. The Government came to its help, and its present prosperity dates from that

"Education, Sir, as I have often said in this Council, is the most important concern of the people and of the State. It should form the first charge on the public revenues of a province. We are very fortunate that the Imperial Government has made, this year, a grant of about 24 lakhs for education in this province, though it has laid down its own conditions for its expenditure. However, besides this amount, our Provincial Government has to make its allotment. And if we want Rs. 50,000 for the schools and one of the colleges of Bihar, would Your Honour refuse our request. The figures I have given in my resolution are not exact. If the Government increases or decreases the amounts, I shall have no objections whatever, my simple object being to secure adequate financial aid to the High English schools and the Tirhut College of Bihar. If you approve, Sir, of the positive part of my resolution, I have every hope that you will find out this amount by accepting the negative part of it or by any other means. There is no particular reason for my selecting the heading 'Inspection' for a reduction of Rs. 50,000, except the fact that I find from the draft Financial Statement that you have been able to make a saving of a considerable sum from the amount budgetted under this head last year, and I hope you may well be able to make the same saving next year, so that we may safely reduce the amount even now by Rs. 50,000 which would not materially affect it.

"With these few words, Sir, I beg to commend the resolution to the acceptance of the Hon'ble Members."

The Hon'ble Mr. KUCHLER said :-

"Your Honour, -I think in the first place I ought to say it is a great pity that the hon'ble member did not allow me to see a copy of the notes which are the basis of his speech. As it is, I have not been able to verify the actual cases which he quotes. It is difficult to answer on the spur of the moment individual cases in which there is said to be some defect in the management of a particular school unless one has an opportunity of making an investigation into the facts. With regard to the points raised in the hon'ble member's speech I propose to take them up in the same order as he has done, viz., I will deal first of all with the question of the adequacy of the tutorial

staff of Government schools in Behar.

"If we take this subject generally, it must be obvious, I think, to every dispassionate critic that we cannot possibly take any steps to raise the standard of efficiency in Behar schools without at the same time taking some measures with regard to other schools in the Province. The tutorial staff and the teaching staff generally in Behar schools is at present sufficient to teach the courses up to the ordinary matriculation standard. I admit of course that this standard may be unduly low, especially for Government schools. But at the same time the terms of service for Bihar teachers and the equipment of schools in Behar are exactly the same as they are in other parts of the Province. It would be obviously unfair to apply to the improvement of Behar schools money which was not at the same time forthcoming to effect a general improvement in the standard of secondary education throughout the Province. I do not think that the individual instances which the hon'ble member has adduced have

in any way supported the general proposition which he has put forward. The matters which he has brought to the notice of the Council are matters of departmental administration. It may possibly be the case, though it has not yet been officially brought to my notice, that there is at the present moment a demand for admission to the Northbrook School, but it is impossible to discuss a question of this kind in the Council. In the first place we have no figures to show us whether there is sufficient accommodation to admit of the increased number of pupils who the hon'ble member says are clamouring for admission. If the accommodation is not there, then even if we supply the teachers, it is absolutely certain that the University would refuse admission to these extra pupils. But I do not think that this is a matter of much importance. An instance such as that cited by the hon'ble member with regard to the Northbrook School may at any moment arise with regard to other schools in the province. It is entirely a departmental matter, and the hon'ble member must admit that it only arose in the course of the last month. Well, perhaps the department is not particularly noted for celerity in dealing with questions which come before it, but one must allow time for the matter to be represented to the Inspector of Schools, and then to the latter to take departmental action to remedy the defect. It is extremely likely that this particular case will come before me in the course of the next two or three weeks. And if it really turns out that there is a need for the increase of teachers in the Northbrook School, I shall take every

measure possible in order to remedy this defect.

"The hon'ble member in the course of his remarks has again referred to a matter which was brought up at the meeting of the Council last year in discussing the Budget, viz., the alleged want of graduate teachers in Behar. In connection with that alleged deficiency a reply was given by the Hon'ble Mr. Gourlay on one of the occasions in which this Council met, and nothing has fallen from the hon'ble member this afternoon in any way affects the position as it was then explained by the Hon'ble Mr. Gourlay. I think it is somewhat unfair to Government first of all to tax them with not appointing Behari teachers and then to turn round and say 'Well, if there are not enough Behari graduates, why don't you appoint Bengali graduates?' If there is one thing that we have been hearing for the last few years it is the necessity of putting Behari teachers to Behar schools. We should like to meet the wishes of the Behari community, but now we are told that we are wrong and that we should appoint Bengali teachers who have superior qualifications. I, however, very much doubt whether the sentiment thus expressed by the hon'ble member will find general approval among the members of the Behari community. Though we have to a certain extent reduced the number of Behari graduates in schools, we have not at the same time reduced the number so as to elicit any remonstrance from the University. We still satisfy the ordinary University standard, and I think that, that being the case, the more important consideration is that we should endeavour to meet the case, the fits Belleville ordinary university and account to meet the case, the more important consideration is that we should endeavour to meet the genuine wish of the Behari community that, so far as possible, posts in Behari institutions should be filled by qualified members of the Behari community itself.

"What I have said with regard to the zilla schools applies, I think, almost equally to the question of private schools in Behar. In Behar, as elsewhere, we know that the standard of secondary education is unduly low. In the recent Convocation speech delivered by the Vice-Chancellor attention was pointedly called to this deficiency of secondary education. But this is a deficiency which applies not only to Behar but applies to the whole province of Bengal, and if any measures are to be taken to improve the efficiency in our secondary schools, they must be measures not for one particular section of the province, but measures which will also be applicable to the whole

province.

"I come lastly to the question which the hon'ble member has raised with regard to the grant-in-aid to the Bhumihar Brahman College. I have already called attention to the fact that though professedly dealing with the single instance of this College the hon'ble member has brought in the general question of Behar colleges. The general question of Behar colleges was dealt with very fully in

the remarks I made on the occasion of the last Budget meeting of the Council. And there is nothing in what has fallen from the hon'ble member—though he taxes me with a want of logic—to show that the position I then took was unreasonable. I fully acknowlege the great liberality which has been shown by the members of the Behari community. On the occasion which the hon'ble member has referred to, I distinctly pointed to the notable example set by them to the rest of the province. But at the same time in determining whether the Government is justified in founding a new college or raising the status of a college, there are other considerations which it has to take into account. The chief point which the Government must record in a question of this kind is whether the college is actually wanted. must regard in a question of this kind is whether the college is actually wanted. And with regard to the Bhumihar Brahmin College-to which I will now confine my remarks-I am still unconvinced, though always open to conviction, upon the figures which the hon'ble member has produced that there is any necessity for the establishment of B.A. classes in Muzaffarpur. The hon'ble member has pointed out that in the present year, if I quote the figures aright, there are seven students in the third-year and six in the fourth-year class. If we remember that there are three other colleges in Behar and that the B.A. class in those colleges are anything but full, I very much doubt whether sufficient justification has been shown for the creation of a new college teaching up to the B.A. standard in this part of Behar. It has been argued that Muzaffarpur students will not leave Tirhut. They refuse to go elsewhere. That is a point which requires discussion. The question of a grant-in-aid to the Bhumihar Brahmin College has been engaging the attention of the department for some time past. The negotiations, I allow, have been rather protracted, on account, I may say, of a difference of opinion, to which I have just allowed between the markets of the governing bedy and myself as I have just alluded, between the members of the governing body and myself as to the justifiable status of that college and also to the amount of grant to which they would justly be entitled. What I recommended was, and I still believe that it is a sound advice, that the College authorities should, in the first place, concentrate their efforts on making it a really efficient second grade college, that is to say, teaching up to the intermediate standard only, and that when circumstances justify a change of status they should then try to raise it to the B.A. standard. I am sorry to say that this advice was not accepted. The reason why I took up this position was that the number of students who passed the intermediate examinations from Tirhut is still far too small to justify the creation of a first grade college; and the remarks which the hon'ble member has made with regard to the application of funds for increasing the efficiency of the college seem to me quite beside the point. It does not matter how much you increase the efficiency of the college if you have not got any students to enter it. No amount of application of funds will secure this result. Tirhut has long possessed a college, and it is not only open to the intermediate students, but it has been teaching up to the B.A. standard. Notwithstanding this fact there is only an infinitesimal number of students who pass the intermediate examination of the University from Tirhut, and only a few of these show any indication of continuing their studies. I do not think I should be justified as educational adviser of Government in recommending to them the application of Government funds in order to place the College to a B.A. basis. What I shall be very glad to do will be of course to recommend to Government that they should give a liberal amount for the purpose of putting the College in a sound basis as a second grade College. But my advice in this respect has been rejected by the College authorities. However that may be, the matter is now ripe for submission to Government. The submission has been long delayed, partly for the reason I have explained, and partly because of the difficulty I have had in persuading the authorities of the College to submit their application in regular form. But I am now about to submit the whole case to Government. will be for the Government to decide whether a case has been made out for raising the College to the B.A. status and also to decide what amount of grant they will be justified in giving it. In this respect the hon'ble member has drawn comparisons with other colleges, notably with the Hazaribagh College. When the hon'ble member first referred to the

Hazaribagh College, I must say I felt a certain amount of nervousness, because I certainly understood that he was going to support, by actual figures, the position which he took with regard to that College. I felt relieved, however, when no figures were forthcoming. He has asked me to look at the figures, but I am perfectly convinced, though there are no figures before us, that the number of students who are reading in the B.A. class in the Hazaribagh College is much greater than the Bhumihar Brahman College. I am afraid there is another point which the hon'ble member has overlooked, and that is that the Hazaribagh College is the only College in Chota Nagpur, while the Bhumihar Brahman College is only one of four colleges in Behar. I think this is rather an important point in making comparisons between the Hazaribagh College and the College whose interest the hon'ble member has at heart.

"Before this question is submitted for the decision of the Council, I just wish to call attention to the proposal which the hon'ble member has made as to the means by which the necessary expenditure should be met. He has proposed in this respect that there should be a reduction under the head 'Inspection' of Rs. 50,000. Now, Sir, the amount provided under the head 'Inspection,' representing, as it does, the cost of a permanently sanctioned establishment, cannot well be spared. In fact, there is only one way in which the money could be found under this head, and that is by withdrawing the scheme, to which I already alluded in my introductory statement, for the provincialisation of Sub-Inspectors. If we are to give up that scheme, we would have Rs. 68,000 available, but I doubt whether the hon'ble member is prepared to go to that length. This class of officers is a very deserving class, and they have had to wait a long time before it has been possible to satisfy their just claims. I may bring to the notice of my hon'ble friend an important fact in this connection, and that is that I understand that the hon'ble member for the University, who, we all know, keeps a sharp eye on any increased expenditure under this head, has given his hearty support to this scheme."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:-

"Sir, I am much obliged to the Hon'ble Mr. Küchler for the credit for vigilance that he has been good enough to give me, and I am not prepared to assent to the proposal of the Hon'ble mover of the resolution for cutting down inspection grants in the way he desires to do. I am glad that the Hon'ble the Director of Public Instruction has admitted the just claims of a deserving body of public servants who have long been kept out of their dues. If, however, other means could be found for meeting his wishes with regard to Behar educational institutions, I should be the last to stand in his way. Time was when the interests of the Behar educational institutions as well of other backward educational institutions like those of the Mahomedans had to be looked after merely by the member for the University. I, and before me my hon'ble friend Babu Bhupendra Nath Basu ungrudgingly and unhesitatingly tried to discharge our duties in this concern, and even now we do not shirk them. Now that Behar is, however, so well represented and is so able to take care of itself, we have naturally kept ourselves in the background. We do not, however, yield to any Behari in our desire to see Behar institutions strengthened. I do not agree with the Hon'ble the Director of Public Instruction's opinion that the Behar educational institutions ought not to have preferential treatment. That may or may not be relished in Bengal; but where special facilities are really wanted, whether it be in connection with Behar institutions or Mussalman education, there would be no harm in giving some slight preferential treatment. Sir, the Hon'ble the Director of Public Instruction referred to the speech of the Hon'ble the Vice-Chancellor on Saturday last, and as I happened to have a copy of it with me, I was looking up the passage. It runs thus:--

But, though strenuous efforts have been made in the case of numerous institutions to attain what must be regarded as a moderate standard of efficiency. I am not optimistic enough to conceal from myself the unwelcome truth that immense sums will have to be spent before the schools can be deemed fully qualified to prepare students ultimately destined to receive a University education. The subject, in which the teaching is most

palpably defective, and, in many instances, conducted on what must be regarded as by no means rational lines, is English. Indeed, when we remember that our students, in the earliest years of their life, learn the first rudiments of English language from teachers who themselves never had any adequate training, it becomes a matter for astonishment that many of them learn so well as they do. This is a subject which demands immediate attention. Mere severity of examinations does not always effectively advance the standard of teaching; and the aim of all sound systems of education ought to be, not so much to keep back the unqualified as to reduce their number to an absolute minimum. The efforts of the professors in our colleges must be lamentably wasted if they are called upon to impart instruction to students imperfectly trained in the course of their career in schools, and it would be a real assistance to the colleges if a comprehensive scheme to the radical improvement of secondary education could be speedily brought into operation.

"Here is one matter with regard to which Behar requires much more assistance than is necessary in Bengal, weak as it is. I am glad that the hon'ble mover of the resolution has stated that if enough Behari graduates are not forthcoming capable Bengali graduates may be appointed until Behar is able to train their own. This ought to illustrate the mistake of absolute provincialisation at all events with regard to educational matters, and it is not unfortunate that our Behari friends should profit by the situation. In order for Behari graduates to be plentiful, there must be facilities for their creation, and Behar must therefore have good colleges and schools. Behar has a special feature as regards school education; there is not a sufficient number of private schools such as one meets in Bengal, and therefore some preferential treatment is necessary with regard to the schools there. But there is some difficulty with regard to the college with which the Hon'ble Babu Braja Kishore Prasad's resolution is concerned. I do not agree with the Hon'ble the Director of Public Instruction that even if you have the means to have a first grade college you ought not to have it if there be no present local need. If you really make it efficient students are bound to go there, for many students were not able to find admission in the different colleges in Behar during the last two years for want of accommodation, and if a good college could be placed in Behar students would flock to it in numbers. We had a good illustration of this in the college maintained by the Hon'ble Maharaja of Cossimbazar which was long in a moribuod condition; but thanks to his exertion and munificence it has now taken the forefront among the educational institutions of Bengal. There you have an illustration that you have only to add to the efficiency of the college to be able to draw any number of students you want—nay you will have to duplicate the machinery before long as the Maharaja of Cossimbazar has been obliged to do with regard to some of the subjects in the Krishnanath College having regard to the increasing depends on the subjects. having regard to the increasing demand for admission. If, however, you have not enough resources not only from the Director's point of view but from the University point of view also, I think there is danger in turning a good second grade college into a bad higher grade college. I may incidentally mention the assistance that the Bhumihar Brahman College has been receiving from the University of Calcutta during the last two years from its slender resources placed at its disposal by the Government of India. Out of the amount that the University distributed last year amongst the colleges, it gave Rs. 12,000 to the Bhumihar Brahman College, of which Rs. 8,000 was for the hostel, Rs. 2,000 for the library, and the remaining Rs. 2,000 for the Physical laboratory. This was granted on conditions that the college authorities would supplement the University grant at least by an equivalent amount, which, I believe, they did. Nearly the whole of the previous year's grant had been utilised for improvement of the laboratory, and increased grants placed at the disposed of the University this year will probably enable the University to give some more grants to the College.

As to the St. Columbas College, Hazaribagh, referred to by the hon'ble mover, I might inform the Council and the hon'ble member in particular that the University realised that the Government was giving more to the Hazaribagh College, and that therefore the University assistance was proportionately less to that College than to the Bhumihar Brahman College. The St. Columbas College asked for Rs. 34,000, and the University gave it only Rs. 3,000."

The PRESIDENT said:-

"The hon'ble member is wandering away from the terms of the resolution. The St. Columba's College, Hazaribagh, does not enter into the resolution at all."

The Hon'bie Babu Deba Prasad Sarbadhicari said:-

"I quite realise that, Sir, but I was only incidentally referring to it. So far as the Bhumihar Brahman College is concerned, the University gave it Rs. 12,000 out of its last year's grant, and we hope that it is possible that something more will be given this year."

The Hon'ble Mr. FILGATE said:-

"Your Honour,—I beg to support No. 1 of the resolution of the Hon'ble Babu Braja Kishor Prasad, and I would be failing in my duty to those I have the honour to represent if I did not do so. I quote no figures, but I hope my arguments will appeal to the Hon'ble Mr. Küchler, who, I understand, is himself 'open to correction.' I do not suggest, nor do I approve, that funds should be taken from any schemes or projects that have been already worked out or are provided for in the Budget, but I do consider that North Bihar has a fair and just claim to some consideration and support from Your Honour's Government in the matter of the Tirhut College. We have received most fair and generous help in many ways, and not for a moment would I suggest that we should be unduly favoured at the expense or to the detriment of other divisions of the Province, every one of which could no doubt spend and will spend a great deal more than they get. But if it is possible in the coming financial year to provide the help we require I sincerely hope that Your Honour's Government will find a way. I fully recognise that they 'have to cut their coat' according to their cloth; and if even this year they can find a short coat for us, if they cannot afford a long flowing one, it will be something. 'Providence helps those who help themselves,' and, thanks to the magnificent generosity of His Highness the Maharaja of Benares, the Maharaja Bahadur of Darbhanga and a large number of our leading landholders and private gentlemen, a very handsome and considerable amount has been raised—which clearly goes to show that we are in earnest in our endeavours to further the welfare of North Bihar. Unfortunately in the past we have not had the advantage of the fine and magnificent educational institutions that Bengal proper has, and, as compared with other parts of the Province, North Bihar is very backward with regard to higher education; and if the North Bihari is to hold his own and take his proper place in the future, he must be well and soundly educated, and it is most necessary that he should have his own college. The principal arguments against this are, I believe,

"No. 1.- The results in the past do not justify the Government in raising the College to the standard we require and the pupils for B. A. are few.

" No. 2 .- There are excellent colleges in Calcutta and even just across the

Ganges at Patna. Why not send your boys to them?
"To No. 1 I would reply 'establish your college on a sound basis with Government support and a good staff: your pupils will come fast enough.' Had this argument been used years ago when the magnificent and fine colleges that to-day exist in Calcutta and other parts of Bengal were first founded, I am doubtful if many of them would have reached that high state of efficiency that they have now.

"In reply to No. 2. Bihar parents have informed me they would sooner forego a higher education for their sons than send them to Calcutta, or even Patna, where there are so many temptations, let alone if sent to Calcutta the risk of their boys getting contaminated by that 'coterie' who have stained the fair fame of Bengal with their gospel of assasination and general lawlessness. Thank God we have been free from it in Bihar. On political grounds I consider the Tirhut College should be supported and helped by Government. The boys and students will not be separated from that home influence with its moral training, parental advice, and control that is essential to the making of good citizens, noble and true men, and, furthermore, many of the temptations to be met with in all large towns and cities do not exist in Muzaffarpur in its rural simplicity and surroundings. A recent writer in the Times is very sound when he says: 'The evil of inferior teaching is not to be denied—it can be righted by expenditure. It is preposterous to leave the teaching of English and such subjects as Moral Philosophy and Political Economy in the hands of inferior 'half-educated men-no matter of what race. It cannot be denied that much of the sedition that taints the schools and colleges of India comes from the school-masters and professors-in many cases under paid and discontented men.'

"I can assure Your Honour and the Hon'ble Members of this Council that North Bihar looks for and expects Government assistance in their laudable attempts to improve the status of the rising generation."

"The Hon'ble BABU BHUPENDRANATH BASU said:-

"I do not think that I should be justified in giving a silent vote on this motion. I have the pleasure of being associated with the Tirhut Division for many years and I am speaking about the resolution from personal knowledge. My Hon'ble friend the Director of Public Instruction is quite right when he says that it would be injudicious if not impossible to take away Rs. 50,000 from the Inspection grant and put it to the purpose on which the Hon'ble Mover wishes that it might be spent. It is difficult for us non-official members of Your Honour's Council to suggest ways and means. The Budget is prepared in the department which has a much better and more thorough knowledge of the sources from which money can be had than we are likely to possess on the subject. But the question is about the justice of the demand that has been put forward. My friend the Hon'ble Mr. Küchler says that amongst graduates that are turned out by the Calcutta University, Tirhut lads are very few. I admit that. He has not sufficient knowledge of the conditions which prevent Tirhut boys from coming in and taking their degrees in larger numbers than at present. As I said, I have lived in Tirhut for many years. There is a strong feeling in Tirhut including Darbhanga, Champaran and Muzaffarpur not to send their boys across the river to Patna, where the climatic conditions are not so good as in North Bihar, and where, as the Hon'ble Mr. Filgate has pointed out, social and moral conditions are not so sound as in the more rural villages of Muzaffarpur. Then, again, they do not like naturally to send their boys so far away as Calcutta. I had noticed also that boys in Tirhut would prefer to come to Calcutta than live in hostels in Patna, so that it is unanimously agreed that for want of a good college in North Bihar, Bihari boys are determed from availing themselves of the opportunities which our University places at their disposal. Then, Sir, we have lately constituted North Bihar into a separate division. My friend the Harlibothe Director of Public Instruction was telling us that the Harlibothe Hon'ble the Director of Public Instruction was telling us that the Hazaribagh college was entitled to some consideration as it was the only one in the division. College was entitled to some consideration as it was the only one in the division. Thus, I may remind the Council, the Bhumih ir College is the only college in the Tirhut Division. We have got colleges in South Bihar—Patna and Bhagalpur Divisions. I quite agree with the Hon'ble Mr. Küchler when he says that you should make a college a second grade one before raising it to the B. A. standard. There is much to justify that expression of opinion, but as my friend knows just as well as I do that there is a strong feeling whether in Bengal or Bihar that it is better to have a first class college than a second class one. He remembers that there is a strong dissentient note by Sir Gurudas Banerji about colleges being reduced to the second grade standard. I had an opportunity of talking the matter to the second grade standard. I had an opportunity of talking the matter over with Mr. Greer, the Commissioner of Tirhut, while I was at Muzaffarpur, and he expressed the strong desire of the people under his charge to have a first class college in North Bihar if the Government would only stretch out a helping hand. I have no doubt that the rich as well as the middle classes would readily come forward to supplement the funds that may be placed at their disposal. When North Bihar and Patna

were under the charge of one Commissioner the anxiety for a college in North Bihar was not so strong as it is now. As the people of North Bihar have now got a separate Commissioner, they naturally look forward to a separate college. As the Hon'ble Mr. Filgate has stated the people in Tirhut do not like to send their boys across the river to Patna or to Calcutta. Similarly, many Bengali parents in the mufassil are unwilling to send their boys to Calcutta and they would much prefer to send their boys elsewhere. That is one of the reasons why the college which is so generously financed by my Hon'ble friend the Maharaja of Cossimbazar has received much support from the student community of Bengal. The Hon'ble the Director of Public Instruction was pleased to observe that it would be difficult to mete out preferential treatment to Bihar while neglecting other divisions so far as they proceed from Government.

As my Hon'ble friend Babu Deba Prasad Sarbadhikari has pointed out, the Member for the University in this Council, amongst whom I had the honour of including myself, have always advocated the cause of Muhammadan education because of their backward state of education. I will not, however, say that at the expense of Bengal special facilities should be afforded to Bihar for the purpose of raising it to the same educational standard as of Bengal. I believe that if we take the educational test in Bihar we find that one boy in a hundred knows English while in Bengal, Burdwan and Presidency Divisions it is one in fifty. So the difference is very great, and I think that we all appreciate whether Bengalis or Biharis that some help should be given to this institution. I trust that the Hon'ble Mover will not, however, press his resolution, and I have no doubt that Your Honour's Government will give due attention to the matter when it comes up for consideration."

The Hon'ble Babu Braja Kishor Prasad said:-

"I fully sympathise with the difficulties of the Hon'ble the Director of Public Instruction in not having a copy of my speech. Sir, the reason of this is that, owing to unforeseen circumstances, I did not receive a copy of the Financial Statement till the 7th of March, and it was in a great hurry that I drafted the resolution. I had also very little time to make out a speech, and on account of this I could not send a copy in time. I think, perhaps, that it is for this reason the Hon'ble the Director of Public Instruction has not been able to meet the points that I had made out.

"First of all, I beg to point out to the Hon'ble the Director of Public Instruction that he has misunderstood altogether the point regarding the appointment of Bihari graduates in the educational department of Bihar. I never meant to say that Bihari graduates should not be appointed or that Bengali graduates should be given preference over Biharis. The point that I urged before the Council was that if Bihari graduates were not available, Bengali graduates might be appointed in their place, and education ought not to be allowed to suffer. Then, Sir, I took up the case of the Northbrook School as a typical one. If I had taken up the cases of other schools, it would have taken a lot of time, but I can convince Your Honour that the state of the zilla schools in Bihar is more or less similar. They are greatly in need of increased teaching staff. I think the Hon'ble the Director of Public Instruction knows it full well that at the annual meeting of head-masters held some time ago, they strongly urged for strengthening the number of teachers. They want more graduates, and I beg most respectfully to submit that there are now fewer graduates than there used to be before. The time has therefore come when the number of graduates should be increased.

"I am sorry to find that no reply whatever has been given by the Director of Public Instruction as regards the case I made out of the high English schools at the subdivisions of the districts of Bihar. Not a word has been said by him about these schools, and I think that the replies given by the Hon'ble the Director of Public Instruction as regards the Bhumihar Brahman College are not very convincing, because the number of the students in the B. A. classes of the Hazaribagh College are fewer than in the Tirhut College. If, as my

hon'ble friend, Babu Bhupendra Nath Basu, has pointed out, it is argued that because the Hazaribagh College is the only one in the Chota Nagpur Division it should be given Government grant, it may similarly be argued that the Tirhut College is the only one in the Tirhut Division. If one college is getting Rs. 12,000 from the Government as maintenance grant, there is no reason why a similar college should not get anything. Although I have been advised to withdraw the resolution, I am not going to do so, as I want to know how many Members are in favour of this resolution, the subject being a very important one. Unless I get an assurance from the Government that they will consider the matter, I do not think I shall be justified in withdrawing the resolution."

The Hon'ble BABU BHUPENDRA NATH BASU said :-

"Had not the Hon'ble Babu Braja Kishor Prasad proposed to reduce the inspection grant by Rs. 50,000 we would have been very glad to support his scheme. Under the circumstances, it would be a mistake to press this resolution to the vote."

The Hon'ble MR. KUCHLER said:-

"I do not think, Sir, that I will take the time of the Council by dealing with the new arguments which have been advanced by the members who spoke in favour of the resolution. It seems to me that the Hon'ble mover is willing to withdraw his motion if a pledge is given that the matter will be taken into consideration. I think I have already indicated in my remarks that the matter will be taken into consideration; in fact it is under consideration in the present moment. I can also assure the Hon'ble Member that the arguments which have been put forward in support of the grant-in-aid will receive a very careful consideration at the hands of the Government. Beyond that I am not in a position to pledge either myself or the Government; but that the matter will receive consideration I think I may state for His Honour."

THE PRESIDENT said :-

"I think the Hon'ble Member has adopted a wise course in withdrawing his resolution, because, in the first place, it has been very fully discussed, and in the second place it would certainly have been necessary to oppose it, if it had been put to the vote on two grounds alone. The first is that the Hon'ble Member has made no attempt to meet the objection raised on behalf of Government by the Director of Public Instruction to the reduction proposed in the Inspection grant which is the only means of financing his proposal; this is the first and essential part of the resolution, and if that fails, the resolution as a whole must fail. It is quite certain that no reduction can be made under the particular item to which the Hon'ble Member has referred.

"The second ground was that he had not made any reference, although the Hon'ble Mr. Bhupendranath Basu did make a reference, to the argument used by the Director of Public Instruction, viz., that he was prepared to recommend Government to give liberal assistance to the Bhumihar Brahman College to raise it to a position of complete efficiency as a second grade college and until this has been done, the question of its being raised to the first grade cannot come up for consideration. This is an argument which is deserving of very careful consideration.

"I think, therefore, that he has acted wisely in accepting the Hon'ble Mr. Bhupendranath Basu's suggestion by withdrawing it."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Maharaja Manindra Chandra Nandi, with the leave of the President, withdrew the following Resolution of which he had given notice:—

This Council recommends to the Lieutenant-Governor in Council that an addition of Rs. 62,500 be made under "22—Education", a corresponding reduction being made under "32—Miscellaneous" the special provision made under the latter head for subscription payable to a new Vernacular newspaper being omitted, and that the additional sum under "Education" may be spent in providing hostel accommodation for students in Calcutta.

The Hon'ble Maharaja Manindra Chandra Nandi moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council that a reduction of one lake be made in the grant for "Jail Manufactures" under head "19B—Jails", and that a corresponding increase be made under "22—Education", to provide for initial outlay on the opening of a Technical Institute.

He said :-

"May it please your Honour,—In the grant for Jail Manufactures under "19B Law and Justice—Jails," I find there has been an increase of Rs. 1,20,000 over the actuals of the year 1909-10. There should have been a corresponding increase of income shown under the head "XVIB. 32—Law and Justice—Jails" being the price of jail-made articles. Some authorities are against the principle of increasing jail manufactures on the ground of such products competing with the products of independent artisans and on that account would not have more articles manufactured in jails than would give the inmates a fair occupation while in jail. But there is, on the other hand, the question of the benefit of education in handicrafts received by the prisoner who can convert himself into a respectable artisan when let out of it, if he learns some handicraft there; there are, therefore, advocates for the extended operation of utilising the time and attention of prisoners towards the manufacture of various articles of daily use. It is however not necessary to go into the merits of these two views. In the present case, if we were to advert to the figures of previous years, we could easily reduce the expenditure of money on raw materials for jail manufactures without diminishing the amount budgeted for, as the proceeds from sale of such manufactures. Taking the expenditure on purchase of raw materials and the receipts from sale-proceeds of jail manufactures (as shown at pages 32 and 51 of the Financial Statement) we find that the profits work out as follows:—

YEAR. UNIT OF TOO			Ratio of income to expenditure.	Percentage of profit.
1906-07	. Sii ** ** say	1	11,93,516 10,36,024	15.2
1907-08	••		11,42,880 10,33,786	10-4
1908-09	of Virginia 11 -	•••	9,08,969 9,24,423	-1:6
1909-10	•	•••	8,45,536 7,40,465	14.8
1910-11 (Revised)			9,10,000 7,29,500	24.7
1911-12 (Budget)			9,00,000 8,60,000	1000

"The figures of all the five years show an average profit of about 13 per cent., but leaving out of account the year 1908-09 in which the diminished profits from sales must have been due to abnormal causes, we find that the figures of the other years show an average profit of 16 per cent. and this may therefore fairly be taken as the probable rate of profit on the outlay on raw materials. By reducing the expenditure by Ks. 1,00,000, viz., to Rs. 7,60,000, the total income will be Rs. 8,81,600 while the budget stands at Rs. 9,00,000. It will appear from the figures given above, that reduction can be made to the extent of a lakh of rupees which can be very usefully applied to the initial outlay for opening of one or more Technical Institutes-a matter of signal benefit to the public at large. Such institutions will deter many a man from drifting into jail or finding themselves in the reformatory. We are very backward in the matter of technical education, and while our sister provinces have through the munificence of private donors made large advance in this much-desired direction, Bengal has lagged behind and will be hopelessly left far in the rear, if opportunities are not placed before her sons for equipping themselves with technical education. The technical schools started by the Government of Bengal recently for instruction in particular arts such as agriculture and weaving are not available to all classes of the people by reason of their situation and other conditions. What I am urging for is one or more institutions where students may receive practical instruction in such arts as dyeing, tanning, pottery, mouldings, match manufacture, weaving of woollen materials, type founding, pin-making, paper-making, steel-pen and pen-holder manufacture, glass-manufacture and the like."

The Hon'ble Sir Bejay Chand Mahtab Maharajadhiraja Bahadur of Burdwan said:—

"I rise not exactly to support the resolution which my friend the Hon'ble Maharaja Manindra Chandra Nandi has moved but to draw the attention of Government to the absolute necessity of providing more funds for technical institutions in Bengal. As I was a Member of the Finance Committee I may say that the amount the Hon'ble Maharaja wishes to take away from the head 'Jails' will not, I am sure, be possible, but I hope Government will give due consideration to the matter of spreading technical education in Bengal."

The Hon'ble Mr. KUCHLER said :-

"As far as I could gather, the Hon'ble Maharaja Manindra Chandra Nandi's arguments were mainly directed to the question of the reduction in the grant of jail manufactures. The discussion of this side of the question, I leave to the department concerned. As far as the actual proposal to found a technical institute in Calcutta is concerned, I may at once say—and in this respect, I think, I can speak on behalf of the great majority of the Members of Council—that I am in full sympathy with the object he has at heart, that is, to improve the facilities for technical education in Bengal. But at the same time, I think, I ought to point out that in view of the expenses that are being incurred in connection with the Engineering College at Sibpur, the Government can hardly be called upon to bear the expense of establishing and maintaining another institution of a similar character on this side of the river. The Sibpur College, though called an Engineering College, is, to all intents and purposes, a technical institution, and includes in its course a very large number of branches of purely technical education. It is probable that being situated on the other side of the river, it is not altogether convenient for non-resident students. But at the same time I think it may be said that it meets the present want for technical education in a fairly satisfactory way. When the removal of the Sibpur College to some other site is actually taken in hand, the question may arise and will deserve consideration at the hands of the Government, whether it will not be desirable to found a technical institute in Calcutta itself for at least some of the branches of technical education such as those referred to by the Hon'ble mover. One great advantage of a technical institute in Calcutta would be that we should be able to open night classes in connection with it—and, I must say I am a

great believer in night classes in connection with technical institutes. The great point about these classes—and I referred to a similar consideration in my opening statement—is this, that these night classes are visited by pupils who are already in employment and are therefore free from the consideration of that very great difficult question, viz., the prospect of employment for students after they have passed through the courses of the institute. Therefore, I do think that if the Sibpur College is removed, the question may arise as to whether we should not have a technical institution—on what scale I am not prepared to say at present—for meeting the wants of the people in Calcutta itself. At the same time I think the proposal to allot a lakh is not satisfactory. I do not think we can do anything with a lakh as the Hon'ble Maharaja of Burdwan has pointed out. We must have a great deal more money before we can start a properly equipped and satisfactory institute in Calcutta."

The Hon'ble Mr. Duke said:-

"I am not sure, Sir, if I was able to follow the Hon'ble Member's arguments regarding jail manufactures, but so far as I can gather, I think his intention was that we were only budgeting for a very small profit, that profits on jail manufactures generally had been small and that apparently prisoners might be otherwise employed on other work at no very great loss. If that was the line, if I understood him rightly, I must contravert the whole position at once. In introducing the head of jails, I only said in general terms what the profit on jail manufactures had been. From 1906-07 until last year they had varied between 3.20 and 2.32 lakhs and speaking roughly during the last seven years the profits made have practically always exceeded 30 per cent, upon the cost of the raw material. It is true that in the current year only a very small profit is shown. The cost of the raw material is put in at 8.6 lakhs and the price of the manufactured at 9 lakhs, but in introducing the head I explained that the total quantity of jail manufactures had fallen considerably in recent years, and we were taking steps to rehabilitate this. The first of these steps is to reorganise manufactures.

"The profits come somewhat later when the completed articles are sold, and the consequence is that this year we have budgeted for a larger amount of raw material than we expect the sale of within the year, but the profit will necessarily follow in the following year. The main point is that first of all our jails must be supplied with labour. There can be no reasonable or satisfactory management of a jail unless suitable work is provided for the prisoners to keep them employed. The second point is that we have always succeeded in realising about 30 per cent. of profits on the materials which we have worked up and there is no reason whatever to think that we should not continue to realise it. Therefore any proposal to reduce the amount of money expended on raw materials in jails must result in a further loss of 30 per cent. If a deduction of one lakh is made on raw materials, then the total loss in sales would amount to Rs. 1,30,000. The proposal is very uneconomical and disadvantageous and it is impossible to work the jails with a smaller amount of raw materials than can suitably be worked up."

The Hon'ble BABU BHUPENDRA NATH BASU said:-

"I believe the object of the Hon'ble Mover is about the introduction of some sort of technical institution, and having regard to the observations of the Hon'ble Mr. Küchler which show that Government is fully alive to the necessity of having a good technical institute that object has to a great extent been secured. Although the Sibpur Engineering College is more or less a technical institute, the general impression is that it concerns itself more largely with the higher branches of science than the humbler department of technical instruction. Government and the public are now alive to the necessity, and this being so, I think the object which the Hon'ble the Maharaja had in view has been attained."

The Hon'ble Maharaja Manindra Chandra Nandi said:-

"Your Henour, my object has been explained by the Hon'ble Babu Bhupendra Nath Basu. As, however, Government is going to remove the distinct entires

Sibpur Engineering College to a healthier locality, I hope that a technical branch will be provided there. I beg to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Babu Bal Krishna Sahay moved the following resolution:-

This Council recommends to the Lieutenant-Governor in Council-

(a) that under the heading "Education" provision be made in the Budget for the following grants:—

(1) Rs. 5,000 for a hostel building at Ranchi for the non-Christian Kol boys receiving education in the local schools;

(2) Rs. 2,000 for helping the maintenance of the Bihari Ashram in Calcutta, and

(3) Rs. 10,000 for improving the efficiency of the Patna College staff, viz., the employment of a professor for teaching philosophy and logic; and

(b) that the amounts noted below under the heads stated against each amount be so proportionately reduced as to save Rs. 5,000 for the hostel building for Kol boys at Ranchi:—

Contribution towards the Athletic Club ... 1,500
Encouragement of Athletic Clubs ... 4,500
Grant for Athletic Clubs ... 500:

(c) that out of Rs. 4,000 provided for the cost of maintaining messes attached to Government Colleges in Calcutta, Rs. 2,000 be given to the Bihari Ashram by reducing Rs. 4,000 to Rs. 2,000; and

(d) that the amount of Rs. 60,000 under the head for strengthening the staff of Colleges he reduced to Rs. 50,000, and that Rs. 10,000 thus saved be given to the Patna College for improving the staff of the said College.

He said :-

"I crave leave to appeal to the Members of the Council and to your Honour for three additional grants under the head Education. I quite realise the position of the Government in preparing the Budget and the difficulty in cutting down any item already put down, but I may be excused for urging that where anything important demands our interference, we are compelled by sheer necessity and sense of duty to bring the same to the notice of the Government. Representing a poor and out-of-the-way division, my wants and demands do not count by lakhs. My first item therefore consists only of Rs. 5,000, which I beg of you, gentlemen, and your Honour, in the name of the poor helpless Kols of the district of Ranchi.

"Your Honour knows that the zamindar boys in the district have got a boarding-house at Ranchi. The Christian boys also are helped in this direction by the several Christian Missionary Societies working in the district. But, Sir, there is no arrangement worth the name for the non-Christian original settlers of the district—the poor non-Christian Kol boys. Of late an attempt has been made by the non-Christian Kols to educate their children, and the organisers have so far succeeded as to bring into Ranchi over 40 boys from the mufassal. Arrangements are being made by some Kols to support these boys by collection of small quantities of paddy made in the villages, and the whole affair is managed by a few educated members of the community who are employed at, or live in the villages near Ranchi.

"These poor boys live for the present in a little hut provided temporarily for the purpose by a man of their community. This house is located in a very unhealthy part of the town and far away from the schools. They stand in need of a building close to school and in a healthier locality. The organisers are too poor to provide for a building, and their resources are too small and scanty. There is no one to help them. The local zamindars have not yet risen to understand the benefit of having educated tenants. They never seem to think that it is their duty to educate their raiyats and would-be raiyats. So these poor people have nobody to come to their rescue. The hut placed temporarily

at their disposal is not only located in an unhealthy quarter, but may be taken away at any time. I think therefore, Sir, that unless the Government help these poor people, and encourage their laudable attempt, there is little chance of their making any advance. I therefore beg the Council to recommend that provision be made for Rs. 5,000 for building a house for these helpless people. I expect the support of the Director of Public Instruction in this direction.

"The next item is of Rs. 2,000. Though I was the other day described to be a domiciled Chota Nagpuri, and it may be true to some extent, yet, Sir, I am all the same a Bihari, and my sympathy for and connection with Bihar has not been lost or has not ceased. I therefore feel very much for the Bihari boys who, for want of room in the Hindu Hostel or for any other reason, have to make their own private arrangements for their lodge in the town of Calcutta. I need hardly say how difficult it is to arrange it. Attempts have now and then been made to raise funds for making a building for the purpose, but at least up till now they have been crying in the wilderness. They have, however, established a Bihari Ashram, where they board and lodge.

"It need hardly be said that proper care of the boys is always very necessary. Good company and good atmosphere are always wanted, and specially in the present unfortunate state of the country. The parents of the Bihari boys are very anxious to keep their children free from all anarchical touch, and to avoid contagion it is necessary that they should have a hostel of their own, but, Sir, I know the Government, embarrassed as it is with law expenses due to the fanatical deeds of the anarchists, cannot at present spare large amounts. Every lover of the country sincerely wishes that order and peace be soon restored and that people whose heads have been turned wrong may soon understand that blood will never wash away their sins, for which India is suffering from poverty and plague, etc., as we do believe. It is the purity of soul that, like pure water, would purify us and save us.

"But, Sir, I sincerely hope that the attempt of some energetic Bihari boys in establishing the Behari Ashram will receive such help from the Government as the Government can easily spare. I may inform the Council, and I daresay some of the Hon'ble Members may have personal knowledge of the fact, that the Ashram is not in a very hopeful condition, and there is a fear of its collapse if timely aid is not given. There is often deficiency, and so difficulties, in maintaining the institution, and I appeal for Rs. 2,000 to help the Ashram with. I do not think it is a large sum, and the amount will very much help the students who otherwise might be compelled to put up with undesirable people and be ruined. There is a Committee in charge of this Ashram.

The third item is for strengthening the Patna College staff. It is really to be regretted that there is no M. A. Class, and no Professor of Philosophy and Logic. I need hardly dilate on the importance of the subject; and I leave it to the Hon'ble Director of Public Instruction who can certainly better realise the position of both the Government and the students.

"Your Honour takes keen interest in educational matters. I am therefore tempted to bring forward these matters in the Council for consideration.

"I have made certain suggestions as to where to find money for the above objects. These are mere suggestions. If my resolutions are accepted, I feel sure funds will be available for these purposes from under some head in the Budget."

The Hon'ble Mr. Ruchler said : To be made an united to be word over the troughts or and the Hon'ble Mr. Ruchler said : To be made as not a sound to be the several to the s

"I must confess, Sir, to a certain feeling, of doubt as to whether the nirst two items of the Hon'ble Member's resolution can be suitably discussed in Council. They are in the nature of petty grants-in-aid and I should mention here that no application has as yet been made to me with regard to them through the ordinary departmental channels. If the matter had come on appeal before the Council the position would have been different, but if applications like this are put before the Council in the first place, I am afraid a very inconvenient precedent will be established. The impression is likely to gain ground that applications for grants-in-aid will receive special consideration if this forms the subject of discussion in Council, and I am afraid the Council will be

inundated with applications of like nature. I do not think that it is a state of affairs to be desired. Nor do I think that the particular grants-in-aid which the Hon'ble Member has advocated here are of sufficient importance to justify special consideration apart from the ordinary grants-in-aid allotment. I submit, Sir, that this particular grant-in-aid should be considered along with numerous other applications for assistance which are yearly made to me. If we discuss the merits of this particular grant-in-aid, I am afraid, I must confess that I am not in a position to say anything at the present moment. From the information which has been placed at our disposal by the Hon'ble mover it is perfectly clear that we have not sufficient data to come to a clear understanding that this application is reasonable. For instance, with regard to those non-Christian Kol boys who are alleged to be reading in Ranchi, we do not know whether they are reading in vernacular or in English. The question may also arise whether these boys could not get facilities for prosecuting their studies without coming to Ranchi. That is a point which is to be determined, and it cannot be determined on the information placed before us. It is I venture to submit not a matter on which the Council can really decide.

Then, as regards the Bihari Ashrum, there is again room for further inquiry. As far as I have been able to ascertain, this Ashrum is not occupied by students only, but accommodates other persons such as clerks. If that be the case, then I do not think it can be aided from the educational budget.

Passing now to the third item in the resolution, I am glad that an opportunity has presented itself for ventilating this question in Council. It enables me to state briefly the facts of the case. Originally under the scheme which was initiated by Mr. Earle for strengthening the staff of the various colleges, a Professorship of Philosophy was sanctioned for the Patna College. It was only a matter of appointing a Professor of Philosophy and not of Logic for the teaching of which provision already exists at the College. But a representation was made to me that Philosophy was an extremely unpopular subject. Now, in a matter of that kind I had to be guided by the people on the spot. Not only was that representation made to me, but it was also represented that the students were very anxious to have political economy and political philosophy included in the curriculum. Therefore, it was decided to appoint a Professor of Political Economy and Political Philosophy. I have no reasons to believe that since that date philosophy has become any more popular than it was before. I am therefore compelled to oppose the resolution, or rather this sub-head of the resolution, which has been put forward by the Hon'ble Member.

Before I close, however, I wish to say a few words upon the financial aspect of the question. In this respect, I am afraid the proposals which have been made are rather infelicitous, probably owing to the fact that the Hon'ble Member had to make his proposals in a hurry, and that he had no means of access to the information which is at the disposal of official Members. In making proposals for establishing hostels for Kol boys, he suggests that the contributions made by the Bengal Government to athletic clubs should be withdrawn or reduced. It is impossible to approve a suggestion of this kind. The principle on which these amounts are given is that Government contributes an equal amount to what is subscribed by the students or the boys of a particular school, and I think the Council will agree with me that it will be entirely undesirable to do anything to discourage the spread of athletic exercises in the schools of Bengal. I therefore think that as far as this source of revenue is concerned, the proposal of the Hon'ble Member is quite impracticable. It is also impracticable, as he has suggested, to reduce the cost of the messes attached to the Government colleges. After all we have heard of necessity of providing proper hostel accommodation for students. I am afraid I cannot agree to any reduction under this head. With regard to the third proposal made by the Hon'ble Member that the amount of Rs. 60,000 under the head of strengthening the staff of colleges should be reduced to Rs. 10,000, I may say that the provision for strengthening the staff is founded upon a well-reasoned estimate of our requirements in this respect, and it is really impossible to curtail that estimate. As a matter of fact out of this Rs. 60,000 allotted for strengthening

the staff of Government colleges, a very large portion will go to meet the cost of one of the new appointments of the Patna College itself. A Professor of Political Economy and Political Philosophy has just arrived in this country for the Patna College, and I do not suppose that it is the intention of the Hon'ble Member that he should go back. With these words I oppose the

The Hon'ble Babu Bal Krishna Sahay said :-

"I only beg to add, Your Honour, that as far as my information goes, the Kol boys of Ranchi read in English schools. However, I do not press this Resolution, as I hope, when funds will allow, Government will see their way to make the necessary improvements."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Babu Deba Prasad Sarbadhikari, with the leave of the President, withdrew the following resolution of which he had given notice:—

This Council recommends to the Lieutenant-Governor in Council-

(a) that a sum of rupees two lakhs (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided out of the Imperial Educational Grant as contribution to the University of Calcutta for acquiring the Market to the south of the Senate House and the Law College;

(b) that a sum of one lakh (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided out of the Imperial Educational Grant as contribution to the Talender in Fall Pagester Salings

Rameswar Library of the University of Calcutta;

(c) that a sum of one lakh (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided out of the Imperial Educational Grant for assisting private secondary schools for boys and Terminated to know Miswed total rules

- (d) that a sum of three lakhs (or such other proportionate sum as the Government may be able to spare, having regard to the conditions imposed by the Government of India with regard thereto) be provided as contribution towards the improvements of the Presidency College; and
- (e) that the rest and residue of the Imperial Educational Grant be provided for strengthening and improving boarding accommodation for colleges and secondary schools.

He said :-

White mall side

My reasons for going notice of these resolutions are set out in my note which may be taken as read :-

"The Educational Budget for the year presents some special and striking features which must be highly gladdening to all representing educational interests. There can hardly be a Member of this Council or of Your Honour's Government who is not directly or indirectly interested in this great and essential Department of State Administration, truisms regarding the vital and primal importance of which need not be recapitulated. The Educational Budge of Bengal has been steadily rising, and one would be grossly ingrate indeed if the were to fail to recognise or be thankful for this expanding factor of national amelioration. From thirty-eight and a half lakks in 1906 to 70 lakks and a quarter in 1911 may not be a phenomenal expansion, but ought to satisfy normal requirements. And so would expansion at this rate do if years of neglect and mistake had not preceded the later years of march along correct lines. The lump provision of $24\frac{1}{2}$ lakhs, the welcome benefaction of the Government of India even after its solemn determination not to dole out its usual benefactions, because of a more natural and just Provincial Settlement, will not be the passing special feature of the year but will be continued during the next. This ought to afford us present satisfaction, and we need not look ahead beyond the next year. Eliminating this windfall, however, the Provincial provision of 58 lakhs and a quarter falls short of the last year's budget of 59 lakhs and 17 thousand, which as first explained by the Director of Public Instruction was revised or reduced by over four lakhs chiefly in salaries and allowances to Inspectors and Sub-Inspectors that had been provided for in the last year's Budget. I felt obliged to criticise the Inspection charges, and had the satisfaction of being practically assured by the Hon'ble Mr. Küchler last year that such charges had nearly attained their ultimate height. But I would not for a moment presume to believe that the saving height. But I would not for a moment presume to believe that the saving in the inspection charges which rejuced the last year's educational expenditure could have the remotest reference to my objections. Indeed, I should be sorry if it had, for a long-suffering and worthy body of public s rvants with deferred expectations happened to be kept out of their dues by reas in of the budget grant not being made available, and I am sincerely glad of the provisions for the regrading of Sub-Inspectors. The slight rise this year on inspection charges is due to the provision to bring about the equilibrium in this regard that was the last year's due, and I shall be glad and happy indeed if my rarely invoked questioning spirit has helped in expediting this equilibrium in the least degree. With commendable and imitable abnegation the Directorate has not added materially to its own charges, and arrangements have been bespoken for strengthening the staff of Professors in Government Colleges, including the Sanskrit College, the regrettable state of affairs in connection with which it was my duty last year to bring to Your Honour's notice. To the grateful joy of the Professoriate and the public, provision has been made for four officers in the Indian Educational Service to the extent of Rs. 24,000, which, I take it, is an earnest of the promotion of four deserving members of the subordinate service to the bigher service which is awaiting the sanction of the Government of India at Your Hongur's instance. Provision has also been made for improvement of the teaching staff at the Presidency College, the Ravenshaw College, and for improvement of Muhammadan Hostels and Madrassas, and for a new scale of allowances for Superintendents and Assistant Superintendents of Hostels and Messes attached to Government Colleges, all which are reasons for gratitude and gratification, that ought not to be allowed to be marred because of a small investment in 'Castes and Tribes,' that by mistake may have crawled from under crowded census headings.

"And yet if with all this roseate glow around I feel obliged to ask for more, it is not because of innate Oliver Twist instincts, but because of the sheer necessities of the situation. And my mendicancy would be facilitated, I thought, by the timely benefaction of the Imperial Government—a fitting signalisation of the creation of a separate and self-contained Educational Department under the special and exclusive care of a separate Member of the Government. According to the Hon'ble Mr. Duke's Memorandum the expenditure upon buildings in the Educational Department was to come out of the special grant of twelve lakhs of rupees. This nad been bespoken in ignorance of the conditions attaching to the grant. My scheme of dividing the spoil had been also framed in similarly blissful ignorance and as I claim with no less justification. In absence of clear and inviolable conditions to the contrary about which I could not obtain any information up to Thursday last, I thought my way clear to put in indents for all that appeared to me to be educationally needful. In the absence of such cast-iron conditions, and in view of the pressing requirements of the Educational Department as a whole, I thought it might without injustice to any of its particular branches be suggested that both University, Collegiate, Secondary and Primary Education should benefit by this windfall. So far as the Colleges are concerned, appreciable if not fully adequate arrangements are suggested as stated above in the Financial Statement itself for strengthening the staff of the Government Colleges. Assistance to private Colleges has also to a certain extent been provided out of existing Imperial grants. What, however, may be called University education proper—that is within its buildings and on its premises—has not yet benefited to the extent that we have long been wanting. My resolution therefore in the first instance sought to supplement the resources of the University with

regard to two pressing matters. The first is with reference to a long-standing and crying necessity—I was almost going to say grievance. I refer to the emergent necessity of acquiring the market to the south of the Senate House and of the Law College which is a serious menace to the health of those who have to frequent these buildings and to the proper carrying out of the work that is to be done there. I have referred to this matter year after year, and last year I got the Hon'ble the Director of Public Instruction to agree with me so far as to admit the desirability of the acquisition. He is one of my fellow-sufferers in the Saturday martyrdom in this neighbourhood, and his agreement is not unnatural. Last year according to my friend's own showing the University Building Fund stood at less then two lakes after providing for the Library site and other properties. at less than two lakes after providing for the Library site and other necessities.

The Library demands are growing upon us apace, and nobody can say how far that balance will be diminished even if a dole can be saved out of the general grant of eighty thousand rupees. As regards the University reserve of six lakhs only a small sum could be available for building purposes, and this will be forthcoming at the due time. But with resources such as these, the University cannot, in my hon'ble friend's words last year, "decide whether it is desirable to acquire this particular plot or not," if by 'decide' he means 'decide to acquire.' Any other and cheaper plot would be useless, and this blot and disgrace to the educational neighbourhood would continue unless its new President were to acquire it for the University Institute. We must have this plot, and at once, and we must have assistance in getting The cramped accommodation of the Senate House was never brought home in a more acute and distressing manner than this year when, owing to the inability of the Presidency College, the Hare School and Hindu School authorities to lend their halls for the purpose of the University Examinations which had been allowed throughout heretofore, special and by no means convenient arrangements had to be devised for the purpose of accommodating the candidates, though under new conditions their number has diminished. The University has no suitable hall wherein to accommodate all the students that require examination accommodation in Calcutta, and it has been necessary to commandeer the buildings of the different educational insti-tutions of the metropolis for meeting these emergent wants. The authorities of these institutions have never grudged or hesitated to accord the assistance that the University could well look forward to, but examinations have nowadays to be spread over so many days, nay, weeks, having regard to the diversified and multifarious curriculum, that school and college work proper grievously suffer if they are to be shut up for an indefinite period during the weeks or rather months during which the different examinations have to be held one after another.

"This is but one part of the wants that I have in view in pressing for enlarged building accommodation for the University. There are others of no less importance, such, for example, as a University Laboratory, where for the sake of efficiency and uniformity practical examinations in science could be held. We also want accommodation for the daily growing number of University Lecturers and University Readers and their expanding classes. There are not adequate meeting rooms for numerous Committees and Boards that have to sit almost from day to day and for the offices that are getting larger and larger every day. When the Rameswar Library was offered to the University the generous donor's wishes and ideas would have been better consulted if the palatial building now rising behind the Senate House piles under the diligent and expediting care of Messrs. Martin & Co. could have been placed alongside the Senate House and facing the public roads to its east and south. Architectural effect and administrative convenience would have equally prevailed, and a black spot in the midst of the educational buildings of Calcutta would have been removed withal. Wedged between the Medical College, the Senate House and the Medical College Hostel, flanked by the Eden Hostel, and within literally a stone's throw of the other important educational institutions of the neighbourhood, the insanitary fish market has been a drawback that we have long been persistently trying to have removed. It could have been removed at much less cost when the question was first raised, and the costs of acquisition are daily growing. The

cost will be greater than ever if there is further delay, and if the University was to accomplish this improvement out of its own unaided resources as the Director of Public Instruction suggested it should, the chances are that it will never be done. The University however does not expect the whole of the funds to come from outside. It can eke together some little funds of its own, but large Government help, and possibly outside help also has to supplement the University resources.

"The Rameswar library buildings are nearing completion and the question will be as to what the library should be that is worthy of being located in this building. The existing University library has been collected on lines more supplementary than independent, and the efforts of the management have been to bring together works of reference and rare works such as are not to be had in other libraries in Calcutta. That which may have sufficed when the University was first started does not meet the present demands. Though some of the College libraries are equipped well enough for current ordinary work, the appliances for higher work are phenomenally poor, specially of research work that must be a part of up to-date University work. If such work is to flourish a good central library open to all colleges and educational institutions must be located in the buildings that the munificence of the Maharaja Bahadur of Darbhanga has placed at the disposal of the University. Here also the University is embarrased for want of funds and its difficulties would have been very great indeed if Your Honour had not been good enough to make a timely donation of Rs. 5,000 for immediate expenses.

"Now that the improvement of the Presidency College in situ has not only been finally decided on, but partially given effect to, it is of importance to push on with the scheme of improvement as fast as possible. Having regard to the existing resources of your Honour's Government, the scheme in its different departments would necessarily have to be spread over a number of years which would materially interfere with the full realization of the benefits accruing thereform. The Physical Laboratory of the College is now well in advance but the College sorely needs Physiological, Botanical and Geological Laboratories. The land that we have will not suffice for this, and if the work is to be limited for the present to no more than the Physical, Botanical and Geological Laboratories land is immediately to be acquired. I cannot help thinking and repeating that it will be cheaper and more expedient to acquire all the land that we want so that the cost of future acquisition, in which we have adverse interest in a different and personal capacity. may not be prohibitive. But if that course does not commend itself to Government, land for the Physiological, Botanical and Geological Laboratories must be immediately acquired, and the provision of 6 lakhs of rupees towards these necessary improvements which will come out of the Imperial grant will meet the immediate requirements. His Excellency the Viceroy's morning visit to the Presidency College has borne abundant fruit which must be gratifying to Presidency College men, old and young, and to that portion of the public that fought for its improvement in situ.

"And lasty, Sir, I come to the needs of the college and school boarding-houses about which we have heard so much of the late in quite another connection. That was one of the matters for which some of us have long pleaded. The Hon'ble the Director of Public Instruction was good enough to say, though not exactly in this connection last year, that where Government had not been able to satisfy the demands for increased expenditure the refusal had been dictated not for want of sympathy, not by merely financial reasons, but for considerations which presented themselves after a full and careful examination of the merits of each question. However much the last qualification may apply to some other questions, it certainly can have no application to the question of providing suitable accommodation for students' boarding-houses in Calcutta as well out of it. There was no more eloquent advocate and forceful exponent of these needs than the Hon'ble the Director himself in connection with the proposal that the memorial of His late Gracious Majesty should take this particular shape. For reasons that need not be referred to here, the Hon'ble Member's efforts did not succeed, and now that funds have been placed at his disposal from an unforeseen quarter efforts on lines of continuity will be possible for providing as far as possible our students

with suitable boarding accommodation which is recognized to be an inseparable essential of sound education in the case of boys obliged to live away from their homes and guardians. Your Honour has always evinced a lively interest in this matter. His Excellency the Viceroy shares in this interest, as manifest from his recent private visits to some of our boarding-houses which has not only touched popular imagination, but has evoked genuine gratitude. And we have now solid, tangible and lasting proof of such intent. We are in great hopes that good boarding secondary schools in and away from Calcutta will be a feature of our educational system ere long and private efforts towards realization of this idea will find support and encouragement at Your Honour's hands. Private colleges are already receiving appreciable support, but private schools, which are no less an important part of the educational integer, cannot be longer left out in the cold."

I gave notice of this motion in ignorance of the conditions attaching to the Imperial grant. In fact we did not even know the correct amount till the Hon'ble Mr. Küchler informed us this morning. These conditions just mentioned in Council being inelastic, I am afraid my resolutions would not be in order, and I would ask Your Honour's permission to withdraw them. In doing so, we have to express the sincere gratitude of the educational community for the munificence of the Government of India.

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council-

- (a) that a sum of Rs. 20,000, or such other sum as the Government may think fit, be provided for strengthening the David Hare Training College, with a view to training selected Inspecting officers and affording facilities for training teachers for private schools; and
- (b) that the charges (Rs. 20,370) for re-organization of the Veterinary Service (page 18 of the Financial Statement, paragraph 52) be omitted from the Budget.

He said :-

"My proposal is for the purpose of strengthening the David Hare Training College which is already doing excellent work in the shape of training teachers for our schools. This must not be looked upon as contribution to any particular branch of the educational service, for good teachers in all departments are a great need in the interest of sound primary and secondary as well as collegiate education, upon all which the University must ultimately depend. The Government has recognized by establishing the David Hare College, as well as the training school at Entally and training schools at other centres in the province, that the training of teachers is an important and essential factor in the educational evolution of a country. This has been neglected long and though the first step has been taken, by no means adequate provision has yet been made for meeting the large requirements of the situation. It is only selected members of staffs of Government schools that can now have accommodation in these small institutions, and though by the courtesy of the Principal and the Director of Public Instruction now and again people, like myself, interested in private schools have had opportunities of watching how the work is done, much to our gain and profit, yet in order that the whole of the educational machinery may suitably benefit, it is necessary and important that these facilities should be extended, though of course the whole of the requirements cannot be met all at once. I was no less sorry than surprised to hear the Hon'ble Babu Braja Kishor Prasad complain that some of the teachers from Bihar schools had to go for a short time to receive training in the training school, which he considered to be an unjustifiable interruption. I think that all schools that have opportunities of thus sending their teachers ought to be more grateful than otherwise for facilities like these. I mentioned the work of the new Froebel Society last year in connection with the training of teachers. That infant institution is manfully strugging against tremendous odds and is giving a good account of itself as the Hon'ble the Director of Public Instruction as well as the

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Babu Deba Prasad Sarbadhikari before moving the following Resolution with the leave of the President withdrew sub-head (a) thereof—

This Council recommends to the Lieutenant-Governor in Council-

- (a) that a sum of Rs. 10,000, or such other sum as the Government think fit, be provided for strengthening Training Schools under the Government;
- (b) that a sum of Rs. 10,000, or such other sum as the Government think fit, be provided for the purpose of giving bonuses to gurus in aid of the cause of primary education; and
- (c) that the superannuation charges (page 18 of the Financial Statement, paragraph 53) be reduced by Rs. 20,000.

He said :-

Sir, may I with your permission withdraw part (a) of this Resolution because that is covered really by the previous observation of the Director of Public Instruction."

The Hon'ble Member then moved sub-heads (b) and (c) of the Resolution, substituting the 10,000 for the figures Rs. 20,000 mentioned in clause (c).

He said ._

"There is a small item in connection with primary education that I ask for which requires a word of explanation. Formerly all students of primary—lower and upper—and of middle schools, used to be allowed to compete at public scholarship examinations, and qurus who could pass the most and the best boys used to receive rewards which were supplemented, I believe, by guardians in those good old days. Not long ago this system was discontinued, for reasons that must have appealed to the then Director of Public Instruction. The system since in vogue is that the inspecting officer visiting the schools selects one or two out of many would-be competitors from each school and the area of competition is circumscribed, the Inspector's work is needlessly added to and the whole of the guru's work does not find the test of check at the public examination. He gets a phenomenally small pay, and the present state of things is little incentive to good work. Only one or two out of the best of his boys—at least those that the inspecting officer selects—have thus the opportunity of competing, and the others who may be nearly as good, are left behind. Under this system the best boy of an indifferent school who may be positively bad compared to the residuum of the better school is allowed to compete and the benefits of a general competition are lost. I propose the restoration of the old system, so that the boys, their guardians and the gurus may all co-operate in the bettering of the primary schools. As it is, the primary schools are gradually losing strength, which will be little aid indeed to the development of primary education on more expanded basis, towards which we are supposed to be moving. As an experimental measure I therefore propose that a sum of Rs. 10,000 be provided under the heading of Bonus (p. 58 of the Educational schedule) for giving reward to gurus. Gurus are more or less superannuated. I thought that there might be some fitness of things in the bonuses coming out of the superannuation charges which, I believe, are

The Hon'ble Mr. Kuchler said :-

"I presume, Sir, that it should be dealt on its own merits apart from its financial side.

"With regard to the proposal (b), I would inform the Hon'ble Member that since the abolition of the examination system, the gurus are remunerated in two ways, (1) by what we call subsistence allowance, and (2) by payments at the end of the year which are given at various rates determined by considerations such as attendance and the general character of the school. Of

course owing to the want of funds, the amount of these bonuses is small. At the same time it is not apparent what good would result if Rs. 10,000 were distributed among 30,000 gurus; each guru would receive about five annas only, and the money would be entirely wasted."

The Hon'ble Mr. DUKE said :-

"I am afraid that in the proposal for ways and means the Hon'ble Member has come up against even a harder rock than the Veterinary Department, because I may say that in estimating superannuation charges, we do not estimate wildly or for more than is tolerably certain to be required, and I have only got to remind the Council that we could not possibly refuse to pay any pension or gratuity which may become due under the Civil Service Regulations. It is in fact a contractual obligation. If our officers retire we are obliged by rule to pay them their pensions or gratuities to which they are entitled. I do not believe that it could possibly be suggested that we can offer them less or refuse them their pensions. It is therefore impossible that we should make any reduction on this."

The Hon'ble Babu Deba Prasad Sarbadhikari said :-

"I did not quite mean that five annas a head would be sufficient for the gurus, and thought that they might be given a more substantial bonus. However, as the rock of superannuation is unsurmountable, I think the gurus must go and along with them my Resolution."

The PRESIDENT said :-

"I take it that the Hon'ble Member desires to withdraw his Resolution."

The Resolution was then by leave of the President withdrawn.

The Hon'ble Babu Deba I'rasad Sarbadhikari moved the following Resolution :-

This Council recommends to the Lieutenant-Governor in Council

- (a) that a sum of Rs. 3,000, or such other sum as the Government think fit, be provided for strengthening the staff of the Bethune Bergero out in
- (b) that a sum of Rs. 3,000, or such other sum as the Government think fit, be provided for strengthening the Brahmo Girls' School, Calcutta; and
- (c) that the charges for employment of additional professors, etc.. in the Agricultural College, Sabaur (page 18 of the Financial Statement, paragraph 52) be reduced by Rs. 6,000.

He said :-

"Here I stand on a firmer rock such as I hope will induce all opposition to disappear and the question of ways and means will be gallantly solved. The relief to Your Honour's Educational Budget this year is however a phenomenally 'unearned increment,' and the resultant surplus should find its way through other necessary educational channels some of which I have indicated. How important and acute the education question is becoming will be abundantly clear from the great interest that all members of this Council are

taking in it and from the number of resolutions bearing on it.
"The Resolution in connection with the strengthening of the staff of the Bethune College was practically forced upon us during the current year, and it is desired to bring this matter prominently before this Council because the inspection report itself which has to pass in due course through the University will be long in coming before the Government. The Bethune College used to have teaching in Mathematics as a part of its College curriculum not long ago, and the results cannot be said to have been unsatisfactory. Curious as it may appear, sweet girl graduates seemed to take more affably to dry mathematics and scientific subjects than a mere male man is apt to give her credit for, either because of his sense of superiority or of ignorance that

Educational Secretary of the Government of India would be able to testify. I should much like it to be ensured against infant mortality, for it has a useful career before it. But the teaching of teachers is to my mind not the most important part of the work, and there is a still more important work in this direction which has not yet been attempted, and which I invite the Government to initiate as early as possible. In former years I had to direct my observations against growing inspection charges - observations which have largely been influenced by the consideration that education proper does not benefit by that inspection to the degree that would warrant the large expenditure, and that might fairly be expected under the circumstances. Not long ago the Hon'ble Rai Baikuntha Nath Sen Bahadur asked in this Council a question as to whether it was intended to take up the question of the training of inspecting officers, and the answer of the Hon'ble Mr. Cumming was that no scheme for training such officers has yet been prepared. As I read that answer, the Government may not be wholly oblivious of the necessity of having something done in this direction, so that full measure of work may be got out of the body of inspectors. As I read the answer it strikes me that though the scheme may not have been fully matured, some scheme is at hand. I see however no budget provision for the purpose, and it would be a help to all concerned if a definite provision was made and the scheme worked out according to the funds that would be at the disposal of the Director of Public Instruction. I trust that those who have unfortunately misunderstood my remarks of previous years with regard to the enhancement of inspection charges will appreciate that I am not opposed to these charges merely because they are inspection charges, but because I feel that education proper does not benefit thereby to the extent that we have a right to expect. In order that inspection may be a true help to teaching the inspecting officers themselves ought to have some grounding and training in teaching. I thought so in my own personal behalf when I took upon myself association in the management of schools and thought I was well and profitably employed in watching the interesting demonstrations in connection with the Training College, through the courtesy of the Director of Public Instruction and the Principal of the

There is one item of increase under the heading of expenditure which I notice with gratification in this connection. I have incidentally mentioned this item before, and it has reference to a question that I asked in this Council in February last, viz., with regard to the re-grading of inspectors that had been taken over from the District Boards who have been long working with an indefinite place in the new service and without being told as to what their status in the service exactly was. This expenditure will be a welcome addition to the inspecting charges, for it will really strengthen the inspecting machinery and bring us nearer to the time when according to the statement of the Hon'ble the Director of Public Instruction last year, inspecting charges should cease to grow as soon as the full machinety was equipped and in working order. And these rejuvenated inspecting officers would be all the worthier for the special training which I submit they ought to have. I ask for a second grant-in-aid because the David Hare Training College, which trains teachers in the secondary schools, will not be enough for all requirements, and teachers in charge of primary education require no less looking after than the teachers in the secondary schools. Schools like those at Entally and Bankipur require strengthening, and it is because of the necessity of this special nursing that I

seek to raise the budget allotment.

"I ask that this particular charge may be omitted. From enquiries I have found that the service of these Veterinary Surgeons are not so much in requisition as we are liable to think. District Boards, other public bodies or individuals that are supposed to require their services, I believe, are not quite as anxious to get them as they are represented to be. The Veterinary Surgeons have already been placed on a sound and strong footing, and they have now enough to go on with their requirements. If this particular grant was withheld, and if it was applied to a pressing need, I think our Veterinary institution will not largely and irretrievably suffer. It is for this reason that I selected this particular item for omission in order to strengthen the training colleges."

The Hon'ble Mr. Cumming said :-

"Sir, the Hon'ble Member desires that a sum of Rs 20,370 which has been allotted in the budget of the Scientific and other Minor Departments for the reorganization of the Veterinary Service should be omitted in order that a sum of Rs. 20,000 may be available for an educational project. I shall shortly mention the facts regarding this reorganization. The creation of the Subordinate Veterinary Service, which is ultimately to contain 229 Veterinary Assistants, two for each subdivision of the province, was sanctioned by the Secretary of State in August 1907. At present there are 76 such Assistants, and in the course of the development of this scheme Government propose to have 15 new appointments in 1911-12. The total provision under this head would then be Rs. 57,600, out of which a sum of Rs. 37,230 is expected to be recovered from the local bodies to whom the services of the Veterinary Assistants will be lent. The object of this scheme is a humane one; the scheme meets a real, existing demand for measures for the prevention and cure of the diseases of animals which form one of the chief assets of agriculturists. Moreover, it is a scheme in which Government and local bodies work in co-operation. In the interest therefore of the cultivators of this province and their cattle I would deprecate that there should be any check on the not unreasonable development of this very desirable scheme which, as I have said, has been fully sanctioned by the Secretary of State."

The PRESIDENT said :-

"Does the Hon'ble Mover wish to offer any remarks?"

The Hon'ble Babu Deba Prasad Sarbadhikari said :-

"I was expecting to hear some expression of opinion from the Hon'ble the Director of Public Instruction. I am met no doubt with the difficulty of the counterbalancing proposition, and, as the Hon'ble Babu Bhupendra Nath Basu pointed out, we are at a disadvantage not knowing exactly what sums may be available or not, even if a particular proposition commends itself to the Government. I quite realize that difficulty, but my disagreement 'with what has fallen from the Hon'ble Mr. Cumming is not likely to influence the Council much. I feel that is a difficulty. I cannot very well make it a question of cattle against inspecting officers, and if the Hon'ble Mr. Küchler, who seems to be beaming with joy because of his abundance, will be good enough to provide out of that abundance some little assistance towards the improvement that I advocate which really affects his department than outsiders, I should not press my resolution."

The Hon'ble Mr. KUCHLER said :-

"May I be permitted, Sir, to make a few remarks. I would like to point out to the Hon'ble Member that the Government of Bengal have already submitted to the Government of India a proposal for strengthening the staff of the David Hare Training College. But I would add that it would be impossible to admit private teachers until all the teachers in Government employ will have received training. I would also like to say a few words with regard to the remarks on the subject of the working of the inspecting staff. As a matter of fact the superior inspecting staff in the Indian Educational Service receive a course of training in England before they are sent out here, and with regard to the subordinate inspecting staff, there is already a system in vogue by which Deputy Inspectors and Sub-Inspectors are sent for a six weeks' course to the vernacular training schools. Of course, this system is not altogether satisfactory, but at the same time it is worth something, and I would also mention that the question of improving it is under my consideration."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :-

"I regret, Sir, that wild horses had to be employed in dragging this welcome information that the Hon'ble the Director of Public Instruction has been good enough to give me. My object was to draw attention to the prevailing state of things and the necessities of the situation which, I have no doubt, will be fully attended to."

is no less ridiculous. When I and my fellow-inspectors went round the cramped classes, all four practically crowded in one room divided by an arched partition, the one striking feature of demand was for the addition of a Mathematical chair, and girl after girl rose in her place when asked as to who would like to take mathematics if it was allowable. There used to be an excellent mathematical professor before and he has now been drafted on to head-master's work which he is doing equally excellently. The Inspectors and Lady Principal agreed that the same Mathematics Professor could be restored to his former place, and other and not very expensive arrangements might be made for taking his place in the school. There are other directions in which the strengthening of that college is absolutely needful. I shall not refer to the question of accommodation, for the Government realizes its need and has already got land that is awaiting a building as soon as funds are forthcoming. But if for want of suitable curriculum and suitable staff the College gets weakened in the meantime, there will not be much need for the building that the vacant land to the west of the college is awaiting.

"While the Bethune College is doing excellent work there is one other institution in the metropolis which also is doing excellent work in aid of secondary female education. I refer to the Brahmo Girls' School for which also I am asking for a small help.

"Their requirements are much larger than can be met by the Government grants which they already receive, and unless they get some more help they are wholly unable to carry on their good work. The suggestion for economy with regard to these grants affects the new Agricultural College at Sabour which is going to get strengthened its staff by, I believe, Rs. 18,000. I do not of course happen to know details of the arrangement proposed with regard to the strengthening, but I think that a fair start has been made in that college, and some more strengthening of the staff would be possible even if Rs. 6,000 of that allocation be taken out, as I suggest. Such reduction is not likely to hurt the college, but will benefit two very deserving educational institutions ntended for the advancement of female education."

The Hon'ble MR. KUCHLER said :-

"Sir, the appointment of a Professor of Mathematics which is apparently the one contemplated by the Hon'ble Member has already been pressed upon me for several years by certain well-wishers of the Bethune College. The reasons which have determined me not to recommend this particular addition to Government are the following:—First, that the relative expensiveness of the Bethune College, in that the proportion to professors to students is one to five, making it necessary to limit the number of subjects, secondly if it be granted that such a restriction is necessary, it seems to me that mathematics is one of the most suitable subjects that can be left out of the curriculum. The arrangements to which the Hon'ble Member has referred to, as emanating from the Lady Principal, cannot be founded upon his experience with regard to these matters which he must have gained as a member of the Syndicate. The Syndicate will insist if the College is affiliated in mathematics on the full time services of one Professor and the half-time services of another, and therefore I cannot understand what are the comparatively inexpensive arrangements which the Lady Principal is supposed to have suggested. Then, again, when mathematics was taught in the College, it was a most unpopular subject, and I must say that this sudden alleged demand for mathematics seems to me extremely suspicious. In fact I am almost inclined to attribute it to the contrarity of the female mind in desiring what is forbidden.

"With regard to the second proposal by the Hon'ble Member, I may point out that the Brahmo Girls' School already gets a liberal grant from Government, viz., Rs. 500 a month. I do not think under the circumstances and also considering the limited sum which is at my disposal for grants-in-aid it is possible to accept the proposal made by the Hon'ble Member."

The Hon'ble Mr. CUMMING said:-

"Sir, the Hon'ble Member has proposed to reduce the allotment for the staff of the Bengal Agricultural College, Sabour, by a sum of Rs. 6,000. In making this proposal the Hon'ble Member is, I think, under the impression that new officers are to be appointed. The provision of Rs. 6,000 has not been made for new officers, but for the pay of existing officers. One of them was recently appointed and others are entitled to receive certain increments of pay after 18 months' probation. There are four such officers who have returned from training in America. It is therefore hardly possible to make the deduction proposed."

The Resolution was then put and lost.

The Hon'ble MR. DIP NARAYAN SINGH moved the following Resoution:-

This Council recommends to the Lieutenant-Governor in Council that a Committee, consisting of six non-official and four official members, be appointed to frame definite proposals for the disposal of the sum of Rs. 12 lakhs (portion of the special grant from the Government of India) permitted to be spent this year for educational purposes, subject to such conditions as the Government of India may be pleased to lay down.

He said :-

"I do not think that many words are necessary to recommend this resolution to the Council. The position is this—we have been fortunate enough to receive Rs. 12,00,000 (portion of the special grant from the Government of India), to be spent this year for educational purposes, subject to certain rules and conditions. These were not made known to us till to-day. I submit, gentlemen, that these conditions are elastic enough to allow my resolution to stand. This is the only time when resolutions can be put forward with regard to the different heads in the Budget, and it is in order that non-official members may not lose the opportunity of expressing their opinion—of submitting their views, on the question of the disposal of this large amount of money, that I have ventured to bring forward this resolution to-day. I am of opinion that the hands of Government will also be strengthened if non-official opinion and the views of the public at large are allowed some voice in the expenditure of this sum. I am not very particular as to the exact proportion of official and non-official members that should go to form the Committee. So long as I am assured, that the non-official element will be fairly largely represented on the Committee, I am not unwilling to modify my resolution for its acceptance by the Government. With these few words I beg to place my resolution before the Council."

The Hon'ble MR. KUCHLER said :-

"With regard to the Resolution moved by the Hon'ble Mr. Dip Narayan Singh, I am authorized to state that the Government is prepared to accept the Resolution provided that the Hon'ble Member leaves the constitution of the Committee and the terms of reference to Government."

The Hon'ble Mr. DIP NARAYAN SINGH said :--

"I am glad to do so with the hope that the public will be allowed to have a fairly large measure of voice in the Committee."

The PRESIDENT said :-

"I will gladly give that assurance. The Hon'ble Member has proposed six non-official and four official members. I am not prepared to accept this proportion. With the modifications proposed by the Hon'ble Mr. Küchler the Resolution is accepted by the Government."

The Resolution was put in the following form and agreed to:-

This Council recommends to the Lieutenant-Governor in Council that a committee be appointed to frame definite proposals for the disposal of the special grant of Rs. 24½ lakhs made by the Government of India for the purposes of education.

The Hon'ble Mr. Slacke introduced the following heads :-

Revenue-

XX-Medical.

Expenditure-

24. Medical.

He said :-

"On the receipt side, the revised budget, which amounts to Rs. 3,45,000 shows an improvement of Rs. 47,000 over the budget for 1910-11, which is mainly due to larger receipts from fees in the Medical College and to a special payment by the Port Commissioners for the Clayton fumigating apparatus, which was indented for by Government on their behalf. The budget for 1911-12 has been taken at Rs. 3,29,000. A further small enhancement under Medical College fees is anticipated, but the receipts from paying patients are slightly less than in the revised, and the special payment referred to from the Port

Commissioners will not be repeated.

"Turning to the expenditure the Revised Estimate amounts to Rs. 23,74,000, which is Rs. 1,42,000 less than the budget. No orders were received from the Government of India as to the proposals for the improvement of the prospects of Civil Assistant Surgeons, for which a provision of Rs. 41,000 had been made. The delay is to be regretted, but the provision has been repeated in 1911-12, and it is hoped that orders will not be longer delayed. Further there were savings under salaries and under supplies and services. The budget for 1911-12 has been placed at Rs. 25,13,000 which is Rs. 16,000 less than the figure of the previous year. The most important new departure is represented by the provision of Rs. 14,400 for the special malaria enquiry. As the outcome of the Simla Malaria Conference, a Provincial Committee has been constituted for the supervision of systematic enquiries into the prevalence of this disease. This body will work in consultation with the Central Committee which the Government of India have appointed, and a special officer of the Indian Medical Service, with a subordinate staff, has been placed at its disposal. It is hoped that by continuous investigations upon the lines indicated by the Central Committee something will in time be done towards coping with this scourge. The item of Rs. 5,000 for commission to Civil Surgeons' clerks upon sales of quinine is part of the arrangement recently made to decentralise the distribution of quinine, with the object of popularising its use. District depôts under the supervision of Civil Surgeons have now been opened, and additional work has thus devolved upon their staff. The important work of the analysis of water samples has now been entrusted to the Sanitary Commissioner in place of the Chemical Examiner and the Professor of Pathology at the Medical College, and a small laboratory and two assistants have been placed at his disposal. It is proposed to revise the pay in the office of the Sanitary Commissioner and a scale of allowances, as explained recently in answer to a question of the Hon'ble Babu Deba Prasad Sarbhadhikari, has been sanctioned for the assistants to the Chemical Examiner. The pay of the warders attached to the Berhampore Lunatic Asylum has been increased in order to attract a better class of men. The sum of Rs. 13,000 has been provided as a grant to the Lewis Jubilee Sanitarium, Darjeeling, to assist in an extension of the buildings. Lastly the provision for grants-in-aid towards plague expenditure has been reduced to Rs. 35,000, in comparison with Rs. 48,500 in the budget for the

current year.

"The entries as regards buildings of the Medical Department are included in the Public Works Budget. The programme for the year is not an ambitious one, but the state of the finances has precluded a larger outlay. The fourth block at the Medical College will be completed and fencing and hydrants will be erected in the compound. A residence will be constructed for the Civil Surgeon of Purulia, a station in which great difficulties exist at present in the way of housing accommodation, while the small hospital at Barrack-pore for police cases is to meet a want which has long been felt. The hostel for female students at the Temple Medical School is calculated to encourage

their attendance by providing them with properly supervised accommodation which is now lacking, while the sum of Rs. 5,000 for the medical officer's quarters at the Burdwan Hospital is really a grant-in-aid towards the total expenditure of Rs. 15,000, the balance of which will be raised by the generosity of the Maharajadhiraja Bahadur to whose efforts the erection of the new hospital is largely due."

The Hon'ble Maharaja Manindra Chandra Nandi moved the following Resolution:—

- This Council recommends to the Lieutenant-Governor in Council that the provision under "24—Medical" for anti-malarial work be increased by two lakhs, a corresponding reduction being made in the lump provision under "45—Civil Works in charge of the Civil Department" for grants for works of sanitary improvement, and that out of this sum—
 - (a) one lakh of rupees should be reserved and earmarked for the carrying out of experiments for the suppression of malaria, on the lines of experiments made within recent times in America and in Italy and other European countries, and
 - (b) another lakh of rupees should be reserved for and applied towards the re-excavation and silt clearing, by the District Boards, of small channels for the outflow of water from villages where such channels have been silted up or entirely clogged.

He said:--

May it please Your Honour—Before I advance any ground in support of the amendments that stand against my name I must reiterate the thanks to the Government of India that have already been expressed here and elsewhere for their liberal grant towards Sanitation and Education. This grant will enable your Government to take up much desired schemes in these two directions—schemes which, when perfected, will be productive of incalculable benefit to your Province. We only hope that such grant will be continued from year to year, and increased too in future years, as your Government establishes its claims by the judicious application of such grant.

"I now proceed to lay before Your Honour, in short, my reasons for the amendments I propose. The scourge of malaria is by far the greatest calamity of the country. It has sapped the energy of the nation, brought untold miseries at the door of every section of the community, and in particular to the under-fed cultivator, the poor artisan, and the homeless beggar. It is a scourge that has now spread far and wide from its original centres; it is one which is no longer peculiar to any subdivision, district or division but which is everywhere to be found, not excepting well regulated municipal areas, not excepting even the metropolis of British India. Populous villages and cities on the banks of the Ganges, which fifty years ago were well-known health-resorts, have been depopulated; palatial buildings have been converted into masses of ruins, overgrowth with wild trees, and rank creepers; tanks, once the pride of their pious excavators, have, through inattention, caused by the depopulation of impoverished villages, been turned into hatching grounds of anophœlia and other insects that harbour malarious germs. The attempt of Government to combat this mighty giant is highly laudable; but he cannot be overpowered by. a small force and his ways and manners cannot be properly studied, with the object of his subjection, except by a large and competent army of scientific men Other countries in both the old and the new worlds have entered into elaborate schemes for combating this monster, by draining off marshly lands, by killing the germ-developing insects in their brooding season and by taking other precautionary measures. Scientific experiments on an elaborate scale are also conducted in other countries for the discovery of preventives and remedies and have begun

to bear fruit. Let our resources be therefore equal to our needs and let us shew that the tax we gather from the cultivator and the artisan is partly devoted to the amelioration of the sufferings brought on them by this deadful monster.

"The latter part of my first amendment also aims at the same view. It will have direct operation in suppressing malarious fever in water-logged villages while its indirect effect in promoting irrigation and cultivation is also not to be lost sight of. It is truly said that the construction of railways has largely impeded the natural outflow of water, has clogged all minor water-channels, that the railway bridges have silted up many a navigable river, that the course of some have been diverted by reason of the main channels having been silted up and that embankments erected for protecting railways have been additional causes for the prevention of the natural outflow of water and are fruitful and ever-growing causes for the increase of malarious fevers. What was once confined to villages, what was once never heard of beyond certain districts, soon spread all over Bengal and has been committing untold ravages in spite of quinine and the facilities for better medical treatment. In spite of all attempts to confine the scourge to the low marshes of its original birth it is now found in well known health-resorts in Bihar such as Dehri-on-Sone and Arrah and has established itself in the far off cities of the Punjab."

The Hon'ble Mr. Slacke said :-

"The Hon'ble Member proposes a transfer of a budget provision of two lakhs with the object of stimulating action for the prevention of malaria. The measures which are undertaken with that end in view are of a two fold character, namely, those concerned with the distribution of quinine and those connected with schemes of drainage and sanitary improvement. The special budget provision of Rs. 20,552 on page 11 of the schedule attached to the Amended Draft Financial Statement has reference rather to the machinery for inquiry into the prevalence of malaria and the best means by which to combat it. I have just stated in introducing the medical portion of the budget what has been done to create a Provincial Malaria Committee. The necessary provision has been made for the medical officer serving under this Committee and his subordinate staff, and although it is possible that the need will be found of adding to and improving this machinery, the immediate requirements as formulated by this Committee have been met, and pending further experience of the course investigation should take, it is needless to set apart further sums for this purpose.

"As regards measures connected with the sale of quinine, the system of distribution has recently been overhauled, and district depôts have been established ander Civil Surgeons which will, it is hoped, stimulate the demand. The Simla Malaria Conference deprecated the free distribution of quinine, except in the case of severe epidemics, and there is no intention of attempting this upon a general scale. Nevertheless it has been the practice since 1908 (and the results appear to justify its continuance) to depute medical subordinates for special duty during the fever season to specially malarious areas, and these men dispense the drug free, while a small experiment was tried in Purnea of giving quinine free to the less highly paid Government servants. The various Railway administrations have been urged to extend the distribution of quinine among their subordinates, although some of them already take action upon these lines. An experiment is about to be tried with the sale of quinine made up in treatments in place of doses, following the example of Eastern Bengal and Assam and the issue of quinine in tablets, as well as in the usual powder form, is a recent innovation which seems to be popular. Government is anxious to do all that it can to popularise the use of quinine, and if any well devised suggestion can be made to that end, such will gladly be considered, but there is no present need to make a further large budget provision on this account, and it will be seen from the statement in paragraph 59 of the detailed notes accompanying the revised financial statement that expenditure of this nature is at present met from the lump grant for sanitary improvements. This can

be done again if necessary, and so long as the provision remains as a lump allotment, nothing is gained by transferring a portion of it to another head.

"For the same reason, there is no object in making such transfer in order that sanitary drainage schemes may be undertaken towards the prevention of malaria. If proposals on the lines indicated by the Hon'ble Member are formulated during the year, and accepted by Government (and in the absence of definite schemes it is useless to discuss details), it will be possible to finance them, in whatever proportion may be decided upon, upon the Budget as it stands. For instance, during 1901-11, Government has already, from the grant for sanitary improvements, assisted the Bagjola and the Bistupur Bhil drainage schemes, and proposes to help that for the Nawi-Sunthi, all of which projects were recommended by the Drainage Committee who investigated the matter solely from the point of view of the prevention of malaria.

"The wish which underlies the Resolution of the Hon'ble Member has been met in a substantial manner by the enhancement of the ordinary grant for sanitary improvements from $4\frac{1}{2}$ lakes to $9\frac{1}{2}$, and to that extent aid can be given to any measures for the relief of malaria which are elaborated during the year and accepted as sound. In moving the Resolution, the Hon'ble Member has possibly been misled by the fact that the provision for sanitary improvements appears in the Budget for Civil Works in charge of the Civil Department, and not under Medical, but this is merely a matter of accounts, and the change he proposes (as interpreted above) is not necessary even if it were decided to give effect to his wishes to the full amount of the expenditure indicated by him. I cannot, therefore, advise the Council for the reasons I have given to adopt this resolution."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Dip Narayan Singh moved the following Resolution :-

This Council recommends to the Lieutenant-Governor in Council that a Committee, consisting of six non-official and four official Members, be appointed to frame definite proposals for the disposal of the sum of Rs. 5 lakhs (portion of the special grant from the Government of India) permitted to be spent this year for purposes of sanitation subject to such conditions as the Government of India may be pleased to lay down. of the monages conserved what he saw or quante, and district destination of the off bean

variablished ander Civil Surgerns which wilk it is knowd, at "This is similar to my resolution regarding education, and subject to the same modifications as proposed by the Hon'ble Mr. Küchler, I think this resolution will be acceptable to the Government." and the results uppear to justify its continuance to depute medical subsrdi-

The President said: - . Doubs avel and much with lines to bester

"I am afraid that there is a difference in the situation as regards this resolution and the former one. It is probable that Government will have reasons for not accepting this resolution. If, therefore, the Hon'ble Member has anything to say on the subject, we will hear him."

The Hon'ble Maulyi Saiyid Muhammad Fakr-ud-din said:-

"I beg to support this resolution, Sir. The resolution is so very reasonable and sensible that no argument is necessary to support it. Your Honour was perfectly right in accepting the similar resolution about education, and we hope that this resolution will also be accepted at least with similar modifi-cations. This resolution is perfectly innocent and the views of the Committee will enlighten and enable Your Honour's Government to make the expenses under this head on a more satisfactory basis."

The Hon'ble Khan Bahadur Maulvi Sarfaraz Hussain, Khan Bahadur said:—

"I beg, Sir, also to support this resolution, and in supporting it, I wish to say a few words. The non-official members should have voice at least in the disposal of this fund. The Finance Committee was appointed for this purpose. And moreover, if the non-official members have some voice in the disposal of the fund, it will strengthen the hands of the Government. I am afraid there is a feeling that the non-official members are not consulted in matters of finance. Whatever voice they may have, it comes to nothing. I hope the Government will give due weight to that feeling, and act accordingly. With these few words, Sir, I beg to support the resolution."

The Hon'ble Mr. SAYID WASI AHMAD said:

"I will only say one word, Sir. This resolution directly refers to the sanitation question, and if we are to have absolutely no voice when the allotments are made under this head, we shall be losing a great chance. To my mind it is fair proposal that the non-official members should sit in Committee to discuss questions affecting sanitation. I hope, Sir, that the resolution would be duly considered by all the non-official members present here, and I see no reason why it should not be accepted by the Government. When a similar resolution by the Hon'ble Mr. Dip Narayan Singh has already been accepted with certain modifications, I do not see why the Government should raise any objection to its acceptance."

The Hon'ble Mr. SLACKE said:

"This Resolution, though confined to the special grant of Rs. 5 lakhs which has been given by the Government of India in the revised estimate for works of sanitary improvement in towns, might as well have included the other special grant of Rs. 4½ lakhs which since 1908-09 has been made annually for sanitary improvements generally, since the difficulties underlying the distribution of both allotments are the same. These were briefly indicated by the Financial Secretary in connection with the Revised Financial Statement for 1910-11, and they arise from the fact that it is not the case that the development of sanitation has as yet reached a stage in this Province in which there is a long list of fully considered schemes, towards which those locally interested are willing to contribute defined amounts, and which are only waiting a contribution from Government to enable them to be taken in hand. Were this the case the advice of a Committee might well be sought as to the selection of one project in priority to another, but even then this duty would fall within the province of the Finance Committee of Council, and there would be no necessity to convene a special body for such a purpose. It is not merely the fact that intimation of the recent grant from the Government of India was received at a late date, which has prevented the opinion of the Finance Committee being obtained in this connection. The real obstacle is in the absence of such a pending list of fully matured schemes. In connection tion with all projects of water-supply and drainage there are three main stages. A rough scheme has to be initiated by the local authority concerned, and a decision come to as to how it will be taken up and as to the manner in which it will be financed. To take the simplest case of a municipal work, the municipality has to decide how much it can afford to spend out of its ordinary revenue; how much it can afford to raise by way of loan; how much it can expect from the local liberality of private donors, and how much it desires to ask Government to contribute. This last amount must be in reasonable proportion to the contributions from other sources; Government does not, and cannot, undertake the whole cost of such works. After these details have been settled, and the scheme has been approved by the technical advisers of Government, the details have to be worked out, with the assistance of the Sanitary Engineer, and should the estimates show a material departure from the original rough plans, the financial position may possibly have to be reconsidered. Finally the whole proposal has to receive the approval of Government and the contributions from different sources realised. In a work undertaken under the Sanitary Drainage Act there would, of course, be other complications, which would still further protract matters. However, the general argument applies and the important point is that the Local Government is not now in a position to say what schemes will pass satisfactorily through these different stages in the course of the year. So much depends upon local difficulties, and sometimes upon local jealousies and apathy, that it cannot be foretold that a particular project will be pushed through in the course of the year. Government can only deal with the projects that come up, and it rests largely with the local authorities to ensure that they are sent up. If, therefore, a Committee was appointed as proposed, it would not be possible for them to make final recommendations. The Sanitary Engineer would state the projects upon which he is working and the different stages at which each has arrived, but it would not be expedient to attempt now to earmark the grant for particular works. This might only result in a large portion of it lapsing at the end of the year. During the current and preceding years the Local Government at the commencement of the year caused enquiry to be made as to the schemes which were in a fair stage of progress, and then took steps to urge the local authorities to submit proposals. Presumably similar action will be taken during 1911-12, but the proceedings of a Committee would scarcely help. If any Hon'ble Member knows of any scheme which he desires to see undertaken, his best course is to co-operate with the local authority concerned in securing that practicable proposals are sent up, and the larger grant at the disposal of Government during the current year will enable a larger measure of assistance to be given. But a Committee seems scarcely called for, and were there a place for it in the present procedure, the duty of submitting recommendations should more properly lie with the Finance Committee of Council.

"I trust therefore that Hon'ble Member for these reasons will recognise

that this Resolution should not be adopted."

THE PRESIDENT said :-

"The plain truth is that if we appoint a Committee as the Hon'ble Member proposes, there is great danger that the grant that is given for expenditure in the ensuing year will not be spent within the year. There is not, as the Hon'ble Mr. Slacke says, a list of projects before Government which are fully matured and ready for immediate execution. I think that all that the Committee would be able to do, would be to call for projects and consider them; that would take an interminable time. I think the Hon'ble Members would do well to take the advice of the Hon'ble Mr. Slacke, and that whenever they know of any likely project being considered by the local authorities, they should do what they can to urge that project on in order that it may be submitted for the further consideration of Government at the earliest possible date."

The Hon'ble Mr. DIP NARAYAN SINGH said:-

"I think, Sir, it will be very difficult for Government to make out a case that when non-official members have been allowed a voice in the disposal of a certain amount for education why a similar privilege should not be extended to them in the disposal of the same five lakhs for sanitary purposes. Non-official members ought surely to have their say in this matter also; I submit that as the detailed expenditure of this sum has not been shown in the Financial Statement, we ought to be allowed to have some voice in the disposal of this amount. The measure which I propose is a mild one. The Committee is to consist of four officials and six non-officials, who will have power to frame proposals for the disposal of this sum. I cannot really see what opposition this resolution can meet with. I am certain that all my colleagues will support it. I hope the Government will accept it also with the modifications that were made in my resolution regarding education. With these few words I beg to submit this resolution for Your Honour's consideration."

THE PRESIDENT said :-

"The difficulty is that schemes come dropping in from time to time during the year. There are some schemes which we know are practicable, others are not so. It will be very difficult to hang up all these schemes for six months

or more. I am afraid it is difficult to give effect to the wishes of the Hon'ble Member. If we had schemes in preparation, a year hence the Hon'ble Member's proposals would be practical. But this is not the case. We have already found difficulty in providing for the satisfactory expenditure of the grant of 4½ lakhs which we have had for some years. If we are going to appoint a Committee in connection with the additional grant of 14s. five lakhs there will be great practical difficulties over this."

The Hon'ble Mr. DIP NARAYAN SINGH said :-

"When these schemes of different sanitary projects are ready in the course of six months, will the Government be then pleased to form a Committee for determining as to which should be selected. This, I think, will not hamper in any way the hands of Government. It will also have the advantage of giving more satisfaction to the public than the other course of allotting sums of money to carry out schemes formulated directly by the Government.'

The President said :-

"The Hon'ble Member is well advised. We entirely appreciate the object which he had in view and we shall do what we can to give effect to it, but not in the form in which he proposes."

The Hon'ble Mr. DIP NARAYAN SINGH said :-

"Having regard to what has been said by the President, I withdraw this resolution."

The Resolution was then, by leave of the President, withdrawn.

The Hon'ble RAI KISORI LAL GOSWAMI BAHADUR introduced the following heads :-

REVENUE-

X-Registration.

and of the part Expenditors - when the part of the vilinger on the day of his

12. Registration.

He said :-

"The receipts under the head of Registration is estimated at Rs. 13,26,000, against the estimate of 1910-11 on that head, amounting to Rs. 14,87,000. On the basis of actuals of the first nine months of 1910-11, the revised estimate has been placed at Rs. 12,75,000. The receipts under Registration rises and falls in an inverse ratio to the agricultural prosperity or adversity of the Province. The comparatively good harvest of the year 1910-11 accounts for the diminution of the anticipated receipts-a circumstance which is not a matter of regret. The estimate before us has been made in the hope that the agricultural conditions of the Province will continue to be favourable, after making due allowance for the normal growth of revenue and the additional fees to be earned by the new registration offices to be opened shortly. The receipts of this Department being wholly provincial, the excess of receipts over expenditure goes to benefit the Province in matters unconnected with registration.

"The expenditure of the year has been estimated at Rs. 7,89,000, against Rs. 7,77,000, being the revised estimate for 1910-11 on the basis of actuals of the first nine months of that year'.

"I invite attention to page 7 of the Revised Financial Statement from which the Hon'ble Members will see that, in pursuance of the policy to better the pay and prospects of the Ministerial officers, we have provided an additional recurring charge of Rs. 8,886 for the revision of establishments of several registration offices. A further sum of Rs. 6,000, which is also a recurring charge, has been provided, as you will find on page 4 of the schedule of new schemes, for the revision of the establishment of the office of the Inspector-General of Registration.

"We have also been able to provide Rs. 35,000 for a new District Registra-tion office building in Khulna. There are various other projects, notably the building of registration offices in rural areas where decent houses are not available, which are demanding our earnest attention and which will be taken in hand so soon as the financial position of the Province improves.

The Hostis Liv. Liv. Markey Care and Strong Committee Co

The Hon'ble Mr. Duke introduced the following heads:

Revenue-

XXIII—Stationery and Printing.

Expenditure—

30. Stationery and Printing.

"The Revised Estimate of receipts shows a small improvement of Rs. 7,000 which is due to larger receipts from the sale of official publications. The Budget is taken at Rs. 1,42,000, which is Rs. 1,000 only in excess of the in the form in which he proposes. Revised.

money to carry out solutions formula of a settly by the Covernment.

"On the expenditure side the Revised shows a saving of Rs. 1,33,000, as it is anticipated that less will be spent than was originally provided on the establishment of the Secretariat Press and on stationery supplied from the central stores. The Budget for 1911-12 has been placed at Rs. 13,39,000, which is Rs. 56,000 more than the Revised, but Rs. 77,000 less than the Budget of the current year. Economies are expected under the same two heads as have just been mentioned in the case of the Revised. The only new item of importance is the proposal for the revision of the establishment in the Jail Press on the lines already adopted in the case of the Secretariat Press, which is estimated to involve an additional outlay of Rs. 9,664 per annum.

"It is hoped that work upon the press block at the new Alipore Jail will be pushed on rapidly, and provision has been made on this account in the Public Works Budget of Rs. 1 lakh in the Revised and Rs. 3 lakhs in the Estimates for 1911-12."

The Hon'ble Mr. Slacke introduced the following heads:-

Revenue-

the business of actions of the mit XXIX—Irrigation : Major Works. XXX—Minor Works and Navigation.

Expenditure-

- 42. Irrigation: Major Works-Working Expenses.
- 43. Minor Works and Navigation.

He said :-

"When introducing last year the Budget relating to irrigation works, the Hon'ble Member in charge explained to this Council the differences between protective, productive and minor works, and I will not, therefore, take up the time of this Council by recapitulating what was then said. The protective works are the Triberi and Dhaka canals in the district of Champaran. The Dhaka canal was opened for irrigation in 1906-07. The Tribeni canal is still under construction, but will, it is hoped, be completed by June 1912. A portion will, however, be opened for irrigation from the year 1911-12, and the receipts from, and the working expenses on, the completed portion will be provincialised, the interest charges being, however, treated as Imperial. This arrangement is to remain in force till 1912-13, when the whole question will again be considered.

"The works classed as productive are the Sone, Orissa, Midnapore and Hijili tidal canals. Unfortunately, none of the works in Bengal classed as productive have realised expectations. During the past few years, the net revenue from the Sone canal has been just sufficient to cover interest charges, but the gross revenue from the Orissa, Midnapore and Hijili tidal canals has only been slightly in excess of the working expenses. The net result is that these works now impose a burden of about 8 lakhs per annum on the Provincial Revenues. This, however, is better than the state of things four years ago, when the amount was over 10 lakhs. The revenue derived from these canals is chiefly from the rates levied for the irrigation of the rice crop, that under rabi being small except on the Sone canal. The revenue derived from tolls for navigation has in recent years considerably decreased owing to the competition of railways. The area of rice irrigation does not now fluctuate much, and that of rabi depends on the autumn rainfall. The area of rice now under irrigation is nearly the maximum which can be irrigated with the supply of water available. Every endeavour has been made to teach the cultivators to be more economical in the use of water, but only slow progress in this direction can be expected. The working expenses of the canals have been reduced to a minimum. The only method therefore of increasing the receipts and thereby decreasing the burden on provincial revenue is to increase the rates levied for irrigation. These are very low on the Orissa and Midnapore canals. It will, therefore, be a matter for the consideration of Government to what extent the rates in the irrigated tracts can be increased. It must, however, be remembered that these canals constitute a valuable protection from famine and avoid the necessity of expenditure in relief works in years of drought. The area irrigated from the Sone Canal during the triennium ending 1909—11 averaged 622,000 acres yearly.

"Owing to an early good rainfall, the receip

"Owing to an early good rainfall, the receipts from major works will be slightly less than the Budget estimate. The decrease is chiefly in the Sone canal. From minor works and navigation, the receipts of which are shown under Budget head XXX, the chief source of revenue is from the tolls from navigation on the Calcutta and Eastern canals. These canals, which are partly artificial channels and partly improved and conserved tidal creeks form the navigable routes for boats and inland steamers between Calcutta and Eastern Bengal. The capital expenditure debited to it up to date is about 85 lakhs. The gross revenue which averaged about 5 lakhs fell off considerably in 1909-10 owing to the damage which the cyclone of October 1909 did to boats and to a portion of the canal between Bamanghata and Khulti being closed for silt clearance. The expectation that during the current year the receipts will be better owing to the opening in June last of the new chord canal between Ultadanga and Bamanghata has not been realised, owing chiefly to the closure of the Bhangore Khal and the Chitpur lock for urgent repairs. The new canal, I have referred to, is 10 miles long and is called the Kristopur canal. It is a convenience to boats using these canals as it gives a still water reach from Chitpur to Khulti, a distance of 27 miles, thus avoiding the delay which used to occur in the tidal channel between Dhappa and Bamanghata. The Madaripur Bhil route, a channel connecting the Podda and Madhumati rivers, is now treated as a separate project. It is being deepened so as to make it navigable for inland steamers throughout the year. About two-thirds of the work of deepening the channel will be completed by this month, and it is expected that the whole length of the channel will be finished by March next. It is hoped that the net revenue will suffice to pay 4 per cent. on the capital expended. The distance by this route from Naraingunge to Khulna is 100 miles less than by the present dry weather route via Barisal. This channel continues t

expenditure on minor works and navigation which is shown under Budget head 43 will be less than estimated. The decrease is principally owing to agricultural repairs and establishment. The revised estimate includes a provision of Rs. 30,000 for the Bagjola drainage scheme in the 24-Parganas. This expen-This scheme was diture is being met from the sanitary improvement grant. examined into and endorsed by the Drainage Committee and is one for draining a water-logged tract of about 22½ square miles to the north of Calcutta. Owing to the fact that numerous local bodies were interested, it was decided that Government should construct the main drain at a cost of Rs. 1,28,439 leaving such local bodies to provide the necessary subsidiary channels. As no new works are under contemplation, the amount provided for expenditure during the coming year on minor works and navigation under budget head 43 is less than that of previous years. Provision is made for extending the existing and constructing new minor distributaries so as to facilitate irrigation from the Orissa canal, for constructing dispensaries and quarters that are urgently required for the revenue establishment employed on the Sone canal and for completing minor distributaries, also for carrying on the work of improvement of the Madaripur Bhil Route. For training works on the Ganges in order to improve the navigation of this river in the dry season the sum of Rs. 40,000 is again provided. Similar work was carried out in 1903-04 to 1905-06 to the

benefit of the steamers and boats using this river.

"For completing the lock at Ultabagh on the Peali river, the construction of which was commenced during the current year, Rs. 50,000 have been provided. The estimated cost was Rs. 81,000. This lock will give access to boats coming from the Sunderbunds and eastern channels through the channel in the Magra Hât scheme. There is a considerable trade chiefly in paddy between the Sunderbunds and Magra Hât, but at present it is much hampered for want of through communication for boats. The toll, which will be levied on boats passing through this lock, will, it is hoped, suffice to cover the maintenance charges and interest on capital. The Magra Hat drainage scheme, the benefits of which have already been stated in this Council, will, it is expected, be completed during the coming year. The cost of deepening the ontfall channels of the Khas Tehsil Khals in the Midnapore district is estimated to amount to Rs. 64,000. This expenditure will be spread over three years, and Rs. 25,000 have been allotted in the coming year. It is a work which will greatly benefit the agriculturists of the tracts concerned. For the completion of special repairs of the embankments in Midnapore, Rs. 75,000 have been provided and Rs. 245,000 for improving the Bailaghye drain also Rs. 53,000 for vided, and Rs. 2,45,000 for improving the Bailaghye drain, also Rs. 53,000 for constructing sluices and gates in the Government embankments in Orissa. The amounts provided for the maintenance of the canals and drainage works and for the takavi and Government embankments are normal It will be neticed that certain amounts under minor works are put down as in charge of the Civil Department. These are for the most part connected with the Embankment Act.

It being 6 o'clock, the President took the sense of the Council as to whether the meeting should be adjourned or should continue until the business on the list be finished. The Council preferring the latter course, the consideration of the business on the list was continued.

The Hon'ble Babu Deba Prasad Sarbadhikari moved the following Resolution :-

This Council recommends to the Lieutenant-Governor in Council-

- (a) that a sum of rupees two lakhs, or such other sum as the Government think fit, be provided for undertaking work in connection with the relief of the flooded Begua Hana tracts; and
- (b) that the provision of two lakhs of rupees* for the new Central Jail at Monghyr (page 20 of the Financial Statement) be omitted from the Budget.

^{*} The provision in the amended Draft Financial Statement was Rs. & lakhs. In the Revised Financial Statement it is Rs. 370,000.

The following speech in support of this Resolution having been circulated to all Mcmbers of the Council before the meeting, it was, by order of the President under rule 34(2), taken as read:—

"In this connection I need not go over the whole of the ground that was gone over last year, for the remarks of the Hon'ble the Maharajadhiraja Bahadur of Burdwan, the Hon'ble Babu Bhupendra Nath Basu and myself, made it quite clear that something definite and expeditious was imperatively necessary for relief of the affected tracts. The Government did not dispute this position, and Your Honour was pleased to remark that there was a case of inquiry, though the specific proposition put forward in my resolution at the time was considered to be inappropriate. The resolution was withdrawn on the understanding that further inquiries would be made by the rublic Works Department. Though several months passed and the season of trouble was approaching anew, the public had no idea as to what was being done or likely to be done about the matter. Shortly after the withdrawal of my resolution, the British Indian Association, which naturally takes great interest in these matters, addressed to the Government a representation, in which they pointed out as follows:—

"The loss of life of men and cattle and the damage to houses and crops, which have been caused almost annually by the floods of the Damudar river ever since portions of the public embankment on its west bank were abandoned in the fifties of the last century, have been a standing grievance of the people of a large number of villages. Their complaints and representations have been heretofore unavailing. The investigations regarding remedial measures made by Mr. Hern in 1902, and the sympathetic report submitted by him, have, the Committee understand, induced Government to devote their attention to the subject and to consider what could be done to afford relief to a large

number of affected villages.

"The evil is caused by the bed of the Damudar having silted up and its channel baving become too narrow to carry down the large volumes of water which flow into it during the monsoons. The volume and force of the water have gradually eaten into the land, and the flood spill, after leaving the old bed of the Damudar and finding its way through the breach at Begua, has brought into existence a river which, commencing at Begua and travelling over a distance of 30 miles, discharges itself into the Roopnarain

at Pansuili.

"If this new arm of the Damudar, now known as the Begua khal, be maintained in an efficient condition, much of the damage could be averted. But the khal itself has been rapidly silting up during recent years, and the process has been accelerated and the evil accentuated by that physical law which makes it possible for the sand portion of the detritus to go on increasing till the mouth of the river is reached. It is furthermore a fact of common knowledge that the catchment-basin of the Damudar, impaired as it has been by the Railway bridge at Kola, has been rendered insufficient for receiving the surplus flood discharge of all the rivers and tributaries which fall into it.

"In these circumstances, the Committee submit that Mr. Horn's recommendations be fully given effect to, and that for that purpose the Begua breach be provided with a weir so as to help the flood waters of the Damudar to leave its new channel and seek its abandoned bed, and that the Kana nadi, which serves as an effective conduit, be connected with the Roopnarain at Baksi by cutting a small canal."

"I am not prepared to put the technical aspect of the situation as enumerated by the Association against that set forth by the advisers of the Government. The Association may be wrong with regard to the exact scope of Mr. Horn's recommendations, their effect and their practicability. As a matter of fact, I believe Mr. Horn's scheme of 1902 was discarded as impractical, as the cost of 20 lakhs was considered to be prohibitive. Whether, having regard to the immense interests at stake and the terrible sufferings of the neighbourhood, this cost ought not to have been begun to be faced and spread over a number of years, is more than open to doubt. But since the scheme was discarded its consideration may be useless speculation at present.

It is possible that the British Indian Association failed to view the technical aspects of Mr. Horn's scheme aright in its representation, but the general soundness of the lines of the scheme has not been challenged in this Council or anywhere else. Suppose the prohibitive nature of the scheme stood in its way—and I am far from admitting that 20 lakhs of rupees is anything like prohibitive when the loss of so much life and property every year is concerned—there is one other scheme less efficacious perhaps and less costly than Mr. Horn's which was not sufficiently referred to by the Hon'ble Mr. Butler last year in reference to my resolution. I refer to Mr. Inglis' scheme. He thought it would be a help if the Begua breach was closed, and paved escapes were constructed on the river bank above or below, over which the necessary amount of flood water could spill. The cost of this scheme was estimated at nine lakhs, and the cost of an alternative scheme for construction of a weir across the breach with a small spill weir below to relieve the pressure over the main weir at high flood was estimated at six lakhs. It is apprehended on data, the full nature and extent of which has not been made clear, that Mr. Inglis' scheme would not only be costly but possibly injurious to the districts of Hooghly and Howrah. Such a catastrophe no one would willingly solicit or tolerate. If the second alternative scheme failed, people were anxious to know whether similar objections apply to the third alternative and less costly scheme referred to above. In this state of anxious uncertainty and as the working season was fast drawing to a close, to be followed by another season of flood, I asked a question about the matter on the 18th February, when the Hon'ble Mr. Butler replied that a preliminary scheme for diverting the low floods of the Damudar had been prepared, and it was estimated that the costs would be about two lakhs with the subsequent eventual cost of one lakh and a half to two lakhs. Such a scheme we were tod may be the means of decreasing the flood discharge through the Begua breach and restoring the dry-weather discharge of the Damudar to the parent channel below the breach. The work may proceed we were further told, gradually by first constructing a lowlevel weir across the Begua breach, forcing an increased discharge down the parent channel, helping in scouring it out and increasing its capacity gradually to raise the weir. After this process of raising goes on for some time, it is believed that a further expenditure would be necessary for excluding the low floods and decreasing the duration of the high floods in the now flooded area. It may be difficult to estimate the measure of good that will be derived from this scheme, but that is the only reasonable scheme at a moderate cost which the responsible expert advisers of Government, as a result of long and laborious research and persistent popular representation, have been able to frame, after discarding many others that have gone before. It is admitted, we believe, that the weir will be a great benefit to the people below Begua, and will ensure good water-supply throughout the dry season. This would be an incidental small mercy for which there would be room for considerable gratitude.

"There are important sanitary and agricultural aspects of the work which would give the scheme a fair hold on grants earmarked for sanitary and agricultural purposes. The scheme is the best, from some points of view, that we have been able to get up to now, and ought hardly to be delayed if the Government believes in its soundness. Even if the counterbalancing reduction that I propose in the event of this resolution being carried be not acceptable, funds may be found from other sources and the work begun. The scheme we were told by the Hon'ble Mr. Butler, in reply to my question was with the Commissioner of the Burdwan Division with a view to consider the utility of the project and to ascertain whether the parties to be benefited should meet the whole or any part of the expenditure. To facilitate the escape of the high floods into the Rupnarain river a scheme, estimated to cost Rs. 65,000, provided that no compensation is necessary, has also, we were told, been prepared for retiring the embankments on both sides of the Bakshi khal. The scheme was not laid on the table, when my question of the subject was discussed in this Council apparently for no other reason than that the question relating to the need or otherwise of compensation was being considered by the Divisional Commissioner. Whatever the need for compensation or

otherwise may be, the need for the work itself is unquestionable, and the question of compensation and of apportionment and recoupment of costs which, as we gather from the answer to the question, is the only one now outstanding, is before the Commissioner. The scheme itself, so far as its engineering features are concerned, must be taken to be complete, sound and desirable, and if so, I venture to submit and press that it ought not to be delayed. Unless provision for it be made in the Budget, it will be impossible to take up the work early in the year, and I would beg of your Honour's Government to do all that it possibly can to expedite the work, so that a further year of avoidable devastation may be spared."

The Hon'ble Mr. SLACKE said :-

"Sir, While not being able to admit the correctness of several of the assertions made by the Hon'ble Mover of the Resolution, I would point out to Hon'ble Members that bearing in mind the answer which was recently given in this Council to a question which the Hon'ble Mover asked regarding this Begua Bana, viz., that the preliminary scheme was before the Commissioner of the Division for consideration as to the utility of the project and to ascertain whether the parties to be benefited should meet the whole or any part of the expenditure, the position of affairs regarding this matter has not reached the stage when it can be said what sum should be allotted by Government. When that stage is reached, Government will undoubtedly do all that they consider necessary and right to minimize the inconveniences which these floods cause to the people dwelling in the area concerned.

"In regard to that part of the resolution which proposes a reduction of two lakes of rupees allotted for the new Central Jail at Monghyr, it

may be noted that the provision for the Monghyr Jail.

"It may be noted that the provision for the Monghyr Jail has been raised to 3.7 lakes in view of the change in the system of financing the scheme involved by the recent revision of the Provincial statement as a result of which India have declined to finance it by loan.

- "As regards the necessity for the scheme it may be summed up as follows:—
- (1) The jail population of the province has been steadily growing for years and has now materially exceeded the accommodation available. Since 1900 with the exception of the year 1903 the daily average population has been in excess of the total accommodation available. There have been times when it was as much as 500 in excess. The figures for ratio of population to accommodation per cent rose to 104 in 1908 (and had previously touched this figure in two other years) and to as much as to 109, in 1909. Overcrowding means preventible mortality.

(2) There is no reason to anticipate that this growth will cease, but the contrary. Transportation to the Andamans for term-convicts has been stopped and this will result in an acceleration of the process. In other words allowing for casualties Bengal central jails at the end of 10 years will from this cause alone have to find accommodation for not less than 500 additional prisoners (who would under the previous rules have been transported).

(3) Temporary relief had been found by retaining the old Presidency jail on the maidan and opening the new Presidency jail at Kalighat, as a supernumerary central jail. This, however, is a mere temporary measure. Government was pledged to surrender the old Presidency jail to the Victoria Memorial Trustees in 1912. Qwing to difficulties of financing which prevented a speedy disposal of the proposal for the new central jail at Monghyr the Lieutenant-Governor has been reluctantly forced to intimate to the Trustees that they must no longer reckon on having the jail made over to them. Government, however, is extremely anxious that the delay in fulfilling its promise should be reduced to the least possible term—a sentiment which the public no doubt share. It may be added that apart from the claims of the Victoria Memorial Trustees the amenities of the capital in themselves demand the removal of the old jail from the maidan at the earliest possible moment.

BILESTIE

"In view of the above considerations the Government of India and the Secretary of State have accepted the scheme for a new central jail at Monghyr as an urgent project, and in view of its urgency the Secretary of State has accorded his provisional sanction to the scheme subject to the final examination of the detailed plans and estimates which have been sent up by this Government. The Secretary of State is being further asked to accord sanction by wire to the acquisition of the land required for the new jail and other preliminary arrangements. In short, the matter has advanced so far that Government cannot possibly consent either to a withdrawal or to a postponement of the scheme. In order that the Government pledge to the Victoria Memorial Trustees shall be fulfilled at the earliest possible moment it will be necessary to provide year by year as large an amount as the Public Works Department can spend. This is estimated for the year 1911-12 at 3.7 lakhs of rupees and this has accordingly been provided. For these reasons I cannot therefore advise this Council to accept the Hon'ble Member's resolution.

"Allowing for a decrease under estimated profits from the Darjeeling-Himalyan Railway, the increase in the estimated revenue for the next year is mainly due to provision having been made for the payment by the Port Commissioners of the first instalment of the sale-proceeds of the Sibpur Engineering College, which will in course of time be made over to the Port

Trust. The price agreed upon for the sale is Rs. 13,63,742.

To the grant of Rs. 50,93,000 for the next year, there will be in addition a special grant for education from the Government of India. From the special grant will be met the expenditure necessary in regard to the Physics Laboratory of the Presidency College and the extension of this building to accommodate other laboratories for which no provision has been made in the budget. Towards the establishment the Government of India contribute Rs. 3,25,800 being 23 per cent, of the cost of the Imperial Works proposed to be carrried out during the year by the establishment employed under this province. There is also a small contribution of Rs. 3,500 for work done for the Darjeeling Improvement Fund. Deducting these sums, the balance remaining is Rs. 9,89,700 as against Rs. 11,01,196 of the revised estimate of the current year. The decrease is mainly due to the transfer of the charges of the office of the Examiner, Public Works Accounts, from Provincial to Imperial. As compared with the budgets of the current and preceding years, there is an increase in the sum budgeted for repairs, buildings, communications. This increase is necessary, since in recent years the sum allotted for repairs has been found inadequate. After deducting the expenditure necessary in the coming year for establishment, tools and plants, repairs, etc., there remains Rs. 23,13,300 for original works. After providing Rs. 11,18,700 for works in progress the sum of Rs. 11,99,600 remains for new works not yet commenced. This has been distributed as follows:-

BURSHI THINGTHAND THERETH	Rs.
"Minor works costing less than Rs. 5,0	0 3,27,000
Major works	6,37,600
Reserves	2,35,000

"The amount for minor works will be placed at the disposal of Commissioners of Divisions and Heads of Department. As compared with the grants for the current year under this heading the increases have been provided for the Excise, Education and Medical Departments and the Commissioner of Police. Calcutta,-for the first in order to provide for the extension of the contract distillery system which necessitate the construction of warehouses, etc., and for the other three because bearing in mind the list of pending projects the grant of the previous year was inadequate.

"A provision of Rs 1,45,700 is made for the principal projects in connection with civil courts. Of this sum Rs 22,200 is allotted for the construction of a new Munsifi at Kendrapara, which is the only new work to be taken in hand in 1911-12. The balance represents the expenditure proposed on works

started in the current year and now in progress.

"The existing Munsif's Court building at Kendrapara was constructed over 30 years ago, and was originally intended as a residence for an officer of the Public works Department. As the building was reported to be quite unfit for the purpose of a court-house, at the instance of the High Court Government approved the construction of a new building as far back as 1907. Owing however to lack of funds the work could not be put in hand. It is only one of several projects for new Munsifis; but it has been selected by the High Court as the most urgent of all these schemes, provision has been made for it in the budget for 1911-12.

"With regard to the reserve of Rs. 2,35,000, one lakh is assigned to civil buildings, Rs. 15,000 for electric installations in public buildings in Calcutta and Rs. 25,000 including Rs. 5,000 for arboriculture to communications, for Munsifs' residences Rs. 25,000, for residences for the Local Government Rs. 25,000 and for those of Government officials Rs. 15,000, and for witness sheds Rs. 10,000."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:-

"I did not quite follow the reply on the merits, and if I understand the Hon'ble Mr. Slacke aright, so far as the scheme itself is concerned, there does not seem to be very much to object to. The question now reduces itself to one of ways and means, and here, as on previous occasions, our difficulties are very great. Of course, I quite realize the necessity of providing a suitable central jail as soon as possible. But at the same time the other aspect of the question has no less an important bearing. For a long time Monghyr was badly affected by plague which was and, I believe, still is a reason for not immediately locating a big central jail there. That, however, is a matter upon which we feel hesitation in expressing any opinion, if the Government is satisfied that the jail can now be located there. The sum of 2 lakhs of rupees I ask for is to be released for the purpose of the Begua scheme. Our difficulty in making acceptable proposals for counterbalancing items is that we do not know enough of the details of the expenditure side and cannot lay our fingers on the right sums out of which our requisitions may be suitably provided for. I can assure you that it is not at all satisfactory to us to make haphazard and guesswork suggestions such as easily may be found fault with, as all our proposals have been to-day. In fact a larger provision has been made in the revised Financial Statement issued on Saturday last out of independent resources, for the jail, and if 12 lakhs has thus been found, there ought to be a serious difficulty in providing another 2 lakhs. We do not know any better and have to make the best of the situation by way of strict compliance with the rules. We naturally fall back upon items that appear to us to be the most suitable, and we all make miscalculations which turn out to be a real and serious difficulty in the way of the acceptance of our suggestions. Even a trained financial expert would be liable to make such miscalculations and mistakes in the absence of full and detailed information with so little time and so few resources at his disposal. As matters stand the abeyance of the Monghyr jail charges appear to be the fittest way of undertaking this work with the object of saving life and property, and in spite of the explanation of the Hon'ble Mr. Slacke I feel it my duty to press my resolution to a division."

The PRESIDENT said :-

which the non-official Members evidently experience in indicating items under which reduction of expenditure can be made. That difficulty is not in any way the fault of the Hon'ble Members. It is due to the shortness of time which under the present system is inevitable. We are going to consider in the course of the year whether it is not possible to devise some means under which Hon'ble Members will have greater facilities at their disposal for the purpose of picking out items in which reductions are possible. I do not expect that they will be successful in finding many possible reductions, because there are few reductions that are possible, but that is in the nature of things. It is not probable that many items will be found which it is possible to leave out. Does the Hon'ble Member desire to put the resolution?"

The Hon'ble Babu Deba Prasad Syrbadhirari said:—
"Yes, Sir."

The resolution was then put and lost.

The Hon'ble Mr. Slacke introduced the following head:

Expenditure—

40. Subsidised Companies' Land, etc.

He said :-

"The only expenditure on railways debited to Provincial funds in 1910-11 is under the head 'Subsidised Companies Land' for land required for the Tribeni extension of the Bengal Provincial Railway. The agreement with the Railway Company provides that the Local Government shall bear the cost of any land required for this extension. The budget provision of Rs. 2,000 has been in the revised estimate raised to Rs. 4,000 to meet the cost of land now under acquisition for which an estimate amounting to Rs. 4,268 has been sanctioned. For 1911-12 Rs. 150 has been provided for the acquisition of land required for an approach road at Magra.

The Hon'ble Mr. Slacke also introduced the consideration of the following heads:—

Revenue-

XXXII.—Civil Works.

Expenditure-

45. Civil Works.

He said :-

"I beg, Sir, to introduce for the consideration of this Council the budget relating to Civil Works. I will deal first with the revised budget under the head of Revenue. Under this head there is an increase of Rs. 45,000 due to the receipt, which was not anticipated, of arrear profits from the Darjeeling-Himalayan Railways.

"Under the head of expenditure there has been a saving of Rs. 3,11,817 due to the expenditure contemplated not having been effected. These savings mostly were due to the plans of the Khulna civil court building not having been finally settled and to the sanction of the Secretary of State to the press building in the new Presidency Jail having been received very late in the year.

the year.
"Under Miscellaneous Public Improvements there has been an excess expenditure of Rs. 26,000 mostly due to the dredging of the Bhagirathi

river.

The Hon'ble Maharaja Manindra Chandra Nandi moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council that out of the reduced lump provision of Rs. 7,50,000 under "45—Civil Works in charge of the Civil Department" for grants for works of sanitary improvement, etc.,

- (a) Rupees 1,00,000 be allotted to the district of Murshidabad in aid of the work of filling up marshy lands and hollow places;
- (b) Rupees 25,000 be provided for the carrying out of special sanitary improvements and the taking of precautionary measures in places of pilgrimage, with a view to the prevention of the outbreak and spread of epidemic diseases; and
- (c) another Rs. 25,000 be devoted to the construction of a suitable asylum for lepers.

"May it please your Honour,—My amendment consists of three distinct parts. The first part of the amendment has for its object the suppression of malaria and of the amelioration of the condition of poor cultivators. In the district of Murshidabad there are large tracts of low and marshy lands, probably old channels of the Bhagirathi and other rivers. These have been turned into most unhealthy tracts of land and unless measures are adopted to drain off these tracts and steps taken to raise their level, these will be -as in many cases they have been—fruitful breeding grounds of malaria-producing insects. sum I have asked to be devoted to this purpose is most inadequate, considering the magnitude of the work. But your Honour and my colleagues will, I hope, agree with me that it is better even to make a modest advance into the enemy's territory than to wait for years and years in the hope of getting more funds and thereby letting the enemy grow into much more formidable proportions.

"The second part of this amendment does not require, I hope, much commendation from me. It is a matter in regard to which Government has always acknowledged its liability and responsibility, for which there are special enactments and in regard to which special precautionary measures are always taken in emergencies by District and Local officers. But, after all, funds are not adequately put into the hands of such officers. It is certainly desirable that in places where there are yearly or periodical outbreaks of disease owing to the sudden influx of large numbers of pilgrims the sanitary arrangements should be more perfect than at present and that adequate permanent sheds for rest, suitable latrines, provision for good drinking-water, medical aid, and means for segregating the sick should be provided.

"The third part of this amendment aims at a twofold object, the safety of the public and the amelioration of the suffering of a large class of our fellow beings, I mean the lepers, whose sufferings appeal to all and who are subjected to the most pitiable neglect and often abhorrence by their fellowbrethren. The spread of leprosy is a menace to civilization and I need not labour to establish the urgent necessity of providing for adequate means towards a matter which engages the earnest attention of all civilized Governments. The danger of allowing lepers to flock in large numbers to places of pilgrimage, to handle coin, to mix with the general public, to squat on ground where pilgrims go about bare footed, and to use the water of the public tanks is untold. In Puri, for instance, the conditions for the spread of leprosy are very favourable at present. There, it is true, some philanthropic gentlemen have taken steps to house these unfortunate brethren of ours but there is no segregation of the sufferers and they are allowed to go about and mix with the general public in the vicinage of the temple of Jagannath and in the streets all around. The Collector of Puri has appealed to the public for funds to build a leper asylum and we cannot do better than to strengthen his hands by the modest grant that I have advocated.

"With these few remarks, I beg to move the resolution standing in my

name."

The Hon'ble Mr. SLACKE said :--

"The Hon'ble Member's proposal for earmarking portions of the sanitary grant in favour of projects which are either undefined or for which no working scheme has yet been devised cannot on account of such vagueness be accepted by Government.

"The Hon'ble Member desires to reserve a lakh for filling up marshy lands and hollow places in Murshidabad, Rs. 25,000 for special sanitary improvements at places of pilgrimage, and Rs. 25,000 for the construction of leper asylums. If well-devised projects, which can be financed from local contributions in reasonable proportion, are submitted in the course of the ensuing year dealing with any of these points, they will undoubtedly receive consideration, but if money for all or any of them were specially reserved now, it is more than likely that the greater portion of it would lapse at the end of the year for the want of a definite scheme of expenditure.

"It is true that the Drainage Committee reported that portions of the Murshidabad district were very malarious, and they mentioned various drainage schemes which seemed feasible, but the only definite project which has as yet come before Government is in connection with the Bistupur Bheel towards which assistance was given both in 1910-11 and during the current year.

"As regards places of pilgrimage their sanitary improvement rests primarily with the local committees which work under the Puri Lodging House Act. The largest pilgrim certre in the province is Puri, and that town received Rs. 75,000 in 1907-08 towards its drainage works, and Rs. 1,04,000 in 1908-09 towards its water-supply. In the absence of definite proposals it is difficult to gauge the merits of other demands.

"The policy of Government in the matter of the care of lepers, apart from the Albert Victor Leper Asylum at Gobra which it maintains, is ordinarily to give capitation grants to asylums maintained by such non-official bodies as the Mission to Lepers in India and the East. Grants are made to asylums at Purulia, Raniganj, Assansol, Muzaffarpur, Bankura and Bhagalpur, and there is a budget provision of Rs. 17,810 on this account. As regards Puri in particular an informal scheme for charitable relief to lepers was brought to the notice of Government in 1905, though no assistance from Provincial revenues was then asked for, and in 1906 three charitable minded donors of the Balasore district founded an endowment known as the Raj Narayan Das Endowment for feeding lepers in the Puri Lepor Asylum. In 1907 Kumar Rameswar Malia gave a donation of Rs. 2,000 towards the construction of a hospital at the asylum, but although the provision of a more elaborate asylum seems to have been discussed in the Division in 1907, the idea never seems to have assumed a definite shape. The asylum at Puri has never been brought under the provisions of the Act, and since 1907 there seems to have been no further correspondence on the subject. The construction of leper asylums in the mufassal has not so far been undertaken by Government, and there are considerable objections to the assumption of such a liability.'

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Rai Baikuntha Nath Sen Bahadur moved the following Resolution:—

This Council recommends to the Lieutenant-Governor in Council that grants to District Boards, under head "45—Civil Works in charge of the Civil Department", in augmentation of their resources, be made with the condition that at least half the amount be spent for the repair and maintenance of village roads and communications, whether they be under the control and administration of such Boards or of Union Committees.

it that I have mivocated

He said :-

"The agriculturists living in the villages form 75 per cent. of the population of the province. I am supported in making my statement by the census report of 1901. These agriculturists contribute 50 per cent. to the income of the District Boards in the shape of road-cess. But the village roads have not received fair attention from the District Boards. They have been neglected and proper care has not been taken of them. The agriculturists, therefore, do not derive any corresponding direct benefits for the payments they make. Of course they are indirectly benefited as the main roads of communication are maintained and repaired. But it is to be expected that these agriculturists, who form such a large proportion of the population and who contribute so much to the income of the District Boards, should have direct benefit by the maintenance and repairs of their village roads and communication. Forty years have passed by since the cess has been imposed. Past experience has shown that these matters have not been only considered by the District Boards. Of course the District Boards complain of their chronic poverty. But now that the Covernment have been pleased to grant a certain sum to the District Boards, I want that there should be

a condition attached to the grant that the District Boards should spend at least half the amount for the maintenance and repair of village roads and communication. My object is that the money should be earmarked and the District Boards would be compelled to give effect to the condition. I hope I will not be misunderstood. I advocate the further development of the principle of Local Self-Government and my object is not to handicap these Boards. My idea is that with their money, i.e., road-cesses, etc., the District Boards may have a free hand. But the same principle does not apply with the Government grants. The donor has a right to say that his money should be spent in a particular way and nobody can blame the donor for that. With regard to that grant I ask the Government to enjoin the condition of keeping the village roads in proper order. My resolution does not advocate any retrograde measure, nor does it intend in any way to diminish the powers or the choice of free action on the part of these bodies.

"There are two kinds of village roads—those under the direct control of the District Boards and those under the Union Committees. The same condition might be attached to both these kinds of village roads. With these remarks I ask the Council to accept my resolution. I hope the landlords who are Members of the Council should consider this question from their point of view. The villagers form the backbone of the province and it is but right that they should get some satisfaction for the funds they have been contributing for the

last forty years."

The Hon'ble Mr. FILGATE said:-

"Might I ask the Hon'ble Member whether his remarks apply only to the lower parts of Bengal or to Bihar also?"

The Hon'ble RAI BAIKUNTHA NATH SEN Bahadur said :-

" My resolution applies to the whole province."

The Hon'ble MR. FILGATE said :-

"I do not know whether village roads in Bengal have been neglected or not, but that is not the case in North Bihar. In North Bihar the District and Local Boards have carefully spent as much as they can—on these unfortunately, I have not got the figures here—but I am sure the amount must be very large indeed, which has been spent in keeping the feeder roads throughout the four districts in North Bihar in proper order."

The Hon'ble Khan Bahadur Maulvi Sarfaraz Hossein Khan said:-

"The same is also the case with South Bihar. I think the Hon'ble Rai Baikuntha Nath Sen Bahadur's remarks do not apply so far as Bihar is concerned."

The Hon'ble RAI KISHORI LAL GOSWAMI Bahadur said :-

"Your Honour, in 1905 the Government of India decided to augment the resources at the disposal of District and Local Boards by a grant from general revenues of an amount approximately equal to a quarter of the net road-cess receipts which form the bulk of the assets of District Boards. Accordingly close upon 9 lakhs of rupees are distributed among the different District Boards by Divisional Commissioners after considering the needs of each district. It is the intention of Government to give the Boards a wider discretion in regard to their expenditure, if it is satisfied as to the efficiency of the personnel of the Boards. I am sorry the proposal of my hon'ble friend tends to set back the hands of the clock of progress in the direction of Local Self-Government. He asks Government to lay down rigid rules as to the purposes to which the augmented grant should be applied. I am not prepared to say that District Boards have neglected to look after the needs of the rural areas committed to their care, and I cannot recommend the imposition of further restraints on the working of District Boards than what is already provided

in the law. Government is seriously thinking as to whether the time has come for distributing the augmented grant to District Boards only on the arithmetical calculation of a fourth of the net road-cess receipts of each district and leaving to the Boards the absolute discretion to spend the grant according to the necessities of each district. The resolution of my hon'ble friend is a disagreeable surprise to me, in that he wants Government to fix an uniform standard for all districts and impose a restraint on the discretion of the Boards. Surely what is wanted for the village roads in the district of Murshidabad or Burdwan, is not the same as in the case of Purulia or Sambalpur. If the elective system is properly worked so as to ensure the return of members to the Boards who are at first hand acquainted with the needs of the rural areas concerned, the village roads cannot possibly be neglected. The essence of Local Self-Government is that local resources are placed at the disposal of local bodies—which are mainly elected—for expenditure on local needs; and it would be an absolutely retrograde measure if Government were to say to each District Board, 'you shall spend at least half of the augmented grant for the repair or maintenance of village roads.' The total disbursements of District Boards in 1909-10 amounted to Rs. 72,80,290; of this, Rs. 30,24,448 or 41 per cent. was spent on 'Communication' (including both original works and repairs). Admittedly the greater part of this was spent on the maintenance of what are called the principal or arterial roads and the rest devoted to village roads. The former cannot be neglected as they form the most important lines of communication in the interior and the claims of the latter are naturally considered to be of secondary importance. The general control over the budget of District Boards exercised by Commissioners is, to my mind, quite sufficient and there does not exist any reasonable ground why this control should be further strengthened by earmarking in the manner suggested by the Hon'ble mover. I, therefore, cannot commend the resolution for the acceptance of Government."

The Hon'ble Rai Baikuntha Nath Sen Bahadur said : -

"Some of my hon'ble friends from Bihar have informed Your Honour that village roads are not neglected in certain districts. The Hon'ble Member of Council (Rai Kisori Lal Goswami Bahadar), who has addressed Your Honour, has made special mention of the districts of Murshidabad and Burdwan. With regard to these two districts I may say that the village roads are not kept in proper order. In making grants the Government will be in full possession of facts and figures and if it then appears that in certain districts the village roads have not been neglected, then there need be no such conditions so far as these particular districts are concerned. But with regard to those places, where proper care has not been taken of village roads, the question arises whether my resolution in any way interferes with the principle of Local Self-Government. I do not for a moment admit that it is a retrograde measure. I have only sought to make a distinction between two funds. I have already explained that with their money the Boards should have a free hand; but with regard to the money which comes as a grant from the Government, I think certain conditions should be imposed. I hope the Government will find its way to accept my resolution."

The resolution was then put and lost.

The Hon'ble Rai Baikuntha Nath Sen Bahadur moved the following Resolution:-

This Council recommends to the Lieutenant-Governor in Council that grants should be made to Municipalities under head "45—Civil Works in charge of the Civil Department", with a condition that at least half the amount should be spent for repair and maintenance of roads.

He said :-

"According to the existing law and the rules having the force of law the municipalities cannot arrange in an adequate and sufficient way for the repairs

and maintenance of the roads within the municipalities from their general fund. It is, therefore, absolutely necessary that for the proper upkeep of the roads the Government would be pleased to help these municipalities, and that with a condition. I need not repeat my arguments here as to why some

condition should be imposed.

"As regards the second part of my resolution, there may be a counterbalancing reduction in the estimate for expenditure under the head '20—Police,' sub-head 'District Police Force,' 'Salaries' and 'Police Force.' Under that head we find that new officers are contemplated to be appointed and constables are proposed to be given an increase. The amount provided is very large, and the Government can somehow or other make some reduction under this head, and by doing that the Government will not be appreciably inconvenienced. I therefore beg to point out that this fund may be utilised to give effect to my resolution."

The Hon'ble Mr. Duke said :-

"From the financial side, Sir, I fail to see why the Hon'ble Member wishes to trench on the salaries of the district police force. His substantive proposal is the money that is already granted to municipalities should be granted with particular conditions. I was listening with some care, but I did not gather whether he really proposed to have the grant increased. I take it that he wants more money. He has been speaking all the time on the assumption that with the present grant to municipalities the condition which he wishes to press would not be possible and he therefore contemplates that the grant should be increased so as to make that condition possible. He gives no idea as to what the amount might be, but I can say with absolute certainty that it cannot be obtained by trenching on the provision for the district police force, under the subhead 'Salaries of police forces' in any direction. The Hon'ble Member has mentioned the fact that there are some new appointments. It is rather a curious circumstance that the heads under which he proposes reduction already show decrease. It is true that the decreases which

they show are to a great extent due to paper transfers.

"There is provision for three additional Assistant Superintendents which I have explained at some length already, but this is part of the scheme for bringing up the cadre of the Bengal force to the standard introduced by the Police Commission, and arrangements have already been made with the Secretary of State for the recruitment of these additional Assistant Superintendents. Probably the places have already been advertised. What else he would propose to do, I do not know. Leaving the addition of these Superintendents, there is no amount that can be deducted from either of these heads without dismissing or lowering the pay of the men already in the service of Government, officers or rank and file, and I do not believe that the Hon'ble Member seriously contemplates such a course. I do not think that the new scheme, the constables' rupee, to which he refers, comes within these heads, but the increment has to be paid, and 1 should be most loth to give it up. In the Police budget, I can only say that the degree of elasticity is this. With the utmost strain that we have been able to put upon it after two years that which ought to have been given at least three years ago, -and I do not think that this sort of elasticity which would result in so necessary a concession being hung up for another year-would be just or fair, or to the advantage of the administration."

The Hon'ble Rai Baikun'tha Nath Sen Bahadur said :-

"I will only say one word. A reduction has been made under the head Police force on account of proportionate savings in 1910-11. I think there will also be proportionate savings in 1911-12 and the money thus saved may be utilized for the purpose of my resolution."

The Hon'ble Mr. SLACKE said: -

"With regard to the substantive portion of the resolution the Hon'ble Member does not recommend the expenditure of a specific sum, but asks the Council to accept the principle that grants of unspecified amount shall be made to municipalities, with the condition that at least half the sum so given shall be spent upon the repair and maintenance of roads. The suggestion can scarcely be dealt with as a definite and practical one, and the principle only can be discussed. That principle is one which Government cannot accept. In isolated cases, for special reasons, Government has made grants in aid to particular municipalities for expenditure upon roads and in more frequent instances, though equally in special cases, it has given grants in aid towards schemes of water supply and drainage. In other directions, e.g., education, medical, veterinary, etc., municipal finances receive help from Provincial revenues, but the feature common to all such grants is the existence of special reasons. Government does not attempt to give anything in the nature of a general subsidy to municipal revenues, nor is it possible that it should do so. The following principles were laid down by the Government of India in 1902 as those which should govern the grant of assistance to local objects from Provincial funds, and they are those which are at present followed:—

- "(a) As a general rule the entire cost of local undertakings should be borne by the ratepayers who benefit thereby.
- "(b) The assistance of Government, when required, should usually be given in the form of a loan.
- "(c) When the cost of an undertaking is too heavy to be wholly borne by a local body, even with the assistance of a loan and the work is nevertheless so important and useful that it ought not to be postponed, a grant-in-aid from Provincial revenues might be permissible, provided that the local body was making full use of its power of raising revenue by local taxation.

"To depart from these principles would be to sacrifice the whole reason for Local Self-Government.

"Secondly, even assuming the grant of such general subsidy, as the Hon'ble Member apparently contemplates, it would be objectionable to rigidly earmark one-half of it in all cases for expenditure upon communications. To do so would be to ignore the wishes of the local representatives and to refuse to give any weight to different local conditions and requirements. The need for efficient roads may be a very common one, and the provision of good roads may be an excellent object, but it does not follow that the need is felt equally in all municipalities.

"Thirdly, the Provincial finances are quite unable to stand such a drain upon them, and it would be useless to enunciate a principle to which there is no hope of giving practical effect. The Hon'ble Member is in error if he imagines that the recent revision of the Provincial Financial Settlement has so increased the local resources as to render it possible (even were it desirable) to embark upon a general policy of municipal subsidies. I cannot therefore recommend Hon'ble Members to adopt this resolution."

The Hon'ble MR. DUKE said :-

"I beg, Sir, to be allowed to give an explanation as to the suggestion about probable savings, and that is, they are 'already in the budget; they amount to Rs. 2,25,000 approximately."

residential result esto substitution for

The Hon'ble Rai Baikuntha Nath Sen Bahadur said:-

"After having heard the Hon'ble Mr. Slacke, I believe grants would be made to the municipalities, and I am not at all willing to have conditions enjoined on the grant. I beg to withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

The Hon'ble Mr. Dip Narayan Singh withdrew the following Resolution of which he had given notice:—

This Council recommends to the Lieutenant-Governor in Council-

- (a) that the expenditure of the sum of Rs. 2,74,000 budgeted for 1911-12 under the head of "Courts of Law" (Legal Remembrancer and High Court Pleaders) be reduced by Rs. 74,000; and
- (b) that a grant of Rs. 74,000 be made to the Municipality of Bhagalpur to set their water-works on a permanent basis.

The Hen'ble Mr. Slacke introduced the consideration of the following heads:-

Revenue-

XVIII-Ports and Pilotage.

Expenditure-

21. Ports and Pilotage.

He said :-

"I beg, Sir, to introduce for the consideration of Hon'ble Members those

heads in the budget which relate to Ports and Pilotage.

"In the current year the revised figures show an increase of Rs. 65,000. This mostly falls under Pilotage and is due to a prosperous year. The estimate for the coming year, though higher than that of 1910-11 by Rs 37,000, is less than the revised estimate for that year, since it is anticipated that there will be a decrease in receipts under 'Registration and other fees' and under 'Surveys', as the Government of Eastern Bengal and Assam have introduced a separate examination of masters, serangs, etc., under the Inland Steam-vessels Act, 1881, and have appointed an Engineer and shipwright for the survey of inland vessels at Goalundo.

Expenditure.—The revised estimate for the current year is less than the original estimate by Rs. 27,000, ewing to the discontinuance, since the opening of the Dhubri-Gauhati Railway, of the subsidy paid to some steamer companies for the conveyance of mails and to a reduction in touring charges for the Rhotas. The budget estimate for 1911-12 is less by Rs. 76,900 than the revised estimate for the current year, owing to the facts that in the current year Rs. 57,000 had to be spent on boilers for the Guide and to a smaller provision being needed in the coming year for leave allowances. There are no new schemes of an important nature individually costing about Rs. 5,000 which require inclusion in the budget. Provision has been made for a revision of the office establishment of the Agent for Government Consignments, as the existing scale of pay is reported to be inadequate, having regard to the nature of the work and the increased cost of living in Calcutta."

The Hon'ble Mr. Duke introduced the consideration of the following heads:—

Revenue-

XII-Interest.

XXII-Receipts in aid of Superannuation, etc.

Expenditure-

- 1. Refunds and Drawbacks.
- 36. Reduction and avoidance of debt.

He said :-

"I have to deal, and with permission will deal, with that head No. XII on the receipt side,—Interest, and XXII—Receipts in aid of superannuation, and on the expenditure side, 1-Refunds and drawbacks, 23-Superannuation allowances and pensions.

"These heads do not call for detailed comment since 1909-10 loans to agriculturists have continued to be repaid more quickly than was anticipated, which accounts for the steady decline in the interest received on this account both in the revised and in the budget estimate. The decrease is satisfactory, as the rapid recovery of these loans is of course the best possible proof of returning prosperity. Otherwise the fluctuations present few features of special interest."

The Hon'ble Mr. Duke also introduced the consideration of the following heads:-

Revenue-

XXV-Miscellaneous.

Expenditure-

32. Miscellaneous.

enand He said :-

"I have to present the miscellaneous Head of the Budget which is No. XXV on the receipt side and No. 32 on the expenditure side. On the receipt side the revised figure was R. 6,90,000, or Rs. 52,000 less than the original budget. The decrease was principally due to the sale of the disused Jorabagan than having realised somewhat less than was expected, but principally to a moiety of the price having been paid in the previous year, i.e., earlier than was expected. There was also considerable falling off under "Unclaimed deposits"; but this is a very fluctuating uncertain head over which we have no control. The budget figure for 1911-12 is again. Rs. 8,000 less than the revised figure for 1910-11. The figures for "Unclaimed deposits" have been raised to what is considered a fair average, but there is a great decrease in the item "Sale of lands and houses, etc.," as the only building expected to be sold during the year is the old Garden Reach thana.

"The increase in the sub-head "Miscellaneous", which is put at Rs. 21,000, is due to the fact of our having a considerable number of elephants for sale, there having recently been a very good catch in the Angul kheddas.

(Turning to the expenditure side No. 32, the revised figure for 1910-11 (Rs. 3,44,000) is Rs. 1,54,000 less than the original budget which was Rs. 4,98,000. The greater part of the decrease is, however, due to the adjustment of His Honour's allotment for petty grants, which amounts to Rs. 1,00,000, under the heads to which it was actually allotted. The same thing happens to the provision of Rs. 1,05,000 for unforeseen charges, out of the total of Rs. 1,12,000 for miscellaneous and unforeseen charges, the expenditure being eventually distributed to the proper heads. The budget of expenditure for 1911-12 amounts to Rs. 6,03,000, an increase of Rs. 1,05,000 over the budget for 1910-11. The greater part of the increase is accounted for by the expenditure of Rs. 62,500 as a subscription to a vernacular edition of a weekly paper. The same cause accounts for the provision of Rs. 31,250 in the revised estimate. Government has long been convinced of the necessity of some measure to counteract the persistent misrepresentation of its motives, not to speak of the perversion of actual facts and occurrences, in the vernacular press. The object of this subscription is to secure the circulation in the mufassal, particularly amongst minor Government servants, school-masters and others connected with the administration, of a paper which may be counted on to supply genuine news and reasonable accounts and explanation of current events and of the acts and measures of Government. The measure is experimental. The subscription can be stopped if the paper does not answer expectations. It may or may not prove to be the most satisfactory way of

accomplishing the end in view, but at any rate some step is urgently required and this is the direction which has been selected as the most promising.

"For the rest the same allotment of Rs. 1,00,000 for His Honour's petty grants and the lump reserve of Rs. 1,00,000 for unforeseen expenditure have been provided as in last year. The provision for charitable donations has been raised from Rs. 1,22,000 to Rs. 1,54,000. The Calcutta Hospital Nurses' Institution has been exposed to severe financial strain, and Government has altered the terms of its previous subsidies and agreed to contribute at the rate of Rs. 3 for every rupee raised by private subscription up to a maximum grant of Rs. 75,000 in any year. A grant of Rs. 5,500 to the Lady Minto Nursing Association has also been provided. There are no other fluctuations under this head which appear to require special explanation."

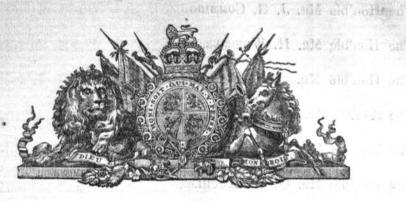

The Council was then adjourned to Saturday, the 1st April, 1911, at

10-30 д.м.

F. G. WIGLEY,

Secretary to the Bengal Legislative Council.

The Hon'ble MR. DIP NARAYAN SINGH.

The Hon'ble BABU BAL KRISHNA SAHAY.

INVESTITURE OF TITLES.

Before the business of the Council was commenced, the President invested the Feudatory Chief and nobleman named below with the titles hereinafter mentioned:—

- (1) Maharaja Sriram Chandra Bhanja Deo, Feudatory Chief of the Mourbhanj State in Orissa—The title of Maharaja as a hereditary distinction.
- (2) The Hon'ble Raja Rajendra Narayan Bhanja Deo, of Kanika, Orissa—The title of Raja as a personal distinction.

The ordinary business of the Council was then proceeded with as follows:—

OATH OF ALLEGIANCE.

The Hon'ble Mr. Greer, the Hon'ble Mr. Garrett and the Hon'ble Mr. Stewart made the prescribed oath of their allegiance to the Crown.

QUESTIONS AND ANSWERS.

TEMPORARY PROMOTIONS IN THE PROVINCIAL CIVIL SERVICE.

The Hon'ble Maulyi Saiyid Muhammad Fakhr-ud-din asked :-

- I.—(a) Is it or is it not a fact that the members of the Indian Civil Service and the Police Service (Superintendents of Police) enjoy the privilege of temporary promotions to the next higher grade during the absence, on leave, of officers in those services?
- (b) Are similar privileges extended to the members of the Provincial Service, both Executive and Judicial?
 - (c) If not, will the Government be pleased to state the reasons?

The Hon'ble Mr. Stevenson-Moore replied:

- (a) "The answer is in the affirmative.
- (b) & (c) The system of temporary grade promotion exists in the case of the Indian Civil Service and the superior Police Service for special reasons which are connected with the evolution of the conditions of those services and are not applicable to any Provincial service. Prior to 1868 when a member of the Indian Civil Service went on furlough (other than furlough on medical certificate) he vacated his appointment altogether and substantive promotion was given in his place. As a result of this system it was found that there was a tendency for officers to postpone their leave until their health broke down and they were compelled to take leave on medical certificate. This condition of things was not only unfair to the officers, but was detrimental to efficiency, since it is a condition of efficiency in a service recruited in Europe that officers should be in a position to enjoy leave in Europe to a reasonable degree. Accordingly in 1868 the system was changed, and an officer on furlough was allowed to retain a lien on his grade appointment. As a partial compensation for the loss of the substantive promotion which he had previously enjoyed, a locum tenens was given an allowance, now known as officiating allowance. The change resulted in a reduction in the pay of officers on duty taken as a whole, and this reduction was calculated as covering the cost of the increased furlough allowances. Similar considerations also operate in the case of the Imperial Police Service. On the other hand, they have no application to services recruited mainly in India, such as the Provincial Services (Executive and Judicial).

These services were never organised on a system of substantive promotion in furlough vacancies. All the Provincial services—Executive, Judicial, Police and Educational—are on the same footing in this respect. The system of officiating grade promotion is complicated and consequently expensive to work, and even were the necessity to arise in the future of devising means for improving the financial position of the Provincial services, Government would be unlikely to adopt this difficult and indirect method."

ALLEGED MISCONDUCT OF A RAILWAY OFFICIAL.

The Hon'ble Sir Bijay Chand Mahtab, K.C.I.E., Maharajadhiraja Bahadur of Burdwan, asked:—

attended transfer alamam Chanters

- II.—(a) Has the attention of Government been drawn to the Railway incident at Buktiarpur (reported by the Amrita Bazar Patrika of the 9th instant) about the violence committed on the 4th instant by a Junior Engineer of the East Indian Railway against the orderly of the Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan while travelling in a first class compartment in charge of his master's properties?
- (b) If so, will the Government be pleased to state whether any steps have been taken to prevent the recurrence of such incidents in future, and whether the conduct of the Sub-Inspector of Police, in connection with the case, has been taken notice of?

The Hon'ble Mr. Stevenson-Moore replied :-

- (a) "The attention of Government has been drawn to the alleged incident. A complaint was lodged before the Sub-divisional Magistrate, Barh, charging Mr. Speechly, a Junior Engineer, under section 336, Indian Penal Code (doing any act so rashly or negligently as to endanger human life or the personal safety of others). That complaint has been dismissed and entered as 'mistake of fact.' Government will now call for a report on the case, and, pending its receipt, is not prepared to say anything as to the accuracy of the newspaper account, which appeared when the case was under judicial investigation.
- (b) Since the incident has been under judicial investigation, no such action has been taken by Government."

CONFERRING OF POWERS OF ASSISTANT COLLECTOR ON RETIRED MEMBERS OF THE PROVINCIAL SERVICE AND ON LAND-OWNERS.

The Hon'ble Sir Bijay Chand Mahtab, K.C.I.E., Maharajadhiraja Bahadur of Burdwan, asked:—

III.—Has the Government any intention of adopting in this Province the practice of the United Provinces' Government of conferring the powers of an Assistant Collector on retired members of the Provincial Service (Judicial and Executive) and on land-owners?

The Hon'ble Mr. Stevenson-Moore replied :-

"Government has no information regarding the practice in question, but is making inquiries."

CASE OF MAHBUB ALUM, SUB-INSPECTOR OF POLICE.

The Hon'ble Mr. Saivid Wasi Ahmad asked: -

- IV.—(a) Will the Government be pleased to state the circumstances under which one Mahbub Alum, a Police Sub-Inspector, employed in the district of Bhagalpur, resigned his service on the 4th June 1909?
- (b) Is it true that, in spite of the Civil Surgeon's certificate recommending him for leave, he was, while suffering from fever, ordered to do his work by the Superintendent of Police, and under forced circumstances had no alternative but to resign?
 - (c) Is the Government inclined to reconsider his case?

The Hon'ble Mr. Stevenson-Moore replied :-

(a) & (b "Maulvi Mahbub Alum was appointed a probationary Sub-Inspector of Police on 29th May, 1908. A year later, it is reported, he had failed both at Thana and Court work, and it had been found necessary to attach him to the Reserve as a disciplinary measure. After about three months in the Reserve he applied for one month's privilege leave on account of ill-health due to dysentery. The Civil Surgeon was asked for an opinion, and reported that while the officer was not strong, he was making much of his illness, and that his dysentery was not so severe as to necessitate leave. The Superintendent of Police thereupon made a reference to the Deputy Inspector-General, requesting that Maulvi Mahbub Alum might either be transferred or discharged. Before orders were passed on this report, Maulvi Mahbub Alum submitted an application requesting either that he might be given one month's leave in anticipation of sanction or that his resignation might be accepted. On this application, his resignation was accepted. It is not the case that the Civil Surgeon recommended him for leave, nor does it appear that he was ordered to work while suffering from fever, and no such allegation is made in the memorial which he submitted praying for a reconsideration of the orders accepting his resignation.

(c) The answer is in the negative."

CIRCULATION OF THE BIHAR GAZETTE.

The Hon'ble BABU BAL KRISHNA SAHAY asked :-

V .- Will the Government be pleased to state-

- (a) how many copies of the Bihar Gazette are distributed free, and to whom? and
 - (b) how many copies are subscribed to?

The Hon'ble Mr. Where replied:—

(a) "A statement is laid on the table.

(b) There are no subscribers to the Gazette."

Statement referred to in the answer to Question No. V.

SUBSTITUTION OF THE DEVANAGARI FOR THE KAITHI CHARACTER IN THE BIHAR GAZETTE.

The Hon'ble BABU BAL KRISHNA SAHAY asked :-

- VI.—(a) Will the Government be pleased to inquire from the authorities and subscribers concerned whether the publication of the Bihar Gazette in the Devanegari character is preferred by them and the general public to the Kaithi character, in which the said Gazette is at present published?
- (b) Is the Government aware that the Hindi-knowing public, who are able to give any opinion on legal or administrative matters, prefer the Devanagari to the Kaithi character, and find the former easier to read than the latter?
- (c) Will the Government be pleased to consider the desirability of publishing all Bills and Laws in the Bihar Gazette in the Devanagari character?

The Hon'ble Mr. WHEELER replied :--

(a), (b) & (c) "The question suggests the desirability of substituting the Devanagari for the Kaithi character in the printing of the Bihar Gazette. Government are not aware of any general wish for such a change, and it is not proposed to take action to that effect."

BIHAR GRIEVANCES.

The Hon'ble Babu Bal Krishna Sahay asked:-

- VII.—(a) Has the attention of the Government been drawn to the article headed "Our wants", published in the Bihari of Bankipore, dated the 3rd March, 1911?
- (b) Will the Government be pleased to state whether they are taking any steps to remove the grievances mentioned in the said article on the following matters, namely:—
 - (i) the suggestion that His Honour the Lieutenant-Governor shall spend three to four months every year in Patna, to be in immediate touch with the people of Bihar,
 - (ii) to open an M. A. class in the Patna College,
 - (iii) to give to the Patna College a Professor of Philosophy and Logic?

The Hon'ble Mr. Stevenson-Moore replied to Question VII (a) and (b) (i) as follows:—

VII.—(a) "The answer is in the affirmative.

(b) (i) The policy of Government in this matter is well known. Both Sir Andrew Fraser and Sir Edward Baker have stated that while it will be the practice for the Lieutenant-Governor to spend some time each year in Patna, the suggestion that he should make a prolonged stay of three or four months is impracticable."

The Hon'ble Mr. Cumming replied to Question VII (b) (ii), (iii) as follows:—

- VII.—(b) (ii) "The Patna College is not affiliated up to the M.A. standard. In order to obtain such affiliation, an increase to the College staff would be necessary, but this is not at present practicable. The object desired by the Hon'ble Member could also be secured by the appointment of University lecturers for the College. Proposals for the appointment of such lecturers are under consideration.
- (b) (iii) Instruction in Logic is at present given in the Patna College. Philosophy was formerly a subject in the curriculum, but was exchanged for Political Economy and Political Philosophy on the receipt of a representation to the effect that there was no demand for the teaching of Philosophy."

IRRIGATION IN CHOTA NAGPUR.

The Hon'ble BABU BAL KRISHNA SAHAY asked :--

VIII.-Will the Government be pleased to state-

- (a) what was the result of the investigation about irrigation in Chota Nagpur made by Babu Sarada Sunder Paul some time ago,
- (b) whether there is any such scheme under the consideration of the Government, and
 - (c) if so, when it is likely to be taken in hand?

The Hon'ble Mr. Butler replied :-

- (a) "It is suggested that the Hon'ble Member should refer to the reply given to a somewhat similar question asked by the Hon'ble Babu Kalipada Ghosh at the meeting of the Bengal Legislative Council on the 25th January, 1908. Since that date three of the most promising irrigation schemes in the Chota Nagpur Division have been investigated by Babu Sarada Sunder Paul. The investigations show that the probable revenue to be derived from these schemes would barely cover the maintenance charges.
 - (b) & (c) The reply is in the negative."

AMENDMENT OF THE CHOTA NAGPUR TENANCY ACT 1908 (BEN. ACT VI OF 1908).

The Hon'ble BABU BAL KRISHNA SAHAY asked :-

IX.—Will the Government be pleased to state whether any amendment of the Chota Nagpur Tenancy Act is in contemplation?

The Hon'ble Mr. Cumming replied:-

"The answer is in the negative."

RETIREMENT OF MR. TWEEDIE, MANAGER OF THE NARHAN COURT OF WARDS, DARBHANGA, AND APPOINTMENT OF HIS SUCCESSOR.

The Hon'ble BABU BRAJA KISHOR PRASAD asked :-

- X.—(a) Will the Government be pleased to state whether Mr. Tweedie, the present Manager of the Narhan Court of Wards in the district of Darbhanga is going to retire?
 - (b) If so, when?
- (c) Will the Government be pleased to state whether the Rance, the present proprietress of the estate, has been requested by the Collector of Darbhanga to allow a suitable pension to Mr. Tweedie?
- (d) Will the Government be pleased to state whether the Ranee has expressed her wishes to the Collector of the district and the Commissioner of the Division to the effect that she would be willing to allow Mr. Tweedie a pension of Rs. 200 a month, provided any Bihari Sub-Deputy Collector is appointed to succeed him on Rs. 400 a month, to be made up as follows:—Rs. 300 out of Rs. 500, the present pay of Mr. Tweedie, and Rs. 100 from the savings to be effected by curtailing any avoidable item of expenditure?
- (e) If so, will the Government be pleased to state whether it intends to give effect to the said wishes of the Ranee?
 - (f) If not, will the Government be pleased to state its reasons?
- (g) Will the Government be pleased to state whether there is anything which stands in its way in the present case in giving effect to its policy as laid down in the Bengal Wards Manual, to the effect that ordinarily Deputy Collectors and Sub-Deputy Collectors should be appointed managers of estates under the Court of Wards?

The Hon'ble MR. CUMMING replied :-

(a) ' The answer is in the affirmative.

(b) It is understood that Mr. Tweedie will retire as soon as his successor

is appointed.

(c) & (d) The local officers are in correspondence both with the proprietress and with the Board on the subject of the grant of a pension to Mr Tweedie and of the appointment of his successor. Final arrangements

have not yet been made.

(e), (f) & (g) Government have not yet received the final recommendations of the Board of Revenue with reference to the appointment of Mr. Tweedie's successor. When these recommendations are received, due attention will be paid both to the wishes of the Ranee and to the provisions of the Bengel Wards Manual so far as these considerations are consistent with the interests of the estate."

EXTENSION OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BEN. ACT III OF 1885) TO THE SONTHAL PARGANAS, AND PARTICIPATION OF THAT DISTRICT IN THE ELECTION OF A MEMBER OF THE BENGAL LEGISLATIVE COUNCIL.

The Hon'ble Rai Shiba Shankar Sahay Bahadur asked:-

XI .- Will it please the Government to say whether it is in contemplation either-

(1) to extend at a near future date the provisions of the Fengal Local Self-Government Act of 1885 to the district of the Sonthal Parganas, or

(2) to order arrangements to be made under which that district may, like other districts of the Province, participate in the election of a Member of the Bengal Legislative Council under the Reformed . Scheme?

The Hon'ble Mr. WHEELER replied to Question No. XI (1) as follows:-XI-(1) "The answer is in the negative."

The Hon'ble Mr. Stevenson-Moure replied to Question No. XI (2) as follows:-

XI.-(2) "The principle which governs the arrangement of constituencies for the Bengal Legislative Council is not territorial but communal; its object is to secure representation of communities and interests. In the exercise of this principle the scheme provides four electoral organisations-District Boards, Municipal Commissioners, Landholders and Muhammadans. In all but the first of these the inhabitants of the Sonthal Parganas participate. It is not in contemplation to order any further arrangements to be made for the representation of the inhabitants of the district."

INTRODUCTION OF THE ELECTIVE SYSTEM IN THE LOCAL BOARDS OF BEHAR.

Hon'ble Rai Shiba Shankar Sahay Bahadur asked:-

XII .- Will it please the Government to say whether any, and, if so, what steps have been taken by them to introduce the elective system in the Local Boards of those districts of Bihar in which the Members of such Boards have hitherto been all nominated by the Government?

The Hon'ble Mr. WHEELER replied: -

"Inquiry is being made as to the desirability of introducing the elective system in the case of those Local Boards in the Patna, Tirhut and Bhagalpur Divisions, the members of which are at present nominated."

ALLEGED BRIBERY AND EXTORTION BY THE POLICE.

The Hon'ble Mr. Golam Hossain Cassim Ariff, in the absence of the Hon'ble Dr. ABDULLAH-AL-MAMUN SUHRAWARDY, asked :-

XIII .- (a) Has the attention of the Government been drawn to an article in the Bengalie of 21st March, headed "A case for inquiry"?

- (b) Is it true that a complaint in writing, charging the police with bribery and extortion, was laid before the District Magistrate?
- (c) If so, will the Government be pleased to state whether any inquiry has been held on that complaint?
 - (d) If so, who held the inquiry and what was his finding?

The Hon'ble Mr. Stevenson-Moore replied:-

- (a) "The answer is in the affirmative.
- (b) "The letter which is printed in the article referred to above states that formal complaints charging the police with bribery and extortion were made to the District Magistrate and, further, suggests that they were of a nature which called for judicial inquiry, and that they were ignored by the district authorities. That statement and those suggestions are untrue. It is, however, true that certain informal petitions of the purport indicated were forwarded to the District Magistrate by post.
 - (c) "An inquiry has been held on the complaints referred to.
- (d) "Since the petitions referred to were not complaints under the Criminal Procedure Code, the inquiries made were of a departmental character. They were conducted under the orders of the District Magistrate by various officers, among others the District Superintendent of Police, the Sub-divisional Officer, Kishanganj, and the Deputy Superintendent of Police, Kishanganj. On the reports of these inquiries the District Magistrate came to the finding that the complaints were baseless and had been made in the interests of certain suspected receivers of stolen property in order to obstruct the Police who were then engaged in working out a confession which was believed to implicate them, and that no further action was required."

RELIGIOUS INSTRUCTION IN GOVERNMENT SCHOOLS.

The Hon'ble BABU KIRTANAND SINHA asked :-

XIV.—(a) Is the Government aware that in the final Educational Code, United Provinces of Agra and Oudh, 1910 (paragraph 74), the following provisions have been made for the imparting of religious instruction to the boys in the Government schools?

"Religious instruction may be imparted in Government English schools subject to the following conditions:—

- (i) The Head Master should set apart two half hours in the week for the religious instruction by a single instructor to boys whose parents wish them to receive it; provided that the parents can agree to the appointment of such an instructor and there is a class-room in the school available for the purpose.
- (ii) The question of charging fees for religious instruction is left entirely to the community desiring it.
- (iii) The religious instructor will keep a register of attendance open to inspection by the Head Master, and may report for punishment boys who play the truant.
- (iv) The community will conduct all examinations in religious knowledge. The results may be communicated by the Head Master
 and may be read out by him at the annual prize-giving when any
 prize which the community may propose to award for proficiency
 in religious knowledge will be awarded by a representative
 of that community. Otherwise the Head Master will have no
 concern whatever with the progress in the religious knowledge
 of any scholar.

- (v) No Head Master on the school establishment may be engaged as a religious instructor.
 - (vi) The community concerned will be responsible for making arrangements which will be agreeable to the general public.
- (vii) It is optional with the parents to have the religious instruction given to the children. Any parent desirons of having a boy instructed in religion will signify his wish in writing to the Head Master, who will then give permission to the boy to attend the classes."
- (b) Will the Government be pleased to state whether there are any arrangements or provisions for imparting religious education to the students in any part of this Province?
 - (c) If not, will the Government be pleased to state whether it intends to consider the desirability of introducing provisions, like those in force in the United Provinces, in the schools and colleges in this Province, both Government and Private institutions?

The Hon'ble Mr. Cumming replied :-

- (a) "Government are aware of the provisions to which the Hon'ble Member refers.
- (b) Government have taken no steps to provide that religious instruction shall be imparted to students in any part of the Province. Government have not, however, issued any instructions which preclude the authorities of private schools or colleges from providing religious instruction in the institutions which they control. The authorities of unaided institutions are free to take such action in this regard as they think proper. In aided institutions religious instruction may be provided so long as it is not allowed to interfere with the ordinary school or college courses and attendance is not made compulsory in the case of pupils whose parents or guardians do not desire that they should attend.
- (c) Government are prepared to consider the desirability of introducing provisions like those in force in the United Provinces, in the schools and colleges in this Province. There is not at present anything to prevent private institutions from providing for the religious instruction of their pupils."

THE RING-GAME PLAY AND HARI SINGH.

The Hon'ble Rai Baikuntha Nath Sen Bahadur asked:-

- XV.—(a) Has the attention of the Government been drawn to the article in the *Indian Daily News* of the 11th November, 1910, headed "Outlaws in Calcutta," and the article in the same paper of the 14th November, 1910, headed "What Mr. Duke said," in connection with the Ring-game play carried on by one Hari Singh?
- (b) Has it come to the notice of the Government that, in spite of the ruling of the Hon'ble High Court that the Ring-game play carried on by Hari Singh did not come within the Gambling Act, he was unsuccessfully prosecuted by the Police on several occasions?
 - (c) Is it a fact that the Commissioner of Police does not allow the said Ring game to be played in Calcutta or its suburbs by the said Hari Singh, though others are allowed to do so without any interference by the Police?

The Hon'ble MR. STEVENSON-MOORE replied :-

- (a) "The answer is in the affirmative.
- (b) Since the ruling of the High Court, Hari Singh has been twice prosecuted under the Gambling Act. The first prosecution was instituted under

the orders, not of the Commissioner of Police, but of the District Magistrate, 24-Parganas. On the District Magistrate coming to know that the game was the same as that described in the High Court judgment, he ordered the prosecution to be withdrawn, and this was accordingly done. The second case was instituted by the Commissioner of Police, who was of opinion that the game in respect of which he ordered prosecution differed from that described in the High Court's judgment, and was consequently not covered by that judgment. The trying Magistrate, however, did not accept this view.

(c) The answer is in the negative. Proceedings were instituted against other persons, also for playing the Ring-game, as it led on several occasions to breaches of the peace and violent assaults. The case of Hari Singh was brought to the notice of Government some time ago, and no action is now being taken by the Commissioner of Police against him in respect of the Ring-game."

BENGAL BUDGET FOR 1911-12.

The Hon'ble Mr. Duke presented the Budget of the Government of Bengal for the year 1911-12.

He said :-

- "Sir, I beg to present the Budget of the Government of Bengal for 1911-12.
- "The Budget has been sanctioned by the Government of India with the same figures which were sent up by this Government, and it differs in no material respect from the Budget as discussed in this Council on the last occasion.
- "I therefore propose to say nothing further on the subject at present I understand, Sir, that you will fix the date for its further discussion."

THE CHOTA NAGPUR ENCUMBERED ESTATES (AMENDMENT) BILL, 1911.

The Hon'ble Mr. Slacke moved for leave to introduce a Bill further to amend the Chota Nagpur Encumbered Estates Act, 1876.

He said :-

- "Sir,—I move for leave to introduce a Bill to amend the Chota Nagpur Encumbered Estates Act, 1876 (VI of 1876). When a landed proprietor applies for leave to have his estate brought under the protection of that Act, some time has to elapse before final orders can be passed on his application. Hon'ble Members will recognize the necessity of having such an estate protected from sale under a decree of a Civil or Revenue Court during the period when the application for bringing the estate under the Encumbered Estates Act is being considered; since, if this were not possible, the objects of the Act could easily be frustrated.
- "Up to the time when the new Code of Civil Procedure, 1908 (Act V of 1908) came into force, the Commissioner of Chota Nagpur had, in virtue of a notification dated the 13th June, 1882, issued under clause 2 of section 327 of the former Code of Civil Procedure (Act XIV of 1882), power to grant such protection in respect of sales under Civil Court decrees, pending the passing of final orders on the landlord's application to have his property brought under the Encumbered Estates Act.
- "The passing of the new Code of Civil Procedure rendered that notification invalid, and no provision exists in the new Code under which a similar notification could be issued.

"Legislation is therefore necessary to restore to the Commissioner the powers he had in this respect prior to the passing of the new Code of Civil Procedure.

"As regards decrees of Revenue Courts, the Commissioner has already, under section 206 of the Chota Nagpur Tenancy Act, 1908 (Ben. Act VI of 1908), power to prohibit the sale of tenures in execution of decrees for rent, and the Bill I desire to introduce proposes to give such power of prohibition to the Commissioner for the purposes of the Encumbered Estates Act in respect of any decree of a Revenue Court against the applicant, for in Chota Nagpur, as in Orissa, cases dealing with arrears of rent are dealt with by the Revenue Courts."

The motion was put and agreed to.

The Hon'ble Mr. Slacke introduced the Bill and moved that it be read in Council.

The motion was put and agreed to, and the Secretary accordingly read the title of the Bill.

THE CALCUTTA IMPROVEMENT BILL, 1911.

The Hon'ble Mr. Bompas moved that the preliminary Report and the further Report of the Select Committee on the Bill to provide for the improvement and expansion of Calcutta be taken into consideration.

The motion was put and agreed to.

The Hon'ble Babu Deba Prasad Sarbadhikari moved that the consideration of the Bill be postponed till the July session of the Council.

He said:—"Sir, I beg to move for the postponement of the consideration of the Bill till the July session of the Council, as there has not been sufficient time to consider the report of the Select Committee on the amended Bill. The Select Committee had thirty-four sittings, and, on the 4th March, the Hon'ble Mr. Bompas presented a preliminary report. This was an unusual departure, and the Hon'ble Member in charge explained that the Select Committee had introduced several important changes, and, pending determination of certain questions of taxation that had been referred to the Government of 'India. for which the rest of the report waited, it was considered better that the results of the labours of the Select Committee so far should be submitted to the Council and that the public should be given an opportunity of studying and criticising them. In view of the importance, complexity and extent of the Bill, as well as its far-reaching consequences, this was unquestionably a wise and proper step; but considering the diversity and importance of the changes introduced by the Select Committee, we feel that there has not been time and opportunity enough afforded for public criticism. This is no time to review the diversified, prolonged and interesting stages through which the Bill passed before introduction, to which the Hon'ble Mr. Stephenson shortly referred in introducing the Bill. But, when after the lapse of these long years, the Bill emanated seemingly full fledged, like the classic child of the Eastern fable, whose timely birth was delayed owing to the flight across of a monster bird, thirty-four days of arduous operation was necessary before it could be framed into shape. But the shape that such an operation resulted in is passed recognition. The Bill is in many important respects not the same as the one on which public criticism was invited and sobtained. There have been important changes, in principle as well as in detail, in arrangement as well as in wording, and a careful study of the amended Bill discloses

to be prepared, and others covering the same ground-have approached their work in no light or obstructive a mood or without a due sense of the serious responsibility of the situation. A pressing sense of duty has compelled them to undertake this task, and, if they had more time to consider and confer, much of the ground would be cleared and monstrosities with suspicious family resemblance would disappear. This is one of the most important Bills that have come before the expanded Council—in fact the most important that has come before it so far, or is likely to come for some time. Hurry would really be much less economical than considered deliberation, if we are to avoid repeated condemnations and disapproval at the bar of public opinion and our Law Courts, such as are constantly attendant on some of our other Acts that were passed in a hurry in spite of protest. In the matter of such condemnation it will be no help that the framers of the present Bill, as well as its amenders in the Select Committee, have worked hard to let the High Court have as little as possible to do with the administration of the law when passed. I cannot too much deprecate this trend of the amendments which forcibly illustrate the extent and importance of the changes by the Select Committee. For my present purpose, I shall not stay to inquire into the numerous changes regarding the constitution and the powers of the Board of Trustees and the Tribunal that is to control the acquisition and the valuation under the Act and the procedure, though they are sufficiently far reaching and important to have called for and caused a long pause. The deletion of the appeal sections, modified and circumscribed as they were in the original Bill, would be about sufficient in aid of my present motion. The long-standing and long cherished statutory right of appeal to the High Court was taken away on the model of the Bombay panic measure which had to be legalised years later by a Validating Act. This validation was necessary in consequence of a case in the Bombay High Court years after the passing of the Bombay Act, but years also before the final publication of the Bill before us. In that case Sir Lawrence Jenkins, then at the head of the Bombay High Court, expressed a doubt as to whether the Provincial Legislature could give a modified right of appeal to the High Court from a newly-created institution—the Tribunal—which was at once more than, yet less than, a Court. With great respect for the authority from which it emanated, I have more than doubts whether such a pronouncement in that case, which was for an injunction against possession of certain lands being taken, would be viewed as anything more than an obiter-an obiter no doubt that the Hon'ble Mr. Erle Richards accepted and gave effect to in the shape of the Validating Act. But both the obiter and the Validating Act were before the framers of the Bill, and, with full notice thereof, they published the Bill (with the modified appeal sections that are now condemned and deleted) on which basis public criticism was invited and obtained. But that is not all. These proposals for modified appeal came up for opinion before the High Court, which has got back Sir Lawrence for its head, and His Lordship and colleagues could not very well be supposed to be oblivious of his own pronouncement. And yet the High Court not only does not object to the retention of the modified rights of appeal allowed by the original Bill, but makes other recommendations connected with appeals, namely, that an appeal above Rs. 5,000 should be allowed subject to the limitations of section 100 of the Code of Civil Procedure, 1908 (Act V of 1908), and that where the President of the Tribunal refuses to grant the necessary certificate for basing an appeal, the High Court under certain circumstances may itself grant such a certificate. And when this considered opinion of the High Court came before the Select Committee, instead of providing—in view of the Bombay case to which I believe attention was drawn—that the Tribunal shall be a court within the meaning of the Land Acquisition Act, 1894 (I of 1894), and merely shall not be deemed to be so, and instead of doing away with the objections for modification of section 54 of the Land Acquisition Act, the Select Committee cuts the Gordian knot by making the award of the Tribunal final, as if the Tribunal is an arbitration court, though the claimant is no willing party to such arbitration, and it merely makes section 54 of the Land Acquisition Act, which is the Appeal section, wholly inapplicable to the Improvement Act. This, I say, is revolutionising

and not changing the Bill, and what has taken the Select Committee thus much labour to achieve cannot possibly be assimilated and criticised by the lay public, unaccustomed to such measures and methods. Putting it at the lowest, the whole situation is more than doubtful, upon which careful and considered legal opinion is necessary, for what the local Legislature cannot give in a modified form it ought not lightly to take away even if it can.

"We are incidentally promised the security of some sort of an appeal in a casual remark in the report of the Select Committee—the likely gift of the Imperial Government; we do not know what view the Imperial Government, which is finding so much of the wherewithal, or the Imperial Legislature will be inclined to take of the situation. But we legislating here have a right to know as to how the appeal provisions are going to ultimately shape themselves in order to judge and decide as to how the attendant and incidental sections should be framed and worked. This Council would probably take one view of things if there is an appeal and another if there is none. Contingent legislation like that suggested would be alike objectionable and undesirable.

"For these and many more reasons that could be multiplied, I beg to suggest a short postponement. None in this room or out of it can be more anxious for speedy improvement of the plague spots of Calcutta than myself. In connection with the delay in proceeding with the measure of Improvement, I have often drawn the attention of this Council to the untoward results of hanging it up, for we live and suffer right in the midst of neighbourhoods which all foul epidemics, modern and ancient, visit first, infest the longest and leave the last, and in which even the pettiest of local improvements, after being solemnly passed and notified, were stayed because of the approaching Improvement scheme. Anxious as we are for expedition, we must see that the scheme proceeds on just working lines, to secure which I firmly believe more mature consideration of the amended Bill is necessary.

"I repudiate with all the emphasis that I can command the idea that the amendments of which notice has been given are intended to wreck the Billin class interest or to overawe the Government. It is a foul calumny upon Your Honour's Councillors which they have never done anything to deserve, and also Your Honour's Government and Secretariat which are strong and resourceful enough to be able to deal with double as many amendments in half the time if there be need. But, not only is there no such need, but there is no justification for hurry under the circumstances. I, therefore, expectantly appeal for an opportunity for harmonising this motley of many shades and shreds into suitable texture and tint that will stand the test of time. We are not legislating for a period or a generation, but for many such, that will be saddled and burdened more than we know or they will be able to afford, if sufficient and scrupulous care be not now bestowed."

The Hon'ble THE PRESIDENT said :-

"The motion of which the Hon'ble Member gave notice several days ago has received the careful consideration of Government, and the conclusion which my colleagues and myself have arrived at is that it is one which we ought to accept.

"Whether such a postponement is really required on the merits is, perhaps, open to doubt; for though the alterations introduced in the original Bill by the Select Committee are certainly somewhat numerous, they are not really difficult of comprehension; and one would have thought that any person who had attentively studied the Bill as first introduced would not experience much difficulty in mastering them, within the period of approximately one month that has elapsed since the Committee's first report was published.

"We have, however, been influenced by the fact that a strong body of public opinion undoubtedly exists which asks for further time for consideration of the Bill. In large measure this, no doubt, emanates from the landowning classes, who are apprehensive that their interests will be adversely affected by the measure. I am not prepared to affirm, however, that the feeling

is confined to these classes only. This morning I received a memorial signed by four important public bodies in Calcutta, of which only one could be regarded as being specially representative of the land-owning classes—the British Indian Association. In any case, the extent of public feeling which asks for an adjournment is of such a character that it would not be right to ignore it or to attempt to override it.

"We have, therefore, decided to accept the Hon'ble Member's motion and to agree to the consideration of the Bill being adjourned till the rains session of Council. This course is not without its drawbacks, to which we are alive. It may be hoped that in the interval that will now be allowed to elapse the somewhat exaggerated apprehensions which now seem to be entertained in some quarters will have had time to die down; and that when the Bill eventually comes up for discussion, all parties will be prepared to approach it in a calm and reasonable spirit, with a full appreciation of the far-reaching benefits which, we hope, it will confer on the people of Calcutta."

The motion was put and agreed to.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said:-

"If it is permissible, Sir, on behalf of the community, I desire to convey to Your Honour the most heartfelt gratitude of the community for your considerate action. We do not care what happens to the Bill so long as it is properly considered."

THE PRESIDENT said :-

"I am obliged to the Hon'ble Member for his expression of acknowledgment of what the Government has done. I propose that the discussion of the Budget be held on Wednesday next, if that is convenient to Hon'ble Members. We will now take up the discussion of the Resolution of which the Hon'ble Mr. Saiyid Wasi Ahmed has given notice, and to which the Hon'ble Rai Shiba Sankar Sahay, Bahadur, proposes to move an amendment. A timelimit of one hour has been fixed for the discussion of this Resolution, and I would remind Hon'ble Members that, under rule 12 of the rules for the discussion of matters of general public interest, no speech shall exceed 15 minutes in duration."

RESOLUTION UNDER THE RULES FOR THE DISCUSSION OF MATTERS OF GENERAL PUBLIC INTEREST.

Under rule 23 of the rules for the discussion of matters of general public interest, the President assigned a time-limit of one hour for the discussion of the Resolution and amendment standing in the names of the Hon'ble Mr. Saiyid Wasi Ahmad and the Hon'ble Rai Shiba Shankar Sahay Bahadur.

The Hon'ble Mr. Saiyid Wasi Ahmad then moved the following Resolution standing in his name:—

This Council recommends to the Lieutenant-Governor in Council that it is desirable, in the interests of the administration of criminal justice in the Sonthal Parganas, that the attention of Magistrates exercising jurisdiction within that district should be drawn to section 340 of the Code of Criminal Procedure, 1898, so that, when an accused person wishes to be defended by a pleader, he should, as a matter of right, be allowed to be so defended.

He said :-

"Your Honour,—The resolution that I have the honour to move refers to a district which, if I mistake not, is not much widely talked of and is very little

known to the outside public. I would, therefore, very shortly, place before Your Honour and the Council its extent and constitution. The Sonthal Parganas is a large and important district in the Bhagalpur Division, and has five subdivisions besides the Sadar or Dumka Subdivision, which is the head-quarters of the district, viz., (1) Deoghar, (2) Rajmahal, (3) Godda, (4) Pakaur and (5) Jamtara. The head of the district is styled 'Deputy Commissioner,' and the district is commonly known as a non-regulation district. It is administered by special enactments and regulations known as the Sonthal Parganas Regulations. The High Court of Judicature at Fort William having little or no jurisdiction over the district, except in cases which I shall allude to subsequently in my speech, the Divisional Commissioner exercises the functions of the High Court. There is one peculiar anomaly which I would like to mention here, i.e., that the Deputy Commissioner is both a District Magistrate and a District Judge, and a Sessions Judge to boot, in certain matters, namely, for the purpose of hearing criminal appeals and motions; whereas there is a separate Sessions Judge for trying Sessions cases. As at present arranged, the District and Sessions Judge of Birbhum is also the Sessions Judge of the Sonthal Parganas only for holding Sessions at Dumka, the head-quarters of the district. Criminal motions and appeals against orders passed by all classes of Magistrates are therefore heard by the Deputy Commissioner in his capacity both as a District Magistrate and a Sessions Judge. The Subordinate Magistrates in the Sonthal Parganas also exercise jurisdiction both in civil and criminal matters, the Subdivisional Officers exercising the functions of Subordinate Judges.

"The Commissioner of the Division exercises the functions of the High Court so far as the district is concerned, except in reference to proceedings against European British subjects or persons jointly charged with European British subjects, and except in reference to proceedings against other persons so far as sections 374 and 379 of the Code of Criminal Procedure, 1898 (Act V of 1898) are concerned, in the case of the submission of a sentence of death for confirmation, of the postponement and commutation of a sentence of death passed on a pregnant woman (section 382, Code of Criminal Procedure), of appeal from, or a revision of sentence of death (Chapters XXXI and XXXII, Code of Criminal Procedure) and of an appeal from an original or appellate order of acquittal (section 417, Code of Criminal Procedure). He also exercises the functions of the High Court in civil matters where the valuation of the suit does not exceed one thousand rupees.

"Now, the reason that led me to bring forward this motion before Your Honour and the Council is the present unsatisfactory and undesirable manner in which the Magistrates in the Sonthal Parganas deal with applications presented on behalf of accused persons to be allowed to be defended by pleaders. Section 340 of the Code of Criminal Procedure lays down that 'every person accused before any Criminal Court may of right be defended by a pleader.' 'Pleader,' again, has been defined by section 4, clause (r) of the same Code, and, with reference to any proceedings in any Court the term means 'a pleader authorized under any law for the time being in force to practise in such Court, and includes (1) an advocate, a vakil and an attorney of a High Court so authorised and (2) any mukhtar or other person appointed with the permission of the Court to act in such proceeding.' 'The law for the time being in force' as mentioned in the above definition is the Legal Practitioners Act, 1879 (XVIII of 1879, as amended by Acts IX of 1884, XI of 1896, and I of 1908. This Legal Practitioners Act has unfortunately not been extended to the Sonthal Parganas, and therefore a pleader as defined in the Code of Criminal Procedure has no legal status in the district. He cannot under the circumstances appear before any Criminal Court in the district, unless he is specially permitted to do so, and an accused cannot as of right engage him to get himself defended.

"Under Regulations III of 1872 and II of 1886, and by subsequent notifications thereunder (vide Bengal Government letter No. 5581J., dated 13th December, 1895), the entire provisions of the Code of Criminal Procedure are in force in the district, subject to certain modifications enumerated in

Chapter II of Regulation V of 1893, by one of which the jurisdiction of the High Court is restricted to certain proceedings, which I have already stated in the earlier part of my speech. *Primâ facie*, therefore, it would appear that section 340 of the Code of Criminal Procedure has got the same significance in the Sonthal Parganas as in Regulation districts. But, Sir, in practice we find it otherwise.

"The procedure adopted in the case of an accused person is that if he wishes to be defended by a pleader, he has to apply to the Magistrate to be so defended, and it rests with the Magistrate to allow or disallow the application. If the application is disallowed, the accused has two alternatives—either to go undefended or to secure a copy of the Magistrate's order, come to Bhagalpur, engage a pleader, and through him move the Commissioner against such order. I may mention here that an accused coming up to the Commissioner for such redress is seldom disappointed, and in almost all cases the Commissioner upsets such orders of the Magistrate. But Your Honour will agree with me that the procedure is unnecessarily inconvenient, harassing and expensive. And often it so happens that, by the time an accused secures an order from the Commissioner and engages a pleader to defend himself, half the case is finished. The ground on which such a procedure is adopted has already been stated by me before, viz., that the Legal Practitioners Act is not in force in the Sonthal Parganas. But though the Legal Practitioners Act is not in force, we find that by virtue of some law or procedure, a pleader is entitled to practise in criminal cases in which European British subjects are concerned as accused and defend them. This, I find, was decided so far back as 1883 by a Resolution of the Government of Bengal, Judicial Department, which is as follows:—

Read a petition, dated the 5th July, 1883, from Babu Apurha Krishen Pal, a pleader, in which he appeals against the orders of the Deputy Commissioner, Sonthal Parganas, which have been upheld on appeal by the Commissioner of Bhagalpur, deciding that he, the petitioner, is only entitled in the district of the Sonthal Parganas, to practise (1) in criminal cases in which European British subjects are concerned as accused, and (2) in Civil and Revenue cases in which the subject-matter is over Rs. 1,000.

'The petitioner prays that he may be allowed to practise ordinarily as a pleader in the district of the Sonthal Parganas without any restriction whatever.

'Read also a letter, No. 160J., dated the 13th September, 1883, from the Commissioner of Bhagalpur, and enclosure, reporting on the above petition.

ORDER.—Ordered that the petitioner be informed that the Lieutenant-Governor supports the views of the Commissioner, both on the grounds of public policy, in a district like the Sonthal Parganas, and upon the wording of the present Code in force there. Mr. Rivers Thomson, therefore, declines to interfere in the matter.'

"This procedure restricts the employment of licensed lawyers to defend accused persons other than European British subjects, and virtually limits the operation of section 340 of the Code of Criminal Procedure. I do not for a moment contend that this procedure is illegal, but to my mind it is unfair, unjust and inequitable, and unnecessarily emphasises a distinction, and the sooner it is effaced the better for the good government of the country. In spite of the fact that the Legal Practitioners Act is not in vogue in the district, there is nothing illegal if the Magistrates there were to use section 340, Code of Criminal Procedure, in the same sense in which it is done in the Regulation districts, by allowing licensed lawyers to defend accused persons if they so desire, and thus remove all causes of hardship and inconvenience.

"I would not like to tax the patience of Your Honour and this Council by quoting instances, and the number is legion, in which there have been failures of justice on account of the accused not being allowed to be defended by a pleader, and of those in which people have gone up to the Commissioner for

redress. I may, however, content myself with giving one or two instances. The other day, Your Honour, there was a case before Mr. Streatfeild, our late Commissioner, which came up to him on revision. In this case the accused, who was a son of a Panda of Deoghar, applied for permission to engage a pleader to defend himself. The permission was refused by Mr. Sunder, the Subdivisional Officer, and he was tried without getting any legal help. In the course of the trial the Subdivisional Officer admitted evidence as to the bad character of the accused, though such evidence in this case was absolutely irrelevant and inadmissible under the provisions of section 54 of the Evidence Act. The accused was convicted, and evidence which should not have been recorded at all was used against him. I refer to this case not as a typical instance, but as one that comes uppermost in my mind as being of recent occurrence. To my mind it is but natural that Magistrates exercising such plenary powers, as they do in the Sonthal Parganas, stand fully in need of the assistance of lawyers in trying cases; for we sometimes find that they display too fine a sense of appreciation of law and rulings in their judgment. Only in December last, in a case tried by a Deputy Magistrate of Dumka under section 209 of the Indian Penal Code (Act XLV of 1860), we find that in the judgment the Deputy Magistrate says of a ruling reported in 12 W. R. that, though it is a case bearing on the point before him, yet it was an old case and might have been over-ruled, and it is thus that he gives a go-by to a decision of their Lordships the Judges of the Calcutta High Court. Strangely enough, when the matter came up on appeal before the Deputy Commissioner, that officer in his judgment tried to differentiate the ruling in 12 W. R. from the case before him, but all the same supported the observation of the Deputy Magistrate that it might have been over-ruled, by giving an example from his personal experience to the effect that, in another case before him, one pleader appearing for one party quoted a ruling which the pleader appearing for the other side pointed out had been over-ruled in a subsequent case. Surely Magistrates who show such scanty respect to decisions of the High Court can hardly be expected to adhere strictly to law and procedure when there is no lawyer to draw their attention to them.

"I have no desire, as I stated before, to convince Your Honour and this Council by referring to a number of cases that have come within my experience during the last 1 t years of my practice at Bhagalpur. I feel convinced that for a proposal like the one I have before this Council, it is not at all necessary for me to advance many arguments for its acceptance.

"Your Honour, the Sonthalis are fully alive to the concessions given them by the first proviso in section 2 of Act XXXVII of 1885 as amended by Act X of 1857 and Regulation No. V of 1893 in which it is laid down:—

'All civil suits in which the matter in dispute shall exceed the value of one thousand rupees shall be tried and determined according to the general Laws and Regulations in the same manner as if this Act had not been passed.'

"And so it comes to this, that a man in the Sonthal Parganas can by right prosecute or defend his rights and title in Civil Courts through a pleader if the value of his suit exceed Rs. 1,000, but he cannot as of right get himself so defended if he is an accused in a criminal case, regardless of the charge or charges against him. Evidently, property in the Sonthal Parganas is more valuable than life and liberty.

"Your Honour my resolution suggests and recommends that this state of affairs in the Sonthal Parganas should no longer be allowed to exist, and that early steps should be taken to remedy a long-felt grievance of the inhabitants of this important district. Time has now come, and the Sonthal Parganas has sufficiently advanced, not to allow even one man there to feel that justice is not done to him in respect of his life and liberty."

The Hon'ble Rai Shiba Shankar Sahay Bahadur moved that the foregoing Resolution be considered in the following form:—

This Council recommends to the Lieutenant-Governor in Council that it is desirable, in the interest of criminal justice in the Sonthal Parganas, that when an accused person, whether he be a European British Subject or not, wishes to be defended by an Advocate, Vakil or Attorney enrolled by a High Court, or by a pleader authorised under the Legal Practitioners Act, 1879, by the Calcutta High Court to practise in the Courts subordinate to it, he should, as a matter of right, be allowed to be so defended.

He said :-

"Sir, the district of the Sonthal Parganas having been removed from the operation of the general laws and regulations by Act XXXVII of 1855 is governed under clause 2 of the said Act by special officers appointed by, and subject to, the direction and control of Your Honour. No general law or regulation passed by any authority howsoever high can have force in this district unless it is specially extended thereto by Your Honour. There is no appeal, no reference to any higher authority in any case whatsoever. In other words, Your Honour is the sole, highest and final authority, so far as the administration of this district is concerned. Such being the case, the people of this district naturally claim at Your Honour's hands more special considerations than the inhabitants of any other part of the Province under your charge.

"Unfortunately, Sir, the people of this district are suffering from many disadvantages and have many real grievances. One of them, with which we are concerned to-day, is that accused persons, who are Indians, are, in some cases at least, denied the right of being defended by professional lawyers—a right, Sir, which is never denied, I believe, to any other subject of the Crown, except perhaps under very extraordinary circumstances.

"Sir, the position in this district is that, whereas in proceedings under the Code of Criminal Procedure against European British subjects, the accused person can of right be defended by professional lawyers, such as advocates, vakils, attorneys of the Calcutta High Court and pleaders authorised to practise in the courts subordinate to it, the Indian British subjects have no such right under the rules in force there.

"The reason for this anomaly is that, where Europeans are concerned as accused persons, the final appeal lies to the Calcutta High Court, and the courts of the Sonthal Parganas with regard to such cases are subordinate to that Court. Therefore by virtue of the Legal Practitioners Act, which is in force in all courts subordinate to the High Court, the professional lawyers, such as I have enumerated above, have a right to appear on behalf of an accused person who engages them.

"But in those cases where the accused persons are Indians, except with regard to the cases committed to the Sessions, the final appeal lies to the Commissioner of the Bhagalpur Division who exercises all the powers of the High Court referred to in the Code of Criminal Procedure. The Calcutta High Court, not having jurisdiction, the Legal Practitioners Act is not applicable, and there is no provision under which the Commissioner of the Bhagalpur Division, like the Calcutta High Court, can enrol legal practitioners to practise in his courts and in the courts subordinate to him. The result is that in this district, while professional lawyers have a right to appear on behalf of an European accused person, they have no such right where Indians are concerned, except on obtaining special permission given in each case by the court under section 4, clause 7), sub-clause (2) of the Code of Criminal Procedure. Under the law this permission has to be given by the court which hears the case. In practice, however, I understand this permission is given or refused by the Sub-divisional Officer, which is technically illegal. But this is a minor matter. The main point is that under the rules in force there, the permission in each and every case is necessary before a legal practitioner can appear on behalf of

an Indian accused person. This permission is sometimes refused. The refusal of such permission causes considerable annoyance, harassment and expense to the party, and this has been amply and abundantly dealt with by my Hon'ble friend. But what I most respectfully, though emphatically, beg to submit is that, apart from the inconvenience, annoyance and expense to the party, as a question of principle, the engagement of a professional man depending on the sweet will of the presiding officer of a muffassil court is objectionable on other grounds. It has a demoralising effect both on the presiding officer and on the legal practitioner appearing before him on his sufferance. It is neither fair to the presiding officer nor to the professional man concerned. It is unfair to the presiding officer, in that it gives rise to most unfavourable criticism when permission is refused. It is unfair to the legal practitioner, in that insinuations may be made that he cannot fearlessly and faithfully discharge his duties to his clients—a thing so necessary in a legal practitioner, when his very introduction into the case is due to the favour of the presiding officer and subject to his sanction. The sooner this practice, therefore, is done away with, the better for all parties concerned.

"Even the Hon'ble Judges of the High Court do not exercise the right of sanctioning the engagement of a legal practitioner in each case, and of giving preference to one particular practitioner over another. They frame rules for enrolment, and any legal practitioner satisfying the requirements of those rules is enrolled and has a right to appear in every case in which he may be engaged, without any special sanction of the Hon'ble Judges. In Regulation districts, strictly speaking, that class of legal practitioners known as mukhtars cannot appear without special orders of the court, but, as a matter of practice, such sanction is presumed to be given in all cases without exception and they do not depend on the sanction of the presiding officer for their engagement.

"Sir, the aim and object of the resolution moved by my hon'ble friend is that, where an Indian accused person wishes to be defended by a professional man, he should, as a matter of right, be allowed to be so defended, and that the choice of his lawyer may not in any way directly or indirectly be influenced by the presiding officer of the Court, and that there is no reason why an Indian British subject of this district should be denied the privilege which is allowed to every British subject, European or Indian, under Your Honour's Government.

"To this extent, I fully and cordially support the object which my Hon'ble friend has in view. I beg, however, to point out that the resolution of my Hon'ble friend is vague and defective and, if accepted, will not go far enough to attain his end.

"In the first place, I do not think there is any meaning in drawing the attention of the Magistrates in the Sonthal Parganas to section 340 of the Code of Criminal Procedure, as the resolution proposes to do. The wording of the resolution clearly leads one to think that such Magistrates have been acting contrary to section 340, and that by drawing their attention to it, our object will be attained. My Hon'ble friend has himself pointed out that the action of these Magistrates is not illegal. If so, what is the object in drawing their attention to this section? The action of the Magistrates is, strictly speaking, not illegal. Their answer is—"You have no doubt a right to be defended by a 'pleader.' But, properly speaking, we have no 'pleaders' in this district for, as we are not subordinate to the Calcutta High Court, we refuse to recognize any pleader licensed by that authority, and there is no rule under which professional men can be licensed by any authority in the Sonthal Parganas like the Calcutta High Court. Therefore, though you have a right to be defended by a 'pleader' there being no 'pleader' here you must go undefended." The fact is that the rules are defective, and our complaint is not so much with regard to the operation of the rules as with regard to the rules themselves, which lead to most unjust and unsatisfactory results and which have to be set right.

"The next defect in the resolution of my Hon'ble friend is that he has not defined the word 'pleader' in the resolution. He does not say what he means by the word 'pleader.' If the word 'pleader' therein has the same meaning attached to it, as in the Code of Criminal Procedure, and as interpreted by the Magistrates, then we do not advance the cause of these accused persons a bit, and the object of the resolution will be frustrated. I have, therefore, in my amendment made the matter clear. If my amendment is accepted, the Indian accused persons in the Sonthal Parganas will have the right to be defended by exactly the same class of professional lawyers as the accused persons in other parts of the Province and as the European accused persons in the Sonthal Parganas are defended. I venture to think that there is no justification in treating them in a different way. Therefore, Sir, on behalf of the Indian accused persons of this district of the Sonthal Parganas—Sonthals and Dikus (i.e., not Sonthals) alike, I most earnestly appeal to Your Honour for redress, and I appeal to my hon'ble colleagues of this Council, both official and non-official, to join me in this appeal to Your Honour, and I feel, Sir, that I do not appeal in vain.

The Hon'ble Mr. Bompas said :--

"Sir, I have been asked, as a former Deputy Commissioner of the Sonthal Parganas, and one who is therefore acquainted with the local circumstances of that district, to explain to the Council what is the actual practice prevailing there in regard to the employment of pleaders in criminal cases and the circumstances which have led to that practice being adopted.

"I would begin by saying that I am glad that the Hon'ble Rai Shiba Sankar Sahay Bahadur has moved his amendment, because I must take strong exception to the terms of the original motion. That motion runs to the effect that the attention of magistrates in the Sonthal Parganas should be drawn to section 340 of the Code of Criminal Procedure. The magistrates in that district exercise jurisdiction in courts established by law and are drawn from the same services as magistrates who exercise jurisdiction in other districts. They have probably been transferred from courts outside that district to the courts within it. I myself, before I was Deputy Commissioner of the Sonthal Parganas, was for a year District and Sessions Judge of Birbhum. In both capacities, I exercised criminal appellate powers. I think that the Hon'ble Member would scarcely consider it becoming to move that the attention of the Sessions Judge of Birbhum should be drawn to the Code of Criminal Procedure and I fail to see why it should be more fitting to do so in the case of an officer of equal rank in the Sonthal Parganas. But, in fact, in his speech he has taken the sting out of any thing that might be implied in his motion, by the admission that the procedure followed in the Sonthal Parganas is strictly legal in view of the fact that the Legal Practitioners Act is not in force in that district. That is the real gist of the question, and that is the difficulty which is met by the amendment of the Hon'ble Rai Shiba Sankar Sahay Bahadur.

"The administration of the Sonthal Parganas is different from that of the rest of Bengal, and the origin of that difference lies in the history of the district. The district was formerly a tract of jungly land lying between Bhagalpur and Birbhum. During the first half of the 19th century that jungle was rapidly cleared and occupied, mainly by Sonthals. The whole of the northern portion of that tract was administered from Bhagalpur. The ordinary courts exercised jurisdiction and the ordinary laws and regulations were in force. As is too often the case in backward districts and among a backward people, those laws and regulations were abused, the procedure of the courts was abused, and the result was a feeling of great discontent among the aboriginal inhabitants. Rapacious underlings of Government, avaricious mahajans and oppressive landlords combined to oppress the people. The result was that, in June 1855, a body of 10,000 Sonthals assembled in the Barbait valley in the Damini-Koh and rose in rebellion. They declared war against all mahajans, zamindars and rich Bengalis. They defeated the Hill Rangers who marched from Phagalpur to deal with them, and they proceeded to loot and murder. It was

not till the end of the year that 8,000 regular troops succeeded in suppressing the rebellion. As a result of the rising and of the discontent which led to it, the administration of the district was reformed. The tract which now form Sonthal Parganas were taken over from the districts of Bhagalpur and Birbhum, and formed into a separate district and removed from the jurisdiction of the ordinary law courts. The ordinary regulations and laws ceased to have effect, and a paternal system of Government was introduced, under which it was desired that the people and the hakims should come into personal touch, and justice should be administered in a paternal way without the intervention of legal practitioners. The system worked well for several years. In 1863, a legal ruling was obtained to the effect that the Regulation barring the operation of the ordinary law, could only have a retrospective effect. Laws passed after 1855 were therefore held to be in force, among others the Rent Law and the Code of Civil Procedure. The enforcement of the ordinary laws in regard to rent and debt led to gross evils. They were followed by discontent, and in 1871 a further rising of the Sonthals was feared. They began to assemble in numbers, and the Bengali inhabitants of the district prepared to fly. Again a reform of the administration had to take place. Regulation III of 1872 was passed. The operation of the ordinary law was again barred, and, among other things, the right of practising within the district which had begun to be exercised again was withdrawn from legal practitioners. From that time to this, with certain modifications, that system has been observed. Such is the origin of the peculiar administration of the Sonthal Parganas.

"The present position as regards the employment of pleaders in criminal cases is as follows. As we have already had explained to us, the pleader used in the ordinary sense, a pleader enrolled in one of the courts subordinate to the High Court of Calcutta and authorised to practise under the Legal Practitioners Act, has no legal existence in the Sonthal Parganas. He has as little or as much right to practise as a pleader there as a pleader enrolled in the Bombay or in the Madras High Court. There is no law in force there which gives a legal status to any similar class of legal practitioners. Whenever any one, therefore, is permitted to appear in a criminal case, he appears as a person specially authorized under the second branch of the definition contained in clause 4(r) of the Code of Criminal Procedure. In actual practice, in cases in which the Crown prosecutes in criminal cases, in which the Court Inspector appears on behalf of the Crown, it is obviously fair that the accused should have legal assistance, and in such cases an application on behalf of a legal practitioner to represent the accused is never refused. I say never, because that is the practice. I am not prepared to say that no individual magistrate in a moment of aberration or unwisdom has ever refused such permission. The practice of the district is that, in cases in which the Crown prosecutes, no obstacle is put in the way of the accused being represented. In complaint cases, and in criminal cases between parties of less importance, where the complainant bears the cost of the prosecution, a discretion is exercised. Very often such cases are really civil disputes. Very often they are trivial disputes between two villagers, which can best be decided by a magistrate acquainted with the people, who calls the parties before him, hears them in the presence of their fellow villagers, and generally has small difficulty in finding out exactly what has beprened. It is not always to the adventage of the administration of has happened. It is not always to the advantage of the administration of justice that pleaders should be engaged in such cases. The question of how far it is advisable that pleaders should be engaged in all cases may be approached from two sides—from the point of view of the potential pleader and from the point of view of the potential criminal or, rather, of the potential litigant. When I was in the Sonthal Parganas, gentlemen frequently came to me and asked for permission to practise in the district as pleaders, they pointed out that they were unable to make a living in the district in which they were at the moment and that the Sonthal Parganas appeared to present a virgin field for their abilities and the prospect of a handsome income. That no doubt was perfectly justifiable from their point of view, but it does not follow that it was in the public interest that these gentlemen should earn a

A ...

livelihood at the expense of the people of the Sonthal Parganas. To regard law courts as established for the purpose of maintaining pleaders in comfort is to transpose cause and effect. From my own experience, there are plentiful arguments to be found to show that the people are not always so anxious to secure the expensive service of legal practitioners as perhaps the latter themselves would think. In civil appeals where points of law were involved, I have frequently urged the parties to engage legal practitioners in order that I might be saved considerable trouble, and, in two cases out of three, they preferred to leave the matter to the unaided decision of the Deputy Commissioner. Any system may be abused. The system under which the conduct of cases is left to the sole discretion of legal practitioners may also perhaps be abused, but there are many independent authorities, such as missionaries and European zamindars residing in the Sonthal Parganas, who bear testimony to the general satisfactory working of the law courts in the district.

"We hear much now-a-days of a movement in favour of discouraging excessive and ruinous litigation. At every conference people are urged to return to the ancient system of having their disputes settled by the old village panchayats. The object of the Sonthal Parganas system is to attain many of the advantages of the old panchayat system. There will be no cheap and speedy justice at the hands of a panchayat if lawyers are paid Rs. 100 or Rs. 1,000 a day to argue the cases.

"Whatever changes may be made in the future the system cannot be said to be the outcome of perversity or of prejudice against any class of the population, but it is the result of a bond fide effort made by experienced administrators to bring cheap and speedy justice to the door of the cultivating classes."

The Hon'ble Maulvi Faker-up-din said :-

"Sir, the Resolution and the amendment which have been ably moved and elaborately discussed by the Hon'ble Movers of the original resolution and the amendment do not require any further elucidation, and are such as should be accepted by Your Honour and this Council without any support.

"However, in order to keep up the formality, it is highly desirable to offer my hearty support, though I am afraid I may not be able to add anything to what has already been said by the Hon'ble Movers of the original motion or the amendment.

"I may, however, seek the indulgence of Your Honour's permission to submit one thing, viz., that in pleading for the extension of the application of the provisions of the Legal Practitioners' Act to the court of justice in the Sonthal Parganas, I am not at all actuated by a feeling akin to a professional leaning which, at times, any member of the profession may be unconsciously or even consciously led to entertain, but purely by a sense of humane consideration for all classes of His Imperial Majesty's subjects whether residing in the hearts of the City of Palaces or in thick jungles and mountain passes within this vast Peninsula.

"Whatever may be the misconceived views and notions about the usefulness of the existing Bar in India, i.e., when you look upon it from a particular standpoint of a certain class of Indian politicians and administrators, I can safely assert that with all its shortcomings, assumed or otherwise, through the agency of our profession many an innocent life has been saved from awful ends.

"In short, without enlarging upon the point in connection with the subjectmatter before the Council, it can be justifiably contended that, but for the unestimable blessings and advantages of this agency, the litigants in general might have been led to doubt in the fair fame of the absolutely impartial justice which we are all receiving in His Majesty's Courts of Justice in this country. "It may well be inquired, therefore, why the poor inhabitants of the Sonthal Parganas have been virtually denied the right of availing themselves, as of right, of this agency. It is a virtual denial, for the non-application of the provisions of the Legal Practitioners' Act to the Court, or rather to the Bar there, is tantamount to that.

"The Hon'ble Mover, I think, is perfectly right in pointing out that under Regulations III of 1873 and II of 1866, and by notification contained in the Bengal Government letter No. 5581J., dated the 13th December, 1895, the entire provisions of the Code of Criminal Procedure are in force in the district of the Sonthal Parganas, and the definition of the word 'pleader', as given in the Code itself, read together with section 340 of the said Code, makes it very clear that an accused has a right to be defended by a pleader in the district of the Sonthal Parganas as well. But the Legal Practitioners Act, 1879 (XVIII of 1879), which is presumably referred to in the definition of the word 'pleader' in the Code of Criminal Procedure, has not been extended to the Sonthal Parganas, and hence a pleader has got no legal status in that district, and he, as a matter of right, cannot appear in any Criminal Court in the district.

"Sir, the services of a pleader are required to help the cause of justice, and a few instances quoted by my friend the Hon'ble Mover would tend to convince Your Honour and this Council how the rulings of the Highest Tribunal have been set at naught by the Magistrates of the district in the Sonthal Parganas, and what grave injustice has been done to the accused on account of either ignorance of law and rulings or incorrect appreciations thereof by the Magistrates concerned.

"No doubt the Magistrates have been vested with discretionary power in the matter of granting permission to the accused to engage a pleader to defend him, but Your Honour has heard in how many cases such discretions have been improperly exercised. We know that, in case of improper exercise of discretion by the Magistrate, the accused has a right to go up to the Commissioner of Bhagalpur with a view to secure the permission for the engagement of a pleader after getting the order of the Magistrate set aside. This may be easy in conception, but in practice it is very difficult.

"Sir, look to the inconvenience, trouble, expense and harassment to which an accused is likely to be subjected in securing the reversal of the order of the Magistrate refusing to grant permission to the accused to engage a pleader, and, after all, Your Honour and this Council have yet to consider as to how many of them are in the position of moving the Commissioner in such matters.

"It was no doubt in the interest of public policy that the Legal Practitioners Act was not extended to the Sonthal Parganas, but the time for such a policy has gone. Are the residents of that district still so backward or such savages or uncivilised as to receive punishment without being heard? Does it look fair and equitable that in the same district European British subjects have got the privilege of getting themselves defended by pleaders, and that even Indians if tried along with European British subjects have that privilege extended to them, but that the same privilege is refused to an Indian British subject if he happens to be the only unfortunate accused. A question legitimately arises as to how it is that, when the provisions of the Legal Practitioners Act have not been extended to the Sonthal Parganas, European British subjects have a right to engage pleaders to defend them, and why the same right is refused to an Indian British subject? It is difficult to understand this anomaly; the Government may be in a position to explain the reasons for such a distinction and how and when and under what circumstances this privilege was given to the European British subject. Would it not be an act of bare justice to endeavour to remove such invidious distinctions, which only tend to emphasize the popular impression that the scale of justice is not held even between Europeans and Indians.

"As regards the public policy, a question arises, what is the underlying principle of such a policy as to pass sentence upon an accused without giving him an opportunity of proper representation of his innocence? The accused may be a brute, may be most uncivilized, but the policy of our benign Government is to do even-handed justice to each and all. The more uncultured people they are, the greater is the need of legal assistance to such people, as without such assistance it is impossible for them either to show the falsity of the charge laid against them or to prove their innocence. Sir, if justice has to be administered according to laws of the land, it is fair that attention of the Tribunal should be drawn to such laws in the light of interpretations put by different High Courts. And who is expected to do that? Can you expect such things from the accused himself? Certainly not. This can only be done by lawyers. To refuse permission to the accused to defend himself by a pleader means to refuse justice to him. It means an arbitrary order of conviction or acquittal without any reference to law, rule or procedure.

"There is another anomaly which has yet to be explained. If the property of a certain value exceeding Rs. 1,000, belonging to a person resident of the district of the Sonthal Parganas is at stake, he has a right to engage a pleader to protect his civil rights whether he is plaintiff or defendant. But if the life and liberty of the same man, however wealthy he may be, is at stake, he has no right to engage a pleader to defend himself without the permission of the Magistrate. It appears to me that the life and liberty of a person in the Sonthal Parganas, however rich and wealthy he may be, has a value equivalent to less than rupees one thousand, for otherwise it is hard to find any explanation for such an anomalous position.

"With these few words, I strongly and whole-heartedly support the motion. To me it appears that the original motion and the amendment are one and the same; the amendment has made the motion more explicit and clear. It is all the same whether the original motion or the amendment be accepted."

The Hon'ble Mr. Das said :-

"Your Honour,-It was not at all my intention to speak on this resolution, but after having heard the Hon'ble Mr. Bompas, I feel it my duty to say a few words. He has very clearly put in a very lucid speech the history of the system which now exists in the Sonthal Parganas, and no doubt anybody who studies that system would come to the conclusion that the system is one which found justification in the past history of the tract. The Hon'ble Mr. Bompas has also put before the Council two sides of the question—one is the Pleader's point of view of the question, and the other is the Administration point of view. Certainly no person-not I, at any rate-should advocate any proposal under which a number of pleaders or lawyers should be let loose on the illiterate and ignorant people of the Sonthal Parganas to fleece them. But at the same time, the resolution does not aim at letting loose the pleaders on the ignorant people, but the resolution is worded so as to leave us in no doubt as to the intention of the hon'ble mover. The resolution proposes that when an accused person wishes to be defended, he should be given an opportunity to secure the services of lawyers. The last two years' Budgets in this Council have shown that the services of lawyers are very valuable even in the Metropolis of the British Empire. I have read of a case where the Magistrate trying a case in the Sonthal Parganas came to a very curious legal conclusion. A person against whom a case was proceeding died, and his son was arraigned for his father's offences. The Magistrate held that if the son inherited his father's property, why should he not also be punished for an offence committed by the father? That was probably a very sensible view to the trying Magistrate. It is not difficult for us to conceive that some Deputy Magistrate would adopt such an interpretation of the law. I submit that the greatest benefit we enjoy under British rule is Justice, and the foundation of the British Empire rests on our appreciation of British Courts of Justice. In certain cases where justice is miscarried owing to the ignorance of the persons entrusted with the administration of justice, it is a discredit to the Administration. The question before the Council is that accused persons in the Sonthal Parganas should be given an opportunity of defending themselves by pleaders if they so wish, not to allow pleaders to fleece the ignorant people. Having that in view, I submit that the resolution ought to be accepted by the Council."

The! Hon'ble Mr. DUKE said :--

"Sir, I have observed that the Hon'ble mover and supporters of the resolution, although they have given a very lucid and detailed explanation of the judicial system which prevails in the Sonthal Parganas, and of the regulations which are in force, have, in fact, avoided any reference to the circumstances which have occasioned that district to be administered under a different system to the rest of the province, or any explanation of the reasons why the inhabitants labour under what they consider to be disabilities as compared with those of other districts. The reasons have been very sufficiently explained in the history of the district by the Hon'ble Mr. Bompas, who has relieved me from going particularly into the matter. Briefly, the state of the case may be summarised by saying that it was found impossible for the Sonthal aboriginal population to live under the same polity and judicial system as their more advanced neighbours, since they had neither the intelligence, education, nor any of the mental qualities necessary to defend their interests when they were called in question, and, therefore, they were being gradually expropriated from their ancestral lands and reduced to a condition of serfdom. This once produced a bloody rebellion accompanied by serious massacres and horrible atrocities which it required much display of military force to put down. Even then the lesson was only partially learnt. The nature and personnel of the administration was changed, but the legal system was not effectively changed. The Hon'ble Mr. Bompas has explained how, by degrees, the old Bengal system began to creep back, and how again after 16 years another rebellion was very narrowly averted. Gentlemen, this matter may seem to be ancient history, which has little application to the present day, since for the last 40 years the Sonthal Parganas have enjoyed peace and prosperity and have made great progress. Of course it is open to argument that in such circumstances the administration may be altered, made more progressive, and brought more into line with the rest of the province, but lessons such as we have in the history of the district are not to be lightly put aside, and it is clearly also open to us to argue that the peace and contentment of the district are very greatly due to the simple patriarchal system under which it has been administered. It perhaps would be hopeless to try to convince lawyers that there can be too much law or too many legal practitioners, but still it is a curious circumstance that in the present day, in parts of the country very different to the Sonthal Parganas, the increase of litigation and the ruin which it works are being constantly referred to. It' is one of the favourite subjects of the public press, and various systems and schemes for reducing the amount of litigation, by a wider resort to private arbitration, are constantly being discussed and advocated. When that seems to be the tendency of the day, we should naturally hesitate before we take steps to promote the increase of litigation in the Sonthal Parganas. Now it may be said that the limited scope of the resolution can hardly have much effect in increasing litigation. It would, however, have some effect, and from one point of view, I may say at once, from my own point of view, the amendment of the Hon'ble Rai Shiba Shankar Sahay Bahadur is more objectionable than the original resolution, for what it really amounts to is this;—it proposes the introduction of the Legal Practitioners Act which has hitherto been 1879. excluded from the Sonthal Parganas, and even something more than that, for according to it, so far as regards criminal cases, every sort of practitioner who is authorized under the Legal Practitioners Act or enrolled in a High Court, 1879. would be able to practise in this particular district.

Act XVIL

Act XVIII 1879.

"The liberty of practice would be greater than even in the courts of the ordinary districts, for there the pleader has not only to have the

authority of the High Court to practise, but has also to enroll himself in the courts of the district. The amending resolution would, in fact, open the way to the unrestricted practice of every kind of legal practitioners in the Sonthal Parganas. Now, it is of importance that the number of authorised legal practitioners there should not be increased to such an extent that they must, in order to procure a living, themselves foment litigation and stimulate its increase. At present there is a fair number of persons authorised to practise as pleaders in the Sonthal Parganas, but the numbers are watched, and they have never been allowed to reach the point where any excessive degree of competition is likely to prevail. The principal objection which I have to the resolution is that it would be difficult to admit it and at the same time to exercise any control over the number of persons practising in the courts. What actually happens in the Sonthal Parganas is, as you have been told by the Hon'ble Mr. Bompas, that in all cases conducted by the police, no obstacle is put in the way of the accused being represented, and in a great majority of complaint cases, the same is the case. An examination of the figures shows that in upwards of three-fourths of the cases in which the accused desired to be represented by pleaders, permission was granted, and generally, where it has been refused by the lower courts, the superior courts have shown extreme consideration in granting permission. To go beyond that point and insist that in all cases pleaders should be permitted, is another matter. As long as pleaders are limited, it may not be always possible for both parties to be represented, and the general principle has been that, when the parties are persons of the same class and both desire it, the privilege should be granted, but that it should not be allowed when it is to result in a man of superior position making it impossible for an aborigine to obtain justice and that is what practically must be the case if the party who is al

"So long as that is impossible, it is impossible to lay down that the discretion which is now vested by law in the officers of the Sonthal Parganas should be entirely done away with and that pleaders should appear without

reference to them.

"Government, however, recognise that the Sontbal Parganas system is not necessarily unalterable. With the advance of civilisation and education, it may have to be modified. The conditions are not the same in all parts of the district; they are not the same in parts of Rajmabal and Deoghur as in the wilder subdivisions, but in the Damin-i-koh and in a very great part of the district they are still exceedingly primitive and the same watchfulness is as necessary now as it was 40 years ago. The length to which the Government are willing to go in the present case,—and I trust it will be recognised that it is a considerable concession,—is that what we have been told is the practice will now be made a rule or instruction binding upon the officers, namely, in all cases in which the Government are the prosecuting party the accused shall have a right to be represented by an approved pleader if he so desires; while in complaint cases, that is to say, in all cases where the task of prosecuting falls on the complainant, the accused may be defended by an approved pleader, that is by a pleader who has been approved for practice in the Sonthal Parganas, unless the Subdivisional Officer considers, for special reasons to be recorded in writing, that he should not be so allowed. It will be observed that this is a very substantial reduction of the unfettered discretion which has hitherto been allowed to the officers. If the presiding officer of the court considers that the accused should not have the advantage of appearing by pleader, the onus will now be put on him to record his reasons, instead of its being put on the party to show cause by way of appeal why the concession should be permitted. Thus far Government are prepared to go by means of executive instructions, and I think it ought to be recognised that this is as far as it is possible to go in meeting the views which have been put forward by the supporters of the resolution."

The Hon'ble Mr. Saiyid Wasi Ahmad then withdrew his resolution in favour of the amendment moved by the Hon'ble Rai Shiba Shankar Sahay Bahadur.

The PRESIDENT said :-

"Will the Hon'ble Mr. Wasi Ahmad and the Hon'ble Rai Shiba Shankar Sahay Bahadur, after hearing from the Hon'ble Mr. Duke the extent to which Government are prepared to meet the object of the resolutions which have been moved, be prepared to accept that and to regard their resolutions as withdrawn?"

The Hon'ble Mr. SAIYID WASI AHMAD said :-

"Sir, I accept the Hon'ble Rai Shiba Shankar Sahay's amendment, but the improvement proposed by the Government does not exactly meet the case that we have put before the Council. It seems to me, Sir, that there is a notion that we want to make the Sonthal Parganas a happy hunting ground for hungry lawyers. It is unfortunate that none but lawyers in this Council have tried to move or support this resolution. It would have been better if some of the zamindars had come forward to our rescue. But, as we are always dealing with such cases, we thought that justice demanded that this resolution should be brought before Your Honour, and I think that it would be making again an invidious distinction if the proposal as stated by the Hon'ble Mr. Duke is given effect to. I am glad that the Hon'ble Mr. Bompas had something to say in connection with this resolution, but it seems to me that an accused ought to be allowed, on principle, to defend himself, if he so desires, and that no other suggestion, of any sort whatever, can be accepted by any one among us. I find that a distinction has been made between Crown cases and cases of complaints, on the suggestion of the Hon'ble Mr. Duke. In the former case, the accused would be allowed to defend himself by a pleader, but I am afraid, Sir, that when a private person who happens to be a rich man, chooses to prosecute or persecute another person, it would be unjust and unfair not to allow that person to be defended by pleaders.

The Hon'ble Babu Bhupendra Nath Basu said :-

"Your Honour,

I beg to ask whether the Hon'ble Mover is replying to the Hon'ble Mr. Duke, or is he speaking further on his motion, as there are some other Hon'ble Members who also wish to speak."

The President said:—I regret to say that the time limit for the discussion of the resolution has expired. I am afraid there is no probability of any other Hon'ble Members being able to speak. It is only as a matter of concession that I have allowed the Hon'ble Member to go on.

The Hon'ble Mr. SAIVID WASI AHMAD said :-

"I am very anxious about the time-limit. I was very anxiously looking at the clock—and although the Hon'ble Members who replied occupied half the afforted time-limit—I must express myself with a very few words more, though we are a quarter of an hour more than the expected time. I fully appreciate the amendment of my hon'ble friend that an accused person should be defended by any class of lawyers if heso desires. I am afraid, Sir, that we cannot accept the suggestion of the Hon'ble Mr. Duke, and I would certainly, in the circumstances, ask for a division on my resolution, accepting the amendment of my hon'ble friend, Rai Shiba Shankar Sahay Bahadur."

The amendment being put to the vote, a division was taken, with the following result :- He had and held and all became distinguished with the sure of

QUESTIONS AND ANSWERS.

PRIMARY AND MAKTAB EDUCATION.

The Hon'ble Mr. SAIYID WASI AHMAD asked:-

I .- Will the Government be pleased to state the amount spent by each of the District Boards and Municipalities in the Patna, Bhagalpur, Tirhut and Chota Nagpur Divisions on Primary education during the last three years, and what percentage of the whole was spent on Maktab education? The Hon'ble Mr. Cumming replied:

I.—"Government are not in a position to supply the comparative statistics of expenditure on maktab and other primary education asked for by the Hon'ble Member. It may be pointed out, however, that until the recent revision of the Local Self-Government Act, District Boards, although they were entitled to aid Muhammadan schools following the ordinary courses of vernacular instruction, were not entitled to aid maktabs, i.e., Koran schools."

The Hon'ble Mr. Saiyid Wasi Ahmad asked: -

- II.-Will the Government be pleased to state-
 - (a) what was the maktab grant from the Provincial revenues to each of the districts of the Patns, Tirhut and Bhagalpur and Chota Nagpur Divisions during the years 1908-09, 1909-10, 1910-11 and 1911-12, and
- b) whether such grants were sufficient to meet the requirements of the maktabs following the Departmental Syllabus?

The Hon'ble Mr. Cumming replied:-

- II.—(a) "The particulars desired with regard to the aid granted from Provincial revenues to maktabs in each of the districts of the Patna, Tirhut, Bhagalpur and Chota Nagpur Divisions during the year 1908-09 to 1910-11 are set forth, in so far as they are at present available, in the statement which is laid on the table. The distribution of the maktab grant for the years 1911-12 has not yet been determined.
- (b) Government have no definite information as to whether the grants are insufficient"

Statement referred to by the Hon'ble Mr. Cumming in the answer to Question No. II.

Name of District and Division.	Grapt made in 1908-1909.	Grant made in 1909-1910.	Grant made in 1910-1911.

or total	10,150	16,746	21,198

The Hon'ble MR. SAIYID WASI AHMAD asked :-

III.—(a) Do all maktabs in the Bhagalpur and Tirhut Divisions follow the Departmental Syllabus?

(1) What grants in-aid are they allowed by Government?

The Hon'ble Mr. Cumming replied:-

III. - (a) "The answer is in the negative.

(b) The rates for grants-in aid to maktabs, following the departmental syllabus, are as laid down in Mr Earle's letter of the 16th June, 1908, to which the Hon'ble Member has referred in his questions. The actual amount of the total grant in-aid is given in the statement laid on the table."

The Hon'ble Mr. SAIYID WASI AHMAD asked :-

IV — Will the Government be pleased to call for a statement from each of the Educational Divisions of Bengal, showing the number of maktabs in each of them and the amount required for aiding them on the scale laid down in paragraph 52 of the Hon'ble Mr Earle's letter No. 246—T, of the 10th June, 1908, to the address of the Government?

The Hon'ble Mr. Cumming replied:-

IV.—"Government have already in the last financial year called for statements from each of the educational divisions of Bengal showing the number of maktabs in each of them, and the amount required for aiding them on the scale to which the Hon'ble Member refers. The amount, as elicited from these reports, is Rs. 51,908. Provision has been made to the extent of Rs. 45,000, and endeavour will be made to bring the provision up to the required total, if possible."

The Hon'ble Mr. SAIYID WASI AHMAD asked :--

V.-Will the Government be pleased to refer to paragraph 44 of the Hon'ble Mr. Earle's letter mentioned above, and state-

- (a) how far the recommendations made therein, respecting the appointment of Inspecting Maulvies, have been given effect to, and
- (b) whether it is intended to give one such officer during the next financial year to each of the districts of Mong yr and Purnea?

The Hon'ble Mr. Cumming replied:-

V.—(a) & (!) "Owing to the financial situation it has not been found practicable to give effect to the recommendations made on the subject of the appointment of additional Inspecting Maulvies. It is not intended to appoint an Inspecting Maulvi to each of the districts of Monghyr and 1 urnea during 1911-12."

The Hon'ble Mr Saivid Wasi AHMID asked :-

VI.—Will the Government be pleased to refer to paragraphs 37, 38 and 39 of the Hon'ble Mr. Earle's letter mentioned above, and state—

- (a) how many applications for Government grant were received from Madrassas in the Bhagalpur Division during the year 1911-12, and
 - (b) how they have been disposed of?

The Hon'ble Mr. Cumming replied :-

VI.—(a) & (b) "Two Medrasses in the Bhagalpur Division, viz., the Madrassa Anjuman Hemayet Islam, Monghyr, and the Madrassa Anjuman Islamia at Kissenganj, applied for Government assistance in 1910 11. In the case of the firmer correspondence is still priceeding. It is proposed to sid the latter with effect from the 1st April, 1911."

THE COURT OF SMALL CAUSES, CALCUTTA.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked:

- VII.—(a) Has the attention of the Government been called to complaints in the Press and outside the Press about the congested state of business in the Calcutta Court of Small Causes?
- (b) Would it please the Government to state whether and how far such complaints are well founded?
- (c) Is it a fact that such congestion affects work both in the Courts and in the offices, and that the congestion exists mostly in the 5th Court, and that there is considerable congestion in the 3rd and 4th Courts?
- (d) Would the Government be pleased to state the reasons of such congestion?

The Hon'ble Mr. CHAPMAN replied :-

- VII.—(a), (b) & (c) "The Government are aware that complaints are being made about the congested state of business in the Calcutta Court of Small Causes and that there is in fact some congestion in the 3rd, 4th and 5th Courts.
- (d) The congestion does not appear to be due to any actual increase in the volume of business for disposal. The Government are not prepared at present to state any opinion as to the reasons for the congestion, but it is believed that the pending file will shortly be reduced to normal proportions."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked:-

- VIII.—(a) Has the Government received any representation or suggestion for strengthening the Ministerial Department of the Court, by the appointment of a Deputy Registrar or otherwise?
- (b) If so, when and by whom was such representation or suggestion made, and what steps have been taken for giving effect to the same?
- (c) If no steps have been taken, would the Government be pleased to state the reason of such omission, and whether it proposes to take any steps for strengthening the Ministerial Department of the Court, and, if so, when?

The Hon'BLE MR. CHAPMAN replied:-

- VIII.—(a) & (b) "An application for the appointment of a Deputy Registrar was made in 1908 by the Chief Judge; the Government did not accede to the application, mainly upon financial grounds. No other representation or suggestion for strengthening the Ministerial Department of the Court has been received.
- (c) Should the Judge move again for the appointment of a Deputy Registrar, the proposal will be carefully reconsidered."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked:-

IX —Would the Government be pleased to consider the necessity of appointing an additional Judge for relieving the congestion in the Court?

anterior surfaciona la solita en

The Hon'ble Mr. Chapman replied:

IX.—"No application has been made for the appointment of an Additional Judge, and there does not appear to have been any increase in the volume of business for disposal to justify such an appointment."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked :-

- X .- Would the Government be pleased to furnish a statement showing-
 - (a) the income derived from the Calcutta Court of Small Causes during the last five years,
 - (b) the expenditure on account of the said Court during the same period, and
 - (c) the number of cases instituted and disposed of during the sameperiod, and the number of cases now pending?

The Hon'ble MR. CHAPMAN replied :-

X .- "The statement asked for is placed upon the table."

Statement referred to by the Hon'ble Mr. Chapman in the answer to Question No. X.

PROMOTIONS OF INDIAN ASSISTANT SUPERINTENDENTS OF POLICE.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked:-

- XI.—(a) Would the Government be pleased to state how many Indian-Assistant Superintendents of Police who were promoted from the lower ranks, superseded European Assistant Superintendents who were appointed direct?
- (b) Was any Indian Assistant Superintendent, from the date of his promotion to that rank, given four or even three grade promotions in four years?
 - (c) If so, how many?

The Hon'ble Mr. Stevenson-Moore replied :-

XI.—(a) "Two.

(b) & (c) The answer is in the negative."

PROMOTIONS OF DEPUTY SUPERINTENDENTS OF POLICE.

The Hon'ble BABU DEBA PRASAD SARBADHIKARI asked:-

- XII.—(a) Will the Government be pleased to state the periods during which the six Deputy Superintendents who received direct appointments officiated as Superintendents?
- (b) Did they act in their own districts, or did they go to some other district during the period of such acting appointments?
- (c) Will the Government be pleased to state the periods during which the Deputy Superintendents promoted from the rank of Inspector officiated as Superintendents?
- (d) Did they act in their own districts, or did they go to some other district during the period of such acting appointments?

- (e) Will the Government be pleased to lay on the table a statement showing, as regards Deputy Superintendents promoted from the rank of Inspector, their University qualifications and their rank and pay when they first joined the Police service?
- (f) Will the Government be pleased to mention the occasions on which these officers were promoted in supersession of their colleagues while in the subordinate service?

The Hon'ble Mr. Stevenson-Moore replied: -

XII.—(a) & (b) "A statement is laid on the table:—

- (c) & (d) A statement is laid on the table :-
- (e) A statement is laid on the table :-
- (f) This information is not readily available and Government is not prepared to call for it, since its collection would involve an amount of labour quite incommensurate with the value of the results."

THE BENGAL BUDGET FOR 1911-12.

The PRISIDENT said :-

"The next business gentlemen, is the discussion of the Budget, and, I think, it will be convenient if the non-official Hon'ole Members will speak first and then the Members on behalf of Government will make their replies. The time-limit has been fixed at 15 minutes except in the case of the Finance Member."

The Hon'ble BABU BRAJA KISHOR PRASAD said :-

"Your Honour,—I wish to make only a few observations on the Budget and those in connection with the policy of the Government with respect to the educational needs of Bihar. When, at the final discussion of the Budget last year, most of us from Bihar pointed out the step-motherly treatment met dout to our Province in the matter of the Government grants-in-aid to our colleges and that in spite of the fact that more than one-half of the total revenues raised in the

Lower Provinces is contributed by Bihar, the Hon'ble Mr. Küchler, in defending the action and attitude of the Government, took up the position that the standard of comparison between Bihar and Bengal proper should not be the areas or the populations of, or the amount of revenues raised in, the two tracts of the country, but the number of University students in the two parts of the Province. In other words, the true test of comparison, according to him, should be the demand for University education in the two parts of the Province. And, I believe, I succeeded in showing the other day how the help of this standard is invoked only when Bihar Colleges are concerned; for we find that though in Chota Nagpur the demand for University education is not even half of that in Bihar, yet, while all the private colleges in Bihar taken together get little or nothing, the Hazaribagh College gets Rs. 12,000 a year as Government grant-in-aid, even from the very year in which it was affiliated as a first-grade college. This year, when, at the preliminary discussion of the Budget, I moved a resolution requesting the Government to allot Rs. 14,000 for strengthening the tutorial staff of the Government and zilla high English schools in Bihar, and Rs. 24,000 for assisting the public high English schools at the head-quarters of the subdivisions in the districts of Bihar, the Hon'ble Director of Public Instruction met me with the reply that it would be obviously unfair to apply to the improvement of Bihar schools money which was not at the same time forthcoming to effect a general improvement in the standard of secondary education throughout the Province. We fail to understand the logic of the Director of Public Instruction. The matter is simple enough. The people of Bihar do stand in urgent need of help to their schools, while circumstances in Bengal proper do not make any such necessity for improvement in Bengal schools felt by the people. On account of the paucity of high English schools in a Bihar district, the University regulations fixing the number of students for each class operate with great hardship on the Biharis. The resources of the existing schools do not permit the opening of the required number of sections in each class, and boys are refused admission. I believe nothing of this sort is felt in Bengal proper, where a sufficient number of well equipped high English schools meet the necessities of the situation. Under such circumstances, is it fair for the Government to refuse our request to increase the number of teachers in the zilla schools of Bihar? The Hon'ble Mr. Küchler says it would be unfair to take any steps to improve the Bihar schools without at the same time taking some measures with regard to the other schools in the Province. But is it fair, Sir, to raise lots of revenues from a people and not to attend properly to their educational needs and requirements? And is it fair, Sir, to spend the revenues raised in one part of the Province, with existing crying educational needs, to the purposes of another part, whose necessities are not so great. Strange seems to us to be the idea of fairness set up by the Director of Public Instruction. And I am sure the Government does not endorse any such idea. The relation of a Government to its subject is parental, and, like good parents, it is the duty of good Governments to pay more attention to the needs and necessities of a younger and weaker community of people than to that of a stronger one which may be strong enough to stand unaided. The special facilities afforded in everything, including educational matters, to our Muhammadan brethren, clearly prove the solicitude of the Government for the improvement of backward communities. Bihar, in comparison with Bengal, seems to be similarly circumstanced, and, therefore, needs special treatment in matters of educational grants. Mr Pope, a great educationist, who was for a considerable time Inspector of Schools, Bihar Circle, and was well acquainted with its needs, strongly advocated the adoption of a separate policy for the educational affairs of Bihar. In his annual report of 1885-86 he said: 'I would specially and strongly call attention to the necessity of not including Bihar with Bengal in matters of educational policy. They need separate treatment; what suits the one will not suit the other. I ask in the interest of education in Bihar that in all conferences and committees that may sit to deal with education, education in Bihar may be duly and specially represented; also that the grant-in-aid allotment be considerably increased, in order that the Biharis may have

the same advantages with their Bengalee brethren'. Another authority on Bihar educational affairs, viz., the late Dr. C. R. Wilson, Principal of the Patna College, advocated a similar policy for Bihar in 1899-1900. And we have the living authority in our hon'ble colleague, the Member for the University, who very properly said the other day: 'Bihar has a special feature as regards school education; there is not a sufficient number of private schools such as one meets with in Bengal, and, therefore, some preferential treatment is necessary with regard to the schools there.'

- "I, therefore, earnestly hope that the Government will be able to give this subject its serious consideration, and do the needful in the matter.
- "The other point, which I had a mind to touch, is the Government grants-in-aid to our colleges. But, as on this matter, we have, at least as far as the Tirhut College is concerned, the pledge and the assurance given by the Director of Public Instruction that the matter is engaging the attention of the Government, I need not say anything about it.
- "The last matter to which I want to refer is the need of a Professor of Philosophy for our Patna College. When this matter was brought up before the Council the other day by the Hon'ble Babu Bal Krishna Sahay, the Director of Public Instruction was pleased to observe that though, under the scheme initiated by Mr. Earle for strengthening the staff of the various colleges, a Professorship of Philosophy was sanctioned for the Patna College, yet on a subsequent representation made to him that Philosophy was an extremely unpopular subject, it was decided to appoint a Professor of Political Economy and Political Philosophy, and that in a matter of that kind he had to be guided by the people on the spot. Since this pronouncement of the Director of Public Instruction, a very able article on the subject containing facts and figures has appeared in the Biharee of the 31st March, 1911, under the heading Philosophy and Patna College'. I invite the attention of the Hon'ble Mr. Küchler to it. It appears in the light of the figures quoted therein that the theory of the people on the spot propounded by the Director of Public Instruction is altogether baseless. I cannot do better, Sir, than to quote a small paragraph from the said article, which runs thus:—

"Let us see whether there is any truth in the report so solemnly submitted by the "man on the spot" to Mr. Küchler about the unpopularity of Philosophy with the students. At the outset, we confess we are not endowed with the power of reading the hearts of the students, the ex-students, and the would-be students, as the "man on the spot" appears to be, but we shall base our conclusions on figures kindly supplied, at our special request, by the Principal of the Patna College. Taking the average of the four years from 1903-04 to 1906-07, we find that there were 59 students reading Philosophy in the B. A. classes (in each year). Even in the year 1907-08, the year preceding the disaffiliation of the Patna College in Philosophy, we find there were some 31 students of Philosophy in the 4th year class alone, and yet we are told on the authority of the "man on the spot" that Philosophy was an extremely unpopular subject."

"Sir, we, therefore, hope that the Government will take some steps to give us a Professor of Philosophy for our Patna College."

The PRESIDENT said :--

"The Hon'ble Babu Kirtanand Sinha's speech has been circulated to all Members of Council, it may therefore be taken as read if the Hon'ble Member agrees.

The following speech was accordingly taken as read :-

"Your Honour,—The Draft Financial Statement has been supplied to the Hon'ble Members three days earlier than was done on previous years, and it cannot be said that the non-official Members did not take full advantage of the opportunity thus afforded to them. I think much good has come out of those discussions which followed the introduction of the Financial Statement, and which the moving, seconding, supporting and opposing involved. Some

of my colleagues have also secured promises for their favourite projects. I think they have to rest content with that for the present, and to-day we have only to contemplate the budget as a whole and pass benedictions on the various items without in any way changing their character or strength. I hope and trust that greater weight will henceforth be attached to the discussions on the Financial Statement, and that the draft will be circulated earlier, to give greater opportunity, to the Members to digest all the facts and figures and make suggestions and alterations by moving resolutions on different items. It is quite clear from the discussions of the 13th March last that, while many Members were able to secure the support of the Government on the main points of their motion, they tumbled on the question of ways and means, and the position was fully appreciated by His Honour the President, who has promised to consider in the course of the year whether it is not possible to devise some means to give greater facility to the Members for the purpose of picking out items in which reduction can possibly be made. The question is full of difficulties, yet of very great importance to the non-official Members who, after labouring hard on a subject, have to give it up because they cannot indicate the item in which the reduction can be made. I think, if fuller details are given beforehand and if fuller information is made available, the Members may be able to find out means to provide for their projects. But such as it is, the privilege of moving resolutions with a view to modify the different items of expenses in the budget is of little practical value.

"Turning now to the budget which, as I have already remarked, has come out of the ordeal in its original purity, one is surprised to find the enhanced expenditure under the head "Courts of Law", and I regret very much the circumstances which have forced Government to apply such a large amount of the public money to such a class of expenditure. But I fully recognise the necessity for this item of expenditure, and I sincerely hope that this state of things will have a speedy ending.

"I do not grudge the provision of Rs. 50,000 for raising the scale of Government Pleader's retaining fees. On the contrary, I quite doubt whether the provision is quite adequate. If the Government Pleaders were paid for each opinion or each item of work that they do for the Government in cases in the same manner as we, private individuals, have to pay to them, then I believe a much larger provision would be necessary. A distinguished Government Pleader was once heard remarking that if he was to calculate the approximate value of the opinions that he had to give in Government cases with the monthly retainer he got, it would come up to nearly one pice an opinion! And on principle I would like to suggest that their relations with the Government should in no way differ from their relations with their private clients.

"The most pleasing item in the budget is the munificent grant that we have got from the Imperial Government towards Education, though the value of the gift is a little lessened by the fact that it is hedged in by some conditions and limitations, and it will, as was remarked by Mr. Küchler, find immediate expression mainly in bricks and mortar.

"In this connection, I beg to express my satisfaction on the acceptance of the resolution of my friend, Mr. Dip Narayan Singh, for the appointment of a committee to frame definite proposals for the disposal of the special grant. Though the personnel of the committee has been left entirely in the hands of the Government, we have the assurance of His Honour that the public will be allowed a fairly large voice in the committee. I hope Bihar will be adequately represented on the committee, and her claims to a fair share will be carefully considered and given effect to.

"I regret that the distribution under the Technical and Industrial head should be confined to Sibpur College equipment alone. Last year I had taken your Honour's permission to point out the necessity of multiplying the number of technical and industrial schools in Bihar, and I beg to repeat the same, and to observe further therewith that there should be a Central Industrial and Technical School at each divisional centre of Bihar, viz., Bankipore,

Bhagalpur and Muzaffarpur. A conference was held last month at Muzaffarpur at the instance of Mr. Greer, the Commissioner of Tirhut, who, I am glad to acknowledge, has taken a very keen interest in the educational improvement of his division, especially in connection with the Bhumihar Brahman College. The Inspector of Schools, and the Inspector of Technical Schools and the leading gentlemen of the town were invited to consider the steps that should be taken to establish a Technical and Industrial School and a workshop there. I hope their labours will bear good fruit, and that similar schools will be founded at Bhagalpur and other centres. I believe the Government makes a small graut of five thousand rupees to the Bengal Association for Scientific and Industrial Education. I wish that that grant were larger than it is, for no public money is better spent, and, at the same time, I wish to press for the consideration of the Government the claims of the similar Association of Bihar to an even more liberal contribution, considering the backwardness of education in that province.

"Another pleasing feature of the budget is the condition attached to the Imperial grant of rupees one lakh and sixty thousand to the University of Calcutta: while in the preceding year Rs. 80,000 only was set apart for grantsin-a d to affiliated colleges, this year one lakh and ten thousand has been given for the purpose. Bihar colleges, I hope, will have a substantial share of this grant, as their need is far greater than that of the Bengal colleges. My friend, the Hon'ble Babu Braja Kishor Prasad, has been dinning into our ears, in season and out of season, in this Council, the deplorable condition of the Bhumihar Brahman College at Muzaffarpur. This college deserves kind treatment at the hands of the Government. The newly-formed Tirhut Division-once the seat of Sanskrit learning and the home of so many Sanskrit scholars and jurists, such as Yagyabalka and Vachaspati—is very backward to-day in education. In fact, the whole of Bihar is distinctly backward in the matter of education, and Tirbut or Mithila is perhaps the most backward of all Bihar. We are, therefore, beholden to the Hon'ble Mr. Filgate, who has supported the Hon'ble Babu Braja Kishor Prasad and urged that the Bhumihar Brahman College should be put on a sound financial basis, while the local officials and the people have done what they could, and it is now time and the turn of the Government, and I hope the Government will not gradge its support to a really useful institution.

"I find there is an undesirable increase in the revenue from country-spirits in the Bihar districts. Though the public revenue is benefited by this increase of the habit of drinking—the worst weakness of the human race—every well-wisher of the country cannot but view this state of things with a shudder. Drink brings with it theft, murder and other crimes against the society, and the evil ought to be checked with a firm hand even at the sacrifice of public revenue.

"I am sorry our friend, the Hon'ble Mr. Dip Narayan Singh, had to withdraw his resolution about a grant of Rs. 74,000 to the municipality of Bhagalpur for the improvement of the water-supply in the Bhagalpur town. The water-works in Bhagalpur are exercising the ingenuity of capable men—much more, I think, of the Chairman of the Bhagalpur Municipality, who is our colleague in this Council. He must be passing many anxious days and sleepless nights in the dry season, when the Jamuna silts up and the Ganges recedes far away from the place where the water-works are located. The municipality has to concentrate all its energies and apply a good portion of its income to keep the water-supply to the town in a good condition, but still there is no adequate supply. If we were to go through the whole history of the water-works at Bhagalpur, a pathetic tale of continued fight against odds would be unfolded. Once there was a stoppage of water-supply for about fifteen days, and the result was a terrible outbreak of cholera such as had never happened in the town before. I think the time is come when the water-supply of the town of Bhagalpur should form a question for the Government to consider. Lots of proposals from local officials and experts are forthcoming, yet without the helping hands of the Government no suggestion can be given

effect to. We can well understand the reticence of the Chairman of the municipality in this Council, though I do not doubt that if any advance is made towards the consideration of the ways and means to put the water-works on a permanent basis, our friend would be only too glad to co-operate in the matter.

"I will now conclude, as I do not want to take up the time of the Council, and beg to support the budget with these few remarks of mine."

The Hon'ble RAI SHIBA SHANKAR SAHAY BAHADUR said :-

"Your Honour, last year I and a few other Bihar Members had the honour of bringing to your notice what we considered to have been a defect in the Rules for election of Members to the Finance Committee. We are deeply grateful to Your Honour for the sympathetic response that you made at the time, and for the prompt measures that you have since taken in so revising and modifying the Rules as to remove the defect and redress the grievance.

"I hope I shall not be called ungrateful or hard to please, if after the great concession made I have still to point out certain unsatisfactory circumstances connected with the Finance Committee and its powers. When I was elected to the Committee as one of its non-official Members, I could not help feeling as the Hon'ble Mr. Apear said in his last year's Budget speech he felt on a similar occasion, and I regret to state that I have been disillusioned like him. The Finance Committee has proved a veritable Armida Palace; we enter it proud of the honour, proud at the prospect of making ourselves useful, but a slight experience certainly sobers us down, and we tell a different tale as we come out. I hope for better days when the Members of the Finance Committee will have better and more useful work to do.

"Sir; the Finance Committee could not sit this year at the appointed time, because there was an unforeseen delay in getting the sanction of the Imperial Government. It met after the Revised Financial Statement had already been prepared. Under the Rules, the functions of the Finance Committee are confined to the consideration and revision of the Draft Financial Statement, and it is after considering the proposals of the Finance Committee that the Revised Financial Statement can be prepared. This year the Revised Financial Statement was made without such consideration, and the so-called Finance Committee met only after it had, strictly speaking, become functus officio. We are, however, thankful to the Finance Member for having consulted us as regards certain items of the Statement.

"The Rules of the Finance Committee exclude from its consideration (1) all normal expenditure of administration, including normal instances of increase, (2) all cases of new expenditure which is not considerable and which has been fixed at a sum of five thousand rupees or less, and (3) all cases of new obligatory expenditure of over rupees five thousand. So that a very small segment of the circle of expenditure comes within the purview of the Committee. jurisdiction of the Finance Committee, which is certainly very much restricted in its limits, has been filed down this year to almost a geometrical point by the schedule of new schemes costing more than rupees five thousand, given at the end of the Financial Statement, having been entered as obligatory. In the last year's Financial Statement, the schedule of new schemes costing over rupees five thousand attached to the Financial Statement, was not shown as such, and, I suppose, it was not obligatory. Then, I find that many items of new expenditure are not included in the said schedule which one would think contained all items of new expenditure. Take for instance Rs. 3,00,000 for Delhi Burbar; Rs. 19,000 for additional grant to non-official members; Rs. 23,000 for Temporary establishment in the Secretariat Record Room shown at page 14 of the Financial Statement; New Mill Engine at Buxar costing Rs. 9,000 at page 15 of the Statement, and so forth. They are new expenditure and should be shown as such. It does not matter if they were of an obligatory character. My object in making this observation is to draw the attention of the Finance Member to the fact that, if the 1 raft Financial Statement is prepared strictly according to Rule 5 and according to the headings

given in the Hon'ble Mr. Wheeler's lucid speech in Council on the 28th January, 1910, it will be a great improvement.

"Speaking of the Finances and the Finance Committee, I cannot but congratulate the Finance Member on the satisfactory character of the Financial outlook of the province as disclosed in the closing balance of Rs. 85,77,000, as against 70 lakhs of the last year. It is a substantial progress in the right direction, and I hope it will be steadily kept up and improved in future.

"Sir, I now pass on to an agreeable feature of the Financial Statement of this year, viz., the new relation in which the province financially stands to the Imperial Government as the result of the alterations of the terms of the Provincial Financial settlement made by the Government of India.

"The Provincial settlement came into operation in the year 1906 with a fixed assignment by the Imperial Government to meet the Provincial deficit. The Financial outlook of the province was becoming gloomier and gloomier till, to quote Sir Fleetwood Wilson, Bengal bordered on the verge of bankruptcy. It was time, therefore, that change was effected, and a change fraught with important and far-reaching consequences has taken place. For a portion of the fixed assignment have been substituted larger shares of growing revenues. The benefit accruing in the present year, however, gives but a feeble idea of the magnitude of the boon conferred upon the province by the new arrangement. It serves but to open up the avenues of future possibilities.

"The second interesting item in the Financial Statement is the amount set apart for education. The greatness of a Government is tested by the amount it spends upon the education of its subjects. In the light of the above, it is a pleasure to note how the amount spent on education in the province has been growing more and more steadily from the year 1906-07. Last year it was Rs. 59,17,000, this year it is Rs. 70,26,000, and the figures exclude the expenditure by the District Boards and that upon educational buildings constructed and maintained by the Public Works Department. The apportionment of the grant to the various items is just and satisfactory. Equally important is the special grant for Sanitation. It was time that the Sanitation question in Bengal was taken up and grappled with, in serious earnestness. The figures published in the papers of the last Census disclose a reduction of population in some of the districts, that is truly alarming. Malaria in West Bengal and Plague in Bihar are chiefly responsible for it. We hope to see that vigorous steps are taken for successfully fighting these enemies.

"Sir, the last point that I have to touch upon, is the allotment of Rs. 3,00,000 for the Royal Visit. I wish it were more; I wish we could, without in any way interfering with the welfare of the Province, set apart a much larger sum of money to testify in a fitting manner to the feelings of loyalty and gratitude that fill the heart of every Indian at the prospect of His Majesty's visit."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :-

"It is a matter of congratulation that the Provincial revenues have been strong and well managed enough to leave us able to meet more than our normal requirements, and even to indulge in stray superfluities, repatition of which may have to be watchfully guarded against. This is due to the well-organized continuity of financial administration, the lack of which I deplored on past occasions, and the ensurance of which I ventured to predict and hope for under the firm, statesmanlike and sympathetic control of a Ruler who knows Bengal and Bengal finances as well as Indian finances, and could recover our lost caste in the Indian Secretariat. During such a regime we hoped that a more equitable revised settlement with the province would take place, and our hopes have not been belied. It is not given to us under the rules to criticise the policy or details of the settlement that leaves us better to the extent of the by no means negligible sum of seven lakhs and a half a year. But it may be given to us to hope that other provincial grumblers will some day succeed in getting the question reopened so that a little more may fall in our way. I am doubtful about the expediency of immediate and individual grumbling, lest worse should befall us. And the despatches on the subject published a day or two ago do not induce a change of this opinion.

"Members of the Council have had opportunities of tendering their heartfelt thanks to the Government of India for their timely and generous aid of education and sanitation. It is our bounden duty to repeat and emphasize expressions of our sincere gratitude, and it is no less our duty and pleasure to associate Your Honour's name in this connection. There must be genuine and widespread gratitude that the many causes, for which we have been pleading and struggling for the past few years, are receiving steady and substantial help. The manning and equipment of the Government colleges, the strengthening of private colleges, better hostel accommodation for our college and school students, and larger expenditure on sanitation, have been fruitful Budget themes under the old and the new rules, and all these matters will receive more or less attention during this year and the next, and I have no doubt the next and the next again. If this little and nothing more was all that we could claim as a result of our labours, I would take strong exception to the notion gaining abroad that we are a glorified debating society that might profitably invest our time and energies otherwise. In connection with the debate on the revised Financial Statement, I discounted the immediate profitableness of a study of the fly-on-the-wheel order, and I did not stay to calculate the turns of the mighty administration wheels in which non-official criticisms and ventilation—I refuse to call it agitation—may to some extent have assisted. The notion I refer to has, however, since been further gaining ground, and a little of the study of the kind I indicate may not be wholly useless. Dr. P. C. Roy has, after long years of patient waiting, been promoted to the Indian Educational Service, according to the newspaper reports, and if, in the matter of expediting that promotion persistent, non-official criticism has in the least contributed, our energies have not been wholly spent in vain. To Dr. Roy, long enlisted in the World's Educational Service, this promotion when it comes, if it has not yet come, may not mean much, well nigh at the close of his career in the service of Government. But to others who are sure to follow him—and the Budget provision of the year certainly indicates that three more of his deserving colleagues will soon be allowed. to join him in the superior service—it will mean a great deal. The principle once accepted, the Secretary of State may refrain from making direct appointments to a certain extent in England, and may allow Your Honour's Government to reward arduous services of the members of the Provincial Service whose names must be before Your Honour's Government. In the same way, we may claim, with some pardonable pride, credit for the part we have been allowed to take in connection with the betterment of the Provincial, Judicial and Executive Services, the Medical service,—both as regards Assistant Surgeon and the Hospital Assistant grades—the improvement of the lot of ministerial officers of our Courts, and particularly the strengthening of the ministerial staff of the Original Side of the High Court, just sanctioned. And if these results have been achieved during the past three years much more must have preceded, which I have not had the time and opportunity to look up. I may also refer to some negative results. Nonofficial opposition was directed to the undue development of Fraserganj, the expansion of the Golden Crown fisheries, and the precipitate sale of Jorabagan than in view of the purchase of the Duff's College for police purposes. The · Budget before us shows the wisdom of non-official opposition in every one of these cases, though, having regard to the explanations then pressed, such opposition had to give way more or less. These are failures, no less pregnant with result than success. True, we have not been able to achieve all that we wanted to achieve. But I for one am not prepared to sacrifice the essentially oriental virtue of gratitude for small mercies.

"But even if less was achieved, we would be bound to go on all the same—we who, by accepting office as Your Honour's Councillors, are pledged to give the Reformed Constitution a loyal trial. And, if better results are to emanate, we must justify ourselves, for we, like that Constitution, are also on our trial. It is the duty of every one of us to do whatever work comes our way, as if ours was the last word on the subject, which, if absolutely given effect to, would not imperil the Constitution or the Government. We

whom the artist makes strain every muscle rowing the beat, fast attached to a buoy, that moves not an inch, for they are earning their entry into the much coveted University Eight, and their blades are all perforated oak. We would have ourselves to blame, to a certain extent, if all our Budget proposals were to come to grief for want of care and forethought. In saying so I do not conceal from myself the severe handicap attaching to all our efforts, to which we have often had to draw attention. But we have had our reward. Your Honour generously recognized our difficulties, and was pleased to say towards the close of the last Financial debate that it was not all our own fault that, for want of detailed and timely information, we could not pick out suitable counterbalancing items. I was unfortunately alone among the Calcutta non-official Members when this—the best of the assets of that day's debate—was realized, for others more mindful of their health had left us to ourselves and sought the snugness of their cheery homes that stormy evening. Of course, Your Honour took care to warn us that even with timely and detailed information at our disposal, we should find it difficult to pick out items that the Government could assent to being left out, so carefully is the whole Budget prepared in advance. But I do not despair. If we are not regarded as wanton obstructionists deliberately bent on wrecking schemes, timely and friendly association with the departments in which we happ=n to take particular interest may benefit by our criticism before the Budget attains its cast-iron rigidity. For, after all, a friendly outside view of things may now and again help in taking even departmental Committees of the kind that I roughly indicate for these purposes, may be of better nse in framing the Budget than an omnibus Finance Committee that has little opportunity and less time to go into the whole question effectively.

"What good such Committees can do will be best illustrated by the labours of those that Your Honour was pleased to appoint for considering the allotments of the Imperial Educational grants. Much of the misapprehension and doubt have been removed, and seemingly unpalatable measures have been readily accepted on either side, which long debates and paper fights would hardly have achieved. I do not regret the differences of opinion that exist among the non-official members themselves, which accounts for much of their discomfiture, for I would not welcome the premature appearance of the caucuses and the whips. We are not here to embarrass the Government as some unfortunately think, but to help it in the best of our light, and that we can best do by speaking out our mind straight from the shoulder, unmindful of the fate of the particular motion before the Council in which we may consider ourselves interested. It is for the responsible Government to take note of our opinion and such information as we can give, and it would not be our fault if they fail to avail of them.

"We want the Heads of the Departments, in which any one of us happens to take any particular interest, to recognize that we are not their natural enemies who have to be kept at arm's length at any cost—sometimes at the expense of rudimentary courtesy—but that we are real friends, for the promotion of the interest of their departments is what we aim at, and this we could at times better press and advocate than they themselves.

"Having regard to his and our good luck, my quarrel is this year the least with the Hon'ble Mr. Küchler, at least for the present, and he has my entire and active sympathy in the uphill work he has before him in rectifying many of the blunders and much of the neglect of the past, and in the ordering of the forces under the new and more trying conditions. Though I am in the fullest sympathy with well-meaning endeavours for the promotion of primary education, we must recognize our limitations, and little good could it do to try to erect model primary school-houses in all possible and impossible parts of the country, when you have not resources enough even to build up the walls to their full height which you have to leave unroofed and crowned with creepers. It is no fancy picture that I am painting, for the enterprising archæologist will come across such monumental trophies, only a few years old, and which,

like Mr. Pickwick, he must not mistake as world-old because of the plentiful coating of greenery. The order, or shall I call it the natural order, of our educational advance must, for a long while to come, be, what the Hon'ble Mr. Küchler judiciously named last year, viz., College and University, secondary and primary, entailing and involving filtration downwards all along the line. We have a remarkable lack of means as well as of men. The training up of a body of capable teachers, who will have sufficient inducement to take to teaching bond file as a life profession, must be our first care. Once we achieve this and are given enough money, progress of primary education would be a matter of course. Before aiming at the 'logically possible' let us be sure of the 'reasonably probable'. Under other conditions you will never advance primary education as you wish to do, but will effectively starve and strangle the other brancies of education-I shall not call them the upper branches. You have to hasten slowly most of all on educational lines, for a repetition of the fads and blunders of the past will hopelessly injure all education for a good long time to come, and the educationist of the future has carefully and constantly to keep this in mind. Not all, but enough for the present, has been done for College and University education by way of giving it a fair start on new lines, and we have a right to look to private assistance, which is slowly and steadily forthcoming. Our next and anxious attention must, therefore, be now turned to secondary education, for without strengthening the schools on the right lines you will never strengthen your colleges or your primary schools. The strength of the middle link would be real strength of the chain, and we are thankful that Government is recognising this and trying to add to that strength. Good, well-organised, well-disciplined schools on the model of the great public schools of England, where the nation is really built, is every day felt as a desideratum, for want of which the whole of our educational system and. I must say, alas, our social polity, is weakened. And though these schools cannot be wholly or in all cases removed from the Metropolis, or the larger cities, they have a better place in central, healthy, yet easily accessible places, free from objectionable surroundings and influences, where the better order of the res deutial system may have a real chance. There are already some in existence, and others of a less pretentious order are coming to the fore, and, for a long time to come, the soundest educational investments will be these schools, whether Government or private. After a few years of this new order of things in our colleges, the University as well as the primary schools will be found to wear a different aspet, very much for the better, and judicious generosity to responsible organizations will lighten the work of Government. The superior inspecting machinery has been completed, the regrading of the subordinate agency has this year been provided for, and the school work proper may now be well taken in hand and in thorough right earnest. Now that provision has been made, I have no doubt that the strengthening of the college staffs will be expeditiously carried out on correct lines, that the proposed transfer from the Provincial to the Indian Service will be effected, and that the vacancies in the Provincial Service and the Subordinate Service to which I felt compelled to draw attention by my recent questions, will be filled up, so far as they may be, till the Government of India give its sanction to the larger and long-pending scheme for the amelioration of the condition of our educational officers. Mr. Küchler's will be no bed of roses—without thorns—for if much has been given unto him much more will be expected. His is specially the department in which has to be realized the high ideal, of which the public have been effectively reminded during the past few days, that it is the duty of all rulers to make each generation better than the preceding one, physically, intellectually and morally, and to leave it better and happier than they found it. In this arduous task, which proper education can alone lighten, the Government may rely on the active sympathy and support of all our colleagues that take an interest in education-and who does not?

"I shall not bring up again King Charles' Head—Law and the Provincial Executive and Judicial Services—for it has been rolled about a good deal of late. I am content with the assurances given, and I am confident our suggestions will be duly considered and given effect to whenever possible. I would, however, draw attention to the answer of the Hon'ble Mr. Jenkins in the

Imperial Council to the question of the Hon'ble Babu Bhupendra Nath Basu, which would make one think that the Supreme Government would not be above reconsidering matters if another representation were to be made. But whether the initiative was to be taken by Your Honour's Government or the High Court, it would be hardly within the competence of this Council to indicate. Regarding the improvement of the Courts of the Calcutta Honorary Magistrates, I have made further inquiries since the Financial Statement was presented, and believe that some temporary rooms could be inexpensively placed on the roof of the one-storied building to the west of the main building and a connecting bridge may be provided. And closer and stricter supervision of office work and a slight additional cost, would make the deputation of the necessary court clerks to more Honorary Courts possible. Congestion in the offices and the court of the Calcutta Court of Small Causes has been complained of, and, as we heard in answer to my question this morning, this complaint is well founded. We are glad to hear that Government is prepared to consider the question of suitable relief. Real improvement would, however, be impossible unless substantial assistance, both in the judicial and ministerial sides, be provided. While unable to appreciate the correctness or efficacy of discursion of these matters in open Court between the Bench and the Bar, I would remind the Council of the possibilities of Honorary Civil Benches to which I referred in the course of the Financial debate, in connection with the strengthening of the Courts of Honorary Magistrates. Congestion in the work of the offices of the Original Side of the High Court, which will be still greater if the Court has to be further expanded, as stated in some circles, has long been a matter of complaint and been brought to the notice of this Council. The foundling, now more than three years' old, that no one would own for a while and that went through the successive orthodox stages of lofty philosophical apathy, active ridicule and partial sympathy, is after all to be recognised and cared for. A sum of Rs. 23,000 has been provided for strengthening these offices, which may barely meet present requirements, but will soon be inadequate. And in order to get full value out of this bare accommodation, it is of the greatest importance that the whole should be found at once, and not by instalments, as is believed to be contemplated. Outside guard has been provided at an equal cost under a capable and tactful Superintendent, who is making the Court wear a different look. But the security of inside strength is no less necessary, and in this we are thankful to have made a beginning. The Hon'ble Mr. Chapman had practically no reply to give me with regard to the Advocate-General's extra fees in Original Side cases, and this, as well as the possibility and desirability of reducing counsels' and pleaders' fees all round, without impairing efficiency or thoroughness of service, may well be pressed on the attention of Government again.

"The next items of Budget allotments to which I would draw the attention of the Council will be the Medical, in regard to which also there is cause for much gratitude which must be suitably expressed. The status of the Civil Medical Assistants has been placed on a suitable basis, and provision has been made for improving the Assistant Surgeon's branch of the service, which it is hoped will be further improved by larger opening from its ranks to the Civil Surgeon's ranks. The pending appointments to selected Chairs in the Medical College from their ranks or the ranks of non-official practitioners, will be watched with anxiety, and the first erroneous step will jeopardise the ultimate success of the movement. In April last, we were told, with reference to my suggestion that retrospective effect might be given to reorganisation of the services of Civil Assistant Surgeons and Civil Medical Assistants, that the change will be introduced from the date of the orders approving it, which were expected early.

"One other year has gone by, and the Hon'ble Mr. Wheeler, in reply to my question in February last, was pleased to say that the question of the improvement of our Assistant Surgeons is still awaiting the orders of the Government of India and the Secretary of State. When all this delay has occurred, I would once more respectfully ask that retrospective effect to the suggestion for reorganisation would not be too much to ask for,

and that the final settlement of the question should be expedited as much as possible. With regard to the question of allowances and periodical departmental examination, there seems to be no reason why the treatment of demonstrators in the Medical College should be differentiated from that of teachers in Medical schools. The demonstrators have no hospital work which is to their disadvantage, particularly as regards private practice, which teachers are allowed to take. But they do no less practical and scientific work, and it is to be remembered that while third grade officers are to be found in the ranks of teachers, second grade officers are often deputed to act as demonstrators. Ever since assumption of your high office Your Honour has taken the greatest possible interest in our hospital work, and the latest addition to our hospital accommodation in the Medical College compound, which Her Excellency Lady Hardinge opened the other day on Your Honour's invitation, is an ample demonstration of the anxiety of the Government to make up for past deficiency. One other direction in which anxiety is agreeably visible is Your Honour's desire to make the best of and fully utilize the growing non-official medical telent of the country, which, it is refreshing to observe, has excited no official jealousy. The heads of the Medical Departments of the Government of India and of Your Honour's Government are in active sympathy with these aspirations, and it is encouraging to find that Your Honour has taken the first step towards full atilization of those talents in the service of a well-equipped, up to-date and central non-official Medical institution, by the appointment of a representative Committee to investigate the matter. It is a matter of still greater encouragement that most of the scattered stray forces have agreed to combine in aid of this noble common cause, and it is to be hoped that a self-abrogating public spirit will bring in the outstanding forces and thus make some semblance of central control possible without friction. The memorial in honour of our late lamented Sovereign will take the hightly acceptable shape of relief of suffering humanity, towards which Your Honour's Government has agreed to make a handsome contribution. I miss the Budget allotment in this excellent cause, but I am sure that it is somewhere provided, and that should the non-official Medical institutions or the larger majority of them combine in the course of the year, it will be possible to give the central institution help, so that much and long-needed supplemental medical education of the right type may be easily available, and, together with it, adequate and reasonable control of the medical profession.

- "I should like to make one passing observation with regard to some increased figures on the credit side, namely, those under fines and Excise revenues which have caused us no little anxiety. That condign punishment, whether in the shape of fines or otherwise, should be unhesitatingly inflicted whenever and wherever necessary, is a proposition that no sane man should for one moment dispute. Law and order must be maintained at any cost, both in the interest of the Government and the governed, but it makes us anxious that fines and realizations on account of punitive police are on the rise. I should like to see the Regular Police better strengthened, for which no one seems to have a good word now-a-days, for upon the success of the direct appointments to the higher posts, made for the purpose of raising the tone of the service, depends the future of the force.
- "The cautious and considerate elemency of Government as demonstrated in the Khulna Gang Case on Saturday last, is an object-lesson of anxious interest, and it is sincerely and devoutly to be hoped that this departure will be amply justified and bear the best of fruits, and that the saving of costs and trouble, upon which unnecessary stress was laid, are not its strongest features and best recommendations.
- "While unavoidable evils must be taxed by way of keeping them down, it is never sound policy to aim at making them sources of revenue, that one would not desire to see continued longer and to a greater extent than can be helped. And in this view of things one cannot but regret the rise in the Excise revenue, though the Hon'ble Mr. Macpherson, to whom we bade a

regretful good-bye the other day and whose place has been taken by our good old friend, the Hon'ble Mr. Greer, whom we are glad to welcome back to Calcuta, was no doubt guarded in his appreciation of this rise. This however, makes us no less anxious.

- "Dealing with the serious state of affairs which the Budget reveals regarding the expansion of the revenue from Excise, one is obliged to ask oneself and the Government as to when this constant increase is to stop. We are told that improved methods of Excise administration, and the prosperity of the people, are responsible for these figures. When, then, may the Excise administration be regarded as really and finally efficient?
- "Year after year we hear this stereotyped explanation, and it must be somewhat of an unwelcome reflection on those who have administered this department in the past to attribute better results now, to faulty administration in the past. And what is the test of efficiency? Is it not the fact that year after year this department is expected to show an increase in revenue? On a previous occasion, quotations (chapter and verse) were forthcoming, to the effect that certain E cise officials deplored a falling-off of revenue in some of the backward parts of the country. For 1910-11 it was estimated that Rs. 1,70,52,000 would be realized by this department. This year in the revised estimate Rs. 1,81,00,000 is put down as the larger figure which the department is expected to realize, and we are supposed to express satisfaction at this.
- "The British Chancellor of the Exchequer, in introducing his revised budget figures, expressed his pleasure that his estimate of the yield from the increased whisky tax was £800,000 less than he has estimated.
- "I am afraid, judging from past experience, that no such pleasure will await the Member in charge of the Budget of this Province next year.
- "When it is realized that a sum rapidly approaching two crores a year comes into the coffers of Government through the liquor and drug shops of the Province, it is surely time to ask what steps can be taken to check the growth of this drink and drug habit, for it would be a pity indeed if people's prosperity was to take, even partially, this questionable channel of exhaustion.
- "When this Council recently passed the new Excise Act, (Bengal Act V of 1909) it was claimed and expected that it would strengthen the hands of the Administration, and no doubt it has improved the machinery for collecting the revenue.
- "But it must be admitted that, so long as the auction system is maintained, there is no likelihood of real improvement from a true civic standpoint of view. What happened in Calcutta at the fast licensing settlement? Practically every shop was settled at a higher rate than at the preceding settlement.
- "This means that every license-holder must somehow or other increase his sales.
- "How then can active steps be effectively taken to check questionable methods of liquor-selling, when the licensee has to make out a much larger amount to pay mouth by month by any means that he can think of.
- "What steps have been taken to restrict the consumption of liquor and drugs this year? One liquor stop was closed in Calcutta, 19 tari-stops and three country-liquor stops in the whole of Bengal.
- "In Bombay, during the Holi festival all the liquor shops were closed at 7 o'clock, and one may be pardoned for asking why similar action could not be taken in Calcutta.
- "The scenes in certain quarters of the city witnessed this year, would not have been possible if the earlier closing of the liquor shops had been enforced, though possibly there might have been in the future a slight Excise deficit."

"Exception was taken, in connection with the Financial Statement, to my proposal for reduction of the charges due to amalgamation of the Salt and the Excise Departments. Though the same Commissioner administers the two departments, that by itself does not appear to be entire justification of the amalgamation, particularly as it may lead to confusion. The Salt revenue is what may be called 'Imperial', while the Excise revenue is purely Provincial, and there does not seem to be much connection or affinity between the two, though one would like to take Excise explanations with considerable grains of salt. Nor has any need for the amalgamation been indicated.

"The Hon'ble Mr. Gourlay, whose genial personality yet powerful presence, I regret, we shall soon lose for a few months, did not last year quite like my reflection that it was no very illuminating explanation of the falling off of Registration revenue to say 'that the reason for decrease is chiefly a decrease in the number of registrations effected.' He said 'stagnation in trade would scarcely affect stamp duties and registration fees'. This year we are told that 'the decrease of registration receipts is attributed to the falling off in the number of registrations owing to the good harvests of the preceding year.' There must be some mistake somewhere, in one or other of the explanations, for both can hardly be correct. Last year the Hon'ble Mr. Gourlay said that the question I raised was an interesting and complicated one, and that, to clearly explain all the reasons for the decrease and increase, would entail a very searching inquiry. I do not know whether such an inquiry has been held or not. Last year the Hon'ble Mr. Gourlay told us that it is probable that the decrease in the number of transactions during a period of stagnation of trade would directly lessen the stamp revenue, while a period of secretity when the cultivator is driven to mortgage his helding, would scarcity, when the cultivator is driven to mortgage his holding, would necessarily increase the number of registrations and the amount of the registration fees. In saying so he overlooked the fact that most registrations meant also revenue in stamps. The estimate for the year 1910-11 was based on the actuals for 1909-10; and even though the explanation then offered did not appear to the Hon'ble Mr. Gourlay to be exhaustive, 'it would be very unwise', he said, 'to estimate for a large revenue'. I did not desire to put him a problem of mere academic or economic interest, but it has an intensely practical aspect, and I myself have not been able to answer the problem satisfactorily. Though the Hon'ble Mr. Gourlay questioned the wisdom of estimating for a large revenue, his modified expectations have been belied, and we are told this year that the falling off of registration receipts, which was due the previous year to scarcity, is due to prosperity the next year. Regarding the falling off of the stamp revenue this year, we are told that the lesser figures are due to the non-realization of the expectations by the Government of India of large increase from increased new taxation. The problem is, therefore, farther from solution than ever, and is not a mere academic puzzle. It has to be carefully handled in the interest of practical finance.

"I would finally refer to the provision for three lakhs of rupees in connection with the Coronation Darbar. There is nothing in the Budget to indicate whether it will be for expenditure in the Province or on account of the expenses of the Province at Delhi. The latter, we take it, would be all Imperial charges, and all who have the honour of an invitation to Delhi will be treated as Imperial guests. If, however, my reading of this item be mistaken and the three lakhs are to cover the expenses of the Province at Delhi, the Province will have nothing in the Budget to give a good account of itself with here, and this omission has to be rectified in time. We cannot possibly agree with those who have taken upon themselves to say that this provision is extravagant. As was forcibly emphasized at the city's demonstration on Wednesday last, over which Your Honour fittingly presided, the occasion will be unique, historic and unsurpassed. But, not only the city, but the Province, will have to rise to the unparalleled height of the occasion when the crowned Monarch of one-fourth of the human race visits his faithful subjects for account of the human race visits his faithful subjects for account of the head 'Political' for extra Durbar presents will never furnish the requisite ways and means.

"I am more than near my time-limit; an attenuated budget debate and an expansive budget balance ought, I supose, to be interdependent on one another; but we take no note of time but by its loss. And this reminds me that we are already dealing with the third Budget of Your Honour's regime. That short time has been unconscionably lengthened by public troubles and private troubles, in which Your Honour has our best sympathy, but which Your Honour has alike manfully refused to let tinge your regime."

The Hon'ble Rai Baikuntha Nath Sen Bahadur said:—"May it please Your Honour,—According to the rules of this Council the Budget is to be accepted and no modification at this stage are possible. Privilege has ostensibly been given to the Members of this Council by permitting them to move resolutions at the time when the Revised Estimate is placed before the Council. Several Members of this Council moved resolutions in the exercise of that privilege, but I have to express my deep regret that this privilege is one of semblance only and not of substance. No resolution moved by a non-official Member, however just it might be, can be accepted by the Council unless Government chooses. Discussion on the occasion of the Budget is more or less of an academical nature, though it is expected that some good results may follow by the curtailment of some sub heads on expenditure and a certain amount of money may be saved and devoted to other and more useful purposes. It may, also, to a certain extent, influence Your Honour in the preparation of the next year's budget.

"In addressing Your Honour on this occasion, I shall bear in mind what happened last year on this very occasion, when Your Honour was pleased to refrain from enforcing rigidly the rules of relevancy but was pleased to accord a certain amount of latitude to Members, with a warning that the procedure observed on that occasion would not be considered as precedent for the future. We are in duty bound to give effect to Your Honour's pronouncement, and I shall therefore confine my observations with regard to certain items in the Budget on the Receipt and Expenditure sides, and also to certain omissions.

"Your Honour's Government is to be congratulated for the modifications which have been approved by the Government of India in the terms of the financial settlement with the province with effect from the 1st April, 1911, though I beg respectfully to submit that the settlement does not come up to our expectations. My humble submission is that the financial relations between the Government of India and the Bengal Government ought to be based on a different and juster principle. It is gratifying to find that, by the last settlement with the Government of India, there have been secured additions to the growing revenues of the province under Excise and Forest. We have also cause to be grateful to the Government of India for the fixed recurring grant of Rs. 7,48,000 annually.

"As regards the revenue from Excise, to which reference has been made by the Hon'ble Babu Deba Prasad Sarbadhikari, I have a few remarks to make. I deem it my duty to submit one matter for Your Honour's careful consideration. The Bengal Government share in the Excise revenue has been raised from one-half to three-fourths. In the Budget I find under the head 'Excise' that the actuals in 1909-10 amounted to Rs. 1,67,92,558, while the figures in the first eleven months of 1910-11 show an increase of Rs. 10,20,000 over the actuals of the corresponding period of the preceding year. The revised estimate for 1910-11 has, therefore, been passed for Rs. 1,78,00,000, and, allowing for a progressive increase of three lakhs, the estimate for 1911-12 has been placed at Rs. 1,81,00,000. The provincial share amounts in 1910-11 (one-half) to Rs. 89,00,000, and in 1911-12 (three-fourths) to Rs. 1,35,75,000. I also find amongst the remarks that increase in the revised estimate is due to the better settlements and increased consumption of country spirits. In view of the fact that there would naturally be an inclination on the part of Government to see further growth of revenue from Excise, I am afraid not much respect would be shown to the acknowledged principle that maximum of revenue should be sought with minimum of

consumption. Temperance should not be sacrificed at the shrine of revenue. Instructions are, therefore, necessary for the guidance of the department for minimising consumption, of course safeguarding the growth of revenue at the same time. I venture to suggest that instructions ought to be issued for securing decrease in the number of shops for the sale of spirituous liquors, ganja, etc., and that if the auction system is done away with when a settlement is made, it will minimise consumption. I also venture to suggest that with regard to the manufacturing of spirits in distilleries greater care should be taken for limiting their quantity, temperature and strength and for enhancing the rate of duty. If this course be adopted with the growth of revenue, larger consumption will be appreciably checked.

"We ought to express our gratitude to the Government of India for the additional assignment of Rs. 35,23,000 from the Imperial revenues. This sum includes a special contribution of Rs. 24,50,000 for expenditure on Education, and of Rs. 10,00,000 on Sanitation. We do not know on what terms, if any, the grants have been sanctioned. In the Budget, however, under head 'Education,' we find an increase of less than fifteen lakhs over the Revised Estimate. The whole grant has not, therefore, been provided for, and this requires some explanation.

"As regards the grant for the improvement of sanitation, mention is made in paragraph 60 of the Budget that Rs. 11,46,000 have been provided for grants to municipalities and other local funds, of which one of the items is a lump provision of Rs. 9,50,000 for grants for works of sanitary improvement, etc. Besides this, under head '24—Medical,' sub-head 'Sanitation and Vaccination,' provision has been made for Rs. 2,61,000. Information regarding some details is desirable. It would give us satisfaction to learn whether the Government has in contemplation any definite scheme for sanitary improvement, and, if so, any explanatory remarks as to how the money has been provided for, will be welcome. Special attention should be given to the supply of drinking water, and for this purpose the district boards and municipalities should be financially strengthened. In this connection, I draw attention to the fact that the last census shows that there has been a decrease of one lakh in the population in the districts of Nadia and Jessore.

"Ample provision has been made for expenditure under head '19 A—Courts of Law,' and sub-heads 'Legal Remembrancer and High Court Pleaders' and 'Mufassal Establishment.' It is be hoped that the amount provided will not be spent. Services of Government law officers should be utilised, and a moderate fee allowed.

"I have nothing to say against the increase of the retaining fee of Government pleaders and Public Prosecutors. On the contrary, I should consider it an act of justice to a class of Government officers who are under-remunerated. In this connection, I feel bound to congratulate Government on the action taken in regard to the Khulna Gang Case. Extreme elemency has been shown to the accused who made confessions and who have been discharged after eight months' detention. The policy adopted by the Government, I feel sure, will have the desired effect, and those who entertain anarchist ideas will be induced to develop loyal ideas, and disloyalty will be checked. This bold step taken by the Government has done away with the necessity of a protracted trial by the Special Tribunal and it has effected a saving of a large amount of money.

"Rupees 85,97,000 have been provided for the Police. It is to be hoped that expenditure under different sub-heads will be curtailed without affecting efficiency, and thus a saving will be effected for the benefit of general administration.

"There is sufficient room for curtailment of expenditure in the Criminal Intelligence Department. The popular belief is that large sums of money have been spent by subordinate officers who have practically to render no accounts. A large number of items of expenditure being of a confidential nature, publicity cannot be given to them. The public cannot, therefore, be

blamed if they believe in the existence of extravagance and leakage. I do not for a moment imagine that superior officers do not exercise a proper check, but I do submit that some of the subordinate officers take advantage of their practically secure position.

"No provision has been made in the Budget for the improvement of the pay and prospects of the members of the Provincial Service. While the Revised Financial Statement was before the Council, I moved a resolution on the subject, but it was lost. I deem it proper to refer to this matter, in the expectation that the case of these officers will be dealt with in a manner satisfactory to them in the near future. I know repetition does not strengthen arguments. But repetition of appeals and entreaties may furnish grounds to Your Honour for reconsidering their case.

"No provision also has been made in the Budget for expenditure that may be incurred by the separation of Judicial and Executive functions. There ought to be no further delay in the introduction of the system, even if it be in a tentative way. I am sure the Government will be put to inconvenience if savings be made from some items of expenditure. But further delay is undesirable and unjustifiable.

"Now that the Khulna Gang Case has come to an end, the expenditure budgeted for, for the conduct of the case before the Special Tribunal, will not have to be incurred, and this saving under the head '19A—Law Courts' may be profitably utilized for this purpose.

"This reformed Council is now entering into its second year of existence. The past year's experience has shown that the relations between the Members, officials and non-officials, Hindus and Muhammadans, Biharis and Bengalis, have been all of a cordial character, and the treatment they have received from the Hon'ble President has been one of indulgent kindness.

"The visit of their Majesties the King-Emperor and the Queen-Empress and the Durbar at Delhi, will be an unique occasion in the history of India, and will give rise to an unfeigned joy throughout the Empire. Their Majesties' visit to Calcutta will be hailed with special joy by His Majesty's subjects under Your Honour's administration. I feel confident that a real and genuine display of loyalty and devotion to the Throne will be a prominent feature in all the demonstrations. This visit will be the beginning of a new era, and the germs of disloyalty and disaffection, which are now in a moriband condition, will disappear entirely, and peace and loyalty and devotion to the Throne will prevail throughout the Empire. The provision of three lakhs of rupees for the Delhi Durbar will undoubtedly meet with general approbation. But we should be glad to learn as to how this money for the Royal visit is going to be spent."

The President said :-

"The Hon'ble Maharaj Kumar of Tikari's speech has been circulated to all Members of Council, and he suggests that it may be taken as read."

The following speech was accordingly taken as read:-

"Your Honour, I wish to congratulate the Hon'ble Mr. Duke on the satisfactory nature of the Budget that he has presented to the Council.

"The Budget debates in the present Council, though a great improvement on what the Budget debates in the old Councils used to be, have yet very much the nature of mere academic disquisition. This year it seems to have been specially so, partly because the Finance Committee was invited to discuss the Financial Statement at so late a stage and on such very minor points, and partly because the Government could not see their way to accept any of the important resolutions moved by the non-official Members. One can understand and appreciate the reasons that led to the meeting of the Finance Committee at a late stage, but those reasons do not seem sufficient for the

Committee when once invited not being given sufficient time or subject-matter for discussion. That Government must have had sufficient reason for following the procedure that was actually adopted one can well understand, possessing as we do in Your Honour a ruler who is in an entire accord with the spirit of the new institution. I point out what seem to me defects that will no doubt be remedied when the next occasion arises.

"High Court.—The Calcutta High Court costs Your Honour's Government a very large sum of money, and expenditure under this head seems likely to keep increasing. The advantage of the High Court, however, is not confined to these provinces alone. The Province of Eastern Bengal and Assam shares these benefits of this institution. May I request Your Honour to so arrange matters with the Government of India that the new Province may bear a due proportion of this large expenditure and give some relief to the resources of Your Honour's Government already so largely burdened with its own expenditure. I would urge this matter on Your Honour's attention, as the present number of Judges seems hardly able to meet the demands of the public, owing to the increase of work by the formation of Special Tribunals to try political offences. In this connection, Your Honour, I beg to point out that the present arrangement of Benches in the High Court puts the Patna Division to great bardship.

"In connection with the great expense incurred in maintaining the High Court establishment, I wish to draw Your Honour's attention to the cognate question of lawyer's fees. Is it possible for the Government to so arrange matters that Crown lawyers, instead of receiving the enormous fees they now charge, should be obtained on some fixed and reasonable salaries? In view of the fact that lawyers of great eminence and ability are always available to act as Chief Justices and puisne Judges on comparatively speaking moderate salaries, Crown Counsel might probably be obtained on similar terms. If this were done, the Government would act in a manner that would not only lessen the cost of their own legal work, but would also give relief to the general public who have to obtain the services of eminent legal gentlemen for their own private business. It is remarkable that one of the legal journals suggested only a little while ago that the remuneration of the lawyer's services ought not at the outside to be much above the maximum remuneration payable to the head of the Judiciary.

"Provincial Settlement.—I beg to offer Your Honour's Government my respectful congratulations on the favourable terms of the new provincial settlement. The new settlement, judging from the speeches of the Hon'ble Sir Guy Flestwood Wilson and the Hon'ble Mr. Meston in the Imperial Council, is going to be of a permanent nature. Your Honour's Government will now be free from the minute control that used to be exercised over provincial expenditure by the Imperial Government. Having a freer hand and permanent resources, Your Honour's Government will be able effectually to deal with the difficulties of the province.

"Imperial Government Grant.—The Imperial Government, with its usual foresight, has placed large sums at the disposal of Your Honour's Government for sanitation and education. May I venture to offer Your Honour's Government my respectful congratulations on this unexpected good fortune? May I urge the claims of the Province of Bihar to share in the Imperial bounty? Bengal is looked upon as an advanced Province largely because of the great spread of education; while we in Bihar are backwards because of our comparative shortcoming under this head. May I urge upon Your Honour's attention that this disparity should not be allowed to last much longer, and that a substantial portion of the Imperial grant for education be applied to the needs of Bihar?

"Our highly educated compatriots of Bengal have made all India ring with the fame of their Province for insanitariness, while Bihar has justly until recent years been looked upon as one of the healthiest parts of the Empire. But, in spite of its ancient fame for salubrious climate, things have altered very much in recent years in Bihar, and now plague and malaria have

found such a foothold among us that it seems difficult to eradicate them. May I press upon Your Honour's attention the necessity of appointing a Commission to inquire into the reasons of this grave change. This Commission might also suggest means for remedying the present evil.

"King-Emperor's visit.—All India rejoices at the prospect of the King's visit to this country, and I wish to convey the thanks of the zamindars whom I have the honour to represent for the initiative taken in this matter by Your Honour personally by presiding over the Town Hall meeting last Wednesday. No efforts should be left untried to give their Imperial Majesties a welcome befitting the enthusiastic loyalty that exists all over India. In this connection I wish to emphasize that there is no community more genuinely and enthusiastically loyal than the zamindars of Bihar. In the demonstrations that are to be arranged to celebrate the occasion, I trust the zamindar community will be given the place that is their due in view of the large stakes they have in the country and the loyal support they have always given to the Government."

The Hon'ble BABU HRISHIKESH LAHA said:-

"Your Honour,—The most prominent feature of the Budget is its large opening balance of Rs. 1,23,08,000 and the closing balance of Rs. 85,77,000. But, if we analyse the latter, we find that the prosperity budget is more in name than in reality. True, we have included in it the grant of Rs. 17½ lakhs from the Government of India towards expenditure on Education and Sanitation, but we are so tied down with instructions that we are not free to spend the amount in any way we like, where our requirements are most urgent. The balance consists of 40 lakhs for the Calcuta Improvement Scheme, and 20 lakhs for the prescribed minimum, so that a small amount of a little over 8½ lakhs only will be left to meet the progressive requirements of our Province. The balance of receipts over expenditure is, however, a happy sign, land the recent change in the terms of the Provincial Financial Settlement will give more stability to our finances by allowing us a free hand in the control and management of our own enlarged resources. The effect would be beneficial on account of the circumspection and carefulness which the new system would necessarily ensure.

"I have now to congratulate Your Honour on the recent constitution of the Executive Council, which will assist Your Honour in the administration of the Province. The selection of my honourable friend, Rai Kisori Lal Goswami Bahadur, as a representative of the Indian community, is really a happy one, and I feel confident he will fully justify your Honour's choice.

"Notwithstanding the cheerful aspect of our present financial position, the addition of Rs. 5,14,000 to the already heavy expenditure upon law-charges throws a shade of gloom upon it, but it cannot be helped. The recrudescence of political crime after a temporary lull is greatly to be deplored, and, in spite of manifest attempts at economy, the increase of law-charges appears to be inevitable.

"It is a matter of sincere congratulation that the proposals of the Ministerial Officers' Salaries Committee have been taken up in right earnest, and that the increased salaries of the ministerial officers will be paid with arrears of 1909-10 and 1910-11. Last year Rs. 1,10,000 was provided for in this direction, and in the ensuing year Rs. 1,35,000; so it will be seen that a considerable sum has been allotted to improve the position of the clerical services. The grievances of the Assistant Surgeons have not been overlooked, and the provision of Rs. 41,000 for the improvement of their pay and position in the present Budget goes to show that their claims have also been considered.

"Sanitation.—The special grant of 5 lakhs for expenditure under this head over and above the usual provision of $4\frac{1}{2}$ lakhs, making in all $9\frac{1}{2}$ lakhs, will, let us hope, be productive of benefit to the Province, especially when we consider the ravages of malaria and other diseases. I hope that every facility will be given to the people for the purchase of quinine, especially in the malaria-stricken areas, so that they may not find it difficult to obtain it when they require it most.

"In the last Budget Rs. 8,90,000 was allotted to the District Boards to increase their resources, but in the present Budget Rs. 9,25,000 has been granted; and though the increase is small when divided between the several District Boards, it will, however, be greatly appreciated by them.

"In the speech on the last Budget Your Honour was pleased to observe that seventeen fresh projects were sanctioned in 1909-10. The public will be glad to know what further projects have been sanctioned in 1910-11. As a member of the Drainage Committee, I know that sanction has been accorded to the improvement of the Nawi and Sunthi rivers in the neighbourhood of Baraset, which is expected to remove the unhealthiness of that area. The drainage of the swampy area under the Magra Hât Drainage project for which sanction had been obtained before, and the conversion of that area into culturable land, which will give employment and profit to thousands of our agriculturists, will remain a standing monument of British generosity. To my interpellation regarding the re-excavation of the Bager khal, I was told in reply that it was not in the contemplation of Government to make any improvement, 'as it does not appear probable that the parties affected would be willing to pay for the cost of such re-excavation.' So far as I am aware it was estimated that the re-excavation would cost 4 lakhs; and if Government be pleased to make a liberal contribution by way of grant, and the District Boards of Nadia and the 24-Parganas pay their quotas for the improvement, the balance could be raised by loan from Government. If this project be taken up under the Bengal Sanitary Drainage Act, there would be no difficulty Ben in providing for payment of interest and Sinking Fund; and as the debt will be VIII paid off in the course of 30 years, the cess that will be levied from the 1895. tract will not press hard and be felt as a grievance, considering that the locality will be free from the epidemics of fever and cholera, and that the inhabitants will get a supply of good drinking-water. I beg leave to commend this project to the best consideration of the Government, as it will do an immense amount of good to the people of the affected locality. While on this subject, I may be permitted to inquire why a further provision of Rs. 30,000 has not been made in the present Budget for the water-works of the Hooghly-Chinsurah Municipality, for, if I am not mistaken, Government generously consented to contribute a lakh of rupees towards the cost of the scheme. In 1910-11, Rs. 70,000 was provided for, and, as I understand the work will be taken in hand shortly, there should have been an entry for the balance in the present Budget.

"Education.—It is gratifying to observe that a larger amount has been allotted for primary education than that in the year 1910-11, but it is to be regretted that the Technical and Industrial schools have not received similar consideration, as in the present Budget we find that the allotment under this head is only Rs. 54,000 with a note of 'larger deduction made for probable savings with reference to actuals.' I hope and trust that it will be found possible to spend the entire allotment usefully in the coming year.

"Munsiffs' quarters.—I have to thank the Hon'ble Mr. Duke, for the uniform courtesy with which he considered the various suggestions that we made in the Finance Committee. I thankfully acknowledge that from the original allotment of Rs. 1,75,000 made for the lines for the new company of Military Police to be stationed near Calcutta, he consented to take off Rs. 25,000 and accepted my suggestion to allot Rs. 20,000 out of it for the construction of quarters for Munsiffs who, as a rule, find it difficult in several places to get decent lodgings.

"As no explanation has been given in the Remarks column, I do not understand, why Government should incur the not inconsiderable expense of Rs. 1,07,000, in the entry for 'Timber and other produce removed from the forest by consumers and purchasers.' I do not think it is the policy of Government to spend such a large amount for the benefit of consumers and purchasers in order to encourage the sale of timber, and some explanation on this point is necessary."

Ben. Ac

The President said:—"The Hon'ble Maulyi Saiyid Muhammad Fakhrud-dub-din's speech has already been circulated to all members. If the Hon'ble Member does not particularly wish to read out his speech, it may be taken as read."

The Hon'ble Saiyid Muhammad Fakhr-ud-din said:—"I leave it to Your Honour."

The following speech by the Hon'ble MAULVI SAIVID MUHAMMAD FARHR-UD-DIN was, accordingly, taken as read:—

"Your Honour,

"Though the rules only permit the making of general observations at the time of final discussion of the Budget, without admitting any resolutions for any alteration or change on any head in the Financial Statement under discussion, yet I am fully confident that the observations made and remarks passed by the Members of the Council are not altogether ignored or left unnoticed. Such remarks are not intended to bring about any substantial change on the main heads of the Budget allotment, but they serve to represent the demands of the people of the Province. Such observations are expected at least to supply material information, in order to be of use in the preparation of the Budget in the next year. Sir, it is only with that idea that I crave Your Honour's permission to pass a few remarks on some important matters.

"Education in Bihar.—Sir, it is admitted on all hands that education plays an important part in the progress and prosperity of the country, and at the same time it cannot be denied that Bihar is yet far behind its sister province Bengal in the matter of education. The reason is not far to seek. In the beginning, unfortunately, Biharees did not think it worth while to avail themselves of western education on account of some ideal prejudices, but, when better counsel prevailed and such prejudices were shaken off, and guardians began to care to educate their children in schools and colleges, they could not find such facilities in the Province of Bihar as are afforded in Bengal.

"There was a time when only one Government college was sufficient to educate the students of Bihar, but time changed, and changed very rapidly. People of Bihar began to feel the necessity of establishing other colleges in the various districts and divisions. Even the people of the Trans-Gangetic part of the province did not lack behind; they started a college at Muzaffarpur. It cannot be reasonably contended for a moment that only one Government college could be at all adequate to satisfy the demands of the rising generation of Bihar. Bihar is really indebted to the founders of the private colleges for their patriotism and public spiritedness. But the question is, are the people alone to take care of themselves, or is the Government bound to afford all possible facilities of education to them? The answer is plain, and we cannot deny that, if the Government would not have extended its helping hand, it would have been difficult, rather, absolutely impossible, under the rigour of the new University rules, to maintain most of these private colleges. But, Sir, with all this, we have yet to complain that the help has not been adequate to meet our requirements and to maintain the private colleges in an efficient condition.

"Bihar National College.—Sir, there has hitherto been a bitter feeling that education has been neglected by Government in Bihar, as comparatively very little money has been allotted to the share of Bihar. But people of Bihar are really grateful to Your Honour for the early step which Your Honour took in visiting the Bihar National College. At the time of Your Honour's visit to that College, Your Honour's appreciation of the needs and wants of Bihar in the matter of education, and Your Honour's promise to take keen interest and give all possible help in the matter of education in future, have not only tended to remove the misgivings from the minds of the people of Bihar, but have given new life and impetus to the general public. Your Honour's visit was not of a formal character, but of a substantial nature. The general grant of Rs. 5,000 for the improvement of that College, and a special grant of

Rs. 2,000 for the purchase of some necessary apparatus for the laboratory of the College, will no doubt go to satisfy the partial needs of that College. But, Sir, we are yet in need of more money in order to place the College in an efficient and satisfactory basis, and, Sir, we can do nothing, unless we receive substantial help from Your Honour's Government.

"I understand that the Bihar National College is the only college in Bihar which has hitherto received help from the maintenance grant up till 1909-10; the grant was limited to Rs. 2,400 annually, but we are much grateful to the Hon'ble the Director of Public Instruction of Bengal for doubling the amount in the year 1910-11, when he was convinced of the needs of that College. I am more grateful to him, as he was able with much difficulty to help the College after the Budget had already been passed.

"The little money collected from subscriptions and college fees, even though supplemented by the maintenance grant of Rs. 400 a month has compelled us to keep the College on a comparatively poor scale. We have not been able to pay adequate compensation to the tutorial staff. I believe, Sir, the pay which the Professors of the Bihar National College get is comparatively too low to expect from them a guarantee of their being permanent, or at least having a reasonably long connection with the College. I am fully convinced that Your Honour will share with my views that constant changes of Professors bring a dead loss to the students and the College.

"We have carried out the suggestion of the Hon'ble the Director of Public Instruction of Bengal in raising the fee of the students of the College, but even this has not enabled us to make any decent increase in the pay of the Professors.

"I agree with the Hon'ble the Director of Public Instruction that the matter of grants-in-aid should not form the subject-matter of Resolutions on the items of Budget, as they come under the details of expenses, and it was on that account that I did not move any resolution for the increase of such a grant to the Bihar National College.

"Moreover, Your Honour has seen the disadvantageous position of the Members in moving the resolutions in connection with the particular items of the Budget. We have not only to press our demands, but we have to suggest a proportionate decrease on some other head. But the shortness of time that we get for the study of the Financial statement placed before us in a cut-and-dry form, cannot possibly allow us to make proper suggestions for the curtailment of expenses under any particular head.

"However, the observations that I have made with regard to the Bihar National College will, I hope, enable the Government and the Hon'ble the Director of Public Instruction of Bengal to realise the importance of the demand in making the distribution of the grants.

"Patna Collegiate School.—Sir, we were sadly disappointed to find an omission in the Financial Statement of an important and long expected item of expenditure for construction of a building for the Patna Collegiate School. Your Honour, and the Hon'ble the Director of Public Instruction of Bengal, are well aware that, since the detachment of the Patna Collegiate School from the Patna College under the new Regulations of the University, the school has been located in a rented house of the Hon'ble Mr. Justice Sharfuddin. It is the residential house of the owner, and it was never built with the idea of converting it into school premises. Though the house is sufficiently large for residential purposes, yet it is insufficient to accommodate any educational institution, where hostel and playground are necessary to form part of the same.

"Last year, questions were put in the Council with a view to ascertain the prospect of any permanent and suitable accommodation. At the time of the final discussion of the Budget, I had the honour to invite the attention of Your Honour's Government and this Council on the subject, and though I had the fullest hope that in the present Budget due provision would be made, but, to the utter misfortune of Bihar, we have yet to wait.

"Sir, I was hitherto under the impression that some scheme was prepared in the time of Sir Andrew Fraser, our late Lieutenant Governor, for acquisition of some land to the east of the Patna College, and that the land was to be utilised for the construction of the premises for the Patna Collegiate School with hostel and playground attached. The acquisition was to serve two-fold purposes—one to give a permanent habitation to the school, and the other to get rid of the densely populated and dirty quarter from the vicinity of the College hostel already existing, and thus to remove not only the needs of the students of the school, but also to make the College hostels healthier. But the answer given to the question put by the Hon'ble Khan Bahadur Maulvi Sarfarez Husain Khan at the last meeting of this Council, indicates that no site has yet been definitely selected for the location of the school.

"Sir, being the Secretary of the Patna Collegiate School Committee, I think I am in a better position to inform Your Honour's Government how urgent and necessary it is to provide a suitable accommodation for the school. The present rented house is no longer sufficient to accommodate all the students desiring to enjoy the hostel accommodation.

"We are indeed very much grateful to the Government of India for giving us a munificient grant of 12 lakhs of rupees to be spent on the head of Education. A Committee of official and non-official Members is to be formed for the purpose of determining how this money has to be spent. Will it be too much to ask that the claim of the Patna Collegiate School should be satisfied out of a portion of the money at the disposal of the Committee. Having regard to the importance of the demand, I have no reason to doubt that the claim of the school will commend itself to Your Honour's Government and the Members of the Committee.

"Tirbut College.—I think, I may be failing in my duty if I do not advocate the cause of the Bhumiar Brahman College at Muzaffarpur. The necessities, and the present condition of that College, were fully explained and thoroughly dealt with by the Hon'ble Babu Braja Kishor Prasad in his speech delivered in connection with certain items of the budget, and it is needless to repeat them here. There can be no two opinions that the College at Muzaffarpur needs, to a large extent, help from Your Honour's Government. However, it has given great satisfaction that the Hon'ble the Director of Public Instruction and Your Honour's Government are ready and willing to accord fullest consideration to the representations of the College authorities. We hope that in the near future the College will be relieved of the difficulties by the extension of the liberal help of Your Honour's Government.

"Courts of Law.—No doubt it is a sad thing to find a tremendously large sum of money budgeted for expenses in Political cases. I do not deny the necessity of such an expense, and for that my own countrymen are toblame. I should have expected the application of such a large sum of money on the head of Education. I sincerely hope that the situation will soon change, that political crimes will fade away and that there will be no occasion to find such sums budgeted in the next year."

The Hon'ble Mr. SAIYID WASI AHMAD said:-

"Sir,—'The enlargement of the Legislative Councils and the extension of their functions to the discussions of administrative questions are the widest, most deep-reaching and most substantial features of the scheme which we now put forward.' Upon such pronouncement, emanating as it did from the highest authority in the land, great were the expectations of the elected Members of this enlarged Council. And the different electorates watched with keen eyes and the most attentive minds as to what their representatives were going to do. Apart from other rights and privileges, so graciously conceded to the non-official Members, the greatest and the most cherished one is the right of taking part in the framing of our annual Budgets. The appointment of a Finance Committee each year under the present rules, in which no less than six Members are elected by non-official Members,

was considered to be a great privilege. And it was for this reason that Your Honour's attention was particularly drawn, soon after the election of the Members of the Finance Committee, as also during the Budget debates last year, to the fact that no Member from Bihar could be elected under the rules then existing. And we are grateful to Your Honour for giving due consideration to our representations and revising the rules for election of Members of the Finance Committee. Last year, Sir. on account of shortness of time and the most hurried way in which the Budget was placed before the Council for discussion, many non-official Members felt dissatisfied and even aggrieved, if I may be permitted to say so, for not having been able to move any resolution, and thus to fulfil the expectations of their different constituencies. The scheme was, however, new and elaborate, and Your Honour had so much to do in launching the first assembly of its kind that we all had to content ourselves with better luck next time.

"This year, Sir, we started with changed rules for the election of nonofficial Members of the Finance Committee, and with two Bihari Members elected in the Committee we naturally had great expectations. Under rule 7, clause (2), this Committee should have begun its sittings not later than the 20th of January and completed them not later than the 28th of the same month, and under rule 8 the Members should have submitted their report not later than the 28th of January. But we find this Committee sat for the first and perhaps for the last time on the 6th of March. I don't know how far this was legal, and whether the members of the Committee were not functi officio on the 6th of March. Apart from the legal question which I crave leave to bring most prominently before Your Honour, the most unfortunate part of it was that the Members could hardly do anything in the Committee, and if I mistake not, they only sat for deliberation for about 45 minutes. Again, after passing through that stage of the Budget, the same difficulty arose when the Members were asked to send in their resolutions, if any, viz., they hardly got sufficient time to study the Budget in order to frame their suggestions in the shape of resolutions. My object in bringing this forward is that, whatever may be the cause or causes for such unfortunate relaxation of rules and shortness of time allowed to us to send in our resolutions, I trust Your Honour will do something to remedy this grievance of the non-official Members in future.

"It is a matter of sincere satisfaction to us all to see marked improvement under heads 'Education' and 'Sanitation' Education is the crying need of Bihar. And, if I had not the fear of over proving a point, I should have liked to deal with this most important question in detail. But by now all our grievances in this connection have, I venture to think, already been placed before Your Honour, and I invite your particular attention, Sir, towards the improvement of private colleges and schools in Bihar. I also venture to suggest that much has to be done for the maktab education of the Muhammadan boys in Bihar. As to the sanitary improvements, I would specially draw Your Honour's attention to the district of Purnea, where the ravages of malaria are well known, and the most unhealthy and insanitary conditions of Patna City. The question of water-supply to the town of Bhagalpur has on several occasions been brought to Your Honour's notice, and unless the Government comes forward with a substantial help, it will be difficult for the people of Bhagalpur to successfully combat with the present situation.

"It is already known to Your Honour that ever since the river Ganges has changed its course and shifted further south of the water-works, it has been engaging the most serious attention of the Bhagalpur Municipality. We are grateful to Your Honour's Government for giving substantial help from time to time in this connection. I may mention here that, whereas we realize a sum of Rs. 40,675 on account of water-rate, including the District Board contribution of Rs. 5,000 we actually have to spend Rs. 52,769, because of the recession of the river. Naturally, therefore, we are in great financial difficulties on account of our water-works, and I trust Your Honour will be able to save us from the present perilous situation.

"I have mentioned the needs of the district of Purnea, the city of Patna, and the Bhagalpur Water-works in the hope that their respective claims may be favourably considered by Your Honour's Government when the allotments under 'Sanitation' are made for various purposes.

"I cannot help, even at this stage of the discussion, drawing Your Honour's attention to the grievances of the members of the Provincial Service, both Judicial and Executive. In the last year's Budget discussions my hon'ble friend, Babu Braja Kishor Prashad, and some other Hon'ble Members of this Council advocated the cause of these two services. There were subsequent discussions on the subject in August last, and we entertain sanguine hopes that we shall hear in the near future of the improvements in the pay and status of these deserving officers.

"I must also place my emphatic protest against the large expenditure under heads 'Law and Justice—Courts of Law'—particularly against fees to Counsel in connection with the trial of political cases. The other day the Hon'ble Mr. Chapman drew our attention to the immense difficulties the Government have to face in getting the services of lawyers in such cases, and I quite appreciate that such difficulties may occasionally arise; but if the Government always and in every case encounters such difficulties, something ought to be done to overcome them. A few experienced and capable lawyers, for instance, may be retained to conduct Crown cases on a monthly salary, as Government advocates, and this course, I venture to submit, may to a very large extent obviate the difficulties and reduce the expenditure under this head.

"I am not pleased to find a reduction of Rs. 39,000 in the grants to Commissioners and Heads of Departments for minor works. From personal experience of mufassal life I am convinced that it is absolutely necessary to allow the Commissioner a sum of fully one lakh, if not more, for speedy and prompt help in urgent needs and requirements of the people in their respective divisions. The amount under this head has, however, been curtailed under extraordinary circumstances this year, and I hope it will not be so in the next year.

"With these few observations I beg to support the Budget."

The President:—"As the Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan's speech has been circulated to all Members, I would propose that it be taken as read."

The Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan said:—"With Your Honour's permission I would add only a few words at the beginning of my speech. In his speech to-day my hon'ble colleague, Mr. Syed Wasi Ahmad, has referred to the question of the necessity of supplying filtered water to the Patna Municipality for drinking purposes. As Vice-Chairman of the Municipality, I bear testimeny to the fact that the Municipality badly needs a filtered water-supply. It is a very old city, and as such needs sanitary improvements in various ways. But the supply of filtered water to it will be regarded as an improvement of the greatest value, highly calculated to improve the general health of the people, and reduce the death-rate consequent on the breaking of epidemics from time to time. Sir, the Government came to the assistance of the Patna Municipal Commissioners when, years ago, they needed a drainage scheme. Government also extended it is helping hands to them when they wanted to instal a flushing scheme. A short time ago, Government has been pleased to give the Municipality a grant of Rs. 50,000. The Sanitary Engineer of Bengal is now of opinion that at about double the cost of the present estimated cost, he can supply the Patna Manicipality with the water for flushing, as well as filtered water for drinking purposes. Thus, I may take the liberty of drawing the attention of His Honour in this Council to the question, and ask His Honour to take the case into his favourable consideration at the time of the distribution of the expenditure of the grant which the Government of India has made to our Provincial Government for purposes of Education and Sanitation."

The following portion of the Hon'ble Member's speech having been circulated to all members of Council was taken as read:—

"Your Honour, I must first of all congratulate Your Honour's Government on the prosperity budget which has been presented to the Council. In spite of the great and ever-increasing demands on the Exchequer of the Government, allotments under the head Education have steadily increased year by year, so much so that in the year 1911-12 the allotment under this head amounts to Rs. 70,26,000. In 1976-07 the allotment was Rs. 38,50,749, in 1907-08 Rs. 45,52,592, in 1908-09 Rs. 55,28,726, in 1999-10 Rs. 55,68,813, in 1910-11 Rs. 59,17,000) which, according to the Revised Estimate, amounted to %s. 55,52,000) and in the current year, viz., 1911-12, Rs. 70,26,000. I should, however, have liked the allotment under the head Education, especially Primary Education, to have been much larger than what it is at present—the intellectual advancement of a country being the standard by which its prosperity is judged. The cause of primary education has been so ably, eloquently and forcibly urged by our distinguished countryman, the Hon'ble Mr. Gokhale, that it would be a mere waste of time and energy to dwell on it again, and now it is only our fervent hope that the time may soon come when Government may find itself in a position to materially advance its cause. Sir, it is also not without regret that I have to note in the budget a gradual increase of expenditure under the heads 'Law and Justice' and 'Police.' In the year 1906-07 the expenditure under these heads was Rs. 1,69,78,833, while in the current year's budget the estimate of expenditure amounts to Rs. 1,98,00,000, showing clearly that in five years the expenditure under the heads has increased by Rs. 28,21,167. What a real good would have been done to the province if this amount had been spent on Education? How much would it have tended to the material prosperity of the province if the amount had been spent on irrigation? Here I avail myself of the opportunity of drawing the attention of that section of my countrymen, howsoever small that section may be, who believe in anarchism and terrorism, to the fact that their action, so far from helping the cause of the country, has tended to arrest the march of its social progress by causing public money that could have been spent on education to have been spent on matters which neither directly nor indirectly conduce to the well being of the people, as it was only because of their action that the Government has had to incur larger and increased expenditure on the Police and Court.

"Regarding the Province of Bihar, one of the divisions of which I have the honour to represent on behalf of Municipal Commissioners, I feel it my bounden duty to thank Government for the growing attention the Province is receiving at its hands. But at the same time I may be permitted to point out that the requirements of the Province have not yet been duly met, and, whatever may be the present difficulties of Government in meeting its wants, it is but fair to ask that expenditure on it be commensurate with its local needs and in proportion to its contribution to the revenues of the Province. Sir, the needs of Bihar have been brought before the Council by my hon'ble colleagues representing the different divisions and vested interests of Bihar, and by myself from time to time, and it will be needless for me to enumerate them here.

"At this time of the general discussion of the budget I do not think it will be desirable to enter into the discussion of any particular head or heads of expenditure. The time for that is past, and our present remarks can only

have the effect of influencing the future.

"In connection with the discussion of the Financial Statement, all I need say is that the non-official members, as matters stand at present, have little or no effective voice in the distribution of expenditure. Last year I felt and was under the impression that the members of the Finance Committee had some real hand in the framing of the Budget or had some discretionary powers over expenditure, and it was therefore that the Bihar members felt relieved when two Biharis were elected as members of the Finance Committee of this year. But our illusion has been dispelled, and, from my experience of the

Finance Committee, I can ray that unless some change is made in its procedure the non-official members will always remain at a disadvantage. As matters stand, the time at their disposal is too short to enable them to give due consideration to the matters placed before them for discussion. For instance, the memorandum circulated to the members of the Finance Committee says:—"The following note is now circulated to the members of the Finance Committee explaining in greater detail the proposals of the Local Government under the head of 'New works' under 45—Civil Works, in the charge of the Public Works Department. This is the only expenditure regarding the distribution of which it is at present possible to consult the Finance Committee. The sum to be spent upon new works in the Public Works Budget—Civil Works—stands at present at Rs. 5,96,600 and the Local Government recommends that the following works be undertaken for the reasons specified in each instance."

"The above memorandum was dated the 2rd March, and the Finance Committee was called on the 6th March, the inevitable result of which was that the members of the Finance Committee had little or no time to come to any right conclusion with regard to the urgency of the different projects laid before them or to make their own suggestions. Apart from this fact, when it is considered that, out of the current year's estimated expenditure of Rs. 6,71,48,000, the members of the Finance Committee had to be consulted on the expenditure of only Rs. 5,96,900 under circumstances when they had hardly time to give due consideration to the recommendations made to them, the non-official members cannot help feeling their relative helplessness in the matter of the distribution of the expenditure of the province of the Legislative Council of which they have the honour

The Hon'ble BABU BAL KRISHNA SAHAY said:-

to be members."

I may be excused for repeating an old complaint that sufficient time is not allowed to the Members to fully study and properly consider and discuss the Budget. Very little time is given them to propose resolutions, and the difficulty has this year been enhanced by the fact that proposals for the disposal of certain sums could not be framed, as conditions governing certain grants by the India Government were not made known early. Even the Finance Committee, for some reason or other, could not sit before the 6th of March, so, before moving resolutions, the Members could not know the views of the Finance Committee. Your Honour was pleased to express a similar view on the 13th of March last when Your Honour said:—' I wish to say that Government entirely appreciates the difficulties which the non-official Members evidently experience in indicating items under which reduction of expenditure can be made. That difficulty is not in any way the fault of the Hon'ble Members. It is due to the shortness of time which under the present system is inevitable.' Your Honour will therefore permit me to suggest that steps should be taken to remove these difficulties infuture. At least a fortnight should be allowed to study and frame resolutions. The rules, if necessary, should be amended accordingly. Your Honour's words that 'we are going to consider in the course of the year whether it is not possible to devise some means under which Hon'ble Members will have greater facilities at their disposal for the purpose of picking out items in which reductions are possible,' are very encouraging, and I hope Sir, that this complaint will be soon removed.

very encouraging, and I hope, Sir, that this complaint will be soon removed.

"Now, Sir, let me congratulate the Hon'ble the Finance Member for the elaborate and lucid Budget which he has presented to us. I can very well realise the difficulties experienced by one who is pressed for money from various sides and has to see that no important work suffers. People look at things from different points of view, and this enhances the difficulty of the distributor. On the whole, our present Budget shows a careful and fair allotment.

"To go into details, it is highly satisfactory that the closing balance again shows an improvement, and it is hoped that in future it will

steadily increase. It is really a matter of great regret, hay unfortunate, that anarchism has not yet died out in the country, as it was once believed to have done. It is merely fanatical to suppose that, by stealthily killing a few men here and there, any good can be secured. It is certainly not vicious deeds but pious acts that bring happiness; and what is true for an individual is true for a nation. The so-called nationalists are doing great mischief to the cause of progress and advance. We can progress only when there is peace and order in the land and never during tumults and bloodshed. God is love, and so it is irreligious to be devoid of that great attribute of God. It is very astonishing how any one thinks himself justified in taking away the life which he cannot give, and that in the name of nationality, as if for every nation there was a separate God and a separate Father. Had it not been for this anarchism, we would not have found a big jump in the Provincial expenditure upon law charges, from 2 lakhs and odd in 1907-08 to Rs. 7,90,572 in 1908-09, and though it showed a little decrease in 1909-10 (Rs. 6,27,358), it again rose up in 1910-11 to Rs. 9,70,000. A good deal of public time, energy and money are wasted over these unfortunate and, I may say, calamitous occurrences. Government are showing great favour and leniency, but the rash youths, decidedly backed by some mischievous heads, are still bent on doing wrong to the country. Our present Viceroy has shewn great wisdom and statesmanship in connection with the extension of the Seditious Meetings Act. Let us hope that the heads of these lunatics, self-styled friends of India, will cool down and return to a normal state.

"Education.—The Imperial grant has very much strengthened Your Honour's hands and bettered our financial situation. We are sincerely grateful to His Excellency the Viceroy for this help in a very right and needed direction. This will, I hope, remove from the mind of the Hon'ble the Director of Public Instruction the fear of inundation. This will enable us to remove the long-felt want of having hostels in all centres of education, and especially in Calcutta, where some arrangement for Bihari boys, also, will not be lost sight of. I hope Ranchi will not be neglected, where, as I said the other day, there is a great need of a hostel for the non-

Christian Kol boys.

"On the subject of hostels, I had a talk with Mr. Tipping, our popular and energetic Headmaster of the Ranchi Zilla School. He takes a keen interest in the welfare of the boys. He said that a hostel near the zilla school was very badly needed. I understand that a hostel site for the zamindars' boys has already been selected, and an estimate made. As for the Kol boys there are about 55 non-Christians in charge of the Uraon-Munda-Siksha-Sabba, and the President of the sabha informed me that 15 boys are reading in the Ranchi Zilla School from 3rd to 7th class, 5 in the G. E. L. High School, 4 in the Industrial School and the rest in the Middle Vernacular, Upper Primary and Lower Primary schools. These boys come from different thanas in the district and have no schools near their homes. I beg leave to submit that this sabha deserves encouragement at the hands of Government. The old bungalow, which was previously occupied by the Headmasters, might, with some additions and alterations, be used with advantage as a general hostel.

"There is yet another point in connection with education. The Ranchi S. P. G. Mission School had to build a new house, as the number of boys in the school had very much increased, and the Revd. Canon Cosgrave, the Principal of the School, told me the other day that the mission built the new house under the hope that the Government would, under the circumstances of their case, help them, and I beg leave to draw the attention of the Hon'ble the Director of Fublic Instruction to this, with the request that he will be pleased to see that these gentlemen, who are really doing good work in the district, are not disappointed, especially in view of the fact that out of 450 boys in the school they are imparting education to 110 non-Christian boys.

"I would once again, Sir, as I did last year, impress the necessity of giving some moral lessons to the school boys and making some arrangement

for the same. I hope gentlemen will not be found wanting who would most

willingly undertake the task.

"While mentioning with great pleasure that two new Hindi girls' schools have been started in Ranchi, one by the local Marwaris, and the other by some Bihar gentlemen, I regret to say that they keenly feel the necessity of good female teachers. There is a well-managed Kanya Maha Vidyalaya at Jullunder, and, in my humble opinion, arrangements should be made to send some elderly widows to be trained there who might be utilised as teachers for our schools in the province; and in order to induce such women to go and be trained there, a few Government scholarships ought to be created. I beg to draw the attention of the Hon'ble the Director of Public Instruction in this behalf.

"It is indeed very satisfactory to note that the case of the ill-paid School Sub-Inspectors has been favourably considered and provision made for regrad.

ing their pay.

"Excise.—I regret I did not make myself clear last year when I spoke on Excise income. I never meant to say that Excise revenue should be abolished. Looked at from the Government point of view, I understand the imposition of Excise revenue is intended to check the indiscriminate consumption of liquor. I quite understand that, if the Excise Act were to be repealed, many would begin making liquors in their own houses, and the vice would increase, particularly among rich people; but, Sir, I believe I am correct when I say that it is the poorer class of men who consume country liquor the most indiscriminately. The country is being very much impoverished by its use—not only is money

thrown into the water, but our very blood is being turned into water.

"We find in the Budget that there has been what is described as a 'noticeable improvement on the receipt side (Rs. 2,74,000) under Excise,' and it is admitted 'that the increase in the revised is due to better settlement and increased consumption.' What I wanted to suggest was that our good Government should devise means to stop this 'increased consumption.' I may not be again misunderstood to say that I lay the blame at the door of Government. It is decidedly the fault of the people, the consumers. But, Sir, has not Providence placed these people under the care and guidance of the British Government, and the Government, as protector of the people, should devise means and take measures to see that we may have opportunities to find a fall in the Excise income, and to find a note 'due to decreased

consumption' appended?

"Roads in Chota Nagpur.—I crave leave to draw Your Honour's attention to the fact that Chota Nagpur District Boards have not funds enough to keep up the extensive roads under them, far less to make new roads which are very badly required in many parts of the Division. Many projects have been abandoned or put off for want of funds. A good Ranchi-Khunti road is a crying necessity. Its extension to Chundit is another want. This is only an instance. There are many parts of the Division which have not been opened out by roads. I therefore pray that Your Honour will be pleased to put in the hands of the Commissioner of Chota Nagpur such amount as

Your Honour can conveniently spare.

"Sanitary.—Both Imperial and Provincial Governments have always in view this important head, and we are grateful for the actions that are from time to time taken towards sanitary improvements. We have this year been fortunate to get a large grant from the Imperial Government. I ask leave to suggest that, bad drinking water being the root of most of the diseases, steps should be taken to empower the District Boards to reserve tanks in villages for drinking purposes only, and to prohibit by beat of drum or otherwise, bathing, washing clothes, cattle, etc., under pain of prosecution. I have inquired into the matter, and zamindars will be found who will very gladly place a tank or two, for the purpose, under the control of District Boards. I am afraid there is no such provision in the Local Self-Government Act, and, if so advised, the law might be amended. I hope this will go a great way in stopping epidemics. Out of this grant some money should be given to the Chota Nagpur District Boards, especially Ranchi, to meet the necessary expenses in connection with

Bengal Act of 1909.

Bengal Act III of 1885. the above as also to make pucca some of the daris (springs) in the interior,

under similar conditions and prohibitions.

"Coronation Durbar.—The most welcome item is the expenditure of three lakhs for the Coronation Durbar to he held on the 12th of December, 1911. All India rejoices at the news of the Royal visit and is longing to see the 12th of December. Ray darshan is considered by the Hindus to be a pious deed, and I feel sure this Royal visit will go a great way in bridging the gulf and uniting the ruler and ruled more closely."

The Hcn'ble Sir Bijay Chand Mahtab, K.C.I.E., Maharajadhiraja Bahadur of Burdwan, said:—

"Your Honour,—I only wish to make a few observations, for some of my hon'ble colleagues have already exhausted many of the matters that I wanted to bring forward in connection with the provisions of the Budget. First of all, I must, of course, join in the chorus of congratulations and congratulate my hon'ble friend Mr. Wheeler on the prosperity budget, and I must congratulate the Government of Bengal on the new arrangement that has been arrived at between the Imperial and Provincial Governments. I hail with pleasure the large grants that have been made this year under the heads 'Education' and 'Sanitation.' But, in connection with the grants made under the head 'Education', I wish to draw the attention of Government to the absolute necessity of starting model public schools in the province. I am glad my hon'ble friend Babu Bal Krishna Sahay has drawn the attention of the Government regarding the hostel to be attached to the zilla school at Ranchi, As I hope to approach the Government before long about a crystallised scheme for hostels for the well-to-do classes at Ranchi, I shall not go into the matter at present; but I may just impress on my hon'ble friend Mr. Küchler the needs of these model public schools and of making a start by putting the Ranchi Zilla School on such a footing. These hostels that we propose, and regarding which we hope to approach Your Honour's Government before long, will, I am sure, be largely resorted to by the sons of the well-to-do classes. By the phrase "well-to-do" I do not mean simply the zamindars' sons, because, no doubt, the zamindars fall under that category, but also the wealthy members of the different sections of the professional classes and of the educated middle classes. Now, while on this point, I may say that it would be a gracious act on the part of the Government, as the Ranchi College scheme has, for want of funds, been shelved for the time being, to consider very carefully this proposal when it comes before the Government through the proper channel.

"As regards the grants under head 'Sanitation' difficulty has been felt in the inadequate number of crystallised schemes being brought before the Government. Often the complaint is that there are not enough schemes to spend this money upon. But I think that if the Government officials who are entrusted with the expenditure of this amount, were to consult more mufassal Members than town Members regarding the ways these amounts should be spent, I am sure many suggestions would come forward, and many schemes could be definitely shaped. I have nothing else to add but to thank Your Honour and more particularly the Hon'ble Mr. Wheeler for putting into the budget the very small sum (Rs. 5,000) for the medical officer's quarters for the Fraser Hospital at Burdwan. In this hospital scheme I have taken a very great interest, and, on behalf of the Raj, have spent a considerable amount of money, and I am therefore anxious to see the whole scheme completed, which the small grant will help to do. In conclusion, I wish the province all prosperity, during the current year, specially in view of the Royal visit, and now I beg to

support the budget before us"

The Hon'ble BABU BHUPENDRA NATH BASU said :-

"Your Honour, I feel as a Member of this Council, and as one in particular not holding a very convenient seat in this Council, that I may be permitted to bring to Your Honour's notice the great unsuitability of this hall for the purpose of a Council chamber. I realize that when the reforms scheme was

inaugurated we had not then any chamber ready at hand; but at the same time Your Honour will have, I have no doubt, some consideration for the strained voices of those who have to address this assembly from its extreme end, and, at the same time, to bear in mind the thread of the argument which they have got to follow. It may be difficult, Sir, in the life-time of the present Council, to have a suitable chamber for its accommodation. There was an observation recently made in another place that the Supreme Government was going to have a Council chamber of its own. Whether they will give us a place in that Council chamber is a matter of which I am absolutely ignorant, but, in the meantime, I think that we, the Members of Your Honour's Council, have a legitimate grievance that we are not housed in more suitable quarters. I do not know whether it would be possible to convert the old Council chamber with the corridor into a place which will accommodate the present number of members, if that chamber were so altered as to bring within its compass 50 or 60 men who would be able to make themselves heard at least by each other. There is another difficulty, and that difficulty is very great. When we are addressing this Council, we have not got at our disposal books of reference, and a debate in which books of reference cannot be looked up for the purpose of meeting an argument or laying down some proposition-a debate like that is shern of much of its usefulness. I may instance that only the other day, when my hon'ble friend, Mr. Bompas, was delivering a long tirade upon the woes of the people of the Sonthal Parganas, and ascribed imaginary reasons for that state of affairs, we were unable to refer to any authorities which would controvert or corroborate the proposition which my friend was laying down with a great deal of authority. We felt, Sir, like some of those wooden images, which villagers hew out of rotten timber in times of calamity, and before whom they pour out all their invectives against an offending divinity, and the poor image sits there still unable to answer and swallowing all the abuses that are hurled against it. Our fate is very much the same as that of the wooden images of our village folk. Therefore, Sir, apart from the unsuitability of this Council chamber, the want of a good library with books of reference near at hand is very keenly felt by those who desire to refer to books and other documents for the purpose of conducting a debate with some degree of real interest in it.

"Sir, from the Council chamber by a very natural and easy descent, I come to the consideration of our jails in this Province. Last year, Sir, I ventured to submit to Your Honour some matters in connection with the administration of jails. This year also I have to bring to the notice of the Council a rather startling fact, that, whereas the general death-rate of the Province was about 24 per mille, there was in the jails of Hazaribagh a death-rate of 71.5 per mille, though Hazaribagh is well known to be a health resort in Bengal. This is a matter which requires very careful consideration, and the Sanitary Commissioner, while allowing that probably contaminated sources of water-supply were responsible for this state of affairs, has not indicated the causes which led to this extraordinary mortality. Apart from this heavy death-rate in the Hazaribagh Jail, the death-rate throughout our jails was rather high last year. Then, Sir, there is one very curious observation in our Administration Report on Bengal Jails—that amongst the jail population those who are able to read and write are about 8.42 per cent., but those who are able to read only are 1.74 per cent. That is a result which clearly shows that there must be some error in recording this percentage of literacy in our jail population, for common experience tells us that those who are able to read and write are much fewer in

number than those who can only read.

"From jails, Sir, I pass on very naturally to political offenders. At the present moment I am not concerned with them, but with the money which they have cost us in their trial during the last year and this. We notice with satisfaction a change in the policy of Government, as regards the method by which this class of offenders should be dealt with. But, apart from the clemency which has been shown to them in a recent case referred to on this occasion by my friend, the Hon'ble Rai Baikuntha Nath Sen Bahadur, we, as mere outsiders, may say without impertinence that, if we dealt with this class

of men as ordinary offenders, i.e., get hold of a dacoit and try him as such, instead of setting him up on a high pedestal of waging war against the King-Emperor and of being a member of a large conspiracy to subvert British rule, we should be able to deal with these people much more summarily and with much less expenditure, and the result would not attract attention and notoriety and the punishment that these men would get as ordinary offenders would have a very wholesome effect. Most of my friends who have spoken have dwelt on the very large expenditure which this class of offenders has cost us. Last year we budgeted about a lakh and-a-half for dealing with these criminals, and we spent $7\frac{1}{2}$ lakhs, and I think the Government owed some fees at the end of the year to many eminent lawyers whom it engaged during the trial of these offences. I hope a saner view will be taken of the situation in the

prosecution of these cases in future.

"From political offences, some of which at least have been ascribed in certain quarters to the impetus of western education that has prevailed in our country for the last 50 years, I pass on to the subject of education. I would not encroach upon the province of my hon'ble friend to my right who has dealt so ably with this subject, but there is one aspect of the question with which I believe he has not dealt this morning—I am not sure, I plead guilty of having come here a little late——I see my hon'ble friend Mr. Küchler sitting opposite to me smiling. I believe I am right in saying that last year we made a provision of 21 lakhs for female education throughout the province. I am taking the figures roughly; that I submit is a very inadequate provision for female education in Bengal, Bihar and Orissa, and much is to be done in respect of female education in this country. I recognize the difficulties amongst us, Hindus, whose girls have to be married below a certain age; the question of imparting sound education to our girls is a matter of very great difficulty. The difficulty does not apply in the case of our Muhammadan fellow subjects. They are much better off so far as opportunities of imparting a sounder education to their women are concerned than we are, because they are not hampered by the rules of early marriage with which we are hampered, and I am glad to find that our Muhammadan brethren are trying to seek to further the cause of female education amongst themselves. In Calcutta we have got only one Government school, and I believe no primary schools for girls are maintained by Government. The one Government school I am referring to, the Bethune School of Calcutta for female students, would hardly be considered adequate even for the small children who go to the school department there to receive their education. We have no doubt indigenous schools in Calcutta such as the Mahakali Pathsala. But I would respectfully urge upon the attention of the Government the desirability of having two or three other schools in Calcutta for the primary education of our girls. leaving the school department, I come to the college department of the Bethune institution. I would remind my friend the Hon'ble Mr. Küchler that in the Bethune College the only branch of science in which instruction is imparted is Botany, and girls who want to take up other branches of science in the Intermediate (Science) and B. Sc. Examinations vainly knock their heads against the portals of the Presidency College, because the Bethune College does not provide for any course of instruction in other subjects. In private colleges in Calcutta, the state of things as regards arrangements and accommodation is not so good as in the Presidency College itself. If accommodation cannot be provided in the Bethune College for the education of girls in science, now that the University has opened its gates to girls as well as boys, and if girls are willing to enter it on its own terms, I would appeal to Your Honour that some suitable provision be made for accommodating girl students in the Presidency College, where they seek to take up scientific subjects in the Intermediate and B. A. Examinations.

"There is one matter to which my friend the Hon'ble Maharajadhiraja Bahadur of Burdwan has referred. That is the hostel scheme at Ranchi. We were very sorry, Sir, that the Ranchi scheme had to be given up owing to financial pressure. We do not press for the reconsideration of that scheme at the present moment. If the Ranchi school is made into a high school

under European supervision with a good hostel, it would be conferring a benefit upon the whole province for there is a considerable amount of difficulty in the education of our boys of the upper classes or even of the middle

classes in Calcutta under proper conditions.

"There is one matter to which I wish to refer, and I have done, that is the question of sanitation in Bengal. I am not going over the old story of the enormous ravages done by malaria for it accounts for 68.41 per cent. of the total death-rate of the province, but it is high time that there should be something done to control the channels of our navigable rivers. There has been a proposal from the Bengal National Chamber of Commerce, and no sounder and wiser proposal has been made. If the Government take up that proposal earnestly and institute an inquiry into the conditions of our navigable rivers in Bengal, and if, later on, we could constitute a Board which, I believe, would have a fair income from the navigation of these rivers, a great deal of good, both as regards commerce and health of the people, would be done to my Province."

THE PRESIDENT said :--

"I am afraid the Hon'ble Member has exceeded the time-limit."

'The Hon'ble Babu Bhupendra Nath Basu, said :-

"Sir, I have practically finished what I intended to say. I crave Your Honour's leave to refer to the Royal visit to India. There has been very naturally a great deal of interest aroused on account of this visit. Many people were keen and anxious that the Coronation should take place in the Metropolis of India, and as that has been found impossible, you will give effect to the legitimate wishes of my countrymen by allowing their representatives to witness the great ceremony that will be held at Delhi in honour of one of the greatest of the monarchs of the world."

The Hon'ble Maharaja Sir Prodyot Kumar Tagore, Kt., said :-

"Your Honour,-I beg to congratulate the Hon'ble Member in charge of the portfolio of Finance upon the very satisfactory statement which he has been fortunate enough to be able to present regarding the financial position of the Province. Last year, I rather welcomed the slight decrease in the receipts under Excise, as indicating a decline in the consumption of intoxicants. But, in the revised estimate for the current year, I notice an increase of Rs. 2,74,000 which is explained as being due, at any rate partially to the 'increased consumption of country spirits' which is, in itself, not a very desirable thing, though it may be a sign of returning prosperity. The increase in the receipts under Courts of Law, however slight, which is ascribed to larger receipts from Magisterial fines, is another unpleasant feature, which may be due, either to increased lawlessness, or to increased activity in repressing lawlessness. On the other hand, the falling off of the revenue under the head of Registration may be regarded as a sign of general prosperity among the agricultural population, upon which the country may well be congratulated. The Revised Estimate shows a decrease of nearly rupees twenty-five lakhs on the expenditure side, of which a sum of nearly rupees seven lakhs has been due to the fall in the prices of food-grains, and it is to be devoutly hoped that it will be some time before the Government again find themselves under the painful necessity of providing for Grain Compensation Allowances. Last year, I ventured to express a hope that the item—and a by no means inconsiderable one—of law charges in connection with political cases, would soon disappear from our budget. To the misfortune and incalculable mischief of the country, that hope remains unrealized to this day. Therefore, I welcome, all the more readily, the provision in the budget for the coming year of a substantial subsidy to a new vernacular newspaper, which is about to make its appearance, the policy of which will be to vindicate the Government before the people. The wonder is that such a thing should not have been attempted long ago. In a country where the party system, which provides each party with it own organs, is unknown, and where the indigenous press has rightly or wrongly educated itself into the belief that it is its sole and bounden duty to play the 'rôle' of His Majesty's Opposition in season and out of season, the utility of a Government organ which is guaranteed an extensive circulation among the rural population, must be patent to every unprejudiced mind. I do not for a moment assert or expect that, by means of this journal alone, the Government will be able to suppress the anarchist movement either quickly or completely, but it is at any rate a rational step in the right direction, and Government have a right to select their own weapons. The word subsidy has, I admit, rather bad associations. But is there any country where the Press is not subsidised in one shape or another? What are the Government subscriptions and Government advertisements but subsidy in an indirect form? If the arrangement with Rai Narendra Nath Sen Bahadur is objected to on the ground of expense, then all I can say is that those who have been the loudest in its condemnation have so far done very little to check the prevalence of political crime, which has been costing the province so many lakhs of rupees year after year on account of law charges.

lakhs of rupees year after year on account of law charges.

"Besides, the arrangement with the Rai Bahadur is in the nature of an experiment, and may be discontinued, if the object aimed at is not gained. I am aware that there are people who have been propounding all sorts of conundrums as to how the new paper will steer clear of the Scylla of religious controversy or the Charybdis of this, that, or the other thing. To all such I can only repeat the famous formula of the Prime Minister—" wait and see."

"I welcome the provision in the Budget for 1911-12 for the reorganization of a long list of public offices, which will benefit hundreds of hard-worked public servants. The increased allotments on Education and Sanitation afford gratifying evidence of the sincerity of the Government in promoting those useful objects, and will be welcomed with gratitude by the people. I am however, inclined to think that the provision of a sum of only rupees three lakhs for the Coronation Durbar at Delhi may prove inadequate, and will have to be supplemented, the occasion being unique and unprecedented, not merely in India, but I may perhaps say, in the annals of the world. The smallness of this provision, however, throws an instructive sidelight upon the rigidity of the economic conscience of Government.

"Your Honour, I take this opportunity of congratulating Your Honour's Government upon the selection of the Hon'ble Rai Kisori Lal Goswami Bahadur as the Indian Member of the Provincial Executive Council. We, zamindars, are all proud of him as one of our brightest ornaments, and from what we know of his education, ability and experience of public affairs, we are confident that he will be able to discharge his duties with credit to himself and benefit to the country, so that when the curtain is rung down upon his official career, he will be able to leave the stage, like a well-graced actor, amid the plaudits of his fellow-countrymen."

The Hon'ble RAI SITANATH RAY BAHADUR said :-

"Your Honour,—I am glad that the Hon'ble Babu Bhupendra Nath Basu has spoken a few words for the improvement of the waterways. As the only Member representing the Indian Commerce in this Council, it is my duty to strengthen his hands by adding my voice to his. Formerly, both in Bengal and in East Bengal, all kinds of merchandise used to be carried on by boats through rivers and canals. But since the introduction of railways, with the construction of bridges and culverts, these rivers and canals have silted up, with the result that goods traffic cannot now-a-days be safely conducted by means of boats through the rivers, which have dried up, and that all goods have to be transported by railways at much higher costs. In all European countries their respective Governments do not hesitate to spend large sums of money for keeping waterways open throughout the year and for maintaining them in their proper order. There waterways are allowed to exist side by side with railways, but in India the impression is that there exists a feeling of jealousy towards river traffic. It is alleged to be the policy of the Government, at least of the Railway administration, that no money should be spent

for the improvement of the waterways, lest they should draw away the traffic from the railway and thereby interfere with receipts from railway. The Hon'ble Mr. Stevenson-Moore, when District Magistrate of the 24-Parganas, formulated a big scheme for the canalization of the Tolly's Nala and its connection with the Madaripur bheel route. In reply to some of my questions put last year, Your Honour's Government was pleased to observe that the matter was before the Government of India, but that the Government of India was not prepared to undertake the scheme until it coulde be shown that the receipts from the canal would be enough to maintain the same. This is, to say the least, taking a too narrow view of a noble scheme. I, however, do not look at it in that light. Sir, it is the duty of the Government to do all it can to facilitate the traffic of the country. It now takes several days for steamers—even then it is unsafe—to go in a roundabout way through the Sundarbans and a part of the Bay to East bengal; that is why the Bengal Chamber of Commerce pressed it upon the Government to take up in right earnest the scheme of canalizing the Tolly's Nala. Apart from that big scheme, I beg to refer to another grievance regarding the Tolly's Nala; while more than five lakhs of rupees are realised every year from tollage, nothing has yet been done for keeping open the Tolly's Nala, with the result that the Chetla merchants have to carry their goods by carts from a very long distance and to pay very heavily for it, instead of having their goods brought to their doors by boats. I specially beg to draw the attention of the Government to the fact that since five lakhs of rupees are realised yearly from the tollage on boats, I submit it is the duty of the Government to do something towards the improvement of the Tolly's Nala.

"Next, with regard to the very generous grant made by the Government of India, and the allotments of that grant to different Muncipalities made by Your Honour's Government, I beg to say a few words. It is very well to be complemented upon and to receive congratulations for the improvement of the water-supply in towns. But I regret to find that no allotment has been made from the above grant for the improvement of the water-supply in the rural areas. It is the rural population who suffer most from the dearth of good drinking-water and they suffer silently. What the poorer classes drink in the interior is nothing better than diluted sewage, and it is the use of dirty water which is the root-cause of all the epidemic diseases in the mufassil, from which thousands and thousands of people die every year without a drop of medicine to mitigate their sufferings. I myself have seen men and women travelling three or four miles to draw drinking-water from the excavations by the side of railway lines. Government would have done well to see that a certain portion of that grant was allotted to improve the water-supply in rural areas. With these few words I beg to support the Budget, and to congratulate the Hon'ble Finance Member on the Prosperity Budget.

"I also beg to support the proposal of the Hon'ble Babu Bhupendra Nath Basu that a committee of experts should be appointed for the improvement

of all waterways."

The Hon'ble Mr. FRGATE said :-

"Your Honour,—Your Government and the Finance Member are to be heartily congratulated on the financial improvement of the Province as compared with 1909-10, 1910-11, and it is to be hoped we have entered on a cycle of favourable and good seasons, and there is every reason to anticipate that good harvests and revival of trade will not only benefit Bengal but the whole of India, and considerably increase the material prosperity of its people in the near future.

"The question of the growth of public expenditure is being constantly raised, but it seems to me that as the material prosperity of the people increases, expenditure is bound to rise in order to keep pace with and meet the increased demand for railways, canals, roads and bridging of the main rivers, let alone the pressing demands for education, sanitation and the improvement of the status of the members in all branches of the Government

services.

"With reference to compulsory Primary Education and payment for the same by the State, we are constantly hearing reference made to the 'poor raiyat,' one who lives from hand to mouth, etc. Speaking for North Bihar, this is not the case, and the British farmer cannot possibly secure the returns per acre in £ s d. that is being obtained by many Bihar cultivators from such special crops as tobacco, sugar-cane, and chillies. In the days of my youth I spent some years amongst the peasant proprietors of Normandy and Brittany, and I have no hesitation in stating that a large portion of the Bihar tenants today are freer from care for the 'morrow' than were those peasant proprietors at the period I refer to. Of course, we must at the same time remember that occasionally the Bihar raiyat has to face a famine year, or an abnormal flood, but here again the rest that is given to the soil in a year of drought by nature results in large returns when conditions again become normal, and in the case of a bad flood, although there is loss and hardship, it is only temporary, as the following returns from the rabi crop more than cover the loss of the bhadoi. Speaking for North Bihar, in spite of what those who are pressing for compulsory Primary Education say, the agricultural classes who would be mainly affected do not want it. The children from their earliest years help and assist in all farm operations. Buffaloes, cattle, goats, etc., are almost entirely herded by children of a school-going age, and is it right or reasonable that a boy or girl who from earliest dawn has spent the long hours of a hot Indian summer day in the fields or woods, on returning to their homely cottage in the gleaming at the close of a strenuous day, should be forced by law to attend a night school instead of seeking that well-earned rest that is not denied to the animals that draw the plough, the harrow or cart? The District Boards are doing their share. Reference to the last annual report and resolution on the working of the District Boards of Bengal will show that the Tirhut Division compares very favourably with the other divisions in the Province. If the agriculturist of North Bihar wishes his children to receive rudimentary education, and if one member of the family can read and check the rentreceipts, parchas, etc., it will satisfy him, and he can afford to pay the small fees of the village school. If those who really have the welfare of the Indian agriculturist at heart can devise some scheme by which the oil-cake, the bones of the animals, and the cowdung can be returned to the soil instead of the two former being exported and the latter burnt, they will do more for the cultivators of India and the generations yet unborn than any Act or law for compulsory Education is ever likely to do.

"With reference to rural sanitation, speaking for North Bihar again, a very great deal more can and should be done by the proprietors, large and small, and the villagers themselves by filling up unhealthy tanks and cesspools in the village, closing wells that have been condemned, raising the tops of wells and clearing jungle and other matter from the vicinity of the water-supply, and draining by means of a simple channel low-lying ground in the vicinity of the village. The Government, the Municipalities and the District Boards have, do, and are taking their fair share in the case of Drainage and Water-supply, but the people themselves, with few exceptions, are not doing all they can, and do not seem to recognise their responsibility in the matter. If they take their full share, then and not till then have they any just or reasonable grounds for asking for increased expenditure under this head, which would only mean, if sanctioned, cutting funds from other important and pressing wants. One pressing need of the Division is a residence for the Commissioner, and public opinion in North Bihar is unanimous in considering that a suitable and proper residence should be built as soon as possible. The new Division was established more than two and-a-half years ago, and a fine site has been acquired, but apparently from the answer given at the last meeting of this Council plans and estimates have not yet been submitted. In the amended draft Financial Statement, Bengal, 1911-12, a sum of Rs. 50,000 was budgeted for, and we fondly imagined that work would be started this year, but I was considerably disappointed to find that this amount had been cut out by order of the Government of India in the revised Financial Statement, which I only received on the morning of the 13th ultimo. Under the rules I was debarred from

alte anhabases di

moving a resolution, as I should most certainly have done so. It is the duty and essential that the employer, either State or private, should provide good and healthy house accommodation for their employes, and for the sake of the prestige of the Government a residence in keeping with the dignity of the office of the head of the Tirhut Division should be built without any further delay. In some of our Bibar stations houses have been acquired by Government, patched and added to, and some of them are not as comfortable residences to live in as they should be. I sincerely hope (although I do not advocate extravagant expenditure) that, when plans and estimates are drawn up and submitted, the mistake will not be made of cutting off a few feet either in the area or the height of the rooms, or verandahs, in order to save money, and that it will not be a case of 'a haporth of Tar;' and should Muzaffarpur have the honour and good fortune in the future to be visited by the head of the Bengal Government, the residence of the Commissioner should be such that the distinguished guest would suffer no discomfort or inconvenience, especially if such a visit were paid during the hot weather or rains. There is no getting over the fact in this country that a very great deal is thought of show, pomp and ceremony, and before the days of railways, motor-cars, etc., the progress of the Commissioner when on tour through his Division his guard, string of horses, and carriages, etc., undoubtedly impressed the people, and it had one great advantage that it brought the ruler and the Ruled into closer touch than is possible now-a-days with the enormous increase of work and quicker means of travelling. I feel assured that the non-official Members of this Council will one and all agree with the North Bihar public that the official residence of the Tirhut Division should be taken in hand at as early a date as possible, and that the plan and design of the residence will be in keeping with the expansion and advance we hope to see Bihar make in the future. Several members of the Darbhanga District Board have brought to my notice a matter which it seems to me I am bound as their representative to draw attention to. Unfortunately this district has suffered from famine in three years:-

1896-97—The Board paid 2-6 per cent of total cost.

1906-07— Ditto 2-2 ditto.

1908-09— Ditto 8-2 ditto.

"Had the Board been asked to pay on the same basis as 1896-97 and 1906-07, their share for 1908-09 would have been Rs. 28,290, or Rs. 65,448 less than they have actually paid. I am fully aware of sections 60, 81 and 82 of the Bengal Famine Code, [1] and it is quite right and fair that for test-works, etc., the local funds should pay, but it is a matter for consideration where the line should be drawn where famine exists, but is not declared, and when relief has got beyond the resources of the Board. In order to carry on their operations in 1899, the Board had to take a loan of Rs. 1,50,000, in 1908, another loan of Rs. 50,000, both of which are being repaid; and recently the Board has been forced to apply for another loan of Rs. 90,000. When the loans are being adjusted and repaid, I hope Your Honour's Government will consider the case, and if it is not possible to allow credit for Rs. 65,448, at least to give credit for Rs. 19,000, as this sum was remitted by the Collector to the ghat contractors as famine-relief, especially as the income from ferries is given to the District Board for their educational allotment, but no reduction whatsoever has been made under this head. As the matter is not strictly concerned with the present Budget, I must ask Your Honour and the Hon'ble Members of the Council to pardon me for having taken up time by alluding to it.

"In conclusion, there are many critics of Government, of their financial policy, of their laws and Acts, but it is to be regretted how seldom we find any acknowledgment from those who should be the first to allow and publicly state what the forethought and care of Government have done for the millions they rule. Is this failure due to ignorance of the work that is being done, or is it that they are really not in touch with those who have benefited? I am especially referring to the Agricultural Co-operative Societies that have

been established all over India. I have failed to notice in any Provincial Council or in the Imperial Council itself non-official Members acknowledging what has and is being done for the raiyat and cultivator of India. But if the crities who should have realised this have not done so, the International Institute of Agriculture fully acknowledges what has been done; and if those who are really interested in the welfare of the agriculturist will procure (if they have not already got a copy) a Bulletin of the Bureau of Economic and Social Intelligence, No. 3, December 31st, 1910, published in Rome, they can see for themselves how favourably the progress of these Societies in India compare with those in other parts of the world.

"Mr. H. W. Wolff in the 3rd edition of his book on 'Peoples' Banks' has said of the legislation by which it was initiated 'that it has borne fruit in such abundance as has never before been witnessed in the Co-operative Credit movements.' Now this movement is an illustration of State aid effectively administered, rather than of organised self-help, and thousands of Indian cultivators to-day are expressing their 'Shukr Guzari' to the 'Sircar' for what it has done for them. With those who have failed to do so, is it a case of—'a prophet has no honour in his own country?"

The Hon'ble Mr. NORMAN McLeod said :-

"I had not intended addressing the Council at this session, but recently I was twitted with the fact that the representatives of the Chamber took no interest in the actual work of the Council. I had no idea until now that the making of speeches was a part of that work; in fact, from my point of view, I always looked upon long and frequent speeches as the frothing of a boiling imagination, and calculated more to delay than further the business before us. I think Your Honour will bear me out in that I have fried in a small way, without making speeches, to facilitate the success of our deliberations. As, however, it appears the unfortunate rule that every member should speak, there is apparently no monopoly in the orgy of oratory to which we have listened. I now unwillingly claim your brief attention and, as at this stage of the session, Hon'ble Members are allowed to diverge from the actual business of the Budget, I need only state with regard to it that, as far as I can gather, the Members of the Chamber of Commerce are quite satisfied with the way it has been stated and explained, and with the proposals of expenditure as put forward. In this connection I was rather surprised that an Hon'ble Member of the Finance Committee should have complained of how little scope was given to non-official Members of prompting in the distribution of the Provincial funds. I think this is a matter for congratulation than otherwise, as it shows us what an efficient executive is in charge of the financial affairs of this Province. I think in another connection it is also a matter for congratulation, as judging from the various resolutions put forward and the speeches at the introduction of the Budget, and to-day, there is, to my mind, a danger to our Province of being educated to a state of mental repletion and of being physically starved during the process. I have the greatest respect for education within limits commensurate with the receptive capabilities of the students, but I see around me, in my daily avocation, the most painful instances of men working on a pittance, who have been educated mechanically to a certain defined standard, and who, if they had applied the same mental capacity to acquiring a practical trade, would now have been earning a handsome competency. It must not be forgotten that the learned professions are limited, while the aspirants to them are unlimited; the demands of Trade and Industry are unlimited, while the supply of suitable candidates in and around Calcutta-the greatest industrial centre of Bengal-is so limited that employers have to indent on other countries for men to fill appointments which should be entirely Swadeshi. From this it would certainly seem that the trend of education in the past has been misdirected, and that in the future it should be so guided as to avert the danger which is threatening. It is a pleasing feature in some of the speeches which we have heard (or read) to-day that the advantages of a Technical and

Industrial education are being recognised, and a movement in this direction should be strongly encouraged.

"I would like now to mention a matter which is of particular interest to the community which I represent, and I take it of the same interest to the whole of Bengal, and that is the present congested position of our High Court. I cannot say that there is any particular blame to attach to anyone, as the course of events in Bengal have unfortunately of recent years brought about a state of matters without parallel in recent history. While we deplore that such is the case, the large trade interests of the Province demand that the present state of matters should be rectified, and that, up to legal limits, a sufficient number of additional Judges should be appointed so as to adequately cope with the arrears which have crept in. I would not advocate permanent additions to our Courts, unless absolutely necessary, as High Court Judges are costly luxuries, but I would certainly strongly advocate such appointments being made until the millennial time should arrive when they are no longer necessary. A suggestion is put forward by an Hon'ble Member that while the Province of Eastern Bengal and Assam participate in the advantages of recourse to our High Court, they do not share in the expenses. It would seem but only fair, if this is the case, that the said Province should bear a proportionate share of the expenses involved, and the matter is quite worth looking into.

"I desire to endorse the congratulatory and complimentary remarks which my hon'ble colleagues have addressed to Your Honour as to the Budget and for your personal welfare."

The Ron'ble Mr. DIP NARAYAN SINGH said :-

"Your Honour, most of the points that I intended to speak upon have already been mentioned by the Hon'ble Members that have preceded me, and I do not think that I need take up the time of the Council by a recapitulation of these very points. In fact, Sir, after what has already been said I did not intend to have spoken at all, but some remarks that have been made by some non-official Hon'ble Members call for a reply, and I consider it my duty to say something about them. Your Honour has already heard the opinion of nonofficial Members as regards the scope and function of the Finance Committee, and I feel that I must say a few words to strengthen the hands of those of my colleagues who have pressed upon this Council the advisability of reconsidering the rules that govern the working of that Committee. The Hon'ble Mr. Saiyid Wasi Ahmad and the Hon'ble Rai Shiba Shankar Sahai have already dealt with this subject, and I shall simply supplement their remarks by pointing out to the Council and to Your Honour that if the Finance Committee is to do nothing more than to discuss the small item of five or six lakhs out of a total expenditure of five crores of rupees, it is hardly necessary that a Finance Committee should exist at all. My Hon'ble friend Mr. McLeod thinks that it is matter of congratulation that this is so. He says that it shows what a splendid executive we have. I think, Sir, that the non-existence of this Committee would be a matter of greater congratulation according to him. It take this opportunity to say, and I think I am right, that most of the non-official Members of this Council differ from my Houble friend on this point. Sir, if the remarks which you made in one of your pronouncements shortly before the formation of this Council, namely, that the time has come when an attempt should be made not only to govern for the people but through the people, is to be given effect to-I believe that some effective voice should be allowed to the non official Members in the discussion for the allotment of sums for expenditure in the Finance Committee. Sir, in the Budget that has been placed hefore us I submit that most of the items appearing in the schedule of new expenses estimated to cost more than Rs. 5,000 might well have formed the subject of discussion in the Finance Committee. I am told, Sir, that they have already been agreed upon and are obligatory. Is it impossible, Sir, for the Finance Committee to be a working body throughout the

Indeed it must be advisory in most of its deliberations. But I submit that if the larger items of expenditure had been referred to the Finance Committee, it might have been possible to reduce some and to modify others. Anyhow, Your Honour would have had the satisfaction of having public support in most of the items of expenditure budgeted. My friend the Hon'ble Mr. Filgate has given us a very rosy picture of the condition of the peasantry in North Bihar and he has said that free and compulsory primary cducation is not wanted by the people of his part of the country. Sir, if every country had to wait till its uneducated masses desired compulsory education, I beg to submit that not one country in Europe would have had such an enactment on its Statute-book to day. Sir, every country, even England, when it proposed to enact a law for compulsory and free education has raised a storm of protest, against such measure and yet I believe there is not a country that does not bless the day when compulsory and free education was made the law of the land. I beg to say a few words on the remarks made by my Hon'ble friend Maharaja Sir Prodyot Kumar Tagore. It is a subject upon which I had not wished to speak. It has reference to the paper which has been subscribed for by the Government for free distribution amongst the peasants of this Province. I admit, Sir, that the object and intention of the Government is good. But I entirely differ from my hon'ble friend when he says that the general impression of people is that this object will be achieved, on the other hand I have reasons to believe that the general opinion in the Province is that the object of the Government will not be achieved. True it is only an experiment, and as my friend has said we must wait and seed With reference to this subject I must say a few words with special reference to Bihar. This subsidised paper, Sir, is to be published in the Bengali vernacular, and I suppose it is intended to be circulated only in the Presidency and Burdwan Divisions. Will it be too much at this hour of the day to suggest that if only two divisions of the Province of Your Honour's Government are to benefit, if they are to benefit at all, from this paper, some arrangement should be made to reduce the expenditure from 62,000 rupees to a smaller sum. I find that the Government of Eastern Bengal and Assam are spending only Rs. 20,000 for a similar paper. Sir, if Rs. 20,000 suffices for a whole Province, it is worth considering whether an equal amount or perhaps even a larger sum may not be sufficient for only two divisions of this Province.

"I am glad to find that my friend the Hon'ble Mr. McLeod has referred.

"I am glad to find that my friend the Hon'ble Mr. McLeod has referred to the question of the High Court here. I brought this matter before the Council last year, and I must say that I am still unable to understand why when the High Court benefits both the Provinces of Western and Eastern Bengal, Your Honour's Government should have to pay the whole of the

cost.

Sir, that is the expenditure under the head Public Works Department. I think it my duty to tell the Council that there is an impression abroad that there is room for a great deal of economy in this department. Sir, the cost of civil buildings, roads and works of public utility in 1906-07 came up to a little over 57 lakhs. In 1907-08 it was 61 lakhs, while in the revised estimate of last year it was only 38 lakhs, and yet we find that the expenditure on Public Works establishment has actually risen from 8 lakhs in 1906-07 to something like 10 or 11 lakhs in 1910-11. Now, Sir, this clearly shows that the permanent establishment of the Public Works Department goes on increasing whether the cost of new works taken in hand be large or small. I think the time has come when Your Honour should direct your attention to the Public Works Department and consider whether, excepting the Irrigation Department, most of the building work cannot now be entrusted to private firms. Your Honour will, I am sure, be able to make substantial reduction in the administration of this department. This question has been taken up by no less an able authority than Valentine Chirol in his recent work on India, and he suggests this same method. I think, Sir, that his remarks are worthy of consideration. With these few words I beg to support the Budget."

The Hon'ble MR. OLDHAM said :-

"Several Hon'ble Members have commented upon the increase under Excise revenue shown in the Revised Estimates for 1910-11. Since, in most cases, the remarks that we have listened to refer to the same points, I propose to give a general reply in the first instance to the criticisms levelled against the figures.

"The policy of Government in connection with the taxation of country-spirit is that the taxation should be as high as may be possible without giving rise to illicit manufacture and consumption of liquor. The principle may be roughly stated, as it often has been, thus—that the maximum of revenue should be sought with the minimum of consumption. This policy is always kept in view. A mandate from Government cannot change the habits of the people in respect of drinking. There is a normal demand that has to be met. If it be not met by licit supply, it will be met by illicit supply. It is the endeavour of Government to supply this demand with as pure and carefully-manufactured liquor as possible, at as high a rate of taxation as possible; to substitute a better class of liquor for the often defectively-made liquor sold under the old system, and at the same time to strive after the attainment of a condition of things under which every bottle consumed shall be taxed at as high rate as possible without driving habitual consumers to clandestine practices. We are still a long way off this ideal; but we claim to be working towards it. A great advance has undoubtedly been made in recent years; but even under the present system, with more accurate means of check and enlarged powers under the law, numerous cases of illicit distillation are brought to light in most parts of the province, and the only reasonable inference is that we have not yet reached the limit of licit consumption.

"The increase in consumption to which certain Hon'ble Members have specially referred has occurred in Calcutta and in the Monghyr, Bhagalpur and Purnea districts. In Calcutta the consumption fell (for reasons, explained in the reports) in the years 1908-09 and 1909-10; and the increase noticed during the year just ended is merely a return to the normal, and is due, it is believed, to the cheaper prices of food-grains and also to a great extent to the rise in duty on foreign liquor. In fact the Collector of Calcutta informs me that the increase referred to has probably been counterbalanced by the decrease in the consumption of foreign liquor. The figures of consumption are still a long way behind those of 1907-08. In the districts of Monghyr, Bhagalpur and Purnea, the contract supply system was introduced in 1909-10. A heavy fall in consumption followed, owing largely to unfounded prejudices against the new contract liquor and also to the less favourable agricultural conditions. The increase in 1910-11 merely indicates that the prejudices referred to are dying out, and that conditions are reverting to the normal. In Monghyr the consumption is still much below what it was in 1908-09, the year previous to the introduction of the contract system.

"In the other Bihar districts, viz., throughout the Patna and Tirhut Divisions, there has been a very much larger decrease in consumption during the year just closed as compared with 1909-10, to which no attention has been drawn by any of the Hon'ble Members who have spoken. This, however, is entirely due to the introduction of the new contract liquor during the year, and is therefore of a temporary character. And here I must sound a distinct note of warning to those who confine their attention in too great a measure to the question of the consumption of liquor. We must never forget that by keeping too tight a hand on the consumption of liquor or placing undue difficulties in its way, besides the risk of illicit distillation, we incur a very grave danger of driving consumers to the habit of taking much more harmful and degrading stimulants, such as ganja, bhang, charas, cocaine, etc. We have had a striking example of this danger during the past year in Northern Bihar districts, where there has been a distinct rise in the consumption of ganja, which is undoubtedly due to a great extent to superstition and prejudice against the change of system and liquor introduced with effect from the 1st of April, 1910.

"I am not quite sure whether the Hon'ble Member who represents the Municipal Commissioners of the Chota Nagpur Division has made his meaning clearer this year than last. The drinking tendencies of the aboriginal tribes of that division are well known; but on looking into the figures I find that there has actually been a decrease in the consumption reported from that division. I do not follow the Hon'ble Member in his figurative—I was going to say fantastical—allusion to blood and water.

"From the remarks made by the Hon'ble Member who represents the University of Calcutta, I must assume that the hon'ble gentleman is not familiar with the history of Excise administration in this province since the Indian Excise Committee sat in 1905-06, when all details of the administration of the department were investigated and discussed, and since when all the recommendations of the Committee have been carefully scrutinized by the Government of India in consultation with the Local Governments, and definite lines of policy and administrative reform laid down for our guidance by the Supreme Government. If the Hon'ble Member had asked for information on the points raised, I would gladly have supplied him. The Hon'ble Member resents what he calls the 'stereotyped explanation' that the expansion of Excise revenue is due to improved methods of administration. I feel that equal objection may be taken to the reiteration of what may be called stereotyped criticisms of the Government's Excise policy, which have been fully met on many occasions before, and which are calculated in a great measure to impugn unfairly the motives of Government in the matter of Excise administration. The Hon'ble Member asks what can be done and what has been done to check the growth of consumption. I shall not take up the time of the Council by attempting to give a statement of all that has been done and is being done. I need only refer to one or two more important measures.

"The most far-reaching reform undertaken in this province has been the introduction of the contract supply system, in supersession of the old outstill and central distillery systems. The contract system has now been extended to all districts of the province except Palamau, Singhbhum and Angul and parts of six other districts, where it has been found impracticable under present conditions to enforce it. One of the most essential features of this system is the separation of the privilege of manufacture from that of retail vend, which means a check on consumption, since under a system under which manufacture and sale are united in the same hands, the competition between rival manufacturers and sellers must necessarily result in forcing up consumption.

"Under the new system we are giving to consumers a purer and more wholesome liquor.

"Under this new system we have also largely increased the price of country spirit to the consumers over a great portion of the province.

"Under the new system the actual consumption—which could never accurately be known under the outstill system, and which under that system was notoriously under-estimated in their own interests by the licensees—is now known, and the prices of liquor, the rates of duty and the vend fees can therefore be more accurately controlled and more suitably regulated.

"This new system also enables us to detect more easily offences against the law, more especially cases of illicit distillation and manufacture. The provisions of the new Act, which came into force in the latter half of the year 1909-10, have also strengthened the hands of the Excise staff towards the 1909. detection and prosecution of such offences. The result has been a large increase in the detection and successful prosecution of cases of illicit distillation. In four districts in which such offences have been notoriously rife in the past, the aggregate figures show an increase in such cases detected from 375 in 1909-10 to 889 in 1910-11; that is to say, more than double the number of cases have been sent up during the year that has just closed. These figures will give Hon'ble Members some idea of the extent to which the Government has in the past been, and is still being, deprived of its dues, and what a large

Ben. Act V cf

margin must still remain for the expansion of licit consumption, and therefore of revenue, at the expense of illicit and untaxed consumption.

"Then again, under the present system the figures of consumption are carefully scrutinized, the issues from every warehouse in the province being watched each month. If after proper inquiry it is found that consumption is rising unduly in any particular area, steps are at once taken to raise the taxation therein. In this way the rates of duty and the maximum prices have already been considerably increased in many parts of the province, and action will continue to be taken in this direction.

"For the information of those who profess to believe that Government expects and desires to see an increase every year under the head of Excise receipts, I may mention that the introduction of the system in the beginning entailed a very considerable loss of revenue, but this did not deter Government from enforcing it. I think I have said enough-though I could add much-to show that we do take such measures as are considered possible or praticable to check consumption without driving people to illicit supplies.

"I wish further to make it perfectly clear to the Hon'ble Members that there is still very large scope for expansion of the Excise revenue in this province. Even in the greater part of Bengal to which the contract supply system has now been extended, we have not yet nearly stamped out the illicit manufacture of untaxed country-spirit. In many of these districts enormous quantities of illicit liquor are still consumed. Then there are the outstill areas in the remoter and more inaccessible parts of the province, where communications are still in a very backward state, and where country-spirit is not yet fully taxed. And, lastly, there is the increase in population to be taken into account—a matter which is not uncommonly overlooked. It may interest Hon'ble Members to know that the latest comparative figures available to me show that while the incidence of Excise revenue per head of population in Bengal is 5 annas 3 pies, in Madras it is 11 annas 3 pies, and in Bombay it is 1 rupee.

"As regards the question of reduction in the number of shops, I would refer to the remarks made in this connection by the Indian Excise Committee in 1905-06. They referred to the general tendency in this province to reduce the number of country-spirit shops, and added that they were disposed to concur in the opinion of the then Excise Commissioner that this policy had been carried so far in some districts that there were not enough shops left to supply the legitimate needs. In spite of this view, during the past five years the number of country-spirit shops has been considerably reduced. In 1906-07 the number was 3,060, and it has been gradually reduced each year to 2,918 in 1910-11. The number of tari shops has also been very largely reduced during the same period, as may be seen from the departmental reports. Measures have also been taken, with a view to check the consumption of opium and ganja, to give details of which would take up too much of the time of this Council.

"It should be a matter for congratulation and not for regret, if in spite of increasing the rates of duty and the prices of liquor and reducing the number of shops, we obtain an increased revenue, which can be traced to the gradual substitution of licit and taxed liquor for illicit and untaxed liquor.

"There are only one or two other questions raised by the Hon'ble Member Ben. Act V of for the University that call for a reply. The new Excise Act has made no changes in the machinery for collecting the revenue as he seems to imagine. It is not within the competence of the Local Government to abolish the auction system. This system is in force under orders of the Supreme Government.

"Similarly, in the case of the amalgamation of the Excise and Salt staffs, this course was recommended by the Indian Excise Committee and approved by the Government of India 1t is useless raising questions in this Council with which the Local Government cannot finally deal. The figures quoted by the Hon'ble Member in respect of country-spirit shops and tari shops are incorrect The number of country-spirit shops was reduced by 24, and the number of tari shops by 844, during the year 1910-11, and not by 3 and 19, respectively, as stated.

1969.

"In respect of Calcutta the Hon'ble Member mentions that only one shop was reduced in the past year, but he omits to mention that no less than 16 country-liquor shops were abolished in 1908-09 and 1909-10, really leaving no further room for reduction.

"In his remarks about the increase in license-fees at the recent settlements (country-spirit shops were not settled—only shops for the sale of opium and other drugs), the Hon'ble Member seems to forget that an increase in the license-fees brings about an increase in the retail prices, which in itself tends to check consumption. Moreover, in respect of opium shops the restrictive system is in force in Calcutta, under which the issues to shops are fixed, and so consumption is necessarily limited.

"I have received no report to show that the celebration of the Holi festival was this year conducted in a different manner from what it has been in the past. No necessity arose for closing the liquor shops. If it had, the Commissioner of Police or the Collector of Calcutta would have moved in the matter. Early closing would not have affected the revenue; for festivals like this stocks are laid in beforehand."

The Hon'ble Mr. KUCHLER said :-

"I am in the fortunate position of having on the present occasion less to reply to than last year in the way of actual criticism of the provisions made in the Educational budget. Gratitude to the Government of India for their liberal grant for Education is no doubt largely responsible for this benevolent attitude on the part of the non-official Members of the Council, and I can only hope that this gratitude is not entirely a sense of favours to come; not that I do not share this feeling myself to a certain extent, but because it is very doubtful how far any expectations which we may entertain in this respect are likely to be realised. I must strongly emphasize the fact that this Imperial grant is for objects of non-recurring expenditure, and that it can in no way be looked upon as a permanent addition to the expenditure under the Education budget. I am led to utter this note of warning by the expressions of satisfaction which have fallen from one or two Hon'ble Members as to the steady increase of the Educational budget expenditure up to the amount which is shown in the Financial Statement for the year 1911-12 and which includes the Imperial grant in question. The general feeling of satisfaction with the present Educational budget is reflected even in the utterances from Bihar in which, with one exception, we do not find the same note of complaint as was heard at the corresponding meeting of the Council last year with regard to the unequal division of educational expenditure. It is recognized by the Members from Bihar that Government is making an effort to respond to the increased demands for higher education in that part of the province, though at the same time it is suggested that Government might give even more assistance than it does at present. The specific wants that bave been indicated are, as last year, chiefly concerned with collegiate education, and a special request has been advanced on the part of the Bihar National College at Patna that its grant-in-aid should be still further increased. The grant-in-aid, however, to this college was doubled as recently as the beginning of the last academical session, and it is obviously too early to consider now the question of a still further increase. The department has noted with satisfaction the large increase in the number of students attending this institution as well as the enhancement of the fee-rate which it is proposed to make from the commencement of the next session, and it will be necessary to examine carefully the finencial effect of both of these factors before any conclusion can be arrived at as to the exact amount of assistance which the college requires to put it on a sound educational footing. In addition to the Bihar National College there are three other first-grade colleges in Bihar, the Patna Government College, the expenditure on which has of late years been very considerably increased, the Bhumihar Brahman College at Muzaffarpur, the application of which for a grant-in-aid is, as has already been pointed out, at present under consideration, and the Tej Narayan College at Bhagalpur which is, through the munificent liberality of a private benefactor, fortunately

in a position to dispense with Government aid altogether. It will be seen therefore that the wants of Bihar in the matter of collegiate education are not being neglected, and though the increased demand for such education on the part of Biharis necessarily connotes some additional assistance from the public exchequer, that assistance must be strictly correlated with the actual measure of advance attained as shown by experience.

"I have said that there was one note of dissent from the general chorus of approval on the part of the Bihari Members with regard to the Educational budget this year. The Hon'ble Babu Braja Kishor Prasad has again returned to the attack with regard to the subjects to which he called attention when moving certain resolutions in the Council, and has again covered the same grounds in his remarks as on that occasion. I do not think I shall be justified in following the same course, but I would ask for permission to deal with one or two of the new points which he has raised. With regard to the professorship at Patna College, the figures which he has now produced cannot be said to be very conclusive as to the alleged popularity of this subject. But any force which they might have had is entirely lost when it is considered that they refer to a state of affairs which existed before the present University Regulations were introduced. At that time there was no such subject as Political Economy and Political Philosophy in the University curriculum. And no comparison is therefore possible between the popularity of these two different subjects. From a priori consideration and from actual experience I am in a position to affirm that the subject of Philosophy is unpopular not only in Bihar but in Bengal as well. As to the source from which I obtained my information as to its unpopularity at Patna, I may say that it was derived from the educational authorities of the college itself, and I venture to think that the latter are in a better position to gauge the popularity of this subject among the students than the Hon'ble Member.

"With regard to the question of preferential treatment for Bihar in the matter of education, I have no quarrel with the Hon'ble Member as to the desirability for such treatment. But I must take strong exception to the method by which he proposes to give effect to it. By preferential treatment in the case of races, educationally backward, is generally meant exemption from fees or at least the reduction of fees, and also in some cases the reduction of the standards of education itself, but I have never before heard the somewhat grotesque proposal advocated by the Hon'ble Member that schools in a part of the country, educationally backward, should be better equipped and better staffed than those in parts more educationally advanced. I hardly think that this suggestion will receive support from the Hon'ble Members from Bengal who were prepared on a previous occasion to endorse the plea of the Hon'ble Member for preferential treatment for Bihar.

"There is one other important matter in connection with education in Bihar which has been referred to to-day, and that is the removal of the Patna Collegiate School from the college buildings. This removal was necessary for two reasons. In the first place the University Commission strongly urged that schools and colleges should be entirely separated and, secondly, further accommodation was required for the work of the Patna College itself. As the Hon'ble Maulvi Saiyid Muhammad Fakhr-ud-din has stated, a site was tentatively selected for the new school buildings, but in the absence of funds to meet the cost of this project, which would have been very considerable, it was found necessary to remove the schools for the present to a hired building, and no further action was taken with regard to the acquisition of land for the new school and the preparation of plans and estimates. The present arrangement is admittedly unsatisfactory, and the question of providing the Patna Collegiate School with buildings of its own at the earliest possible opportunity is not being lost sight of.

"Another division which has come forward with certain specific requests is that of Chota Nagpur whose wants are as heretofore voiced by the Hon'ble Babu Bal Krishna Sahay. The Member has referred to the need of hostel accommodation for pupils reading in the various schools at Ranchi and has specially

referred in this connection to the Zilla School. I can give the Hon'ble Member the assurance that the question of hostels for the Zilla School is at present under consideration, and that, with the help of the Government of India grant, the projects, which are at present before the department, are likely to be materially advanced within a very short time. The Hon'ble Member has also recommended the case of one of the Mission Schools at Ranchi, and has suggested that it should receive a material assistance towards the erection of a new school building.

"I am afraid I cannot fully go into this matter as the time-limit imposed on me has already been exceeded, and I can only say that after careful consideration it has been found impossible to hold out hopes of a grant to the school in question.

"Reference has been made in the remarks of one or two Hon'ble Members to the question of direct moral instruction, and the suggestion has been made that a provincial conference should be called to discuss the subject. question is one of great importance and has been keenly debated of recent years in Western countries. No conference, however, which has ever been held, at least no representative conference, has been able to arrive at any conclusion on the very important issue, whether direct moral instruction can with advantage be given apart from the sanction of religion. I do not think it likely that any conference in Bengal would carry its deliberations to a more successful issue. As far as I have been able to judge myself, the preponderance of opinion, in this province at least, is opposed to the divorce of moral instruction from religious teaching. If this be so, and even in the contrary case, I think that before Government can take action there should be some stronger expression of opinion on the part of the community itself as to its wishes on the subject than has hitherto been the case. The initiative, I think, should come from the community itself, and I would again point to the fact that the Government schools form only a microscopic minority of the educational institutions of this province, and that as regards private schools, whether aided or unaided, there is no objection to the introduction of religious instruction, provided the community so desire. The Christian missionary bodies have made full use of the opportunities presented to them in this respect, and it remains to the adherents of other religious beliefs to take the initiative in the case of other private schools attended by their children.

"There are many other matters of interest which have been brought before the Council on which I should have liked to comment, but I recognize that I have already occupied the time of the Council to an extent considerably beyond what I am entitled to, and I am reluctantly compelled, in deference to the wishes of His Honour the President, to bring my remarks to a close. The views of the Government and my own views on the subject of female education, on which the Hon'ble Babu Bhupendra Nath Basu has made some interesting observations, are sufficiently well-known."

The Hon'ble RAI KISORI LAL GOSWAMI BAHADUR said :-

"Your Honour,—The Hon'ble Babu Deba Prasad Sarbadhikari has this year reiterated his charge of the unsatisfactory character of explanations offered in regard to the variations in the anticipated receipts under the head 'Registration.' He seems to be under the impression that the explanation offered last year by the Hon'ble Mr. Gourlay, and that offered while the Registration budget was introduced this year, are antagonistic and inconsistent. He has quoted a sentence from the speech of the Hon'ble Mr Gourlay with the usual marks of quotation, and chooses to interpret it in a way which was not surely meant by the speaker, for the Hon'ble Mr. Gourlay followed it with further explanations to which the Hon'ble Member has not referred. The Hon'ble Mr. Gourlay told us that a period of scarcity, when the cultivator is driven to mortgage 'his holding, would necessarily increase the number of registrations and the amount of the registration fees.' This year we expect a good harvest and we anticipate a diminution of receipts from registration. Experience and observation extending over a number of years have conclusively shown that

the receipts from registration fall off during a period of prosperity, and increase in times of stress and scarcity. As a matter of fact, agricultural conditions have steadily improved since 1908 each year, and we find the actual receipts are steadily decreasing. In 1908, the receipts amounted to 14 lakhs 28 thousand, in 1909 to 13 lakhs and 97 thousand, and in 1910 to 12 lakhs and 62 thousand.

"The estimate of receipts under registration in 1910-11 has been proved to be an over-estimate. It is so probably because the change for the better in the agricultural prospects was not fully realized in the beginning of the year. Perhaps, the Hon'ble Mr. Gourlay in this failed to exhibit to much advantage the gifts of a weather prophet. The year that has just set in will, we hope, keep up the progress of prosperity which we put forward as a reason for the anticipated diminished receipts under registration.

"It would hardly lead to practical and useful results to go into the minutiæ of all the factors which operate to increase or decrease the registration receipts. For practical purposes, it is sufficiently safe to regulate our calculation according

to the agricultural prospects of each year.

"The Hon'ble Babu Bal Krishna Sahay has asked your Honour to make a liberal contribution to the Boards of Chota Nagpur to open new roads. I must remind my hon'ble friend that Government, year after year, has been making liberal grants to the Chota Nagpur Boards for improving their means of communications. During the last three years the Government grants for roads and bridges amount to, respectively, Rs. 22,165, Rs. 58,876 and Rs. 57,979. No doubt the needs of this growing division are considerable, but so are other demands upon the Provincial revenue.

"The Hon'ble Maulvi Saiyid Zahir-ud-din wants provision to be made for grants to the District Boards generally, for effecting improvements in the matter of sanitation and water supply. Definite projects in either respect can be assisted from the general sanitary improvement grant. The general resources of the Distrct Boards are already aided from the augmentation grant. It is not clear what more is required. In the absence of definite proposals as to the method of expenditure, it is not expedient that lump grants should be made to District Boards, with a general injunction to spend them upon sanitation and the improvement of water-supply.

"The Hon'ble Babu Bal Krishna Sahay says, 'I am afraid that there is no provision in the Local Boards Act for reservation of tanks for the supply of Ben. Act III of drinking water.' Section 90 of the Local Self-Government Act makes special provision for the reservation of tanks for the supply of drinking water. If the Ranchi District Board desires assistance towards any scheme for the improvement of the water-supply, it should submit a well-considered project which can then be considered.

> "The Hon'ble Rai Sitanath Ray Bahadur, in deploring the want of zeal on the part of Government in the matter of supply of good drinking water in rural areas, made a strong appeal for Government grants to the Boards for that purpose. I fear the Hon'ble Member has not taken the trouble to acquaint himself with the real state of affairs. I shall read a paragraph out of the last Government resolution reviewing the working of the District Boards with a view to show that the accusation of apathy lies at the door of the members of the Boards rather than that of the Government. Government has administered a rebuke to the Boards in the resolution, and I think the Boards will be able to show a better record of their work in the matter of rural water supply in the year which has just set in—paragraph 20 (page 6) of the Resolution :

> 'In nine districts only out of 29, viz., in Birbhum, Nadia, Khulna, Fatna, Shahabad, Muzaffarpur, Monghyr, Bhagalpur and Purnea, did the expenditure on account of water-supply exceed Rs. 5,000, the standard which is regarded by Government as a minimum, although the attention of all District Boards has repeatedly been drawn to the necessity of improving the sources of water-supply in rural areas, the latest orders being contained in Government Circular No. 7T.—L.S.-G., dated the 24th May 1910. Unless local bodies will, of their own initiative, pay greater attention to this important item of local administration, the Local Government will be left with no alternative but to embark for this purpose a

1885.

portion of the grants which are made in aid of the resources of District Boards. Such a course will be adopted with reluctance, but it is impossible to acquiesce in the persistent disregard of the instructions in this matter."

The Hon'ble Mr. SLACKE said :-

"SIR, I would express my cordial thanks to Hon'ble Members for their courtesy and consideration in letting the official Members know beforehand the nature of the comments they were going to make on the budget, thereby enabling the latter to procure in time the details needed.

"The Hon'ble Rai Baikuntha Nath Sen Bahadur asks for details in respect of certain sums allotted for sanitary purposes, and desires to know whether Government has in contemplation any definite scheme of sanitary improvement and whether any steps are to be taken for the supply of good drinking water. I would refer the Hon'ble Member to the remarks I made when the budget resolutions were discussed, in connection with the method followed in dealing with this grant.

"That also applies to the remarks which the Hon'ble Babu Hrishikesh Laha has made regarding malaria. But I would assure the Hon'ble Member that the Provincial Malaria Committee is fully alive to the magnitude of the evil and is receiving from Government all the aid they have asked for. At the same time, I would impress on Hon'ble Members the necessity of patience in a

matter of this kind.

"The Hon'ble Babu Hrishikesh Laha would be glad to know what further water-supply and drainage projects have been sanctioned in the past year. The grants made in that year are set out in paragraph 60 of the budget notes. Some of these grants were made towards works which were approved or were under discussion in previous years and are probably not new in the sense contemplated by the Hon'ble Member. Others, as for instance the grant to the Darjeeling Municipality for drainage and to Khulna for water-supply, were for the furtherance of existing projects. It may perhaps be said that the initiation of the Bagjolla and Nawi Sunthi projects and the drainage schemes of the Ranaghat and Kushtia Municipalities were the distinctly new features of the year.

"Concerning the Hon'ble Member's remarks about the Bager Khal project, the matter is a very old one. The statement of cost, viz., 4 lakhs, which the Hon'ble Member has made, is, I have reason to think, an under-estimate. Government will undoubtedly consider the desirability of making a grant, but of 1895. If any well-considered project under the Sanitary Drainage Act is submitted; it is for those locally interested to move in the first instance, and this they have apparently not done hitherto owing to a disinclination to pay for the improvement. No further provision by Government is needed for the Hooghly-Chinsurah waterworks, as the balance of the promised contribution was paid in the past year.

"The Hon'ble Member has made certain remarks about the provision of Rs. 1,07,000 for 'Timber and other produce removed from the forest by consumers and purchasers.' The entry in question is one of the account headings approved by the Comptroller-General, and a similar entry will be found in the Imperial Accounts. The expenditure referred to is incurred in connection with the removal of timber and forest produce by private purchasers. The charges occur chiefly in the Sunderbaus Division and include such items as temporary establishments, the maintenance and working charges of launches and boats, tree-marking and travelling allowances. It is true that this expenditure might be partly debited to general supervision, but it is more convenient to show it under one head.

"I can say nothing definite with regard to what two Hon'ble Members have said as to the necessities of Patna until the facts have been represented to and considered by Government.

"With reference to what the Hon'ble Babu Kirtanand Sinha has said about the Bhagalpur waterworks, I assume that the Hon'ble Member has not been

supplied with all the facts, otherwise I fail to understand how he could speak as if Government had given no assistance at all to the Bhagalpur waterworks. From first to last the Government contributions towards the cost of the works have amounted to nearly two lakhs, and in connection with the present difficulties with which the installation is threatened by the river Ganges, the Sanitary Engineer has been in frequent communication with the local authorities and has just recently visited Bhagalpur. It now rests with the municipality to take action upon his recommendations.

- "With reference to the proposal of the Hon'ble Maharaj-Kumar Gopal Saran Narayan Singh, it would appear that his request is due to the ravages which in recent years have been caused by plague and malaria. The Hon'ble Member is doubtless aware that the subject of plague has been inquired into by Committees and Commissions, while, for the purpose of investigating the remedial measures possible for allaying malaria, Government has recently appointed a Provincial Malaria Committee. Under these circumstances, it is not considered that any practical good would result by acceding to the Hon'ble Member's request.
- "As regards sanitary matters, nothing in my opinion will be gained by reserving tanks for drinking water till villagers have shown that they appreciate good drinking water. Had they already this wish, they would long ugo have had such reserved tanks.
- "At present, opposition is often made because people object to having to bathe in a different tank from that whence they get water. Until villagers get that wish,—and this can be secured through the co-operation of landlords and Hon'ble Members,—it would be premature and possibly dangerous to have tanks reserved for them, as some one must be put in charge of those tanks, which would be absolutely needless if the villagers themselves were alive to the value of good water, and that some one might abuse his position.
- "I would also strongly impress on Hon'ble Members how much good could be done by their organizing measures whereby villagers could be taught to recognize the value of self-help. Much, very much good, would be gained from a sanitary point of view if villagers would keep the vicinity of their huts clean and their immediate surroundings free of jungle. I have come across some examples of what can be done by villagers who are alive to their particular needs. I would instance the manner in which in Chittagong spawning grounds are preserved and the purity of the well-known local breed of poultry is maintained.
- "The supervision of navigable rivers by Government, to which the Hon'ble Babu Bhupendra Nath Basu and the Hon'ble Rai Sita Nath Ray Babadur have referred, is a matter which is being considered by Government, who have suggested to the Chamber of Commerce the advisability of placing the Waterways Committee under the Railway Board. In view, however, of the financial position of the province, Government is unable to encourage any proposals which advocate extremely heavy expenditure without any prospect of a reasonable return. The expenditure by this province on the eastern waterways has exceeded 100 lakhs and the return is less than 1½ per cent.
- "With regard to the remarks which were made by the Hon'ble Mr. Dip Narayan Singh about the Public Works Department, had the Hon'ble Member let me know beforehand the nature of the comments he proposed to make, I would have been in a position to give him statistics which would probably have led him to modify what he has said. As it is, I have not had the time to obtain these figures completely, and therefore I will later on furnish the Hon'ble Member with a note on the subject."

The Hon'ble Mr. Duke said:-

"If the Member in charge of the budget has the advantage of the last word, he also has the disadvantage of having to reply to a considerable number of disconnected suggestions which hardly concern any one else at p time when the attention of the Council is rather wearied. I, therefore, bropose to notice as briefly as possible the principal suggestions which have een made.

"The Hon'bie Babu Deba Prasad Sarbadhikari has made suggestions regarding the provision in a comparatively cheap manner of accommodation for Honorary Presidency Magistrates. This matter is at present under our consideration, and if it is possible to supply the necessary accommodation cheaply, we shall be only too glad to do so. The only note of warning which I have to strike is, that while the whole premises in Lall Bazar require reorganisation, we must not do anything which would render it impossible to carry out that reorganisation or which would be money thrown away. At the same time, I do not mean to imply that we shall go into very extensive reconstruction there. The cost would be prohibitive. We can only make up our minds to move within our means, i.e., by reasonable instalments. I trust that one of the first things that we shall be able to do will be to provide additional courts for Honorary Presidency Magistrates as suggested.

"The next point on which I would touch is the question raised by the same Hon'ble Member regarding the provision of three lakhs of rupees for the Delhi Durbar. He suggested that the expense at Delhi would be an Imperial charge, and that this three lakhs would be towards expenditure in the province. That, however, is not the case. The expenses of the Bengal Camp at Delhi will be a Provincial charge, as they were on the last occasion of a Durbar at Delhi. So far, no provision has been made by Government in connection with the King's reception in Calcutta. It is impossible to make any, until we know what His Majesty's programme in Calcutta will be and what the local arrangements are to be.

"The Hon'ble Rai Baikuntha Nath Sen Bahadur suggested that various purposes which he had at heart might be obtained by savings in one direction or another in the Police budget. I venture to suggest that suggestions of this kind are of very little use. The Police budget has been subjected to very severe criticism, and so far as I know there is nothing that in ordinary probability can be saved out of it. On the contrary, at any rate, this is a budget which will from year to year have to go on increasing until the standard set by the Police Commission has been attained. The Hon'ble Member was perhaps somewhat more nearly on the mark when he suggested that the expenses of the scheme for the separation of the judicial and the executive might be obtained by the savings which we are now to make by the early conclusion of the Khulna trial. That conclusion is from a financial point of view a very satisfactory matter as involving a considerable saving, but what the total saving on our law expenses is to be until the other trials which are now in progress have concluded, we are not able to say. The fact that one of the smaller ones has come to an early conclusion is unfortunately no evidence that the others are going to be equally brief.

"The scheme for separation of judicial and executive, to which the Hon'ble Member referred, is continuously under the consideration of Government, and no doubt some proposals regarding it will be brought forward as early as possible, but a scheme of that kind is one which requires mature consideration, not merely by the Provincial Government, and it is certainly unlikely that anything will take place within the year to which this budget refers.

"The Hon'ble Babu Bhupendra Nath Basu was good enough to tender some advice on the nature of the charges that Government should take up against political offenders. He suggested that it would be more satisfactory if we proceeded against datoits for datoities and not for revolutionary conspiracy. It seems hardly necessary to remind the Council that Government does not prosecute for the offences which they would like to prosecute for, but for those which the evidence shows to have been committed. It is not our choice to prosecute for this offence or for that offence, but for the offence constituted by the evidence that is put before us according to the advice of our legal advisers.

"The Hon'ble Mr. Saiyid Wasi Ahmad, in the same connection, has made a suggestion that it might be more economical if, for the purposes of Government prosecutions, we retained advocates on fixed salaries. I may first point out that to obtain advocates of really good standing, able to hold their own in the courts, we should have to pay very considerable salaries, but even so, the suggestion might be a very reasonable one, if we contemplated that we should for years to come be prosecuting the class of cases to which he refers. This is an assumption which we should be very sorry to make. It is true that for the past two years or so, we have continuously been prosecuting such cases, but I have no doubt that the Council shares with me the hope that these prosecutions are really nearing the end and that this is certainly not the time to consider how we should provide for similar prosecutions during a series of years. In the meantime, as has already been said, in case there should be further prosecutions of the same sort, we are considering how the expenses connected with them may be cheapened.

"The Hon'ble Rai Baikuntha Nath Sen Bahadur suggested that there was a general popular apprehension that a great deal of money provided for the Criminal Investigation Department was spent on business of a confidential nature without adequate control. To this, I think, a very simple answer can be given, and that is that of the whole grant provided for the Criminal Investigation Department which amounts to nearly Rs. 3,68,000; the amount which is not subjected to the regular public audit which all other Government expenditure undergoes, is Rs. 25,500. That is the whole sum that goes in expenditure of a confidential character and therefore gives the measure of the possible leakage or extravagance which the Hon'ble Member fears.

"The Hon'ble Mr. Dip Narayan Singh made a suggestion,—another Hon'ble Member made it also,—that the expenses connected with the High Court ought to be divided between this province and Eastern Bengal and Assam, since that province also enjoys the services of the Court. Regarding this, I have merely to point out that at the time that the provincial settlement was entered into after the Partition, the funds necessary for the expenses of the Court were allotted to this province and were not allotted to Eastern Bengal and Assam, and there is therefore no possible ground for redistribution between them.

"The Hon'ble Mr. Dip Narayan Singh also referred to the expenses on the subsidised paper, an experiment which he did not think likely to be successful. With regard to this I would only suggest that, as has already been said, the thing is an experiment, but the Hon'ble Member is hardly generous in suggesting that we should cut down the subsidy which was agreed upon, because the only result of doing so would be to fulfil his own prognostication. If he does not want the paper to succeed, the best way of securing that result would be to reduce the subsidy that has been decided on as being necessary for it.

"The Hon'ble Babu Bhupendra Nath Basu has drawn attention to the state of health in our jails, and with his usual acumen he has fallen upon what is certainly the weakest spot in the jail administration of the last several years, and it is the bad health of the Hazaribagh Jail in 1909. The actual number of deaths was high, as many as 76, and the mortality was about 72 per thousand. The Hon'ble Member omitted to mention, what he might have found in the same place where he obtained his information, that Government had appointed a special officer to make an inquiry into the matter, and that this officer had been working from the beginning of 1910 and that he has actually been working up to the 31st March last. I will supplement the information which I think the Hon'ble Member had at his disposal. Even in 1910 the mortality of the Hazaribagh Jail was somewhat serious. There were 37 deaths and on the diminished population the percentage was still 46'8 per thousand. This serious outbreak in Hazaribagh was due to dysentery in a more or less epidemic form, and it has now been prevalent in the jail for about two years. When dysentery lays hold of a jail, it is one of the most difficult complaints to counter. Somehow

or other, I believe, it has never been ascertained exactly how the whole jail becomes more or less infected by it. and for some time no precautions regarding the preparation of food or the water-supply avail to check it.

"What the conclusions of the special officer are, we are not yet aware, but, at any rate, this much has happened, that precautions having been taken in every conceivable direction, the epidemic has now come to an end, and I trust will not recur. Whatever suggestions are made by Captain Wells, who was on this duty, will be considered. While, however, the Hon'ble Member has put his finger on the weakest spot in the case of the Hazaribagh Jail, his general conclusions regarding the health of the Bengal jails are entirely at sea. The health of the jails has progressively improved for many years, with some slight fluctuations, and the mortality upon the whole has steadily decreased. This is a history extending over many years, 15 or 20 at least. In the year 1907 the jail mortality for the province was the lowest on record, viz., 16.9, that is before the scarcity of 1907.8. In 1908, jails were exceedingly overcrowded, and a large part of the population having been affected by scarcity, the figures went up as high as 31.9. In 1909, when the scarcity had passed away, that is the year with which the Hon'ble Member is dealing, the ratio had gone down to 24.8 per thousand in spite of the high rate in the Hazaribagh Jail. In the year which has just closed, 1910, the ratio has fallen to 18.7 which is a low ratio, and the lowest that has ever occurred except in 1907. There is no reason to suppose that as long as reasonable health conditions prevail in the province, and the jails are not overcrowded, there will be any set-back in this respect.

"The Hon'ble Mr. Saiyid Wasi Ahmad, if I understood him rightly, is under some misapprehension as to the reduction of the grant to local bodies for works. He apparently was under the impression that this grant has been reduced. If that is so, he is in error. That grant which had been increased for several years running remains as it was last year. The grant which has been reduced is the grant for minor works, that is, minor works on Government buildings. It was necessary to economise on that, but the grant for assistance to local bodies has not been touched.

"The Hon'ble Mr. Filgate has referred to the disappearance from the budget of the provision of Rs. 50,000 for a residence for the Commissioner of Tirhut. I need not perhaps go in detail into the circumstances which obliged us to omit this provision. It was done at a late stage when it was absolutely necessary to provide a certain amount of money for commencing the scheme for the removal of the Sibpur College to Ranchi, and this particular project was fixed upon as it was found that the plans and estimates were not yet ready. However, the Government recognises the extreme importance of providing a residence for the Commissioner, and every attempt will be made to secure a part, if not the whole, of the funds by reappropriation and to make a commencement in the current year.

"Passing from these specific suggestions which have been made by various Members I will come to one or two points of more general application. First of all there appears to be rather a general opinion both in the public press and amongst Members of the Council—I refer particularly to the speech of the Hon'ble Khan Bahadur Sarfaraz Hussain Khan, that this budget is a prosperity budget. I have already incurred a considerable amount of criticism by arguing that it is not. In fact the budget shows no very high degree of general prosperity. There are certainly some very satisfactory features in the budget, but from the standpoint of Provincial finance it is anything but a prosperity budget. The grants which we have received from the Government of India put us in a position to spend 17 lakhs on certain purposes of education and sanitation, non-recurring expenditure in both cases. We also know that we shall have the same amount for the same purpose for one year more. But beyond that we know nothing except that such an exceptional windfall is hardly likely to be repeated on the same scale. Apart from that,

the general improvement in the financial condition is only enough to give us a small working balance, and looking to the many large schemes which we have in hand, or which are being urgently pressed for, it seems to me that we shall have great difficulty in retaining that balance in future years. It is true that the improvement in our actual income has been accompanied by the substitution of a certain amount of growing income for fixed assignments, and that accordingly the natural expansion of Provincial income should proceed somewhat more rapidly than hitherto; but since for several years we have been beggars at the gates of the Government of India for special assistance, it is evident that the expansion of income has not so far kept pace with the expansion of expenditure, and we have not been able to assure ourselves whether the improvement which has now been made in our position will suffice to produce equilibrium in this respect. My own strong impression is that, if at all, it will only be attained by the exercise of extreme financial caution. Several Hon'ble Members have referred to the very small degree of control which the Financial Committee has so far been able to exercise over expenditure. Complaints are made both as to the very small proportion of expenditure which is submitted for the consideration of the Finance Committee, and also as to the very short time that is allowed for consideration. As to the latter point, I think that most of the Members who have spoken on the subject either have not noticed, or do not choose to admit, the explanation which has been given in the memorandum attached to the Revised Financial Statement. The circumstances of the present year have been altogether abnormal, because until the Government of India announced the special grants and the revision of the terms of our settlement to which I have just referred, it was impossible for us to decide what amounts would be available for optional expenditure, and even after the Government of India had informed us confidentially of the figures, it was some time longer before they indicated the conditions that were to attach to them, and until we knew this, we could not decide what our free surplus might be taken to be. Thus Government is free of responsibility in the matter, and I think it would be reasonable to assume that the Government of India also had good reason for its procedure, and that it was unable to dispose of the subject until the time when it communicated its orders. Accordingly, I freely admit the objection raised by the Hon'ble Rai Shiba Shankar Sahay Bahadur and by the Hon'ble Mr. Saiyid Wasi Ahmad that the Finance Committee have not this year been consulted in the manner which is contemplated by the rules. I can only point out that we have received the very substantial solution, of which Members are aware, for this breach of proper procedure. The occasion is perhaps unlikely to recur. actual Draft Financial Statement, as has already been pointed out, was presented this year three days earlier than in previous years, and several Hon'ble Members have acknowledged this fact. The time left for consideration is however extremely short, and while we shall consider how far it is possible to provide for more deliberate consideration, we are very much tied by the programme laid down for the budget of the Government of India, and it is improbable that we shall be able to provide for any very substantial extension in the later stages of the budget.

"As to the objections to the small proportion of expenditure which comes under the consideration of the Finance Committee, I think reflection will convince Hon'ble Members that it is in the nature of things, and I do not believe that most of them share the ideas which the Hon'ble Mr. Dip Narayan Singh appears to hold, that the whole expenditure of the province ought to be reviewed every year by the Finance Committee. That certainly would involve sitting practically continuously throughout the year, and it certainly was not part of the original scheme laid down by the Government of India for the functions of the Finance Committee. A reference to the directions and circulars before this Council was constituted will show that nothing of this kind was contemplated. The idea was that the Finance Committee should, at a reasonable period before the preparation of the budget, consider the optional expenditure which it might be possible to provide for. The income of the province is no more than sufficient for its more conspicuous requirements. By far the greater part of it goes upon permanent establishment, the expenditure

upon which we are often urged to increase, but which it is hardly possible anywhere to reduce. Of the remainder, even that portion which is non-recurring, mostly public works of one kind or another, a large, part is on works in progress, works which have already been settled on in previous years. Once a work has been put in hand it must go on, and the only economical way of carrying it on is to do it as fast as possible, to keep the works establishment fully employed and to spend the largest amount in the given time that they are able. In all subjects of this kind the attention of the Finance Committee is hardly required, and if Members attempted to review such expenditure they would surely find that they had more cause than they have at present to complain that their action was infructuous. The amount which is available for new projects and new schemes must always therefore be comparatively small. Again, the choice of the Finance Committee as to the objects of expenditure must always be somewhat restricted, since it is useless immediately before the year begins to propose to spend money on schemes which have not already been fully considered and matured. Such a course must infallibly result in a large part of the allotment remaining unexpended. If Hon'ble Members desire to promote particular objects, they can only do so successfully by taking them up at a much earlier stage than that of the Finance Committee, by using their influence in the various ways open to them, particularly by moving resolutions, to have schemes considered and prepared, and it will then be possible for the Finance Committee to select from schemes already matured those which they prefer.

"The Hon'ble Rai Shiba Shankar Sahay Bahadur has objected that certain items which ought to have found place in the schedule of new expenditure have been omitted from it. To one of these—that is, the provision of three lakhs for the Delhi Durbar—we must plead guilty.

"The sanction of this expenditure came late in the day and it was omitted from the schedule. It was, however, referred to in the memoraudum, and the speeches of Hon'ble Members show that it has not escaped notice. I cannot, therefore, accept his criticism regarding the remaining items which he mentions. Rupees 19,00 for additional allowances to non-official Members is an increase, but in no respect a new item; it has always found a place in the budget. Rupees 23,000 for temporary establishment in the Secretariat record-room is also not new. The establishment has been employed for two or three years past. Similarly, the mill engine at Buxar, costing Rs. 9,000, can hardly be classed as new. There was an engine for the workshop at Buxar before, and when it became useless, it had to be replaced and a new engine bought. This cannot therefore be referred to as a new scheme.

"The Hon'ble Mr. Dip Narayan Singh made similar remarks of the same general character, asserting that a great many new schemes had been omitted from the schedule. I think, as I have already said, that the Hon'ble Member has an entirely wrong conception of the duties of the Finance Committee. To satisfy his ideas it would be necessary that it should be a Standing Committee exercising a sort of further control over the Financial Department throughout the year, and that is surely impossible. I have tried in the preliminary budget debate to explain that it is not the desire of Government to evade or restrict the influence which the Council is entitled to exercise over the preparation of the budget, and my explanations of the difficulties and attempts to meet the arguments which have been brought are not intended as an apology for any such attitude on the part of Government. We shall try to extend, as far as possible, the opportunities for consideration by the Finance Committee and by the Council, and particularly we shall consider whether consultation as to the selection of schemes may be possible at a period sufficiently early to permit of their inclusion in the budget of the year immediately following.

"The suggestion by the Hon'ble Babu Bhupendra Nath Basu regarding the Council Chamber I have, I think, failed to meet. He suggested, I believe,

that our present location was not entirely suitable, and that attempts should be made to secure a better one, and in particular that the possibility of altering the old Council Chamber so as to hold the present Council should be considered. That point was very carefully considered at the time when this enlarged Council was constituted. It was found that by a process of extreme compression the Members of the Council might just be got into the room, but it would be with extreme discomfort, and that it would neither be properly ventilated or lit, and there would not be adequate room for the staff of the Council, and for the public and the reporters, and, accordingly, that suggestion had to be given up. We shall continue to look for reasonable means of providing really suitable accommodation for the Council, but it must obviously be a matter of great expense, and perhaps the Council will agree that in comparison with some of the objects which they have been urging on Government their own housing is rather in the nature of a luxury. In the meantime, if the present Chamber is not an entirely suitable place, yet there is adequate space and light and air, and we cannot regard an improvement in this direction as one of our most urgent requirements."

The PRESIDENT said :-

"Gentlemen of the Council,—It is not my intention to say more than a very few words on the present occasion. This is no doubt a departure from past practice. But it is a departure which is fully justified. Under the new constitution, as has been pointed out more than once, the justification for a discussion ranging over the whole field of administration has disappeared. It is now open to Hon'ble Members to raise a discussion on almost any question of public interest at any meeting of Council throughout the year, and this privilege is being freely availed of. There is, therefore, no need to concentrate such discussions into the debate on the budget. Nor is this all. Even as regards the budget itself, using the word in the widest sense, there are two other occasions on which it comes under discussion. The first of those is when the first edition of the estimates is laid before the Finance Committee. The second is when the second edition of them, technically known as the Financial Statement, is presented to, and discussed by, the Council as a whole. Now it is at these two stages that discussion and suggestions for alteration in the figures can be really effective; and it is well known that when the final edition comes before us, the time for making changes has passed, and the rules do not permit of any resolutions being moved. It is clear, therefore, that the need for a general discussion at this present stage, if there be such need, stands on quite a different footing from before. I have even seen it suggested in the press that there is no real object in having this debate at all, and that Hon'ble Members themselves will come 'to see that it may be dropped without loss to anyone. I doubt whether we have come to that yet; but I certainly think that we seem to be moving in that direction.

"Now, with regard to the Finance Committee, the Hon'ble Mr. Dake has already explained what our attitude is, and he has made it clear that the breach of rule that occurred on the present occasion was inevitable. We have already acknowledged that the present arrangements are not perfect, and we have undertaken that in the course of the year we shall endeavour to devise some means by which more time shall be allowed for the consideration of the figures, and generally to make the task of the Hon'ble Members easier than at present. The great difficulty, of course, arises from the fact that our dates for the various stages are necessarily dependent on those of the Imperial budget, in which all Provincial budgets are incorporated. If it were possible to exclude the latter altogether from the Imperial budget, it would not be difficult to do what the Hon'ble Members desire; but I am not very sanguine that such a course would commend itself to the Government of India or the Secretary of State. I know from my experience of the Finance Department of the Government of India that that department would be disposed to set its face against it.

"Two Hon'ble Members have alluded to the fact that while the aggregate of the budget is nearly six crores of rupees, yet the total sum which came

under the consideration of the Finance Committee was under six lakhs. The Hon'ble Mr. Duke has given an explanation which is perfectly clear. The proportion is certainly very small. If the special grants for Education and Sanitation had been intimated to us at an earlier stage, it would have been much larger. But I doubt whether under any system that is within the sphere of practical politics, it can ever be very large. There is no escape from the plain fact that by far the largest part of the expenditure of Government, especially of the recurring expenditure, is fixed and obligatory, and is not susceptible of modification, except very gradually. That must be the case in every country in the world; and even in the House of Commons, although the whole of the public expenditure is open to discussion and has to be voted, except charges against the Consolidated Fund, yet I imagine that the items which are actually open to modification are much smaller than is commonly supposed. We may certainly hope that larger sums will be available hereafter under the new and improved settlements, but I have no expectation that their relative proportion to the sum total of the budget will ever be very great.

relative proportion to the sum total of the budget will ever be very great.

The only other matter to which I desire briefly to refer is the coming Coronation Durbar at Delhi. The Hon'ble Mr. Duke has explained what the provision of three lakhs is intended for, and he has also explained that there is no provision so far for expenditure within the Province. All Hon'ble Members who have referred to this matter have expressed approval of the expenditure which it is proposed to incur upon it; and some have entertained fears lest the budget grant of three lakhs should prove inadequate. I fear that there is some ground for this apprehension. We have quite recently compiled our detailed estimates of the probable cost of the two camps by which Bengal will be represented, and have submitted them to the Government of India; and it is true that the aggregate gross cost seems likely to considerably exceed that figure, though there will, no doubt, be substantial recoveries on the other side. This will, no doubt, receive careful consideration by the Government of India. In the meantime, I rejoice to notice the loyalty and enthusiasm with which Hon'ble Members have received the announcement of the visit of Their Gracious Majesties, and I do not doubt that, whether it be in Delhi or at Calcutta, everyone in this Chamber, no less than the whole population of this great province, will strive their utmost to accord to Their Majesties a reception which shall be worthy of the august occasion.

Gentlemen, our session is at its close. It has not been a very heavy one owing to the postponement of the Calcutta Improvement Bill until the rains session. I wish you all a pleasant vacation, and trust that when we meet in August next, as I understand it will be, when the discussion of the Calcutta Improvement Bill comes on, we shall find that there will be a very much

smaller number of points for dispute than has hitherto been suggested.

The Council was then adjourned sine die

CALCUTTA,

F. G. WIGLEY,

The 10th April, 1911.

Secretary to the Bengal Logislative Council.

- 76. Agency.

Powers, etc., of Governor General in Council.

77. Power for Governor General in Council to make rules.

Offences.

78. Wrongful use of words "Patent Office".

Savings and Repeal.

- 79. Saving for prerogative.
- 80. Repeal.
- Substitution of patents for rights under repealed Act.

THE SCHEDULE .- FEES.

An Act to amend the law relating to the protection of Inventions and Designs.

WHEREAS it is expedient to amend the law relating to the protection of inventions and designs; It is hereby enacted as follows:—

PRELIMINARY.

- 1. (r) This Act may be called the Indian Short title, extent and Patents and Designs Act, commencement.
- (2) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas; and
- (3) It shall come into force on the first day of January 1912.
 - 2. In this Act, unless there is anything repugnant in the subject or context,—
- (1) "Advocate General" includes a Government Advocate:
- (2) "article" means (as respects designs) any article of manufacture and any substance, artificial or natural, or partly artificial and partly natural:
- (3) "Controller" means the Controller of Patents and Designs appointed under this Act:
- (4) "copyright" means the exclusive right to apply a design to any article in any class in which the design is registered:
- (5) "design" means any design applicable to any article, whether the design is applicable for the pattern, or for the shape or configuration, or for the ornament thereof, or for any two or more of such purposes, and by whatever means it is applicable, whether by printing, painting, embroidering, weaving, sewing, modelling, casting, embossing, engraving, staining, or any other means whatever, manual, mechanical or chemical, separate or combined, but does not include any trade or property mark as defined in sections 478 and 479 of the Indian Penal Code:

XLV of 186c.

(6) "District Court" has the meaning assigned to that expression by the Code of Civil Procedure, 1908:

V of 1908.

- (7) "High Court" has the meaning assigned to that expression by the Code of Criminal Procedure, 1898, in reference to proceedings against European British subjects:
- (8) "invention" means any manner of new manufacture and includes an improvement and an alleged invention:
- (0) "legal representative" reans a person who in law represents the estate of a deceased person:
- (10) "manufacture" includes any art, process or manner, of producing, preparing or making an article, and also any article prepared or produced by manufacture:

- (11) "patent" means a patent granted under the provisions of this Act:
- (12) "patentee" means the person for the time being entitled to the benefit of a patent:
- (13) "prescribed" includes prescribed by rules under this Act: and
- (14) "proprietor of a new and original design,"—
 - (a) where the author of the design, for good consideration, executes the work for some other person, means the person for whom the design is so executed; and
 - (b) where any person acquires the design or the right to apply the design to any article, either exclusively of any other person or otherwise, means, in the respect and to the extent in and to which the design or right has been so acquired, the person by whom the design or right is so acquired; and
 - (c) in any other case, means the author of the design;

and where the property in, or the right to apply, the design has devolved from the original proprietor upon any other person, includes that other person.

PART I.

PATENTS.

Application for and Grant of Patent.

- 3. (1) An application for a patent may be made by any person whether he is a British subject or not, and whether alone or jointly with any other person.
- (2) The application must be made in the prescribed form, and must be left at the Patent Office in the prescribed manner.
- (3) The application must contain a declaration to the effect that the applicant is in possession of an invention, whereof he, or in the case of a joint application one at least of the applicants, claims to be the true and first inventor or the legal representative or assign of such inventor and for which he desires to obtain a patent, and must be accompanied by a specification and by the prescribed fee.
- (4) Where the true and first inventor is not a party to the application, the application must contain a statement of his name, and such particulars for his identification as may be prescribed, and the applicant must show that he is the legal representative or assign of such inventor.

- 4. (1) The specification must particularly describe and ascertain the nature of the invention and the manner in which the same is to be performed.
- (2) Where the Controller deems it desirable, he may require that suitable drawings shall be supplied with the specification, or at any time before the acceptance of the application, and such drawings shall be deemed to form part of the specification.
- (3) The specification must commence with the title, and must end with a distinct statement of the invention claimed.
- (4) If in any particular case the Controller considers that an application should be further supplemented by a model or sample of anything illustrating the invention or alleged to constitute an invention, such model or sample as he may require shall be furnished before the acceptance of the application, but such model or sample shall not be deemed to form part of the specification.
- 5. (1) The Controller shall examine every Proceedings upon appliapplication, and if he cation.
 - (a) the nature of the invention is not fairly described, or
 - (b) the application, specification and drawings have not been prepared in the prescribed manner or relate to more than one invention, or
 - (c) the title does not sufficiently indicate the subject-matter of the invention, or
 - (d) the statement of claim does not sufficiently define the invention, or
 - (e) the invention as described and claimed is prima facie not a new manufacture or improvement,

he may refuse to accept the application or require that the application, specification or drawings be amended before he proceeds with the application; and in the latter case the application shall, if the Controller so directs, bear date as from the time when the requirement is complied with.

- (2) Where the Controller refuses to accept an application or requires an amendment, the applicant may appeal from his decision to the Governor General in Council.
- (3) The investigations required by this section shall not be held in any way to guarantee the validity of any patent, and no liability shall be incurred by the Governor General in Council or any officer by reason of, or in connection with, any such investigation, or any proceeding consequent thereon.
- (4) Unless an application is accepted within twelve months from the date of the application, the application shall (except where an appeal has been lodged) become void:

Provided that where an application is made for an extension of time for the acceptance of an application, the Controller shall, on payment of the prescribed fee, grant an extension of time to the extent applied for but not exceeding three months.

- 6. On the acceptance of an application the Controller shall give Advertisement on acceptance of application.

 Advertisement on acceptance thereof to the applicant and shall advertise the acceptance; and the application and specification with the drawings (if any) shall be open to public inspection.
- 7. Where an application for a patent in respect of an invention has been accepted, any use or publication of the invention and the date of sealing such patent, shall not prejudice the patent to be granted for the invention:

Provided that an applicant shall not be entitled to institute any proceedings for infringement unless and until a patent for the invention has been granted to him.

- 8. After acceptance of an application and before sealing a patent the Controller shall, if he thinks it advisable or is directed by the Governor General in Council so to do, refer the specification for inquiry and report to any person whom he thinks fit.
- Opposition to grant of the prescribed fee, at any time within three months from the date of the advertisement of the acceptance of an application, give notice at the Patent Office of opposition to the grant of the patent on any of the following grounds, namely:—
 - (a) that the applicant obtained the invention from him, or from a person of whom he is the legal representative or assign; or
 - (b) that the invention has been claimed in any specification filed in British India which is or will be of prior date to the patent, the grant of which is opposed; or
 - (c) that the nature of the invention or the manner in which it is to be performed is not sufficiently or fairly described and ascertained in the specification; or
 - (d) that the invention has been publicly used in any part of British India or has been made publicly known in any part of British India;

but on no other ground.

- (2) Where such notice is given, the Controller shall give notice of the opposition to the applicant, and shall, on the expiration of those three months, after hearing the applicant and the opponent, if desirous of being heard, decide on the case.
- (3) The decision of the Controller shall be subject to appeal to the Governor General in Council.
- Grant and scaling of opposition, or, in case of Grant and scaling of opposition, if the determination is in favour of the grant of a patent, a patent shall, on payment of the prescribed fee, be granted, subject to such conditions (if any) as the Governor General in Council thinks expedient, to the applicant,

or in the case of a joint application to the applicants jointly, and the Controller shall cause the patent to be sealed with the seal of the Patent Office.

(2) A patent shall be sealed as soon as may be, and not after the expiration of eighteen months from the date of application:

Provided that?

- (a) where the Controller has allowed an extension of the time within which an application may be accepted, a further extension of four months after the said eighteen months shall be allowed for the sealing of the patent;
- (b) where the sealing is delayed by an appeal to the Governor General in Council, or by a reference under section 8, or by opposition to the grant of the patent, the patent may be sealed at such time as the Controller may direct;
- (c) where the patent is granted to the legal representative of an applicant who has died before the expiration of the time which would otherwise be allowed for sealing the patent, the patent may be sealed at any time within twelve months after the date of his death;
- (d) where in consequence of the neglect or failure of the applicant to pay any fee a patent cannot be sealed within the period allowed by this section, that period may, on payment of the prescribed fee and on compliance with the prescribed conditions, be extended to such an extent as may be prescribed.
- Date of patent. by this Act, a patent shall be dated and sealed as of the date of the application:

Provided that no proceedings shall be taken in respect of an infringement committed before the publication of the specification.

- Effect, extent and form the Patent Office shall, of patent. subject to the other provisions of this Act, confer on the patentee the exclusive privilege of making, selling and using the invention throughout British India and of authorizing others so to do.
- (2) Every patent may be in the prescribed form and shall be granted for one invention only, but the specification may contain more than one claim; and it shall not be competent for any person in a suit or other proceeding to take any objection to a patent on the ground that it has been granted for more than one invention.
- Fraudulent applications first inventor or his legal for patents.

 shall not be invalidated by an application in fraud of him, or by protection obtained thereon or by any use or publication of the invention subsequent to that fraudulent application during the period of protection.

(2) Where a patent has been revoked on the ground of fraud or on any other ground, the Controller may, on the application of the true inventor or his legal representative or assign made in accordance with the provisions of this Act, grant to him a patent in lieu of and bearing the same date as the patent so revoked for any invention comprised in the revoked patent to which he was entitled:

Provided that no suit shall be brought for any infringement of the patent so granted committed before the actual date when such patent was granted.

Term of Patent.

- Term of patent.

 Term of patent.

 Term of patent.

 this Act, be fourteen years from its date.
- (2) A patent shall, notwithstanding anything therein or in this Act, cease if the patentee fails to pay the prescribed fees within the prescribed times:

Provided that the Controller, upon the application of the patentee, shall, on receipt of such additional fee as may be prescribed, enlarge the time to such an extent as may be applied for but not exceeding three months.

- (3) If any proceeding is taken in respect of an infringement of the patent committed after a failure to pay any fee within the prescribed time, and before any enlargement thereof, the Court before which the proceeding is taken may, if it thinks fit, refuse to award any damages in respect of such infringement.
- Ext asion of term of in the prescribed manner his intention to do so, present petition to the Governor General in Council praying that his patent may be extended for a further term; but such petition must be left at the Patent Office at least six months before the time limited for the expiration of the patent and must be accompanied by the prescribed fee.
- (2) Any person may give notice to the Controller of objection to the extension.
- (3) Where a petition is presented under subsection (1), the Governor General in Council may, as he thinks sit, dispose of the petition himself or refer it to a High Court for decision.

 (4) If the petition be referred to a High
- (4) If the petition be referred to a High Court, then on the hearing of such petition under this section the patentee, and any person who has given notice under sub-section (2) of objection, shall be made parties to the proceeding, and the Controller shall be entitled to appear and be heard.

(5) The Court to which the petition is referred shall, in considering its decision, have regard to the nature and merits of the invention in relation to the public, to the profits made by the patentee as such, and to all the circumstances of the case.

(6) If it appears to the Governor General in Council, or to the High Court when the petition has been referred to it, that the patentee has been inadequately remunerated by his patent, the Governor General in Council or the High Court, as the case may be, may by order extend

the term of the patent for a further term not exceeding seven, or, in exceptional cases, fourteen years, or may order the grant of a new patent for such term as may be specified in the order and subject to the payment of such fees as may be prescribed and containing any restriction, conditions and provisions which the Governor General in Council or the High-Court, as the case may be, may think fit:

Provided that any patent so extended or granted shall, notwithstanding anything therein, or in this Act, cease if the inventor fails to pay before the expiration of each year

the prescribed fee.

16. (1) Where any patent has ceased owing to Restoration of lapsed the failure of the patentee within the prescribed time, the patentee may apply to the Controller in the prescribed manner for an order for the restoration of the patent.

(2) Every such application shall contain a statement of the circumstances which have led to the omission of the payment of the prescribed

(3) If it appears from such statement that the omission was unintentional or unavoidable and that no undue delay has occurred in the making of the application, the Controller shall advertise the application in the prescribed manner, and within such time as may be prescribed any person may give notice of opposition at the Patent Office.

(4) Where such notice is given the Controller

shall notify the applicant thereof.

(5) After the expiration of the prescribed period the Controller shall hear the case and, subject to an appeal to the Governor General in Council, issue an order either restoring the patent subject to any conditions deemed to be advisable or dismissing the application:

Provided that in every order under this section restoring a patent such provisions as may be prescribed shall be inserted for the protection of persons who may have availed themselves of the subject-matter of the patent after the patent had ceased.

Amendment of application or specification.

Amendment of applicant or a patentee may at Amendment of applicant or application by writing left at the Patent Controller. Office and accompanied by the prescribed fee, seek leave to amend his application or specification, including drawings forming part thereof, by way of disclaimer, correction or explanation, stating the nature of, and the reasons for, the proposed amendment.

(2) If the application for a patent has not been accepted, the Controller shall determine whether and subject to what conditions (if any)

the amendment shall be allowed.

(3) In any other case the request and the nature of the proposed amendment shall be advertised in the prescribed manner, and at any time within three months from its first advertisement any person may give notice at the Patent Office of opposition to the amendment.

(4) Where such a notice is given the Controller shall give notice of the opposition to the person making the request, and shall hear and

decide the case.

- (5) Where no notice of opposition is given, or the person so giving notice of opposition does not appear, the Controller shall determine whether and subject to what conditions, if any, the amendment ought to be allowed.
- (6) The decision of the Controller in either case shall be subject to an appeal to the Governor General in Council.
- (7) No amendment shall be allowed that would make the application or specification, as amended, claim an invention substantially larger than, or substantially different from, the invention claimed by the application or specification as it stood before amendment.
- (8) Leave to amend shall be conclusive as to the right of the party to make the amendment allowed, except in case of fraud; and the amendment shall be advertised in the prescribed manner, and shall in all Courts and for all purposes be deemed to form part of the application or specification.
- (9) This section shall not apply when and so long as any suit for infringement or proceeding before a Court for the revocation of the patent is pending.
- 18. In any suit for infringement of a patent or proceeding before a Amendment of specification by the Court.

 Or proceeding before a Court for the revocation of a patent the Court may by order allow the patentee to amend his specification by way of disclaimer in such manner, and subject to such terms as to costs, advertisement or otherwise, as the Court may think fit:

Provided that no amendment shall be so allowed that would make the specification, as amended, claim an invention substantially larger than, or substantially different from, the inven-tion claimed by the specification as it stood before the amendment, and where an applica-tion for such an order is made to the Court tion for such an order is made to the Court notice of the application shall be given to the Controller, and the Controller shall have the right to appear and be heard.

19. Where an amendment of a specification by way of disclaimer, cor-Restriction on recovery rection or explanation has been allowed under this Act, no damages shall be given in any suit in respect of the use of the invention before the disclaimer, correction, or explanation, unless the patentee establishes to the satisfaction of the Court that his original claim was framed in good faith and with reasonable skill and knowledge.

Register of Patents.

20. (1) There shall be kept at the Patent Office a book called the Register of Patents. Register of Patents, wherein shall be entered the names and addresses of grantees of patents, notifications of assignments and of transmissions of patents, of licenses under patents, and of amendments, extensions, and revocations of patents, and such other matters affecting the validity or proprietor-ship of patents as may be prescribed.

(2) The register of inventions and address book existing at the commencement of this Act shall be incorporated with, and form part of, the register of patents under this Act.

(3) The register of patents shall be primd facie evidence of any matters by this Act directed or authorised to be inserted therein.

(4) Copies of deeds, licenses and any other documents affecting the proprietorship in any patent or in any license thereunder, must be supplied to the Controller in the prescribed manner for filing in the Patent Office, and, unless such copies have been so supplied, such deeds, licenses or other documents shall not be received as evidence of any transaction affecting a patent.

Crown.

21. Subject to any conditions which the Governor General Patent to bind Crown. Council may have imposed, a patent shall have to all intents the like effect as against His Majesty as it has against

a subject:

Provided that the officers or authorities ministering any department of the service of His Majesty may, by themselves, their agents, contractors or others, at any time after the application, use the invention for the services of the Crown on such terms as may, either before or after the use thereof, be agreed on, with the approval of the Governor General in Council, between those officers or authorities and the patentee, or, in default of agreement, as may be settled by the Governor General in Council after hearing all parties interested.

Compulsory Licenses and Revocation.

22. (1) Any person interested may present a petition to the Governor General in Council, which shall be left at the Patent Office, together with the prescribed fee, alleging that the reasonable requirements of the public with respect to a patented invention have not been satisfied, and praying for the grant of a com-pulsory license, or, in the alternative, for the revocation of the patent.

(2) The Governor General in Council shall consider the petition, and if the parties do not come to an arrangement between themselves the Governor General in Council may, as he thinks fit, either dispose of the petition himself

or refer it to a High Court for decision.

(3) The provisions of sub-section (4) of section 15, prescribing the procedure to be followed in the case of references to the Court under that section, shall apply in the case of references made to the Court under this section.

(4) If the Governor General in Council is of opinion, or, where a reference has been made under sub-section (2) to a High Court, that Court finds, that the reasonable requirements of the publie with reference to the patented invention have not been satisfied, the patentee may be ordered to grant licenses on such terms as the Governor General in Council or the High Court, as the case may be, may think just, or, if the Governor General in Council or the High Court is of opinion that the reasonable requirements of the public will not be satisfied by the grant of licenses, the patent may be revoked by order of the Governor General in Council or the High Court:

Provided that an order of revocation shall not be made before the expiration of four years from the date of the patent, or if the patentee gives satisfactory reasons for his default.

(5) For the purposes of this section the reasonable requirements of the public shall not be deemed to have been satisfied—

> (a) if by reason of the default of the patentee to manufacture to an adequate extent and supply on reasonable terms the patented article, or any parts there-of which are necessary for its efficient

working, or to carry on the patented process to an adequate extent or to grant licenses on reasonable terms, any existing trade or industry, or the establishment of any new trade or industry in British India is unfairly prejudiced, or the demand for the patented article or the article produced by the patented process is not reasonably met; or

(b) if any trade or industry in British India is unfairly prejudiced by the conditions attached by the patentee before or after the commencement of this Act to the purchase, hire, or use of the patented article or to the using or working of the patented process.

- (6) An order of the Governor General in Council or of the High Court directing the grant of any license under this section shall, without prejudice to any other method of enforcement, operate as if it were embodied in a deed granting a license and made between the parties to the proceeding.
- 23. (1) At any time not less than four years after the date of a patent granted under this Act, Revocation of patents worked outside British India. any person may apply to the Governor General in Council for the revocation of the patent on the ground that the patented article or process is

manufactured or carried on exclusively or mainly outside British India.

(2) The Governor General in Council shall consider the application, and, if after inquiry he is satisfied-

- (a) that the allegations contained therein are correct; and
- (b) that the applicant is prepared, and is in a position, to manufacture or carry on the patented article or process in British India; and

(c) that the patentee refuses to grant a license on reasonable terms,

then, subject to the provisions of this section, and unless the patentee proves that the patented article or process is manufactured or carried on to an adequate extent in British India, or gives satisfactory reasons why the article or process is not so manufactured or carried on, the Governor General in Council may make an order revoking the patent either-

(i) forthwith; or

(ii) after such reasonable interval as may be specified in the order, unless in the meantime it is shown to his satisfaction that the patented article or pro-cess is manufactured or carried on within British India to an adequate extent.

(3) No order revoking a patent shall be made under the last sub-section which is at variance with any treaty, convention, arrange-ment or engagement with any foreign country

or British possession.

(4) The Governor General in Council may, on the application of the patentee, extend the time limited in any order made under sub-section (2), clause (ii), for such period not exceeding two years as he may specify in a subsequent order, or revoke any order made under sub-section (2), clause (ii), or any subsequent order if sufficient cause is in his opinion shown by the patentee.

24. A patentee may at any time, by giving Power of Controller to evoke surrendered patent. manner to the Controller, offer to surrender his patent, and the Controller may, if after giving notice of the offer and hearing all parties who desire to be heard he thinks fit, accept the offer, and thereupon make

an order for the revocation of the patent.

25. A patent shall be deemed to be revoked graphic grounds of patent on if the Governor General in Council declares, by notification in the Gazette of India, the patent or the mode in which it is exercised to be mischievous to the State or generally prejudicial to the public.

Legal Proceedings.

26. (1) Revocation of a patent in whole or Petition for revocation in part may be obtained of patent. on petition to a High Court on all or any of the following grounds, namely :-

(a) that any invention included in the statement of claim is of no utility

(b) that any invention included in the statement of claim was not, at the date of the application for a patent, a new invention within the meaning of this

(c) that the applicant was not the true and first inventor thereof or the assign or legal representative of such inventor

thereof:

(d) that the original or any amended application or specification does not fulfil

the requirements of this Act;

(e) that the applicant has knowingly or fraudulently included in the application for a patent or in the original or any amended specification, as his invention, something which was not new or whereof he was neither the inventor nor the assign nor the legal representa-tive of such inventor;

(f) that the original or any subsequent application relating to the invention, or the original or any amended specification, contains a wilful or fraudulent

mis-statement;

- (g) that a part of the invention or the manner in which a part is to be made and used as described in the original or any amended specification, is thereby sufficiently described, and that this insufficiency was fraudulent or is injurious to the public.
- (2) A petition for revocation of a patent may be presented-
 - (a) by the Advocate General or any person authorized by him; or

(b) by any person alleging—(i) that the patent was obtained in fraud of his rights, or of the rights of any person under or through whom he claims; or

(ii) that he, or any person under or through whom he claims, was the true and first inventor of any invention included in the claim of the patentee; or

(iii) that he, or any person under or through whom he claims an interest in any trade, business or manufacture, had publicly manufactured, used or sold, within British India, before the date of the patent, anything claimed by the patentee as his invention.

(3) The High Court may, irrespective of any provisions of the Code of Civil Procedure, 1908, in this behalf, require any person, other than the Advocate General or any person authorized by him, applying for the revocation of a patent to give security for the payment of all costs incur-red or likely to be incurred by any person appearing to oppose the petition.

27. (1) Notice of any petition for revocation of Notice of proceedings to a patent under section 26 shall be served on all persons appearing from the register to be proprietors of that patent or to have shares or interests therein, and it shall not be necessary to

serve the notice on any other person.

(2) The notice shall be deemed to be sufficiently served if a copy thereof is sent by post in a registered letter directed to the person and place for the time being stated in the

register.

28. (1) A High Court may, if it thinks fit, Framing issue for trial direct an issue for the before other Courts. trial, before itself or any other High Court, or any District Court, of any question arising upon a petition to itself under section 26, and the issue shall be tried accordingly.

(2) If the issue is directed to another High •

Court, the finding shall be certified by that Court

to the High Court directing the issue.

(3) If the issue is directed to a District Court, the finding of that Court shall not be subject to appeal, but the evidence taken upon the trial shall be recorded and a copy thereof, certified by the Judge of the Court, shall be transmitted, together with any remarks which he may think fit to make thereon, to the High Court directing the issue, and the High Court may thereupon act upon the finding of the District Court, or dispose of the petition upon the evidence recorded, or direct a new trial, as the justice of the case may require.

29. (1) A patentee may institute a suit in a Suits for infringement District Court having jurisdiction to try the of patents. suit against any person who, during the continu-ance of a patent acquired by him under this Act in respect of an invention, makes, sells or uses the invention without his license, or counterfeits

it, or imitates it.

(2) Every ground on which a patent may be revoked under this Act shall be available by way

of defence to a suit for infringement.

30. A patentee shall not be entitled to re-Exemption of innocent cover any damages in infringer from liability for respect of any infringement of a patent granted after the commencement of this Act from any defendant who proves that at the date of the infringement he was not aware, nor had reasonable means of making himself aware, of the existence of the patent, and the marking of an article with the word "patent," "patented," or any word or words expressing or implying that a patent has been obtained for the article, stamped, engraved, impressed on, or otherwise applied to the article, shall not be deemed to constitute notice of the existence of the patent unless the word or words are accompanied by the year and number of the patent:

Provided that nothing in this section shall

affect any proceedings for an injunction.

31. In a suit for infringement of a patent,
Order for inspection, etc., the Court may, on the
in suit. application of either
party, make such order for an injunction, inspection or account, and impose such terms and give such directions respecting the same and the proceedings thereon, as the Court may see fit.

32. In a suit for infringement of a patent the Certificate of validity Court may certify that Certificate of validity Court may certify that questioned and costs there- the validity of the. patent came in question, and if the Court so certifies, then in any sub-sequent suit in that Court for infringement of the same patent the plaintiff, on obtaining a final order or judgment in his favour, shall, unless the Court trying the suit otherwise directs, have his full costs, charges and expenses of and incidental to the said out properly incurred.

V of 1908.

- 33. A Court making a decree in a suit under Transmission of decrees section 29 or an order and orders to the Controller. on a petition under section 26 shall send a copy of the decree or order, as the case may be, to the Controller, who shall cause an entry thereof and reference thereto to be made in the register of patents.
- 34. A High Court to which a petition has been presented under section 26 may stay proceedings, etc.

 miss, the petition if in its opinion the petition would be disposed of more justly or conveniently by another High Court.
- 35. (1) In a suit or proceeding for infringement or revocation of a patent, the Court may, if it thinks fit, and shall on the request of either of the parties to the proceedings, call in the aid of an assessor specially qualified, and try the case wholly or partially with his assistance.
- (2) A Court exercising appellate jurisdiction in respect of such suit or proceeding may, if it thinks fit, call in the aid of an assessor as aforesaid.
- (3) The remuneration, if any, to be paid to an assessor under this section shall in every case be determined by the Court and be paid by it as part of the expenses of the execution of this Act.
- Remedy in case of patentee of an invention, groundless threats of legal by circulars, advertise-proceedings.

 ments or otherwise, threatens any other person with any legal proceedings or liability in respect of any alleged infringement of the patent, any person aggrieved thereby may bring a suit against him in a District Court having jurisdiction to try the suit, and may obtain an injunction against the continuance of such threats, and may recover such damage (if any) as he has sustained thereby, if the alleged infringement to which the threats related was not in fact an infringement of any legal rights of the person making such threats:

Provided that this section shall not apply if the person making such threats with due diligence commences and prosecutes a suit for infringement of his patent.

Miscellaneous.

- 37. Where, after the commencement of this Grant of patents to two Act, a patent is granted or more persons. to two or more persons jointly, they shall, unless otherwise specified in the patent, be treated for the purpose of the devolution of the legal interest therein as joint tenants, but, subject to any contract to the contrary, each of such persons shall be entitled to use the invention for his own profit without accounting to the others, but shall not be entitled to grant a license without their consent, and, if any such person dies, his beneficial interest in the patent shall devolve on his legal representatives.
- 38. (1) An invention shall be deemed a new invention within the meaning of this Act—
 - (a) if it has not, before the date of the application for a patent thereon, been

- publicly used in any part of British India, or been made publicly knewn in any part of British India, and
- (b) if the inventor has not by secret or experimental user made direct or indirect profits from his invention in excess of such an amount as the Court or the Governor General in Council, as the case may be, may, in consideration of all the circumstances of the case, deem reasonable.
- (2) The public use or knowledge of an invention before the date of the application for a patent thereon shall not be deemed a public use or knowledge within the meaning of this Act if the knowledge has been obtained surreptitiously or in fraud of the true and first inventor or has been communicated to the public in fraud of such inventor or in breach of confidence:

Provided that such inventor has not acquiesced in the public use of his invention, and that, within six months after the commencement of that use, he applies for a patent.

- 39. If a patent is lost or destroyed, or its non-Loss or destruction of production is accounted patent. for to the satisfaction of the Controller, the Controller may at any time, on payment of the prescribed fee, seal a duplicate thereof.
- Provisions as to exhibition of an invention at an Provisions as to exhibitional exhibition, certified as such by the Governor General in Council, or the publication of any description of the invention during the period of the holding of the exhibition, or the use of the invention for the purpose of the exhibition in the place where the exhibition is held, or the use of the invention during the period of the holding of the exhibition by any person elsewhere, without the privity or consent of the inventor, shall not prejudice the right of the inventor to apply for and obtain a patent in respect of the invention or the validity of any patent granted on the application;

Provided that-

- (a) the exhibitor, before exhibiting the invention, gives the Controller the prescribed notice of his intention to do so; and
- (b) the application for a patent is made before or within six months from the date of the opening of the exhibition.
- (2) The Governor General in Council may, by notification in the Gazette of India, apply this section to any exhibition mentioned in the notification in like manner as if it were an industrial or international exhibition certified as such by the Governor General in Council, and any such notification may provide that the exhibitor shall be relieved from the condition of giving notice to the Controller of his intention to exhibit, and shall be so relieved either absolutely or upon such terms and conditions as may be stated in the notification.

- 41. The trustees of the Indian Museum may Models to be furnished at any time require a to Indian Museum. patentee to furnish them with a model or sample of his invention on payment to the patentee of the cost of the manufacture of the model or sample, the amount to be settled, in case of dispute, by the Governor General in Council.
- Foreign vessels in British Indian waters.

 of an invention for the purposes of the navigation of a foreign vessel within the jurisdiction of any Court in British India, or the use of an invention in a foreign vessel within that jurisdiction, provided it is not used therein for or in connection with the manufacture or preparation of anything intended to be sold in or exported from British India.
- (2) This section shall not extend to vessels of any foreign State of which the laws do not confer corresponding rights with respect to the use of inventions in British vessels while in the ports of that State, or in the waters within the jurisdiction of its Courts.

PART II.

DESIGNS.

Registration of Designs.

- Application for registration of designs.

 Application for registration of any person claiming to be the proprietor of any new or original design not previously published in British India, register the design under this Part.
- (2) The application must be made in the prescribed form and must be left at the Patent Office in the prescribed manner and must be accompanied by the prescribed fee.
- (3) The same design may be registered in more than one class, and, in case of doubt as to the class in which a design ought to be registered, the Controller may decide the question.
- (4) The Controller may, if he thinks fit, refuse to register any design presented to him for registration; but any person aggrieved by any such refusal may appeal to the Governor General in Council.
- (5) An application which, owing to any default or neglect on the part of the applicant, has not been completed so as to enable registration to be effected within the prescribed time shall be deemed to be abandoned.
- (6) A design when registered shall be registered as of the date of the application for registration.
- 44. Where a design has been registered in one or more classes of goods, the application of the proprietor of the design to register it in some one or more other classes shall not be refused, nor shall the registration thereof be invalidated—
 - (a) on the ground of the design not being a new and original design, by reason

- only that it was so previously registered; or
- (b) on the ground of the design having been previously published in British India, by reason only that it has been applied to goods of any class in which it was so previously registered.
- Certificate of registration.

 Certificate of registration.

 Cate of registration to
 the proprietor of the
 design when registered.
- (2) The Controller may, in case of loss of the original certificate, or in any other case in which he deems it expedient, furnish one or more copies of the certificate.
- A6. (1) There shall be kept at the Patent
 Office a book called the
 Register of Designs,
 wherein shall be entered the names and addresses of proprietors of registered designs, notifications of assignments and of transmissions of
 registered designs, and such other matters as
 may be prescribed.
- (2) The register of designs existing at the commencement of this Act shall be incorporated with and form part of the register of designs under this Act.
- (3) The register of designs shall be prima facie evidence of any matters by this Ad directed or authorized to be entered therein.

Copyright in Registered Designs.

- Copyright on registred proprietor of the design shall, subject to the provisions of this Act, have copyright in the design during five years from the date of registration.
- (2) If within the prescribed time before the expiration of the said five years application for the extension of the period of copyright is made to the Controller in the prescribed manner, the Controller shall, on payment of the prescribed fee, extend the period of copyright for a second period of five years from the expiration of the original period of five years.
- (3) If within the prescribed time before the expiration of such second period of five years application for the extension of the period of copyright is made to the Controller in the prescribed manner, the Controller may, subject to any rules under this Act, on payment of the prescribed fee, extend the period of copyrigh for a third period of five years from the expiration of the second period of five years.
- Requirements delivery on sale of any article to which a registre design has been apple the proprietor shall-
 - (a) (if exact representations or specime were not furnished on the appropriation for registration), furnito the Controller the prescribunumber of exact representations,

specimens of the design; and, if he fails to do so, the Controller may erase his name from the register, and thereupon the copyright in the design shall cease; and

- (b) cause each such article to be marked with the prescribed mark, or with the prescribed words or figures, denoting that the design is registered; and, if he fails to do so, the proprietor shall not be entitled to recover any penalty or damages in respect of any infringement of his copyright in the design unless he shows that he took all proper steps to ensure the marking of the article, or unless he shows that the infringement took place after the person guilty thereof knew or had received notice of the existence of the copyright in the design.
- (2) Where a representation is made to the Governor General in Council by or on behalf of any trade or industry that in the interests of the trade or industry it is expedient to dispense with or modify as regards any class or description of articles any of the requirements of this section as to marking, the Governor General in Council may, if he thinks fit, by rule under this Act, dispense with or modify such requirements as regards any such class or description of articles to such extent and subject to such conditions as he thinks fit.
- Effect of disclosure on copyright.

 Effect of disclosure on copyright.

 To to any other person, in such circumstances as would make it contrary to good faith for that other person to use or publish the design, and the disclosure of a design in breach of good faith by any person other than the proprietor of the design, and the acceptance of a first and confidential order for goods bearing a new or original textile design intended for registration, shall not be deemed to be a publication of the design sufficient to invalidate the copyright thereof if registration thereof is obtained subsequently to the disclosure or acceptance.
- Inspection of registered designs, or such shorter period not being less than two years from the registration of the design as may be prescribed, the design shall not be open to inspection except by the proprietor or a person authorized in writing by him, or a person authorized by the Controller or by the Court, and furnishing such information as may enable the Controller to identify the design, and shall not be open to the inspection of any person except in the presence of the Controller, or of an officer acting under him, and on payment of the prescribed fee; and the person making the inspection shall not be entitled to take any copy of the design, or of any part thereof:

Provided that, where registration of a design is refused on the ground of identity with a design already registered, the applicant for registration shall be entitled to inspect the design so registered.

- (2) After the expiration of the copyright in a design, or such shorter period as aforesaid, the design shall be open to inspection, and copies thereof may be taken by any person on payment of the prescribed fee.
- (3) Different periods may be prescribed under this section for different classes of goods.
- Information as to existence of copyright.

 Information as to existence of copyright.

 Information as to existence of copyright.

 Such information as may enable the Controller to identify the design, and on payment of the prescribed fee, the Controller shall inform such person whether the registration still exists in respect of the design, and, if so, in respect of what classes of goods, and shall state the date of registration, and the name and address of the registered proprietor.

Industrial and International Exhibitions.

Provisions as to exhibition at an industrial or international exhibition certified as such by the Governor General in Council, or the exhibition elsewhere during the period of the holding of the exhibition, without the privity or consent of the proprietor, of a design, or of any article to which a design is applied, or the publication, during the holding of any such exhibition, of a description of a design, shall not prevent the design from being registered, or invalidate the registration thereof:

Provided that-

- (a) the exhibitor, before exhibiting the design or article, or publishing a description of the design, gives the Controller the prescribed notice of his intention to do so; and
- (b) the application for registration is made before or within six months from the date of the opening of the exhibition.
- (2) The Governor General in Council may, by notification in the Gazette of India, apply this section to any exhibition mentioned in the notification in like manner as if it were an industrial or international exhibition certified as such by the Governor General in Council, and any such notification may provide that the exhibitor shall be relieved from the condition of giving notice to the Controller of his intention to exhibit, and shall be so relieved either absolutely or upon such terms and conditions as may be stated in the notification.

Legal Proceedings.

- 53. (1) During the existence of copyright in any design it shall not be lawful for any person—
 - (a) for the purpose of sale to apply or cause to be applied to any article in any class of goods in which the design is registered the design or any fraudulent or obvious imitation thereof, except with the license or written consent of the registered proprietor, or to do anything with a view to enable the design to be so applied; or,

- (b) knowing that the design or any fraudulent or obvious imitation thereof has been applied to any article without the consent of the registered proprietor, to publish or expose or cause to be published or exposed for sale that article.
- (2) If any person acts in contravention of this section, he shall be liable for every contravention—
 - (a) to pay to the registered proprietor of the design a sum not exceeding five hundred rupees recoverable as a contract debt, or
 - (b) if the proprietor elects to bring a suit for the recovery of damages for any such contravention, and for an injunction against the repetition thereof, to pay such damages as may be awarded and to be restrained by injunction accordingly:

Provided that the total sum recoverable in respect of any one design under clause (a) shall not exceed one thousand rupees.

- (3) When the Court makes a decree in a suit under sub-section (2), it shall send a copy of the decree to the Controller, who shall cause an entry thereof to be made in the register of designs.
- Application of certain provisions of the Act as to patents to designs.

 Application of certain provisions of the Act as to patents to designs.

 Ceedings by a patentee shall apply in the case

ceedings by a patentee shall apply in the case of registered designs in like manner as they apply in the case of patents, with the substitution of references to the copyright in a design for references to a patent, and of references to the proprietor of a design for references to the patentee, and of references to the design for references to the invention.

PART III.

- 62. The Controller may, on request in writ-Power for Controller ing accompanied by the to correct clerical errors. prescribed fee,—
 - (a) correct any clerical error in or in connection with an application for a patent or in any patent or any specification;
 - (b) cancel the registration of a design either wholly or in respect of any particular goods in connection with which the design is registered;

- (c) correct any clerical error in the representation of a design or in the name or address of the proprietor of any patent or design, or in any other matter which is entered upon the register of patents or the register of designs.
- by assignment, transmission or other operation of law to a patent, or to the copyright in a registered design, the Controller shall, on request and on proof of title to his satisfaction, register his interest in such patent or design.
- (2) Where any person claims to be entitled as mortgagee, licensee or otherwise to any interest in a patent or registered design, the Controller shall, on request and on proof of title to his satisfaction, cause notice of the interest to be entered in the prescribed manner in the register of patents or designs, as the case may be.
- (3) The person registered as the proprietor of a patent or design shall, subject to the provisions of this Act and to any rights appearing from the register to be vested in any other person, have power absolutely to assign, grant licenses as to, or otherwise deal with, the patent or design and to give effectual receipts for any consideration for any such assignment, license or dealing:

Provided that any equities in respect of the patent or design may be enforced in like manner as in respect of any other moveable property.

- Rectification of register by Court.

 Rectification of register by Court.

 In the prescribed manner of any person aggrieved by the non-insertion in or omission from the register of patents or designs of any entry, or by any entry made in either such register without sufficient cause, or by any entry wrongly remaining on either such register, or by an error or defect in any entry in either such register, make such order for making, expunging or varying such entry as it may think fit.
- (2) The Court may in any proceeding under this section decide any question that it may be necessary or expedient to decide in connection with the rectification of a register.
- (3) The prescribed notice of any application under this section shall be given to the Controller, who shall have the right to appear and be heard thereon.
- (4) Any order of the Court rectifying a register shall direct that notice of the rectification be served on the Controller in the prescribed manner, who shall upon the receipt of such notice rectify the register accordingly.
 - (5) A High Court to which an application has been made under this section may stay proceedings on or dismiss the application if in its opinion the application would be disposed of more justly or conveniently by another High Court.

Powers and Duties of Controller.

Powers of Controller in proceedings under Act.

rules in this behalf, the Controller in any proceedings before him under this Act shall have

- the powers of a Civil Court for the purpose of receiving evidence and administering oaths and enforcing the attendance of witnesses and compelling the production of documents and awarding costs.
- 66. The Controller shall issue periodically Publication of patented a publication of patentinventions.

 such information as the Governor General in Council may direct.
- Exercise of discretionary power is by or under this Act given to the Controller, he shall not exercise that power adversely to the applicant for a patent, or for amendment of an application or of a specification, or for registration of a design, without (if so required within the prescribed time by the applicant) giving the applicant an opportunity of being heard.
- 68. The Controller may, in any case of doubt

 Power of Controller to or difficulty arising in
 take directions of Governor the administration of
 General in Council. any of the provisions of
 this Act, apply to the Governor General in
 Council for directions in the matter.
- Refusal to grant patent, etc., in certain cases.

 Refusal to grant patent, etc., in certain cases.

 or to register a design, of which the use would, in his opinion, be contrary to law or morality.
- 70. (1) Where an appeal is declared by this Act to lie from the Controller to the Governor General in Council.

 Appeals to the Governor General in Council, the appeal shall be made within two months of the date of the order passed by the Controller; and shall be in writing, and accompanied by the prescribed fee.
- (2) In calculating the said period of two months the time (if any) occupied in granting a copy of the order appealed against shall be excluded.
- (3) The Governor General in Council may, if heathinks fit, obtain the assistance of an expert in deciding such appeals, and the decision of the Governor General in Council shall be final.

Evidence, etc.

- 71. A certificate purporting to be under the hand of the Controller as to any entry, matter or thing which he is authorized by this Act, or any rules made thereunder, to make or do, shall be prima facie evidence of the entry having been made, and of the contents thereof, and of the matter or thing having been done or left undone.
- Transmission of certified printed copies of specifications, drawings and amendments left at the Patent Office after the commencement of this Act, printed for and sealed with the seal of the Patent Office, shall be transmitted as soon as

may be, after they have been accepted or allowed at the Patent Office, to the Governor of Fort St. George in Council, the Governor of Bombay in Council, the Lieutenant-Governor of Burma and to such other authorities as the Governor General in Council may appoint in this behalf, and shall be open to the inspection of any person at all reasonable times at places to be appointed by those authorities.

73. Any application, notice or other document authorized or required to be left, made or given at the Patent Office or to the Controller, or to any other person under this Act, may be sent by post.

74. (1) If any person is, by reason of infancy, lunacy or other disability or other disability, incapable of making any statement or doing anything required or permitted by or under this Act, the lawful guardian, committee or manager (if any) of the person subject to the disability, or, if there be none, any person appointed by any Court possessing jurisdiction in respect of his property, may make such statement or a statement as nearly corresponding thereto as circumstances permit, and do such thing in the name and on behalf of the person subject to the disability.

(2) An appointment may be made by the Court for the purposes of this section upon the petition of any person acting on behalf of the person subject to the disability or of any other person interested in the making of the statement or the doing of the thing.

Agency.

Subscription and verification of certain documents.

75. The following documents, namely, —

- (1) applications for a patent,
- (2) notices of opposition,
- (3) applications for extension of term of a patent,

THE SCHEDULE.

(Registration of Members of Criminal Tribes.)

An Act to amend the law relating to the registration, surveillance and control of Criminal

WHEREAS it is expedient to amend the law relating to the registration, surveillance and control of criminal tribes; It is hereby enacted as follows:

Preliminary.

- 1. (1) This Act may be called the Criminal Short title and extent. Tribes Act, 1911; and
 - (2) It extends to the whole of British India.
 - 2. In this Act, unless there is anything repugnant in the subject or context .-
- (1) "criminal tribe" means a tribe, gang or class of persons declared to be a criminal tribe by a notification under section 3;
- (2) "prescribed" means prescribed by rules under this Act; and
- (3) "tribe," "gang" or "class" includes any part or members of a tribe, gang or class.

Notification of Criminal Tribes.

3. If the Local Government has reason to Power to declare any tribe, gang or class of persons is addicted to the systematic commission of non-bailable offences, it may, by notification in the local official Gazette, declare that such tribe, gang or class is a criminal tribe for the purposes of this Act.

Registration of Members of Criminal Tribes.

- 4. The Local Government may direct the Disof trict Magistrate to make or Registration to cause to be made a register members of criminal of the members of any criminal tribe or of any part thereof within his district.
- 5. Upon receiving such direction, the Dis-Procedure in making trict Magistrate shall pub-lish a notice in the prescribed manner at the place where the register is to be made and at such other places as he may think fit, calling upon all the members of such criminal tribe, or of such part thereof as is directed to be registered,-
 - (a) to appear at a time and place therein specified before a person appointed by him in this behalf;

- (b) to give to that person such information as may be necessary to enable him to make the register; and
- (c) to allow their finger-impressions to be recorded:

Provided that the District Magistrate may exempt any individual member of such criminal tribe or part thereof from registration.

- 6. The register, when made, shall be placed in the keeping of the Superintendent of Police, Charge of register. who shall, from time to time, report to the District Magistrate any alterations which District Magistrate any alterations which ought in his opinion to be made therein, either by way of addition or erasure.
- 7. (1) After the register has been placed in the keeping of the Superintendent of Police the register, and no registration shall be cancelled except by or by the order in writing of the District Magistrate.
- (2) Before the name of any person is added to the register under this section, the Magistrate shall give notice in the prescribed manner to the person concerned
 - (a) to appear before him or a person appointed by him in this behalf at a time and place therein specified;
 - (b) to give him or such person such information as may be necessary to enable him to make the entry; and
 - (c) to allow his finger-impressions to be recorded.
- 8. Any person deeming himself aggrieved by any entry made, or pro-posed to be made, in such Complaints of entries in register. register either when the register is first made or subsequently, may com-plain to the District Magistrate against such entry, and the Magistrate shall retain such person's name on the register, or enter it therein, or erase it therefrom, as he may see fit.
- 9. The District Magistrate or any officer Power to take finger empowered by him in this Power to take fingerimpressions at any behalf may at any time
 time. empowered by
 behalf may at any time
 order the finger-impressions of a registered member of a criminal tribe to be
- 10. The Local Government may, by notifica-Members of criminal tion in the local official tribes to report them-selves or notify resi-of any criminal tribe that Gazette, direct in respect of any criminal tribe that every registered member thereof shall, in the prescribed manner,-

 - (a) report himself at fixed intervals; or
 (b) notify his place of residence and any change or intended change of residence and any absence or intended absence from his residence.

(Restriction of Movements of Criminal Tribes. Settlements and Schools.)

Restriction of Movements of Criminal Tribes.

Procedure when deemed expedient to restrict movements of, or settle, criminal tribes.

Local Government considers that it is expedient that any criminal tribe should be—

- (a) restricted in its movements to any specified area, or
- (b) settled in any place of residence, it may report the case for the orders of the Governor General in Council.
 - (2) Every such report shall state-
 - (i) the nature and the circumstances of the offences in which the members of the criminal tribe are believed to have been concerned, and the reasons for such belief;
 - (ii) whether such criminal tribe follows any lawful occupation, and whether such occupation is in the opinion of the Local Government the real occupation of such criminal tribe, or a pretence for the purpose of facilitating the commission of crimes, and the grounds on which such opinion is based;
 - (iii) the area to which it is proposed to restrict the movements of such criminal tribe, or the place of residence in which it is proposed to settle it; and
 - (iv) the manner in which it is proposed that such criminal tribe shall earn its living within the restricted area or in the settlement, and the arrangements which are proposed to be made therefor.
- 12. If on the consideration of any such report the Governor General in Council is satisfied—
 settling, tribe.
 - (a) that it is expedient to restrict the movements of such criminal tribe, or to settle it in a place of residence, and
 - (b) that the means by which it is proposed that such criminal tribe shall earn its living are adequate,

he may authorize the Local Government to publish in the local official Gazette a notification declaring that such criminal tribe shall be restricted in its movements to the area specified or shall be settled in the place of residence specified, and the Local Government may publish a notification accordingly.

- Power to vary specified area or place of residence.

 Power to vary specified area or place of residence.

 by a like notification vary the terms of any notification published by it under section 12 by specifying another area to which the movements of the criminal tribe shall be restricted, or another place of residence in which it shall be settled.
- Verification of presence of members of tribe, whose movements have been restricted or tribe within prescribed area or place of residence. The place of residence, attend at such time and before such person as may be prescribed in this behalf.
- Transfer of register of a criminal tribe or any members thereof are restricted, or the place of residence in which a criminal tribe is settled, is situated in a district other than that in which the register mentioned in section 4 was prepared, the register shall be transferred to the Superintendent of Police of the district in which the said area is situated, and the District Magistrate of the said district shall thereupon be empowered to exercise the powers provided in sections 7, 8 and 9.

Settlements and Schools.

- 16. The Governor General in Council or the Local Government may establish industrial, agricultural or reformatory settlements and may place therein any criminal tribe or any part thereof, in respect of which a notification has been published under section 12.
- Power to place children in schools and to apprentice them.

 parents or guardians and place in such schools the children of members of any criminal tribe in respect of which a notification has been published under section 12.
- (2) For every school established under subsection (1), a Superintendent shall be appointed by the Local Government.
- (3) The provisions of sections 18 to 22 (both inclusive) of the Reformatory Schools Act, 1897, VIII of 1897 shall, so far as may be, apply in the case of every school for children established under this section as if the Superintendent of such school were a Superintendent and the children placed in such school were youthful offenders within the meaning of that Act.

v c 2

(Settlements and Schools. Rules. Penalties and Procedure.)

THE SCHEDULE.

REPEAL OF ENACTMENTS.

(Chapter I.—Preliminary.)

An Act to consolidate and amend the law relating to the government of His Majesty's Native Indian Forces.

WHEREAS it is expedient to consolidate and amend the law relating to the government of the Native officers, soldiers and other persons in His Majesty's Indian Forces; It is hereby enacted as follows:-

CHAPTER I.

PRELIMINARY

- 1. (1) This Act may be called the Indian Short title and com- Army Act, 1911.
- (2) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, direct in this behalf.

Application of Act.

- 2. (1) The following persons shall be subject Persons subject to Act. to this Act, namely:
 - (a) Native officers and warrant officers;

(b) persons enrolled under this Act;

(c) persons not otherwise subject to military law, who, on active service, in camp, on the march, or at any frontier post specified by the Governor General in Council by notification in this behalf, are employed by, or are in the service of, or are followers of, or accompany any portion of, His Majesty's Forces:

Provided that if any person claims to belong 44 & 45 Vict., to a class to which the Army Act is, and this c. 58. Act is not, applicable, the best of the land. Act is not, applicable, the burden of proving that he belongs to that class shall lie upon him.

(2) Every person subject to this Act under sub-section (1), clause (a) or (b), shall remain so subject until duly discharged or dismissed. 3. (1) The Governor General in Council

may, by notification, direct that any persons Special provision as to rank in certain cases. or class of persons subject to this Act under section 2, sub-section (1), clause (c), shall be so subject as Native officers, warrant officers or non-commissioned officers, and may authorize any officer to give a like

direction with respect to any such person and to cancel such direction.

(2) All persons subject to this Act other than officers, warrant officers and non-commissioned officers shall, if they are not persons in respect of whom a notification or direction under subsection (1) is in force, be deemed to be of a rank inferior to that of a non-commissioned officer.

4. Every person subject to this Act under Commanding officer of section 2, sub-section ersons subject to mility law under section 2, the purposes of this Act, be deemed to be Commanding officer of persons subject to military law under section 2, clause (c).

under the commanding officer of the corps, department or detachment (if any) to which he is attached, and if he is not attached to any corps, department or detachment, under the command of any officer who may for the time being be named as his commanding officer by the officer commanding the force with which such person may for the time being be serving, or of any other prescribed officer, or, if no such officer is named or prescribed, under the command of the said officer commanding the force :

Provided that an officer commanding a force shall not place a person under the command of an officer of official rank inferior to that of such person if there is present at the place where such person is any officer of higher rank under whose command he can be placed.

- Powers to apply Act certain forces under Government of India.

 Powers to apply Act apply all or any of the provisions of this Act to Powers to apply Act to certain forces under the Government of India. any force raised and maintained in India under the authority of the Governor General in Council.
- (2) While any of the provisions of this Act apply to any such force, the Governor General in Council may, by notification, direct by what authority any jurisdiction, powers or duties incident to the operation of these provisions shall be exercised or performed in respect of that force.
- 6. (1) Whenever persons subject to this Act Officers to exercise powers in case of foreign service. are serving out of India under an officer not subject to the authority of the Governor General in Council, the Governor General in Council may prescribe the officer by whom the powers which, under this Act, may be exercised by officers commanding armies, divisions and brigades, shall, as regards such persons, be exercised.
- (2) The Governor General in Council may confer such powers either absolutely, or subject to such restrictions, reservations, exceptions and conditions as he may think fit.

Definitions.

- 7. In this Act, unless there is something repugnant in the subject Definitions. or context,-
- (1) "British officer" means a person holding a commission in His Majesty's land forces:
- (2) "Native officer" means a person commissioned, gazetted or in pay as an officer holding a Native rank in His Majesty's Indian Forces:
- (3) "warrant officer" means a person appointed, gazetted or in pay as a Native warrant officer in His Majesty's Indian Forces:

The Indian Army Act, 1911. (Chapter I.—Preliminary.)

Chapter II.—Enrolment and Attestation.)

- (4) "non-commissioned officer" means a person attested under this Act holding a Native non-commissioned rank in His Majesty's Indian Forces, and includes an acting non-commissioned officer:
- (5) "officer" means a British officer or Native officer, but does not include a warrant officer or non-commissioned officer:
- (6) "commanding officer," when used in any provision of this Act with reference to any separate portion of His Majesty's forces or to any department, means the British officer whose duty it is under the regulations of the army, or, in the absence of any such regulation, by the custom of the service, to discharge with respect to that portion of the forces or that department the functions of commanding officer in regard to matters of the description referred to in that provision:
- (7) "superior officer," when used in relation to a person subject to this Act, includes a warrant officer and a non-commissioned officer; and, as regards persons placed under his orders, a warrant officer or non-commissioned officer 45 Viet. subject to the Army Act:
 - (8) "army," "division" and "brigade" mean respectively an army, division or brigade which is under the command of an officer subject to the authority of the Governor General in Council:
 - (9) "corps" means any separate body of persons subject to this Act or the Army Act which is prescribed as a corps for the purposes of all or any of the provisions of this Act:
 - (10) "independent brigade" means a brigade which does not form part of a division:
 - (11) "department" includes any division or branch of a department:
 - (12) "enemy" includes all armed mutineers, armed rebels, armed rioters, pirates and any person in arms against whom it is the duty of a person subject to military law to act:
 - (13) "active service," as applied to a person subject to this Act, means the time during which such person is attached to, or forms part of, a force which is engaged in operations against an enemy, or is engaged in military operations in, or is on the line of march to, a country or place wholly or partly occupied by an enemy, or is in military occupation of any foreign country:
 - (14) "military custody" means the arrest or confinement of a person according to the usages of the service:

 - (16) "court-martial" means a court-martial held under this Act:
 - (17) " criminal court" means a court of ordinary criminal justice in British India, or estab-

- lished elsewhere by the authority of the Governor General in Council:
- (18) "civil offence" means an offence which, if committed in British India, would be triable by a criminal court:
- (19) "offence" means any act or omission punishable under this Act, and includes a civil offence as hereinbefore defined:
- (20) "notification" means a notification published in the Gazette of India:
- (21) "prescribed" means prescribed by rules made under this Act: and
- (22) all words and expressions used herein and defined in the Indian Penal Code and not xev of 1860. hereinbefore defined shall be deemed to have the meanings respectively attributed to them by that Code.

CHAPTER II.

ENROLMENT AND ATTESTATION.

Enrolment.

- Procedure before enrolling officer of any person desirous of being enrolled, the enrolling officer shall read and explain to him, or cause to be read and explained to him in his presence, the conditions of the service for which he is to be enrolled; and shall put to him the questions set forth in the prescribed form of enrolment, and shall, after having cautioned him that if he makes a false answer to any such question he will be liable to punishment, under this Act, record or cause to be recorded his answer to each such question.
- 9. It, after complying with the provisions of section 8, the enrolling officer is satisfied that the person desirous of being enrolled fully understands the questions put to him and consents to the conditions of service, and if he perceives no impediment, he shall sign the enrolment paper, and the person shall then be deemed to be enrolled.
- 10. Every person who has for the space of six months been in the Presumption of enrolment in certain cases. In the receipt of military pay and been borne on the rolls of any corps or department (of which the last pay statement, if produced, shall be evidence) shall be deemed to have been duly enrolled, and shall not be entitled to claim his discharge on the ground of illegality or irregularity in his enrolment.

Attestation.

- 11. The following persons shall be attested, Persons to be attested. namely:
 - (a) all persons enrolled as combatants;

(Chapter II .- Enrolment and Attestation. Chapter III .- Dismissal and Discharge. Chapter IV .- Summary Reduction and Punishments otherwise than by order of Court-martial.)

- (b) all other enrolled persons prescribed by the Governor General in Council.
- 12. (1) When a person who is to be attested is reported fit for duty, or has completed the Mode of attestation. prescribed period of probation, an oath or affirmation shall be administered to him in the prescribed form by his commanding officer in front of his corps or such portion thereof or such members of his department as may be present or by any other prescribed person.
- (2) The form of oath or affirmation prescribed under this section shall contain a promise that the person to be attested will be faithful to His esty, His heirs and successors, and that he will serve in His Majesty's Indian Forces and go wherever he is ordered by land or sea, and that he will obey all commands of any officer set over him, even to the peril of his life.
- (3) The fact of an enrolled person having taken the oath or affirmation directed by this section to be taken shall be entered on his enrolment paper, and authenticated by the signa-ture of the officer administering the oath or affirmation.

CHAPTER III.

DISMISSAL AND DISCHARGE.

Dismissal by Governor General in Council and Commander-in-Chief in India.

13. The Governor General in Council or the Commander-in-Chief in India may dismiss from the service any person subject to this Act.

- 14. An officer commanding an army, divi-Dismissal by officer sion or brigade, or any Dismissal by officer commanding army, division, brigade, etc. prescribed officer, may dismiss from the service any person serving under his command other than a Native officer.
- 15. Every person sentenced by any court-martial or by any cri-minal court to trans-Dismissal of convicts. portation or to rigorous imprisonment for any term exceeding three months, shall be dismissed from the service by his commanding officer:

Provided that on active service any such person may be retained to serve in the ranks, and his service therein shall be reckoned as part of his term of transportation or imprisonment.

16. The prescribed authority may, in conformity with any rules Discharge. half, discharge from the service any person subject to this Act.

- 17. Every enrolled person who is dismissed or discharged from the service shall be furnish-Certificate to person dismissed or discharged. ed by his commanding officer with a certificate, in the English language and in the mother tongue of such person (when his mother tongue is not English), setting forth-
 - (a) the authority dismissing or discharging him;
 - (b) the cause of his dismissal or discharge; (c) the full period of his service in the
- 18. (1) Any person enrolled under this Act Discharge, etc., out of the conditions of his enrolment to be discharged, or whose discharge is ordered by competent authority, and who, when he is so entitled or ordered to be discharged, is serving out of India, and requests to be sent to India, shall, before being discharged, be sent to India with all convenient speed.
- (2) Any person enrolled under this Act who is dismissed from the service and who, when he is so dismissed, is serving out of India, shall be sent to India with all convenient speed.

(3) If any such person has been sentenced by court-martial to any punishment, such punishment may be inflicted before he is sent to India.

CHAPTER IV.

SUMMARY REDUCTION AND PUNISHMENTS OTHER-WISE THAN BY ORDER OF COURT-MARTIAL.

- 19. (1) The Commander-in-Chief in India, an officer commanding an army, division or bri-Reduction of non-com-missioned officers. gade, or any prescribed officer, may reduce to a lower grade or to the ranks any non-commissioned officer under his command.
- (2) The commanding officer of an acting non-commissioned officer may order him to revert to his permanent grade as a non-commissioned officer or, if he has no permanent grade above the ranks, to the ranks.
- 20. (1) The Commander-in-Chief in India may, subject to the control of the Governor Minor punishments. General in Council, specify the minor punishments to which persons subject to this Act shall be liable without the intervention of a courtmartial, and the officer or officers by whom, and the extent to which, such minor punishments may be awarded.

(2) Imprisonment in military custody may be specified as such a minor punishment, pro-

vided that-

(a) the term of such imprisonment shall not exceed twenty-eight days; and

(Chapter IV.—Summary Reduction and Punishments otherwise than by order of Court-martial. Chapter V.—Offences.)

- (b) it shall not be awarded to any person of or above the rank of non-commissioned officer, or who, when he committed the offence in respect of which it is awarded, was of or above such rank.
- Collective fines. Weapon or part of a weapon forming part of the equipment of a half squadron, battery, company or other similar unit is lost or stolen, the officer commanding the army, division or independent brigade to which such unit belongs may, after obtaining the report of a court of inquiry, impose a collective fine upon the Native officers, non-commissioned officers and men of such unit, or upon so many of them as, in his judgment, should be held responsible for such loss or theft.
 - Punishment of certain Native followers.

 Punishment of certain Officer of any corps or detachment on active service, in camp, on the march, or at any frontier post specified by the Governor General in Council by notification in this behalf at which troops are stationed, may punish any Native follower, of such corps or detachment who is subject to this Act under section 2, subsection (I), clause (c)—
 - (a) if such follower is not a menial servant, with imprisonment for a term which may extend to thirty days, or with fine which may extend to fifty rupees:
 - (b) if such follower is a menial servant, with imprisonment for a term which may extend to seven days, or, if on active service, with corporal punishment not exceeding twelve strokes of a rattan.
 - (2) Imprisonment awarded under this section may be carried out in a military guard, or in a jail, as ordered by the said commanding officer; and the officer in charge of any jail shall, on the delivery to him of the person of the offender, with a warrant, under the hand of the said commanding officer, detain the offender according to the exigency of the warrant or until he is discharged by due course of law.

Provost-Marshals.

Appointment. irregularities and offences committed in the field or on the march, provost-marshals may be appointed by the Commander-in-Chief in India or an officer commanding an army, division or independent brigade or an officer commanding the forces in the field; and the powers and duties of such provost-marshals

shall be regulated according to the established custom of war and the rules of the service.

- 24. (1) The duties of a provost-marshal so

 Duties and powers. appointed are to take charge of prisoners confined for offences of a general description, to preserve good order and discipline, and to prevent breaches of the same by persons belonging or attached to the army.
- (2) The provost-marshal may punish, corporally, then and there, any person subject to this Act below the rank of non-commissioned officer who, on active service and in his view or in the view of any of his assistants, commits any breach of good order and military discipline:

Provided that such punishment shall be limited to the necessity of the case, and shall accord with the orders which the provost-marshal may from time to time receive from the officer commanding the troops, and shall be inflicted with the regulation cat:

Provided also that the orders of the said commanding officer shall in no case authorise such corporal punishment in excess of that awardable by sentence of a court-martial.

(3) If the offender is not on active service or if the actual commission of the offence is not witnessed by the provost-marshal or any of his assistants, but sufficient proof can be obtained of the offender's guilt, he shall report the case to the officer commanding the troops, who shall deal with the case as he may deem most conducive to the maintenance of good order and military discipline.

CHAPTER V.

OFFENCES.

Offences in respect of Military Service.

- 25. Any person subject to this Act who commits any of the fol-Offences with death. punishable lowing offences, that is to say,—

CHAPTER VIII.

COURTS-MARTIAL.

Constitution and Dissolution of Courts-martial.

- Courts-martial and the kinds thereof.

 Courts-martial and the kinds thereof.

 Courts-martial and the martial, that is to say:—
 - (1) general courts-martial;
 - (2) district courts-martial;
 - (3) summary general courts-martial; and
 - (4) summary courts-martial.
- 54. A general court-martial may be convened
 Power to convene general courts-martial. by the Commander-inChief in India, or by
 any officer empowered in this behalf by warrant
 of the Commander-in-Chief in India.
- 55. A district court-martial may be convened Power to convene district courts-martial. by any officer having power to convene a general court-martial, or by any officer empowered in this behalf by warrant of any such officer.
- Contents of warrant issued under section 54 or section 55.

 Contents of warrant issued under section 55 may contain such restrictions, reservations or conditions as the officer issuing it may think fit.
- 57. A general court-martial shall consist of not less than seven officers unless that number, due regard being had to the public service, is not available, in which case the court may consist of not less than five officers.
- 58. A district court-martial shall consist of Composition of district not less than three officeurts-martial.
- Convening order to state if larger number of officers is not available.

 Convening the court shall state that the larger

(Chapter VIII .- Courts-martial.)

number of officers is not, due regard being had to the public service, available, and such statement shall be conclusive evidence of the fact so stated.

- Composition of general or district court-martial shall, at the discretion of the convening officer, but subject to the provisions of section 61, either be British or Native officers, but shall not be partly British and partly Native officers.
- 61. (1) Any person subject to this Act who Claim to trial by Brisses is under orders for trial by general or district court-martial may claim to be tried by British officers.
- (2) In all cases the right of making such a claim shall, before the court is convened, be explained to the person under orders for trial by the commanding officer, or some officer deputed by him in this behalf, and, when such a claim is made, the court shall be constituted accordingly.
- Convening of summary general courts-martial.

 authorities shall have power to convene a summary general courtmartial, namely:—
 - (a) an officer empowered in this behalf by an order of the Governor General in Council or of the Commander-in-Chief in India;
 - (b) on active service, the officer commanding the forces in the field, or any officer empowered by him in this behalf;
 - (c) an officer commanding any detached portion of His Majesty's troops upon active service when, in his opinion, it is not practicable, with due regard to discipline and the exigencies of the service, that an offence should be tried by an ordinary general court-martial.
- 63. A summary general court-martial shall Composition of sum-consist of not less than mary general courts-martial.

Summary courts-martial. 64. (1) A summary court-martial may be held—

- (a) by the commanding officer of any corps or department of His Majesty's Indian forces, or of any detachment of those forces;
- (b) by the commanding officer of any British corps or detachment to which details subject to this Act are attached.
- (2) At every summary court-martial the officer holding the trial shall alone constitute the court, but the proceeding shall be attended

throughout by two other officers who shall not, as such, be sworn or affirmed.

65. (1) If a court-martial after the commencement of a trial is reduced below the smallest number of officers of which it is by this Act required to consist, it shall be dissolved:

Provided that a general court-martial shall not be dissolved under the provisions of this sub-section unless it is reduced below five officers.

- (2) If, on account of the illness of the accused before the finding, it is impossible to continue the trial, a court-martial shall be dissolved.
- (3) Where a court-martial is dissolved under this section, the accused may be tried again.

Jurisdiction of Courts-martial.

- Prohibition of second trial.

 Prohibition of second trial.

 Prohibition of second trial.

 Been acquitted or convicted of an offence by a court-martial or by a criminal court, or has been summarily dealt with for an offence under section 20 or section 22, he shall not be liable to be tried again for the same offence by a court-martial or dealt with summarily in respect of it under either of the said sections.
- Court-martial for any offence after the expiration of three years from the date of such offence, unless the offender, by reason of absence or of some other manifest impediment, could not be arrested or confined and brought to trial within that period; in which case he shall be liable to be tried at any time not exceeding two years after such impediment has ceased.
- 68. Any person subject to this Act who commits any offence against it may be tried and punished for such offence in any place whatever.

Adjustment of the jurisdiction of Courts-martial and Criminal Courts.

- Order in case of concurrent jurisdiction.

 Order in case of concurrent jurisdiction.

 In the discretion of the prescribed military authority to decide before which court the proceedings shall be instituted, and, if that authority decides that they shall be instituted before a court-martial, to direct that the accused person shall be detained in military custody.
- 70. (1) When a criminal court having jurispower of criminal court to require delivery of offender. diction is of opinion that proceedings ought to be instituted before itself in respect of any alleged offence, it may,

(Chapter VIII.—Courts-martial.)

by written notice, require the prescribed military authority at its option either to deliver over the offender to the nearest magistrate to be proceeded against according to law, or to postpone proceedings pending a reference to the Governor General in Council.

- (2) In every such case the said authority shall either deliver over the offender in compliance with the requisition or shall forthwith refer the question as to the court before which the proceedings are to be instituted for the determination of the Governor General in Council, whose order upon such reference shall be final.
- 71. (1) Notwithstanding anything con-Trial by court-martial tained in section 26 of no bar to subsequent the General Clauses trial by criminal court. Act, 1897, or in section 403 of the Code of Criminal Procedure, 1898, a person convicted or acquitted by a courtmartial may be afterwards tried by a criminal court for the same offence or on the same facts.
- (2) If a person sentenced by a court-martial in pursuance of this Act to punishment for an offence is afterwards tried by a criminal court for the same offence or on the same facts, that court shall, in awarding punishment, have regard to the military punishment he may already have undergone.

Powers of courts-martial.

- 72. A general or summary general courtPowers of general and martial shall have
 summary general courtspower to try any person
 subject to this Act for
 any offence made punishable therein, and to
 pass any sentence authorized by this Act.
- Powers of district to try any person subject to this Act other than an officer for any offence made punishable therein, and to pass any sentence authorized by this Act other than a sentence of death, or transportation, or imprisonment for a term exceeding two years.
- Offences triable by offence punishable under any of the provisions of this Act:

Provided that when there is no grave reason for immediate action, and reference can without detriment to discipline be made to the officer empowered to convene a district court-martial for the trial of the alleged offender, an officer holding a summary court-martial shall not try without such reference any of the following offences, namely:—

(a) any offence punishable under sections 25, 27, clauses (a), (b) or (c), 33, 41 or 42, or

- (b) any offence against the officer holding the court.
- Persons triable by summary court-martial may try any person subject to this Act and under the command of the officer holding the court, except an officer or warrant officer.
- Sentences awardable by summary court-martial held by the commanding officer of a corps or department may pass any sentence which can be passed under this Act, except a sentence of death or transportation, or of imprisonment for a term exceeding one year.
- (2) A summary court-martial held by any other officer may pass any sentence which can be passed under this Act, except a sentence of death or transportation, or of imprisonment for a term exceeding six months.

Procedure at trials by Court-martial.

- 77. At every general, district or summary general court-martial the senior member shall sit as president.
- 78. Every general court-martial shall, and
 Judge Advocate.

 every district courtmartial may, be attended by a judge advocate, who shall be either an
 officer belonging to the department of the Judge
 Advocate General in India, or, if no such officer is available, a person appointed by the
 convening officer.
- 79. A British officer of not less than four years' service, hereinafter called the superintending officer, shall be appointed to superintend the proceedings of every court-martial composed of Native officers which is not attended by a judge advocate.
- 80. (1) At all trials by general, district or summary general courts-martial, as soon as the court is assembled, the names of the president and members shall be read over to the accused, who shall thereupon be asked whether he objects to being tried by any officer sitting on the court.
- (2) If the accused objects to any such officer, his objection, and also the reply thereto of the officer objected to, shall be heard and recorded, and the remaining officers of the court shall, in the absence of the challenged officer, decide on the objection.
- (3) If the objection is allowed by one-half or more of the votes of the officers entitled to vote, the objection shall be allowed, and the

(Chapter VIII.—Courts-martial.)

member objected to shall retire, and his vacancy may be filled in the prescribed manner by another officer, subject to the same right of the accused to object.

- (4) When no challenge is made, or when challenge has been made and disallowed, or the place of every officer successfully challenged has been filled by another officer to whom no objection is made or allowed, the court shall proceed with the trial.
- 81. (1) Every decision of a court-martial shall be passed by an absolute majority of votes; and where there is an equality of votes, as to either finding or sentence, the decision shall be in favour of the accused.
- (2) In matters other than a challenge or the finding or sentence, the president shall have a casting vote.
- 82. An oath or affirmation in the prescribed Oaths of president and form shall be administered to every member of every court-martial and to the judge advocate or superintending officer before the commencement of the trial.
- 83. Every person giving evidence at a court-martial shall be examined on oath or affirmation, and shall be duly sworn or affirmed in the prescribed form.
- Summoning witnesses and production of documents.

 Summoning witnesses of the court, the judge advocate, or the commanding officer of the accused person, may, by summons under his hand, require the attendance before the court, at a time and place to be mentioned in the summons, of any person either to give evidence or to produce any document or other thing.
- (2) In the case of a witness amenable to military authority, the summons shall be sent to the officer commanding the corps, department or detachment to which he belongs, and such officer shall serve it upon him accordingly.
- (3) In the case of any other witness, the summons shall be sent to the magistrate within whose jurisdiction he may be or reside, and such magistrate shall give effect to the summons as if the witness were required in the court of such magistrate.
- (4) When a witness is required to produce any particular document or other thing in his possession or power, the summons shall describe it with convenient certainty.
- (5) Nothing in this section shall be deemed to affect the Indian Evidence Act, 1872, sections 123 and 124, or to apply to any letter, postcard, telegram or other document in the custody of the postal or telegraph authorities.
- (6) If any document in such custody is, in the opinion of any district magistrate, chief presidency magistrate, high court or court of

- session, wanted for the purpose of any courtmartial, such magistrate or court may require the postal or telegraph authorities, as the case may be, to deliver such document to such person as such magistrate or court may direct.
- (7) If any such document is, in the opinion of any other magistrate or of any commissioner of police or district superintendent of police, wanted for any such purpose, he may require the postal or telegraph authorities, as the case may be, to cause search to be made for and to detain such document pending the orders of any such district magistrate, chief presidency magistrate or court.
- Commissions. Commissions. Court-martial, it appears to the court that the examination of a witness is necessary for the ends of justice, and that the attendance of such witness cannot be procured without an amount of delay, expense or inconvenience which, in the circumstances of the case, would be unreasonable, such court may address the Judge Advocate General in order that a commission to take the evidence of such witness may be issued.
- (2) The Judge Advocate General may then, if he thinks necessary, issue a commission to any district magistrate or magistrate of the first class, within the local limits of whose jurisdiction such witness resides, to take the evidence of such witness.
- (3) When the witness resides in the territories of any prince or chief in India in which there is an officer representing the British Indian Government, the commission may be issued to such officer.
- (4) The magistrate or officer to whom the commission is issued, or, if he is the district magistrate, he or such magistrate of the first class as he appoints in this behalf, shall proceed to the place where the witness is or shall summon the witness before him and shall take down his evidence in the same manner, and may for this purpose exercise the same powers, as in trials of warrant-cases under the Code of Criminal Procedure, 1898.

(5) Where the commission is issued to such officer as is mentioned in sub-section (3), he may delegate his powers and duties under the commission to any officer subordinate to him whose powers are not less than those of a magistrate of the first class in British India.

(6) When the witness resides out of India, the commission may be issued to any British consular officer, British magistrate or other British official competent to administer an oath or affirmation in the place where such witness resides.

resides.

(7) The prosecutor and the accused person in any case in which a commission is issued may respectively forward any interrogatories in writing which the court may think relevant to the issue, and the magistrate or officer to whom the commission is issued shall examine the witness upon such interrogatories,

V of 1898.

lef 1872.1

(Chapter VIII .- Courts-martial.)

(8) The prosecutor and the accused person may appear before such magistrate or officer by pleader or, except in the case of an accused person in custody, in person, and may examine, cross-examine and re-examine (as the case may be) the said witness.

(9) After any commission issued under this section has been duly executed, it shall be returned, together with the deposition of the witness examined thereunder, to the Judge

Advocate General.

(10) On receipt of a commission and deposition returned under sub-section (9), the Judge Advocate General shall forward the same to the court at whose instance the commission was issued or, if such court has been dissolved, to any other court convened for the trial of the accused person; and the commission, the return thereto and the deposition shall be open to the inspection of the prosecutor and the accused person, and may, subject to all just exceptions, be read in evidence in the case by either the prosecutor or the accused, and shall form part of the proceedings of the court.

(11) In every case in which a commission is issued under this section the trial may be adjourned for a specified time reasonably sufficient for the execution and return of the

commission.

Explanation.—In this section, the expression "Judge Advocate General" means the Judge Advocate General in India, and includes a Deputy Judge Advocate General.

Conviction of one of charge of another.

Conviction of one offence permissible on charge of another.

Conviction of one offence permissible on charge of another.

Conviction of one martial with desertion may be found guilty of attempting to desert or of being absent without leave.

- (2) A person charged before a court-martial with attempting to desert may be found guilty of desertion or of being absent without leave.
- (3) A person charged before a court-martial with any of the following offences specified in section 31, that is to say, theft, dishonest misappropriation or conversion to his own use of property entrusted to him, or dishonestly receiving or retaining property in respect of which any of the aforesaid offences has been committed knowing or having reason to believe it to have been stolen or dishonestly misappropriated or converted, may be found guilty of any other of these offences with which he might have been charged.
- (4) A person charged before a court-martial with an offence punishable under section 41 or section 42 may be found guilty of any other offence of which he might have been found guilty if 'he provisions of the Code of Criminal Procedure, 1898, were applicable.
- (5) A person charged before a court-martial with any other offence under this Act may, on failure of proof of an offence having been committed in circumstances involving a more severe punishment, be found guilty of the same offence as having been committed in circumstances involving a less severe punishment.

87. No sentence of death shall be passed by Majority requisite to any court-martial withsentence of death. out the concurrence of two-thirds at the least of the members of the court.

Evidence before Courts-martial.

88. The Indian Evidence Act, 1872, shall,
General rule as to evisubject to the provisions dence.
of this Act, apply to all proceedings before a court-martial.

89. A court-martial may take judicial notice of any matter within the general military knowledge of the members.

91. Any enrolment paper purporting to be signed by an enrolling officer shall, in proceedings under this Act, be evidence of the person enrolled having given the answers to questions which he is therein represented as having given,

and of the enrolment of such person.

Reference by accused to Government officer. without leave, overstaying leave or not rejoining when warned for service, the person tried states in his defence any sufficient or reasonable excuse for his unauthorized absence, and refers in support thereof to any officer in the civil or military service of Government, or if it appears that any such officer is likely to prove or disprove the said statement in the defence, the court shall address such officer and adjourn until his reply is received.

(2) The written reply of any officer so referred to shall, if signed by him, be received in evidence and have the same effect as if made on

oath before the court.

(3) If the court is dissolved before the receipt of such reply, or if the court omits to comply with the provisions of this section, the convening officer may, at his discretion, annul the proceedings and order a fresh trial by the same another court-martial.

93. (1) When any person subject to this Act
Evidence of previous has been convicted by a convictions and general court-martial of any character. offence, such court-martial may inquire into, and receive and record evidence of, any previous convictions of such person, either by a court-martial or by a criminal court, and may further inquire into and record the general character of such person, and such other matters as may be prescribed.

(2) Evidence received under this section may be either oral, or in the shape of entries in, or certified extracts from, court-martial books or

V of 1806

(Chapter VIII .- Courts-martial. Chapter IX .- Execution of Sentences.)

other official records; and it shall not be necessary to prove the signature to such certified extracts, nor shall it be necessary to give notice before trial to the person tried that evidence as to his previous convictions or character will be received.

(3) At a summary court-martial the officer holding the trial may, if he thinks fit, record any previous convictions against the offender, his general character, and such other matters as may be prescribed, as of his own knowledge, instead of requiring them to be proved under the foregoing provisions of this section.

Confirmation and Revision of Findings and Sentences.

- 94. No finding or sentence of a general or Finding and sentence district court-martial invalid without confirmation. Shall be valid except so far as it may be confirmed as provided by this Act.
- 95. The findings and sentences of general Power to confirm finding and sentence of confirmed by the Comgeneral court-martial.

 India, or by any officer empowered in this behalf by warrant of the Commander-in-Chief in India.
- Power to confirm finding and sentences of district courts-martial may be confirmed by any officer trict court-martial. courts-martial by any officer having power to convene a general court-martial, or by any officer empowered in this behalf by warrant of any such officer.
- 97. A warrant issued under section 95 or Contents of warrant issued under section 96 may contain such restrictions, resersection 96.

 the officer issuing it may think fit.
- 98. (1) The finding and sentence of a sum-Confirmation of finding mary general courtand sentence. martial shall require to be confirmed by the convening officer—
 - (a) in the case of the trial of an officer,
 - (b) in the case of an acquittal or a sentence of death or transportation or imprisonment for a term exceeding two years, and
 - (c) in any other case if so ordered by the said officer.
- (2) Save as provided in sub-section (1), a sentence passed by a summary general court-martial shall not require to be confirmed, but may be carried out forthwith.
- Power of confirming officer to mitigate, remit or commute sentences.

 Power of confirming officer to mitigate, remit or commute sentences.

 when confirming the sentence of a court-martial, mitigate or remit the punishment thereby awarded, or commute that punishment for any less punishment or punishments to which the offender, might have been sentenced by the court-martial.

Provided that a sentence of transportation shall not be commuted for a sentence of imprisonment for a term exceeding the term of transportation awarded by the court.

Revision of finding or sentence of a courtmartial which requires confirmation may be once revised by order of the confirming officer; and on such revision, the court, if so directed by him, may take additional evidence.

- (2) The court, on revision, shall consist of the same officers as were present when the original decision was passed, unless any of those officers are unavoidably absent.
- (3) In case of such unavoidable absence the cause thereof shall be duly certified in the proceedings, and the court shall proceed with the revision, provided that, if a general court-martial, it still consists of five officers, or if a district court-martial, of three officers.
- Finding and sentence of a summary court-martial shall not require to be confirmed, but may be carried out

Provided that, if the officer holding the trial is of less than five years' service, he shall not, except on active service, carry into effect any sentence until it has received the approval of an officer commanding not less than a corps.

Transmission of proceedings of every summary court-martial shall without delay be forwarded to the officer commanding the division or brigade within which the trial was held, or to the prescribed officer; and such officer, or the Commander-in-Chief in India, or the officer commanding the army in which the trial was held, may, for reasons based on the merits of the case, but not on any merely technical grounds, set aside the proceedings or reduce the sentence to any other sentence which the court might have passed.

103. Where a sentence passed by a courtSubstitution of valid martial which has been for invalid sentence. confirmed, or which does not require confirmation, is found for any reason to be invalid, the authority who would have had power under section 112 to commute the punishment awarded by the sentence if it had been valid may pass a valid sentence:

Provided that the punishment awarded by the sentence so passed shall not be higher in the scale of punishments than, or in excess of, the punishment awarded by the invalid sentence.

CHAPTER IX.

EXECUTION OF SENTENCES.

Form of sentence of death a court-martial shall, in its discretion, direct that the offender shall suffer death by being hanged by the neck until he be dead, or shall suffer death by being shot to death.

The Indian Army Act, 1911. (Chapter IX.—Execution of Sentences.) (Chapter X.—Pardons and Remissions. Chapter XI.—Rules.)

105. Whenever any person is sentenced Imprisonment to be under this Act to simple in military custody. imprisonment, such sentence shall be carried out by confinement in

military custody.

106. Whenever any person is sentenced Commencement of sentence of transportation or imprisonment. under this Act to transportation or imprisonment, the term of his sentence shall, whether it has been revised or not, be reckoned to commence on the day on which the original proceedings were signed by the president or, in the case of a summary court-martial, by the court.

107. Whenever any sentence of transporta-Execution of sentence of transportation or imprisonment, tion or rigorous imprisonment is passed under this Act, or whenever any sentence so passed is commuted to transportation or to rigorous imprisonment, the commanding officer of the person under sentence, or such other officer as may be prescribed, shall forward a warrant in the prescribed form to the officer in charge of the civil prison in which such person is to be confined, and shall forward him to such prison with the warrant:

Provided that, in the case of a sentence of rigorous imprisonment for a period not exceeding three months, the confirming officer, or, in the case of a sentence which does not require confirmation, the court, may direct that the sentence shall be carried out by confinement in

military custody.

108. Whenever, in the opinion of an officer Execution of sentence of imprisonment in special cases.

commanding an army, division or independent brigade. special cases. brigade, any sentence or portion of a sentence of imprisonment cannot, for special reasons, conveniently be carried out in accordance with the provisions of section 105 or section 107, such officer may direct that such sentence or portion of sentence shall be carried out by confinement in any civil prison or other fit place.

109. Whenever an order is duly made under Communication of certain orders to civil prison varying any sentence, order or warrant under which any person is confined in a civil prison, a warrant in accordance with such order shall be forwarded by the prescribed officer to the officer in charge of the prison in which such person is confined.

110. In executing a sentence of solitary con-Limit of solitary con- finement, such confinement shall in no case exceed fourteen days at a time, with intervals between the periods of solitary confinement of not less duration than such periods, and, when imprisonment awarded exceeds three months, the solitary confinement shall not exceed seven days in any one month of the whole imprisonment awarded, with intervals between the periods of solitary confinement of not less duration than and not less duration than and not less duration than and not less duration than and not less duration than and not less duration than and not less duration than and not less duration than and not less duration than and not less duration than and not less duration than a less durations and not less duratio not less duration than such periods.

111. Whenever any person is sentenced under Instrument of corporal this Act by a court-Instrument of corporal punishment. martial to corporal punishment, such punishment shall be inflicted on the bare back with the regulation cat.

CHAPTER X.

PARDONS AND REMISSIONS.

112. When any person subject to this Act Pardons and remis. has been convicted by a court-martial of any offence,

(a) the Governor General in Council, or

(b) when the person has been convicted of any offence other than an offence punishable under section 41, the Commander-in-Chief in India or, in the case of a sentence which he could have confirmed or which did not require confirmation, the officer commanding the army, division or independent brigade in which such person, at the time of his conviction, was serving,

may-

pardon the person;

(2) mitigate or remit the punishment awarded, or commute such punishment for any less punishment or punishments to which he might have been sentenced by the courtmartial;

(3) order the restoration to him of any service or other advantage forfeited

under his sentence; or

(4) re-admit him to the service when he has been dismissed therefrom:

Provided that a sentence of transportation shall not be commuted for a sentence of imprisonment for a term exceeding the term of transportation awarded by the court.

CHAPTER XI.

RULES.

113. (1) The Governor General in Council may make rules for the Power to make rules. effect the provisions of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, such rules may provide for—

(a) the discharge from the service of persons subject to this Act;

(b) the amount and incidence of fines to be imposed under section 21;

- (c) the assembly and procedure of courts of inquiry, and the administration of oaths or affirmations by such courts;
- (d) the convening and constituting of
- courts-martial;
 (e) the adjournment, dissolution and sittings of courts-martial;
- (f) the procedure to be observed in trials by courts-martial;

The Indian Army Act, 1911.

Chapter XI.—Rules.

(Chapter XII.—Property of Deceased Persons, Deserters and Lunatics. Chapter XIII.—Miscellaneous.)

- (y) the confirmation and revision of the findings and sentences of courtsmartial;
- (h) the carrying into effect sentences of courts-martial;
- (i) the forms of orders to be made under the provisions of this Act relating to courts-martial, transportation or imprisonment; and
- (j) any matter in this Act directed to be prescribed.
- (3) All rules made under this Act shall be published in the Gazette of India, and, on such publication, shall have effect as if enacted in this Act.

CHAPTER XII.

PROPERTY OF DECEASED PERSONS, DESERTERS AND LUNATICS.

Property of deceased persons and deserters.

Property of deceased persons and deserters.

Property of deceased property of every person subject to this Act who dies or deserts:—

- (1) The commanding officer shall secure all the moveable property that is on the spot, and cause an inventory thereof to be made, and draw any pay and allowances due to the deceased or deserter.
- (2) In the case of a deceased person who has left in a Government savings bank (including any post office savings bank, however named) a deposit not exceeding one thousand rupees, the commanding officer may, if he thinks fit, require the secretary or other proper officer of the bank to pay the deposit to him forthwith notwithstanding anything in any departmental rules; and, after the payment thereof in accordance with such requisition, no person shall have any right in respect of the deposit except as hereinafter provided.
- (3) In the case of a deceased person whose representative is on the spot and has given security for the payment of the regimental debts (if any) of the deceased, the commanding officer shall deliver over the property and the amount of the deposit (if any) received under clause (2) to that representative.
- (4) In the case of a deceased person whose estate is not dealt with under clause (3), and in the case of any deserter, the commanding officer shall cause the property to be sold by public auction, and shall pay the regimental debts and other debts in camp or quarters (if any), and in the case of a deceased person the expenses of his funeral ceremonies, from the proceeds of the sale and the amount of the deposit (if any) received under clause (2).
- (5) The surplus, if any, shall in the case of a deceased person be paid to his representative (if any), or in the event of no claim to such

surplus being established within twelve months after the death, then the same shall be remitted to the prescribed person.

(6) In the case of the sale of the effects of a deserter, the amount remaining in the hands of the commanding officer shall be forthwith remitted to the prescribed person.

Explanation.—A person shall be deemed to be a deserter within the Meaning of desertion. The meaning of this section who has been convicted of desertion, or who has without authority been absent from duty for a period of sixty days and has not subsequently surrendered or been apprehended.

Disposal of certain property without production of probate, etc.

The property without production of probate, etc.

The presentative of a deceased person under section and rupees, and if the prescribed person thinks fit, be delivered or paid to any person appearing to him to be entitled to receive it or to administer the estate of the deceased, without requiring the production of any probate, letters of administration, certificate or other such conclusive evidence of title; and such delivery or payment shall be a full discharge to those ordering or making the same and to the Secretary of State for India in Council from all further liability in respect of the property or money; but nothing in this section shall affect the rights of any executor or administrator or other representative, or of any creditor, of a deceased person against any person to whom such delivery or payment has been made.

Application of section applicable, apply in the case of a person subject to this Act becoming insane.

CHAPTER XIII.

MISCELLANEOUS.

Military Privileges.

- Complaints against deems himself wronged by any superior or other officers, may, if not attached to a troop or company, complain to the officer under whose command or orders he is serving; and may, if attached to a troop or company, complain to the officer commanding the same.
- (2) When the officer complained against is the officer to whom any complaint should, under sub-section (1), be preferred, the aggrieved person may complain to such officer's next superior officer.
- (3) Every officer receiving any such complaint shall examine into it, and, when necessary, refer it to superior authority.

The Indian Army Act, 1911.

(Chapter XIII.-Miscellaneous.)

- (4) Every such complaint shall be preferred through such channels as may be from time to time specified by proper authority.
- Privileges of persons attending courts martial, no judge advocate or superintending officer, no party to any proceeding before a court-martial, or his legal practitioner or agent, and no witness acting in obedience to a summons to attend a court-martial, shall, while proceeding to, attending on or returning from a court-martial, be liable to arrest under civil or revenue process.
- (2) If any such person is arrested under any such process, he may be discharged by order of the court-martial.
- Exemption from arrest for debt.

 Exemption from arrest for debt.

 So long as he belongs to His Majesty's Indian forces, be liable to be arrested for debt under any process issued by, or by the authority of, any civil or revenue court or revenue-officer.
- (2) The judge of any such court may examine into any complaint made by such person or his superior officer of the arrest of such person contrary to the provisions of this section, and may, by warrant under his hand, discharge the person, and award reasonable costs to the complainant, who may recover those costs in like manner as he might have recovered costs awarded to him by a decree against the person obtaining the process.
- (3) For the recovery of such costs no fee shall be payable to the court by the complainant.
- Property exempted from attachment.

 Property exempted from attachment.

 accourtements or necessaries of any person subject to this Act, nor any animal used by him for the discharge of his duty, shall be seized, nor shall the pay and allowances of any such person or any part thereof be attached, by direction of any civil or revenue court or any revenue-officer, in satisfaction of any decree or order enforceable against him.
- Application of the last Reserve Forces shall, when called out for or reservists.

 o two foregoing sections to when called out for or engaged upon or returning from training or service, be entitled to all the privileges accorded by sections 119 and 120 to a person subject to this Act.
 - Priority of hearing by courts of cases in which native officers and soldiers are concerned.

 authority, of leave of absence having been granted to or applied for by him for the purpose of prosecuting or defending any suit or other proceeding in such court, the court shall, on the application of such person, arrange, so far as may be possible, for the hearing and

- final disposal of such suit or other proceeding within the period of the leave so granted or applied for.
- (2) The certificate from the proper military authority shall state the first and last day of the leave or intended leave, and set forth a description of the case with respect to which the leave was granted or applied for.
- (3) No fee shall be payable to the court in respect of the presentation of any such certificate, or in respect of any application by or on behalf of any such person for priority for the hearing of his case.
- (4) Where the court is unable to arrange for the hearing and final disposal of the suit or other proceeding within the period of such leave or intended leave as aforesaid, it shall record its reasons for having been unable to do so, and shall cause a copy thereof to be furnished to such person on his application without any payment whatever by him in respect either of the application for such copy or of the copy itself.
- (5) If in any case a question arises as to the proper military authority qualified to grant such certificate as aforesaid, such question shall be at once referred by the court to an officer commanding a corps, whose decision shall be final.

Deserters and Military Offenders.

- Capture of deserters.

 Capture of deserters.

 Capture of deserters.

 Capture of deserters.

 this Act deserts, the commanding officer of the corps, department or detachment to which he belongs shall give written information of the desertion to such civil authorities as, in his opinion, may be able to afford assistance towards the capture of the deserter; and such authorities shall thereupon take steps for the apprehension of the said deserter in like manner as if he were a person for whose apprehension a warrant had been issued by a magistrate, and shall deliver the deserter, when apprehended, to military custody.
- (2) Any police-officer may arrest without warrant any person reasonably believed to be subject to this Act and to be travelling without authority, and shall bring him without delay before the nearest magistrate, to be dealt with according to law.
- Arrest by military authorities.

 Any person subject to this Act who is charged with an offence may be taken into military custody.
- (2) Any such person may be ordered into military custody by any superior officer.
- (3) The charge against every person taken into military custody shall, without unnecessary delay, be investigated by the proper military authority, and, as soon as may be, either proceedings shall be taken for punishing the offence, or such person shall be discharged from custody.

The Indian Army Act, 1911.

(Chapter XIII.-Miscellaneous.)

(The Schedule.—Repeal of Enactments.)

Act, who is accused of Arrest by civil authorities.

Act, who is accused of any offence under this Act, is within the jurisdiction of any magistrate or police-officer, such magistrate or officer shall aid in the apprehension and delivery to military custody of such person upon receipt of a written application to that effect signed by his commanding officer.

126. (1) When any person subject to this

Act has been absent
Inquiry on absence of without due authority
person subject to Act. from his duty for a
period of sixty days, a court of inquiry shall,
as soon as practicable, be assembled and, upon
oath or affirmation administered in the prescribed manner, shall inquire respecting the
absence of the person, and the deficiency, if
any, of property of the Government entrusted
to his care, or of his arms, ammunition, equipments, instruments, clothing or necessaries;
and, if satisfied of the fact of such absence
without due authority or other sufficient cause,
the court shall declare such absence and the
period thereof, and the said deficiency, if any;
and the commanding officer of the corps or
department to which the person belongs shall
enter in the court-martial book of the corps or
department a record of the declaration.

(2) If the person declared absent does not afterwards surrender, or is not apprehended, he shall, for the purposes of this Act, be deemed to be a deserter.

(3) If the person declared absent surrenders or is apprehended, the record or a copy thereof, purporting to bear the signature of the officer having the custody of the court-martial book, shall, on the trial of the person for desertion, be presumptive evidence of the facts therein recorded.

Repeal.

Repeal.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 16th March 1911 and is hereby promulgated for general information:—

ACT No. IX of 1911.

An Act further to amend the Births, Deaths and Marriages Registration Act, 1886.

WHEREAS it is expedient further to amend the VI of 1885. Births, Deaths and Marriages Registration Act, 1886; It is hereby enacted as follows:—

- 1. This Act may be called the Births, Deaths and Marriages Registration (Amendment) Act, 1911.
- 2. In section 22 of the Births, Deaths

 Amendment of section 22 of Act VI of Act, 1886, the following amendments shall be made, namely:—
 - (1) To sub-section (1) of the said section the following proviso shall be added, namely:—
 - "Provided that it shall not be necessary for the person giving notice to attend before the Registrar or to sign the entry in the register if he has given such notice in writing and has furnished to the satisfaction of the Registrar such evidence of his identity as may be required by any rules made by the Local Government in this behalf."
 - (2) In sub-section (2) of the said section, after the word "signed" the words "or the conditions specified in the proviso to sub-section (1) have been complied with" shall be inserted.
 - 3. In section 26 and in section 28 of the said

 Amendment of sections 26 and 28.

 Act, for the words "Governor General in Council" the words "Local Governoment" shall be substituted.
 - 4. For section 36 of the said Act the following Substitution of new section shall be substituted, namely:
 - "36. (1) The Local Government may make rules to carry out the purposes of this Act.
 - (2) In particular and without prejudice to the generality of the foregoing power, such rules may—
 - (a) fix the fees payable under this Act;

- (b) prescribe the forms required for the purposes of this Act;
- (c) prescribe the time within which, and the mode in which, persons authorized under this Act to give notice of a birth or death to a Registrar of Births and Deaths must give the notice;
- (d) prescribe the evidence of identity to be furnished to a Registrar of Births and Deaths by persons giving notice of a birth or death in cases where personal attendance before such Registrar is dispensed with;
- (e) prescribe the registers to be kept and the
 form and manner in which Registrars
 of Births and Deaths are to register
 births and deaths under this Act, and
 the intervals at which they are to
 send to the Registrar General of
 Births, Deaths and Marriages true
 copies of the entries of births and
 deaths in the registers kept by them.
- deaths in the registers kept by them;

 (f) prescribe the conditions and circumstances on and in which Registrars of Births and Deaths may correct entries of births and deaths in registers kept by them;
- (g) prescribe the particulars which the descriptive list or lists to be prepared by the Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the registers or records, or portions of registers or records, to which they relate; and
- (h) prescribe the custody in which those registers or records are to be kept.
- (3) Every power to make rules conferred by this Act is subject to the condition of the rules being made after previous publication.
- (4) All rules made under this Act shall be published in the local official Gazette, and on such publication shall have effect as if enacted in this Act."
 - 5. Section 37 of the said Act is hereby re-Repeal of section 37. pealed.
- All rules heretofore made under the said

 Act by the Governor General

 Continuation of rules in Council shall, after the heretofore made by commencement of this Act, Governor General in be deemed to have been made

Governor Council.

General in be deemed to have been mad by the Local Government.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 22nd March 1911, and is hereby promulgated for general information:—

ACT No. X OF 1911.

An Act to consolidate and amend the law relating to the prevention of public meetings likely to promote sedition or to cause a disturbance of public tranquillity.

WHEREAS it is expedient to consolidate and amend the law relating to the prevention of public meetings likely to promote sedition or to cause a disturbance of public tranquillity; It is hereby enacted as follows:—

- 1. (1) This Act may be called the Prevention of Seditious Meetings Act, 1911.
- (2) It extends to the whole of British India, but shall have operation only in such Provinces or parts of Provinces as the Governor General in Council may from time to time notify in the Gazette of India.
- Power of Local Government may, with the previous sanction of the Government to notify proclaimed areas.

 Only the Local Government may, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, declare the is for the time being in operation, to be a proclaimed area.

- (2) A notification made under sub-section (1) shall not remain in force for more than six months, but nothing in this sub-section shall be deemed to prevent the Local Government, with the previous sanction of the Governor General in Council, from making any further notifications in respect of the same area from time to time as it may think fit.
- 3. (1) In this Act, the expression "public meeting" means a meeting which is open to the public or any class or portion of the public.
- (2) A meeting may be a public meeting notwithstanding that it is held in a private place and notwithstanding that admission thereto may have been restricted by ticket or otherwise.
- 4. (I) No public meeting for the furtherance or discussion of any subject likely to cause disturbance or public meetings.

 The exhibition or distribution of any writing or printed matter relating to any such subject shall be held in any proclaimed area—
 - (a) unless written notice of the intention to hold such meeting and of the time and place of such meeting has been given to the District Magistrate or the Commissioner of Police, as the case may be, at least three days previously; or

(b) unless permission to hold such meeting
has been obtained in writing from the
District Magistrate or the Commissioner of Police, as the case may be.

(2) The District Magistrate or any Magistrate
Power of Magistrate
to cause report to be
taken.

Of the first class authorized
by the District Magistrate
in this behalf may, by order
in writing, depute one or more Police-officers,

57)

not being below the rank of Head Constable, or other persons to attend any such meeting for the purpose of causing a report to be taken of the proceedings.

- (3) Nothing in this section shall apply to any public meeting held under any statutory or other express legal authority or to public meetings convened by a Sheriff or to any public meetings or class of public meetings exempted for that purpose by the Local Government by general or special order.
- 5. The District Magistrate or the Commissioner of Police, as the case may be, may at any time, by order in writing, of which public notice shall forthwith be given, prohibit any public meeting in a proclaimed area if, in his opinion, such meeting is likely to promote sedition or disaffection or to cause a disturbance of the public tranquillity.
- 6. (1) Any person concerned in the promotion or conduct of a public meeting held in a proclaimed area contrary to the provisions of section 4 shall be punished with imprisonment for a term which may extend to six months, or with fine, or with both.
- (2) Any public meeting which has been prohibited under section 5 shall be deemed to be an

unlawful assembly within the meaning of Chapter VIII of the Indian Penal Code and of Chapter XLV of 1 IX of the Code of Criminal Procedure, 1898. V of 1898.

7. Whoever, in a proclaimed area, in a public Penalty for delivery of place or a place of public speeches in public places. resort, otherwise than at a public meeting held in accordance with, or exempted from, the provisions of section 4, without the permission in writing of the Magistrate of the District or of the Commissioner of Police, as the case may be, previously obtained, delivers any lecture, address or speech on any subject likely to cause disturbance or public excitement to persons then present, may be arrested without warrant and shall be punished with imprisonment for a term which may extend to six months, or with

8. No Court inferior to that of a Presidency

Cognizance of Magistrate or of a Magistrate of the first class or Sub-divisional Magistrate shall try any offence against this Act.

fine, or with both.

9. The Prevention of Seditious Meetings Act,
1907, and the Continuing VI of 190
Repeals. Act, 1910, are hereby
repealed. XVII of 190

SCHEDULES.

(Chapter I. - Preliminary. Chapter II. - Inpectors and Certifying Surgeons.)

An Act to consolidate and amend the law regulating labour in factories.

WHEREAS it is expedient to consolidate and amend the law regulating labour in factories ; It is hereby enacted as follows :-

CHAPTER I.

PRELIMINARY.

1. (1) This Act may be called the Indian Factories Act, 1911.

Short title, com-mencement and extent. (2) It shall come into force on the first day of July 1912; and

- (3) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.
 - 2. In this Act, unless there is anything repugnant in the subject Definitions. or context.
 - (1) "child" means a person who is under the age of fourteen years : " Child."
 - (2) a person who works in a factory, whether for wages or not,-" Employed."
 - (a) in a manufacturing process or handicraft,
 - (b) in cleaning any part of the factory used for any manufacturing process or handicraft, or
 - (c) in cleaning or oiling any part of the machinery, or
 - d) in any other kind of work whatsoever, incidental to, or connected with, the manufacturing process or handicraft, or connected with the article made or otherwise the subject of the manufacturing process or handicraft therein,

shall be deemed to be employed therein:

Explanation.—The term "manufacturing process" shall be deemed to include the baling of any material for transport:

- (3) "factory" means any premises wherein, or within the precincts of which, steam, water or other mechanical power or electrical power is used in aid of any process for, or incidental to, making, altering, repairing, ornamenting, finishing or otherwise adapting for use, for transport or for sale any article or part of an article:
 - (4) "inspector" includes an additional "Inspector." inspector:
- (5) " mill-gearing " includes every whether upright, oblique or " Mill-gearing." , horizontal, and every wheel, drum, pulley, rope, chain, wire, driving strap or band by which the motion of the first moving power is communicated to any machine appertaining to any manufacturing process:
 - (6) "occupier" includes a managing agent or other person authorised to "Occupier."
 - represent the occupier:

 (7) "prescribed" means
 prescribed by this Act or by " Prescribed." rules made thereunder:

(8) "system of shifts" means a system of "System of shifts." relays in which the time of the beginning and ending of the period or periods of the employment of each person is fixed for each relay:

(9) "textile factory" means a factory where-

in is carried on any process "Textile factory." In is carried on any process for, or incidental to, making, altering, repairing, ornamenting, fluishing or otherwise adapting for use, for transport or for sale cotton, wool, hair, silk, flax, hemp, jute, tow, this compares part fibre or other like mater. "Textile factory."

china-grass, cocoa-nut fibre or other like material, either separately or mixed together or mixed with any other material, or any fabric made thereof:

Provided that the term "textile factory" shall not be deemed to include the following factories, namely :- cloth-printing works, bleaching and dyeing works, lace warehouses, paper mills, flax scutch mills, silk filatures, factories for ginning cotton, decorticating fibre, pressing cotton, jute or other fibre, rope works and hat works.

Application of Act.

3. (1) Nothing in the

Application of Act. following chapters shall apply to-

(a) any mine subject to the operation of the Indian Mines Act, 1901, or

(b) any electrical generating or transforming station, or

any indigo factory, or

(d) any factory situated on and used solely for the purposes of a tea or coffee plantation, or

(e) any factory wherein on no day in the year are more than forty-nine persons simultaneously employed:

Provided that the Local Government may, subject to the control of the Governor General in Council, by notification in the local official Gazette, apply to any factory or class of factories, wherein any specified number of persons, not being less than twenty, are on any day simultaneously employed, all or any of the provisions of this Act which would, save for clause (e) of this sub-

section, have applied.
(2) The provisions of Chapters IV and V and sections 35 and 36 shall not, unless the Local Government by order in writing otherwise directs, apply to any person employed solely in any place within the precincts of a factory, not being a cotton reeling-room or winding-room, in which place no steam, water or other mechanical power or electrical power is used in aid of the manufacturing process carried on in such factory, or in which such power is used solely for the purpose of moving or working any appliances in connection with the bringing or taking of any goods into or out of the factory.

CHAPTER II.

INSPECTORS AND CERTIFYING SURGEONS.

4. (1) The Local Government may, by notification in the local official Gazette, appoint such Inspectors. Gazette, appoint such persons as it thinks fit to be inspectors of factories within such local limits as it may assign to them respectively.

(2) No person shall be appointed to be an inspector under sub-section (1), or, having been so appointed, shall continue to hold the office of

(Chapter II.-Inspectors and Certifying Surgeons. Chapter III.-Health and Safety.)

inspector, who is or becomes directly or indirectly interested in a factory or in any process or business carried on therein or in any patent or machinery connected therewith.

(3) The District Magistrate shall be an in-

spector under this Act.

(4) The Local Government may also, by notifi-cation as aforesaid, and subject to the control of the Governor General in Council, appoint such public officers as it thinks fit to be additional inspectors for all or any of the purposes of this Act within such local limits as it may assign to them respectively.

(5) In any area where there are more inspectors than one, the Local Government may, by notifica-tion as aforesaid, declare the powers which such inspectors shall respectively exercise, and the inspector to whom the prescribed notices are to

be sent.

(6) Every inspector shall be deemed to be a public servant within the meaning of the Indian Penal Code and shall be officially subordinate to XLV of such authority as the Local Government may indicate in this behalf.

5. Subject to any rules in this behalf, an in-Powers of inspector. spector may, within the local limits for which he is ap-

pointed,-

(a) enter, with such assistants (if any) as he thinks fit, any place which is, or which he has reason to believe to be, used as

a factory;

(b) make such examination of the premises and machinery and of any prescribed registers, and take on the spot or otherwise such evidence of any persons as he may deem necessary for carrying out the purposes of this Act; and

(c) exercise such other powers as may be necessary for carrying out the purposes

of this Act: Provided that no one shall be required under this section to answer any question or give any evidence tending to criminate himself.

6. The Local Government may appoint such

Certifying surgeons. qualified medical practi-tioners as it thinks fit to be certifying surgeons for the purposes of this Act within such local limits as it may assign to them respectively.

- 7. (1) A certifying surgeon shall, at the request Grant of certificate. of any person desirous of being employed in a factory situated within the local limits for which he is appointed, or of the parent or guardian of such person, or of the manager of the factory in which such person desires to be employed, examine such person and grant him a certificate in the prescribed form, stating his age, as nearly as it can be ascertained from such examination, and whether he is fit for employment in a factory.
- (2) Where a certifying surgeon refuses to certify that a person is fit for employment in a factory, he shall, if required by such person, or his parent or guardian, or the manager of the factory in which such person desires to be employed state in writing his reasons for such ployed, state in writing his reasons for such refusal.

8. A certifying surgeon may authorize any Delegation of certifying surgeon's functions.

Delegation of certifyperson practising medicine or
surgery to exercise the funcsurgery to exercise the func-tions assigned to him by section 7, and may revoke such authority:

Provided that no certificate granted under this section shall, unless confirmed, on personal examination of the person named therein, by the certifying surgeon who conferred the authority, be valid after the first date subsequent to the grant thereof on which such certifying surgeon visits the factory in which the person named therein is employed.

CHAPTER III.

HEALTH AND SAPETY.

- 9. The following provisions shall apply to Sanitary provisions.
 - (a) it shall be kept clean, and free from effluvia arising from any drain, privy or other nuisance;
 - (b) it shall not be so overcrowded while work is carried on therein as to be dangerous or injurious to the health of the persons employed therein;
 - (c) it shall be ventilated in such a manner as to render harmless, as far as practicable, any gases, vapours, dust or other impurities generated in the course of the work carried on therein that may be injurious to health.
- 10. If in a factory, in which any process is Provision as to yen-carried on by which dust tilation by fans in cer- or other impurity is thin factories. generated and inhaled by the workers to an injurious extent, it appears to the inspector that such inhalation could be to a great extent prevented by the use of a fan or other mechanical means, the inspector may serve on the manager of the factory an order in writing, directing that a fan or other mechanical means of a proper construction for preventing such inhalation be provided, maintained and used before a specified date.

11. (1) Every factor shall be sufficiently lighted. factory

- (2) In the case of any factory which is not in the opinion of the inspector so lighted, the inspector may serve on the manager of the factory an order in writing, specifying the measures which he considers necessary for the attainment of a sufficient standard of lighting, and requiring him to carry them out before a specified date.
- 12. (1) In any factory in which humidity of the Purity of water used atmosphere is produced by artificial means, the water for humidifying. used for the purpose of producing humidity shall be taken either from a public supply of drinking water or from some other source of water ordinarily used for drinking, or shall be effectively purified before being used for the purpose of producing humidity.

(Chapter III .- Health and Safety. Chapter IV .- Hours of Employment and Holidays.)

(2) In the case of any factory in which any water required under sub-section (1) to be effectively purified is not in the opinion of the inspector so purified, the inspector may serve on the manager of the factory an order in writing specifying the measures which he considers necessary for effectively purifying the water and requiring him to carry them out before a specified date.

13. Every factory shall be provided with Provision of latrines sufficient and suitable latrine and urinal accommodaaccommodation, and, if the Local Government quires, with separate urinal accommodation for the

persons employed in the factory :

Provided that the inspector may, subject to such conditions as the Local Government may lay down in this behalf, by an order in writing exempt any factory from the provisions of this section.

14. In every factory there shall be maintained

sufficient and suitable Water-supply. supply of water fit for drinking for the use of the persons employed in the factory.

15. In every factory, the construction of which

is commenced after Doors of factory to commencement of this Act, open outwards. the doors of each room in which more than thirty persons are employed shall, except in the case of sliding doors, be constructed so as to open outwards.

16. (1) Every factory shall be provided with such means of escape in Provision of means of escape in case of fire. reasonably be required in the circumstances of each case.

(2) In the case of any factory which is not in the opinion of the inspector so provided, inspector may serve on the manager of the factory an order in writing, specifying the measures which he considers necessary for providing such means of escape, and requiring him to carry them out before a specified date.

17. No person shall smoke, or use a naked light or cause or permit any such Precautions against light to be used, in the immediate vicinity of any

inflammable material in any factory.

18. (1) (a) Every fly-wheel directly connected with a steam-engine, water-wheel or other mechanical Fencing. power or electrical power in any part of the factory and every part of any water-wheel or engine worked by any such power,

(b) every hoist or teagle and every hoist-well, trap-door or other similar opening near which any person is liable to pass or be employed, and

(c) every part of the machinery which the Local Government may by rule require to be kept fenced.

shall be securely fenced.

(2) If in any factory there is any other part of the machinery or mill-gearing which may in the opinion of the inspector be dangerous if left unfenced, the inspector may serve on the manager of the factory an order in writing, speci-fying the measures which he considers necessary for fencing such part in order to remove the danger, and requiring him to carry them out before a specified date.

(3) All fencing must be constantly maintained in an efficient state while the parts required to be fenced are in motion or use, except where they are under repair or are under examination in connection with repair or are necessarily exposed for the purpose of cleaning or lubricating or for altering the gearing or arrangements of the parts of the machinery.

(4) Such provisions as may be prescribed shall be made for the protection from danger of persons employed in attending to the machinery or boilers

of any factory.

19. No woman or child shall be allowed clean any part of the mill-Prohibition of emgearing or machinery of a factory while the same is ployment of women and children in certain in motion by the action of dangerous work. steam, water or other mecha-

nical power or electrical power, as the case may be, or to work between the fixed and traversing parts of any self-acting machine while such machine is in motion by the action of any power above described.

- (3) Nothing in sub-section (1) shall apply to any mechanical power or electrical power required in connection with any work specified in sub-section (1) of section 30 or in connection with any work which is exempted by the Local Government under sub-section (2) of the same section.
- 32. No child shall be employed in any textile factory for more than six hours in any one day.

CHAPTER VI.

NOTICES AND REGISTERS.

Person occupying factory to give notice. 33. (1) Every occupying a factory shall,-

- (a) in the case of existing factories, within one month after the commencement of this Act, or
- (b) in the case of a factory which starts work after the commencement of this Act, within one month after he begins
- to occupy the factory, send to the inspector a written notice containing (i) the name of the factory and of the place where it is situate,

- (ii) the address to which he desires his letters to be directed,
- (iii) the nature of the work performed in such factory,
- (iv) the nature and amount of the moving power therein, and
- the name of the person who shall be deemed to be the manager of the factory for the purposes of this Act:

Provided that in the case of a seasonal factory such notice shall be sent on or before the date of starting work for each season.

- (2) If the manager of the factory is changed, the occupier shall send to the inspector, within seven days from the date on which the change is made, written notice of the change.
- (3) During any period for which no person has been designated as manager of a factory under this section, the occupier shall himself be deemed to be the manager of the factory for the purposes
- 34. When any accident occurs in a factory Notice to be given of causing death or bodily injury, whereby the person injured is prevented from returning to his work in the factory during the forty-eight hours next after the occurrence of the accident, the manager shall send notice of the accident to such authorities in such form and within such time as may be prescribed.
- 35. In every factory there shall be kept, in the prescribed form, a Register of children. register of the children (if any) employed in such factory, and of the nature of their respective employment.
- 36. (1) There shall be affixed in some con-Affixing of abstract spicuous place near the factory, in English and in the language of the majority of the operatives in such factory, the prescribed abstracts of this Act and of the rules made thereunder, and also a notice containing the standing orders of the factory upon the following matters, namely:-
 - (a) the time of beginning and ending work. on each day;
 - (b) the periods during which all work is discontinued under section 21;
 - (c) the hours of beginning and ending work for each shift (if any); and
 - (d) the hours of employment of women and children respectively, if not employed in shifts.
- (2) A copy of the said notice shall be sent to the inspector within one month of the commence-ment of this Act, or, in the case of a factory which starts work after the commencement of this Act, within one month of commencing work.
- (3) The said notice shall be correctly maintained and kept up to date, and intimation of any change therein shall be sent by the manager to he inspector within seven days.
- (4) Nothing in this section, except in so far as it relates to affixing the prescribed abstracts of this Act and the rules made thereunder, shall apply to any seasonal factory.

(Chapter VII.—Rules. Chapter VIII.—Penalties and Procedure.)

CHAPTER VII.

RULES.

37. (1) Subject to the control of the Governor Power to make rules. General in Council, the Local Government may make rules for the purpose of carrying into effect the provisions of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, such rules may provide for-

(a) the inspection of factories;

(b) the manner in which inspectors are to exercise the powers conferred on them by this Act;

(c) the duties to be performed by certifying surgeons :

(d) the form of the certificate prescribed by section 7, the grant of a duplicate in the event of loss of the original certificate, and the fee, if any, to be charged for such duplicate;

(e) the methods, including lime-washing, painting, varnishing and washing, to be adopted in order to secure cleanliness

and freedom from effluvia;

(f) the proportion which the number of cubic feet of space in any room shall bear to the number of persons employed at one time therein;

(g) standards of ventilation, and the methods to be adopted in order to secure their

observance;

(h) standards of latrine and urinal accommodation;

(i) standards of water-supply;

- (j) the parts of the machinery to be kept fenced in accordance with section 18, sub-section (1), clause (c), and the provisions to be made for the protection from danger of persons employed in attending to the machinery or boilers;
- (k) the form of the notice prescribed by section 34, and the time within which and the authorities to whom it shall be sent;
- (1) the form of the register prescribed by section 35;
- (m) the abstracts of the Act and of the rules required by section 36;
- (n) the procedure to be followed in presenting and hearing appeals under this Act, including the appointment and remuneration of assessors; and
- (o) the manner of service of notices and orders upon occupiers or managers of factories.
- 38. The Governor General in Council may from time to time make requiring rules occupiers or managers of factories to furnish such returns, occasional or periodical, as may in his opinion be necessary for the effectual carrying out of this Act.

39. (1) The power to make rules conferred by Prior publication of section 37, except clauses (k), (l) and (m) of subsection (2) thereof, and by

section 38 is subject to the condition of the rules being made after previous publication.

(2) The date to be specified in accordance with clause (3) of section 23 of the General Clauses Act, 1897, as that after which a draft of rules X of 189 proposed to be made under sections 37 and 38 will be taken into consideration, shall not be less than three months from the date on which the draft of the proposed rules was published for general information.

40. Rules made under this Chapter shall be published in the local offi-Commencement of cial Gazette or the Gazette of India, as the case may be, and shall thereupon have effect as if enacted in this Act.

CHAPTER VIII.

PENALTIES AND PROCEDUKE.

41. If in any factory-

(a) any person is employed or allowed to work contrary to any of the provisions of this Act;

(b) any of the provisions of section 9 are not complied with;

(c) latrine or urinal accommodation in accord-

ance with the provisions of section 13 is not provided;
(d) a supply of water for the persons employed

is not maintained in accordance with the provisions of section 14;

(e) any door is constructed in contravention of

section 15;

(f) any of the provisions of section 18, sub-sections (1), (3) and (4), regarding fencing and the protection from danger of persons employed in attending to the machinery or boilers are not complied with;

(h) the register prescribed by section 35 is not kept up to date ;

(i) any of the provisions of section 36 are not complied with;

(i) any notice or return required by this Act or by rules made thereunder to be furnished is not furnished;

the occupier and manager shall be jointly and severally liable to a fine which may extend to two hundred rupees:

Provided that in cases where an appeal is allowed by section 50 no prosecution under clause (g) of this section shall be instituted until either the time prescribed by section 50 for the presentation of an appeal has expired or such appeal, if made, has been determined.

42. (1) Where the occupier or manager of Exemption of occupier or manager from a factory is charged with an offence against this Act, he shall be entitled upon complaint duly made by him

to have any other person whom he charges as the actual offender brought before the Court at the time appointed for hearing the charge; and if, after the commission of the offence has been

(Chapter VIII.—Penalties and Procedure. Chapter IX.—Supplemental Provisions.)

proved, the occupier or manager of the factory proves to the satisfaction of the Court—

- (a) that he has used due diligence to enforce the execution of this Act, and
- (b) that the said other person committed the offence in question without his know-ledge, consent or connivance,

that other person shall be convicted of the offence and shall be liable to the like fine as if he were the occupier or manager, and the occupier or manager shall be discharged from any liability under this Act.

- (2) When it is made to appear to the satisfaction of the inspector at any time prior to the institution of the proceedings—
 - (a) that the occupier or manager of the factory has used all due diligence to enforce the execution of this Act, and
 - (b) by what person the offence has been committed, and
 - (c) that it has been committed without the knowledge, consent or connivance of the occupier or manager, and in contravention of his orders,

the inspector shall proceed against the person whom he believes to be the actual offender without first proceeding against the occupier or manager of the factory, and such person shall be liable to the like fine as if he were the occupier or manager.

43. Any person who -

Penalties for certain offences.

- (a) wilfully obstructs an inspector in the exercise of any power under section 5, or fails to produce, on demand by an inspector, any registers or other documents kept in pursuance of this Act or the rules made thereunder, or conceals or prevents or attempts to prevent any person employed in a factory from appearing before or being examined by an inspector;
- (b) smokes, or uses a naked light, or causes or permits any such light to be used, in the immediate vicinity of any inflammable material in contravention of section 17; or
- (c) does or omits to do any other act prehibited or prescribed by this Act or any order or rule made thereunder;

shall be punishable with fine which may extend to two hundred rupees.

- 44. Any person who knowingly uses or attempts to use, as a certificate grant-Using false certificate. ed to himself under section 7 or section 8, a certificate granted to another person under either of those sections, or who, having procured such a certificate, knowingly allows it to be used, or an attempt to use it to be made, by another person, shall be punishable with fine which may extend to twenty rupees.
- 45. A person shall not be liable in respect
 Limit to penalty in of a repetition of the same
 case of repetition of kind of offence from day to
 offence.

 day to any larger amount

of fines than the highest fine fixed by this Act for the offence, except—

- (a) where the repetition of the offence occurs after a prosecution has been instituted in respect of the original offence, or
- (b) where the offence is one of employing or allowing to be employed two or more persons contrary to the provisions of this Act.
- 46. If a child over the age of six years is

 Presumption as to found inside any room or part of a factory in which room or part children are employed and in which any manufacturing process or work incidental to any manufacturing process is being carried on, he shall, until the contrary is proved, be deemed to be employed in the factory.
- 47. (1) When an act or omission would, if a Evidence as to age.

 Evidence as to age.

 person were under or over a certain age, be an offence punishable under this Act, and such person is in the opinion of the Court apparently under or over such age, it shall be on the accused to prove that such person is not under or over such age.

(2) A declaration in writing by a certifying surgeon that he has personally examined a person employed in a factory and believes him to be under or over the age set forth in such declaration shall, for the purposes of this Act, be admissible as evidence of the age of that person.

48. (1) No prosecution under this Act, except a prosecution under section of 43, clause (b), shall be instituted except by or with the previous sanction of the inspector.

(2) No Court inferior to that of a Presidency Magistrate or of a Magistrate of the first class shall try any offence against this Act or any rule or order thereunder, other than an offence against section 43, clause (b).

49. No Court shall take cognizance of any offence against this Act or any rule or order thereunder, unless complaint thereof is made within six months of the date on which the offence is alleged to have been committed.

CHAPTER IX.

SUPPLEMENTAL PROVISIONS.

- 50. (1) Any person on whom an order under section 10, section 11, section 12, section 18 has been served may, within fourteen days from the date of service of the order, appeal against such order to the Local Government or to such authority as it may appoint in this behalf, who may confirm, modify or reverse any such order.
- (2) Where an inspector refuses to approve a system of shifts, he shall, if required by the manager of the factory, record his order of refusal with the reasons therefor, and the manager of the factory may, within fourteen days from the date of such order, appeal against it to the Local Government or to such authority as it may appoint in this behalf, who may confirm, modify or reverse any such order.

The Indian Factories Act, 1911. (Chapter IX.—Supplemental Provisions.)

(3) In the case of any appeal under subsection (1) the appellate authority may, and if so requested by the appellant in the petition of appeal shall, hear the appeal with the aid of two assessors, one of whom shall be appointed by the said authority and the other by such body representing the interest of the industry concerned as the Local Government may in this behalf prescribe:

Provided that if no assessor is appointed by such body within the prescribed period, or if the assessor so appointed fails to attend at the time and place fixed for the hearing of the appeal, the said authority may proceed to hear the appeal without the aid of such assessor, or, if it thinks fit, without the aid of any assessor.

- 51. (1) In respect of any area in which the hours

 Special provision of the day are not ordinariregarding computation by reckoned according to local mean time, the times and hours referred to in section 2, sub-section (8), section 26 and section 36 shall be reckoned according to the standard of time ordinarily observed in such area.
- (2) The Local Government may, by notification in the local official Gazette, direct that, for any specified area and during any specified months, for the morning and evening hours mentioned in section 23, clause (b), section 24, clause (a), and section 29, such one of the following sets of morning and evening hours, as it deems suitable, reckoned according to the standard of time ordinarily observed in such area, shall be substituted, namely:

five o'clock in the morning and half past six o'clock in the evening;

six o'clock in the morning and half past seven o'clock in the evening;

half past six o'clock in the morning and eight o'clock in the evening;

seven o'clock in the morning and half past eight o'clock in the evening.

52. In computing the hours referred to in Section 23, clause (c), section 24, clause (b), section 28 and Section 32, any interval by

which work is interrupted for half an hour or more shall be excluded.

Power to declare parts of a factory to be separate factories.

factory or class of factories, direct, with respect to any factory shall for all or any of the purposes of this

Act be treated as if they were separate factories.

54. This Act shall apply to factories belonging Application to Crown to the Crown.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Calcutta, the 24th February 1911.

No. 5.—The Governor General has been pleased, under rule 23 of the Rules for the conduct of the Legislative Business of the Council of the Governor General, to order the publication in the Gazette of India in English of the following Bill, together with the Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly hereby published for general information.

BILL, NO. 1 OF 1911.

A Bill to amend the Indian Paper Currency Act, 1910.

WHEREAS it is expedient to amend the Indian II of 1910. Paper Currency Act, 1910; It is hereby enacted as follows :-

> 1. This Act may be called the Indian Paper Currency (Amendment) Act,

2. In section 22 of the Indian Paper Currency Amendment of section 22, Act II, 1910. "twenty millions", each time they occur, the words "forty millions" shall be substituted. be substituted.

STATEMENT OF OBJECTS AND REASONS.

THE portion of the Currency Reserve which may be invested was fixed at 12 crores of rupees in 1905. Since then the increase in the circulation of our Currency Notes has been so large and apparently so permanent that a further cautious addition to the invested part of the Reserve seems safe and advisable. The Bill takes power to raise the figure of 12 crores to 14 crores and permits of the additional investment being made in sterling securities if desired.

GUY FLEETWOOD WILSON.

The 23rd February 1911.

J. M. MACPHERSON, Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NO. 3 OF 1911.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st March 1911:—

A Bill further to amend the Births, Deaths and Marriages Registration Act, 1886.

WHEREAS it is expedient further to amend the VI of 1886. Births, Deaths and Marriages Registration Act, 1886; It is hereby enacted as follows:—

1. This Act may be called the Births, Deaths and Marriages Registration (Amendment) Act, 1911.

2. In section 22 of the Births, Deaths
Amendment of sec. and Marriages Registration
VI of 1886. tion 22 of Act VI of Act, 1886, the following
amendments shall be made,
namely:—

(1) To sub-section (1) of the said section the following proviso shall be added, namely:—-

- "Provided that it shall not be necessary for the person giving notice to attend before the Registrar or to sign the entry in the register if he has given such notice in writing and has furnished to the satisfaction of the Registrar such evidence of his identity as may be required by any rules made by the Local Government in this behalf."
- (2) In sub-section (2) of the said section, after the word "signed" the words " or the conditions specified in the proviso to sub-section (1) have been complied with" shall be inserted.
- 3. In section 26 and in section 28 of the said

 Amendment of sections 26 and 28.

 Act, for the words "Governor General in Council" the words "Local Government" shall be substituted.
- 4. For section 36 of the said Act the following section shall be substituted, namely:—
 - "36. (1) The Local Government may make rules to carry out the purposes of this Act.
- (2) In particular and without prejudice to the generality of the foregoing power, such rules may—

- (a) fix the fees payable under this Act;
- (b) prescribe the forms required for the purposes of this Act;
- (c) prescribe the time within which, and the mode in which, persons authorized under this Act to give notice of a birth or death to a Registrar of Births and Deaths must give the notice;
- (d) prescribe the evidence of identity to be furnished to a Registrar of Births and Deaths by persons giving notice of a birth or death in cases where personal attendance before such Registrar is dispensed with:
- dispensed with;

 (e) prescribe the registers to be kept and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this Act, and the intervals at which they are to send to the Registrar General of Births, Deaths and Marriages true copies of the entries of births and deaths in the registers kept by them;
- (f) prescribe the conditions and circumstances on and in which Registrars of Births and Deaths may correct entries of births and deaths in registers kept by them;
- (g) prescribe the particulars which the descriptive list or lists to be prepared by the Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the registers or records, or portions of registers or records, to which they relate; and
- (h) prescribe the custody in which those registers or records are to be kept.
- (3) Every power to make rules conferred by this Act is subject to the condition of the rules being made after previous publication.
- (4) All rules made under this Act shall be published in the local official Gazette, and on such publication shall have effect as if enacted in this Act.
 - 5. Section 37 of the said Act is hereby repealed.
- 6. All rules heretofore made under the said
 Act by the Governor General
 Continuation of rules in Council shall, after the
 heretofore made by commencement of this Act,
 Governor General in be deemed to have been made
 by the Local Government.

VI A 2

STATEMENT OF OBJECTS AND REASONS.

It has been represented to the Government of India that the provisions of the Births Deaths and Marriages Registration Act, 1886 (VI of 1886), are not as freely resorted to as would otherwise be the case owing to the fact that the personal attendance before the Registrar of a person giving notice of a birth or death is required by section 22 of that Act. It is proposed therefore to amend section 22 so as to allow notice of a birth or death to be given in writing, subject to precautions to secure the identification of the person giving the notice.

2. The Government of India consider that such precautions should be left to rules to be framed by Local Governments, and opportunity has also been taken in making this amendment to delegate to Local Governments the general rule-making power under the Act.

S. H. BUTLER.

The 22nd February, 1911.

J. M. MACPHERSON, Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st March 1911:-

No. 5 OF 1911.

A Bill to amend the Law relating to Co-operative Societies.

WHEREAS it is expedient to amend the law relating to Co-operative Societies; It is hereby enacted as follows :-

Preliminary.

Act X of

16. 8. 5.7

- 1. (1) This Act may be called the Co-operative Short title and Societies Act, 19; and and extent.
- (2) It extends to the whole of British India.
- 2. In this Act, unless there is anything repugnant in the subject or con-Definitions. text,-
 - (a) "by-law" means a by-law made by a registered society in the exercise of any power conferred by or under this Act
 - (b) "committee" means the governing body of a registered society to whom the management of its affairs is en-
 - trusted:

 (c) "member" includes a person joining in the application for the registration of a society and a person admitted to membership after registration in accordance with the by-laws and any rules made under this Act:
 (d) "officer" includes a chairman, secretary,
 - treasurer, member of committee, or other person empowered under the rules applying to any registered society or the by-laws thereof to give directions in regard to the business of the society:

(e) "registered society" means a society registered or deemed to be registered

under this Act: and
(f) "Registrar" means a person appointed to perform the duties of a Registrar of Co-operative Societies under this Act.

Registration.

3. The Local Government may appoint a person to be Registrar of Co-operative Societies for the Province or any portion of it, and may appoint persons to assist such Registrar, and may by general or special order confer on any may, by general or special order, confer on any such persons all or any of the powers of a Registrar under this Act.

4. Subject to the provisions hereinafter con-Societies which may tained, a society which has as its object the encourage-· ment and development of the economic interests of its members by means of operations in common, may be registered under this Act with or without limited liability: Provided that-

- (1) the liability of a society of which the object is the creation of funds to be lent to members, and of which the majority of the members are agriculturists, shall be unlimited, unless the Local Government by special order otherwise directs;
- (2) where the liability of the members of a society is limited by shares, no member other than a registered society, shall-
 - (a) hold more than such portion of the share capital of the society, subject to a maximum of one-fifth, as may be prescribed by any rules made under this Act; or
 - (b) have or claim any interest in the shares of the society exceeding one thousand rupees.
- 5. (1) No society, other than a society all the Act X of members of which are 1904, s. 3.] Conditions of registration.

 Conditions of registration.

 members of which are registered societies, shall be registered under this Act which does not consist of at least ten persons above the age of eighteen years and, in a case where the object of the society is the creation of funds to be lent out to the members of the society, unless such persons
 - (a) reside in the same town or village or in the same group of villages; or,
 - (b) save where the Registrar otherwise directs, are members of the same tribe, class, caste or occupation.
- (2) When any question arises whether for [Ib. s. 3 the purposes of this Act a person is an agriculturist or a non-agriculturist, or whether any person is a resident in a town or village or group of villages, or whether two or more villages shall be considered to form a group, or whether any person belongs to any particular tribe, class, caste or occupation, the question shall be decided by the Registrar, whose decision shall be final.
- (3) The word "limited" shall be the last word in the name of every society with limited liability registered under this Act.

6. For purposes of registration an application Application for registration. to register signed-

- (a) in the case of a society governed by section 5, sub-section (I), by ten or more persons qualified in accordance with the requirements of that subsection, or
- (b) in the case of a society all the members of which are registered societies, by a duly authorized person on behalf of each of such registered societies,

shall be made to the Registrar, and the persons by whom or on whose behalf such application is made shall furnish such information in regard to the society as the Registrar may require.

7. If the Registrar is satisfied that a society has [Ib. complied with the provisions of this Act and with the rules made thereunder as to registration, he may, if he thinks fit, register the society.

8. A certificate of registration signed by the Evidence of registration. Registrar shall be conclusive evidence that the society therein mentioned is duly registered unless it is proved that the registration of the society has been cancelled.

Rights and liabilities of members.

[Act X of 1904, proviso to s. 4.]

9. No member of a registered society shall

Member not to exercise rights till due payment made.

exercise the rights of a member unless or until he has made such payment to the society in respect of membership, or acquired such interest in the society, as may be prescribed by the rules made under this Act or the by-laws of the society.

[Act X of 1904, s. 13.]

- 10. (1) Where the liability of the members of Votes of members.

 a registered society is not limited by shares, each member shall, notwithstanding the amount of his interest in the capital, have one vote only as a member in the affairs of the society.
- (2) Where the liability of the members of a registered society is limited by shares, each member shall have as many votes as may be prescribed by the by-laws of the society.
- (3) A registered society which has invested any part of its capital in the shares or on the security of any other registered society may appoint as its proxy, for the purpose of voting in the affairs of such other registered society, any one of its members.
- Restrictions on transfer of share or interest.

 Restrictions on transfer of share or interest.

 Restrictions on transfer of share or in the capital of a registered society or any part thereof, unless he has held such share or interest for not less than one year.
 - (2) The transfer or charge of the share or interest of a member in the capital of a registered society shall be subject to such conditions as to maximum holding as may be prescribed by or under this Act or by the by-laws of the society.
 - (3) No such transfer or charge shall be made save to the society or to a member of the society.

Duties of registered societies.

[16., s. 6 (3).]

12. Every registered society shall have an address, registered in accordance, with the rules made under this Act, to which all notices and communications may be sent, and shall send to the Registrar notice of every change thereof.

Copy of rules and bylaws to be open to inspection.

13. Every registered society shall keep a copy
of the rules relating to such
society, and of the by-laws
spection.

thereof for the time being
in force, open to inspection at all reasonable times
free of charge at the registered address of the
society.

[1 b., s. 21.] 14. (1) Every registered society shall once at least in every year submit its accounts for audit to the Registrar or some person authorized by him in this behalf.

(2) The audit under sub-section (1) shall include an examination of overdue debts, if any, and a valuation of the assets and liabilities of the society; and, if the person auditing is not the Registrar, the audit shall be passed by the Registrar.

and, if the person auditing is not the Registrar, the audit shall be passed by the Registrar.

(3) The Registrar, the Collector or any person authorized in this behalf by the Registrar or the Collector, shall at all times have access to all the books, accounts, papers and securities of a society, and every officer of the society shall furnish such information in regard to the transactions and working of the society as the person making such inspection may require.

Privileges of registered societies.

15. The registration of a society shall render [Act X of it a body corporate by the 1904, s. 6(2)] Societies to be bodies name under which it is registered, with perpetual succession and a common seal, and with power to hold property, to enter into contracts, to institute and defend civil suits and to do all things necessary for the purposes of its constitution.

Prior claim of society ment in respect of land-revenue or any money recoverable as land-revenue or implements and raw of a landlord in respect of material.

able as rent, a registered society shall be entitled in priority to other creditors to enforce any outstanding demand due to the society from a member or from a person who has ceased to be a member—

(a) in respect of the supply of seed or manure or of the loan of money for the purchase of seed or manure—upon the crops or other agricultural produce of such member or person at any time within eighteen months from the date

of such supply or loan;
(b) in respect of the supply of cattle, agricultural or industrial implements or raw materials for manufacture, or of the loan of money for the purchase of any of the foregoing things—upon any such things so supplied, or purchased in whole or in part from any such loan, or on any articles manufactured from raw materials so supplied or purchased.

Charge and set-off in upon the shares or interest in the capital and on the deposits of a member or past member and upon any dividend, bonus or profits payable to a member or past member or past member to the society, and may set-off any sum credited or payable to a member or past member in or towards payment of any such debt.

18. Subject to the provisions of section 17, the [1b., s. 15.]

Shares or interest share or interest of a member in the capital of a registered society shall not be liable

to attachment or sale under any decree or order of a Court of Justice in respect of any debt or liability incurred by such member, and neither the Official Assignee under the Presidency-towns the Official Assignee under the Presidency-towns Insolvency Act, 1909, nor a Receiver appointed under the Provincial Insolvency Act, 1907, shall be entitled to or have any claim on such share or interest.

[Act X of 1904, s. 16.]

Transfer of interest on death of member. Society may pay to or transfer to the credit of the person nominated, in accordance with the rules made in this behalf, or, if there is no person so nominated, of such person as may appear to the Committee to be entitled to receive the same as heir or legal representative of the deceased member, a sum representing the value of such member's share or interest, as ascertained in accordance with the rules or by-laws and all moneys due to him from the society, and the society shall thereupon be absolved from all liability in respect of such share or interest or other moneys as aforesaid.

[1b., s. 17.]

20. The liability of a past member for the debts of a registered society as they existed at the time when he ceased to be a member shall continue for a period of one year from the date of his ceasing to be a member.

[Ib., s. 18.] 21. The estate of a deceased member shall be
Liability of the liable for a period of one
estates of deceased year from the time of his
members. decease for the debts of a
registered society as they existed at the time of
his decease.

[Cf. section 84, Industrial and Provident Societies Act.]

- 22. Any register or list of members or shares kept by any registered society shall be prima facie evidence of any of the following particulars entered therein:—
 - (a) the date at which the name of any person was entered in such register or list as a member;
 - (b) the date at which any such person ceased to be a member.
- 23. A copy of any entry in a book of a regisProof of entries in tered society regularly kept in the course of business, shall, if certified in such manner as may be prescribed by rules made under this Act, be received, in any suit to recover a debt due to the society, as prima facie evidence of the existence of such entry, and shall be admitted as evidence of the matters, transactions and accounts therein recorded in every case where, and to the same extent as, the original entry itself is admissible.

Act X of 1104, s. 25.]

- Power to exempt notification in the Gazette from income-tax, stamp-duty and registration-fees.

 Council, by notification in the Gazette of India, may, in the case of any registered society or class of registered society, remit—
 - (a) the income-tax payable in respect of the profits of the society, or of the dividends

or other payments received by the members of the society on account of profits;

(b) the stamp-duty with which, under any law for the time being in force, instruments executed by or on behalf of a registered society or by an officer or member and relating to the business of such society, or any class of such instruments, are respectively chargeable;

(c) any fee payable under the law of registration for the time being in force.

Property and funds of registered societies.

25. (1) A registered society shall not make a [Act X of Restrictions on loans. loan to any person other 1904, s. 10.] than a member:

Provided that, with the sanction of the Registrar, a society may make loans to another registered society.

- (2) Save with the sanction of the Registrar, a society with unlimited liability shall not lend money on the security of moveable property.
- (3) The Local Government may, by general or special order, prohibit or restrict the lending of money on mortgage of immoveable property by any registered society or class of registered societies.

Investment of funds. 26. (1) A registered [16., a. 11.] society may invest its funds—

- (a) in the Government Savings Bank, or
- (b) in any of the securities specified in section 20 of the Indian Trusts Act, 1882, IV of 1882.
- (c) in the shares or on the security of any other registered society, or
- (d) with any banker or person acting as a banker approved for this purpose by the Registrar, or
- (e) in any other mode permitted by any rules made under this Act.
- (2) Any investments made before the commencement of this Act which would have been valid if this Act had been in force are hereby ratified and confirmed.
- 27. A registered society shall only receive [B, s. 9.]

 deposits and loans from
 persons who are not members,
 to such extent and under
 such conditions as may be provided by its by-laws
 or by rules made under this Act.
- 28. No part of the funds of a registered society [Ib., s. 3.]

 shall be divided by way of

 Funds not to be divided by way of profit, bonus or dividend or otherwise among its members:

Provided that after one-fourth of the profits in any year have been carried to a reserve fund

V B

payments from the remaining three-fourths of such profits may be made among the members to such extent and under such conditions as may be determined by the by-laws of the society or the rules made under this Act:

Provided also that in the case of a society with unlimited liability no distribution of profits of any kind shall be made without the general or special order of the Local Government in this behalf.

29. Notwithstanding anything in section 28, with the sanction of the Registrar, any registered society may, after onetable purpose. fourth of the profits in any year has been carried to a reserve fund, contribute an amount not exceeding ten per cent. of the remaining profits to any charitable purpose, as defined in section 2 VI of 1896. of the Charitable Endowments Act, 1890.

Inspection of affairs.

[Act X of 1904, s. 21 (5).]

- 30. (1) The Registrar may of his own motion, and shall on the request of the Collector, or on the application of a majority of Inquiry by Registhe committee, or of not less than one-third of the members, hold an inquiry or direct some person authorised by him to hold an inquiry into the constitution, working and financial condition of a registered society.
- (2) All officers and members of the society shall furnish such information in regard to the affairs of the society as the Registrar or the person authorized by the Registrar may require.
- 31. (1) The Registrar shall, on the application Inspection of books of indebted society.

 of a creditor of a registered society, inspect or direct him to inspect the books of the society:

Provided that-

- (a) the debt owing by the society to the applicant amounts to not less than three hundred rupees;
- (b) the applicant satisfies the Registrar that he has demanded payment of his debt;
- (c) the applicant deposits with the Registrar such sum as security for the costs of the proposed inspection as the Registrar may require.
- (2) The Registrar shall communicate the re-' sults of any such inspection to the creditor.

[1b., s. 21 (6).]

32. Where an inquiry is held under section 30, or an inspection is made under Costs of inquiry. section 31, the Registrar may apportion the costs, or such part of the costs as he may think right, between the society, the members or creditor demanding an inquiry or inspection, and the officers or former officers of the society.

33. Any sum awarded by way of costs under section 32 may be recovery of costs. covered, on application to Recovery of costs. a Magistrate having jurisdiction in the place where the person from whom the money is claim-able resides for the time being, by the distress and sale of any moveable property within the limits of the jurisdiction of such Magistrate belonging to such person.

Dissolution of society.

- 34. (1) If the Registrar, after holding an [Act X of inquiry under section 30, 1904, 8, 23 or on receipt of an application made by three-fourths of the members of a registered society, is of opinion that the society ought to be dissolved, he may cancel the registration of the society.
- (2) Any member of a society may, within two months from the date of an order made under sub-section (1), appeal from such order to the Local Government.
- (3) Where no appeal is presented within two months from the making of an order cancelling the registration of a society, the order shall take effect on the expiry of that period.
- (4) Where an appeal is presented within two months, the order shall not take effect until it is confirmed by the Local Government.
- (5) Where an order made under sub-section (1) cancelling the registration of a society takes effect, the society shall cease to exist as a corporate body.
- 35. Where it is a condition of the registration Cancellation of re- of a society that it should consist of at least ten gistration of society. members, the Registrar may, by order in writing, cancel the registration of the society if at any time it is proved to his satisfaction that the number of the members has been reduced to less than ten.
- 36. (I) Where the registration of a society is [Act X of cancelled under section 34 1904, s. 24.] of cancelled under section 34 ety. or section 35, the Registrar Cancellation registration of society. may appoint a competent person to be liquidator of the society.
- (2) A liquidator appointed under sub-section (1) shall have power to institute and defend suits on behalf of the society by his name of office, and shall also have power-
 - (a) to sue for and recover any sums of money due to the society at the date of such cancellation;
 - (b) to determine the contribution to be made by the members and past members of the society respectively to the assets of the society;
 - (c) to investigate all claims against the society and, subject to the provisions of this Act, to decide questions of priority arising between claimants;
 - (d) to determine by what persons and in what proportions the costs of the liquidation are to be borne; and
 - (e) to give such directions in regard to the collection and distribution of the assets of the society, as may appear to him to be necessary, for winding up the affairs of the society.

- (3) Subject to any rules of procedure made under this Act, a liquidator appointed under this section shall, in so far as such powers are necessary for carrying out the purposes of this section, have power to summon and enforce the attendance of witnesses and to compel the production of documents by the same means and (so far as may be) in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure, 1908?
- (4) Where an appeal from any order made by a liquidator under this section is provided for by any rules made under this Act, it shall lie to the Court of the District Judge.
- (5) Orders made under this section may be enforced as follows:—
 - (a) when made by a liquidator, by any Civil
 Court having local jurisdiction in the
 same manner as the decree of such
 Court;
 - (b) when made by the Court of the District
 Judge on appeal, in the same manner
 as a decree of such Court made in any
 suit pending therein.
- (6) Save in so far as is hereinbefore expressly provided, no Civil Court shall have any jurisdiction in respect to any matter connected with the dissolution of a registered society under this Act.

Rules.

Act X of 1904, s. 27.]

of 1908.

- 37. (1) The Local Government may, for the whole or any part of the Province and for any registered society or class of such societies, make rules to carry out the purposes of this Act.
- (2) In particular and without prejudice to the generality of the foregoing power, such rules may—
 - (a) prescribe the forms to be used in applying
 for the registration of a society and
 the procedure in the matter of such
 applications;
 - (b) prescribe the conditions to be complied with by persons applying for registration and by persons applying for admission or admitted as members, and provide for the election and admission of members, and the payment to be made and the interests to be acquired before the exercise of the right of membership;
 - (c) provide for the withdrawal and expulsion
 of members and for the payments to
 be made to members who withdraw
 or are expelled and for the liabilities
 of past members;

- (d) provide for the mode in which the value of a deceased member's interest shall be ascertained, and for the nomination of a person to whom such interest may be paid or transferred;
- (e) subject to the provisions of section 4, sub-section (2), prescribe the maximum number of shares or portion of the capital of a society which may be held by a member;
- (f) prescribe the payments to be made and the conditions to be complied with by members applying for loans, the period for which loans may be made, and the amount which may be lent, to an individual member;
- (g) prescribe the proportion to the total liabilities to be attained by the reserv und and the rate to which interest on loans to members is to be reduced, before profits may be distributed to the members of a society with unlimited liability;
- (h) regulate the manner in which capital may be raised by means of shares or debentures or otherwise;
- (i) provide for general meetings of the members and for the procedure at such meetings and the powers to be exercised by such meetings;
- (j) provide for the appointment, suspension and removal of the members of the committee and other officers, and for the procedure at meetings of the committee, and for the powers to be exercised and the duties to be performed by the committee and other officers;
- (k) prescribe the matters in respect of which a society may or shall make by-laws, and for the procedure to be followed in making, altering and abrogating by-laws, and the sanction to be required to such making, alteration or abrogation;
- (l) prescribe the accounts and books to be kept by a society and provide for the audit of such accounts and the charges, if any, to be made for such audit, and for the periodical publication of a balance-sheet showing the assets and liabilities of a society;
- (m) prescribe the returns to be submitted by a society to the Registrar and provide for the persons by whom and the form in which such returns shall be submitted;
- (*) provide for the persons by whom and the form in which copies of entries in books of societies may be certified;

VIR

- (o) provide for the formation and maintenance of a register of members and, where the liability of the members is limited by shares, of a register of shares;
- (p) provide for the rate at which interest may be paid on deposits, for the formation and maintenance of reserve funds, and the objects to which such funds may be applied, and for the investment of any funds under the control of the society;
- (q) provide that any dispute touching the business of a society between members or past members of the society or persons claiming through a member or past member or between a member or past member or persons so claiming and the committee or any officer shall be referred to the Registrar for decision, or, if he so directs, to arbitration, and prescribe the mode of appointing an arbitrator or arbitrators and the procedure to be followed in proceedings before the Registrar or such arbitrator or arbitrators, and the enforcement of the decisions of the Registrar or the awards of arbitrators;
- (r) prescribe the conditions to be complied with by a society applying for the financial assistance of Government;
- (s) determine in what cases an appeal shall lie from the orders of the Registrar and prescribe the procedure to be followed in presenting and disposing of such appeals; and
- (t) prescribe the procedure to be followed by a liquidator appointed under section 36, and the cases in which an appeal shall lie from the order of such liquidator.
- (3) The Local Government may delegate, subject to such conditions, if any, as it thinks fit, all or any of its powers to make rules under this section to any authority specified in the order of delegation.
- (4) The power to make rules conferred by this section is subject to the condition of the rules being made after previous publication.

- (5) All rules made under this section shall be published in the local official Gazette and on such publication shall have effect as if enacted in this Act.
- Miscellaneous.

 38. (1) All sums due from a registered society [Act X of Recovery of sums due to Government.

 or past member of a registered society as such to the Government, including any costs awarded to the Government under section 32, may be recovered in the same manner as arrears of land-revenue.
- (2) Sums due from a registered society to Government and recoverable under sub-section (1) may be recovered, firstly, from the property of the society; secondly, in the case of a society of which the liability of the members is limited, from the members subject to the limit of their liability; and, thirdly, in the case of other societies, from the members.

39. Notwithstanding anything contained Power to exempt in this Act, the Local societies from conditions as to registration. Order in each case and subject to such conditions, if any, as it may impose, exempt any society from any of the requirements of section 5, sub-section (1).

40. The Local Government may, by general or Power to exempt special order, exempt any registered societies from registered society from provisions of the Act. any of the provisions of this Act or may direct that such provisions shall apply to such society with such modifications as may be specified in the order.

41. The provisions of the Indian Companies [Act X of Act, 1882, shall not apply 1904, s. 28.

Act, 1882, not to apply.

VI of 1882.

Saving of existing registered under the Cooperative Credit Societies X of 1904. to be registered under this Act, and its by-laws shall, so far as the same are not inconsistent with the express provisions of this Act, continue in force until altered or rescinded.

43. The Co-operative Credit Societies Act, X of 1904. Repeal. 1904, is hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

When the Bill, which subsequently became the Act of 1904, was published, the following remarks were made in the Statement of Objects and Reasons:—"Legislation is called for not only in order to lay down the fundamental conditions which must be observed, but also with a view to giving such societies a corporate existence without resort to the elaborate provisions of the Companies Act; but it is thought that legislation should be confined within the narrowest possible limits. The Bill has, therefore, been drawn so as to deal only with those points which the Government consider to be essential, and its provisions have been expressed in simple and general terms, a wide rule-making power being reserved to Local Governments, so that what is felt to be of the nature of an experiment may be tried in each province or part of a province on such lines as seem to afford most promise of success": and these principles were followed in the Act as passed.

- 2. The adequacy of the existing Act was examined at a conference of Registrars of Cooperative Credit Societies in 1909, and it was held that the Act still remained in many ways
 unduly restricted, and that it also required certain alterations in detail which had been suggested by experts since 1904. The Conference of Registrars drew up proposals for the
 amendment of the Act, and after consulting Local Governments on these proposals the Government of India have prepared the Bill now published. The chief changes contemplated by the
 Government of India are four in number:—
 - (i) The Act of 1904 applies to Societies for the purpose of co-operative credit only and not to Co-operative Societies of other kinds, such as those established for production or distribution. It has in practice been found that the establishment of Credit Societies has led to the founding of other classes of Co-operative Societies also, and it is advisable that the privileges extended by the Act to Co-operative Credit Societies should be extended to these other Societies. It is proposed therefore that the Act as now revised should be made applicable to all classes of Co-operative Societies—vide clause 1 (1) and clause 4 of the Bill.
 - (ii) In the Act of 1904 Societies were classified according as they were "Urban" or "Rural" and the principle was laid down that as a general rule rural societies should be with unlimited liability. This basis for distinction was adopted, mainly because it represented a classification which had already been recommended and put in force in the initiation of Co-operative Credit Societies in certain parts of India, but it was at the time criticised as unsuitable by experts, and it has in practice been found artificial and inconvenient. The real distinction is between Societies with limited and those with unlimited liability, and it is proposed in the new Bill to maintain this distinction only while retaining the principle that agricultural Credit Societies must as a general rule be with unlimited liability—see clause 4 of the Bill.
 - (iii) The Act of 1904 did not contemplate that Societies with unlimited liability should distribute profits. It is still felt that such Societies do not represent the best form of co-operation for agricultural communities, but this form of Society has, in practice, been for some time in existence in several provinces, and Societies of this character, though not of the orthodox type, are recognized to be capable of useful work. Although therefore it is not intended to give them undue encouragement, it is proposed to legalize their existence and to permit an unlimited Society, with the sanction of the Local Government, to distribute profits—see clause 28 of the Bill.
 - (iv) A cardinal principle which is observed in the organization of Co-operative Societies in Europe is the grouping of such Societies into Unions and their financing by means of Central Banks. This stage of co-operation had not been fully realised or provided for in the Act of 1904, but such grouping of Societies has already been found feasible in most provinces, and it is now considered desirable to legalize the formation of Co-operative Credit Societies of which the Members shall be other Co-operative Credit Societies—vide clauses 5 (1), 6 and 10 (3) of the Bill.
- 3. In addition to carrying out the main alterations above described the present Bill contains the several changes of detail and it has been found advisable to recast the Bill in order to improve the drafting and to incorporate the changes now contemplated. The chief alterations, other than those above referred to, are the following:—

Clause 3.—It is proposed to make provision for investing in persons, other than Registrars, the power of a Registrar.

Clause 5.—It is proposed to maintain the existing restrictions as to residence or class as obligatory before registration in the case of Credit Societies and to render the existence of ten Members obligatory before registration in the case of all kinds of Co-operative Societies other than those all the members of which are themselves

- registered Societies. It is proposed further to give the Registrar the power of decision as to the residence qualification and to place persons of the same occupation on the same footing as persons of the same tribe or class.
- Clause 8.—The provision giving conclusive authority to the Registrar's certificate of registration is new.
- Clause 14.—It is proposed by this clause to give the Registrar power to conduct an audit by deputy. The previous provision that no charge should be made for audit has been omitted.
- Clause 16.—It is proposed to extend from one year to 18 months the term of lien on agricultural products and to permit a lien on articles manufactured from raw materials supplied by, or with the help of, a registered Society.
- Clauses 22 and 23 are based on provisions in the English Industrial and Provident Societies Act. Clause 22 makes the register of members prima facie evidence of the date of commencement and cessation of membership, and clause 23 provides for proof of entries in the books of a registered Society.
- Clause 26.—This clause so far as it allows registered Societies to invest in good securities and validates investments made prior to the amendment of the law now suggested is new.
- Clause 27.—It is now proposed to make it clear that a registered Society is not precluded from receiving deposits from non-members.
- Clause 29.—The provision allowing contributions to charities is new.
- Clause 30.—The existing provisions have been altered so as to allow a Registrar to conduct an enquiry by deputy.
- Clause 31.—The provision allowing a creditor to require an inspection is new. It is based on a similar provision in the Companies Act.
- Clause 35.—The provision allowing the Registrar to cancel registration when the number of members becomes less than ten is new.
- Clause 37.—Sub-clauses 2 (m) and (t) and 3 are new. The two former allow the Local Government to prescribe returns and the procedure on liquidation, and the latter permits of the delegation of the powers of the Local Government.
- Clauses 39 and 40.—The existing section 29 has been recast with a view to making clear the distinction in the power of exemption of the Local Government before and after registration.

R. W. CARLYLE.

The 26th February, 1911.

J. M. MACPHERSON, Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 1st march 1911:—

No. 6 of 1911.

A Bill to amend the Special Marriage Act, 1872.

Whereas it is expedient to amend the Special
III of 1872. Marriage Act, 1872; It is hereby enacted as
follows:—

- This Act may be called the Special Marriage Short title. (Amendment) Act, 1911.
- 2. That the words commencing with "who Amendment of pream- do not profess," and le, Act III of 1872. ending with "Jaina religion" occurring in the preamble to the Special

Marriage Act, 1872, be omitted, and in lieu thereof the following words be substituted, namely, "intend marriage under the provisions of this Act."

- 3. That in section 2 of the said Act the Amendment of sec. words commencing with tion 2, Act III of 1872. "neither of whom," and ending with "Jaina religion" be omitted, and the following words be substituted, namely, "who intend marriage under the provisions of this Act."
- 4. That in the Declarations to be made by the Amendment of Second bridegroom and the bride Schedule, Act III of in the Second Schedule to the said Act, the words in clause 2 be omitted, and in lieu thereof the following words and figures be substituted, namely:—"I intend marriage under the provisions of the Special Marriage Act, 1872, as amended by the Special Marriage (Amendment) Act, 1911."

STATEMENT OF OBJECTS AND REASONS.

The Special Marriage Act of 1872 applies to persons who do not profess any of the recognised religions of India and a declaration has to be made by the parties contracting marriage that they do not profess any such religion. This declaration, which is a negation of faith in all the religious systems of India, has been felt to be an unnecessary condition by the community for whose benefit the Act was specially intended.

The provisions of the Act, moreover, cannot be availed of by those members of the Hindu community who desire to introduce intermarriage between different sub-sections of the same caste or between members of the same caste inhabiting different provinces of India. Such intermarriages have not taken place for a very considerable time. Marriage customs observed by the same caste of Hindus in different parts of India vary sometimes considerably, and intermarriages are difficult as people naturally feel great hesitation in contracting marriages the validity of which may be open to question. Under the law as it stands at present, intermarriage between members of different castes of the Hindus is of extremely doubtful validity, if not an absolute nullity. The necessity for a simple law of marriage wholly optional and which may be supplemented by the religious rites observed by the contracting parties is greatly felt by those who do not desire to break away from Hinduism and at the same time seek to adapt their life to the growing needs of the times.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on 16th March 1911:—

No. 8 of 1911.

A Bill to make better provision for the extension of elementary education.

Whereas it is expedient to make better provision for the extension of elementary education; It is hereby enacted as follows:—

- 1. (I) This Act may be called the Elemen-Short title, commence- tary Education Act, 1911. ment and extent.
- (2) It shall come into force on [], but it shall not be operative except in the local areas to which it may be applied by a notification issued under section 3.
 - (3) It extends to the whole of British India.

 2. In this Act, unless

Definition. 2. In this Act, unless there is anything repugnant in the subject or context, —

"Parent" includes the guardian and every person who is liable to maintain or has the actual custody of any child:

- "Department of Public Instruction" means the Department in charge of public instruction under the Local Government of the province in which the Municipality or District Board concerned is situated:
 - "recognised school" means a school recognised by the Department of Public Instruction:

- "elementary education" means the courses in reading, writing and arithmetic and other subjects, if any, prescribed from time to time by the Department of Public Instruction for elementary schools:
- "District Board" includes a "District Local Board" and a "District Council":
- "Magistrate" does not include a "village Magistrate."
- Notification of compulsory education areas. From time to time, with the previous sanction of the Local Government, and subject to such rules as the Governor General in Council may make in this behalf, by notification declare that this Act shall apply to the whole or any specified part of the area within the local limits of its authority and the provisions of this Act shall apply to such area or part accordingly.

A. In every area, to which this Act applies, it [Irish Educashall be the duty of the tion Act,
shall be the duty of the 1892, sec. 1
parent of every boy, not (1).]
under six and not over ten
years of age, residing within such area, to cause
such boy to attend a recognised school for
elementary education for so many days in the
pear and for such time on each day of attendance
as may be prescribed by the Department of
Public Instruction, unless there is a reasonable
excuse for the non-attendance of the boy.

5. Any of the following circumstances is a 21rjsh Education Act, 1632, Non-attendance when reasonable excuse for non-sec. 1 (3), attendance:—

(a) that there is no recognised school within a distance of one mile, measured along the nearest road, from the residence of the boy, which the boy can attend, and to which the parent has no objection, on religious grounds, to send the boy;

(2) Unless such employer is able to satisfy the magistrate that there is no recognised school within a distance of one mile, measured along the nearest road, from the re-idence of the boy, or

that the time and nature of the boy's employment are such that he is not prevented from receiving elementary education at school, or

that the boy is receiving instruction in some other satisfactory manner, or

that the boy was employed under false re-presentations as to age, residence and other conditions, or

without his knowledge and consent by an agent or workman under him for whose prosecution he is willing to afford the necessary facilities,

he shall, on conviction, be liable to a fine not exceeding rupees twenty.

- 15. When the act of taking a boy into employ-[Irish Liability of employer's ment in contravention of cation agent. this Act is in fact com- 1892, mitted by an agent or workman of the employer, (1).] that agent or workman shall be liable to the penalty, in the same manner, and subject to the same conditions as if he were the employer.
- 16. The Local Government may exempt particu-Exemption from com- lar classes or communities pulsory education. from the operation of this . Act.
- 17. In any area in respect of which a notifi-Application of Act cation has been issued under to girls. District Board may, with the previous sanction of the Local Government and subject to such rules as the Governor-General in Council may make in this behalf, by notification declare that the foregoing provisions relating to boys, shall, from a date to be specified in the notification, apply also in the case of girls residing within such area, and the said provisions shall apply in the case of girls accordingly.
- 18 (1) The Governor-General in Council may Governor-General in make rules for carrying out the provisions of this Act.
- (2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for-
 - (a) the fixing of the percentage of boys, or of girls that should be at school in an area before a notification in respect thereof may be issued under section 3 or section 17, as the case may be; and
 - (b) the prescribing of the proportions in which the cost of providing elementary education under this Act . should be divided between Municipality or District Board and the Local Government, as the case may be.

(3) The power to make rules under this section shall be subject to the condition of the rules being made after previous publication.

19. A Municipality or District Board may, with Power to make bye-ws. the previous sanction of the Local Government, make bye-laws prescribing-

(a) the manner in which the school attendance committee should be constituted, the number of its members, their duties and their mole of transacting business.

(b) the steps which the school attendance committee may take to secure the attendance of children at school. .

.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide for the gradual introduction of the principle of compulsion into the elementary education system of the country. The experience of other countries has established beyond dispute the fact that the only effective way to ensure a wide diffusion of elementary education among the mass of the people is by a resort to compulsion in some form or other. And the time has some when a beginning at least should be made in this direction in India. The Bill is of a purely permissive character and its provisions will apply only to areas notified by Municipalities or District Boards, which will have to bear such proportion of the increased expenditure, which will be necessitated, as may be laid down by the Government of India by rule. Moreover no area can be notified without the previous sanction of the Local Government, and further it must fulfil the test which the Government of India may, by rule, lay down, as regards the percentage of children already at school within its limits. Finally the provisions are intended to apply in the first instance only to boys, though later on a Local Body may extend them to girls; and the age limits proposed are only six and ten years. It is hoped that these are sufficient safeguards against any rash or injudicious action on the part of Local Bodies. The measure is essentially a cautious one—indeed, to some, it may appear to err too much on the side of caution.

The provisions of the Bill are based largely on the Irish Education Act of 1892 and the English Education Acts of 1870 and 1876.

Clauses 1 and 2 call for no remark.

Clause 3 provides for the application of the provisions of the Bill to notified areas.

Clause 4 imposes on the parent or guardian of a boy in a notified area, between the ages of six and ten the obligation to cause him to attend a recognised elementary school in the absence of a reasonable excuse, and clause 5 lays down what circumstances may constitute a reasonable excuse.

Clause 6 prohibits the employment by employers of labour, of a boy who should be at school under the provisions of the Bill.

Clause 7 requires Municipalities and District Boards to provide sufficient school accommodation in a notified area, and clause 8 empowers them, subject to the previous sanction of the Local Governments, to levy a special education rate.

Clause 9 provides for the exemption of poor parents and guardians from the payment of school fees for their boys.

Clause 10 provides for the appointment of school attendance committees in notified areas.

Clauses 11 to 15 provide penalties and the proceedings to be taken for their enforcement in the case of parents and guardians, failing without reasonable excuse to cause their boys to attend school, as required by the Bill, and of employers and their agents or workmen, acting in contravention of the provisions of the Bill.

Clause 16 enables the Local Government to exempt particular classes or communities from the operation of the Bill.

Clause 17 provides for the extension of the provisions of the Bill to girls between the ages of six and ten.

Clauses 18 and 19 provide for the making of rules by the Government of India and of bye-laws by Local Bodies.

G. K. GOKHALE.

The 28th February 1911.

J. M. MACPHERSON, Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on 17th March 1911:-

No. 9 OF 1911.

A Bill to Define the rights of the Mussulman subjects of His Majesty to make settlements of property by way of wakf in favour of their families and descendants.

Whereas doubts have arisen regarding the validity of wakfs or settlements created by persons professing the Mussulman faith in accordance with the laws and customs as permanent benefactions for themselves, their families and descendants with an ultimate reversion in favour of the general body of the poor or for other religious, pious or charitable purposes; and whereas it is expedient to remove such doubts and define the limits within which such wakfs may validly be created; It is hereby enacted as follows :-

- 1. (1) This Act may be called the Mussulman Wakf Validating Act, Short title. 191 .
- (2) It extends to the whole of British India.

- 2. In this Act, unless there is something repugnant in the subject Definitions. or context,-
- (1) " will " means the legal declaration of the intentions of the testator which he desires to take effect after his death:

 (2) "signed" applies to the affixing of a mark:
- (3) "registered" means registered in British India under the law for the time being in force regulating the registration of documents:
- (4) " Registrar" means the officer appointed by the Local Government for the purpose of registering documents :
- (5) "minor" means any person who shall not have attained the age of majority under the Indian Majority Act, 1875:
- (6) "immoveable property" includes lands and buildings, hereditary allowances and all rights
- and benefits arising out of land : (7) "moveable property" includes stocks, shares, securities and actionable claims as defined in the Transfer of Property Act, 1882, and property of 1V of 1882.
- every description except immoveable property: (8) "wakf" means the dedication or settlement by a person professing the Mussulman faith of any property, moveable or immoveable, for any purpose regarded as religious, pious or charitable by the Mussulman law, and implies a permanent relinquishment of all proprietary right therein:
- (9) "wakif" means the person making such dedication or settlement:
- (10) "wakfnama" means the instrument by which the dedication or settlement is purported to be effected:

IX of 1875.

- (11) "mutwalli" means a person who is appointed for the administration of a wakf: and
- (12) "a Hanafi Muhammadan" means a follower of the Mussulman faith who conforms to the tenets and doctrines of the Hanafi School of Mussulman law.
- 3. Subject to the provisions of this Act, it shall be lawful for any person professing the Mussulman faith, not being a minor or of unsound mind, to create a wakf for among others the following purposes:—
 - (a) for the maintenance and support, wholly or partially, of his family, his children and descendants; and
 - (b) where the wakif is a Hanafi Mussulman, for his own support and maintenance during his lifetime or for the payment of his debts out of the rents and profits of the property dedicated:

Provided always that the ultimate reversion is, in such cases, expressly or impliedly reserved for the poor, or for some other religious, pious or charitable purpose of a permanent character.

- 4. No wakf intended to take effect in the lifetime of the wakif shall be valid unless it is constituted by a wakfnama in writing signed by the person purporting to create the wakf, and attested by two or more witnesses and registered as hereinafter provided.
- 5. Every such wakfnama shall be presented for registration in accordance with the provisions of the law in force for the time being within four months from the date of its execution; and if the registering officer is satisfied that the requirements of this Act with reference thereto have been duly complied with, he shall register the same, and the wakf shall come into operation retrospectively from the date of its execution.
- 6. To every wakfnama presented for registra-Papers to be attached to wakfnama on registration. tion as aforesaid there shall be attached—
 - (a) a schedule containing a full specification of the property or properties intended to be comprised in the wakf, with a statement of the value thereof to the best of the executant's knowledge and belief;
 - (b) a schedule of any other property owned by him and the value thereof to the best of his knowledge and belief;
 - (c) a schedule of any charge or charges by way of mortgage or otherwise created by him on the property intended to be comprised in the

- wakf, or by any person through or under whom he derives title thereto, and any decree or decrees outstanding against him or such persons in execution of which such property is liable to be sold.
- When registration to be performed.

 When registration to be performed.

 Such further evidence as for the purpose hereinmentioned he may require to be produced before him, that the other charges and decrees (if any) mentioned in section 6 do not cover the entire property intended to be comprised in the wak/ or that the other property of the wakif is sufficient in his opinion to satisfy those charges and decrees, he shall record a finding to that effect and forthwith register the wakfnama.
- (2) For the purposes of the inquiry under this section it shall be lawful for the Registrar to examine the executant and witnesses on eath or affirmation, and the provisions of the Indian Registration Act, 1908, regarding the enforcing of X their appearance shall be applicable to all such proceedings.
- 8. If the Registrar finds upon inquiry that the said charges or decrees, if any, exceed the value of the property intended to be dedicated, and that the wakif has no other property to satisfy such liabilities, he shall refuse to register the document and record his reasons therefor.
- 9. In case of such refusal an appeal shall lie

 Appeal.

 Registrar to the officer
 authorized by law to hear appeals from such
 orders if presented within thirty days from the date
 thereof; and such officer may alter or reverse such
 order or make any other order that he considers
 just under the circumstances.
- When wakf to take effect after wakif's death.

 When wakf to take effect after wakif's death.

 signed by him and attested by two or more witnesses.
- 11. Such will may be presented for registra-Registration of will. tion either by the testator or by the person claiming to act as executor or mutwalli or beneficiary thereunder; and the provisions of Part VIII of the Indian Registration Act, 1908, and a of sections 6 and 7 of this Act shall be applicable to all proceedings for obtaining the registration of such will.
- 12. The penalties provided under the Indian Registration Act, 1908, for offences thereunder X shall apply to offences committed under this Act.

21

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to remove disability and great hardship that has been created by the recent decisions of the Privy Council in Abul Fata Mahomed Ishak and others v. Russomoy Dhur Chowdhry and others, L. R. 22 Ind. Ap. 76 and other cases. The power of a Mussalman to make a settlement for or in favour of his family, children and descendants or what is known as wakf-alal-aulad to the Mussalman Law is paralysed.

In the case above cited it was held that under Mussalman Law a perpetual family settlement expressly made as wakf is not legal and valid merely because there is an ultimate gift to the poor and it confirmed the decision in Ashunulla Chowdhry v. Amarchand Kundu, reported in L. R. 17 Ind. Ap. 37, the principle of which was approved in a subsequent case of Abdul Gufur v. Nizamudin, L. R. 19 Ind. Ap. 170, where it was laid down that a gift is not good as wakf unless there is a substantial dedication of the property to charitable uses at some period of time or other.

The decision does not fix any limit of time, it simply says "some period of time or other". It does not define what is "substantial dedication". Thus it introduces the greatest uncertainty in the law, and is generally opposed to the true principles and correct exposition of the Mussalman jurisprudence. This Bill is intended only to reproduce the Mussalman law of wakf-alal-aulad in a codified form with certain safeguards for the authenticity of the wakfnama and for prevention of fraud upon creditors or otherwise.

It is not intended to codify or define the general Law of wakf which must be governed by the Mussalman Law. The Bill is a simple one and the important provisions are as follows:—

Clause 3—Defines the power of a person professing Mussalman faith to create wakf.

Clauses 4 and 5 - Are intended to secure authenticity of wakfnama and prevent fraud upon creditors or otherwise.

Clause 10-Deals with testamentary wakf.

Clause 11—Deals with registration of wills and empowers the persons mentioned therein to have the will registered.

M. A. JINNAH.
